Message from the MD & CEO

AFTER THE FEW INITIAL YEARS OF STRUGGLE, OUR COMPANY PERFORMED QUITE STEADILY AND HAS GROWN OVER 25 YEARS. BUT FY2016-17 PROVED TO BE VITAL AS WE EMBARKED ON THE PATH OF SECURING LONG-TERM FUTURE GOALS THROUGH THE DEVELOPMENT OF NEW PRODUCTS.

Dear shareholders,

2016-17 proved to be a big stepping stone in the history of our Company. At this critical juncture I am pleased to present the excellent annual performance of our Company despite the gloomy global economic scenario and the demonetisation impacted Indian economy.

After the few initial years of struggle, our Company performed quite steadily and has grown over 25 years. But FY2016-17 proved to be vital as we embarked on the path of securing long-term future goals through the development of new products. Commencing in FY2016-17, we laid out a few primary objectives such as

improving free cash flow generation and expanding our product offerings to minimise the product risk, thus positioning our Company for long-term sustainable growth. And I am proud to say that during this past year, we delivered on each of these objectives, while significantly strengthening our balance sheet and delivering impressive returns to shareholders.

Our Company has always strived to be the best in terms of identifying and developing niche products, possessing a differentiated R&D approach and also undertaking development of green products; this has helped us come a long way by creating a strong

differentiation while catering to global MNCs. Unlike many in our sector we focused mainly on inventing better and greener chemical processes, having higher purity levels and better cost-efficiency. Thus today the purity levels of our Company's products are among the best globally. There are however downsides to this strategy like slower product launches and a concentrated product portfolio. But at our Company, we have successfully overcome this challenge by focusing on a long product pipeline which will ensure continued growth for the next 5 years.

Importance of FY2016-17

Our Company has three major products – ATBS, IBB and IB which have been highly successful. But during FY2016-17 we broke a silence of almost 4 years and announced three of the largest capex investments in our history, for the development of products like IB derivatives PTBBA and butylated phenols (an import substitution used in fragrances, resins and antioxidants, among others), PAP (used in paracetamol manufacturing) and forward integration to IBAP. With all these facilities expected to become operational over FY2017-18 to late FY2019-20, our Company is not just expected to widen portfolio but to double revenues by FY2020-21 and at the same time ensure a sustainable future growth. Further our Company embarked on the path of building a 8 megawatt co-generation based captive power plant at our Lote facility, which is expected to provide our Company with a cost saving of ₹8 crores in power cost. By improving access to reliable and affordable energy, our Company intends to meet its energy goal: we are also doing our part to minimise impacts to the environment. Interestingly, majority of our capex has been funded from internal accruals only, thus enabling our Company to maintain its zero-debt status. Moving forward I expect the free cash-flow to strengthen from FY2019-20 as the capex cycle subsides.

From a macro perspective, despite a number of challenges in terms of fluctuating oil prices, uncertain geopolitical scenarios and slower than expected growth in the emerging economies, a number of micro economic factors like lower cost of labour, availability of key raw materials, large consumer markets

and adaptability to technology along with strong policy support from the Government, has worked in favour of the Indian chemical industry. Further I believe that recent market changes have created notable challenges for our industry. However, they also present new opportunities for our business. Thus, our Company is uniquely suited to compete effectively throughout the cycle.

At Vinati, of paramount importance are Vinati's high standards for operational performance, strict norms for emerging as the greenest chemical company and judicious capacity building has helped us steer our business successfully over the years. These standards of integrity and excellence allow us to set high performance and efficiency goals, measure our achievements, and improve our operations every year. None of this would be possible, however, without the knowledge, skill, and dedication of our employees, who again demonstrated this year that they possess the best technical and leadership skills in the industry.

We plan to enhance our focus on developing a greener, cost-efficient manufacturing processes for existing products, integrating it forward, backwards or horizontally, to further build scale benefits on raw materials and thereby capture a higher share of the value chain. All these efforts will increase our competitive strength, drive growth and lead to our emergence as a responsible global corporation.

I can assure you that we will continue our intense focus on the value creation for shareholders. We appreciate the confidence and trust that you have shown in our Board, management and our employees. Initially our Company

was just a raw material supplier but our innovation-led approach helped us address client's supply chain concerns through integrated intermediate chemicals and greener technology thus solving complex client problems. We have undertaken this journey for 25 years now. But I believe we are still far away from achieving our best. The coming years would be an exciting time for our shareholders as I believe they would be our transformative years. We continue to keep our commitments to our shareholders and unlock the value within our Company. We continue to maintain an unparalleled financial position in the industry. This enables us to pursue and finance attractive investment opportunities as and when they arise. I look forward to a year of transformation and value creation with you, our shareholders.

With warm regards,

Vinod Saraf

Securing the future

Vinati Organics is a renowned specialty chemicals company in India, leading globally in manufacturing some of the key products.

Starting operations almost

two AND A HALF DECADES BACK,

Vinati Organics serves global clients and is their preferred supplier in the products we are present in.

Our products serve sectors like:

Water Treatment

Emulsions and Paints

Construction

Agrochemical

Mining

Pharmaceutical

Paper

Leather

Oil Drilling

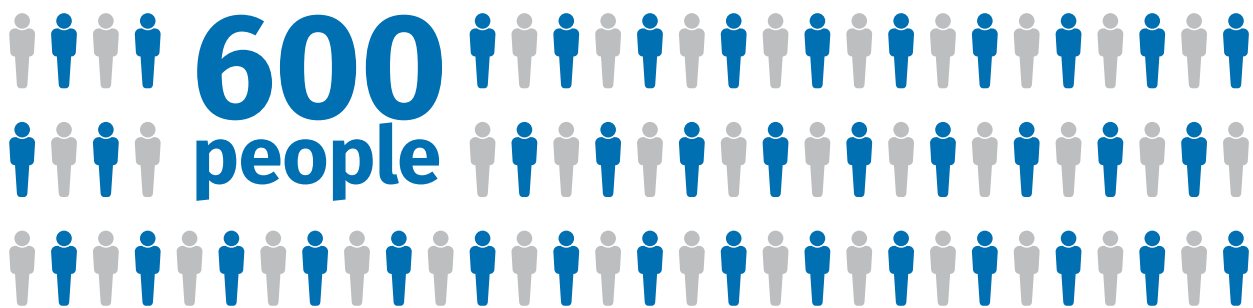

Operating from India, we export our products to more than

22 COUNTRIES
ACROSS THE
GLOBE.

Our team of more than

600
people

comprising a diverse set of intellectuals with different skill sets forms an essential building block for our sustained growth.

This has helped us serve our domestic clients, substitute imports, export to global MNCs and emerge as a truly

‘MAKE IN INDIA’

Company.

Integration is the key

OUR INTEGRATED BUSINESS MODEL AND EFFICIENT PRODUCTION SET UPS ARE THE KEY TO OUR PAST LAURELS AND FUTURE GROWTH. OUR PRODUCT VALUE CHAIN HELPS US POSITION GLOBALLY IN ORDER TO RELIABLY SUPPLY TO A WIDER CUSTOMERS BASE.

Having started modestly with 1000TPA production capacity for ATBS, today we are the largest producer in the world. The expansion and success was at the backdrop of our captive and self-sustaining business model.

Understanding the growing demand for ATBS, we consciously started manufacturing IB – key raw material ingredient for ATBS. It brought in two fold benefits, one, helped us cut down our import of IB and save costs; two, increased revenues with sale of Co-products and by-products from manufacturing process (TBA, Industrial Polymers and Methanol).

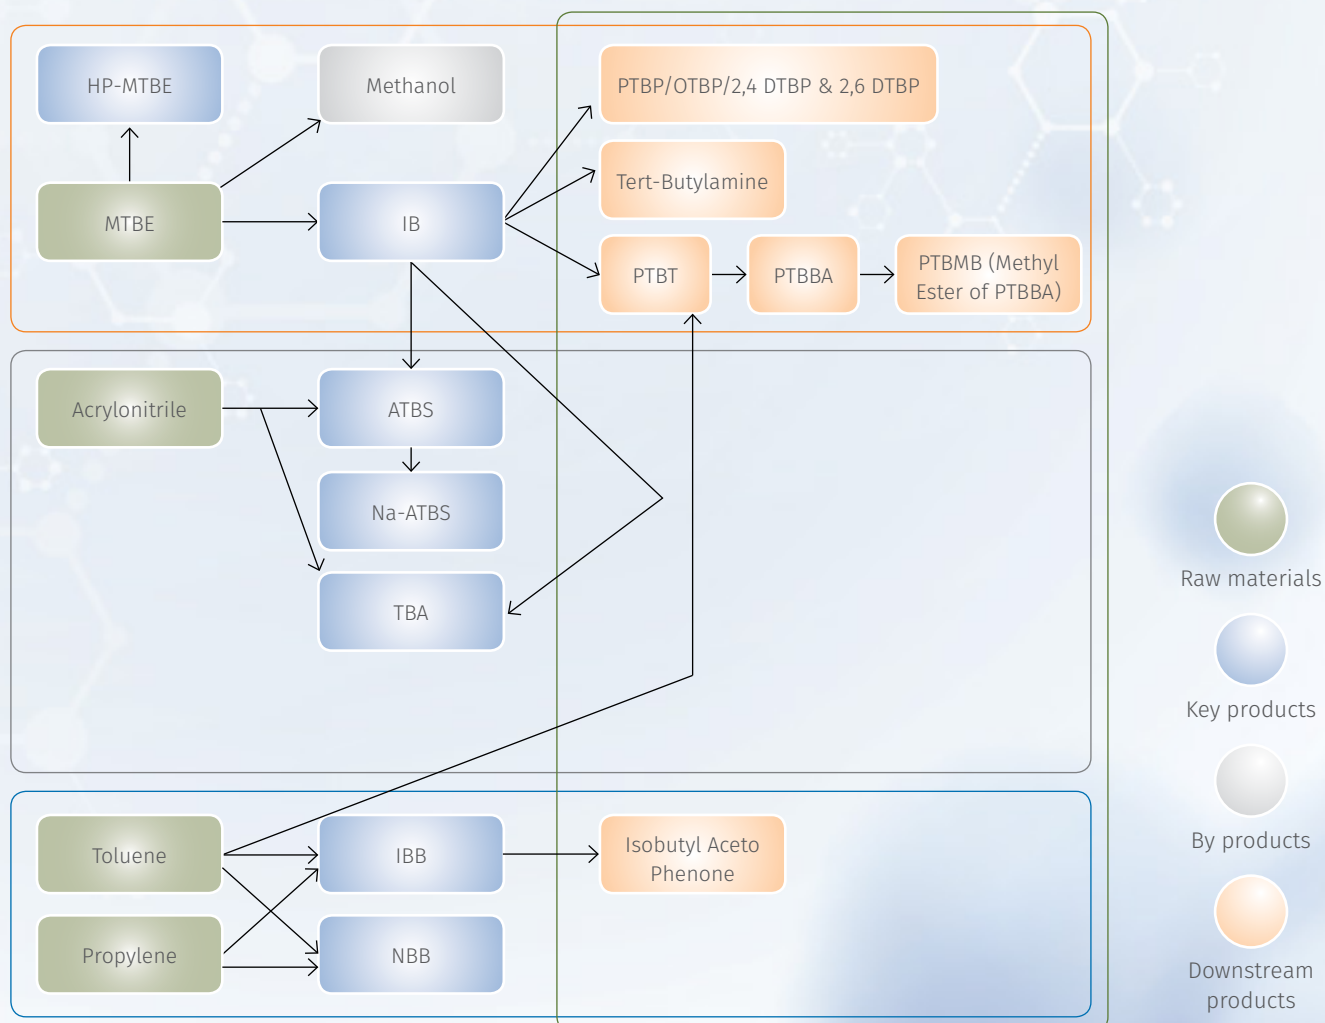

We are the largest manufacturer of IB in India and taking that competitive advantage we have now started manufacturing IB derivatives which add value to our entire play on synergy and integration. TB Amine, which is an IB derivative, has now started contributing to our sales mix from FY17 onwards. PTBBA, which is another IB derivative, will start contributing to our revenue from FY18 onwards.

We are also working on butylated phenols project which consists of 4 more IB derivatives (PTBP, OTBP, 2,4 DTBP & 2,6 DTBP). These products find applications as intermediates in

various industries like fragrance, resins, lubricants and antioxidants. Presently, these products are not manufactured in India and are being imported. We intend to substitute these imports and would also look at catering to the global demand. These plants are expected to be commissioned towards the end of FY19.

We also intend to forward integrate our IBB business by manufacturing IBAP, which is the intermediary between IBB and Ibuprofen. This forward integration will be value additive to our existing set of operations.

Our integrated product profile

Widening the product basket

OUR INVESTMENTS IN RESEARCH AND NEW PROCESS DEVELOPMENT FORM A STRONG FOUNDATION FOR OUR SUSTAINABLE GROWTH. OUR FOCUS ON DEVELOPING INNOVATIVE AND COST COMPETITIVE PROCESSES FOR OUR PRODUCTS ENABLE US TO STRENGTHEN OUR MARKET LEADERSHIP.

At Vinati Organics, we founded our business on identifying innovative products and backing them with competitive advantages. With focused products, continuous process innovation and sustained capacity expansion, we demonstrated a healthy growth in revenue and profitability. The result: We are the largest producer of IB and HPMTBE in India, largest producer of IBB and ATBS in the world.

Leveraging our integrated business model supported by technological tie-ups with National Chemical Laboratories (India), Institut Francais du Petrole (France), Saipem S.p.A. (Italy)

and IICT, Hyderabad, we have been able to enrich our product profile. As a strategic step, we have forward integrated into developing IBAP, PTBT/PTBBA/butylated phenols.

Our investment in Para Amino Phenol (PAP) will further widen our product basket and drive revenues.

Para amino phenol is one of the most widely used intermediate in the pharmaceutical industry. Primarily, PAP is used in the manufacture of paracetamol, a widely used over-the-counter analgesic (pain reliever)

and antipyretic (fever reducer). India presently imports PAP from China. We have developed a one-step process to manufacture PAP, which is both greener as well as cost effective than the Chinese process.

These new products have good market potential which we expect to capitalise in the near short-term. We expect to leverage our cost efficiencies, produce high quality products and gain maximum market share. Our access to a wider client base and greater process improvisation strengthens our competitive edge on a global scale.

Prudent financial management

IN AN UNCERTAIN ECONOMIC ENVIRONMENT IT IS EASY TO BECOME CONSUMED BY CHALLENGES AND MARKET VOLATILITY. AT VINATI ORGANICS, WE HAVE MADE SUBSTANTIVE PROGRESS IN THIS VOLATILE ENVIRONMENT BACKED BY OUR PRUDENT FINANCIAL MANAGEMENT.

Today, Vinati Organics is more focused, less leveraged, better capitalised and highly liquid. In our journey towards achieving greater financial strength, we continue to generate superior returns compared to the industry while expanding our business portfolio.

Over the years, we expanded our capacities only when we achieved excellence in technology absorption required to manufacture the product. So as we increased our cash flows through volume and value-driven

activities, we successfully balanced our reinvestments and borrowings. On one hand we steadily kept increasing our capacities and on the other we reduced our gearing and improved financial stability.

With a stable working capital of ₹244 crore and zero gearing as on March 31, 2017, we have been able to expand our business largely through internal accruals.

A combination of robust profit growth and sustained payout also translated into a growth in market capitalisation and enterprise value. Our average dividend payout ratio in last five years has been at 17%.

Being responsible and sustainable

A key factor for the growth and success of any company is being responsible and sustainable. Our ethical business framework and sustainable code of policies provide the guidance for us to move in the right direction.

WE PROACTIVELY ENGAGE IN CONVERTING WASTE/RESIDUALS FROM OUR MANUFACTURING PROCESS INTO USEFUL PRODUCTS

Since inception, we have always focused on being an environment friendly company. Our R&D team works closely to understand the impact of each new products, new raw materials and manufacturing process on the environment. We are among the few chemical companies in India to have zero waste, with our processes and technologies being clean and green.

Another aspect of sustainability is health and safety of our workers. With each passing year we have delivered improvements in work culture of our employees with better risk management, investments in training and continued promotion of work recognition. This has resulted in improvements in our overall health and safety measures.

India is at the verge of becoming a major manufacturing base for the world with the government

initiating steps like "Make in India", GST, reformation of labour laws. Globalisation has made supply chains for the businesses more complex; therefore a joint initiative of 'Together for Sustainability' (TfS) by global chemical companies has been introduced to encourage their suppliers to implement sustainable practices in their management, manufacturing and procurement systems. The member companies of TfS, have assigned their resources into building up a worldwide program to audit and evaluate suppliers under pre-defined criteria regarding management, environment, health and safety, labour and human rights, and governance issues. TfS selected EcoVadis as its partner for Supplier sustainability Scorecards.

Our efforts towards social responsibility have been recognised and appreciated by EcoVadis's recent CSR evaluation program. We were awarded a 'Gold Rating' and were among the top 5% performers based on defined parameters for corporate social responsibility.

REMUNERATION POLICY

Introduction:

The Remuneration Policy of the Company is designed to attract, motivate, improve productivity and retain manpower, by creating a congenial work environment, encouraging initiatives, personal growth and team work, and inculcating a sense of belonging and involvement, besides offering appropriate remuneration packages and superannuation benefits. The policy reflects the Company's objectives for good corporate governance as well as sustained long term value creation for shareholders.

Applicable:

This Remuneration Policy applies to directors, senior management including its Key Managerial Personnel (KMP) and other employees of the Company.

Guiding principle:

The guiding principle is that the remuneration and the other terms of employment should effectively help in attracting and retaining committed and competent personnel.

While designing remuneration packages, industry practices and cost of living are also taken into consideration.

Directors:

As per the Policy followed by the Company since inception the non-executive directors are paid remuneration in the form of sitting fees for attending Board and Committee meetings as fixed by the Board of Directors from time to time subject to statutory provisions. Presently sitting fee is ₹25000/- per Board meeting and per Committee meeting.

Remuneration of Whole Time Directors including Managing Director reflects the overall remuneration philosophy and guiding principle of the Company. When considering the appointment and remuneration of Whole Time Directors, the Nomination & Remuneration Committee (NRC) considers pay and employment conditions in the industry, merit and seniority of the person and the paying capacity of the Company.

The NRC while designing the remuneration package considers the level and composition of remuneration to be reasonable and sufficient to attract, retain and motivate the

person to ensure the quality required to run the company successfully.

The NRC while considering a remuneration package must ensure a balance between fixed and performance linked variable pay reflecting short and long term performance objectives appropriate to the working of the company and its goals.

The NRC considers that a successful Remuneration Policy must ensure that some part of the remuneration package is linked to the achievement of corporate performance targets and a strong alignment of interest with stakeholders.

The term of office and remuneration of Whole Time Directors are subject to the approval of the Board of Directors, shareholders and the limits laid down under the Companies Act from time to time.

Reward principles and objectives:

The Company's Remuneration Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under section 178 of the Companies Act 2013, inter alia principles pertaining to determining qualifications, positive attributes, integrity and independence etc.

Reward policies:

Remuneration packages for Whole Time Directors are designed subject to the limits laid down under the Companies Act, 2013 to remunerate them fairly and responsibly.

The Whole Time Directors' remuneration comprises of salary, perquisites and performance based commission/ reward apart from retirement benefits like P.F., Superannuation, Gratuity, etc. as per Rules of the Company.

Remuneration also aims to motivate personnel to deliver Company's key business strategies, create a strong performance-oriented environment and reward achievement of meaningful targets over the short and long-term.

The Whole Time Directors are entitled to customary non-monetary benefits such as company cars, furnished accommodation, health care benefits, leave travel, communication facilities, etc. Their terms of appointment provide for severance payments as per the Companies Act.

Key Managerial Personnel [KMP] Senior Management:

Appointment of KMP & senior management and cessation of their service are subject to the approval of the NRC and the Board of Directors. Remuneration of KMP and other senior management personnel is decided by the Managing Director (MD) on the recommendation of the Whole Time Director concerned, where applicable, broadly based on the Remuneration Policy in respect of Whole Time Directors. Total remuneration comprises of:

1. **A fixed base salary** - set at a level aimed at attracting and retaining executives with professional and personal competence, showing good performance towards achieving Company goals.
2. **Perquisites** - in the form of house rent allowance/ accommodation, furnishing allowance, reimbursement of medical expenses, conveyance, telephone, leave travel, etc.
3. **Retirement benefits** - contribution to PF, superannuation, gratuity, etc. as governed by respective acts and rules prevailing in the Company from time to time.
4. **Motivation /Reward** - A performance appraisal is carried out annually and promotions/ increments/ rewards are decided by MD based on the appraisal and recommendation of the concerned Whole Time Director, where applicable.
5. **Severance payments** - in accordance with terms of employment, and applicable statutory requirements, if any.

Other employees:

The remuneration of other employees is fixed from time to time as per the guiding principles outlined above and considering industry standards and cost of living. In addition to basic salary they are also provided perquisites and retirement benefits as per schemes of the Company and statutory requirements, where applicable. Policies of motivation / reward / severance payments are applicable to this category of personnel as in the case of those in the management cadre.

Disclosure of information:

Information on the total remuneration of members of the Company's Board of Directors, Whole Time Directors and KMP/ senior management personnel may be disclosed in the Company's annual financial statements as per statutory requirements.

Application of the Remuneration Policy:

This Remuneration Policy shall continue to guide all future employment of Directors, Senior Management including Key Managerial Personnel and other employees.

Any departure from the policy can be undertaken only with the approval of the Board of Directors.

MANAGEMENT DISCUSSION AND ANALYSIS

Global economy overview

Global economic activity is picking up with a long awaited cyclical recovery in investment, manufacturing, and trade. Stronger activity and expectations of more robust global demand, coupled with agreed restrictions on oil supply, have helped commodity prices recover from their troughs in early 2016. Higher commodity prices have provided some relief to commodity exporters and helped lift global headline inflation and reduce deflationary pressures. On the domestic front, policies are supporting demand and balance sheet repair where necessary and feasible; boost productivity through structural reforms, well-targeted infrastructure spending, and other supply-friendly fiscal policy measures; and support those displaced by structural transformations, such as technological change and globalisation. (Source:IMF)

Economic activity gained some momentum in the second half of 2016, especially in advanced economies. Growth picked up in the United States as firms grew more confident about future demand, and inventories started contributing positively to growth. Growth also remained solid in the United Kingdom, where spending proved resilient in the aftermath of the June 2016 referendum in favor of leaving the European Union (Brexit). Activity surprised on the upside in Japan thanks to strong net exports, as well as in euro area countries, such as Germany and Spain, as a result of strong domestic demand. (Source:IMF)

Economic performance across emerging market and developing economies has remained mixed. Whereas China's growth remained strong, reflecting continued policy support, activity has slowed in India because of the impact of the currency exchange initiative, as well as in Brazil, which has been mired in a deep recession. Activity remained weak in fuel and nonfuel commodity exporters more generally, while geopolitical factors held back growth in parts of the Middle East and Turkey. (Source:IMF)

Outlook

World growth, estimated at 3.1 percent in 2016, is projected to increase to 3.5 percent in 2017 and 3.6 percent in 2018—an upward revision of 0.1 percentage point for 2017. Economic activity in advanced economies as a group is now forecast to grow by 2.0 percent in 2017 and 2018, 0.2 percentage point higher than expected in 2016. This forecast is particularly uncertain in light of potential changes in the policy stance

of the new U.S. administration and their global spillovers. Growth in the group of emerging market and developing economies is forecast to rise to 4.5 percent and 4.8 percent, respectively, in 2017 and 2018, from an estimated outturn of 4.1 percent in 2016. This projected upturn reflects, to an important extent, a stabilisation or recovery in a number of commodity exporters, some of which underwent painful adjustments following the drop in commodity prices, and strengthening growth in India, partially offset by a gradual slowdown of the Chinese economy. Indian economy overview

India's economy has grown at a strong pace in recent years owing to the implementation of critical structural reforms, favorable terms of trade, and lower external vulnerabilities. The growth in GDP during 2016-17 is estimated at 7.1 per cent as compared to the growth rate of 7.6 per cent in 2015-16 (Source: CSO). In 2016-17, the government's final consumption expenditure emerged as the major driver of GDP growth with an increase of over 23 per cent as against 2.2 per cent in 2015-16. The anticipated growth of real GVA at basic prices in 2016-17 is 7 per cent against 7.2 per cent in 2015-16.

The estimates have been reduced in all the sectors, except for agriculture, which has improved due to the positive monsoon season. The agriculture, forestry and fishing' is expected to expand by 4.1 per cent in 2016-17 from 1.2 per cent. The growth in manufacturing is expected to slow to 7.4 per cent (from 9.3 per cent) and construction activities to 2.9 per cent (from 3.9 per cent).

Eight core industries comprising coal, crude oil, steel, cement, natural gas, electricity, fertilizers and refinery products registered a combined growth of 4.9 per cent during April-November of FY17 compared to 2.5 per cent growth during the same period in FY16.

Total FDI equity inflows stood at USD 21.7 billion during H1 FY17 compared to USD 16.6 billion during H1 FY16, a growth of 30.7 per cent year-on-year. Initiatives such as Make in India, Invest India, Start Up India and e-biz Mission Mode Project under the National e-Governance Plan are expected to further improve the ease of doing business and provide a boost to manufacturing in the country

Outlook

The country's economic growth is facing challenges such as subdued manufacturing, lower exports of services and lower capital expenditure. However, it is expected that FY18, cheap borrowing costs and fading impact of demonetisation could increase the private consumption and thereby drive economic growth. The implementation of Goods and Services Tax (GST) is expected to improve tax compliance and governance and might provide an impetus to the investments and growth in the country. Due to favourable indicators such as moderate levels of inflation, reduced current account deficit, fiscal consolidation and transitory impact of demonetisation, the country is currently characterised as a stable macroeconomic situation, the Government expects India's GDP to expand at a growth rate between 6.75-7.5 per cent per cent during 2017-18.

Global chemical industry

Over the past decade, capacity expansion growth rate has been the 2nd highest after China. Between 2000-2016, the GCC's production capacity almost quadrupled, growing from 38.3 to 148.4 million ton. This represents a CAGR of 8.8%, double the global industry's growth rate and the 2nd highest after China on global level. Over the same period, the region's share of global capacity more than doubled, growing from 3% in 2000 to 7% in 2016. (Source: ICIS)

Global chemical production (excluding pharmaceuticals) will probably grow by 3.4% in 2017, the same pace as 2016 (+3.4%). A marginally higher expansion rate in the advanced economies (2016: +0.9%, 2017: +1.1%). Growth in the emerging markets will presumably weaken somewhat (2016: +5.4%, 2017: +5.1%). The global growth rate of the chemical market will be largely determined by developments in China, which accounts for more than a third of worldwide production. There, the upward trend may continue to slacken but producers in China are nevertheless likely to contribute more than two percentage points to worldwide chemical industry growth. Yet macroeconomic risks in China remain high, therefore, our forecast for global chemical growth is marked by particular uncertainty. (Source: BASF)

Chemical production in the European Union is expected to barely grow faster than in 2016. In general, the increase in production will remain modest against the backdrop of a sluggish domestic market. A competitive pressure is expected on export markets to remain intense, even though the naphtha-based European chemical industry benefits more from low oil prices than the gas-based production in the United States. In the United States, somewhat faster growth is expected in chemical production, at just under 2%, as new production capacity, which will also be used for export, comes onstream. Overall chemical growth is likely to decelerate somewhat in the emerging markets of Asia, mainly due to the slowdown in China, which will affect

the other developing countries in the region. In Japan, a weak overall economic environment and minimal growth is presumed in chemical production. In South America, the anticipated end of the recession in Argentina and Brazil will result in slight growth in chemical production in the region.

Indian chemical industry

The Indian chemicals Industry has been an integral part of the Indian economy even as the story has recently gained prominence. The \$ 25 billion Indian specialty chemicals sector has grown from one dominated by small niche players into a multi-faceted global footprint, accounts for a marginal 3% of the global specialty chemicals market.

The industry grew from \$ 16 billion in FY09-10 to \$ 25 billion in FY13-14 and projected to grow to \$ 44 billion by FY18-19 (Source: FICCI).

The Indian specialty chemicals market is growing at almost 2x the global average

The production of major chemicals in 2016-17 (up to November 2016) was 6740 thousand MT, compared to 6530 thousand MT during the same period in 2015-16 (up to November 2015) implying a growth of 3.2%. The trend in the production of selected major chemicals is depicted in the chart below.

India's disadvantages in feedstock position and lack of adequate infrastructure have hindered its progress into the big league. Additionally, due to lack of innovation of new products or applications, these businesses have developed largely to meet immediate local demand, which requires relatively smaller investment. Not surprisingly, this industry is highly fragmented among 40,000 companies – where 60% of volume is produced by SMEs. (Source: Philip Capital)

Speciality chemicals comprise high value, low volume chemicals recognized for their performance enhancing end use applications. Being 'usage-specific', speciality chemicals touch upon every population segment, finding downstream applications in paints, coatings, plastics, home care surfactants, flavours and fragrances.

Traditionally, a majority of the Indian market was characterised by SMEs working around low costs but without processes, quality and customer engagement capabilities at par with global peers. In recent years, there has been a decisive shift, the Indian specialty chemicals industry moving from a generic space to a knowledge based and innovation driven niche.

The structural foundation of the Indian speciality chemicals sector remains strong, catalysed by a visible increase in the consumption of value added high performance products in all spheres of life. India's position as a manufacturing hub for specialty chemicals strengthened following an increasing shift in manufacturing capacities to Asia, following a weakening in Chinese exports and a sustained improvement in India's competitiveness.

Going ahead, the Make in India campaign is set to accelerate sectoral growth by attracting foreign direct investment that validates India's emergence as a leading global speciality chemicals manufacturing location on the back of improvements in infrastructure, regulation, licenses and taxes.

Factors indicating the robust potential of India's specialty chemical demand:

- Large population with lowest per-capita consumption of chemicals in the country
- India's relatively strong GDP growth outlook (7-8% over the next few years).
- Rapid progress in key end-user industries domestically would support growth.

(Source: Philip Capital)

Favourable initiatives by the Indian government

- Developing chemical clusters with adequate infrastructure
- Facilitating international investment
- Make in India campaign giving better visibility for the industry
- Capex into the Indian chemical sector has already seen a 52% year-on-year jump to Rs 1.46tn in 2014
- FDI increased by 49% year-on-year in FY15 to US\$ 4bn (as per Department of Industrial Policy and Promotion).

Indian chemical industry outlook (USD bn)

Indian speciality chemicals industry outlook (USD bn)

SWOT Analysis**Strengths**

- Large population and dependence on agriculture
- Per-capita consumption of chemicals in India is lower compared to Western countries
- 100% FDI is permissible in the Indian chemicals sector and the manufacturing of most chemical products is de-licensed.
- Launch of the Draft National Chemical Policy by the Government of India to increase India's share of chemical sector in the GDP.
- Diversified manufacturing base that produces world-class products.
- Raw material requirement is fulfilled domestically and is easily available.
- India's tropical climate facilitates in open storage of bulk chemicals.

**Weaknesses**

- Presence of numerable suppliers in the market lead to high bargaining power to customers.
- High fragmentation of the chemical industry in India with intense rivalry amongst companies.
- Difficulties for the country to compete with developed nations because of low investment in R&D and engineering facilities.
- High cost of power as well as finance is faced by the industry.
- Plant sizes in India are small in comparison to other countries leading to loss of advantages of economies of scale.
- Huge capital requirements together with patent protection are barriers to enter in the market.

**Opportunities**

- Reliable and competitive feedstock supply available in the market.
- Buyers tend to have specific chemical requirements and there is no direct substitute for a specific chemical requirement.
- The domestic industry is likely to grow in the coming years with a growing market and purchasing power.
- Growing disposable incomes and increasing urbanisation are increasing the end consumption demand for paints, textiles, adhesives and construction.

**Threats**

- Tariff levels in India for most chemicals are significantly higher compared to other countries, thereby leading in much pressure to reduce import tariffs.
- The industry may face extinction if competitiveness is not acquired.
- Challenges may be faced by the industry due to bilateral/multilateral trade agreements of the country.

Company overview

Vinati Organics Limited is a specialty chemicals manufacturer established in 1989 and has plants its plants at Lote and Mahad. The company is based out of Mumbai and has over 600 employees. Vinati Organics is known globally for Iso Butyl Benzene (IBB) and 2-Acrylamido methylpropanesulfonic Acid (ATBS).

With the best technologies and process, Vinati has become the world's largest manufacturer with a share of 65% in IBB and 45% in ATBS. Global leadership in these products was achieved through development of greener and cost efficient process through years of sustained effort on developing a credible alternative to existing manufacturing process.

Product profile

IBB is primarily used in pharmaceuticals as a raw material for the manufacture of ibuprofen and ATBS is a specialty monomer used as co-monomer in numerous polymerisation processes. IB, which is the key raw material for ATBS, is also used in agro-based chemicals and antioxidants. These 3 key products now contribute around 75% of the revenues of Vinati Organics. Vinati Organics has started diversifying its product portfolio by adding products like HPMTBE, couple of customised products and IB based derivatives like TB Amine, PTBBA.

Product	Market Position	Application/End Usage	Relevance
Isobutyl Benzene (IBB)	Largest manufacturer in the world and holds the largest market share	Pharmaceutical	It is the primary raw material for Ibuprofen and widely used drug across the US, Europe and Asia.
2-Acrylamido 2 Methylpropane Sulfonic Acid (ATBS)	Largest manufacturer in the world and the only manufacturer in the country	Water treatment chemicals, emulsions for paint and paper coatings, adhesives, textile auxiliaries and acrylic fibre, detergents and cleaners, oil field, mining chemicals and construction chemicals	It is used to manufacture dispersants in water chemicals. It acts as an important ingredient to manufacture polymers for Enhanced Oil Recovery (EOR). It is important for giving dye receptability for acrylic fibre.
Isobutylene (IB)	Largest manufacturer in the country	Agro-based chemicals, food Additives and anti-oxidants	It is used as an intermediate.
High Purity- Methyl Tertiary Butyl Ether (HPMTBE)	Largest manufacturer in the country	Pharmaceuticals	It is used as a speciality solvent.
Tertiary Butyl Amine (TB Amine)	Only manufacturer in the country	Agro based chemicals, Pharmaceuticals and rubber	It is an Important building block
N-Tertiary Butyl Acrylamide (TBA)	Only manufacturer in the country	Thickeners, personal care, water Treatment and metal working fluid	It is an important ingredient to increase viscosity of coatings and solutions
N-Tertiary Octyl Acrylamide (TOA)	Only manufacturer in the country	Personal care, adhesives and enhanced oil recovery	It is an important ingredient in personal care products like hair gel and creams.

Risk management

The Company continues to take proactive approach by identifying and mitigating risks that affect the day-to-day business operations.

Health and safety risk

Mitigation: Health and safety is in the Company's top list of items for the management meetings as health and safety is one of the integral operational priorities.

Environmental risk

Mitigation: A positive involvement is ensured to the health and well being of our consumers and the communities we work for. Our corporate social responsibility statement describes our effort in more detailed manner.

Geographical risk

Mitigation: The Company has two plants in Maharashtra and sells its products locally as well as exports it to more than 22 countries worldwide, spread across the US, Europe and Asia.

Customer risk

Mitigation: The innovative products are developed according to our consumers' requirements to meet their demand for quality, choice and value. We are also diversifying into products that cater to different industries.

Client retention risk

Mitigation: We focus on building a strong relationship with our clients based on servicing them products of the highest quality with efficient pricing and timely deliveries. Our business model emphasises on different sectors and geographies.

People retention risk

Mitigation: Many performance management and training and development programmes are held to ensure that our corporate objectives are met and the best people are motivated and retained through adopting fair performance evaluation and reward scheme.

Quality risk

Mitigation: The most reliable certifications for quality and environment like ISO 9001:2008, ISO 14001: 2004 and ISO 18001:2007 are held. Additionally EHS audits carried out at our premises by the customers aid us in strengthening our quality commitment.

Financing risk

Mitigation: The Company has Zero Long Term debt and is financially strong enough to fund its proposed capital expenditure through internal accruals and can easily raise debt to fund its future planned capital expenditures.

Foreign exchange and Raw material price risk

Mitigation: More than 2/3rd of the the Company's revenues are generated from exports and the raw materials are procured through import and local purchases, where local purchases track import parity price. The contracts entered into with customers have provision to pass on the change in the raw material prices and beyond a certain degree even the volatility in the exchange rate is captured in the contract.

Internal Control systems and their adequacy

Internal control and proper systems give authenticity to the information, reports, records, documents, transactions and serve as a strong foundation for decision making by the management. The Company has established proper internal control systems and procedures which are compatible with the size of its operations and business. With a view to ensure that systems are adhered to and controls are not flouted, a firm of chartered accountants conduct internal audit of operations, establishments, and stockyards quarterly. The Audit Committee reviews the reports of Internal Auditors and monitors effectiveness and operational efficiency of internal control systems. The Audit Committee gives valuable suggestions from time to time in improving the business processes, systems and internal controls. Annual internal audit plans are prepared by internal auditors in consultation with the Audit Committee and audit is conducted in accordance with this plan.

CORPORATE SOCIAL RESPONSIBILITY POLICY (CSR)

CSR Meaning

Corporate Social Responsibility (CSR) is a form of corporate self regulation integrated into business model. The term stake holder meaning those on whom an organisation's activities have on impact.

There is no other way to run your business rightly. Honesty has to be accepted as an axiom, which is the only way to do business. It gives you the mental and moral strength and the ability to do it the right way.

Philosophy

Recognising that business enterprises are economic organs of society and draw on societal resources, it is VOL's belief that a company's performance must be measured by its Triple Bottom Line contribution to building economic, social and environmental capital towards enhancing societal sustainability. VOL believes that in the strategic context of business, enterprises possess, beyond mere financial resources, the transformational capacity to create game-changing development models by unleashing their power of entrepreneurial vitality, innovation and creativity. In line with this belief, VOL will continue crafting unique models to generate livelihoods and environmental capital. Such Corporate Social Responsibility ("CSR") projects are far more replicable, scalable and sustainable, with a significant multiplier impact on sustainable livelihood creation and environmental replenishment. These initiatives are independent of the normal conduct of VOL's business. Programmes, projects and activities (collectively "CSR Programmes") carried out in this regard are the subject matter of this Policy.

CSR Policy

It is VOL's policy:

1. To direct VOL's CSR Programmes, inter alia, towards achieving one or more of the following - enhancing environmental and natural capital; supporting rural development; promoting education; providing preventive healthcare, providing sanitation and drinking water; creating livelihoods for people, especially those from disadvantaged sections of society, in rural and urban India; preserving and promoting sports;

2. To develop the required capability and self-reliance of beneficiaries at the grass roots, especially of women, in the belief that these are prerequisites for social and economic development;
3. To engage in affirmative action interventions such as skill building and vocational training, to enhance employability and generate livelihoods for persons from disadvantaged sections of society;
4. To pursue CSR Programmes primarily in areas that fall within the economic vicinity of the Company's operations to enable close supervision and ensure maximum development impact;
5. To carry out CSR Programmes in relevant local areas to fulfill commitments arising from requests by government/regulatory authorities and to earmark amounts of monies towards "Enterprise Social Responsibility (ESR)" activities and to spend such monies through ESR/CSR Cells of such administrative bodies of the government and/or directly by way of developmental works in the local areas around which the Company operates;
6. To provide equal opportunities to beneficiaries of the Company's CSR Programmes as vendors or employees on merit;

CSR Governance

1. Every year, the Corporate Social Responsibility Committee (CSRC) will place for the Board's approval, a CSR Plan delineating the CSR Programmes to be carried out during the financial year and the specified budgets thereof. The Board will consider and approve the CSR Plan with any modification that may be deemed necessary.
2. The CSRC will assign the task of implementation of the CSR Plan within specified budgets and timeframes to such persons or bodies as it may deem fit.
3. The persons/bodies to which the implementation is assigned will carry out such CSR Programmes as determined by the CSRC within the specified budgets and timeframes and report back to the CSRC on the progress thereon at such frequency as the CSRC may direct.
4. The CSRC shall review the implementation of the CSR Programmes once a quarter and issue necessary directions from time to time to ensure orderly and efficient execution of the CSR Programmes in accordance with this Policy.
5. Once every six months the CSRC will provide a status update to the CSR and Sustainability Committee on the progress of implementation of the approved CSR Programmes carried out during the six month period. It shall be the responsibility of the CSRC to review such reports and keep the Board apprised of the status of implementation of the same.
6. At the end of every financial year, the CSRC will submit its report to the Board.

Guiding Principles

To attain its CSR objectives in a professional manner and integrated manner, the Company shall:

- Undertake proactive engagement with stakeholders to actively contribute to the socio-economic development of the periphery/community in which it operates.
- Using environment friendly and safe processes in production.
- Create a positive footprint within the society by creating inclusive and enabling infrastructure/environment for livable communities.
- Ensure environmental sustainability by adopting best ecological practices and encouraging conservation/judicious use of natural resources.

- Work towards mainstreaming the marginalised segments of the society by striving towards providing equal opportunities and making meaningful difference in their lives.
- Focus on educating the girl child and the underprivileged by providing appropriate infrastructure, and groom them as future value creators.
- Assist in skill development by providing direction and technical expertise to the vulnerable thereby empowering them towards a dignified life.
- Emphasise on providing basic nutrition/health care facilities with special focus on establishing health centers for the mother and child as well as the elderly.
- Facilitate water conservation by reducing water consumption at the plants and taking up rain water harvesting projects.
- Create a business value chain which is sustainable – environmentally + socially + economically.
- Promote an inclusive work culture.
- Work towards generating awareness for creating public infrastructure that is barrier free, inclusive and enabling for all including the elderly and the disabled.
- Create positive awareness towards the need to adopt measures that lead towards reducing carbon footprints, dependence on fossil fuels and promote alternate energy approaches.
- Promoting the well being and development of employees and their families through an inspiring corporate culture that engenders good values.
- Employee participation is an important part of developing responsible citizenship. Our company encourages and motivates employees to spend time volunteering on issues of their interest.
- At the time of national crisis, as a company it is imperative for us to respond to emergency situations & disasters by providing timely help to affected victims and their families.

CSR Expenditure

CSR expenditure will include all expenditure, direct and indirect, incurred by the Company on CSR Programmes undertaken in accordance with the approved CSR Plan. Moreover, any surplus arising from any CSR Programmes shall be used for CSR. Accordingly, any income arising from CSR Programmes will be netted off from the CSR expenditure and such net amount will be reported as CSR expenditure.

RISK MANAGEMENT POLICY

Introduction:

Vinati Organics Ltd (VOL) recognizes that enterprise risk management is an integral part of good management practice. Risk Management is an essential element in achieving business goals and deriving benefits from market opportunities.

Policy

- The Company is committed to managing risk in a manner appropriate to achieve its strategic objectives.
- The Company will keep investors informed of material changes to the Company's risk profile through its periodic reporting obligations and ad hoc investor presentations.
- The Company reviews and reports annually on its compliance with the Corporate Governance Principles and Recommendations, relating to risk management and the internal control framework.

Risk Management Philosophy

The continued successful safeguarding, maintenance and expansion of the company's businesses requires a comprehensive approach to risk management.

It is the policy of the Company to identify, assess, control and monitor all risks that the business may incur to ensure that the risks are appropriate in relation to the scale and benefit of the associated project, business or practice and to ensure that no individual risk or combination of risks result in a likely material impact to the financial performance, brand or reputation of the Company.

Fundamental values of the Company are respect for our employees, customers and shareholders and integrity in everything we do. By acknowledging that risk and control are part of everyone's job, and by incorporating risk management into VOL daily business practices the Company will be better equipped to achieve our strategic objectives, whilst maintaining the highest ethical standards.

All staff is expected to demonstrate the highest ethical standards of behavior in development of strategy and pursuit of objectives.

Individually and collectively the Company's employees shall:

- Consider all forms of risk in decision-making;
- Create and evaluate group-wide ("corporate"), divisional and business unit risk profiles;
- Continually monitor and seek ways to improve the risk management framework;
- Retain ownership and accountability for risk and risk management at the corporate and divisional level;
- Strive to achieve best practices in Risk Management; and
- Accept that Risk Management is mandatory, not optional.

Risk Appetite

VOL's risk appetite represents the amount of risk the Company is willing to undertake in the achievement of its strategic objectives. It is inextricably linked to VOL's strategic and operating planning processes.

In assessing risk appetite the Board and management consider the needs and expectations of VOL's shareholders, customers and employees and the desire to build a profitable, socially responsible and sustainable Organisation.

As an Organisation that provides products and services that are all essentially of a compliance nature, the Board and Management acknowledge that stakeholder expectations are likely to be more exacting than could be applied to other Organisations. As a consequence VOL will not accept risks which could expose VOL to:

- unacceptable levels of financial loss relative to strategic and operational targets
- breaches of legislative or regulatory non-compliance
- damage to its reputation
- unacceptable interruption to the provision of services to customers.
- damage to relationships with its customers and key stakeholders
- health and safety metrics below target.

The Board and Management acknowledge that VOL operates in sectors that are growing and consolidating. Opportunities exist to supplement organic growth with selected acquisitions to grow the business, provide enhanced opportunities for our people and improved returns for our shareholders, and reduce the reliance on any one single income stream. The Board and Management accept that acquisitions are inherently risky but accept this risk providing the acquisition:

- is consistent with strategic objectives;
- is financially compelling; and
- is subjected to detailed financial and legal due diligence reviews.

Risk Framework

- Risk identification, assessment and treatment are part of the yearly business planning process. Risk ownership is allocated to management for risk assessment and risk treatment plan determination.
- Regular review, assessment and monitoring of existing risks are to occur quarterly. New risks are to be managed as they arise. All risks must be re-assessed when there is an organisational change to the business structure (i.e. an acquisition, management change or restructure of the business).
- Risk Assessment is conducted using a risk matrix for likelihood and consequence, taking the existing controls into consideration. The consequence assessment covers:
 - Financial;
 - Service delivery;
 - People (including health and safety);
 - Reputation and Brand; and
 - Regulatory and Compliance.
- Risk Treatment options are considered in determining the suitable risk treatment strategy. Planned action plans supporting the strategy are recorded in an on-line risk management database identifying responsibilities and a time line for completion. Risk treatment options include:
 - Avoid the risk;
 - Reduce the likelihood of the occurrence;
 - Reduce the consequences of the occurrence;
 - Transfer the risk (mechanism includes insurance arrangements); or
 - Retain the risk.

- Senior management are required to monitor and review existing risks recorded in the risk management system and to add new identified material risks at least quarterly. It is the responsibility of senior management to ensure that risk records are updated.
- Key risks reports, with progress of risk treatment implementation and the effectiveness of controls, are to be reviewed by the Executive Committee no less than quarterly.
- Reports relating to the risk management framework are reviewed by the Board Audit & Risk Committee, with “risk management” being a standing item on each meeting of the Committee.

The Company's Assurance Services division manages its risks by ensuring compliance with relevant standards.

The Assurance business is subjected to periodic, independent audits by the accreditation bodies, against our registered/approved scope in accordance with the relevant standards.

In addition, the business undertakes its own internal audits, the performing of which is a requirement of the accreditation procedures.

Risk Management Responsibilities and Authority

a. Board and Audit & Risk Committee

- The Board oversees the establishment and implementation of the Company's enterprise risk management framework and shall review annually the effectiveness of that system.
- The Audit & Risk Committee oversees the operation of the enterprise risk management system and ensures its adequacy. The Committee monitors the internal policies for identifying and determining key risks to which the Company is exposed.

b. CEO and Executive Committee

- The Chief Executive Officer and the members of the Executive Committee are responsible for monitoring and reviewing the strategic risk register at least quarterly for completeness, continued relevance of risk assessment, effectiveness of risk treatment plan and timeliness of implementation of risk treatment actions, taking into account changing circumstances.
- The Chief Executive Officer and the Chief Financial Officer provide half-yearly a statement to the Board

in writing that the Company's risk management and internal compliance and control system is operating efficiently and effectively in all material respects.

c. All Staff

- The effective management of risk is the responsibility of all managers, staff and others engaged to act on behalf of the Company.

Internal Compliance and Controls:

- In addition to the risk management framework, the Company has an internal compliance and control system based on the following:
- An internal audit program approved by the Audit & Risk Committee;
- A financial reporting control system which aims to ensure that financial reporting is both accurate and timely.
- The Company has a number of control processes in place to help ensure that the information presented to senior management and the Board is both accurate and timely. The control processes include, among other things:
- Annual audit and half-year review by the Company's external auditor;
- Planned review by internal auditors reviewing the effectiveness of internal processes, procedures and controls;
- Monthly review of financial performance compared to budget and forecast.

Compliance and Control Responsibilities and Authority

a. Board and Audit & Risk Committee

- The Audit & Risk Committee is responsible for approving the appointment of the internal auditor and approving the annual internal audit plan.

b. CEO and Executive Committee

- The Chief Executive Officer and the Chief Financial Officer provide half-yearly a statement to the Board

in writing, that the Company's financial reports present a true and fair view, in all material aspects, of the Company's financial condition and operational results and are in accordance with relevant accounting standards; and that this statement is founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the Board.

- The Chief Executive Officer and the members of the Executive Committee shall, in addition to their general and specific responsibilities, be responsible for the co-operation necessary to assist the Internal Auditor in carrying out internal audit.

c. Internal Audit (GIA)

- The IA function is independent of the external auditor and has direct access to the Chairman of the Board and the Chairman of the Audit & Risk Committee. To ensure the IA can act independently it is functionally responsible, and reports to the Audit & Risk Committee. It is administratively responsible, and reports to the CFO.
- Any deviations from the Company's policies identified through internal audits are reported to responsible management for action and to the Audit & Risk Committee for information or further action.
- The purposes, responsibilities and authorities of the IA are detailed in the "VOL Internal Audit Charter".

Assessment of Effectiveness:

- Group Internal Audit provides the Audit & Risk Committee and management with independent and objective assurance and advisory services, and helps the Company accomplish its objectives by bringing a systematic, disciplined approach to the evaluation and improvement of the effectiveness of risk management, control and governance functions.
- The Audit & Risk Committee is responsible for reviewing and analyzing the effectiveness of the risk management framework, the internal compliance and control systems and shall report on the same to the Board, no less than annually or at such intervals as determined by the Board.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF
VINATI ORGANICS LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of **VINATI ORGANICS LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act and the Rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply

with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) In the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2017;

ANNEXURE-B TO INDEPENDENT AUDITOR'S REPORT

The Annexure referred to in paragraph 2(f) under the 'Report on Other Legal and Regulatory Requirements' our report to the members of VINATI ORGANICS LIMITED, ('the Company') for the year ended on March 31, 2017.

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Act

We have audited internal financial controls over financial reporting of **VIANTI ORGANICS LIMITED** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year then ended on that date.

Management's Responsibility for the Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities includes design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of business, including adherence to Company's policies, the safeguarding of the assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and Guidance note require that we comply with ethical requirements and plan and perform audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established

and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedure to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide a reasonable assurance regarding the reliability of financial reporting and preparation of financial statements for external purpose in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
2. Provide reasonable assurance that the transactions are recorded as necessary to permit preparation of financial statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material aspects, an adequate internal financial control system over financial reporting and such internal financial controls over financial

reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS

for the year ended 31st March, 2017

1. Significant Accounting Policies

a) Nature of Operations:

The Company was established in 1989 and is engaged in manufacturing of speciality organic intermediates and monomers. The manufacturing facilities are located at Mahad and Lote Parashuram, Maharashtra..

b) Basis of preparation

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India ('Indian GAAP') to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on accrual basis.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

c) Use of Estimates:

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

d) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria are met before revenue is recognized:

(i) Sale of goods

Revenue from sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer, usually on delivery of the goods. The company collects central sales taxes and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the company. Hence, they are excluded from revenue. Excise duty

deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of liability arising during the year.

(ii) Export incentives are recognised as income of the year on accrual basis. In case of utilisation for Import purpose the same is recognised as raw material cost in the year of import.

(iii) Cenvat/Value Added Tax/Service Tax:

Cenvat/Value Added Tax/Service Tax Benefit is accounted for by reducing the purchase cost of the materials/fixed assets and services wherever credit is eligible.

(iv) Interest

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.

(v) Dividends

Dividend income is recognized when the company's right to receive dividend is established by the reporting date.

e) Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on a first in first out (FIFO) method.

Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

f) Cash and Cash Equivalents

Cash and Cash Equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less.

NOTES TO FINANCIAL STATEMENTS

for the year ended 31st March, 2017

g) Research & Development Expenditure

Expenditure on Research & Development is charged as expense in the year in which it is incurred.

h) Tangible Fixed Assets

- (i) All Fixed Assets are stated at cost (net of eligible credit/set off) less accumulated depreciation.
- (ii) Leasehold land is amortised equally on straight-line basis over the period of lease.
- (iii) All costs including borrowing costs in accordance with the provision of Accounting Standard 16 - Borrowing Costs including exchange gain or loss on foreign currency loan to the extent considered as adjustment to interest cost utilised for the acquisition and installation of fixed assets, till commencement of commercial production, are capitalized.

i) Depreciation on Tangible Fixed Assets

The Company has worked depreciation with reference to the useful lives of fixed assets prescribed by PART 'C' of Schedule II to the Act or the useful lives of assets as estimated by the Company, whichever is lower. The carrying values have been depreciated over the remaining useful lives of the assets using Straight Line Method and the same is recognised in the Statement of Profit and Loss. Fixed assets whose written down value as at beginning of the year is less than 5% of the cost is not depreciated.

j) Intangible Assets

- (i) All intangible fixed assets are stated at cost (net of eligible credit/set off) less amortisation cost.

All costs including borrowing costs in accordance with the provision of Accounting Standard 16 - Borrowing Costs including exchange gain or loss on foreign currency loan to the extent considered as adjustment to interest cost utilised for the acquisition and installation of fixed assets, till commencement of commercial production, are capitalized.
- (ii) Technical Know-how fees is amortised prorata, on straight line basis over the estimated useful life of the asset which is estimated at 10 years.
- (iii) Licensed Software is amortised prorata, on straight line basis over the estimated useful life of the asset which is estimated at 6 years.

k) Impairment of Tangible and Intangible Assets:

The carrying amount of cash generating unit/assets are reviewed at Balance sheet date to determine whether there

is any indication of impairment. If any such indication exist, the recoverable amount is estimated as the higher of net selling price and value in use. Impairment loss is recognized wherever carrying amount exceeds recoverable amount.

l) Foreign Currency Transactions and Balances

(i) Initial recognition

Foreign Currency Transactions are recorded in the reporting currency, by applying the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

m) Investments:

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long term investments.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long Term Investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

n) Retirement and other employee benefits

(i) Retirement Benefits:

Contributions to the Provident Fund are made at a pre-determined rate and charged to the statement of Profit and Loss.

Gratuity liability is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. The liability so provided is

NOTES TO FINANCIAL STATEMENTS

for the year ended 31st March, 2017

represented substantially by creation of separate fund and is considered sufficient to meet the liability as and when it accrues for payment in future.

(ii) Leave Encashment:

Provision for Leave encashment is made on estimates as at the year end and is charged to the statement of Profit and Loss.

o) Borrowing Costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

p) Leases

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

q) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as fraction of an equity share to

the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The Weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

r) Income Taxes

Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income-tax Act, 1961.

Deferred tax resulting from "timing difference" between book and taxable profit is accounted for using the tax rates and laws that have been enacted or substantively enacted as on the balance sheet date or as on date of approval of Statement of Accounts whichever is later. The deferred tax assets are recognised and carried forward only to the extent that there is a reasonable certainty that the assets will be realised in future.

s) Provision, Contingent Liabilities and Contingent Assets

EXPLANATORY STATEMENTS PURSUANT TO SECTION 102(2) OF THE COMPANIES ACT, 2013 RELATING TO FOLLOWING SPECIAL BUSINESS AS MENTIONED AT FOLLOWING ITEMS:**Item No. 5**

M/s. Karnavat & Co., Chartered Accountants (Firm Registration No. 104863W) were first appointed as auditors at Company's 2nd AGM held on 20th August, 1991. Currently, they are holding office of the auditors up to conclusion of the 28th AGM. As per second provision to Section 139(2) of the Companies Act, 2013, a transition period of three years from the commencement of the Companies Act, 2013 is provided to appoint a new auditor if the existing auditor's firm has completed two terms of five consecutive years. Accordingly, as per the said requirements of the Companies Act, 2013, M/s. M. M. Nissim & Co., Chartered Accountants (Firm Registration No. ICAI/FRN/107122W) are proposed to be appointed as auditors for a period of five years commencing from the conclusion of 28th AGM till the conclusion of the 33rd AGM, by shareholders, as may be applicable, in place of M/s. Karnavat & Co., Chartered Accountants. M/s. M. M. Nissim & Co., Chartered Accountants, have consented to the said appointment, and confirmed that their appointment, if made, would be within the limits specified under Section 141(3) (g) of the Companies Act, 2013. They have further confirmed that they are not disqualified to be appointed as statutory auditor in terms of the provisions of the proviso to Section 139(1), Section 141(2) and Section 141(3) of the Companies Act, 2013 and the provisions of the Companies (Audit and Auditors) Rules, 2014. The Audit Committee and the Board of Directors recommend the appointment of M/s. M. M. Nissim & Co., Chartered Accountants, as statutory auditors of the Company from the conclusion of the 28th AGM till the conclusion of 33rd AGM, to the shareholders. Subject to the ratification by the members of the Company at every General meeting as prescribed under Section 139(1) of the Companies Act, 2013.

Mumbai, 13th May 2017

Item No. 6

In order to comply with the provisions of the Companies Act, 2013, the Company needs to amend the title of Clause V of the Memorandum of Association. Consent of the shareholders by passing a Special Resolution is required in this regard.

None of the Directors, Key Managerial Personnel and their relatives are in any way concerned or interested in the said resolution. The relevant documents are available for inspection by the members during working hours in registered office of the Company.

The Directors recommend the aforesaid resolution for the approval by the members as Special Resolution.

Item No. 7

The existing regulations 1 to 61 of the Articles of Association are replaced by the new set of regulations 1 to 93 and adopted as new set of Articles of Association. The modification in the Articles of Association is carried out to give effect to the provisions of the Companies Act, 2013. Consent of the shareholders by passing a Special Resolution is required in this regard.

None of the Directors, Key Managerial Personnel and their relatives are in any way concerned or interested in the said resolution. The relevant documents are available for inspection by the members during working hours in registered office of the Company.

The Directors recommend the aforesaid resolution for the approval by the members as Special Resolution.
