India is projected to grow by 7.7 per cent in fiscal 2017, remaining the fastest growing large developing economy, as it benefits from strong private consumption and gradual introduction of significant domestic reforms, a United Nations report said. The International Monetary Fund (IMF) on Tuesday called for accelerated economic reforms for India to achieve a higher growth trajectory, while retaining its GDP growth projection of 7.2% for 2017-18.

The Government of India announced demonetisation of high denomination bank notes of Rs 1000 and Rs 500, with effect on November 8, 2016, in order to eliminate black money and the growing menace of fake Indian currency notes, thereby creating opportunities for improvement in economic growth.

According to The World Bank, the Indian economy will likely grow at 7 per cent in 2016-17, followed by further acceleration to 7.6 per cent in 2017-18 and 7.8 per cent in 2018-19. The opening up of food grains sector will enable the woven sacks industry to see better times again. We had done expansion work of our plant it is completed at the end of this year so, our production capacity also increased. We are expecting growth in Domestic market for Tarpaulin also.

f. Risks and Concerns:

The industry is plagued by intense competition due to major petrochemical manufacturers making available raw material abundantly.
