NSE partners TCS for certification courses to upskill BCom students

Through Industry Honour Certification (IHC) students will have hands-on learning on financial markets, banking, wealth, risk management

Bureau|23 July 2020

NSE Academy has partnered with TCS iON to launch Industry Honour Certification courses for BCom students. The courses are aimed at boosting the employability of commerce students and enhancing their skills in banking, financial services, and insurance industry.

TCS iON is a digital learning platform of Tata Consultancy Services which aims to increase the efficiency of the recruitment process and upskilling of various organisations. NSE Academy Limited is a subsidiary of the NSE, which promotes financial literacy.

The Industry Honour Certification (IHC) will enable students to get hands-on learning on markets, banking, and wealth and risk management.

The elective courses that will be made available are banking fundamentals, insurance & risk management, financial derivatives, financial markets & services, investment management, and wealth management; and are aligned as per the UGC curriculum. The students will also have access to NSE SMART, a trading simulator, for hands-on market training.

Students will also get support for securing internships and placements in partner organisations. They will also be provided with digital certificates and awarded credits on completion of the course.

Terming BFSI (banking, financial services, and insurance) industry as the fastest-growing segment for job creation, Ravi Varanasi, chief business development officer of NSE said, "This initiative is to bridge the employability gap in the industry and build an effective talent pool."

Meanwhile, Venguswamy Ramasamy, global head of TCS iON termed this as an effort to develop human capital to prepare students for the BFSI industry.

NSE Academy, TCS iON collaborates to launch Industry Honour Certification courses for BCom students

Bureau|24 July 2020

The NSE Academy Limited (NAL), a wholly owned subsidiary of National Stock Exchange of India Limited (NSE) NSE has partnered with TCS iON, a strategic unit of Tata Consultancy Services (TCS), a leading global IT services, consulting and business solutions organisation to launch Industry Honour Certification (IHC) courses for BCom students.

The courses are aimed at boosting the employability of commerce students and enhancing their industry readiness. Through this collaborative effort, students will have the opportunity to enroll for industry-relevant courses designed and delivered by renowned experts, as part of their academic programme. The objective is to make students industry-ready through applied knowledge and hands-on learning.

List of courses offered:

The elective courses available for the students are Banking Fundamentals, Insurance & Risk Management, Financial Derivatives, Financial Markets & Services, Investment Management and Wealth Management. The courses ensure experiential learning through case study assignments and NSE SMART, the trading simulator application (Powered by NSEIT).

Students will have access to digital and multimodal content, interactions with industry and academic experts, and hands-on experience through industry assignments and practice tests.

What NSE's chief BDO had to say

Commenting on the partnership, Ravi Varanasi, Chief Business Development Officer, NSE said: "BFSI industry is the fastest growing segment for job creation and careers in finance are a favoured choice for graduates. This is one more step from NSE Academy to bridge the employability gap in the BFSI industry and build a future-ready pool of talent in this space."

"We are delighted to start this partnership with TCS and plan to bring many more innovative offerings for students pursuing higher education," he added.

What TCS iON's global head stated

Venguswamy Ramaswamy, Global Head, TCS iON said: "We are pleased to launch these courses in collaboration with NSE Academy to create an industry-ready stream of commerce graduates."

"At TCS iON, we are constantly innovating new methods to reimagine the education ecosystem. We are committed to supporting the country's human capital development initiative with a vision to prepare our students for tomorrow's competitive world. Our unique methods help us scale learning initiatives along with impactful outcomes," he added.

To make the courses available to their students, institutes can register here.
