Your company had plans focussing on expansions, vertical synergy, cost effectiveness, and high productivity, company has scored high not only in monetary terms, but also in welfare activities.

The Company for the year ended 31st March, 2017 has recorded a turnover of Rs. 211.79 Cr., & a Net Profit of Rs. 6.41 Cr. Your company witnessed considerable rise in profits during this fiscal. The Company has an order book of considerable size, and at present these projects in hand are at various locations, and are in various stages of execution. We are expecting expansion, and vertical synergy resulting in favorable business conditions. Thus company has reasonably bright future. Company is striving not only for numerical success, but now the thrust is on qualitative value. In the fiscal year 2016-17, Management aimed to carry out various structural changes towards betterment of company, however some could not be achieved in estimated time. However, process is still going on, which will bear fruits in near future.

Infrastructure sector is facing challenges owing to changing legislative regime. However, Indian economy has tremendous scope for infrastructural growth in coming days. But, labour intensive nature of business and issues of finance availability may play an adverse role in this growth path. In more challenging situations, our past performance has been really good, and if this is given due weightage, then we hope for a , promising performance in coming years.

I take this opportunity to thank all the employees of the Company, whose dedication and confidence in the management has contributed to this success. I also take this opportunity to thank all the stakeholders for their continued faith in the Company and the understanding they have shown during the past year.

Management Discussion & Analysis

Economic Overview of Industry

The Indian Construction Industry valued at \$126 billion and employing around 40 million people, accounts for approx. 8% of the country's GDP. The construction industry ranks third in terms of direct, indirect and induced effects in all sectors of the economy. Thus, it plays a pivotal role in the economic growth of the nation.

Currently, the global economy is in severe slowdown mode amidst deepening credit crunch and upsetting developmental targets of economies across the world. After recording a spectacular growth of over 12%, more than the country's GDP in the past half-decade, the Indian construction sector all of a sudden lost steam in last fiscal largely due to global financial turmoil. Construction projects nationwide have slowed down due to the demonetization of high value currency notes.

In the prevailing scenario, infrastructure remains a top priority for addressing developmental gaps as it is considered omnipotent with potentials of lifting economies out of the financial turmoil.

Prospects & Opportunities:

However, the industry holds a positive outlook and is expecting the impact of demonetization to wear off in the coming months. The government has initiated innumerable initiatives to lift the sector from its current dormant conditions. The Construction Federation of India (CFI) submitted a memorandum on key issues relating to direct and indirect taxes impacting the construction sector. With the anticipated implementation of GST, the industry is expecting resolution of anomalies in tax laws in the Construction Industry and rebate on construction materials. To boost urban infrastructure across the country, the government has initiated multiple measures to lift the infrastructure and construction sectors from the ongoing slowdown and has allocated Rs. 11,842 crore under the Jawaharlal Nehru National Urban Renewal Mission (JNNURM), which is much higher than the previous budget.

The government's recent measures focused on encouraging banks to fund projects. This is a positive and progressive move at a time when the financing options of infrastructure players have shrunk in the backdrop of global credit crisis, delaying financial closures. Initially, the banks were demanding a higher equity proportion compared to earlier norms. The refinancing measures will provide better comfort to banks in lending to the infrastructure sector.

As per estimates till today, India has built only one third of the buildings, it had planned up to 2030, and thus a 200% expansion is expected in next 13 years. The Indian Construction Industry will remain buoyant and with the Government's focus on creating world class infrastructure in the country, India is witnessing significant interest from international investors in the sector.

Financial Results:

During the Fiscal Year 2016-2017, your Company has made total turnover of almost Rs. 212 Crore which affirms that the challenging situations in market were well managed by the company & the total Profit After Tax (PAT) of your Company for the year under review is Rs. 6.41Crore which is satisfactory considering the current economic scenario.

Risk Management: PCL Outlook

Easier entry routes into construction industry are paving way for many new and young players in the industry. Urbanization and industrialization has formed a basis for high demands of infrastructural facilities. In such a demanding scenario, construction companies are facing problems of delayed statutory clearances, costly construction material, and inadequate financing options, and competition from new and young players, who because of inexperience tend to quote unreasonably and unworkably low prices, resulting in loss of project for us, and financial loss for them. Apart from abovementioned risk factors, volatility of Indian economy, changes in regulatory framework and demand patterns are also influential risk factors.

The Board and the Audit Committee provides oversight and review the risk management policy periodically. Your company put in place the risk management framework, which helps to identify various risks cutting across its business lines. The risks are identified and are discussed by the representatives from various functions.

Our governance and compliance processes, which include the review of internal control over financial reporting ensure that all the assets of the Company are insured, safeguarded and protected against any loss and that all the transactions are properly authorized, recorded and reported. It also conducts regular internal audits to test compliance with the statutory requirements.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the statement of Profit and Loss on a straight-line basis.

N. Earnings Per Share

Earnings per share is calculated by dividing the net profit or loss after tax and prior period adjustments attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

O. Taxes on Income

- a) Tax expense comprises both current and deferred tax. Provision for current tax is made on the basis of taxable profit computed for the current accounting period in accordance with Income Tax Act, 1961.
- b) Deferred tax resulting from timing difference between book profit and tax profit is accounted for on the concept of prudence, at prevailing or substantially enacted rate of tax to the extent timing differences are expected to crystallise in case of deferred tax liabilities with reasonable certainty and in case of deferred tax assets with reasonable certainty that there would be adequate future taxable income against which deferred tax assets can be realised.

P. Provisions and Contingent Liabilities

The company has recognized necessary provisions when there are present obligations that arise out of past events prior to the Balance Sheet date entailing future outflow of economic resources and a reliable estimate can be made of the amount of the obligation. Such provisions reflect best estimates based on available information.

However, a disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

1. In conjunction with our audit of the consolidated financial statement of the Company as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial Reporting of Prakash Constrowell Limited (hereinafter referred to as 'the Holding Company')

Management's responsibility for internal financial controls

2. The Board of Directors of the Holding Company, which is a Company incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). Auditor's responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the ICAI and the Standards on Auditing deemed to be prescribe under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Meaning of internal financial controls over financial reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that, (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of company's assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls over financial reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding company which is a company incorporated in India, has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the institute of Chartered Accountants of India.

Note 2: Significant Accounting Policies:

A. Basis of preparation of financial statements

The financial statements of the Company & its subsidiaries are prepared in accordance with Generally Accepted Accounting Principles (GAAP) applicable in India under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards notified pursuant to the Companies (Accounting Standards) Rules, 2006 and the provisions of the Companies Act, 2013.

Accounting policies have been consistently applied except where specifically stated in financial statement and notes to accounts of the non-conformity with the relevant Accounting Standard. The management evaluates all recently issued or revised accounting standards on an ongoing basis.

B. System of Accounting

- The Company and its subsidiaries follows the mercantile system of accounting and recognises income and expenditure on accrual basis.

C. Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles except where specifically stated in financial statement and notes to accounts of the non-conformity with the relevant Accounting Standard, requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the reported amounts of revenue and expense for the year. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of financial statements. Actual results could differ from those estimates. Any revision to accounting estimates will be recognised prospectively in the current and future periods

D. Prior Period Items:

Expenses relating to earlier period are debited to profit and loss account. As per information and explanation and records kept by the company & its subsidiaries, the amount of such expenses and incomes are not fully quantifiable.

E. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company & its subsidiaries are segregated based on the available information.

In the case where the contract revenue or the stage of completion can not be determined reliably, the cost incurred on the contract is carried forward as Work In Progress. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on current estimates.

N. Earnings Per Share

O. Taxes on Income

- a) Tax expense comprises both current and deferred tax. Provision for current tax is made on the basis of taxable profit computed for the current accounting period in accordance with Income Tax Act, 1961.
- b) Deferred tax resulting from timing difference between book profit and tax profit is accounted for on the concept of prudence, at prevailing or substantially enacted rate of tax to the extent timing differences are expected to crystallise in case of deferred tax liabilities with reasonable certainty and in case of deferred tax assets with reasonable certainty that there would be adequate future taxable income against which deferred tax assets can be realised.

P. Provisions and Contingent Liabilities

The company has recognized necessary provisions when there are present obligations that arise out of past events prior to the Balance Sheet date entailing future outflow of economic resources and a reliable estimate can be made of the amount of the obligation. Such provisions reflect best estimates based on available information.

However, a disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.
