Tata Motors Passenger Vehicles to increase prices of its Cars & SUVs from December 2026

Mumbai, November 24, 2026: Tata Motors Passenger Vehicles Ltd. (TMPV), India's leading manufacturer of cars and SUVs, today announced a revision in the prices of its entire portfolio, covering both internal combustion engine (ICE) and electric vehicles (EVs). The revision will result in an average price increase of 0.5% and will come into effect from December 1, 2026.

This revision is being undertaken to partially offset the impact of rise in input costs which continue to remain elevated. While TMPV continues to absorb a significant portion of these increases, a part of the impact is being passed on to customers through this increase. The extent of price revision will vary across models and variants, ensuring that every vehicle continues to deliver meaningful value to customers.
