Chairman's Message

Dear Shareholders,

I am pleased to write this communication to you in the 30th year of the Company. In this journey of three decades, the Company has faced many challenges, each bigger than the other. It is through our journey of challenges and our pursuit of excellence that we have grown into a larger and stronger organisation year on year. Our ongoing pursuit of excellence has been accompanied with learning and continuous improvement, both critical to Quality becoming a way of life. The three pillars which guide us in our journey towards quality excellence are continuous improvement in technology, training and sustainability.

Global and Domestic Economic Affairs

Today's era of globalization is characterised by an increasing dependence of domestic economies on international factors. With EU facing unabated headwinds and US clocking in lower than expected economic recovery, the year under review started on a cautious note. Stumbling global economies amid weak aggregate demand, falling commodity prices and increasing financial market volatility in major economies were among the main cause for concern. A serious crisis in the Middle Eastern countries and an economic slowdown in China further added to the woes of the global economy.

Unfortunately, global uncertainty and volatility continued through the year. The global economy which grew at less than 3.1 per cent in 2015 is expected to grow at 3.2 per cent in 2016. This flat or downward international trend is a result of several factors. Global recovery is expected to remain moderate to uneven over the next few years. While developed economies, including the US, are expected to strengthen aided by lower oil & input costs and low interest rates, most emerging economies are expected to slow down moderately, due to country specific reasons, however India seems to be an exception.

Britain's exit from the European Union (Brexit) is projected to make an impact on the global economy. Going forward, if it undermines the confidence of the European Union, Brexit is likely to have a strong spill over effect. Together with a fall in the Euro, this is likely to add to the pressures on private and public finances, especially in countries where debt remains high. This risk would compound the ongoing political tensions of the European Union that are a result of the large refugee inflows and ongoing financial efforts to stabilise Greece. I believe that in the short run Brexit will not have a significant negative impact on the Indian Economy. However, over the medium term India's exports volumes will be determined by the severity of the slowdown in Europe, UK and its impact on the exchange rate.

Nevertheless, conditions relating to finance availability, an increasingly neutral fiscal policy in the Euro area, lower fuel prices globally, improved labour and input markets will together push growth over the next few years. In view of this environment, which is expected to be further supported by generally less restrictive fiscal and accommodative monetary stances worldwide, global growth is expected to strengthen to 3.7 per cent in 2017.

The Indian economy that has successfully faced many challenges in the past, is currently on a growth trajectory on the back of committed policies, a stable government and a new found optimism. Consumer and investor sentiments are showing signs of improvement. In the previous years, the economy faced tough times with issues such as low growth rates, high levels of inflation, high fuel & capital costs and a widening current account deficit; escalated by an unsupportive external environment. Growth seems to be on track, accompanied with the desirable mild inflation, a manageable current account balance on the back of a stable rupee and rising foreign exchange reserves, signalling the much awaited improvements in the macro-economy.

Today India is the seventh-largest economy in the world measured by nominal GDP and the third-largest by purchasing power parity (PPP). Classified as a newly industrialised country, India is amongst the major G-20 economies. A member of BRICS India replaced People's Republic of China as the world's fastest growing major economy in the last quarter of 2014. India is a fast developing economy having clocked in an average growth rate of over 7 per cent over the last few years.

India's long-term growth prospects remain positive given its young population, corresponding low dependency ratio, healthy savings and investment rates, and an increasing integration into the global economy. India has the potential to become the world's 3rd-largest economy by the next decade. The International Monetary Fund has termed India as the "bright spot" in the global landscape, reiterating the country's short term growth outlook. With the economy having grown at 7.6 per cent in 2015-16 and expected to grow at 8.0 per cent \pm 0.25 per cent in 2016-17, India for the first time topped the World Bank's growth outlook for 2015-16.

It was for the first time that the two major contributors to the GDP, i.e. the Manufacturing and Services sector grew almost at the same rate i.e. approx. 9 per cent. Due to less than normal rainfall, the agriculture sector grew by a mere 1.2 per cent. On a cumulative basis, the IIP growth during 2015-16 was 2.4 per cent, as compared to 2.8 per cent during 2014-15. The country's Foreign Exchange Reserves stood at USD 360.20 billion at end of March 2016.

The IMF has retained India's growth potential at 7.8 per cent and maintains that this growth trend will continue to be driven by private consumption, lower energy and fuel prices and higher real incomes. The IMF also states that "With the revival of sentiment and pickup in industrial activity, a recovery of private investment is expected to further strengthen growth."

A comfortable level of Current Account Deficit (CAD) has also brought cheer to the economy. After high and near unsustainable CAD levels between 2011-12 to 2013-14, India's balance of payments situation since has improved considerably. The recent weakness in external demand has marginally affected exports. Nevertheless, CAD as a proportion of GDP has remained at comfortable levels in 2014-15 & 2015-16.

With the Parliament passing the relevant Constitution Amendment Bill, India moved a major step closer towards a unified goods and services tax regime across the country. This move is seen as the most radical indirect tax reform since India's independence. I have always maintained that GST will help faster and cheaper movement of goods across the country with a uniform taxation structure. This is a critical step towards creating a single market and will also make a positive impact of about 1 to 1.5 per cent on the GDP.

GST's successful implementation would give a strong signal to foreign investors about our ability to support business. It will also enable wide ranging changes in the tax structure leading to long term positive effects on the economy.

Numerous Indian and foreign companies are setting up their facilities in India on account of various government initiatives like 'Make in India' and 'Digital India'. These initiatives are expected to boost the contribution of the manufacturing sector to the GDP from the current 15 per cent to 25 per cent. These initiatives are also expected to increase the purchasing power of an average Indian consumer, which would further boost demand, lead to creation of digital infrastructure and hence spur development, in addition to benefiting investors.

Indian Automobile Market and our Future Outlook

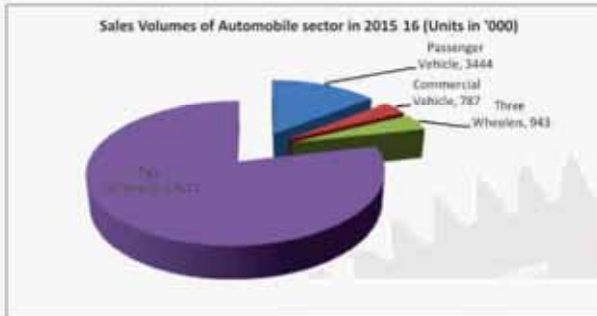

It is very heartening that the Indian automobile industry, notching domestic sales of over 20 million vehicles for the first time ever, crossed an important milestone this year. Export sales also recorded an increase to 3.64 million vehicles. Automotive industry is truly an engine of growth for the Indian economy. The automotive industry accounts (both auto and auto components) for 45% of the country's manufacturing gross domestic product (GDP), 7.1% of the country's GDP and employs about 20 Million people both directly and indirectly.

The industry has recorded satisfactory volume growth, based on a strong base from previous years. The rise in demand is led by various underlying factors including India's rising per capita income, increasing rural demand, growing urbanisation, increase of replacement demand amongst others.

The industry includes passenger vehicles, light and heavy commercial vehicles and two wheelers, as well as productivity machinery such as tractors. India manufactured and assembled about 23.96 million vehicles in comparison to 23.36 million vehicles in the previous year, recording a marginal but steady growth of 2.58 per cent. Similarly, at 3.42 million the production of total passenger vehicles (PV) recorded a growth of 5.97 per cent. Total PV sales (including exports) stood at 3.44 million vehicles with a growth of 6.86 per cent.

The sales of Two Wheelers stood at 18.94 million against 18.46 million units in previous year, thereby registering a growth of 2.73 per cent. Commercial vehicles, said to be the back bone of the economy, were the highlight of the sector. Total sales at 0.78 million grew by 12.18 per cent. Of total production, tractors accounted for a considerable percentage. India, accounting for 29 per cent of the world's tractor production, is the world's largest producer of and the largest market for tractors.

The Indian automobile market made its mark in the world by manufacturing quality products at competitive prices. The Automobile & Auto Component sectors go hand in hand. The Indian auto component industry is amongst the country's rising industries, with tremendous growth prospects. From a low-key supplier providing components exclusively to the domestic market, the industry has emerged as one of the key auto component centers in Asia. Seen as a significant player in the global automotive supply chain, India is a supplier of a range of high-value and critical automobile components to most global automobile manufacturers. The high quality, low priced engine parts, transmission parts, brake systems and other components made in India are amongst the world's favourite. A major contributor to achieving this status is also the technology support extended by India's auto component companies to the automotive manufacturers.

Globally the auto component industry is evolving very fast. The component industry is thus faced with new challenges - dealing with regulatory pressures, increasing the automation requisite to delivering quality products, the need to manage costs and raise productivity, maintaining quality and supplying components in a just-in-time (JIT) mode on the production line, ensuring compliance to environmental issues are only some of these. While the challenges are many, they bring with them numerous opportunities as well. The industry would stand to gain from the learning and innovation experiences.

GST is expected to make a positive impact on all Sectors, including the automotive sector. Currently the effective tax rate for the sector ranges between 30- 47 per cent. On implementation of GST, the tax rate is expected to oscillate between 20-22 per cent. It is expected to drive overall demand and reduce end user's cost by about 10 per cent. With reduced time at Octroi and other check points, the transportation time and overall costs are expected to reduce. In addition, the logistics and supply chain inventory costs will be curtailed by almost 30-40 per cent.

Another positive change can be brought about by introducing an effective vehicle scrappage policy. The Automotive Mission Plan 2026 has alluded to the repair, and recycling of automotive vehicles, components and services. A policy that encourages scrapping of old vehicle through compensation to owners will ensure that the old vehicles do not find their way to other cities. Recommendations of the Ministry of Road Transport including

discounts by automobile manufacturers and a possible cut in excise tax on the purchase of a new car and payment of a fair value for the scrap could be welcome steps. India could benefit from examining the strategies adopted by the European Union as well as Canada.

Industry body ACMA has projected that the industry is expected to grow in the range of 10-12 per cent in the current fiscal on hopes of above-normal monsoon, availability of easy finance, flow of money after implementation of 7th Pay Commission and recovery in the domestic automobile market.

Company Performance and Strategy

Your company is amongst the few to supply products such as gears, engine and transmission components to OEMs of different categories such as two wheelers, commercial vehicles, passenger vehicles, tractors and off road equipments.

The financial year 2015-16 was full of challenges, but proved to be an encouraging year. The Total Revenue of the Company was Rs. 452.2 crores compared to Rs. 434.5 crores in the previous year. The PBT was Rs. 33.6 crores and PAT stood at Rs. 21.1 Crores compared to Rs 26.3 crores and Rs. 18.4 crores respectively in the previous year. I am happy to inform you that with a view to sharing the gains, your Board of Directors had declared an interim dividend of 15 per cent and further recommends a final dividend of 15 per cent for your approval.

In terms of business development, the company is negotiating with several new customers. Some new products are also under development in line with the Company's expertise in gear & transmission manufacturing. These new developments are expected to add to the company's revenues in the years to come. Further, the Company continues to focus on cost reduction efforts and make improvements in operational efficiencies as well as value engineering activities to improve the margins. Additionally, your company has made its mark as a leader of sustainable manufacturing. Our state-of-the-art Plant in Bhiwadi is operating to its capacity now while minimizing wastes and pollutants.

The Board is competent with both executive and non executive Directors possessing a wide range of expertise. The Board continued to perform its role of monitoring the Company's performance, including its operational & financial performance, and progress in delivering new growth. In terms of strategy your Company is following a consistent and long term strategy, to grow cash flow across the cycle and deliver competitive returns through focus on quality and timely delivery.

We are exploring organic and inorganic growth options in the NAFTA Region for new manufacturing locations and to create a delivery hub without affecting the existing business. We also propose to have our footprint in South India to efficiently meet the requirements of our customers.

I, on my behalf and on behalf of my colleagues on the Board would like to thank and record our sincere gratitude to all our stakeholders for the confidence & trust reposed upon us and our deep appreciation to all employees of the Company for their hard work, commitment and whole hearted support for achieving the Company's goals and targets. I further thank all our customers, our supply chain partners and our bankers for reposing their confidence in us. As we step into a new phase, there are many reasons to be excited about the future of our business. We look forward to your continued support in the years ahead.

Chairman

Managing Director's Message

Dear Shareholders,

This 30th Annual Report of the Company provides me another opportunity to interact with you and update you on the affairs of the Company. The performance of the Indian Economy in 2015-16 has proved to be satisfactory in many spheres with an improvement in the macroeconomic parameters. This was made possible despite the many concerns being raised about the global economic environment. Your Company has also grown in line with the automotive industry's growth.

Macro Economic updates

The global economy continues to struggle with almost little or no growth in the year gone by. It was a year of mixed fortunes for the world economy. While advanced economies reflected a pick-up in growth relative to the previous year, emerging market & developing economies witnessed a slowdown. The continued decline in oil prices, quick adjustments in exchange rates, threat of terrorism in many countries, the exit of Britain from the European Union, the appreciation of the US dollar and weakening of most other currencies, notably the Euro have had a major impact on global trade flows.

The US economy has performed comparatively well in the last couple of years due to factors such as improvement in domestic demand, advantage of drop in global oil prices and an accommodative monetary policy. After experiencing extremely difficult situations in the past, the year 2015 exhibited some stability in many large and emerging economies.

In my earlier communications, I have referred to the VUCA (Volatile, Uncertain, Complexity and Ambiguous) environment. On Brexit, our take is that it is another VUCA phenomena that may shift the global business landscape to some extent. Necessary adjustments to the related currencies will be the first and foremost outcome. This is also causing concern to automobile manufacturers as they fear an increase in costs on account of imposition of tariff barriers and possible job losses, if Brexit is not managed efficiently.

Converse to what is happening around the world 2015-16 has proved to be better for the Indian economy. India's GDP gained momentum in the final quarter and pushed full-year growth to a five-year high. GDP grew at 7.6% in FY 15-16, an improvement from 7.2% in the previous fiscal year. It primarily reflected robust growth in private consumption, which accounts for nearly 60% of the economy. India could have achieved an even better growth, if there had been a better monsoon, proper utilisation of resources and positive economic headwinds from abroad.

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF). According to the Economic Survey 2015-16, the Indian economy will continue to grow more than 7.5% in 2016-17. Thus, India is set to have another year of strong growth propelled by healthy domestic dynamics. Inflation remaining under control and a rapidly-expanding middle class should continue supporting private consumption. The improvement in India's economic fundamentals has accelerated & will continue in present fiscal with the combined impact of strong

government reforms, RBI's inflation focus supported by benign global commodity prices. India was ranked the highest globally in terms of consumer confidence during the year, despite the uncertainties in the global market.

Starting in 2012, India entered a period of anaemic growth, with growth slowing down to 5% levels. India started recovering in 2014-15 when the growth rate accelerated to 7.2%. In 2015-16, GDP growth went up further to 7.6%, despite a poor monsoon, thanks to the various initiatives taken by the Government. Helped by the RBI's strict monetary policies retail inflation (CPI) has come down to 5.4%. The Current Account deficit has also come down to 1.4% of GDP at the end of this fiscal year and the Fiscal Deficit is also being controlled. The Government has retained the fiscal deficit target to 3.9% of GDP for 2015-16 and 3.5% of GDP for 2016-17. Foreign exchange reserves also touched their highest ever level of about US\$ 350 billion in the recent past.

The Government have taken many initiatives by issuing schemes to encourage and boost the economy. The initiatives are: **Startup India** is a Government of India flagship initiative to build Startups and nurture innovation. Through this initiative, the Government plans to empower Startup ventures to boost entrepreneurship, economic growth and employment across India. **Make in India**: the key objective of the campaign is to invite businesses not only in India but across the world to invest & manufacture in India. **Make in India is recognized globally and has featured in "100 Most Innovative Global Projects"**. Make in India initiative is an honest attempt to revive the fortunes of the manufacturing sector as the revival of the manufacturing sector is key to revival of the Indian economy. **Digital India** will ensure that **Government services are made available to citizens electronically. It is an initiative for connecting rural areas with high speed internet and improving digital literacy with a vision of inclusive**

growth in areas of electronic, service, products, manufacturing.

Automotive Sector:

The Auto industry is one of the most vibrant sectors of the Indian economy. Three powerful challenges are now impacting the auto industry: Shifts in consumer demand stricter requirements for safety & fuel economy and quality products at competitive cost. The Indian Auto & Auto Component sectors have been working tirelessly in all three areas and are geared for further improvements & growth in the coming years. Thus, we can say that the Indian automotive market is full of great opportunities and is capable of scaling new heights. The Industry therefore did register growth despite the many challenges faced by it during the period.

In 2015-16, the industry registered a growth of 3.49% over the same period last year by selling 24,110,931 vehicles compare to 23,297,717 vehicles in the previous year. It is heartening to note that the growth in commercial vehicles segment was the dark horse among all categories of vehicles and registered the highest growth of 12.18%. The volumes in the industry consist of passenger vehicles (PVs) 14.28%, Commercial Vehicles, including heavy and medium vehicles at 3.26%, Three-wheelers 3.91%.and Two-wheelers, which account for 78.54%.

Two wheelers have always had a major share of volumes in the total output; however there was limited growth in the previous year except in the case of scooters. The reason could be the prevailing high base and the low rural demand, due to a below average monsoon. The segment produced and sold (both domestic and exports) 18,829,786 units and 18,937,104 units compared to 18,489,311 Unit and 18,433,027 units in previous year, thus registering a marginal growth of 1.84% in production and 2.73% in sales. It is also worth noting that the growth of the scooter market is much higher than the motorcycle market, due to ease of driving and low maintenance costs.

Similarly, Passenger Vehicle segment produced and sold (both domestic and exports) 3,413,859 units and 3,443,567 units compared to 3,221,419 Unit and 3,222,577 units in previous year, thus registering a growth of 5.97% in production and 6.86% in sales. If we see exports in isolation, then 653,889 Units were exported compare to 621,341 units in previous years, thereby recording a growth of 5.24%. The commercial vehicles's growth in exports was significant at 101,689 Units compared to 86,939 units in the previous year which is an increase of 16.97%

Indian automotive and auto component makers are well positioned to benefit from the globalisation of the sector as exports potential could be increased to new heights. The development in infrastructure, the big domestic market, increasing purchasing power and a stable government framework are the other reasons, which have made India a favourable destination for investment. However there are certain factors that stand as challenges before the automobile industry. The most immediate challenge is the uncertainties of global markets, weaker outlook in Europe etc.

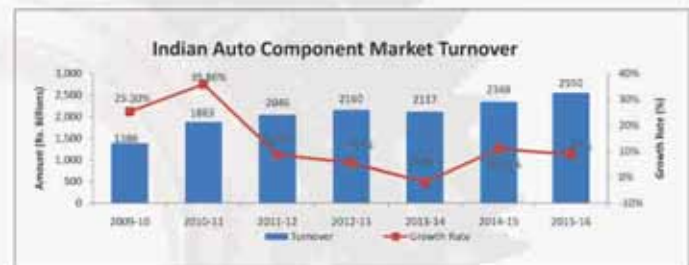

More and more OEMs and large investors in the auto and auto component sectors are investing in India due to favourable policies and conditions.

Many vehicle manufacturers today consider India as a key part of their global strategy for above reasons. Interestingly, this potential is not limited only to India, on the contrary the domestic auto

companies, have been trying to have their presence felt on the global stage by establishing their base. So, we can say, it is truly a global arena, where no physical boundaries are hurdles for business and growth.

The Indian auto-components industry can be broadly classified into the organised and unorganised sectors. The organised sector contributes 85% of the total business and it caters to the OEMs and consists of high-value precision instruments while the unorganised sector comprises low-valued products and caters mostly to the aftermarket category and contributes 15% of the total business.

The turnover of the auto component industry is Rs 2550 billion (USD 39 billion) for the year 2015-16, compared to Rs.2348 billion for the previous year , registering a growth of 8.51%. Exports of auto components edged up by 3.5% to Rs 70,900 crores from Rs 68,500 crores in 2014-15. However, imports of auto components grew by 9.3% to Rs 90,600 crores from Rs 82,900 crores. Besides, aftermarket sales in the period under review were higher by 12% to Rs 44,660 crore from Rs 39,875 crores in the previous fiscal 2014-15. Running with the expected pace, the auto component industry in India is likely to scale up to Rs. 6347 billion (USD100 billion) in turnover by 2020 with exports to grow the in range of Rs. 2221-2539 billion (USD35-40 billion).

Global automotive Original Equipment Manufacturers (OEMs) and suppliers recognise India as a key market today. The sector is witnessing significant changes in line with the global industry. Stringent emission and safety norms are playing an increasingly important role globally. In the recent past, the government has focussed on tighter emission norms to regulate air pollutants from vehicles and is promoting green vehicles. Of late, safety has also been attracting governmental attention. Evolving technologies and trends in connectivity, fuel efficiency, light weighting, ABS, EBD, electronics, etc. have only added to these complexities. While these developments do pose a host of challenges, they also open a lot of interesting opportunities for the Indian automotive sector.

Performance of the Company

2015-16 was another year in which we made consistent progress. The growth in sales turnover of the Company was similar to automotive industry growth. The total revenue of the Company increased to Rs 452.25 crores (net of excise duty) from Rs 434.59 crores in the previous year, registering a growth of 4.1%. The profit before tax was Rs 33.59 crores, compared to Rs. 26.29 crores in the previous year, registering a growth of 27.76%. Profit after tax stood at Rs 21.16 crores, compared to Rs. 18.42 crores in the previous year, registering a growth of 14.87%. Earnings per share (EPS) of the Company increased to Rs. 11.28 from Rs. 9.81 in the previous year. In additions to the improvement in performance, I am happy to inform you that your company now has very little debt, with almost no term loans.

Exports remain a bright point in the company's activities. The Company recorded an export turnover of Rs. 107.84 crores, compared to Rs. 93.17 crores in the previous year, thus recording an increase of 15.75 %.

Your company has an uninterrupted and constant track record of sharing profits with shareholders, who have placed their faith and capital in the Company. Keeping up the tradition, your Directors declared an interim dividend of 15%, i.e. Rs. 1.50 per shares. The same was declared and paid during the year, as per statutory process and period. Similarly, a final dividend of 15% i.e. Rs. 1.50 per shares is being recommended by the Board for your approval. The same if approved, will be paid to those whose name appears on the register of members, as per the book closure dates, announced in this regard. Thus, total dividend payout stands at Rs. 563.04 lacs (PY 469.20 lacs).

The recently launched Car Transmission Vertical is working as per its operating plan. This was launched to cater to the ever growing need for Car Transmission components in both the domestic and export markets.

Your company has the capability to achieve excellence in the coming years, because it has both consolidated and diversified its production capacity through significant internal re-organisation in both its core and strategic areas to prepare for the future. Secondly, it has proved its excellence in cutting edge innovation and technology to cater to both its domestic and international clients. Most importantly, it has renewed its commitment towards green manufacturing with its Green 'ECOFAC' plant which has been awarded the Gold level of certification by the India Green Building Council.

As you may be aware your company is among very few companies in the world which supply to OEMs manufacturing Two Wheelers to Commercial Vehicles, Tractors and Off-road vehicles in India and overseas. The Company's principle products include two wheeler transmission components, engine and transmission components for commercial and passenger vehicles, precision forgings etc. Your Company is also making consistent efforts to strengthen the portfolio.

As informed in my earlier message, your Company has not confined itself to the domestic markets but has made its presence felt globally. Your Company understands that the exposure to the global environment can lead to strong developmental opportunities. In coming times your Company wants to expand its

Global presence further and succeed in new areas keeping the requirement of the customer always in mind. Your Company has further identified both the customers and the potential partners with whom your company will go ahead. In view of the above, the company is exploring many organic and inorganic growth options overseas. In addition, the Company has a strong will to establish its footprint in southern India also. The Management has checked various opportunities in southern India and action is likely to be taken in the coming financial year subject to various approvals. Overall, the focus will continue to be on quality delivery at optimum costs.

Your Company has always been promoting and encouraging clean and sustainable technology. Various initiatives have been launched by the Company for such noble causes, details of which are provided in the Directors' Report. Another important milestone could be that the Company is finalising the project to establish a solar plant of appropriate capacity for generation of clean and renewable energy at one of its manufacturing units. This will not only save cost but most importantly avoid tonnes of CO2 generation per annum. Seeing the success and the feedback, management will implement the same initiatives to other units.

Steps initiated by the Company in implementation and absorption of lean manufacturing are consistently showing progress. A lean and efficient supply chain is critical to any manufacturing company. Further, your Company's commitment towards Total Productivity Maintenance (TPM) has yielded excellent results in quality design of products.

In respect of internal controls, your company has been working closely with Ms/. Grant Thornton, Internal Auditor of the Company with the objective of strengthening internal and financial controls, improving internal processes and related matters. They are directly reporting to the Audit Committee of the Board regularly every quarter. These Internal audits will continue though the Internal Auditors may be rotated periodically to ensure a fresh approach and outlook every few years. Internal Auditors are of the view that the internal control system in place is commensurate with the size of its operations. Further, to have better and sustainable control, a new ERP system is also under assessment. Management is hopeful that with the new system, it will have even better and prompt generation of MIS for controls.

Turning to people, Human resources have always been a priority and your Company ensures investing in people, because people are the Company's greatest assets. Your Company believes that people are the assets that must be valued, measured and developed. People are not hard-assets that depreciate in value and can be written off; they are dynamic assets that can increase in value with time. It is only with the determination and dedication of our people that we can serve our clients, generate long-term value for you and contribute to the growth of the country.

On behalf of The HGL team, I thank you for your continued support and assure you of our unceasing efforts to grow your Company's performance and image year after year.

General Information

India topped the World Bank's growth outlook for 2015-16 for the first time with the economy having grown 7.6% in 2015-16 and is expected to grow at 7-7.75% during FY 2016-17, despite the uncertainties in the global market according to IMF World Economic Outlook.

After seeing challenging times, the Indian automobile industry finally in growth mode from few years. Although, the revival is good for the industry, Manufacturing Sector & Economy as such, but the pace of growth is still to go very far. It is heartening to inform that all the vehicle categories, be it commercial vehicle or two vehicle saw the positive territory. The overall production of vehicle stood at 23,960,940 Vehicles compared to 23,358,047

Indian auto component industry registered a growth of 8.8% in 2015-16 with overall turnover of Rs. 2,55,600 crores (USD 39.0 billion). While overall exports from India witnessed de-growth of 9.58%, however the Indian auto component industry exports grew by 3.5%

reaching to Rs. 709,00 crores (USD 10.8 billion). ACMA President predicted that with the signs of recovery in India based auto market and prospects of a better monsoon, the component sector is expected to witness growth in double digits this year.

International Monetary Fund (IMF) earlier projected the global growth at 3.5%. However, due to moderate and uneven reasons, it remained at 3.1% for 2015 and is projected to grow at 3.2% in 2016, the same level 2015. Weak trade growth, sluggish investment, subdued wages and slower activity in key emerging markets will all contribute to modest global GDP growth and is expected to improve only to 3.5% in 2017. This reflects a combination of subdued aggregate demand, poor underlying supply-side developments, with weak investment, trade and productivity growth, and diminished reform momentum.

Operations

Detailed information on the operations of the Company and details on the state of affairs of the Company are covered in the Management Discussion & Analysis Report, forming part of this report. Further with regard to the financials, this year also growth of your Company has been satisfactory and upto the expectation. During the FY 2015-16, total revenue from operations (net of excise) stood at Rs.449.97 crores as compared to Rs.431.92 crores in FY 2014-15, registering an increase of 4.18%. The profit before tax stood at Rs 33.60 crores as compared to Rs 26.30 crores in previous year. Similarly, the Net profit after tax of the Company also grew by 14.91% i.e. from Rs 18.42 crores to Rs 21.16 crores.

At the export front, the Company also did well and recorded an export turnover at FOB Price at Rs. 107.84 crores compare to Rs. 93.17 crores in the previous year, thereby recorded an increase of 15.75% compared to 12% during the same period in previous year. The total exports are now 23.85% of the total turnover.

Your Company expects to benefit over the next period from its good business linkage with OEMs, due to its healthy operating efficiencies. In view of this, the long term prospects of your Company are bright.

ANNEXURE III

INFORMATION AS PER SECTION 134 (3) (m) OF THE COMPANIES ACT, 2013, READ WITH RULE 8(3) OF THE COMPANIES (ACCOUNTS) RULES, 2014 FORMING PART OF DIRECTORS' REPORT FOR THE YEAR ENDED MARCH 31, 2016.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS & OUTGO

A. CONSERVATION OF ENERGY

Continuous efforts are being made to conserve the energy. The activities are ongoing to save and optimum utilization for electricity and fuel and thereby reducing energy cost. Some of initiatives taken/ improved are as under:

- Use of Solar Pipe in Under Ground Pump Room to avoid all lighting during Day time.
- Installation of Energy Efficient 120KVA UPS on ESCO Model.
- Drip Irrigation system for the Shrub, Grass and the Plant to reduce the water consumption.
- Installed 12Nos Fume Extractor on Hobbing Machine to eliminate the Oil mist inside the plant.
- Energy conservation by adaptation & continuous running of VFD in 570 CFM Air compressor.
- Energy conservation by reduction of generated pressure of Air Compressor by 1 Bar by adaptation of Air boosters at machines of high pressure requirement.
- Energy conservation through provision of Pressure regulator at Air Guns and reduction of air leakages.
- Energy conservation thru Adaptation of Temperature Controller unit for running Blower fan in Cooling Tower.
- Energy Conservation by Installation of FRP fan in Cooling Tower.
- Reduction of energy costs by improvement in power factor from 0.97 to 0.99.
- Energy saving in Sealed Quench Furnaces by reduction in running of Quench oil radiator fans.
- Reduction of Energy consumption in Washing machines in Heat Treatment by 30% through optimisation of utilization.
- Energy Conservation by Automation of CNC machines by auto switching Off of electric motors & chip conveyor motors.
- Company continued to purchase power from alternate source for all its Plants from other electricity providers through Energy Exchange at the competitive rates, resulting reduction of power cost.
- Own generation of Energy from DG sets minimized.
- Water conservation measures to minimize water consumption.
- Auto power factor control (APFC) panel are installed and maintained for improving the power factor to reduce the energy cost.]
- Usage of LED lights instead of conventional lights.

- Rain water harvesting adopted in some plants.
- Use of ETP/STP water for gardening & toilet finishing.
- Systematic maintenance and loss reduction in Induction Furnaces to optimize energy consumption per ton.
- Periodic cleaning of Air Filters and preventive maintenance of AHUs.
- Energy Audits are done on periodic basis and corrective actions taken, wherever required.
- Various Modules are developed to conserve and save the energy. The same are monitored thru Project Management system.

Additionally, the newly built up state of the art plant in Bhiwadi, an 'ECOFAC Plant', i.e. a sustainable green manufacturing plant is working to satisfy all green needs. The Plant has been awarded the Gold rating by the Indian Green Building Council. It has many energy conservation features.

Additional cost, if any for above measures are absorbed in the production/operation process, thus no cost is identified separately

New ideas are being adopted across the shop floor, factory area and even in office premises to conserve and promote of operations. Accordingly, the company will continue to adopt future proposals for consumption of energy.

The impacts of above measures are mainly reduction in power & fuel consumption, resulting reduction of cost of production. The information relating to Total Energy Consumption and Energy Consumption per unit of production is not applicable to Company, thus the Form A is not furnished.

B. TECHNOLOGY ABSORPTION

i) Efforts made in Technology Absorption:

The Company has absorbed the technologies received from its partners in the past and in the last five years; no further technologies have been imported.

The steps initiated by the Company for implementation and absorption of Lean Manufacturing are consistently showing encouraging outcome. Further, Company's commitment towards Total Productivity Maintenance (TPM) has yielded excellent results in quality and design of the products. These efforts shall ensure that the above said technology and the work culture is harnessed and percolated down to the entire organization. Your Company has continuously endeavored to acquire world-class technology both in hardware and software.

The benefit and impacts of above mentioned measures are lead time reduction of the various complex methods, elimination of waste and saving of time and efforts.

ii) Specific areas in which Research and Development carried out by the Company.

The company is registered under the DSIR for undertaking research and development. Research & Development were carried in product development,

process development, energy conservation, environment protection, cost reduction and automation. In this process of Research & Development, development is also achieved thru Customer Collaboration on a continuous basis, resulting in improved and enhanced design and material database.

iii) Benefits derived with the installation of various additional equipments have made it possible to achieve consistency in production and quality of the existing finished product and the new product development.

iv) Future plan of Action

- a) Installation of 250 KW Solar Power Plant.
- b) Conversion of LPG line to PNG in Heat Treatment Area & Canteen
- c) Reduction in process losses by identifying the area of operation.
- d) Development of new products
- e) Measures required for the utilization of the renewable energy
- f) Plans for high & Energy efficient motors to be replaced with old motors.
- g) Project adopted for optimizing the motor capacity in machines.

h) Usage of LED lights instead of conventional lights. Use of solar light for street light around the building.

v) Expenditure on Research & Development

Development and improvement of products has been an inbuilt and ongoing activity within the existing manufacturing facilities, Management has identified the quantum, which is mentioned in Note no. 45 of Notes to Accounts.

C. FOREIGN EXCHANGE EARNINGS & OUTGO

At the export front, the Company also did well and recorded an export turnover of Rs. 10053.55 Lacs compare to Rs. 9316.85 Lacs in the previous year, thereby recorded an increase of 15.75% compared to 12% during the same period in previous year. The total exports are now 23.85% of the total turnover. The details of Foreign Exchange Inflow and outflow are as under:

	(Rs. In lacs)
Inflow	10053.55
Outflow	
Capital Equipment	271.02
Others	497.63
Consumables	297.94

ANNEXURE IV

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITIES (CSR) ACTIVITIES

CSR is a commitment by business to behave ethically and contribute to economic development and to improve the quality of life of local community and society at large. It includes ensuring environmental sustainability, promoting gender equality, education etc. Business entities can no longer limit themselves to using resources, to engage in activities that increase their profits. They have to be socially responsible corporate citizens and also contribute to the social good.

We have assumed the above requirement to act in socially diligent manner. We have explored its impact on the economic, social and environmental sector which directly affects the relationships with employees, society, environment and other stake holders.

Brief outline of the Company's CSR policy including overview of projects or programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs.

MANAGEMENT DISCUSSION ANALYSIS

The Macro Economic Environment

India topped the World Bank's growth outlook for 2015-16 for the first time with the economy having grown 7.6% in 2015-16 (PY 7.2%). Economy is expected to grow at 7.75% during FY 2016-17, despite the uncertainties in the global market according to IMF World Economic Outlook Update. The Economic Survey 2015-16 also have forecasted that the Indian economy will be growing by more than 7% for the third successive year 2016-17 and can start growing at 8% or more in next two years. India's economy became the world's fastest growing major economy from the last quarter of 2014, replacing the People's Republic of China which registered a growth of 6.9% during the same period.

Indian went through a startup boom and manufacturing growth due to which the growth in 2015-16 accelerated to present level. The steps taken by the government have shown positive results as India's gross domestic product (GDP) at constant (2011-12) prices 2015-16 is Rs 113.5 trillion (US \$ 1.668 trillion), as against Rs 105.5 trillion (US \$ 1.55 trillion) in 2014-15. During the year 2015-16, IIP growth was 2.4% as compared to 2.8% % in the previous year. The Inflation based on Consumer Price Indices (CPI) averaged 4.9% in 2015-16 as compared to 6.0% in 2014-15. The Wholesale Price Index (WPI) averaged (-) 2.5% in 2015-16 as compared to 2.0% in 2014-15. The improvement in India's economic fundamentals has accelerated in the year 2015-16 with the combined impact of strong government reforms, RBI's inflation focus supported by benign global commodity prices.

India's per capita income at current price during 2015-16 jumped to Rs. 93,231 from Rs. 86,879 in 2014-15 showing a rise of 7.3% as compared to the previous year. Foreign exchange reserves touched highest ever level of about US \$ 360.2 billion and the total FDI Investments India received in FY 2015-16 was US \$ 55.4 billion compared to US \$ 45.1 billion in the previous year indicating a significant increase of 22.84%. This also indicates that government's effort to improve ease of doing business and relaxation in FDI norms is yielding results.

On the other side, the global economy grew by 3.1% in 2015 and is projected to grow at the same rate in 2016. Weak trade growth, sluggish investment, subdued wages and slower activity in key emerging markets will contribute to modest global GDP growth of 3.2% in 2016. This reflects a combination of subdued aggregate demand, poor underlying supply-side developments, with weak investment, trade and productivity growth, and diminished reform momentum. The Outlook draws attention to a number of downside risks. Most immediately, a United Kingdom vote to leave the European Union would trigger negative economic effects on the UK, other European countries and the rest of the world. Brexit would lead to economic uncertainty and hinder trade growth, with global effects being even stronger if the British withdrawal from the EU triggers volatility in financial markets. Other downside risks to global activity relate to continued conflicts in Iraq, Syria and surrounding countries, refugee crisis in Europe and further possible escalation of conflicts, including in Ukraine and the Middle East.

In 2016-17 also India is expected to have strong growth despite global meltdown propelled by healthy domestic dynamics such

as expanding middle class, favorable government policies, above average monsoon expectations, pick up in industrial activities, recovery of private investment, etc.

Industry & Segment Dynamics

The Indian auto industry is one of the largest in the world and is an engine of growth for the Indian Economy. The industry accounts for 7.1 % of the country's Gross Domestic Product (GDP). The rapid urbanization, coupled with an overwhelming growth in the middle class population and their incomes, has created an Indian Market that is extremely conducive for the automobile industry to flourish. Favourable government policies like launch of the Automotive Mission Plan, which allows FDI and tax holidays, strong support to R&D through establishment of NATRIP Centres, presence of a large pool of skilled and semi-skilled workforce, competitive advantages facilitating emergence of outsourcing hub further adds to the robust growth of Indian Automotive Industry.

India is also a prominent auto exporter and has strong export growth expectations for the near future. In April-March 2016, exports of Commercial Vehicles registered a growth of 16.97% over April-March 2015. In addition, several initiatives by the Government of India and the major automobile players in the Indian market are expected to make India a leader in the Two Wheeler and Four Wheeler market in the world in the near future.

Similarly, the Indian auto component industry is also one of the fastest growing industries and is riding on the success of the automobile sector. Coupled with growing demand and technological advancements, the auto component industry in India has emerged as a key market in Asia as well as in the world. The industry contributes 25.6% to the manufacturing GDP and 3.8% to National GDP, providing direct employment to 1.5 million people.

As per ACMA, the performance of the auto component industry in 2015-16 was satisfactory despite a less-than-expected performance in the two-wheeler segment. In passenger vehicle segment, the growth was better than the previous years. With the Make in India initiative and thrust on increased localization by OEMs, the component industry is actively focusing on delivering enhanced quality products as well as on R&D and innovation.

Indian auto component industry registered a growth of 8.8% in 2015-16 with overall turnover of Rs. 255,600 crores (USD 39.0 billion). While overall exports from India witnessed de-growth of 9.58%, the Indian auto component industry exports grew by 3.5% reaching to Rs. 709,00 crores (USD 10.8 billion). It is predicted that with the signs of recovery in India based auto market and prospects of a better monsoon, the component sector is expected to witness growth in double digits this year.

Aimed at an holistic growth model for the automotive industry, The Automotive Mission Plan (AMP 2026) has set a target of a turnover of USD 223 billion by 2026 for the auto component sector backed with strong exports ranging between USD 80 - 100 billion. Over the years the component industry has adapted well to the changes in the policy & regulatory environment and the needs of its customers. The 'Make in India' campaign of the government has enthused the entire manufacturing sector. Focus on ease of doing business, implementation of GST and other reforms augur well for the component manufacturing industry. ACMA has adopted 'Make Quality & Technology in India' as theme of auto component sector to endeavour to focus on strengthening the capabilities of the sector for new product development, improving quality standards, evolving technology for meeting the evolving emission and safety standards, upgrading people skills to support domestic and global expansion of OEMs, building auto-electronics manufacturing capabilities, embracing digital technology in manufacturing to transform productivity thus enabling our Industry and India become an attractive destination for investments.

Production Trends of the Automobile Sector in 2015-16

The industry produced a total of 23,960,409 vehicles including passenger vehicles, commercial vehicles, three wheelers and two wheelers in FY 2015-16 as against 23,358,047 in FY 2014-15, registering a growth of 2.58 % over the same period last year.

The Production of Passenger Vehicles grew by 5.97 % in FY 2015-16 over the same period last year. Within the Passenger Vehicles segment, Passenger Cars, Utility Vehicles and Vans grew by 4.02 %, 13.66 % and 5.56% respectively.

In 2015-16 the growth was majorly led by Commercial Vehicle segment which registered a growth of 12.10% with the recording of total vehicle production to 782,814 units (PY 698,298 units). Within the Commercial Vehicles segment Medium & Heavy Commercial Vehicles (M&HCVs) grew by 27.04 % and Light Commercial Vehicles grew by 2.77 %.

The Two Wheeler segment registered a growth of mere 1.84 % in FY 2015-16 over previous year by recording total production of 18,829,786 units (PY 18,489,311 units). Within the Two Wheelers segment, Scooters/ Scooterette grew by 11.71 % while Motorcycles and Mopeds registered a de-growth of (-) 1.50 % and (-) 2.31 % respectively in FY 2015-16 over FY 2014-15. In recent time, the major attraction in Two Wheeler segment is the scooters/ scooterettees, which grew by 11.71% despite the flat performance of overall Two Wheeler segment due to its easy maintenance and city driving convenience.

The sad part of the vehicle production was the overall Three Wheelers production which registered a de-growth of (-) 1.59% in FY 2015-16 over the same period last year. In Three Wheeler segment production of both Passenger Carriers and Goods Carriers declined by (-) 1.33% and (-) 3.70% respectively over FY 2014-15.

Domestic & Export Sales Trends of the Automobile Sector in 2015-16

In the year 2015-16 the Automobile Sector showed growth both in Domestic as well as Export Sales. FY 2015-16 numbers reveal all vehicle categories other than Three Wheelers (TWs) are in positive territory. Riding on the back of gradual upliftment in market sentiments, policies encouraging manufacturing & exports, favourable government policies, R&D boost, and our Hon'ble Prime Minister's Make in India campaign, the Indian automotive industry posted an overall domestic sales growth of 3.78% in fiscal year 2015-16.

The sales of Passenger Vehicles grew by 7.24% in FY 2015-16 over the same period last year by recording a figure of 2,789,678 units. Within the Passenger Vehicles segment, Passenger Cars, Utility Vehicles and Vans grew by 7.87%, 6.25% and 3.58% respectively.

Two Wheelers segment registered a growth of mere 3.01% in FY 2015-16 over FY 2014-15 by recording a figure of 16,455,911 units. Within the Two Wheelers segment, Scooters/ Scooterette grew by 11.79% while the sales of Motorcycles and Mopeds declined by (-) 0.24% and (-) 3.32% respectively in FY 2015-16 over FY 2014-15.

Three Wheelers sales also grew by merely 1.03 % in FY 2015-16 over the same period last year. Passenger Carriers grew by 2.11% while the sales of Goods Carriers declined by (-) 3.62 % in FY 2015-16 over FY 2014-15.

The commercial vehicle sector which is an indicator of a country's economic progress was not in the best of its shape from past few years but in 2015-16 this segment registered a significant growth of 11.51% as compared to the same period last year. A total of 685,704 units were sold in domestic market compared to 614,948 units in the previous year. Within the commercial vehicle Medium & Heavy Commercial Vehicles (M&HCVs) grew by 29.91% and Light Commercial Vehicle (LCV) grew by 0.30%. The growth is mainly attributable to the M&HCV sector which registered a sterling 29.91% growth and sold 302,273 units in 2015-16 as compared to 232,755 units in the previous year. The sector's performance helped reduce the overall impact of the LCV segment which registered a mere growth of 0.30%. The Indian Commercial Vehicle segment is likely to witness robust growth in the next decade as the country strives to develop a modern infrastructure spanning the metros, Tier 1, 2 and 3 towns.

Recognizing the growth potential of India, almost all the major global OEMs have set up base here and are hoping for a larger market in the coming years.

In FY 2015-16, overall automobile exports grew by 1.91 % by exporting 3,641,546 units over the same period last year. Passenger Vehicles, Commercial Vehicles and Two Wheelers grew by 5.24 %, 16.97 % and 0.97 % respectively while the Three Wheeler segment registered a de-growth of (-) 0.78% over the same period last year.

Future Outlook

As quoted by ACMA with the clarion call to 'Make in India' by our Hon'ble Prime Minister, the virtuous cycle of manufacturing is all set to roll. The campaign aspires to bolster domestic manufacturing by facilitating investment, fostering innovation, enhancing skill development, protecting intellectual property and building best in class manufacturing infrastructure in the country. The prime objective of this initiative is to attract investment from across the globe and strengthen India's manufacturing sector. The focus of Make in India Programme is on 25 sectors including Auto Sector.

To help the auto component industry, the government has announced a several reforms, forward looking policy measures such as announcement of introduction of GST, consolidation of various manufacturing and exports schemes, simplification of procedures to help integrate India into the global value chain, encouragement for manufacture and sale of Hybrid Vehicles, improving ease of doing business index through online and e-governance interventions and reducing the transaction costs augur well for the industry and with reforms gathering momentum, the growth in the automotive industry is imminent.

The industry over the years has developed its capability of manufacturing all components required to manufacture vehicles. This is evident from the high levels of indigenization/localization achieved in the vehicle industry. The domestic component industry has now holistic capability to manufacture the entire range of auto-components e.g. engine parts, drive, transmission parts, suspension & braking parts, electricals, body and chassis parts, equipment etc. The auto sector is one of the biggest job creators, both directly and indirectly. It is estimated that every job created in an auto company leads to three to five indirect ancillary jobs. India's domestic market and its growth potential have been a big attraction for many global automakers.

Indian auto component makers are well positioned to benefit from globalisation of the sector as exports potential could be increased by many folds as suggested by Automotive Mission Plan (AMP 2026). Indian suppliers are well positioned to benefit

from these global trends and can significantly accelerate their international presence in the next few years.

With the government's 'Make in India' initiative and factors such as above average monsoon expectations, lower prices of petrol and diesel, commodity prices under control, growth in industrial activity, softening of interest rates, rapidly growing middle-class segment the auto industry is expected to perform even better in FY 2016-2017. As per CRISIL, Automotive component players are expected to see 8-10% revenue growth in 2016-17 compared with 5-7% in 2015-16. This will be driven by higher off take from OEMs and steady replacement (aftermarket) demand, even as exports are expected to pick up gradually. Sales growth to domestic OEMs will be supported by continued fleet replacement in the medium and heavy commercial vehicle segment and higher off take in the passenger vehicle and scooters segments as urban consumer sentiment improves and new models are launched. Motorcycle and passenger vehicle sales will also benefit from increased rural incomes and payouts under the Seventh Pay Commission and One-Rank-One-Pension recommendations.

Exports will surely benefit from growth in European passenger and commercial vehicle sales, increasing penetration in south-east Asia. Further, stricter domestic regulations on safety and emission standards would give a fillip to growth rates of players focusing on relevant product categories such as engine components and brake parts in the medium-to-long term. Suppliers to passenger vehicle and two-wheeler OEMs, which are operating at high capacity utilisation rates, will undertake capex towards the second half of 2016- 17 to meet the incremental demand. Profitability of component suppliers improved by 50-100 bps in 2015-16, and the improvement is expected to be sustained during 2016-17 as well. Credit metrics are expected at adequate levels in 2015- 16, and witness some moderation in 2016-17, with borrowings expected to increase for capex.

Major growth attributable to the Indian Auto Component Market are as below:

- Growth in the working population and middle class income
- Robust growth in domestic automotive industry
- Technological shift; focus on R&D
- Automotive Mission Plan 2016-26 which targets a fourfold growth of the sector
- Geographical proximity to key automotive markets like the Middle East and Europe
- Reduction in excise duties in motor vehicles sector to spur the demand for auto-components
- 100% FDI allowed in the sector
- Competitive advantages facilitating emergence of outsourcing hub
- Increasing investment in road infrastructure
- Establishment of special auto parks and virtual SEZs for auto components
- Lower fuel cost

Further, the Government's plan to scrap commercial vehicles older than 15 years is another step to boost prospects of the M&HCV industry. As per analyst at Kotak Institutional Equities

estimate 13% of M&HCVs are over 15 years and a third are between 10 and 15 years.

The above give impression that the long term prospects seems to be bright; demand will grow due to various underlying factors as stated above.

Opportunities, Threat & Mitigation strategy

As global auto OEMs are continuously expanding their operations in the India and as a result, auto-component manufacturers face huge pressure from their customers to maintain quality and supply components in a just-in-time mode on the production line. Therefore, there is a greater need for collaboration between the component manufacturers, OEMs, machine tool supplies and the raw material industry.

To overcome the problem of overdependence on the automobile industry, the component industry needs to consciously consider diversifying into adjacent markets including defense, aerospace, railways etc. your company is keeping abreast of even minute changes in the industry, and is therefore better equipped to overcome the constraints and develop measures to restrict the impact.

At the operational level there are several risks that are inherent to the business of company. These are typically transactional in nature. These risks are managed through internal processes and controls. In addition, the Company has to deal certain major micro risks that affect the Company's strategy implementation, some of them are enumerated below:

Input material: Steel is the primary raw material for the products of the company, and is a very significant part of the cost of the final product. Rising steel prices continue to be a challenge & pose a threat to the margins of the company in this competitive auto component sector.

To mitigate the risk, the Company continues to strive to improve its operational performance and develop new components, which are technologically superior and have an edge over the competitors.

Power: The other major cost in production is energy cost. Presently the company is getting power from the State Electricity Board at per the higher tariff rate.

To address the energy cost, the company is implementing a process, whereby it is proposing to purchase electricity through the Electricity Exchange by getting competitive quotes.

Customer profile: Company is primarily a gear & transmission equipment manufacturer and supplier. The Company has a large focus amongst a few groups of customers and industry segment. This limited focus adds to market risks and also highlights the fact that one or some customers moving out could leave a large impact on the operation and financial of the Company. To mitigate this risk Company is focusing on widening its customer base, entering new user segments and spreading operations across geographies to mitigate this market risks.

Two-Wheeler business: A major share of the Company's business is generated from the two wheeler segment and as evident from figures this sector was flat in 2015-16. Competition in the two wheeler segment has also increased significantly. This

has had a serious adverse impact on the margins of the component manufacturers. To overcome, the risk of dependency on the two wheeler business, your Company has been developing clients for engine and transmission components in India and abroad.

Technology Risk: One of the major challenges for the industry is to build R&D competence and an ecosystem. OEMs have been working on various technologies such as light weighting, electrification of power trains, anti-lock breaking systems (ABS) in two-wheelers, safety features such as air bags in cars, etc. and they continuously ask Tier-1 suppliers for the technology updation and material changes. While these developments do pose a host of challenges, they also open a lot of interesting opportunities for the Indian auto-component sector. Thus, the company needs to continuously stay in touch with such progress need to evaluate ways to address these issues and develop technologies which are affordable and accessible. To mitigate Company has always invested in upgrading its technology to meet changing customer demand.

Regulatory Change: Regulations are changing to accommodate the awareness about the environmental responsibilities. Stringent emission and safety norms are playing an increasingly important role globally. In the recent past, the government has focused on tighter emission norms be it the ongoing implementation of BS-IV emission requirements or the decision for BS-VI emission norms by 2020 to regulate air pollutants from vehicles and is promoting green vehicles. Of late, safety has also been attracting governmental attention. HGL is committed to comply with all applicable environmental and related regulations.

Brief of Financial Results

The Company again posted higher sales in the financial year 2015-16 and the Company's turnover crossed the Rs. 450 Crores mark. The sales turnover of the Company increased to total 452.25 crores from Rs. 434.59 crores in the previous year, registering an increase of 4.06%. This was despite the less-than expected performance in the two-wheeler segment, a segment, from which the considerable share of the Company's business is generated through. Profit before tax (PBD) for the year 2015-16 was at Rs. 33.60 crores and profit after tax (PAT) stood at Rs. 21.16 crores compared to Rs. 26.30 crores and 18.42 crores during the same period previous year. PBT & PAT significantly increase by 27.78% and 14.92% in 2015-16 with mere increase of 4.06% in the turnover of the Company, reflecting the operational efficiency of the Company.

At the export front, the Company also did well and recorded an export turnover of Rs. 107.84 crores compare to Rs. 93.17 crores in the previous year, thereby recorded an increase of 15.75%. The total exports are 23.85% of the total turnover.

Recognizing the importance of allocating the gains with the shareholders who have placed their capital and trust in the Company at all times, an amount of Rs. 5.63 Crores is being paid out by way of dividends for the year 2015-16 (last year it was Rs. 4.69 Crores). Out of which an interim dividend of 15% was declared and already paid in Feb/Mar 2015 and a final dividend of 15% is being recommended to the shareholders for their approval.

Operational Excellence, Awards & Recognitions

The Hi-Tech Gears is continuing its journey to be a global footprint company and a benchmark for world class manufacturing systems, as manifested in its vision statement. In this journey, our efforts have been recognized our esteemed customers, who have continuously appreciated our quality & efforts.

Steps initiated by the Company for implementation and absorption of Lean Manufacturing and Total Productivity Maintenance (TPM) practices are consistently showing encouraging results. The customers are appreciating and recognizing Company from time to time. Customer recognitions are the strongest testimony to a company's excellence. The ECOFAC Plant (Plant –III) is running to its capacity and is unique in its kind. This 'Gold Award' conferred Plant by Green Building Council is one of few plants by the component manufacturers in north India, which has become a world-class Indian brand with a green and sustainable strategy of growth. ECOFAC means a sustainable green manufacturing plant. This plant is fully operational. This has all features of safety, energy & water conservation, waste management etc. All modern concepts of Lean, TPM and TEI for best utility are being implemented in this Plant from its initial stage. This has been highly appreciated not only by the concerned authorities but also by customers and will become a model for future sustainable manufacturing growth. This year also one of our major customer, Daimler India Commercial vehicle conferred prestigious partnership award.

India Ratings and Research (IndRa) has upgraded The Hi-Tech Gears Ltd. (HGL) LongTerm Issuer Rating to 'IND A+' from 'IND A'. The outlook is stable. The rating upgrade reflects the growth in HGL's revenue in FY15 as well as improvement in its credit profile. The ratings also take into account the reduction in HGL's customer concentration, on one or particular segment. The company's liquidity remained comfortable as strong cash flow

generation over FY13 to FY15 enabled it to fund capex through internal accruals. IndRa expects the company's profitability to continue to benefit from the increase in commercial vehicle (CV) sales and consequently improve the credit metrics further over FY16 & FY17.

Segment Reporting

The Company is primarily engaged in the business of gears and transmission components, inherent nature of both the activities is governed by the same set of risk and returns, these have been grouped as a single segment in the above disclosures. INDEPENDENT AUDITORS' REPORT

**To the Members of
The Hi-Tech Gears Limited
(Formerly Hi-Tech Gears Limited)**

Report on the Financial Statements

We have audited the accompanying financial statements of The Hi-Tech Gears Limited ('the Company'), formerly known as Hi-Tech Gears Limited, which comprise the balance sheet as at 31 March 2016, the statement of profit and loss and the cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2016 and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The balance sheet, the statement of profit and loss and the cash flow statement dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - (e) On the basis of the written representations received

from the directors as on 31 March 2016 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2016 from being appointed as a director in terms of Section 164 (2) of the Act;

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - I. The Company has disclosed the impact of pending litigations on its financial position in its

financial statement- Refer Note 35 B(2) to the financial statements;

- II. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

Annexure - A to the Auditors' Report

The Annexure referred to in Independent Auditors' Report to the members of the Company on the financial statements for the year ended 31 March 2016, we report that:

- (i) (a) The Company has maintained proper records to show full particulars including quantitative details and situations of fixed assets.
- (b) The Company has a regular programme of verification of fixed assets. All the fixed assets except furniture and fixtures and office equipments have been physically verified by the management during the year, which in our opinion is reasonable having regard to size of the Company and nature of fixed assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- (ii) According to the information and explanations given to us, the inventories have been physically verified during the year by the management at reasonable intervals. No material discrepancies were noticed on physical verification of inventories by the management.
- (iii) The Company has not granted any loans to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Thus, paragraph 3(iii) of the Order is not applicable to the Company.
- (iv) In our opinion and according to the information and explanations given to us, the Company has not made any loans, guarantees and security under the provisions of section 185 of the Companies Act, 2013. According to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act, with respect to the investments made.
- (v) According to the information and explanation given to us, the company has not accepted any deposits from the

public. Therefore, paragraph 3(v) of the order is not applicable to the Company.

- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under section 148 of the Act, and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records with a view to determine whether they are accurate or complete.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities.
According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues were in arrears as at 31 March 2016 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no dues of sales tax or duty of customs or duty of excise or value added tax which have not been deposited with the appropriate authorities on account of any dispute. However, according to information and explanations given to us, the following dues of income tax and service tax have not been deposited by the Company on account of disputes:

Annexure - B to the Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of The Hi-Tech Gears Limited ('the Company'), formerly known as Hi-Tech Gears Limited as of 31 March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE '1' – NOTES FORMING PART OF FINANCIAL STATEMENTS

Summary of significant accounting policies followed by the Company

1.1 Basis of Preparation of Financial Statements

The Financial Statements are prepared under the historical cost convention on accrual basis and in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013.

Accounting Policies not specifically referred to otherwise are consistent and in accordance with generally accepted accounting principles.

1.2 Use of Estimates

In preparing Company's financial statements in conformity with accounting principles generally accepted in India, the Management is required to make estimates & assumptions that affect the reported amount of Assets & Liabilities and the disclosure of Contingent Liabilities at the date of the Financial Statements and the reported amount of revenues & expenses during the reporting period. Actual results could differ from those estimates. Any revision to accounting estimates is recognized in the period the same is determined.

1.3 Inventories

The basis of valuation for various categories of inventories is as follows:-

Stores, Spares and : At cost or Net realisable

Loose Tools and Raw Materials : value, whichever is lower (FIFO)

Work in progress : At material cost plus conversion cost on the basis of absorption costing or Net realisable value, whichever is lower

Finished Goods : At material cost plus conversion cost on the basis of absorption costing or Net realisable value, whichever is lower (Inclusive of excise duty payable)

Scrap : At realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated cost necessary to make the sale.

1.4 Provisions, Contingent Liabilities and Contingent Assets

The Company makes a provision when there is a present obligation as a result of a past event where the outflow of economic resources is probable & a reliable estimate of the amount of obligation can be made.

The disclosure is made for possible or present obligation that may require outflow of resources as contingent liability in the financial statements. Depending on the facts of each case and after due evaluation of relevant legal aspects, claims against the Company not acknowledged as debts are disclosed as contingent liabilities. In respect of the statutory matters, contingent liabilities are disclosed only for those demand(s) that are contested by the Company.

Contingent assets are neither recognized nor disclosed in the financial statements.

1.5 Revenue Recognition

The revenue from Sale of Goods is recognized on transfer of all significant risk & rewards of ownership to the buyer. Sale value is inclusive of excise duty. Price revisions of goods sold are accounted for at the time of billing except in the case where reasonable certainty has been measured up to the date of Balance Sheet.

Export Sale is accounted for at exchange rate notified by Central Govt. under Custom Law. Bills outstanding on the Balance Sheet date are reinstated with the exchange rate on that date and the difference on this account is booked in the Profit & Loss Account.

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable. Dividend income is recognized, when right to receive is established.

Export incentives are accounted for on export of goods if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim is fulfilled.

Revenue from services is recognized in accordance with specific terms of contract on performance.

1.6 Fixed Assets and Depreciation

All Tangible & Intangible Assets are stated at cost (net of taxes/duties which are eligible for credit) less accumulated depreciation and impairment of Loss, if any. Depreciation on Buildings and Plant and Equipment is charged on pro-rata basis on Straight Line Method based on the life assigned to each asset in accordance with Schedule II of Companies Act, 2013. Intangible assets are amortized over their respective

individual estimated useful life on written down value basis commencing from the date, the asset is available to the company for its use. Depreciation on rest of the fixed assets has been provided on Written Down Value basis based on the life assigned to each asset in accordance with Schedule II of Companies Act, 2013.

1.7 Employee Benefits

(i) Short term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short term employee benefits to be paid in exchange for employee services are recognised as an expense as the related service is rendered by employees.

(ii) Defined Contribution Plan

Payments to defined contribution retirement benefit schemes (such as Provident Fund, Employee's State Insurance Corporation) are charged to the statement of profit and loss of the year in which contribution to such schemes becomes due.

(iii) Defined Benefit Plan

For defined benefit schemes, the cost of providing benefits is determined using Projected Unit Credit Method, with actuarial valuation being carried out at each balance sheet date. Actuarial gain & losses are recognized in full in the statement of profit and loss for the period in which they occur.

The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligations as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets.

The Company makes annual contribution to the Employee's Group Gratuity-cum-Life Assurance scheme of the Life Insurance Corporation of India, a funded defined benefit plan for qualifying employees. The scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service or part thereof in excess of 6 months. Vesting occurs upon completion of 5 years of continued service.

The Company provides the liability for the leave encashment benefit of the employees at each

balance sheet date on the basis of actuarial valuation, the amount of provision & paid during the year is charged to the statement of profit and loss.

1.8 Foreign Currency Transactions

(i) Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction.

(ii) Foreign currency monetary assets and liabilities such as cash, receivables, payables, etc. are translated at year end exchange rates.

(iii) Exchange differences arising on settlement of transactions are recognized as income or expense in the year in which they arise, but pursuant to the notification of the Companies (Accounting Standards) Amended Rules 2009 issued on 31st March 2009, exchange differences relating to long term monetary items, arising during the year, in so far as they relate to the acquisition of a depreciable capital asset are added to / deducted from the cost of the asset w.e.f. 1st April 2007 and depreciated over the balance life of the asset.

(iv) Derivative Instruments and Hedge accounting:

The Company uses foreign exchange forward contracts and options to hedge its exposure to movements in foreign exchange rates. These foreign exchange forward contracts and options are not used for trading or speculation purposes.

For unexpired forward contracts or options that are designated as effective cash flow hedges the gain or loss from the effective portion of the hedge is recorded and reported directly in the shareholders' fund (under the head "Hedging Reserve) and will be transferred to Profit and Loss account upon the occurrence of the events when the contracts get transacted.

The Company recognizes gains or losses from forward contracts and options that are not designated as effective cash flow hedges for accounting purposes in the profit and loss account in the period in which they occur.

1.9 Investments

Long term investments are carried at cost. However provision for diminution, if any, is made to recognize a decline, other than temporary, in the value of investments.

Cost of an investment includes acquisition charges such as brokerage, fees and duties.

1.10 Borrowing Cost

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged as expense to the statement of profit and loss in the period for which they relate to.

1.11 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.12 Provision for Current & Deferred Taxes

Tax expenses comprise current and deferred taxes. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws. Deferred income taxes reflects the impact of current period timing difference between taxable and accounting income for the period and reversal of timing differences of earlier years. Deferred taxes is measured based on the tax rates and the tax laws enacted or substantively enacted as at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty and sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are recognized on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realized against future taxable profit. Excess/short provisions and interest thereon are recognised only on completion of assessment or where adjustments made by the Assessing Officer are disputed, on receiving the 'Order Giving Effect' to the tax determined by the CIT (Appeals) and thereafter on final settlement of further disputes.

1.13 Research and Development Costs

Revenue expenditure incurred on research and

development has been charged to the statement of profit and loss for the year in which it is incurred. Capital expenditure is included in respective heads under fixed assets.

1.14 Impairment of Assets

At each Balance Sheet date, the Company reviews whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized in the Profit & Loss Account to the extent the carrying amount exceeds the recoverable amount.

1.15 Leases

Leases where the lessor effectively retains substantially all the risk and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight line basis over the lease term.

1.16 Cash and Cash Equivalents

Cash and Cash Equivalents for the purpose of cash flow statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less.

1.17 Cash Flow Statement

Cash flow statements are reported using the indirect method, whereby profit/ (loss) before extra-ordinary items/exceptional items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipt or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on available information including taxes paid relating to these activities.

1.18 Prior period and extra ordinary items and changes in accounting policies having material impact on the financial affairs of the Company are disclosed appropriately.

1.19 Material events occurring after the Balance Sheet date are taken into cognizance and disclosed appropriately.

Revaluation reserve amounting to Rs.1,56,57,846/- pertaining to the acquired part of land had been reversed during the Financial Year 2010-11.

During the year, pursuant to the notification of Schedule II to the Companies Act, 2013 with effect from April 1, 2014, the Company revised the estimated useful life of its assets to align the useful life with those specified in Schedule II. Further, assets individually costing Rs. 5,000/- or less that were depreciated fully in the year of purchase are now depreciated based on the useful life considered by the Company for the respective category of assets. Pursuant to the transition provisions prescribed in Schedule II to the Companies Act, 2013, the Company has fully depreciated the carrying value of assets, net of residual value, where the remaining useful life of the asset was determined to be nil as on April 1, 2014, and has adjusted an amount of Rs. 111,097,213/- (net of deferred tax of Rs. 73,335,270/-) against the opening Surplus balance in the Statement of Profit and Loss under Reserves and Surplus.

NOTE '30' – SEGMENT INFORMATION (AS-17)

The Company is primarily engaged in the business of Gears and transmission components. Inherent nature of both the activities is governed by the same set of risk and returns; these have been grouped as a single segment in the above disclosures. Hi-Tech (E-Soft) is a division of the Company engaged in the business of engineering software solutions. But, its total revenue does not exceed 10% of total revenue. Hence, Hi-Tech (E-Soft) cannot be a primary segment for disclosure under AS-17 and therefore, Geographical segment can be considered as the primary segment. Geographical revenues are allocated based on the location of the customers. Geographical segments of the Company are America, India and Others.

Since all the manufacturing activity is done at India, therefore segregation of expenses/result/assets/liabilities to each of the geographic location is not practicable. The geographic segments individually contributing 10 percent or more of the Company's revenues are given below:

Amount in Rs.

He has great experience of dealing with customers, both domestic & overseas and understanding their requirements. Mr. Deep Kapuria has rich and varied experience in the Industry and has been involved in the operations of the Company over a long period of time; it would be in the interest of the Company to continue the engagement of Mr. Deep Kapuria as Chairman & Whole Time Director, designated as Executive Chairman, even after attaining the age of 70 years.

The aforesaid employment of Mr. Deep Kapuria as Chairman & Whole Time Director after attaining the age of 70 years is subject to the approval of the Members of the company and other concerned statutory and other authorities, if applicable.

A brief resume & additional information of Mr. Deep Kapuria, is annexed herewith in Annexure A, mentioning therein qualification, the nature of his expertise in specific functional areas and the names of the company in which he holds the position of a Director as per Regulation 36(3) of the SEBI

(Listing Obligation and Disclosure Requirements) Regulation, 2015.

Except Mr. Deep Kapuria, Mr. Pranav Kapuria and Mr. Anuj Kapuria, Directors, being related to each other, none of the Directors and Key Managerial Personnel of the Company and their relatives are concerned or interested, financial or otherwise, in the agenda as set out at item no. 6 of the notice.

Your Directors recommend the resolution set forth in item no. 6 for approval of the members as Special Resolution.

The terms as set out in the resolution and explanatory statement may be treated as an abstract of terms of appointment of whole time Director pursuant to section 196 of the Companies Act, 2013.

Item No. 7

The Board of Directors ("the Board"), on the recommendation of the Nomination and Remuneration Committee, appointed Mr. Bidadi Anjani Kumar as an Additional Director. His appointment is effective from November 03, 2015 till the conclusion of present meeting, but the members may appoint him as a regular director.

The Company has received a Notice in writing from a Member of the Company along with the deposit of requisite amount under Section 160 of the Act proposing the candidature of Mr. Bidadi Anjani Kumar for the office of Director of the Company.

Mr. Bidadi Anjani Kumar has consented to act as a Director of the Company and has given the requisite disclosures to the Board as provided under Section 152 of the Companies Act, 2013.

A brief resume & additional information of Mr. Bidadi Anjani Kumar is annexed herewith in Annexure A, mentioning therein the nature of his expertise in specific functional areas and the name of the company in which he holds the position of a Director as per Regulation 36(3) of the SEBI (Listing Obligation and Disclosure Requirements) Regulation, 2015.

Copy of the draft letter for appointment having the term and conditions of appointment of Mr. B.A. Kumar as a Non-executive Director are open for inspection by Members at the Registered Office of the Company during normal working hours between 11.00 a.m. and 1.00 p.m. on all working days (except Saturdays & Sundays).

Having regard to the qualification, experience and knowledge, the Nomination and Remuneration Committee and the Board is of the view that his appointment as a Non-executive Director will be in the interest of the Company. Board is of the opinion that the Company will be benefited with his contribution in the Board process, Governance and overall working. The Board recommends the Resolution as set out at Item No. 7 of the Notice for the approval by the members of the Company by way of an Ordinary Resolution.

He is not related to any other Director of the Company.

Except Mr. Bidadi Anjani Kumar, none of the Directors, Key Managerial Personnel of the Company and their relatives are

concerned or interested, financial or otherwise, in the agenda as set out at Item No. 7 of the Notice.

Your Directors recommend the resolution set forth in item no. 7 for approval of the members as an Ordinary Resolution.

Item No. 8

As per the provisions of Section 186 of the Companies Act, 2013, the Board of Directors of a Company can make any investment beyond the prescribed ceiling of i) Sixty per cent of the aggregate of the paid-up capital and free reserves and securities premium account or, ii) Hundred per cent of its free reserves and securities premium account, whichever is more, if special resolution is passed by the members of the Company.

As a measure of achieving greater financial flexibility and to enable optimal financing structure, this permission is sought pursuant to the provisions of Section 186 & other applicable provisions of the Companies Act, 2013 to give powers to the Board of Directors or any duly constituted committee thereof, for making further investment, to subsidiary companies (including overseas subsidiaries) or to acquire by way of subscription, purchase or otherwise, securities of any body corporate(s) for an amount not exceeding Rs 600 crore.

The investment(s), as the case may be, will be made in accordance with the applicable provisions of the Companies Act, 2013 and relevant rules made there under. These investments are proposed to be made out of own/surplus funds/internal accruals and or any other sources including borrowings, if necessary, to achieve long term strategic and business objectives.

The Board accordingly recommends to pass the Special resolution. None of the Directors, Key Managerial Personnel or their relatives are in any way concerned or interested, financially or otherwise in this resolution.

Item No. 9 & 10

The members of the Company in their meeting held on 28th September, 2014, approved, by way of special resolution, a limit for exercising the powers of borrowing, by the Board of Directors (including duly constituted Committee), for the business purpose of the Company, upto a sum not exceeding Rs. 400 Cr (Rupees four hundred crores only), in terms of Section 180(1)(c) of the Companies Act, 2013 (the Act 2013), notwithstanding that the money to be borrowed together with the monies already borrowed by the Company may exceed the aggregate of its paid up share capital and free reserves apart from temporary loans obtained from the Company's Bankers in the ordinary course of business. Similarly, the shareholder also authorized to create charge /mortgage also to secure the borrowing u/s 180(1) (a) of the Companies Act, 2013.

The above existing power of the board do not permit for exercising the powers to borrow money upto a limit of Rs. 600 Cr (Rupees six hundred crore only). The board however decided to seek the consent of the members, by way of a special resolution, to comply with the regulatory requirements

by fixing the limit of Rs. 600 Cr (Rupees six hundred crore only), keeping in view the long term requirements of funds for future business plans in terms of Section 180(1) (c) of the Companies Act, 2013. Similarly, Section 180(1)(a) of the Act 2013, provides that powers to create mortgages and/or charges against such borrowings will require a specific approval from members by way of a special resolution, as per the provisions of Section 180(1)(a) and other applicable provisions of the Companies Act, 2013 and Rules made thereunder.

The Board, therefore, decided to seek the consent of the members, by way of special resolutions in terms of the new requirements under the Act 2013, for exercising its powers for creating such mortgages and/or charges against such borrowings. Therefore, the special resolution as set out in Item No. 9 & 10 of the accompanying Notice is of an enabling nature for the above purpose.

The existing limit is proposed to increase from Rs. 400 Cr. to Rs. 600 Cr., the Board accordingly recommends to pass the Special resolution. None of the Directors, Key Managerial Personnel or their relatives are in any way concerned or interested, financially or otherwise in this resolution.

Item No. 11

The Board, on the recommendation of the Audit Committee, has approved the appointment and remuneration of M/s Kabra & Associates, Cost Accountants as the Cost Auditors of the Company to conduct the audit of the cost records of the Company for the financial year 2016-17 at a fee of upto Rs. 150,000/- plus Service Tax and out of pocket expenses.

In accordance with the provisions of Section 148 of the Act read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors, has to be ratified by the members of the Company. Accordingly, consent of the members is sought for passing an Ordinary Resolution as set out at Item No. 11 of the Notice for ratification of the remuneration payable to the Cost Auditors for the financial year ending March 31, 2017.

None of the Directors, Key Managerial Personnel of the Company and their relatives are concerned or interested, financial or otherwise, in the agenda as set out at Item No. 11 of the Notice.

Your Directors recommend the resolution set forth in item no. 11 for approval of the members as Ordinary Resolution.
