Particulars of Energy Conservation, Technology Absorption and Foreign Exchange Earnings and Outgo required under the Companies (Accounts) Rules, 2014

A. Energy Conservation

The Company has been, among other fields, engaged in development & construction of real estate, mainly comprising residential, commercial & institutional buildings. It has always been the endeavour of the Company to look for ways and means to achieve energy conservation in every possible way.

In line with the Company's commitment to give its clients and customers quality products and services, it has been constantly seeking to adopt latest in technology which are relevant, and strive to integrate the same into the overall scheme of things, resulting in sustainable cost savings, energy conservation and more reliability.

Major energy conservation initiatives taken during the Financial Year 2015-16

1. Rationalization of no. of Bollard, Spike & Pole Lights

Increased distance between adjacent lighting fixtures and providing energy efficient lights with better optics in street lights, bollard, spike and footpath lights, we have achieved appropriate lux level thus achieved savings in capital investment and subsequent recurring energy conservation. For achieving further energy efficiency the LED light fittings are being considered for the road lighting / sports field / garden lighting / common area lighting etc.

2. Basement Ventilation

Reduction in ACPH (Air Changes per Hour) of Axial flow fans & Jet fans in emergency mode from 30 ACPH to 12 ACPH, static pressure reduction from 25mm to 20mm resulted in sizes of fans & motors & their capacity and deleting fresh air fans in upper basement will result in substantial saving in energy. The basement ventilation system is in place in office building, JMC, JIIT, School and few residential buildings.

3. Air Conditioning

VRV System of air conditioning to optimize the individual outdoor & indoor units and by substituting the ductable splits in the rooms with High Wall Split units wherever applicable adopted thus confirming energy savings due to reduction of equipment capacity and removal of ducts. Energy efficient star rated split air conditioners have been installed / being installed in the flats which have been handed over to the clients.

4. Lift Speed optimization

Optimized the Lift speed & carrying capacity within the permissible parameters of handling capacity & average waiting period specified in the code after conducting traffic study for lifts cluster wise.

5. Rationalization of Electrical Points

Reduced the number of Electrical Points provided in residential towers by maintaining permissible lux level in flats which will cut down electricity consumption by about 15-20% varying from project to project thus reducing the capacity of transformers and other equipment.

6. Master Plan Services

Being an integrated township, the central DG stations have been put up at two places instead of providing individual DGs for each cluster. This resulted in saving of space, providing of diesel tanks and exhaust system at individual cluster level. The DGs will be synchronized through PLC system thus running at optimum load as per requirement. At present 8 No. DG Sets of 1.5 MVA each have been installed and commissioned at GSS-1 for power back up. The DGs will be added in phases commensurate with requirement of backup power to save capital expenditure and operational cost such as diesel, water and manpower.

7. Panels (Additional Capacitor Bank & STATCON)

Using Additional Capacitor bank & Statcon has increased Power factor from 0.95 to 0.99 thus reducing consumption and substantial savings throughout the year.

8. Block work

The shift from Conventional Bricks usage to FAB/HCB/CLC Blocks which provides better thermal insulation is expected to considerably reduce running of air conditioners and consequent energy conservation.

9. Lights in the basement & common areas

The basements of all the Wish Town clusters have been provided / proposed with T5/T8 energy efficient tube light fixtures and the common areas with CFL /LED lights instead of conventional lamps, which has resulted in substantial energy saving throughout the year. The light fittings have been provided in the basement of residential buildings handed over / being handed over.

10. VFD driven motors

The VFD system has been provided on the heavy power consuming motors so as to regulate energy consumption as per load requirement. This will provide substantial power saving in case of air conditioning, ventilation system & heavy duty fire fighting pumps.

11. Solar Water Heating & Lights

The solar hot water system has been proposed for Kitchens of all residential towers and in commercial buildings. 500 No. solar lights have been proposed for the common areas such as service centers, road lighting, parks, switching stations, grid sub-stations, STPs etc. for energy conservation efficiency. At present, solar lights are under installation at GSS-1.

12. Road lighting system

The road lighting system has been provided with the dual dial preset timers to achieve energy saving during the night at preset timings.

13. Occupancy Sensors and Blind Axial Vanes

The office, institutional buildings and hospital are provided with Occupancy Sensors and Blind Axial Vanes for switching off / on lights & fans as per occupancy in the areas to provide energy saving when office / space is not occupied.

14. Boom Barriers

Light weight boom barriers have been installed / proposed on the main gates, in & out ramps of each cluster for regulating the vehicles entering the buildings by selection of energy efficient motors & controls to achieve energy efficiency.

B. Technology Absorption

Major efforts made towards technology absorption

1. FTTH over Cables

FTTH (Fibre-To-The-Home) technology has been adopted for data transmission through Single Optical fiber cable for TV, data & telephony entailing much less running cost and better user experience over conventional data cables with conventional technology.

2. Rising Mains over conventional cabling for more reliability & low maintenance cost

Using sandwich type rising mains over conventional cabling system for transmission of electricity from electrical sub-station to residential towers. This is maintenance free technology, more reliable, minimum fire risk and reduced amperes rating in sections as per load requirement. This has opened up another avenue for significant energy, cost and space saving.

3. Pranav Shuttering/Mivan Shuttering over Conventional Shuttering

Using Pranav & Mivan Shuttering over conventional shuttering, resulting in improved slab cycle, better surface quality & finish.

4. Block Work

Usage of Blockwork improved strength of structure thus reducing consumption of a resource (steel) by 0.2-0.3 kg/sqft.

5. Zero Discharge

Zero discharge policy is being followed throughout the project. To achieve optimization in fresh water requirement, the waste water is to be treated in four STPs of 39 MLD capacity. The treated water is being re-cycled for flushing system in the toilets, horticulture and air-conditioning.

6. Grass Crete paver over Concrete pavers

Usage of Grass Crete pavers over concrete pavers in Landscaping & Fire Tender Areas promotes conversion of Carbon Dioxide (Green House Gas) into Oxygen and has an "Air Conditioning Effect". It also contributes in cooling the atmosphere & reducing "Urban Island Effect". Grass Crete paver are even 100% recyclable and have the ability to clean pollutant by bioremediations, reduce soil erosion and soil migration.

C. Foreign Exchange Earnings and outgo

The particulars regarding foreign exchange earnings and outgo appear at Note No. 34 of Notes to the standalone financial statements.

It stems from the dynamic culture and positive mindset of the organisation and focuses on commitment to values and adherence to ethical business practices. Thus, timely, adequate and accurate disclosure of information on performance and ownership forms the cornerstones of Corporate Governance.

We believe that every Corporate Strategy needs to be dynamic, vibrant and responsive to the changing economic scenario and flexible enough to absorb environmental and fiscal fluctuations. It must be capable of harnessing inherent strengths of available resources and materials and have the capacity to learn from success or failure and more importantly, ensure growth with human face. This has always been the guiding philosophy in the Company and will continue to be so in future, as we continue to perceive Corporate Governance as an upward moving target that we collectively strive towards achieving.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Macro Economic Environment:

The global economy has been passing through a tough phase for last couple of years. It had slowed down from 3.4% in 2014 to 3.1% in 2015. Thanks to our inherent strengths and the policies of the Government amidst all these global headwinds, the Indian economy has held its ground firmly. During last three years when growth had decelerated to 6.3%, the growth of GDP has now accelerated to 7.6% in 2015-16. CPI inflation is projected to moderate in 2016-17 to around 5 per cent while real GDP growth is projected to improve gradually to 7.6 per cent in 2016-17. A number of factors such as increased capacity utilization in the organized industrial sector, revival of private investment and an increase in net exports may be helpful in revival of the economy. [Source: The Economic survey' 2016]

The various initiatives being taken by the Government to unlock stuck investments in the core and infrastructure projects, reforming policy environment, improving the ease of doing business, accelerating the project related approvals and strong commitment to fiscal targets will go a long way to take the growth momentum to a different level.

The positive indications from Reserve Bank of India for creation of a stable low inflation regime would further act as an impetus to the growth.

Expressways:

India has the second largest road network after the United States with 5.23 million km of roads of which 3.17 million are surfaced. This road network transports more than 60 percent of all goods in the country and 85 percent of India's total passenger traffic and has expanded at a compound annual rate of around 4% since 2012. The expanded network has not only reduced the travel time but has promoted efficiency in the economy by minimizing total transportation cost in terms of economies of production, distribution and consumption. [Source: "Basic Road Statistics of India", Ministry of Road Transport and Highway, 2015]

In modern times, expressways have an edge over conventional highways in terms of inter alia quality of ride, reduction of travelling time and A- class amenities for commuters.

Road building and upgradation are essential for economic modernization and the private sector has emerged as a key player in the development of road infrastructure.

Real Estate:

The real estate sector continued to face a challenging environment due to lacklustre demand scenario, various policy hurdles, delay in approval cycle, continuous high borrowing costs both for industry and the consumer. The RBI has started to soften the interest rates but the impact at ground level is still awaited. Further downtrend in the interest rate cycle and broad based economic recovery remains crucial for revival of the sector. NCR residential market continues to disappoint, launches & absorption of homes are at a 6 year low. Challenges of demand-supply mismatch and high unsold inventory across the country still remain.

However, various reforms announced by the Government is resulting in green shoots of recovery in the business environment. The positive sentiments in select micro-markets may signal an upward growth trajectory in the Real estate segment in the coming year.

Review of Operations:

The Yamuna Expressway was opened for public on 09.08.2012 and commenced toll collection w.e.f. 16.08.2012. The Average Annual Daily Traffic /(AADT) and Toll Revenue has registered a CAGR 29 % and 35 % respectively since commencement of the commercial operation on 16.08.2012.

Your company is developing over 25 million square meters of land as commercial, amusement, industrial, institutional & residential etc. across five different locations along the Yamuna Expressway- one being in Noida, two in District Gautam Budh Nagar (part of NCR) and one location each in District Aligarh & District Agra, Uttar Pradesh.

The company has launched approx. 134.40 million sq. ft. area and has sold approx. 128.20 million sq.ft. area till 31.03.2016 aggregating to sales value of Rs 24,295 Crores. During the year your Company has also offered possession of the Built-Up Units to over 3700 customers.

The Highlights of Financial Performance of the Company for the year 2015-16 are already given in the Director's Report.

Being a super specialty hospital with advance healthcare facility, the latest diagnostic services and state of the art equipment, the Jaypee Hospital is committed to meet the healthcare needs of the population in the region.

Outlook:

The development of Yamuna Expressway has ushered a new era of economic development in the region across different segments- Residential, Commercial, Institutional, Industrial & Recreational.

The economic drivers such as metro link between Noida to Greater Noida, Eastern Peripheral Expressway, planned development of food parks, herbal parks, Tech Zone along the Yamuna Expressway and host of other educational, sports, entertainments/ facilities & healthcare being developed by the State and the other entrepreneurs would further add to overall economic development of the region. Since the issuance of Notification by the MOEF with regard to eco-sensitive zone around Okhla Bird Century, the real estate developers have also started handing over the completed dwelling units to the customers.

Opportunities:

The various policy initiatives taken by the Government is expected to lead to improved economic scenario. The Government's focus on inclusive infrastructure development would certainly spur demand in real estate. The operational Motor Racing Track, the upcoming facilities like Cricket Stadium, Night Safari, Metro link between Noida and Greater Noida and the planned International Airport will be the source of the next wave of development. These initiatives are expected to be the key factors in providing an added impetus to the overall development of the region as well as play a vital role in attracting real estate activity going forward.

Threats

Responding to an increasingly well informed consumer base, upcoming legislation and bearing in mind the aspect of globalization continues to pose major risks to the real estate market. Further, the industry is facing challenges in respect of raising funds, increase in input cost, financing cost & unsold inventory.

Besides, the operation and maintenance of the Yamuna Expressway is historically faced with inherent threats from the farmers and inhabitants of the areas through which the expressway passes. The Company is always seized of such threats and has well defined system in place to deal with such situations.

Risk & Concerns

Your Company is exposed to a number of risks such as economic, regulatory, taxation and environmental risks and also the investment outlook towards Indian real estate sector. Some of the risks that may arise in its normal course of its business and impact its ability for future developments include inter-alia, credit risk, liquidity risk, counterparty risk, regulatory risk, and market risk. Your Company's chosen business strategy of focusing on certain key products and geographical segments is also exposed to the overall economic and market conditions.

While management is positive about Company's long term outlook, the annual traffic growth and the delivery of its real estate projects shall need to be monitored closely.

We have audited the internal financial controls over financial reporting of JAYPEE INFRA TECH LTD ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to

error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure to the independent auditor's report of even date on the CONSOLIDATED financial statements of JAYPEE INFRA TECH LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of consolidated financial statement of the Company as of and for the year ended 31 March 2016, we have audited the internal financial controls over financial reporting of **JAYPEE INFRA TECH LIMITED** ("the Holding Company") and its subsidiary company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary company are responsible for establishing and maintain internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable details, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the Inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changed in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary company have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountant of India.
