### NSE launches derivatives on Nifty Financial Services Index

The index consists of 20 stocks and is designed to reflect the behaviour and performance of the Indian financial market, which includes banks, financial institutions, housing finance, insurance companies and other financial services companies.

11 January 2021

The National Stock Exchange (NSE) on Monday launched derivatives on the Nifty Financial Services Index, which will give more flexibility to institutional as well as retail investors to manage their hedge.

This is the first time that the exchange has made available weekly futures for stock index derivatives.

The index consists of 20 stocks and is designed to reflect the behaviour and performance of the Indian financial market, which includes banks, financial institutions, housing finance, insurance companies and other financial services companies.

The financial services space assumes significance, as the sector accounts for 33.5 percent of the Nifty 500 Index.

At 13.35 pm on Monday, as many as 5,464 contracts got traded in futures and 81,772 contracts were traded in options. The index witnessed a turnover of over Rs 378 crore, according to the exchange.

Currently, the exchange offers index derivatives on only two equity indices -- Nifty 50 Index and Nifty Bank Index.

According to recent investment data of foreign portfolio investors (FPIs), 48 percent of new investment flows were channelised into the financial services sector, which accounted for 35 percent of the assets under the custody of FPIs, the exchange noted.

Further, many of the asset management companies have mutual fund schemes on the financial sector theme.

### **NSE F&O contract on Nifty Financial Services index sees 1.4 lakh volume on Day 1**

The financial services space assumes significance, as the sector accounts for 33.5 per cent of the Nifty 500 Index

11 January 2021

The National Stock Exchange (NSE) today launched derivatives on the Nifty Financial Services Index, which will give more flexibility to institutional as well as retail investors to manage their hedge.

The first day witnessed volumes of 1.4 lakh contracts being traded worth Rs. 511 crores and open interest of 28,219 contracts at the end of the day.

311 trading members across the country participated in the index derivatives. The trading members involved in the execution of the first trades are East India Securities Ltd., Marwadi Shares & Finance Limited and Zerodha Broking Limited. The near week futures contract last traded price was at a premium of 37 basis

points to the closing Nifty Financial Services index value while the near monthly futures contract last traded price was at a premium of 49 basis points to the Nifty Financial Services closing index value.

On the occasion, Mr. Vikram Limaye, MD & CEO, NSE said "Financial services is an important sector in India's economy. The Nifty Financial Services Index reflects the behaviour and performance of the Indian financial services sector which includes banks, financial institutions, housing finance, insurance companies and other financial services companies. This is the first-time NSE has introduced weekly futures for the stock index derivatives. The index derivatives will provide a new risk management tool to investors with exposure to the financial services sector."

The Nifty Financial Services index has a 94% correlation and a Beta value of 1.2 with the Nifty 50 Index. The Nifty Financial Services index has delivered annualized returns of 16.59% in last 5 years.

The Nifty Financial Services index futures and options contracts with its contract symbol "FINNIFTY" are available with trading cycle of 7 serial weekly excluding the monthly expiry and 3 serial monthly contracts. The derivatives are cash settled with expiry day being the last Thursday of the expiry month for the monthly contracts and Thursday of the expiring week for weekly expiry contracts. The option contracts are European styled Call Option (CE) and Put Option (PE) with strike scheme of 30-1-30 and strike interval of 100.

Exchange has provided a transaction fee waiver on the Nifty Financial Services Index derivatives up to June 30, 2021.

## NSE ने दी निवेशकों को बड़ी सुविधा, निफ्टी फाइनेंशियल सर्विसेज इंडेक्स डेरिवेटिव ने आज से ट्रेडिंग शुरू की

Nifty Financial Services Index Derivatives: निफ्टी फाइनेंशियल सर्विसेज इंडेक्स निफ्टी और निफ्टी बैंक (Nifty Bank) के बाद तीसरा इंडेक्स बन गया है जो आज के कारोबार को प्रभावी बनाने के लिए फ्यूचर और ऑप्शंस सेगमेंट में उपलब्ध होगा.

Nifty Financial Services Index Derivatives: नेशनल स्टॉक एक्सचेंज (National Stock Exchange) ने शेयर बाजार के निवेशकों के लिए एक खास सुविधा शुरू की है. एनएसई (NSE) ने आज से एक्सचेंज के फ्यूचर और ऑप्शंस सेगमेंट (Futures and Options segment) में निफ्टी फाइनेंशियल सर्विसेज इंडेक्स डेरिवेटिव (Nifty Financial Services Index Derivatives) के लॉन्च की घोषणा कर दी है. इसके साथ ही आज से फाइनेंशियल सर्विसेज इंडेक्स डेरिवेटिव ने ट्रेडिंग शुरू कर दी है. निवेशक निफ्टी फाइनेंशियल सर्विसेज इंडेक्स डेरिवेटिव्स को लाइव देख सकते हैं.

### बना तीसरा ऐसा इंडेक्स Became the third such index

निफ्टी फाइनेंशियल सर्विसेज इंडेक्स निफ्टी और निफ्टी बैंक (Nifty Bank) के बाद तीसरा इंडेक्स बन गया है जो आज के कारोबार को प्रभावी बनाने के लिए फ्यूचर और ऑप्शंस सेगमेंट में उपलब्ध होगा. यह इंडेक्स बैंकों, वित्तीय संस्थानों, हाउसिंग फाइनेंस, इश्योरेंस कंपनियों (Banks, Financial Institutions, Housing Finance, Insurance Companies) और दूसरे फाइनेंशियल्स को ट्रैक करता है. ऐसा पहली बार है, जब एनएसई वीकली फ्यूचर और वीकली ऑप्शंस एक्सपायरी ऑफर करेगी.

### इंडेक्स का परफॉर्मेंस Index performance

खबर के मुताबिक, निफ्टी और निफ्टी बैंक के मुकाबले, निफ्टी फाइनेंशियल सर्विसेज इंडेक्स (Nifty Financial Services Index) पिछले 1 साल में कमजोर रहा है, लेकिन अगर इसके पिछले 3 और 5 सालों के परफॉर्मेंस को देखें तो यह बेहतर रहा है. निफ्टी फाइनेंशियल सर्विसेज इंडेक्स 20 स्टॉक का इंडेक्स है, जबकि बैंक निफ्टी 12 स्टॉक का इंडेक्स है.

**NSE launches derivatives on Nifty Financial Services Index**

11 January 2021

The National Stock Exchange (NSE) on Monday launched derivatives on the Nifty Financial Services Index, which will give more flexibility to institutional as well as retail investors to manage their hedge.

This is the first time that the exchange has made available weekly futures for stock index derivatives.

The index consists of 20 stocks and is designed to reflect the behaviour and performance of the Indian financial market, which includes banks, financial institutions, housing finance, insurance companies and other financial services companies.

The financial services space assumes significance, as the sector accounts for 33.5 per cent of the Nifty 500 Index.

At 13.35 pm on Monday, as many as 5,464 contracts got traded in futures and 81,772 contracts were traded in options. The index witnessed a turnover of over Rs 378 crore, according to the exchange.

Currently, the exchange offers index derivatives on only two equity indices -- Nifty 50 Index and Nifty Bank Index.

According to recent investment data of foreign portfolio investors (FPIs), 48 per cent of new investment flows were channelised into the financial services sector, which accounted for 35 per cent of the assets under the custody of FPIs, the exchange noted.

Further, many of the asset management companies have mutual fund schemes on the financial sector theme.
