An Overview

February 2020

Background

Incorporated in 1998, IGL is a Joint Venture of GAIL and BPCL. Govt. of NCT of Delhi is also holding 5% equity.

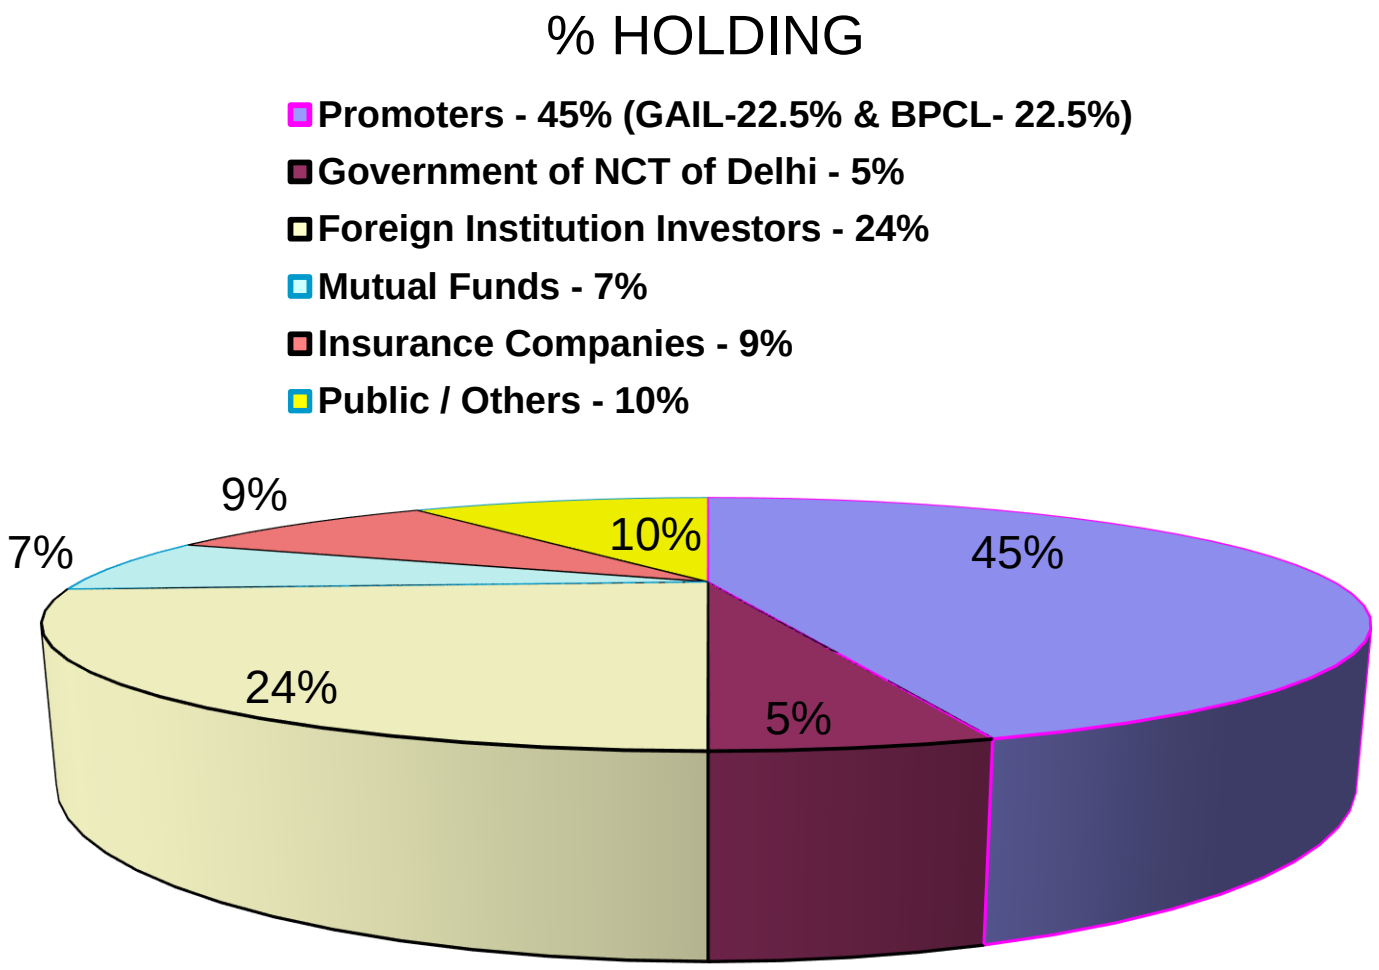
The company was listed in stock exchange in December 2003.

IGL started its operations in NCT of Delhi in 1999 with only 9 CNG stations and 1000 PNG consumers

Today IGL has its operations in NCT of Delhi, Noida, Greater Noida, Ghaziabad, Rewari, Karnal and Muzaffarnagar with 524 CNG stations, 12.93 lacs residential consumers and ~5300 industrial / commercial customers

Fuelling the largest CNG Bus fleet in the World

Shareholding Pattern



Management

- IGL Board is fairly well diversified with ten members including two each from GAIL and BPCL, one from Govt. of Delhi and five independent directors (Presently there are two independent directors).

- The company is beneficiary of its strong parentage and gets significant support from GAIL and BPCL relating to operations and management.

- By virtue of the presence of Govt. of Delhi as a minority shareholder, the company gets support for speedy administrative approvals.

- The company has highly qualified senior management personnel with several years of experience in Oil & Gas sector.

Areas of Operation

- Delhi: National capital of India has huge demand potential:
  - where public transport vehicles have to necessarily run on CNG in view of the directions of the Hon. Supreme Court of India.
  - has the highest number of private cars compared to any other city of India
  - thickly populated having large number of residential & commercial complexes and hospitals etc.

- Noida: Most advanced city of state of Uttar Pradesh having huge potential for CNG, PNG-Residential and commercial volumes.

- Greater Noida and Ghaziabad: Residential cum Industrial towns of Uttar Pradesh having huge potential demand for PNG Residential, Commercial and Industrial. PNGRB has recently clarified that the GA of Ghaziabad includes Ghaziabad and Hapur Districts.

- Rewari, Dharuhera & Bawal: Bawal being an Industrial town of Haryana having huge potential demand for Industrial PNG.

- Karnal, Gurugram & Muzaffarnagar : CNG sale has started.

New Geographical Areas

- IGL has started sale of CNG at seven OMCs outlets & three DODO stations in Rewari and sale of PNG to Domestic households.
- IGL has recently got entry into Gurgaon to lay infrastructure; Initially the permission has been given for the area between west side of Sohna Road and NH 8 in Gurugram district. IGL has started sale of CNG at five stations.
- Matter regarding take over of supplies by IGL in Gurgaon District is in progress.

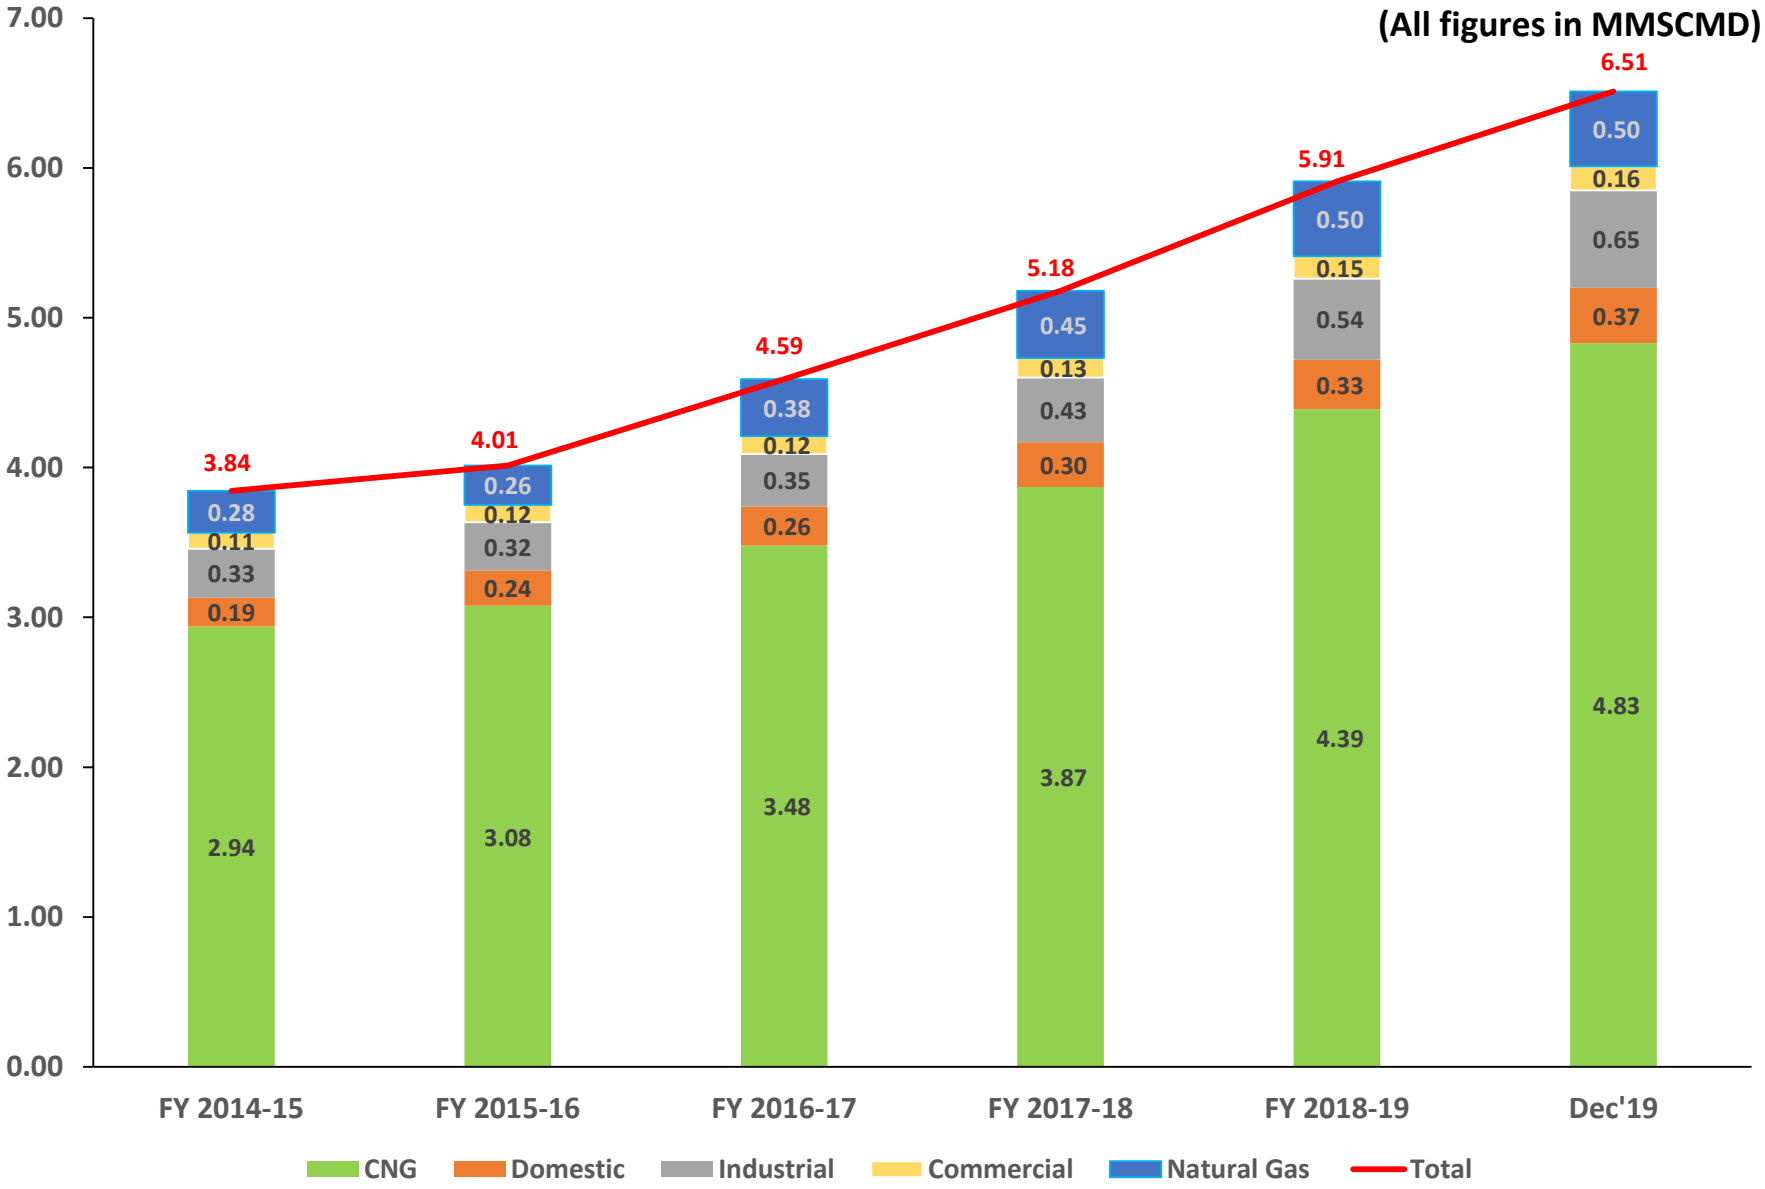
Volume Trends



Gas Sourcing

- Firm allocation from Govt. of India of domestic gas for the entire consumption of CNG and PNG Domestic segment. Lower prices of domestic gas makes the economics of switching to gas more attractive driving growth in CNG & PNG- Domestic segments which constitute around 79% of the total sales volumes. Sale to other CGD (8%) is catered through domestic gas.

- Have tied up long term contract for RLNG to meet PNG Industrial & Commercial demand.

- Buying short term gas from the open market (Shell, IOCL, Petronet, GSPC, BPCL etc.).

Growth-Strategy

- Improve/Augment CNG infrastructure/Stations in Delhi & NCR to meet the additional demand in view of conversion of private cars and improvement in public transport system

- Improve penetration of PNG business :
  - Penetration of network in all charge areas
  - Target Industrial/Commercial customers in both Delhi & NCR

- Bidding for new cities

- Synergy

- Keeping pace with the changing environment – Automation, Better Infrastructure

Credit Strength

- Healthy profitability with strong cash generations from operations.
- Regained the status of zero debt company.
- Comfortable working capital position.
- ICRA Limited (An associate of Moody's Investors Service) has reaffirmed highest credit ratings of AAA (Stable) for term loan and A1+ for short term loan.

Risks & Mitigations

- Gas price
  - CNG & PNG-Residential prices remains competitive vis-à-vis petrol and subsidised LPG in view of allocation of domestic gas
  - Spot/short term gas is purchased to reduce the weighted average cost of gas for I/C segment.

- Sourcing of gas
  - Firm allocation from Govt. of India for domestic gas – buying from GAIL.
  - Buying Long term TRLNG gas from GAIL/BPCL
  - Buying short term gas from the open market i.e. IOCL, GSPCL, PLL & Shell etc.

DDA Case

Delhi Development Authority (DDA) has raised a total demand of ₹155.64 crores during 2013-14 on account of increase in license fees in respect of sites taken by the Company on lease from DDA for setting up CNG stations in Delhi. The increase in license fees was related to the period 1 April 2007 to 31 March 2014. The Company has filed a writ petition on 11 October 2013 before the Hon'ble Delhi High Court against the demand raised by DDA as the revised license fees has been increased manifold and made applicable retrospectively from financial year 2007-08. Further, DDA vide communication dated 29 August 2016 has revised the total demand to ₹330.73 crores for the period upto 31 March 2016.

The matter is pending in the Hon'ble High Court of Delhi and the Company is of the view that such demand is not tenable and accordingly no provision has been made for this demand raised by DDA till 31 March 2016 in the books of accounts.
