## 24. Commodity Price Risk & hedging activities

The prices of Gold and Silver are largely governed by movements at major precious metal exchanges of London, New York, Tokyo and others. The local precious metal prices are an algorithm of these movements on 'spot' basis and Indian currency Rates. Prices may fluctuate widely for all products affecting demands in the market. The Company has adopted adequate hedging mechanisms to effectively counter the risk that arises during operations. However, the management cannot totally eliminate the risks involved in such volatile trades.

## MANAGEMENT DISCUSSION AND ANALYSIS

*Investors are cautioned that this discussion contains forward-looking statements that involve risks and uncertainties including, but not limited to, risks inherent in the Company's growth strategy, acquisition plans, dependence on certain businesses, dependence on availability of qualified and trained manpower and other factors. The following discussion with the Company's financial statements included herein and the notes thereto:*

### INDUSTRY STRUCTURE AND DEVELOPMENTS

Gold is a precious metal which is highly ductile and malleable. As a result of this, it is used for making jewelry and for investment purpose across the globe. Due to the escalating prices of gold, it is at present being oversold in the bearish market. In times of high inflation, currency fluctuations, and geopolitical crisis, gold is considered to be the safest investment.

A barrage of policy initiatives, aimed at purging India of black money and instilling greater transparency, have rocked the country's economy, including its gold market. The impact of some of the headwinds was offset due to implementation of the 7th Pay Commission recommendations which spurred domestic consumption in FY 2016-17. The overall retail inflation tapered down to 3.8% in March 2017, from 5.6% in April 2016. The dollar-rupee exchange rate too came down favourably to ₹ 64.5 levels. All of these augur well for consumer spending, which is likely to surge forward. The GDP growth estimate is a strong 7.1% (Source – Central Statistics Office) for the year in review and is expected to further strengthen in FY 2017-18, helping India retain its status as the world's fastest growing large economy. The revival of consumer interest, hopes of a good monsoon, and India's underlying economic strength are factors supporting growth prospects.

#### Global Scenario

Rising prices for much of the year, regulatory and fiscal hurdles in India and China's softening economy were key reasons for weakness in the sector. World gold demand stood at 4,308 tonnes (t) showing an increase of 2% as compared to FY 15. Hit by high gold prices, annual global jewellery demand fell to a seven-year low of 2,041 tonnes, showing decrease of 15% as compared to FY 15.

#### Indian Scenario

2016-17 was a year of uncertainties. The first half of the year was marked by weak wedding and festive seasons and disruptions during the Akshaya Tritiya festival (April 2016), and a normal but prediction-belying monsoon. The second half, however, saw a much better consumer sentiment despite demonetisation, driven largely by good festive and wedding seasons (October-March) and low inflation. Nielsen's Consumer Confidence Index in the October-December period showed a steady gain from the previous period, demonstrating this.

Indian annual jewellery demand fell to a 7 year low amid strikes, regulation and high gold prices. Circumstances in India during 2016 created a very challenging environment. In Q1 FY 16, the nationwide jewellers' strike effectively shut down the gold industry. Further difficulties arose when the government's clampdown on undeclared income – which reached its pinnacle in Q4 FY 16 with the demonetisation policy – drove an element of gold demand into the shadier grey market.

### Company Overview

Shirpur Gold Refinery Limited, a part of the Essel group, has the largest installed capacity in India of refining gold and silver from the raw gold (Dore) stage to 99.99% purity. The technical capabilities include achieving fineness of upto 999.9 parts per thousand for gold and silver, casting the refined bullion into bars of various denominations, minting of coins and manufacturing of jewellery in various designs.

Refining of Gold from the raw gold (Dore) stage and jewellery scrap to achieve the desired purity of 0.995, 0.999 and 0.9999 fineness is the principal business of the Company. The products manufactured under Company's 'Zee Gold' brand consist of gold bars of 100g, 1 kg. gold and silver coins or different denominations of different purities as per market demand to the highest specifications of global standards.

### The State Of Company's Affairs/ Developments

The company continues to maintain its commitment to the highest level of production efficiency and excellence in quality. As such at the company has always kept abreast of the ever changing technologies and processes.

Gold industry in India has always been greatly impacted by the government regulations and controls. Changes implemented by the regulatory authorities has been challenging for the industry and so for the company. The company is well compliant with all directions, changes and regulations implied by the government on gold industry from time to time.

### STRENGTHS, OPPORTUNITIES, THREATS, RISKS & CONCERNS :

#### A Strengths

##### (i) Product Range

Currently, The Company is selling its gold bars, jewellery and coins in different denominations under the brand 'Zee Gold'.

##### (ii) Product Quality

The company compares its quality standards with the best in the world. The products positioned are comparable with the highest levels certified and accepted internationally. The production processes and controls along with stringent quality control systems has ensured a Zero defect record over the term.

##### (iii) Laboratory

The Company's laboratory is a NABL Accredited Lab (National Accreditation Board for Testing & Calibration Laboratories) Government of India for ISO / IEC 17025 ; 2005 in the discipline of chemical analysis and the scope

covers testing of Gold and Silver by Fire Assay, Chemical and Instrument Assay. NABL Accreditation provides formal recognition to Company's lab, thus providing a ready means for users to find reliable testing and calibration services in order to meet their requirements.

#### **(iv) Responsible Sourcing of Raw Material**

The company follows acceptable standards of due diligence and responsible sourcing of raw materials. The company ensures adequate compliance following all international regulations covering anti money laundering and terrorist financing. The management is fully committed to establish and maintain strict adherence to international compliance standard for sourcing of raw material. Company's aim is to continually maintain and update its compliance policies with respect to procurement of dore, supply chain management and trading.

#### **(v) Economy of Scales**

The production processes established by the Company and continuous monitoring of the same ensures that the Company is in position to reduce the production time with economies of scale and cost reduction through modular structure.

#### **(vi) Distribution network**

Your Company has further strengthened the existing strong distribution network created over years. The necessary steps have been initiated to increase penetration in all the gold consuming centers. The company has already created a strong customer base in the international market by having strong and solid channel partners in main hubs of UAE and Hongkong.

#### **(vii) Financial Strengths**

The Company is financially sound and has been able to take the advantage in operations.

#### **(viii) Strong operational, technical and management team**

Standard Operational Procedures (SOPs) are implemented and policies are put in place by the management to ensure that the work force is adequately monitored and efficiency levels maintained. New trends and practices in the refining areas are evaluated and implemented under the able guidance of technical experts of the Company having on its panel.

### **B) Opportunities**

The purchase of gold is expected to rise as consumers are focusing on long-term investments. As the confidence over bullion as a secure mode of investment is rising, the demand for gold is also rising at a considerable rate. Geographically, Asia Pacific emerged dominant in terms of production as well as consumption of gold. The maximum consumption

of gold in the region was observed among South East Asian countries. The rising industrial demand for gold from countries such as China, India, and other South East Asian countries is expected to augment the growth of the gold market in Asia Pacific. In terms of growth, Europe dominated the market with Russia as the leading producer of gold in the region. Leading players operating in the global gold market are focusing on capitalizing the opportunities arising in developing countries in Asia Pacific.

India's gold market is highly fragmented. Jewellery's retailing landscape is dominated by small businesses – regional and national chains only account for around 30% of the market. The picture in jewellery manufacturing is more extreme, with 95% of the industry consisting of small-scale operations.

Due to proposed implementation of Goods & Service Tax (GST) effective from July 1, 2017 in India, while gold consumers will face a slightly higher tax rate, and the industry will go through a period of adjustment, but the net impact on the gold industry as being positive. The gold supply chain should become more transparent and efficient, and the tax reform can boost economic growth, which can be seen as supporting gold demand.

"Make in India" concept and the relaxations of restrictions from the Government has provided ease of trade and greater opportunity for growth in the segment. The Gold monetization scheme announced in the Union Budget 2015-16 will increase the supply and help in reducing imports of the precious metal in addition to keep the Current Account Deficit (CAD) under check. The sovereign gold bond, gold monetization scheme and India made gold coins will all ease the supply of gold in the domestic market and provide further opportunity to the domestic players including company who are technologically capable of producing the highest standards products. With additional efforts by the Government to bring the stored household gold into the market will further open avenues of maximum installed capacity.

The gold monetization scheme floated by government of India offers opportunity to NABL accredited refiners in terms of refining scrap gold from Indian households to enter the regularized market. The Company being one of the largest refiner accredited by NABL & BIS to capitalize this opportunity.

### **C) Threats**

Factors such as degrading ore grades, technical issues, and strikes are anticipated to hamper the growth of the global gold market. The global gold market is likely to be affected by the fluctuating supply of mined gold as the global gold production is a mix of scrap recovery, central bank supply, and mined gold.

GST may be disruptive in the short term as the industry adjusts to the new tax regime. Manufacturers' and retailers' working capital could be tied up because of inter-state gold

stock transfers. Small-scale artisans and retailers with varying degrees of tax compliance may struggle to adapt. Consumer demand faces a headwind from the higher rate of tax. And consumers and jewellers may try to conduct recycling transactions under the counter, away from the prying eye of the tax man.

#### **D) Risks & Concerns:**

##### **(i) Market Risks**

The Company is largely dependents on domestic customers. The Company continues to work towards diversifying its customer mix and to focus on building relationships with customers spread geographically.

##### **(ii) Regulatory Risks**

The Company is exposed to regulatory uncertainties facing the gems and jewellery industry in India. Any changes in the duty, rules and regulations, Import and Export policies or requirements by the Government of India may require the Company to revise business strategies which may impact its financial position adversely. The Company in order to reduce loss of revenue and market share due to any changes in the policies of the Government of India, has diversified sales mix, product range, and raw material mix. However, the management cannot totally eliminate the risks involved in such volatile trades.

##### **(iii) Operational Risks**

The Company adopts a sustainable production platform. Continuous availability of gold dore and scrap is critical for the production plans of the company. The company has tied up with global miners for continuous supply of gold dore. The Company is also in process of entering into off-take agreements with miners for supply of gold dore. The Company is also procuring SR bars and scrap materials from local markets. However, the management cannot totally eliminate the risks involved in such volatile trades.

##### **(iv) Commodity Price Risks**

The prices of Gold and Silver are largely governed by movements at major precious metal exchanges of London, New York, Tokyo and others. The local precious metal prices are an algorithm of these movements on 'spot' basis and Indian currency Rates. Prices may fluctuate widely for all products affecting demands in the market. The Company has adopted adequate hedging mechanisms to effectively counter the risk that arises during operations. However, the management cannot totally eliminate the risks involved in such volatile trades.

##### **(v) Currency Risk**

This exposes the Company to metal and foreign exchange risks. The Company has established a dealing room and placed hedging policies and procedures for mitigating the risks in gold prices and foreign exchange transactions. However, the management cannot totally eliminate the risks involved in such volatile trades.

##### **(vi) Competition Risk**

Significant additional competition in the gold trade may result in reduced off-take and thereby negatively affect the Company's revenues and profitability. The Company may also face competition arising from new technology/ automation leading to new products acceptable to customers. For maintaining or increasing the market share, Company has taken initiatives of effective marketing, ability to improve processes, introducing new products & technology.

##### **(vii) Internal Control Systems**

The company follows a standard operating procedure in all its operations, documentation and trades which is best as per industry standards. The management ensure all the activities and operations are well informed to the concerned and risk management policies are followed in all its endeavors.

##### **(viii) Attrition Risk**

The Company has a strong management and technical team to oversee the operations and growth of its business. The Company's ability to sustain its growth largely depends, on its ability to attract, train, motivate and retain high skilled employees. An increase in the rate of attrition of experienced employees, would adversely affect the Company business. In view of above, to curtail attrition of high potential employees, the Company always strives to create conducive work environment, platform for innovation & creativity, creation of learning & growth opportunity and sense of belongingness. As a part of its retention strategy the Company is putting its endeavor to identify & ring fence of "High Potential Employees".

#### **SEGMENTAL PERFORMANCE**

The Company is in the business of refining, manufacturing and marketing of precious metal which is considered as the only reportable segment.

## OUTLOOK

After a challenging 2016, India's gold market faces headwinds. As well as the lingering effect of the policies implemented last year, the industry has more to contend with in 2017. The ban on cash transactions over Rs 300,000 could hurt rural Indian demand while GST could adversely affect the industry in the short-term.

But after falling so sharply last year, demand is unlikely to fall further. Headwinds will be off-set by strong tailwinds. A banking system flush with liquidity, the bumper crop after a good monsoon, and central government employees' and pensioners' inflation-busting wage hike will all support economic growth. GST will streamline India's byzantine tax structure which, as well as boosting the economy,

GST, in long run, should eliminate double taxation and improve supply chains efficiency. GST can make the gold industry more transparent which, coupled with recent hallmarking legislation, should ensure gold buyers have confidence in the gold products they buy, rather than continuing to suffer from the gross level of under-carating they have previously endured. And India's entire economy is on a rapid journey to becoming more organised and more transparent, boosting economic growth. This is vitally important for India's gold market. Our econometric analysis reveals that income growth is the single biggest driver of gold demand in India.

In India, the government's decision to remove large denomination rupee notes (₹ 500 and ₹ 1,000) took around 86% of India's circulating cash out of its economy. While the purpose is to replace them with newly printed notes, the liquidity squeeze could have a temporary negative effect on economic growth, and may also affect gold demand in the short term. But more importantly, the transition to transparency and formalisation of the economy will lead to stronger Indian growth in the longer term, thus benefitting gold.

Demonetisation is also boosting large jewellery retailers, and they will continue to grab a larger share of the market. Over time, consumers will move away from cash towards digital payments, and organised players should benefit from this trend. This change in market dynamics will result in more transparency and a better deal for consumers, protecting them from shady practices such as under-carating.

Zee Gold DMCC, Dubai (100% subsidiary) has commenced trading activities in FY 16 and tapping opportunities in countries like Africa, Latin America and Australia.

This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### 3. Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence and evaluating the appropriateness of accounting policies used for the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to

fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also include evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### 4. Emphasis of Matter

## **ANNEXURE "B" TO INDEPENDENT AUDITOR'S REPORT**

**(Referred to in para 6(b)(f) of the Independent Auditor's Report of even date to the members of SHIRPUR GOLD REFINERY LIMITED on the standalone financial statements for the year ended 31 March 2017)**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **SHIRPUR GOLD REFINERY LIMITED ("the Company")** as at 31<sup>st</sup> March, 2017 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

**1. Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**2. Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **3. Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **4. Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls,

material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **5. Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting read with the notes to financial statements hereto and such internal financial controls over financial reporting were, checked on test basis, considering the size and nature of business operations, is operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## NOTES FORMING PART OF FINANCIAL STATEMENTS

### 28. CORPORATE INFORMATION

Shirpur Gold Refinery Limited is incorporated in the state of Maharashtra, India. The Company has been in the business of manufacturing and trading of gold bars, gold coins, gold jewellery and export of gold jewellery.

### 29. SIGNIFICANT ACCOUNTING POLICIES

#### 1) Basis of Preparation

The financial statements are prepared on going concern basis in accordance with Generally Accepted Accounting Principles in India (Indian GAAP) and comply in all material aspects with its accounting standards specified under Section 133 of the Companies Act, 2013 (Act) read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The financial statements have been prepared on accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those of previous year.

#### 2) Use of Estimates

The preparation of financial statements, in accordance with the Generally Accepted Accounting Principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of financial statements and the reported amounts of revenue and expenses during the year. Actual results could differ from estimates. Any revision to such accounting estimates is recognized prospectively in current and future periods.

#### 3) Revenue Recognition

- Sale of Goods is recognized on transfer of all significant risks and rewards of ownership to the buyer and when no significant uncertainty as to collectability exists.
- Revenues/ incomes and Costs/ Expenditure are generally accounted on accrual, as they are earned or incurred.
- Interest is accounted on time proportion and accrual basis
- Dividend income is accounted when the right to receive the same is unconditional.

#### 4) Tangible Fixed Assets

Fixed Assets are stated at Cost of their acquisition less accumulated depreciation. Cost comprises of acquisition cost, taxes (other than those subsequently recoverable from tax authorities), duties, freight and

attributable cost of bringing the assets to its working condition for its intended use. Pre-operative expenses are capitalized in the year of completion of project.

#### 5) Depreciation / Amortization

##### Tangible assets

Depreciable amount for tangible fixed assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Based on an independent technical evaluation, the useful life of following fixed assets has been estimated as 05-60 years (on a single shift basis), which is different from that prescribed in Schedule II of the Companies Act, 2013.

Assets	Management's Estimate of Useful Life
Concrete Road – GB	60 Years
Airport Complex	30 Years
Plant & Machinery	05-40 years

Depreciation on additions to assets or on sale/ discardment of assets, is calculated pro-rata from the month of such addition or up to the month of such sale/ discardment, as the case may be.

##### Intangible assets

Intangible assets are amortised on straight line basis over the economic useful life estimated by the management.

#### 6) Impairment of Assets

At each Balance Sheet date, the Company reviews the carrying amount of assets to determine whether there is an indication that those assets have suffered impairment loss. If any such indication exists, the recoverable amount of assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value.

#### 7) Inventories

- Inventories of consumables, raw materials, work-in-progress and finished goods are valued at lower of cost or realizable value. The comparison of cost and net realizable value is made on Market Value or Realizable Value basis.
- In determining cost of raw materials, packing materials, stock-in-trade, stores, spares and consumables, FIFO method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other

## NOTES FORMING PART OF FINANCIAL STATEMENTS

than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present condition.

- Cost of finished goods and work-in-process includes the cost of raw materials, an appropriate/ appropriate share of fixed and variable production overheads, duties and taxes as applicable and other costs incurred in bringing the inventories to their present form.

### 8) Financial Derivative for Commodity Hedging Transactions

In respect of derivative contracts, gain/losses on settlement are recognized in the Statement of Profit and Loss. On the reporting date, profit or loss of all unsettled/outstanding contracts is determined by comparing the value of the position at the mark to market and recognized in the Statement of Profit and Loss.

### 9) Borrowing Cost

- Borrowing cost includes Interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.
- Borrowing costs attributable to the acquisition or construction of assets are capitalized as part of cost of such assets up to the date when such assets are ready for intended use. Other borrowing costs are expensed in the period they occur.

### 10) Investments

- Investments intended to be held for more than a year from the date of the acquisition are classified as Non Current Investments and are carried at Cost. Provision for diminution in the value of Non -Current investments is made only if in the opinion of management, such decline is other than temporary in nature.
- Current Investments are carried at lower of cost or fair value. The comparison of cost and fair value is done separately in respect of each category of investments. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss. Profit or Loss on sale of investments is determined on a first-in-first-out (FIFO) basis.

### 11) Transactions in Foreign Exchange

- **Initial recognition:** Foreign currency transactions are accounted at the exchange rate prevailing on the date of such transactions.
- **Measurement of Foreign Currency items at the Balance Sheet date:** Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Exchange differences arising on settlement of monetary items or on reporting such monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements are recognized as income or as expenses in the period in which they arise.
- **Forward Exchange Contracts:** The premium or discount arising at the inception of forward exchange contracts entered into to hedge an existing asset/liability, is amortised as expense or income over the life of the contract. Any profit or loss arising on cancellation or renewal of such forward exchange contract during the reporting period, is recognized as income or expense for the period, in the Statement of Profit and Loss.
- **Accounting of foreign branch:** Current assets and liabilities are converted at the appropriate rates of exchange prevailing on the date of the Balance Sheet and revenue and expenses are at average rate..

### 12) Retirement Benefits

- Short-term employee benefits are expensed at the undiscounted amount in the Statement of Profit and Loss in the year the employee renders the service.
- Post employment and other long-term employee benefits are recognized as an expense in the Statement of Profit and Loss at the present value of the amount payable determined using actuarial valuation techniques in the year the employee renders the service. Actuarial gains and losses are charged to the Statement of Profit and Loss.
- Payment to defined contribution retirement benefit schemes are recognized as an expenses in the Statement of Profit and Loss, when due.

### 13) Accounting for taxes on Income

- Current Tax is determined as the amount of tax payable in respect of taxable income as per the provisions of the Income Tax Act, 1961.
- Deferred tax is recognized, subject to consideration of prudence in respect of deferred tax asset, on timing difference, being the difference between

## NOTES FORMING PART OF FINANCIAL STATEMENTS

taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods and measured using relevant enacted tax rates and laws.

- Minimum Alternate Tax (MAT) paid in accordance with tax laws, which give rise to future economic benefits in the form of adjustment of future tax liability, is recognized as an asset only when, based on convincing evidence, it is probable that the future economic benefits associated with it will flow to the Company and the assets can be measured reliably.

### 14) Earnings per share

Basic EPS is computed and disclosed using the weighted average number of equity shares outstanding during the year. Diluted EPS is computed and disclosed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the period except where the results would be anti dilutive.

### 15) Provisions

A provision is recognized when there is a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

### 16) Contingent Liabilities

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent Liabilities are not recognized but are disclosed by way of Notes. Contingent assets are neither recognized nor disclosed in the financial statements.

### 17) Contingencies and Events occurring after the Balance Sheet date

All the major contingencies i.e., a condition or situation the ultimate outcome of which is known or determined only on their occurrences or non-occurrences of uncertain future events, till the signing of the financial statements, have been recognized.

Material events occurring after the balance sheet date till signing of thereof, affecting the going concern assumption or having material impact on the financial statements, are recognized.

### 18) Preliminary Expenses

Preliminary expenses are amortized over a period of 5 years.

## Annexure A to Independent Auditors' Report-31st March, 2017 on the Consolidated Financial Statements

### **Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 ("the Act") as referred to in Para 7 (f) read with Para 5(a) herein above:**

In conjunction with our audit of the Consolidated financial statements of Shirpur Gold Refinery Limited ("the Holding Company") as of and for the year ended 31<sup>st</sup> March, 2017, we have audited the internal financial controls over financial reporting of the Holding Company incorporated in India and not of its subsidiary companies incorporated outside India as of that date.

#### **1. Management's Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company incorporated in India and its subsidiary companies incorporated outside India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **2. Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures on test basis to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and audit evidence obtained by other auditor in terms of their report is sufficient and appropriate to provide a basis for our

audit opinion on the company's internal financial controls system over financial reporting.

#### **3. Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that -

- pertains to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **4. Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **5. Opinion**

In our opinion, the Holding Company incorporated in India and its subsidiary companies incorporated outside India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were, checked on test basis, operating effectively as at 31<sup>st</sup> March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Shirpur Gold Refinery Limited (hereinafter referred to as “the Parent Company”) together with subsidiaries (collectively known as “the Group”) is in the business of manufacturing and trading of gold bars, gold coins, gold jewellery and export of gold jewellery.

### 29. SIGNIFICANT ACCOUNTING POLICIES

#### 1) Basis of consolidation

The consolidated financial statements of the Group are prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards notified under Section 211(3C) of the Companies Act, 2013, as applicable and Accounting Standard – 21 on “Consolidated Financial Statements” issued by the Institute of Chartered Accountants of India (ICAI) to the extent possible in the same manner as that adopted by the parent company and the subsidiaries audited financial statements as per the respective countries accounting standards. The consolidated financial statements have been prepared under the historical cost convention on the Going Concern concept of accounting.

- The consolidation of financial statements of the parent company and its subsidiaries is done to the extent possible on a line-by-line basis by adding together like items of assets, liabilities, income and expenses. All significant intra-group transactions, unrealized inter-company profits and balances have been eliminated in the process of consolidation. Being the 100% holding in subsidiaries, minority interest in subsidiaries is not applicable.
- The consolidated financial statements are prepared using uniform accounting policies for transactions and other events in similar transactions.
- The Company follows mercantile system of accounting and recognizes income and expenditure on accrual basis.
- The consolidated financial statements includes the financial statements of the parent company and the subsidiaries (as listed in the table below). Subsidiaries are consolidated from the date on which effective control is acquired.

Name of the Subsidiaries	Proportion of interest (including beneficial interest) / Voting Power (either directly / indirectly or through subsidiaries)	Country of Incorporation
Shirpur Gold Mining Company Private Limited	100 %	Singapore
Zee Gold DMCC	100 %	Dubai, U.A.E.
Precious Metal Mining and Refining Limited	100% subsidiary of Zee Gold DMCC	Papua New Guinea

#### 2) Use of Estimates

The preparation of financial statements, in accordance with the Generally Accepted Accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities at the date of financial statements and the reported amount of revenue and expenses during the year. Actual results could differ from estimates. Any revision to such accounting estimates is recognized prospectively in current and future periods.

#### 3) Revenue Recognition

- Sale of Goods is recognized on transfer of all significant risks and rewards of ownership to the buyer and when no significant uncertainty as to collectability exists.
- Revenues/ incomes and Costs/ Expenditure are generally accounted on accrual, as they are earned or incurred.
- Interest is accounted on time proportion and accrual basis
- Dividend is accounted when the right to receive the same is unconditional.

#### 4) Tangible Fixed Assets

Fixed Assets are stated at Cost of their acquisition less depreciation. Cost comprises of acquisition cost, taxes (other than those subsequently recoverable from tax authorities), duties, freight and attributable cost of bringing the assets to its working condition for its intended use. Pre-operative expenses are capitalized in the year of completion of project.

#### 5) Depreciation and Amortization

##### Tangible assets

Depreciable amount for tangible fixed assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Based on an independent technical evaluation, the useful life of following fixed assets has been estimated as 05-60 years (on a single shift basis), which is different from that prescribed in Schedule II of the Companies Act, 2013.

Assets	Management's Estimate of Useful Life
Concreat Road – GB	60 Years
Airport Complex	30 Years
Plant & Machinery	05-40 years

Depreciation on additions to assets or on sale/discardment of assets, is calculated pro-rata from the month of such addition or up to the month of such sale/ discardment, as the case may be.

##### Intangible assets

Intangible assets are amortised on straight line basis over the economic useful life estimated by the management.

## NOTES FORMING PART OF CONSOLIDATED FINANCIAL STATEMENTS

### 6) Impairment of Assets

At each Balance Sheet date, the Company reviews the carrying amount of assets to determine whether there is an indication that those assets have suffered impairment loss. If any such indication exists, the recoverable amount of assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value.

### 7) Inventories

- Inventories of consumables, raw materials, work-in-progress and finished goods are valued at lower of cost or realizable value. The comparison of cost and net realizable value is made on Market Value or Realizable Value basis.
- In determining cost of raw materials, packing materials, stock-in-trade, stores, spares and consumables, FIFO method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present condition.
- Cost of finished goods and work-in-process includes the cost of raw materials, an proportionate/appropriate share of fixed and variable production overheads, duties and taxes as applicable and other costs incurred in bringing the inventories to their present form.

### 8) Financial Derivative for Commodity Hedging Transactions

In respect of derivative contracts, gain / losses on settlement are recognized in the Statement of Profit and Loss. On the reporting date, profit or loss of all unsettled/outstanding contracts is determined by comparing the value of the position at the mark to market and recognized in the Statement of Profit and Loss.

### 9) Borrowing Cost

- Borrowing cost includes Interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.
- Borrowing costs attributable to the acquisition or construction of assets are capitalized as part of cost of such assets up to the date when such assets are ready for intended use. Other borrowing costs are expensed as and when incurred.

### 10) Investments

- Investments intended to be held for more than a year from the date of the acquisition are classified as Non Current Investments and are carried at Cost. Provision for diminution in the value of Non -Current investments is made only if in the opinion of management, such decline is other than temporary in nature.

- Current Investments are carried at lower of cost or fair value. The comparison of cost and fair value is done separately in respect of each category of investments. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss. Profit or Loss on sale of investments is determined on a first-in-first-out (FIFO) basis.

### 11) Transactions in Foreign Exchange

- **Initial recognition** : Foreign currency transactions are accounted at the exchange rate prevailing on the date of such transactions.
- **Measurement of Foreign Currency items at the Balance Sheet date** : Foreign currency monetary assets and liabilities at the Balance Sheet date are translated at the closing rate. Gains or losses resulting there from on settlement are recognized in the Statement of Profit and Loss.
- **Forward Exchange Contracts**: The premium or discount arising at the inception of forward exchange contracts entered into hedge an existing asset/liability, is amortised as expense or income over the life of the contract. Any profit or loss arising on cancellation or renewal of such forward exchange contract during the reporting period, is recognized as income or expense for the period, in the Statement of Profit and Loss.
- **Accounting of foreign branch**: Current assets and liabilities are converted at the appropriate rates of exchange prevailing on the date of the Balance Sheet and revenue and expenses are at average rate.

### 12) Retirement Benefits

- Short-term employee benefits are expensed at the undiscounted amount in the Statement of Profit and Loss in the year the employee renders the service.
- Post employment and other long-term employee benefits are recognized as an expense in the Statement of Profit and Loss at the present value of the amount payable determined using actuarial valuation techniques in the year the employee renders the service. Actuarial gains and losses are charged to the Statement of Profit and Loss.
- Payment to defined contribution retirement benefit schemes are recognized as an expenses in the Statement of Profit and Loss, when due.

### 13) Accounting for taxes on Income

- Current Tax is determined as the amount of tax payable in respect of taxable income as per the provisions of the Income Tax Act, 1961.
- Deferred tax is recognized, subject to consideration of prudence in respect of deferred tax asset, on timing difference, being the difference between taxable income and accounting income that originate in one

period and are capable of reversal in one or more subsequent periods and measured using relevant enacted tax rates and laws.

- Minimum Alternate Tax (MAT) paid in accordance with tax laws, which give rise to future economic benefits in the form of adjustment of future tax liability, is recognized as an asset only when, based on convincing evidence, it is probable that the future economic benefits associated with it will flow to the Company and the assets can be measured reliably.

### 14) Earnings per share

Basic EPS is computed and disclosed using the weighted average number of equity shares outstanding during the year. Diluted EPS is computed and disclosed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the period except where the results would be anti dilutive.

### 15) Provisions

A provision is recognized when there is a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

### 16) Contingent Liabilities

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent Liabilities are not recognized but are disclosed by way of Notes. Contingent assets are neither recognized nor disclosed in the financial statements.

### 17) Contingencies and Events occurring after the Balance Sheet date

All the major contingencies i.e., a condition or situation the ultimate outcome of which is known or determined only on their occurrences or non-occurrences of uncertain future events, till the signing of the financial statements, have been recognized.

Material events occurring after the balance sheet date till signing of thereof, affecting the going concern assumption or having material impact on the financial statements, are recognized.

### 18) Preliminary Expenses

Preliminary expenses are amortized over a period of 5 years.
