Chairman's Message

Dear Shareholders,

As the last financial year unfolded, it brought with it several surprises that significantly changed the global political and business landscape. In an era of global uncertainty, your Company continued to pursue its core values of Excellence, Integrity, Commitment and Transparency that guide our business conduct and underpin all of our operations. I am very pleased to share with you that even in the midst of all these global changes, your Company achieved several milestones, including the acquisition of wholly owned subsidiary companies in Canada and the USA. Your Company also continued to focus on Sustainable Manufacturing and I am very happy to announce that our Bhiwadi T&EC Plant was granted the IGBC Platinum Rating earlier this month.

Global and Domestic Economic Affairs

The last year has perhaps been the most tumultuous in terms of global affairs with growth getting impacted by heightened policy uncertainty. Both the USA and the UK registered minimal growth, despite expectations of improved economic activity. As a result, the IMF scaled down its growth forecast for the two economies.

Global trade continued to fall prey to the pressures of campaign promises that have begun to emerge in the increasingly protectionist and inward looking policies of some countries. While USA withdrew from the TPP and the future of TTIP remained uncertain, globalization seemed to tilt towards regionalism and bilateralism. Stagnant global trade and subdued investment marked the last financial year. Global growth recovery was also negatively impacted by the several unfortunate terror activities across the developed world. In this backdrop, policymakers continue to be faced with the challenge of nurturing recovery, confronting downside risks and fostering longer-term growth.

The global economy grew by 3.1% in 2016. Weaker trade growth, sluggish investment, subdued wages, diminished reform momentum and slower activity in key emerging markets were the main contributors to the slow growth.

The good news, however, is that as the political dust in the Western part of the world settles, the overall global economy has now started to register growth. While the growth is still fragile, the IMF has kept its global growth forecast unchanged at 3.5% for 2017 and 2018. The four large economies of the Euro Zone – France, Germany, Italy & Spain are likely to experience accelerated growth on the

back of strengthening domestic demand and increased exports. These, along with expectations of Japan's economy picking up momentum and a continued growth spell in the Emerging Markets & Developing Economies (EMDEs), are expected to buffer up global growth prospects in 2018. However, most emerging economies are expected to grow at rates similar to the prior year.

Despite the inward looking policies being pursued by several nations, the World Bank has forecast that global trade will outpace GDP growth after two years of marked weakness. The pickup in global trade partly reflects a bottoming out of global investment, which is relatively import-intensive. Global financing conditions remain benign.

While the world was struggling to find growth, India continued to register robust economic growth. India continues to remain one of the fastest growing economies in the world. The Economic Survey 2016-17 has forecast that the Indian economy remains well poised for growth and should clock in around 6.75 to 7.5% growth in FY 2017-18. Strong fiscal consolidation, low current account deficit, higher agricultural output, growing FDI, low inflation and higher wages in rural areas provide an environment for continued economic growth.

The steps taken by the Government have shown positive results as India's Gross Domestic Product (GDP) at constant rates, registered a growth rate of 7.1% in 2016-17. Further per capita income at current prices during 2016-17 rose by 9.7% to Rs 1,03,219 as against Rs 94,130 in the previous fiscal.

The strong Government reforms further strengthened India's economic fundamentals. Though the GDP for the January to March 2017 Quarter stood much lower at 6.1%, for once a declining GDP gives cause to cheer – it could really mean that the Government's crusade against the parallel economy has been successful. In the long run, demonetization could accelerate the formalization of the economy, leading to higher tax collections and greater digital financial inclusion. The roll out of Goods and Services Tax (GST) is a key complementary reform that will support formalization of the economy. The continuing political stability is sure to push economic growth back to the expected range.

With the improvement in India's economic scenario and several Government initiatives being pursued in mission mode, numerous foreign companies are setting up their facilities in India.

M&A activity in India more than doubled year-on-year to reach USD 61.26 billion in 2016-17 and early-stage start-ups in India are expected to raise close to USD 800 million in 2017.

India's growth prospects for the next decade remain positive, with the country comfortably placed to remain one of the fastest growing large economies of the world. Some estimates have forecast that with a shift in consumer behavior and expenditure pattern, India's consumption will triple to USD 4 trillion by 2025, making it the third largest consumer economy. It is also estimated that by 2040, India would surpass USA to become the second largest economy in terms of purchasing power parity (PPP).

Indian Automotive Sector and our Future Outlook

Today, the automotive sector is globally experiencing one of its biggest transformations. Mobility as it is defined today stands at an inflection point and is certainly not going to remain the same another decade from now. With ride share becoming popular over the last one to two years, mobility and, therefore, the automotive sector will be defined by the ability of transport to seamlessly take people from point A to point B at the least possible cost and with highest of safety standards.

While this is the future, the traditional automotive sector continues to thrive, though with increased integration of electronics the Indian auto industry continued to remain one of the largest in the world. The sector accounts for 7.1% of the country's Gross Domestic Product (GDP) and accounts for 49% of Manufacturing GDP. During April-March 2017, the industry manufactured a total 25,316,044 vehicles including passenger vehicles, commercial vehicles, three wheelers, two wheelers and quadricycles, a growth of 5.41% over the previous year. The production trends also reveal a continuously expanding market for PVs, as also a healthy bounce back of the Commercial Vehicles segment.

The domestic sales of Passenger Vehicles and Commercial Vehicles grew by 9.23% and 4.16% respectively, during April- March 2017. Scooters, Motorcycles and Mopeds registered a growth of 11.39%, 3.68% and 23.02% respectively, taking Two Wheeler sales growth to 6.89% for the year. While three wheelers sales declined by 4.93 %, Passenger Carrier sales declined by 8.83%.

The sector's exports slowed down during the year, with overall automobile exports declining by 4.50%. While Passenger Vehicles and Commercial Vehicles exports registered a growth of 16.20 % and 4.99% respectively, exports of Three Wheelers and Two Wheelers declined by 32.77% and 5.78 % respectively in April-March 2017 over April-March 2016. Yet India, a prominent exporter of automobiles, has strong export growth expectations in the near term. Several Government initiatives are expected to boost the efforts of major Indian automotive manufacturers, taking India to a global leadership position in Two Wheeler and Four Wheeler markets by 2020. The Indian Automotive industry aims to increase exports of vehicles by 5 times over the next ten years.

By 2026, India is expected to be the third largest automotive market in the world. Several global car majors have increased their India investments to meet the growing domestic demand. The Indian Automotive industry is expected to remain amongst the prime Manufacturing sectors for the country and the Government is working on specific interventions to sustain and improve manufacturing competitiveness and address environment and safety related challenges.

The Government's focus on Electric Vehicles is likely to make it a sizeable market opportunity over the next ten years. The demands for low-cost Electric Vehicles, suited for short-distance urban commutes, is likely to take the sales up to 6-7 million units by 2020. Many manufacturers have begun to make plans for the future by forging technological and distribution alliance, as well as gearing up for emerging trends in green and alternative mobility solutions. Further, the Government's plan to scrap commercial vehicles older than 15 years is another step to boost prospects of Auto & Component industries both.

India's auto-components industry has experienced healthy growth over the last few years. A buoyant end-user market, improved consumer sentiments and return of adequate liquidity in the financial system have helped to keep the auto component sector growing.

As one of the major job creators, the Indian automobile industry is fulfilling its duty well. In parallel, it is the biggest FDI earner & GDP contributor. The Indian auto components industry is going through a transformational period with the concept of mobility changing continuously. The industry is preparing for Industry 4.0, but expecting tax incentives for the investment in this direction.

The business model of the industry is fast evolving and shifting from a manufacturing to a service-intensive industry. To build synergies with global value networks, this shift requires the supply chain to transform and the Indian auto components sector is beginning to make the shift. Low penetration level, fast growing economy supports the growth potentials of the automobile industry. Other important factors such as, flexible policies, 100% FDI in the sector, large pool of skilled labour, availability of land, raw material and capital, are also enabling India to become a manufacturing hub.

The sector has set itself the target of achieving 5 times growth by 2026 with a turnover of USD 200 billion, with exports of USD 70-80 billion and investments of USD 30-40 billion. India is fast becoming a R&D hub, a major centre for auto component manufacturing with component manufacturers moving up in supply chain, bringing several new opportunities to be harnessed.

Company Performance and Strategy

Achieving our goals with discipline has been our unchanging focus. Each time we look at a growth horizon, we look at how we can improve and add value to our business; how we can make a difference in the markets we operate in, make our offerings more expansive and deliver on our mission to create healthier communities globally.

I am happy to share that your Company is now a true 'Global Company'. During the period under review, your Company has acquired Teutech Industries Inc and their group companies. Situated in Canada and the USA, these companies have consolidated sales exceeding CAD 50 million. The object of the acquisition is to be part of a Global Value Chain (GBV) with a footprint in an important and essential geography. Teutech is an auto component engaged in the manufacture of transmission and driveline components. The other details of this acquisition are being shared by Mr. Pranav Kapuria in his message and in the Directors' Report.

During 2016-17 we made consistent progress, in addition to achieving the above major milestone. On the back of many reforms announced by the Government, which may have long term positive impact, the revenues of the business segments were impacted in the second half. Your Company has still been able to, more or less, maintain the financial performance of the previous year. The Company's total revenue stood at Rs. 45,261.60 lakhs compared to Rs. 45,224.92 lakhs during the previous year. The Profit Before Tax stood at Rs 3,186 lakhs as compared to Rs 3,359.94 lakhs in the previous year. Earnings Per Share (EPS) of the Company stood at Rs. 10.86.

Export revenues were also close to the previous year, with the Company recording an export turnover of Rs. 10,492.79 lakhs. With the acquisition getting concluded just a month before the close of the Financial Year, the consolidated financials did not register a material difference vis-à-vis the standalone figures. The consolidated financials of the Company with its subsidiaries are attached at the relevant part of the Annual Report.

As you may appreciate, your company has an uninterrupted and constant track record of sharing profits with shareholders, who have placed their faith and capital in the Company. Keeping up the tradition, your Directors declared an interim dividend of 12.5 %, i.e. Rs. 1.25 per shares. The same was declared and paid during the year. Similarly, a final dividend of 12.5% i.e. Rs. 1.25 per shares is being recommended by the Board for your approval.

Technological advancement and product innovation remain our key differentiators. The recently launched Car Transmission Vertical is working as per its operating plan.

This was launched to cater to the ever growing need for Car Transmission components in both the domestic and export markets.

As you may be aware your Company is among very few companies in the world which supply to OEMs manufacturing Two Wheelers, Four Wheelers, Commercial Vehicles, Tractors and Off-road vehicles in India and overseas. The Company's principle products include two wheeler transmission components, engine and transmission components for commercial and passenger vehicles, precision forgings etc and over a period it has graduated to become a "full fledged assembly" manufacturer. With the recently acquired Teutech, your Company's customer base and product portfolio have been further strengthened.

Your Company, in addition to tapping new markets, will leverage its positioning and also rely on building its relationships and product development. The export programmes are also expected to gain momentum. Going forward, the overall focus will continue to be on quality delivery at optimum costs. The Company believes that the ensuing year, while being challenging, will also be a year when the Company regains its growth momentum.

Your Company's strategy has been to focus on four pathways: leveraging our core strengths, improving the

efficiency of our operations, optimizing our resources and enriching the capabilities of our people. As we move on to a higher growth trajectory, we will continue to centre our growth strategy on these four pathways.

As I conclude, I reiterate that we are approaching the new level and need all your support. On my behalf and on behalf of my colleagues on the Board, I would like to thank you and record our sincere gratitude to all our stakeholders for the confidence & trust reposed in us and our deep appreciation to all employees of the Company for their hard work, commitment and whole hearted support for achieving the company's goals and targets. I further thank all our customers, our supply chain partners and our bankers for their support and reposing their confidence in us.

As we step into a new phase, there are many reasons to be excited about the future of our business. There will be more opportunities to deliver something meaningful and purposeful, as we race ahead with our plans for your Company's future in the years to come. I am confident that together we will chart the roadmap of the Company for continuous growth & profitability and will steer the Company to greater heights.

Deep Kapuria
Chairman

Managing Director's Message

Dear Shareholders,

It gives me great pleasure to be in touch with you again and to update you on your companies progress. I am very happy to inform you that on March 1, 2017, in line with our Vision of becoming a company with a global footprint, we successfully completed the acquisition of an auto components manufacturing company in the NAFTA Region. I have shared further details about this acquisition later in this message.

Macro Economic Update : In 2016-17, global economic growth continued to remain slow. Slower trade liberalization, obstacles to value chain integration, elevated economic policy uncertainty and the likelihood of financial market disruptions, could possibly impact global growth prospects; continuously increasing trade restrictions have the potential to derail a fragile trade recovery. Another significant concern has been the substantial slowdown in investment growth in the emerging markets and developing economies – investments tumbled from an average 10%, in 2010 to about 3.5% in 2016. The weakness in investment has been most pronounced in the largest emerging markets and commodity-exporting emerging and developing economies. Despite such risks, the IMF and World Bank have both shown confidence in global growth prospects in the near term – according to their forecasts global growth will strengthen to 3.5% in 2017 and 3.6% in 2018. A firming of commodity prices, recovering industrial activity, stabilizing investment, and improving confidence are supporting a gradual global recovery. A slight strengthening of investments across developed economies in 2017 also raises hopes of investments picking up over the same period.

Lower energy prices and the somewhat stable economic

conditions are pushing inflation down amongst developing economies. Inflation is also decelerating in most emerging-market economies, as well as in the Eurozone and the United States, as a result of lower food prices and more stable foreign exchange markets. Price pressures however intensified in the United Kingdom on the back of a weaker Pound Sterling. This downward inflationary trend is expected to continue in 2017, bringing down global inflation to 4.7% and further moderating to 4.4% in 2018.

While the world endured the headwinds, the Indian economy continued to demonstrate strong growth potential, expanding by 7.1% in 2016-17. India's growth remained robust, based on enhanced Government spending and data revisions that recorded stronger momentum in the first part of the year. The IMF has, accordingly, projected a growth rate of 7.2% in 2017-18 and 7.7% in 2018-19.

The Indian Government's firm commitment to reforms and liberalization has been demonstrated through a series of path breaking initiatives including demonetization, the GST roll out and the setting up of the Real Estate Regulatory Authority (RERA). Even though GST may lead to a temporary inflationary trend in the near term, its long term impact will surely be positive. The removal of cascading taxes and improved logistics alone will improve the Ease of Doing Business with India and also make India significantly more competitive in global trade. Similarly, the setting up of the RERA will dismantle the parallel economy that has thrived for long in India. In this backdrop, India's economic growth is expected to remain strong at least in the medium term. While consumption will be supported by increased public wages and pensions, private investment is expected to get a fillip with the Government continuing the reforms process.

The Automotive Sector

Technological disruptions have already begun to redefine the global automotive sector. With driverless cars, ride share and electric vehicles taking centre stage the consumer buying behavior is also likely to change in the next decade. However, fully autonomous vehicles are unlikely to be commercially available before 2020. Advanced driver-assistance systems (ADAS) will play a crucial role in preparing regulators, consumers, and corporations for the medium-term reality of cars taking over control from drivers.

Though disruption in the automotive sector continued, worldwide automotive sales in 2016 stood at a record 93 million units i.e. close to 5.5% higher than the previous year. It is estimated that close to 70 million units, out of the total sales, were only passenger vehicles.

Going forward the growth markets, including China, India, Southeast Asia and North Africa, are expected to remain the main engines for volume growth in the automotive industry worldwide. It is expected that these markets will together drive an 18.8 million increase in vehicle assembly volumes between 2016 and 2023. These growth predictions are also aligned to PwC's economic growth projections that state that by 2050 China will account for about 20% of the Global GDP, followed by India at 15%.

India is already the Sixth largest automobile producer in the world, having achieved an average annual production of over 25 million units in 2016 - 17. With a favorable policy framework building up in the country, the sector is expected to see further growth. The Government's policy of automatic approval for foreign equity investment up to 100%, with no minimum investment criteria, has encouraged increased foreign investment in the sector. The cumulative Foreign Direct Investment (FDI) into India's automobile industry between April 2000 – September 2016 stood at USD 15.80 billion.

With the Automotive Mission Plan 2016-26 in place, the Indian Automotive industry plans to be a top job creator in the country, adding about 65 million jobs during this period. In addition, the NATRiP project, set up at a total cost of USD 585 million, will enable the sector to adopt and implement global performance standards. With a view to contributing towards national fuel security, the Indian Government has committed itself to making India a global leader in two-wheeler and four-wheeler Electric Vehicles by 2020. The target, under NEMMP 2020, is to put about 6 million electric & hybrid vehicles per annum on the road by 2020.

As India's Automobile Sector grew over the last decade, the country's automotive components industry scaled three times to USD 39 billion in 2015-16 with exports growing even faster to USD 10.8 billion. Two Wheelers continued to lead total automobile sales, with motorcycles dominating the profile at 65% of total sales of the segment. Going forward, the sector is expected to grow by around 7 to 8% in 2017-18 and register a turnover of US\$ 100 billion by 2020. This growth is expected to come on the back of an increasing Original Equipment Manufacturers (OEM) focus on localization and higher per vehicle component content. Exports are expected to increase to about US\$ 80- US\$ 100 billion by 2026 from the current US\$ 11.2 billion.

With an increasing shift towards electric, electronic and hybrid cars, as the definition of mobility undergoes change, newer avenues are opening up for the transportation industry. Over the next decade, as the auto components sector harnesses these newer verticals and opportunities, there will also be a need to adapt to the change via systematic research and development.

Over the years, the Indian auto component industry has developed its capability in manufacturing all kinds of components required to manufacture vehicles. This is evident from the high levels of indigenization/localization achieved by the automobile industry. The domestic industry has now holistic capability to manufacture an entire range of automotive components e.g. engine parts, drive, transmission parts, suspension & braking parts, electricals, body and chassis parts, equipment etc. The auto sector is one of the biggest job creators, both directly and indirectly. It is estimated that every job created in an automotive company leads to three to five indirect ancillary jobs. India's domestic market and its growth potential have been a big attraction for many global automakers.

Performance of the Company

As I have mentioned in my previous communication to you, we have seriously considered an organic as well as inorganic growth strategy. I am glad to inform you that your company has successfully made an acquisition in the North American Free Trade Agreement (NAFTA) Region.

Your Company is no longer confined only to its domestic manufacturing facilities, but has made its presence felt globally. Your Company is confident that exposure to the global environment will lead to strong growth opportunities. In the years to come your Company plans to expand its Global presence further and succeed in new areas, always keeping the customer requirement at the centre of its growth plans.

Long and tiring discussions, due diligence exercises performed by highly reputed consulting, accounting and legal firms, followed by detailed legal documentation culminated finally, on March 1, 2017 in your Company acquiring Teutech Industries, Inc ('Teutech') and their group Companies at a consideration of CAD 58 million. Teutech and its group companies, with consolidated sales exceeding CAD 50 million, are strategically located in Canada and USA. These acquisition have been made keeping in mind the strategy to integrate into the Global Value Chain (GBV), with a footprint in an important and essential geography. Teutech's business, which primarily is in the manufacture and sale of transmission and drive line components, is similar to that of your Company.

Our journey of growth and success is a testament to the talent and resourcefulness of our people. Guided by a spirit of entrepreneurship, they have actively sought out opportunities to drive efficiencies and support business growth. I would like to thank them wholeheartedly for their passion, dedication and hard work.

During 2016-17 we made continued progress across several areas. Despite many headwinds, especially in the 2nd half of the year, your Company was able to, more or less, match previous year's performance. The total turnover stood at Rs. 45,261.60 lakhs compared to Rs. 45,224.92 lakhs during the previous year. The Company recorded an export turnover of Rs. 10,492.79 lakhs, compared to Rs. 10,784.47 lakhs during the previous year.

The Profit Before Tax stood at Rs 3,186.00 lakhs as compared

to Rs 3,359.94 lakhs in the previous year. The Net Profit After Tax of the Company was Rs. 2,038.01 lakhs as compared to Rs 2,116.42 lakhs in the previous year. Earnings Per Share (EPS) of the Company stood at Rs. 10.86.

Post consolidation with Wholly Owned Subsidiaries, the turnover stood at Rs. 47,569.52 lakhs (net of excise duty & including other income) With the acquisition becoming effective on March 1, 2017 only one month's financials are included in the consolidated financials, thus not reflecting a significant increase from the standalone figures. The consolidated financials of the Company with its subsidiaries are attached to this Annual Report.

Recognizing the importance of sharing the gains with the shareholders, who have placed their funds and trust in the Company at all times, an amount of Rs. 469.20 Lakhs is being paid out by way of dividends. Dividend tax calculated at Rs 95.52 lakhs is being deposited accordingly.

A journey of excellence is an ongoing one, with continuous improvement and learning. This is also important for Quality to become a way of life. The three signposts which guide us in our journey towards excellence in quality include technology, training and sustainability. While technology opens the door to scientific data management and improved controls, continuous training helps us create the right focus and environment in the workplace. Continuous improvement is the key to sustaining and consistently delivering on quality parameters. Your Company will continue to leverage its position and also rely on building its relationships and product development plans to grow.

The T&EC Plant has been awarded/recognised as a Zero Defect Supplier by Cummins, a major customer. Your Company has further identified Customers as well as potential partners with whom your Company has planned to go ahead. Most importantly, the T&EC Plant of your Company renewed its commitment towards green manufacturing with its Green 'ECOFAC' plant which has been accorded the Platinum level Certification by Indian Green Building Council. The Company has strong belief that continuous improvement (Kaizen) is the way of life and employee motivation is a must to sustain and improve the culture. Regular Kaizen competitions are conducted to award the best performers and winners.

The Board of Directors and the entire team is working hard to enable the company to achieve these plans. Going forward, the export programs are also expected to gain momentum. Overall, the focus will continue to be on quality delivery at optimum costs.

The newly launched Car Transmission Vertical to cater to the

ever growing need for Car Transmission components in both the domestic and export markets is running as per operating plan and contributing to the growth of the Company. Further, your company is amongst the very few technology upgraded companies, that has the capacity to supply 9-10 speed car transmission components.

The automotive industry is bracing itself for its biggest engineering challenge in the times to come. The Corporate Average Fuel Economy (CAFÉ) regulations call for an increase in fuel efficiency through improving the quality of Transmission Equipments on a continuous basis. We are striving to improve and build our credibility in the Global markets by offering quality products. For a manufacturer to provide this level of performance, efficiency, and quality, requires a serious commitment; your Company not only believes in these tenets but is willing to leave no stone unturned in achieving the same. Your Company has always promoted and encouraged clean and sustainable technology. Various initiatives have been launched by the Company for such noble causes, details of which are provided in the Directors' Report.

Turning to people, your Company believes that people are its greatest assets that must be valued, measured and developed. People are not hard-assets that depreciate in value and can be written off; they are dynamic assets and become increasingly valuable with time. It is only with the determination and dedication of our people that we can serve our clients, generate long-term value for you and contribute to the growth of the country. With this strong belief, your company continues to invest in building its most significant asset, its people.

Your Company has further identified both the customers and potential partners with whom your company will go ahead. In addition, with a strong will to establish its footprint in Southern India, the Management is exploring various opportunities and will take action at an opportune time. Overall, the focus will continue to be on delivering quality at optimum costs.

In respect of internal controls, your company has been working with the Internal Auditors of the Company with the objective of strengthening internal controls, improving internal processes and they have been reporting to the Audit Committee of the Board regularly every quarter. Further, to have better and sustainable controls, a new ERP system (SAP S4 HANA) is also under implementation. Management is hopeful that with the new system in place, it will have even better and prompt generation of MIS for effective controls.

Further, I am pleased to inform you that the journey of growth, which began in a small way, has been gathering momentum with each passing year, adding new dimensions and ventures in different geographies. In this eventful journey, each year has been packed with achievements that underline our committed performance.

On behalf of HGL team, I thank you for your continued support and assure you of our unceasing efforts to grow your Company's performance and image year after year. Our sincere thanks to our valued customers, supply chain partners, banks and all our employees for their valuable and continuing support in all our endeavors.

General Information

The year gone by witnessed many long awaited key reforms. The reforms are forward looking and aiming at the aiding growth, revival and overcoming the structural constraints in the Indian Economy. The Economy grew at 7.1% in the previous year, despite many short term impact of the reforms on the economy. Still, growth rebounded in the three most crucial components of industrial sectors, ie mining, manufacturing and electricity. The period gone by was very eventful, it saw many curves in a single year, such as demonetisation of larger denomination value currency notes, ban on running of diesel commercial vehicle in big cities, introduction of BS IV vehicles and introduction of GST.

One of the major job creator, Indian automobile industry is fulfilling its duty well. In parallel, it is biggest FDI earner, GDP contributor. After seeing challenging times, the industry is now in growth mode from last few years. All segments of the automobiles registered good amount of growth except for the three wheelers. The domestic sales of Passenger Vehicles and Commercial Vehicles grew by 9.23 % and 4.16 % respectively, during April- March 2017. Scooters, Motorcycles and Mopeds registered a growth of 11.39 %, 3.68 % and 23.02 %

respectively taking Two Wheeler sales growth to 6.89 % for the year.

The sector's exports for the year slowed down during the year, with overall automobile exports declining by (-) 4.50 %. While Passenger Vehicles and Commercial Vehicles exports registered a growth of 16.20 % and 4.99 % respectively, exports of Three Wheelers and Two Wheelers declined by (-) 32.77 % and (-) 5.78 % respectively in April-March 2017 over April-March 2016.

The Indian auto components industry is going through a transformational period with the concept of mobility changing continuously. As you may be aware that Indian Markets are host to second largest market for two wheelers and third for small cars. The prospects of the Industry is to benefit over next years are good.

State of Company Affairs

Detailed information on the operations of the Company and the state of affairs of the Company are covered in the Management Discussion & Analysis Report, forming part of this report. The performance of the Company remained satisfactory during the year 2016-17. Had the demonetisation impact was not there, the numbers would have been much better. Still, the Company could catch the same figures, as of previous year and stood flat on turnover etc. The total revenue from operations (net of excise) stood at Rs. 44,953.86 lakhs as compared to Rs. 44,997.29 lakhs in FY 2015-16, registering a de growth of 0.09%. The profit before tax stood at Rs 3,186 lakhs as compared to Rs 3,359.94 lakhs in previous year. Similarly, the Net profit after tax of the Company is Rs. 2,038.01 lakhs as compared to Rs. 2,116.42 lakhs in previous year, registering negative growth of 3.70%.

Your Company expects to benefit over the next period from its good business linkage with OEMs, due to its healthy operating efficiencies. In view of this, the long term prospects of your Company are bright.

Share Capital

The paid up Equity Share Capital as on 31st March 2017 was Rs. 1876.80 lakhs. During the year under review, the Company has not issued shares or granted stock options or sweat equity.

Dividend

During the year under review, an interim dividend of 12.5% i.e. Rs. 1.25 per equity share amounting to Rs. 234.60 lakhs was declared and paid, the same is being confirmed at the forthcoming AGM. The Directors have now recommended to the shareholders a final dividend of 12.5% i.e. Rs. 1.25 per equity share, resulting in an another payout of Rs. 234.60 lakhs. The total dividend payout stands at Rs 469.20 lakhs (Previous year Rs 563.04 lakhs) & tax on dividend comes to Rs 95.52 lakhs (Previous year 116.77 lakhs). Additionally, an amount of Rs. 100 lakhs is transferred to General Reserve.

If the final dividend on the shares as, recommended by the Board of Directors, is approved by the shareholders in their 31st Annual General Meeting, payment of such dividend will be made to those members whose names appear in the Register of Members as per Book closure dates mentioned in the shareholder's information.

MANAGEMENT DISCUSSION ANALYSIS

The Macro Economic Environment

India's economy has witnessed a significant economic growth in the previous year despite many challenges. The steps taken by the government have shown positive results as India's gross domestic product (GDP) at constant is estimated Rs 121.90 lakh crore as against Rs 113.81 lakh crore in 2015-16, registering a growth rate of 7.1% in 2016-17. It further said that per capita income at current prices during 2016-17 rose by 9.7% to Rs 1,03,219 as against Rs 94,130 in the previous fiscal. During the year 2016-17, IIP of manufacturing registered a growth of 4.9% in the previous year. India again topped the World Bank's growth outlook for 2016-17 for the second time with the economy having grown 7.1% in 2016-17 (PY 7.6%). Economy is expected to grow at 7-7.75% during FY 2017-18, despite the uncertainties in the global market according to IMF World Economic Outlook Update. The Economic Survey 2016-17 also have forecasted that the Indian economy will be growing by more than 7% for the fourth successive year in 2017-18 and can start growing at 8% or more in next two years. India's economy became the world's fastest growing major economy from the last quarter of 2014, replacing the People's Republic of China.

The improvement in India's economic fundamentals has further expedited in the year 2016-17. Indian economy has faced many challenges successfully in past and is currently placed on an upswing, on the back of committed policies and a belief of new optimism. In the recent time gone by, the economy faced a tough time with issues like lower growth, high levels of inflation, non availability of capital, and widening current account deficit; escalated by an unsupportive external environment. Growth is now back, with its desirable mild inflation and manageable current account balance with stable rupee and rising foreign exchange reserves, signaling much awaited improvements in macro-economic stability.

FY 2015-16 witnessed but FY 2016-17 confirmed the come back, as growth returned, inflation reduced & external accounts came under control. Now there is visible positivity built around the Indian growth story & India seems to be poised to enjoy another spurt of much awaited growth in all sectors. According to International Monetary Fund (IMF) World Economic Outlook, India now ranks seventh globally in terms of GDP at current prices. India will further strengthen its position due to improved investor confidence, lower fuel and food prices and better policy reforms. Initiatives like "Make in India" and "Digital India" are playing vital role in driving the Indian economy towards north. Further, Foreign exchange reserves touched highest ever level of about US \$ 369.95 billion and the total FDI Investments India received in FY 2016-17 was US \$ 60.1 billion compared to US \$ 55.6 billion in the previous year indicating a significant increase of 8%. This also indicates that

government's effort to improve ease of doing business and relaxation in FDI norms is yielding results.

On the other side, the global economy grew by 3.1% in 2016. Weak trade growth, sluggish investment, subdued wages and slower activity in key emerging markets were the main contributors to slow global GDP growth, essentially the same level as in 2016. This reflects a combination of subdued aggregate demand, poor underlying supply-side developments, with weak investment, trade and productivity growth, and diminished reform momentum. Global recovery will continue to be moderate and uneven. While developed economies, including US are expected to strengthen, aided by lower oil prices, improved employment numbers and low interest rates, most emerging economies are expected to grow moderately, due to country specific reasons- India seems to be an exception. China is trying to align itself with the major slowdown of demand in its domestic & export markets, after seeing a great period for lasting many years. At the same time Japan & Eurozone are still to recover from the shadow of uncertainties. Overall, global economic activity is expected to strengthen in 2017 onwards with most of the momentum coming from mature market economies. Other economies will also show some strength & contribution towards much awaited growth.

Industry & Segment Dynamics

Indian automotive market is full of tremendous opportunities and is capable of scaling to greater heights. The rapid urbanization, coupled with an overwhelming growth in the middle class population and their incomes, has created an Indian Market that is extremely conducive for the automobile industry to flourish. The Indian auto industry is now, one of the largest in the world and is an engine of growth for the Indian Economy. The industry accounts for 7.1% of the country's Gross Domestic Product (GDP).

Favourable government policies like implementation of GST, launch of the Automotive Mission Plan, which allows 100 % FDI in the sector and tax holidays, strong support to R&D through establishment of NATRiP Centres, presence of a large pool of skilled and semi-skilled workforce, competitive advantages facilitating emergence of outsourcing hub further adds to the robust growth of Indian Automotive Industry.

India is also a prominent commercial vehicle exporter. In April-March 2017, exports of Commercial Vehicles registered a growth of 5% over April-March 2016. In this segment the Medium & Heavy Commercial Vehicles led the growth by registering 24.21 % increase over the last year.

Similarly, the Indian auto components industry has experienced healthy sequential growth over the last three to four years. The growth can be attributed to factors such as resilience in the end-user industry, signs

of recovery of the global economy, improved consumer sentiment and return of adequate liquidity in the financial system. The revival of the auto industry was initially driven by the fiscal stimulus programme of the government and now riding on the success of the automobile sector as such. Coupled with growing demand and technological advancements, the auto component industry in India has emerged as a key market in Asia as well as in the world. The industry contributes about 27% to the manufacturing GDP, 4.3% of over all exports and 13% of excise revenue along with huge employment opportunities.

As per ACMA, the performance of the auto component industry in 2016-17 was satisfactory despite a moderate performance in the two-wheeler segment. In passenger vehicle segment, the growth was better than the previous years. With the Make in India initiative and thrust on increased localization by OEMs, the component industry is actively focusing on delivering enhanced quality products as well as on R&D and innovation.

It is estimated that the Indian auto component industry to register a robust growth in 2016-17 with overall turnover of USD 43-45 billion, compared to USD 39.0 billion in PY. The overall exports from India are also over whelming, with major chunk of exports to US. It is predicted that with the signs of recovery in India based auto market and prospects of a better monsoon, the component sector is expected to witness to grow in similar manner this year also. It is expected that consistent economic growth, especially rural economy with a predominantly youth bulge will further take the industry to new heights.

Over the years the component industry has adapted well to the changes in the policy & regulatory environment and the needs of its customers. The 'Make in India' campaign of the government has enthused the entire manufacturing sector. Focus on ease of doing business, implementation of GST and other reforms promise well for the component manufacturing industry. ACMA has adopted 'Make Quality & Technology in India' as theme of auto component sector to endeavour to focus on strengthening the capabilities of the sector for new product development, improving quality standards, evolving technology for meeting the evolving emission and safety standards, upgrading people skills to support domestic and global expansion of OEMs, building auto-electronics manufacturing capabilities, embracing digital technology in manufacturing to transform productivity thus enabling our Industry and India become an attractive destination for investments.

Production Trends of the Automobile Sector in 2016-17

The industry continued the growth momentum and produced a total of 25,316,044 vehicles including passenger vehicles, commercial vehicles, three wheelers and two wheelers in FY 2016-17 as against 24,016,599 in FY 2015-16, registering a growth of 5.41 % over the same period last year.

The Two Wheeler segment registered moderate growth of 5.84 % in FY 2016-17 over previous year by recording total production of 19,929,485 units (PY 18,830,227 units). Within the Two Wheelers segment, Scooters/ Scooterette grew by 12.32 % while Motorcycles and Mopeds registered a growth of 2.09% and 24.55% respectively in FY 2016-17 over the previous year. In recent time, the major attraction in Two Wheeler segment is the scooters/ scooterettes, due to its easy maintenance and city driving convenience.

In 2016-17 the growth was majorly led by the Production of Passenger Vehicles, which grew by 9.42 % by registering the production units of 3,791,540. Within the Passenger Vehicles segment, Passenger Cars, Utility Vehicles and Vans grew by 5.40 % (2,704,600 units), 26.32 % (906,750 units) and (-) 0.59% (180,190 units) respectively.

Commercial Vehicle segment which registered a growth of 3.0% with the recording of total vehicle production to 810,286 units (PY 786,692 units). Within the Commercial Vehicles segment Medium & Heavy Commercial Vehicles (M&HCVs) grew by mere 0.42 % (342,733 units) and Light Commercial Vehicles grew by 4.97 % (467,553 units).

The sad story for Three Wheelers production continued. This category registered again a de-growth of (-) 16.16% in FY 2016-17 over the same period last year. In Three Wheeler segment production of Passenger Carriers declined by (-) 19.57% (670,978 units), however Goods Carriers showed some respite and registered a growth of 12.34% (112,171 units).

Vehicle Production

Domestic & Export Sales Trends of the Automobile Sector in 2016-17

The year 2016-17 saw another encouraging year of growth for the Automobile Sector. It showed growth both in Domestic as well as Export Sales. FY 2016-17 numbers reveal all vehicle categories other than Three Wheelers (TWs) are in positive territory. Riding on the back of gradual upliftment in market sentiments, policies encouraging manufacturing & exports, favourable government policies, R&D boost, and our Hon'ble Prime Minister's Make in India campaign, the Indian automotive

industry posted an overall domestic sales growth of 6.81% in fiscal year gone by registering overall 21,862,128 units against 20,468,971 units in the previous year.

The sales of Passenger Vehicles (PV) in domestic market first time touched 3 million marks by growing 9.23% in FY 2016-17 over the same period last year. PV recorded a figure of 3,046,727 units (PY 2,789,208 units). Within the Passenger Vehicles segment, Passenger Cars, Utility Vehicles and Vans grew by 3.85%, 29.91% and 2.37% respectively.

Two Wheelers segment registered a growth of 6.89% in FY 2016-17 over FY 2015-16 by recording a figure of 17,589,511 units (PY 16,455,851 units) in domestic market. Within the Two Wheelers segment, Scooters/Scooterette grew by 11.39% (5,604,601 units) while the sales of Motorcycles and Mopeds increased by 3.68% (11,094,543 units) and 23.02% (890,367 units) respectively in FY 2016-17 over previous year. Factors like enhanced comfort, versatility and contemporary features, along with youth connect will further drive the sales of Two Wheelers in coming period.

Three Wheelers sales registered a de growth of 4.93 % in the period under review over the same period last year. The total sales were 511,658 units Sales of Goods Carriers increased by 12.75 % in FY 2016-17 (109,624 units) over FY 2015-16 (97,230 units), whereas the Passenger Carrier decreased by (-) 8.83% (402,034 units).

The Commercial Vehicle (CV) sector which is an indicator of a country's economic progress was not in the best of its shape from past few years but in 2015-16 this segment registered a significant growth of 11.51%, however in 2016-17, its performance again went down and registered a moderate growth of 4.16%. A total of 714,232 units were sold in domestic market compared to 685,704 units in the previous year. Within the CV, Medium & Heavy Commercial Vehicles (M&HCVs) remain flat (302,529 units), however Light Commercial Vehicle (LCV) showed some growth of 7.41% (411,703 units). The Indian Commercial Vehicle segment is likely to see good growth in the next decade as the country strives to develop a modern infrastructure spanning the metros, Tier 1, 2 and 3 towns. Recognizing the growth potential of India, almost all the major global OEMs have set up base here and are hoping for a larger market in the coming years.

Indian Passenger Vehicles are getting good recognition in terms of competitive price and quality. PV registered a handsome growth of 16.20% by selling 758,830 units throughout the globe (PY 653,053 units). However the overall export was hit in FY 2016-17, overall automobile exports registered de growth of 4.50% by exporting 3,479,824 units over the same period last year i.e 3,643,828 units. Export of Commercial Vehicles (M & HCVs) grew by 24.21% (43,719 units), while the Three Wheeler segment registered a de-growth of

32.77 % over the same period last year (271,894 units). Two Wheeler sales also declined by 5.78%, i.e. 2,339,273 units against 2,482,876 units in the PY.

Domestic and Export Sales

Future Outlook

All the stakeholders, led by the Government have been doing all possible means to turn around the economy. However, the expectations are very high from the Government but, realistically the process is expected to take more time than expected. Settling of business as per GST regime, new environmental laws and technological aspects will surely have considerable impact to achieve the higher growth goals. In spite of this, the entire vehicles segment is expected to perform better in FY 2017-18, purely due to better consumer sentiment.

The long term prospects are hence bright & the demand will grow due to various underlying factors including India's rising per capita income, relatively low fuel cost, easy finance, increasing rural demand, growing urbanization, swelling replacement demand etc.

India is now acting as a global manufacturing hub for manufacture of commercial vehicles, small & mid size cars and two wheelers. Rapid increase in sales of the small cars segment in India has prompted a number of global automobile companies to enhance their capacities for domestic as well as export markets. The key drivers of automobile industry's growth are:

- Infrastructure Growth
- Large consumer base and rising income levels
- Changing lifestyles, driving demand for new segments.
- Favorable Government Regulations and Support
- Other major support such as Automatic approval for foreign equity investment up to 100 % of manufacture of automobiles and component is permitted.
- 100% FDI in defense transport equipment such as trucks, jeeps and other means of transportation.
- Easy availability of finance and lower fuel cost.

In addition, with the government's backing and a special focus on exports of small cars, multi-utility vehicles (MUVs), two and three-wheelers and auto components, the automotive sector's contribution to the GDP is expected to double in next few years from the present level.

Indian auto component makers are well positioned to benefit from globalisation of the sector as exports potential could be increased by many folds as suggested by Automotive Mission Plan (AMP 2026). Indian suppliers are well positioned to benefit from these global trends and can significantly accelerate their international presence in the next few years. Exports will surely benefit from growth in European passenger and commercial vehicle sales, increasing penetration in south-east Asia.

As per CRISIL, Automotive component players are expected to see 8-10% revenue growth in coming years. This will be driven by higher off take from OEMs and steady replacement (aftermarket) demand, even as exports are expected to pick up gradually. Sales growth to domestic OEMs will be supported by continued fleet replacement in the medium and heavy commercial vehicle segment and higher off take in the passenger vehicle and scooters segments as urban consumer sentiment improves and new models are launched. Motorcycle and passenger vehicle sales will also benefit from increased rural incomes and payouts.

The above give impression that the long term prospects seems to be bright; demand will grow due to various underlying factors as stated above.

Risk & Concerns in Auto Component Industry

The auto component industry is regarded as a low operational cost and low margin business. In view of the slowdown in automobile business, decline was visible in revenues as well as in profit margins. The Auto component industry has been battling with its industry specific issues/ challenges such as:

- Under capacity Utilization
- Infrastructure Challenge & Cost: Roads, Ports, Power
- Imports: Higher than exports
- Fighting the problem of counterfeit parts
- Availability of skilled manpower
- Building R&D competence and Ecosystem
- Fast technological changes

To help the auto component industry, the government has announced several reforms, forward looking policy measures such as introduction of GST, consolidation of various manufacturing and exports schemes, simplification of procedures to help integrate India into the global value chain, encouragement for manufacture and sale of Hybrid Vehicles, improving ease of doing business index through online and e-governance interventions and reducing the transaction costs augur well for the industry and with reforms gathering

momentum, the growth in the automotive industry is imminent.

Your company has always achieved excellence in all sphere of business cycle, as it has both consolidated and diversified its production capacity through significant internal re-organisation in both its core and strategic areas to prepare for the future. It has also proved its excellence in cutting edge innovation and technology to cater to both its domestic and international clients. In coming years with the added advantage of presence in new geographical areas, it will redefine excellence.

Opportunities, Threat & Mitigation strategy

There has been general trend of over dependence in the same segment. To overcome the problem of over dependence on the automobile industry, the component industry needs to consciously consider diversifying into adjacent markets including defense, aerospace, railways etc. Your company is keeping abreast of major developments in the industry, and is therefore better equipped to overcome the emerging constraints and keen on developing measures to restrict the impact.

At the operational level there are several risks that are inherent to the business of company. These are typically transactional in nature. These risks are managed through internal processes and controls. In addition, the Company has to deal certain major micro risks that affect the Company's strategy implementation, some of them are enumerated below:

Input material: Steel is the primary source and raw material for the products of the Company. It is an important part of the cost of the final product. Rising steel prices continue to be a challenge & pose a threat to the margins of the Company in this competitive auto component sector.

To mitigate the risk, the Company continues to strive to improve its operational performance and develop new components, which are technologically superior and have an edge over the competitors. Additionally, the Company is not dependent upon the single source/supplier. A core team is constituted which is expert in vendor management and keeps a track on the price of steel. Team negotiates the price in the best interest of the Company keeping many criteria in mind.

Power: The other major cost in production is energy cost. Presently the Company is getting power from the State Electricity Board as per the prevailing tariff. The present tariffs are very high and occupy a major portion in the overall costing of the product.

To address the energy cost, the company has implemented a process, whereby it is purchasing electricity through the Electricity Exchange by getting competitive quotes. The process includes quotation and acceptance through Exchange and consuming the electricity in the Plant through pre decided schedule.

Customer profile: Company is primarily a gear & transmission equipment manufacturer and supplier. The Company has a large focus amongst a few groups of customers and industry segment. This limited focus adds to market risks and also highlights the fact that one or some customers moving out could leave a large impact on the operation and financial of the Company. To mitigate this risk Company is focusing on widening its customer base, entering new user segments and spreading operations across geographies to mitigate this market risks.

Two-Wheeler business: A major share of the Company's business is generated from the two wheeler segment and as evident from figures this sector grew by 5% in 2016-17. Competition in the two wheeler segment has also increased significantly. This has had a serious adverse impact on the margins of the component manufacturers. To overcome, the risk of dependency on the two wheeler business, your Company has been developing clients for engine and transmission components in India and abroad.

Technology Risk: One of the major challenges for the industry is to build R&D competence and an ecosystem. OEMs have been working on various technologies simultaneously OEM expect Tier-1 suppliers for the technology updation and material changes. While these developments do pose a host of challenges, they also open a lot of interesting opportunities for the Indian auto-component sector. Thus, the company needs to continuously stay in touch with such progress need to evaluate ways to address these issues and develop technologies which are affordable and accessible. To mitigate Company has always invested in upgrading its technology to meet changing customer demand.

Geographical limitations: Auto component companies have another issue such as its geographical limitations. Practically, its difficult for them to expand beyond certain geographies. Expanding beyond such limits will provide more fruits in terms of revenue and profits. However, tapping into such markets is also not easy due to many factors such as acceptability, quality of the product, regulations, lack of capital, limited manpower and other resources.

To address the above concerns, the company has been regular in knocking the other geographies. It has almost achieved the exports to the tune of around 25% of the total exports. We are committed to increase this. Further, as explained by the Chairman & MD in their messages, the Company has acquired few entities in the NAFTA region which will be a progressive step in the right direction.

Regulatory Change: Regulations are changing to accommodate the awareness about the environmental responsibilities. Stringent emission and safety norms are playing an increasingly important role globally. In the recent past, the government has focused on tighter emission norms be it the implementation of BS-IV

effective 1 April, 2017 for emission requirements or the decision for BS-VI emission norms by 2020 to regulate air pollutants from vehicles. Now, the focus is also coming to battery and hybrid vehicles to promote green vehicles. Of late, safety has also been attracting governmental attention. HGL is committed to comply with all applicable environmental and related regulations. To mitigate this your Company is gearing up for the technological changes in the products, so that it meets the requirements.

Brief of Financial Results

The total turnover stood at Rs. 45,261.60 lakhs compare to Rs. 45,224.92 lakhs during the previous year. The Company managed to touch Rs. 450 Crores mark again in terms of revenue from operations. Your Company was able to match the performance with the previous year. Total turnover from operations (net of excise) stood at Rs. 44,953.86 lakhs as compared to Rs. 44,997.29 lakhs in FY 2015-16, registering a negative growth of 0.09%. This was despite the less-than expected performance in the two-wheeler segment, a segment, from which the considerable share of the Company's business is generated through. The profit before tax stood at Rs. 3,186.01 lakhs as compared to Rs 3,359.94 lakhs in previous year, recording a decrease of 5.17%. Earnings per share (EPS) of the Company stood at Rs. 10.86. Similarly, the Net profit after tax of the Company is Rs. 2,038.01 lakhs as compared to Rs 2,116.42 lakhs in previous year, which is about (-) 3.7% compare to previous year.

On the consolidated side, the turnover were recorded from the date of acquisition till the close of financial year as Rs. 51,612.93 lakhs (gross). Net of duties the consolidated revenues stood at Rs. 47,250.72 lakhs. The profit before tax stood at Rs 3,231.59 lakhs. Consolidated financials do not have material difference with the standalone figures, because of short period of their consolidation. The consolidated financials of the Company with its subsidiaries are attached at relevant part of the Annual Report. It is to be noted here that since, the consolidated financials are prepared for the first time, hence comparable figures of the previous period are not available.

The Company recorded an export turnover of Rs. 10,492.79 lakhs compared to Rs. 10,784.47 lakhs during the previous year, recording a decrease of 2.7%. The total exports are 23.18% of the total turnover.

Recognizing the importance of allocating the gains with the shareholders who have placed their capital and trust in the Company at all times, an amount of Rs. 469.20 lakhs is being paid out by way of dividends for the year 2016-17 (last year it was Rs. 563.04 lakhs). Out of which an interim dividend of 12.5% was declared and already paid in Feb/Mar 2017 and a final dividend of 12.5% is being recommended to the shareholders for their approval.

Operational Excellence, Awards & Recognitions

The Hi-Tech Gears is continuing its journey to be a global footprint company and a benchmark for world class manufacturing systems, as manifested in its vision statement. In this journey, our efforts have been recognized by our esteemed customers, who have continuously appreciated our quality & efforts.

Steps initiated by the Company for implementation and absorption of Lean Manufacturing and Total Productivity Maintenance (TPM) practices are consistently showing encouraging results. The customers are appreciating and recognizing Company from time to time. Customer recognitions are the strongest testimony to a company's excellence. The ECOFAC Plant (Plant -III) is running to its capacity and is unique in its kind. This Plant has been upgraded to Platinum from the Gold category by Indian Green Building Council. This is one of few plants by the component manufacturers in north India, which has become a world-class Indian brand with a green and sustainable strategy of growth. ECOFAC means a sustainable green manufacturing plant. This plant is fully operational. This has all features of safety, energy & water conservation, waste management etc. All modern concepts of Lean, TPM and TEI for best utility are being implemented in this Plant from its initial stage. This has been highly appreciated not only by the concerned authorities but also by customers and will become a model for future sustainable manufacturing growth.

The Company has added another feather in the cap, in the form of getting certificate of appreciation from Cummins for achieving Zero defect supplies in the calendar year 2016.

India Ratings and Research (IndRa) has upgraded The Hi-Tech Gears Ltd. Long Term Issuer Rating to 'IND A+' from 'IND A'. The outlook is stable. The rating upgrade reflects the growth in HGL's revenue as well as improvement in its credit profile. The ratings also take

into account the reduction in HGL's customer concentration, on one or particular segment. The company's liquidity remained comfortable as strong cash flow generation over previous years enabled it to fund capex through internal accruals. IndRa expects the company's profitability to continue to benefit from the increase in commercial vehicle (CV) sales and consequently improve the credit metrics further over next years.

Segment Reporting

The Company is primarily engaged in the business of gears and transmission components, inherent nature of both the activities is governed by the same set of risk and returns, these have been grouped as a single segment in the above disclosures. The said treatment is in accordance with the principle provided as per Accounting Standard on Segment Reporting (AS-17).

Internal Controls & their adequacy

Company has a properly designed and consistently enforced system of internal control to safeguard the company's resources, produce reliable reports, to reduce the possibility of significant errors and irregularities and assists in their timely detection when they do occur and comply with laws and regulations. These internal audits will continue though the Internal Auditors may be rotated periodically to ensure a fresh approach and outlook every few years.

The Company's internal controls are supplemented by an extensive programme of internal audits, review by management and documented policies, guidelines and procedures. Internal Auditors conduct the Audits and report directly to the Audit Committee and the Board. M/s. Grant Thornton India, LLP a renowned and one of the largest assurance, tax, and advisory firms in India has been working as Internal Auditor of the Company.

The internal controls are designed to ensure efficiency & effectiveness of Company's operations, accuracy of recorded transactions, reliability of Financial reporting, effectiveness of Risk management systems, all applicable laws & regulations, internal policies & internal procedures are duly complied with. Further, to have better and sustainable control, a new ERP system is also under implementation.

Your Company has also in place adequate internal financial controls with reference to financial statements. During the year, such controls were tested and no reportable material weakness in the design or operation was observed. The Company is committed to strengthen the system in a more stringent manner. Further, the Company has always efficiently used the various components of working capital cycle. It has also effectively controlled the inventories and receivables.

Human Resources

Managing human resources effectively and efficiently plays a critical role in ensuring that a satisfied, motivated work force delivers quality services. It also plays an

important role in increasing staff performance and productivity, enhancing an organization's competitive advantage, and contributing directly to organizational goals. Satisfied, highly-motivated and loyal employees represent the basis of competitive company. The growth of satisfaction is to be reflected in the increase of productivity, improvement of the products' quality or rendered services and higher number of innovations.

"Whether it is called "people," "labor," "intellectual capital," "human capital," "human resources," "talent," or some other term, the resource that lies within employees and how they are organized is increasingly recognized as critical to strategic success and competitive advantage.

Recognizing the importance of human resources Company has an open-door policy in which the employees have an open, standing invitation to approach the HOD with questions, concerns, complaints and comments at any time. Company acknowledges the Development and training of its employees to help them to perform better in all respects. Company conducts many leadership programmes such as Employee Leadership Team (ELT), Special Leadership Team (SLT), etc. on regular basis to explore new ideas from

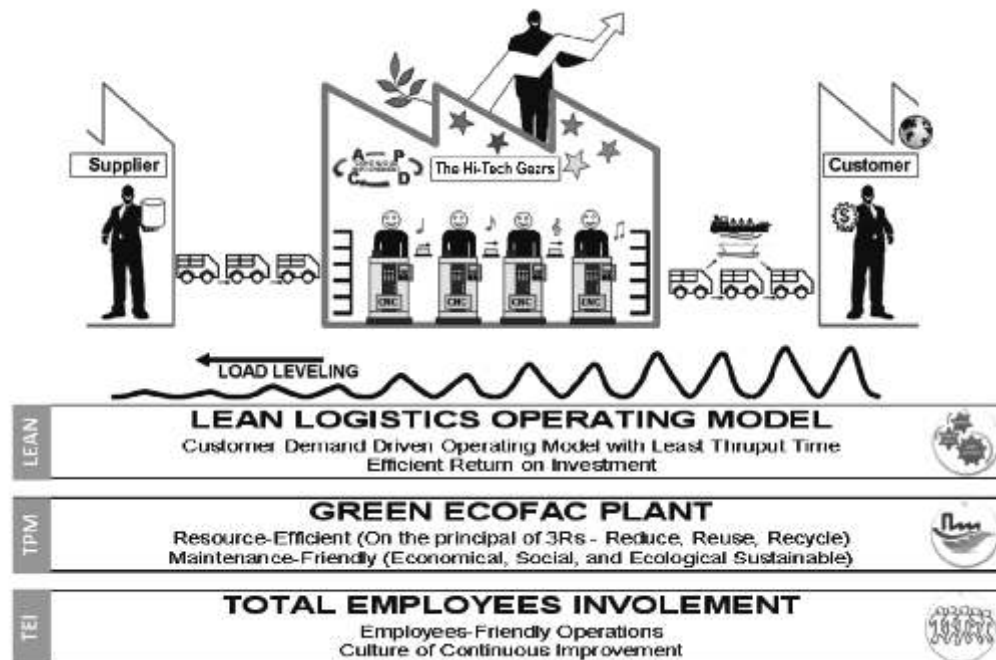

employees & to use them for smooth functioning of the Company & to flow maximum satisfaction among employees.

The Company continued to maintain its track record of peaceful industrial relations ever since its inception. It sustains and fosters its unique paternal culture across all operating locations. Several health and safety initiatives are introduced as part of a structured program to enhance the safety and health of its workmen and other associates. Performance measurement and skill up gradation programs are widely deployed within the Company.

Operational Excellence Philosophy

CORPORATE GOVERNANCE REPORT

Forming part of 31st Directors' Report

I. Company's Philosophy on Corporate Governance

The Hi-Tech Gears Limited, being in the forefront of the Indian auto component industry, has implemented and continuously improved upon various Corporate Governance practices over the years. Independent Auditors' Report

**To the Members of
The Hi-Tech Gears Limited
(Formerly known as Hi-Tech Gears Limited)**

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of The Hi-Tech Gears Limited, formerly known as Hi-Tech Gears Limited ('the Company'), which comprise the balance sheet as at 31 March 2017, the statement of profit and loss and the cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or

error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2017 and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The balance sheet, the statement of profit and loss and the cash flow statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors as on 31 March 2017 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our

opinion and to the best of our information and according to the explanations given to us:

- I. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statement-Refer Note 35 B(2) to the standalone financial statements;
- II. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

Annexure - A to the Independent Auditors' Report

The Annexure referred to in Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended 31 March 2017, we report that:

- (i) (a) The Company has maintained proper records to show full particulars including quantitative details and situations of fixed assets.
- (b) The Company has a regular programme of verification of fixed assets. All the fixed assets except furniture and fixtures and office equipments have been physically verified by the management during the year, which in our opinion is reasonable having regard to size of the Company and nature of fixed assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- (ii) According to the information and explanations given to us, the inventories have been physically verified during the year by the management at reasonable intervals. No material discrepancies were noticed on physical verification of inventories by the management.
- (iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Thus, reporting under clause (iii) of the Order is not applicable to the Company.
- (iv) In our opinion and according to the information and explanations given to us, the Company has not made any loans, guarantees and security under the provisions of section 185 of the Companies Act, 2013. According to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act, with respect to the investments made.

(v) According to the information and explanations given to us, the Company has not accepted any deposits from the public. Therefore, reporting under clause (v) of the Order is not applicable to the Company.

(vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under section 148 of the Act, and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues were in arrears as at 31 March 2017 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of sales tax or duty of customs or duty of excise or value added tax which have not been deposited with the appropriate authorities on account of any dispute. However, according to information and explanations given to us, the following dues of income tax and service tax have not been deposited by the Company on account of disputes:

S. No.	Name of statute	Nature of Dues	Period to which the amount relates	Amount (Rs.)	Forum Where Dispute is Pending

**Annexure - B to the Independent Auditors' Report
Report on the Internal Financial Controls under Clause
(i) of Sub-section 3 of Section 143 of the Companies Act,
2013 ("the Act")**

We have audited the internal financial controls over financial reporting of The Hi-Tech Gears Limited ('the Company'), formerly known as Hi-Tech Gears Limited as of 31 March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the

financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

DATE : 29.05.2017**

NOTE 'I' – NOTES FORMING PART OF FINANCIAL STATEMENTS

Summary of significant accounting policies followed by the Company

1.1 Basis of Preparation of Financial Statements

The Financial Statements are prepared under the historical cost convention on accrual basis and in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013.

Accounting Policies not specifically referred to otherwise are consistent and in accordance with generally accepted accounting principles.

1.2 Use of Estimates

In preparing Company's financial statements in conformity with accounting principles generally accepted in India, the Management is required to make estimates & assumptions that affect the reported amount of Assets & Liabilities and the disclosure of Contingent Liabilities at the date of the Financial Statements and the reported amount of revenues & expenses during the reporting period. Actual results could differ from those estimates. Any revision to accounting estimates is recognized in the period the same is determined.

1.3 Inventories

The basis of valuation for various categories of inventories is as follows:-

Stores, Spares and Loose Tools and Raw Materials	: At cost or Net realisable value, whichever is lower (FIFO)
Work in progress	: At material cost plus conversion cost on the basis of absorption costing or Net realisable value, whichever is lower
Finished Goods	: At material cost plus conversion cost on the basis of absorption costing or net realisable value, whichever is lower (Inclusive of excise duty payable)
Scrap	: At realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated cost necessary to make the sale.

1.4 Provisions, Contingent Liabilities and Contingent Assets

The Company makes a provision when there is a present obligation as a result of a past event where the outflow of economic resources is probable & a reliable estimate of the amount of obligation can be made.

The disclosure is made for possible or present obligation that may require outflow of resources as contingent liability in the financial statements. Depending on the facts of each case and after due evaluation of relevant legal aspects, claims against the Company not acknowledged as debts are disclosed as contingent liabilities. In respect of the statutory matters, contingent liabilities are disclosed only for those demand(s) that are contested by the Company.

Contingent assets are neither recognized nor disclosed in the financial statements.

1.5 Revenue Recognition

The revenue from Sale of Goods is recognized on transfer of all significant risk & rewards of ownership to the buyer. Sale value is inclusive of excise duty. Price revisions of goods sold are accounted for at the time of billing except in the case where reasonable certainty has been measured up to the date of Balance Sheet.

Export Sale is accounted for at exchange rate notified by Central Govt. under Custom Law. Bills outstanding on the Balance Sheet date are reinstated with the exchange rate on that date and the difference on this account is booked in the Profit & Loss Account.

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable. Dividend income is recognized, when right to receive is established.

Export incentives are accounted for, on export of goods, if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim is fulfilled.

Revenue from services is recognized in accordance with specific terms of contract on performance.

1.6 Fixed Assets and Depreciation

All Tangible & Intangible Assets are stated at cost (net of taxes/duties which are eligible for credit) less accumulated depreciation and impairment of Loss, if any. Depreciation on Buildings and Plant and Equipment is charged on pro-rata basis on Straight Line Method based on the life assigned to each asset in accordance with Schedule II of Companies Act, 2013. Intangible assets are amortized over their respective individual estimated useful life on written down value basis commencing from the date, the asset is available to the company for its use. Depreciation on rest of the fixed assets has been provided on Written Down Value basis based on the life assigned to each asset in accordance with Schedule II of Companies Act, 2013.

1.7 Employee Benefits

- (i) Short term employee benefits
Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short term employee benefits to be paid in exchange for employee services are recognised as an expense as the related service is rendered by employees.
- (ii) Defined Contribution Plan
Payments to defined contribution retirement benefit schemes (such as Provident Fund, Employee's State Insurance Corporation) are charged to the statement of profit and loss of the year in which contribution to such schemes becomes due.
- (iii) Defined Benefit Plan
For defined benefit schemes, the cost of providing benefits is determined using Projected Unit Credit Method, with actuarial valuation being carried out at each balance sheet date. Actuarial gain & losses are recognized in full in the statement of profit and loss for the period in which they occur.
The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligations as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets.
The Company makes annual contribution to the Employee's Group Gratuity-cum-Life Assurance scheme of the Life Insurance Corporation of India, a funded defined benefit plan for qualifying employees. The scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service or part thereof in excess of 6 months. Vesting occurs upon completion of 5 years of continued service.
The Company provides the liability for the leave encashment benefit of the employees at each balance sheet date on the basis of actuarial valuation, the amount of provision & paid during the year is charged to the statement of profit and loss.

1.8 Foreign Currency Transactions

- (i) Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction.
- (ii) Foreign currency monetary assets and liabilities such as cash, receivables, payables,

etc. are translated at year end exchange rates.

- (iii) Exchange differences arising on settlement of transactions are recognized as income or expense in the year in which they arise, but pursuant to the notification of the Companies (Accounting Standards) Amended Rules 2009 issued on 31st March 2009, exchange differences relating to long term monetary items, arising during the year, in so far as they relate to the acquisition of a depreciable capital asset are added to / deducted from the cost of the asset w.e.f. 1st April 2007 and depreciated over the balance life of the asset.
- (iv) Derivative Instruments and Hedge accounting:
The Company uses foreign exchange forward contracts and options to hedge its exposure to movements in foreign exchange rates. These foreign exchange forward contracts and options are not used for trading or speculation purposes.
For unexpired forward contracts or options that are designated as effective cash flow hedges the gain or loss from the effective portion of the hedge is recorded and reported directly in the shareholders' fund (under the head "Hedging Reserve) and will be transferred to Profit and Loss account upon the occurrence of the events when the contracts get transacted.
The Company recognizes gains or losses from forward contracts and options that are not designated as effective cash flow hedges for accounting purposes in the profit and loss account in the period in which they occur.

1.9 Investments

Long term investments are carried at cost. However, provision for diminution, if any, is made to recognize a decline, other than temporary, in the value of investments.

Cost of an investment includes acquisition charges such as brokerage, fees and duties.

1.10 Borrowing Cost

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged as expense to the statement of profit and loss in the period for which they relate to.

1.11 Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.12 Provision for Current & Deferred Taxes

Tax expenses comprise current and deferred taxes. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws. Deferred income taxes reflects the impact of current period timing difference between taxable and accounting income for the period and reversal of timing differences of earlier years. Deferred taxes is measured based on the tax rates and the tax laws enacted or substantively enacted as at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty and sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are recognized on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realized against future taxable profit. Excess/short provisions and interest thereon are recognized only on completion of assessment or where adjustments made by the Assessing Officer are disputed, on receiving the 'Order Giving Effect' to the tax determined by the CIT (Appeals) and thereafter on final settlement of further disputes.

1.13 Research and Development Costs

Revenue expenditure incurred on research and development has been charged to the statement of profit and loss for the year in which it is incurred. Capital expenditure is included in respective heads under fixed assets.

1.14 Impairment of Assets

At each Balance Sheet date, the Company reviews whether there is any indication that an asset may be impaired. If any such indication exists, the Company

estimates the recoverable amount. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized in the Profit & Loss Account to the extent the carrying amount exceeds the recoverable amount.

1.15 Leases

Leases where the lessor effectively retains substantially all the risk and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight line basis over the lease term.

1.16 Cash and Cash Equivalents

Cash and Cash Equivalents for the purpose of cash flow statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less.

1.17 Cash Flow Statement

Cash flow statements are reported using the indirect method, whereby profit/ (loss) before extra-ordinary items/exceptional items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receptor payments. The cash flows from operating, investing and financing activities of the Group are segregated based on available information including taxes paid relating to these activities.

1.18 Dividends

With effect from April 1, 2016 final dividend, including tax thereon, on shares are recorded as a liability on the date of approval by the shareholders and interim dividend, including tax thereon, are recorded as a liability on the date of declaration by the Company's Board of Directors.

1.19 Prior period and extra ordinary items and changes in accounting policies having material impact on the financial affairs of the Company are disclosed appropriately.

1.20 Material events occurring after the Balance Sheet date are taken into cognizance and disclosed appropriately.

NOTE '30' – SEGMENT INFORMATION (ACCOUNTING STANDARD-17)

The Company is primarily engaged in the business of Gears and transmission components. Inherent nature of both the activities is governed by the same set of risk and returns; these have been grouped as a single segment in the above disclosures. Hi-Tech (E-Soft) is a division of the Company engaged in the business of engineering software solutions. But, its total revenue does not exceed 10% of total revenue. Hence, Hi-Tech (E-Soft) cannot be a primary segment for disclosure under AS-17 and therefore, Geographical segment can be considered as the primary segment. Geographical revenues are allocated based on the location of the customers. Geographic segments of the Company are America, India and Others.

Since all the manufacturing activity is done at India, therefore segregation of expenses/result/assets/liabilities to each of the geographic location is not practicable. The geographic segments individually contributing 10 percent or more of the Company's revenues are given below:

(Amount in Rs.)

Independent Auditors' Report

**To the Members of
The Hi-Tech Gears Limited
(Formerly known as Hi-Tech Gears Limited)**

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of The Hi-Tech Gears Limited, formerly known as Hi-Tech Gears Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") which comprise the Consolidated Balance Sheet as at 31 March, 2017, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain

reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March, 2017 and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other Matters

We did not audit the financial statements/financial information of subsidiaries, whose financial statements/financial information reflect total assets of Rs. 2,376,786,403 as at 31 March, 2017, total revenue of Rs. 235,684,744 and net cash flows amounting to Rs. (297,762,245) for the year ended on that date, as considered in the consolidated financial statements. These financial statements/financial information are unaudited and have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on such unaudited financial statements/financial information.

Our opinion on the consolidated financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to the unaudited Financial Statements / Financial Information, certified by the Management of respective companies.

Report on Other Legal and Regulatory Requirements

1. The Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, is not

applicable in case of Consolidated Financial Statements.

2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors of the holding company as on 31 March, 2017 taken on record by the Board of Directors of the holding company, none of the directors of the holding company is disqualified as on 31 March, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the holding company and the operating effectiveness of such controls, refer to our separate report in Annexure-A. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of the holding company.

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- (i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note 34 B (2) to the consolidated financial statements.
- (ii) The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
- (iii) There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the holding company.
- (iv) The holding company has provided requisite disclosures in its consolidated financial statements as to holdings as well as dealings in Specified Bank Notes, as defined in the Notification S.O. 3407(E), dated the November 08, 2016 of the Ministry of Finance, during the period from 8 November, 2016 to 30 December, 2016 and these are in accordance with the books of accounts maintained by the holding company - Refer Note 37.1 to the consolidated financial statements.

**Annexure - A to the Independent Auditors' Report
Report on the Internal Financial Controls Over Financial
Reporting under Clause (i) of Sub-section 3 of Section
143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting of The Hi-Tech Gears Limited, formerly known as Hi-Tech Gears Limited ("the Holding Company"), which is a company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Holding Company, which is a company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, which is a company incorporated in India, has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to holding company, which is a company incorporated in India. We did not audit the internal financial controls over financial reporting in so far as it relates to the subsidiaries companies, which are companies incorporated outside India, whose financial statements/ financial information reflect total assets of Rs. 2,376,786,403 as at 31 March, 2017, total revenue of Rs. 235,684,744 and net cash flows amounting to Rs. (297,762,245) for the year ended on that date, as considered in the consolidated financial statements.

NOTE 'I' – NOTES FORMING PART OF CONSOLIDATED FINANCIAL STATEMENTS

Summary of Significant Accounting Policies

1.1 Corporate Information

The Hi-Tech Gears Limited (HGL or 'the Company') was incorporated in India on Oct 23rd, 1986 and is engaged primarily in the manufacture and sale of components to automotive original equipment manufacturers and Tier 1 suppliers. The Company is a public limited company and is listed in the Bombay Stock Exchange and National Stock Exchange. The Group comprises of THGL and its seven wholly-owned overseas subsidiaries (including step-down subsidiaries). The Group has manufacturing plants in India, Canada and USA.

1.2 Basis of Preparation of Consolidated Financial Statements

The Consolidated Financial Statements have been prepared under the historical cost convention on accrual basis and in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013.

1.3 Principles of Consolidation

In respect of subsidiary company, the financial statement have been consolidated on line by line basis by adding together the book value of like items of assets, liabilities, income and expenses and after fully eliminating intra group balances and unrealized profits/losses on intra-group transactions as per AS 21 "Consolidated Financial Statements". The excess/deficit of cost to the Parent Company of its investment over its portion of net worth in the consolidated entities at the respective dates on which the investment in such entities was made is recognised in the financial statements as goodwill/capital reserve.

The financial statements of foreign subsidiaries are prepared by them on the basis of generally accepted accounting principles, local laws and regulations as prevalent in their respective countries and such financial statements are considered for consolidation.

For the purpose of preparation of the Consolidated financial statements the foreign currency assets, liabilities, income and expenditure are translated as per Accounting Standard (AS-11) on "Accounting for the Effects of Changes in Foreign Exchange Rates", notified under the Act. Exchange differences arising are recognised in the statement of profit and loss or in the 'Foreign Currency Translation Reserve classified under the head Reserves and Surplus as applicable, as per the above mentioned Accounting Standard.

List of Subsidiaries considered for consolidation is as follows:

S. No.	Name of Entity	Nature of Relationship	Country of Incorporation	% of Holding
1.	2545887 Ontario Inc.	Subsidiary Company	Canada	100%
2	Teutech Industries Inc.	Step Down Subsidiary	Canada	100%
3	2504584 Ontario Inc.	Step Down Subsidiary	Canada	100%
4	2323532 Ontario Inc.	Step Down Subsidiary	Canada	100%
5	Teutech Holdings Co.	Step Down Subsidiary	USA	100%
6	Teutech Leasing Co.	Step Down Subsidiary	USA	100%
7	Teutech LLC	Step Down Subsidiary	USA	100%

1.4 Use of Estimates

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in India, the Management is required to make estimates & assumptions that affect the reported amount of Assets & Liabilities and the disclosure of Contingent Liabilities at the date of the Consolidated Financial Statements and the reported amount of revenues & expenses during the reporting period. Actual results could differ from those estimates. Any revision to accounting estimates is recognized in the period the same is determined.

1.5 Inventories

The basis of valuation for various categories of inventories is as follows:-

Stores, Spares and Loose Tools and Raw Materials: At cost or Net realizable value, whichever is lower (FIFO)

Work in progress: At material cost plus conversion cost on the basis of absorption costing or net realizable value, whichever is lower.

Finished Goods: At material cost plus conversion cost on the basis of absorption costing or net realizable value, whichever is lower (Inclusive of excise duty payable)

Scrap: At realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated cost necessary to make the sale.

1.6 Provisions, Contingent Liabilities and Contingent Assets

The Group makes a provision when there is a present obligation as a result of a past event where the outflow of economic resources is probable & a reliable estimate of the amount of obligation can be made.

The disclosure is made for possible or present obligation that may require outflow of resources as contingent liability in the financial statements. Depending on the facts of each case and after due evaluation of relevant legal aspects, claims against the Group not acknowledged as debts are disclosed as contingent liabilities. In respect of the statutory matters, contingent liabilities are disclosed only for those demand(s) that are contested by the Group.

Contingent assets are neither recognized nor disclosed in the consolidated financial statements.

1.7 Revenue Recognition

The revenue from Sale of Goods is recognized on transfer of all significant risk & rewards of ownership to the buyer. Sale value is inclusive of excise duty. Price revisions of goods sold are accounted for at the time of billing except in the case where reasonable certainty has been measured up to the date of Balance Sheet.

Export Sale is accounted for at exchange rate notified by Central Govt. under Custom Law. Bills outstanding on the Balance Sheet date are reinstated with the exchange rate on that date and the difference on this account is booked in the Profit & Loss Account.

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable. Dividend income is recognized, when right to receive the dividend is established.

Export incentives are accounted for on export of goods if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim is fulfilled.

Revenue from services is recognized in accordance with specific terms of contract on performance.

1.8 Fixed Assets and Depreciation

All Tangible & Intangible Assets are stated at cost (net of taxes/duties which are eligible for credit) less accumulated depreciation and impairment of Loss, if any. Depreciation on Buildings and Plant and Equipment is charged on pro-rata basis on Straight Line Method based on the life assigned to each asset in accordance with Schedule II of Companies Act, 2013. Intangible assets are amortized over their respective individual estimated useful life on written down value basis commencing from the date, the asset is available for its use. Depreciation on rest of the fixed assets has been provided on Written Down Value basis based on the life assigned to each asset in accordance with Schedule II of Companies Act, 2013.

In case of foreign subsidiaries, since they operate in different set of environment in their respective countries, depreciation is charged based on local laws.

1.9 Employee Benefits

(i) Short term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short term employee benefits to be paid in exchange for employee services are recognized as an expense as the related service is rendered by employees.

(ii) Defined Contribution Plan

Payments to defined contribution retirement benefit schemes (such as Provident Fund, Employee's State Insurance Corporation) are charged to the statement of profit and loss of the year in which contribution to such schemes becomes due.

(iii) Defined Benefit Plan

For defined benefit schemes, the cost of providing benefits is determined using Projected Unit Credit Method, with actuarial valuation being carried out at each balance sheet date. Actuarial gain & losses are recognized in full in the statement of profit and loss for the period in which they occur.

The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligations as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets.

The Company makes annual contribution to the Employee's Group Gratuity-cum-Life Assurance scheme of the Life Insurance Corporation of India, a funded defined benefit plan for qualifying employees. The scheme provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service or part thereof in excess of 6 months. Vesting occurs upon completion of 5 years of continued service.

The Company provides the liability for the leave encashment benefit of the employees at each balance sheet date on the basis of actuarial valuation, the amount of provision & paid during the year is charged to the statement of profit and loss.

1.10 Foreign Currency Transactions

(i) Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction.

(ii) Foreign currency monetary assets and liabilities such as cash, receivables, payables, etc. are translated at year end exchange rates.

- (iii) Exchange differences arising on settlement of transactions are recognized as income or expense in the year in which they arise, but pursuant to the notification of the Companies (Accounting Standards) Amended Rules 2009 issued on 31st March 2009, exchange differences relating to long term monetary items, arising during the year, in so far as they relate to the acquisition of a depreciable capital asset are added to / deducted from the cost of the asset w.e.f. 1st April 2007 and depreciated over the balance life of the asset.

- (iv) Derivative Instruments and Hedge accounting:
The Group uses foreign exchange forward contracts and options to hedge its exposure to movements in foreign exchange rates. These foreign exchange forward contracts and options are not used for trading or speculation purposes.
For unexpired forward contracts or options that are designated as effective cash flow hedges the gain or loss from the effective portion of the hedge is recorded and reported directly in the shareholders' fund (under the head "Hedging Reserve") and will be transferred to Profit and Loss account upon the occurrence of the events when the contracts get transacted.
The Group recognizes gains or losses from forward contracts and options that are not designated as effective cash flow hedges for accounting purposes in the profit and loss account in the period in which they occur.

1.11 Investments

Long term investments are carried at cost. However provision for diminution, if any, is made to recognize a decline, other than temporary, in the value of investments.

Cost of an investment includes acquisition charges such as brokerage, fees and duties.

1.12 Borrowing Cost

Borrowing cost includes interest, amortization of ancillary cost incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowing to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged as expense to the statement of profit and loss in the period for which they relate to.

1.13 Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for

the effects of all dilutive potential equity shares.

1.14 Provision for Current & Deferred Taxes

Tax expenses comprise current and deferred taxes. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the applicable tax laws. Deferred income taxes reflect the impact of current period timing difference between taxable and accounting income for the period and reversal of timing differences of earlier years. Deferred taxes is measured based on the tax rates and the tax laws enacted or substantively enacted as at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty and sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are recognized on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realized against future taxable profit. The deferred tax assets (Net) and deferred tax liabilities (Net) are determined separately for the parent and each subsidiary, as per their applicable laws and then aggregated.

1.15 Research and Development Costs

Revenue expenditure incurred on research and development has been charged to the statement of profit and loss for the year in which it is incurred. Capital expenditure is included in respective heads under fixed assets.

1.16 Impairment of Assets

At each Balance Sheet date, the Group reviews whether there is any indication that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized in the Profit & Loss Account to the extent the carrying amount exceeds the recoverable amount.

1.17 Leases

Leases where the lessor effectively retains substantially all the risk and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

1.18 Cash and Cash Equivalents

Cash and Cash Equivalents for the purpose of cash flow statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less.

1.19 Cash Flow Statement

Cash flow statements are reported using the indirect method, whereby profit/ (loss) before extra-ordinary items/exceptional items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receptor payments. The cash flows from operating, investing and financing activities of the Group are segregated based on available information including taxes paid relating to these activities.

1.20 Material events occurring after the Balance Sheet date are taken into cognizance and disclosed appropriately.

NOTE '29' – SEGMENT INFORMATION (ACCOUNTING STANDARD-17)

The Group is primarily engaged in the business of Gears and transmission components. Inherent nature of both the activities is governed by the same set of risk and returns; these have been grouped as a single segment in the above disclosures. Hi-Tech (E-Soft) is a division of the Company engaged in the business of engineering software solutions. But, its total revenue does not exceed 10% of total revenue. Hence, Hi-Tech (E-Soft) cannot be a primary segment for disclosure under AS-17 and therefore, Geographical segment can be considered as the primary segment. Geographical revenues are allocated based on the location of the customers. Geographic segments of the Group are America, India and Others.

Since all the manufacturing activity is done at India, therefore segregation of expenses/result/assets/liabilities to each of the geographic location is not practicable. The geographic segments individually contributing 10 percent or more of the Company's revenues are given below:

Geographic Segment	Revenues
	Current Year
America	429,897,669
India	3,517,373,673

In accordance with the provisions of Section 148 of the Act read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors, has to be ratified by the members of the Company. Accordingly, consent of the members is sought for passing an Ordinary Resolution as set out at item no.6 of the Notice for ratification of the remuneration payable to the Cost Auditors for the financial year ending March 31, 2018.

None of the Directors, Key Managerial Personnel of the Company and their relatives are concerned or interested, financial or otherwise, in the agenda as set out at Item No. 6 of the Notice.

Your Directors recommend the resolution set forth in item no.6 for approval of the members as Ordinary Resolution.

Item No.7

As per the provisions of Section 20 of the Companies Act, 2013, a document may be served on any member by sending it to him by post or by registered post or by speed post or by courier or by delivery at his office or residence address or by such electronic or other mode as may be prescribed.

Further, proviso to sub-section (2) of Section 20 states that a member may request for delivery of any document through a particular mode, for which he shall pay such fees as may be determined by the company in its Annual General Meeting.

Accordingly, the Board of Directors recommend that it

may charge from its members an amount up to Rs 100/- (Rupees One Hundred only) per each document, over and above the estimated actual expenses of delivery of the documents through a particular mode.

None of the Directors or Key Managerial Personnel including their relatives is concerned or interested, financial or otherwise, in this resolution.

The Board commends the Ordinary Resolution as set out at Item No. 7 of the accompanying Notice for approval of the Members.
