Frequently Asked Questions (FAQs)

1) What is the purpose for introduction of ASM framework?

In order to enhance market integrity and safeguard interest of investors, Securities and Exchange Board of India (SEBI) and Exchanges, have been introducing various enhanced surveillance measures such as Graded Surveillance Measure (GSM), reduction in price band, periodic call auction and transfer of securities to Trade for Trade segment from time to time.

The main objective of these measures is to -

-  Alert and advice investors to be extra cautious while dealing in these securities
-  Advise market participants to carry out necessary due diligence while dealing in these securities.

In continuation to various surveillance measures already implemented, SEBI and Exchanges, pursuant to discussions in joint surveillance meetings, have decided that along with the aforesaid measures there shall be Additional Surveillance Measure (ASM) on securities with surveillance concerns based on objective parameters viz. Price variation, Volatility etc.
