MANAGEMENT DISCUSSION AND ANALYSIS

1. INDUSTRY STRUCTURE:

India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 13 percent of total exports. The textiles industry is also labour intensive and is one of the largest employers. The textile industry employs about 45 million people directly and 20 million people indirectly.

The textile industry has two broad segments. First, the unorganised sector consists of handloom, handicrafts and sericulture, which are operated on a small scale and through traditional tools and methods. The second is the organised sector consisting of spinning, apparel and garments segment which apply modern machinery and techniques such as economies of scale.

Opportunities

The global textile industry will continue to grow along with growing consumption of textile products in developing countries and a gradual economic recovery of major developed economies.

India's textile sector is aided by several key advantages, in terms of availability of adequate raw material, entrepreneurial skills, large domestic market, presence of supporting industries and supporting policy initiatives from the government.

Challenges

The major challenge that the textile industry is facing is rising production costs, arising out of rising wages, power and interest costs.

Currently the Indian Denim Industry is going through sluggish phase due to exponential capacity expansion which has created a time bound oversupply situation.

Over supply in the unorganized market like that of denim, suppliers have little bargaining power.

2. INDUSTRIAL RELATIONS AND HUMAN RESOURCE MANAGEMENT:

The Company continued to have cordial and harmonious relations with its employees. It considers manpower as its assets and that people had been the driving force for growth of the Company.

3. INFORMATION TECHNOLOGY:

IT department has continued providing stable, faster & easier platform for the users to do their work with more productivity. Strengthening antivirus & security systems have made users' experience safe & secured. They can concentrate on their own work rather than concerned about security & availability of their data.

4. CAUTIONARY STATEMENT

Certain statements in the "Management Discussion and Analysis" section may be forward looking and are stated as required by applicable laws and regulations. Many factors may affect the actual results, which could be different from what the Directors' envisage in terms of future performance and outlook.

**ANNEXURE 'B' TO THE INDEPENDENT AUDITORS' REPORT
OF EVEN DATE ON THE FINANCIAL STATEMENTS OF SOMA TEXTILES & INDUSTRIES LIMITED**

The Annexure referred to in paragraph 1(f) under the heading "Report on Other Legal and Regulatory Requirements", in respect to the Internal Financial Control under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act"), for the year ended 31st March, 2018, we report that :

We have audited the internal financial controls over financial reporting of SOMA TEXTILES & INDUSTRIES LIMITED ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements of external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of dispositions of the assets of the company; (2) provide reasonable assurance that transactions recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Control over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatement due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

The Financial Statements have been prepared on the historical cost basis except for certain financial instruments measured at fair value at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and

- c) Gains or Losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss in the year of such retirement or disposal.

2.05 Property, Plant and Equipment:

Property, plant and equipment is stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognised as asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred. Gains or Losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

Capital work-in-progress / intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013. Depreciation is provided on pro-rata basis on the straight line method over the useful life of assets. The useful life, residual value and the depreciation method are reviewed at least at each financial year end and adjusted prospectively.

Spares in the nature of capital spares/ insurance spares are added to the cost of the assets. The total cost of such spares is depreciated over a period not exceeding the useful life of the asset to which they relate.

Capital Subsidy under TUFS from Ministry of Textiles on specified processing machinery has been deducted from the respective Fixed Assets and is represented at their Net off values.

Transition to Ind AS: On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1st April, 2016 measured as per IGAAP as the deemed cost of the property, plant and equipment.

2.06 Intangible Assets:

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Transition to Ind AS: On transition to Ind AS, the Company has elected to continue with the carrying value of intangible assets recognised as at 1st April, 2016 measured as per IGAAP as the deemed cost of intangible assets.

2.07 Impairment of assets:

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

ANNUAL REPORT 2017-18

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset or a cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) earlier.

2.08 Investments :

Investments are classified as Long Term Investments and Current Investments. Long term investments are stated at Cost. Provision is made for diminution in the value of Long term Investments to recognise a decline, if any other than temporary in nature.

2.09 Financial instruments:

1. Initial recognition and measurement

Financial assets and/or financial liabilities are recognised when the Company becomes party to a contract embodying the related financial instruments. All financial assets, financial liabilities are initially measured at fair value. Transaction costs that are attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from as the case may be, the fair value of such assets or liabilities, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2. Financial assets:

Classification and subsequent measurement of financial assets:

a) Classification of financial assets:

- (i) The Company classifies its financial assets in the following measurement categories:- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and - those measured at amortised cost.
- (ii) The classification is done depending upon the Company's business model for managing the financial assets and the contractual terms of the cash flows.

b) Subsequent Measurement

Equity instruments:

The Company subsequently measures all equity investments at fair value. There are two measurement categories into which the Company classifies its equity instruments:

Investments in equity instruments at FVTPL:

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for equity instruments which are not held for trading.

Investments in equity instruments at FVTOCI:

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserve for 'equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to Statement of Profit and Loss on disposal of the investments.

c) Impairment of financial assets:

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, lease receivables, trade receivables, other contractual rights

to receive cash or other financial asset. For trade receivables, the Company measures the loss allowance at an amount equal to lifetime expected credit losses. Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

d) Derecognition of financial assets:

A financial asset is primarily derecognised when:

1. the right to receive cash flows from the asset has expired, or
2. the Company has transferred its rights to receive cash flows from the asset; and
 - (a) the Company has transferred substantially all the risks and rewards of the asset, or
 - (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety (other than investments in equity instruments at FVOCI), the differences between the carrying amounts measured at the date of derecognition and the consideration received is recognised in the Statement of Profit and Loss.

3. Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instrument is recognised and deducted directly in equity. No gain or loss is recognised in the Statement of Profit and Loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial Liabilities

Classification and subsequent measurement

The Company's financial liabilities include trade and other payables, loans and borrowings and derivative financial instruments. Subsequent measurement of financial liabilities depends on their classification as fair value through Profit and loss or at amortized cost. All changes in fair value of financial liabilities classified as FVTPL are recognized in the Statement of Profit and Loss. Amortised cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortised cost using the Effective Interest Rate method.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Gains and losses are recognized in profit and loss when the liabilities are derecognized.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and presented on net basis in the Balance Sheet when there is a currently enforceable legal right to offset the recognised amounts and there is an intention either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

Derivative financial instruments

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Statement of profit and Loss immediately.

ANNUAL REPORT 2017-18

2.10 Inventories:

Inventories are stated at the lower of cost and net realisable value.

Cost of inventories comprise all costs of purchase (net of input credits), costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Cost of raw materials and components, packing materials, stores, spare parts other than specific spares for machinery and finished goods are determined on the basis of 'First-in-First-out' (FIFO) or 'Weighted Average Cost', as applicable.

Cost of Materials in transit are determined at cost-to-date.

2.11 Foreign currencies:

Items included in the financial statements of the Company are recorded using the currency of the primary economic environment (INR) in which the Company operates (the 'functional currency').

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction. Foreign exchange gains and losses from settlement of these transactions, and from translation of monetary assets and liabilities at the reporting date exchange rates are recognised in the Statement of Profit and Loss.

2.12 Employee Benefits:

Retirement benefit costs and termination benefits:

Defined Contribution Plans

Payment to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

Contributions to Provident and Family Pension Fund and Superannuation scheme, which are defined contribution plans, are made as required by the statute and expensed in the Statement of profit and loss.

Defined Benefit Plans

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement comprising actuarial gains and losses and the effect of the changes to the return of plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in the other comprehensive income is reflected immediately in retained earnings and is not reclassified to Statement of Profit and Loss. Past service cost is recognised in Statement of Profit and Loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in the Statement of Profit and Loss in the line item "Employee benefits expense". Curtailment gains and losses are accounted for as past service cost.

Short-term and other long-term employee benefits:

Short term employee benefits are recognized as an expense at undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

2.13 Borrowing Costs:

- (a) Borrowing costs that are attributable to the acquisition, construction, or production of a qualifying asset are capitalised as a part of the cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time (generally over twelve months) to get ready for its intended use or sale.
- (b) All other borrowing costs are recognised as expense in the period in which they are incurred.

**2.14 Taxation:**

Tax expense comprises current and deferred tax. Current tax is measured at the amount estimated/calculated to be paid to the tax authorities in accordance with the Income-tax Act, 1961. Deferred tax reflects the tax effect of the timing differences between accounting income and taxable income originating and reversing during the year. Deferred tax is measured based on the tax rate and tax laws enacted or substantially enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

2.15 Provisions, Contingent Liabilities and Contingent Assets:**Provisions :**

Provisions are recognised when there is a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured using the cash flows estimated to settle the present obligation at the Balance sheet date.

Contingent Liabilities : Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent Assets :

Contingent assets are disclosed, where an inflow of economic benefits is probable.

2.16 Cash and cash equivalents:

Cash and Cash equivalents include cash, cheques on hand, cash at bank and short term deposits with banks having original maturity of three months or less, which are subject to insignificant risk of changes in value.

2.17 Statement of Cash Flows:

Cash flows are reported using the indirect method whereby profit / (loss) is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.18 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

2.19 Critical accounting judgements and key sources of estimation uncertainty:

The preparation of financial statements in conformity with Ind AS requires that the management of the Company makes judgements, estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The judgements, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to significant accounting estimates include useful lives and impairment of property, plant and equipment, allowance for doubtful debts/advances, deferred tax assets, future obligations in respect of retirement benefit plans, expected cost of completion of contracts, allowances for inventories, etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

(i) Useful lives and Impairment of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This re-assessment may result in change in depreciation expense in future periods.

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the

ANNUAL REPORT 2017-18

Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset.

(ii) Allowance for doubtful debts/advances

When determining the lifetime expected credit losses for trade receivables, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and credit assessment and including forward-looking information.

(iii) Deferred tax assets

Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits. The amount of total deferred tax assets could change if estimates of projected future taxable income or if tax regulations undergo a change.

(iv) Employee Benefit Obligations

Employee benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, employee benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(vi) Allowance for Inventories

An inventory provision is recognised for cases where the realisable value is estimated to be lower than the inventory carrying value. The inventory provision is estimated taking into account various factors, including prevailing sales prices of inventory item and losses associated with obsolete / non-moving inventory items.

2.20 RECENT ACCOUNTING PRONOUNCEMENTS

Application of new and revised Ind ASs

All the Indian Accounting Standards ("Ind AS") issued and notified by the Ministry of Corporate Affairs are effective and considered for the significant accounting policies to the extent relevant and applicable for the Company.

The Company has not applied the following new and revised Indian Accounting Standards ("Ind AS") that have been issued and notified by the Ministry of Corporate Affairs in March'2018 but are not yet effective. These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB). The Company is evaluating the impact of these pronouncements on the financial statements.

Ind AS 115 – Revenue from Contracts with Customers

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

- Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors.
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach). The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Company is in the process of making an assessment of the impact of Ind AS 115 upon initial application.

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018.

2.21 First time adoption of Ind AS:

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from 1st April, 2017, with a transition date of 1st April, 2016. These financial statements for the year ended 31st March, 2018 are the first financial statements the Company has prepared under Ind AS. For all periods upto and including the year ended 31st March, 2017, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with rule 7 of the Companies (Accounts) Rules, 2014 ('Previous GAAP').

The Company has prepared opening Balance Sheet as per Ind AS as of April 1, 2016 (transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, derecognising items of assets or liabilities which are not permitted to be recognised by Ind AS, reclassifying items from Previous GAAP to Ind AS as required, and applying Ind AS to measure the recognised assets and liabilities. The optional exemption and mandatory exceptions availed by the Company under Ind AS 101 are as follows:

A. Optional Exemption:

Deemed cost for property, plant and equipment and intangible assets

The Company has elected to continue with the carrying value determined in accordance with Previous GAAP for all of its property, plant and equipment and intangible assets recognised as of April 1, 2016 (transition date) and use that carrying value as deemed cost of such assets as of transition date.

B. Mandatory Exceptions:

Use of Estimates:

- (i) On assessment of the estimates made under the Previous GAAP financial statements, the Company has concluded that there is no necessity to revise the estimates under Ind AS, as there is no objective evidence of an error in those estimates. However, estimates that are required under Ind AS but not required under Previous GAAP are made by the Company for the relevant reporting dates reflecting conditions existing as at that date.

(iii) Notes to the reconciliation to previous GAAP:

- Under previous GAAP, Preference share were treated as Equity. Ind AS 32 and Ind AS 109 'Financial Instruments- Classification, Recognition and measurement' requires that the Preference share to be classified based on the substance of the rights attached to it, further it also requires all financial instruments to be measured on initial recognition at fair value. On initial recognition the dividend payment to the preference shareholder has been estimated by discounting the future Dividend payment at the coupon rate that the borrower may pay to an unrelated lender or preference share holder. Accordingly, the difference between the transaction amount and its fair value at the date of transaction has been recorded as an equity. Subsequently, the Preference shares are measured at amortised cost using effective interest rate method at each balance sheet date. Under Ind AS based on the substance of rights attached to the preference shares, the same is classified under financial liability.
- Under previous GAAP, loans given to associate were long-term in nature and measured at cost. Ind AS 109 'Financial Instruments' requires all financial instruments to be measured on initial recognition at fair value. On initial recognition the fair value of loans to associate has been estimated by discounting the future loan repayments using the rate the Lender may receive from an unrelated foreign borrower for an advance. Accordingly, the difference between the transaction amount and its fair value at the date of transaction has been recorded as an investment in equity of the related entity. Subsequently, the loan is measured at amortised cost using effective interest rate method at each balance sheet date.
- Under previous GAAP, actuarial gains and losses on employees defined benefit obligations were recognised as part of Employee benefits in Statement of Profit and Loss. Under Ind AS, the actuarial gains and losses on re-measurement of net defined benefit obligations are recognised in Other Comprehensive Income.

(iv) Other material reclassification adjustments made in the Balance sheet and Statement of Profit and Loss

Under previous GAAP, revenue from sale of goods was presented net of excise duty whereas under Ind AS the revenue from sale of goods is presented inclusive of excise duty. The excise duty is presented on the face of the Statement of Profit and Loss as part of expenses.

32 Employee benefit plans
1) Defined contribution plans :

The Company participates in defined contribution plans on behalf of relevant personnel. Any expense recognised in relation to these schemes represents the value of contributions payable during the period by the Company at rates specified by the rules of those plans. The only amounts included in the balance sheet are those relating to the prior months contributions that were not due to be paid until after the end of the reporting period.

The defined contribution plans are as below:

a) Provident fund

In accordance with the Employee's Provident Fund and Miscellaneous Provisions Act, 1952 eligible employees of the Company are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. The contributions, as specified under the law, are made to the provident fund administered and managed by Government of India (GOI). The Company has no further obligations under the fund managed by the GOI beyond its monthly contributions which are charged to the Statement of Profit and Loss in the period they are incurred. The benefits are paid to employees on their retirement or resignation from the Company.

(2) Defined Benefit Plans:

The Defined Benefit Plan is as below:

Gratuity (Funded)

The Company has an obligation towards gratuity, a funded defined benefit retirement plan covering eligible employees. The plan provides for lump sum payment to vested employees at retirement, on death while in employment or on termination of the employment in terms of the provisions of the Payment of Gratuity Act, 1972 or as per the Company's Scheme, as applicable. Vesting occurs upon completion of five years of service. The Company makes annual contributions to gratuity fund established with the insurance company. The Company accounts for the liability for gratuity benefits payable based on an actuarial valuation.

The plan typically exposes the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk

The Probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

Interest risk

If the Discount Rate i.e the yield on the Government Bonds decrease in future, the Actuarial Liability will increase and vice versa. The quantum of increase in valuation liability corresponding to specific decrease in the Discount Rate and vice versa, has been shown in the annexure containing the sensitivity Analysis of Key Actuarial Assumption.

Longevity risk

If the Mortality rate experienced by the staff of a particular company is higher than what is assumed in mortality Table used in the valuation, the valuation liability will increase. However, it will be very cumbersome to measure the quantum of increase for assumed reduction of Mortality rates as can be done in case of changes in salary Growth Rate and Interest Rate.

ANNUAL REPORT 2017-18

Salary risk

If the salary Growth Rate over the future years of services is increased, the Actuarial Liability will increase and vice versa. The quantum of increase in the valuation liability corresponding to specific increase in the salary growth rate and vice versa has been shown in the annexure containing Sensitivity Analysis of key Actuarial Assumption.

The most recent actuarial valuation of the present value of the defined benefit obligation was carried out at 31st March, 2018 by an independent actuary. The present value of the defined benefit obligation, the related current service cost and past service cost were measured using the projected unit credit method.

A. Principal actuarial assumptions used:

The principal assumptions used for the purposes of the actuarial valuations are as follows.

H. Sensitivity Analysis

The Sensitivity Analysis below has been determined based on reasonably possible change of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. These sensitivities show the hypothetical impact of a change in each of the listed assumptions in isolation. While each of these sensitivities holds all other assumptions constant, in practice such assumptions rarely change in isolation and the asset value changes may offset the impact to some extent. For presenting the sensitivities, the present value of the Defined Benefit Obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the Defined Benefit Obligation presented above. There was no change in the methods and assumptions used in the preparation of the Sensitivity Analysis from previous year.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Board of Directors of the Holding Company, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

ANNUAL REPORT 2017-18

Emphasis of Matter

Without qualifying our opinion, we draw attention to the following matters:

- i) We draw your attention to Note 41 of the financial Statement regarding preparation of the annual consolidated financial Statement on going concern basis for the reason stated therein. The appropriateness of the assumption of going concern is dependent upon realization of the various initiatives undertaken by the Company and /or the Company's ability to raise requisite finance/generate cash flows in future to meet its obligations.
- ii) The Company had advanced a loan to the tune of Rs. 7,756.15 Lakhs (previous year Rs. 8,598.30 Lakhs) to Soma Textile FZC (UAE) out of GDR proceeds, classified as Non-current loan. The Company has received Rs. 1,153.79 Lakhs (USD 17,94,485) during FY 2017-18. This loan has been advanced by the Company as quasi-equity in addition to the capital contribution to Soma Textile FZC. When the said loan was given, the said Company was a wholly owned subsidiary, however with effect from 31-3-2010, the Company's holding in this Company has diluted from 100% to 40%. In the financial statement of Soma Textile FZC ended as at 31-3-2018 the accumulated loss reflects at AED 587,128 as against the total capital of AED 9,00,000 (Including statutory reserve)
- iii) Capital adequacy has not been maintained during the current year as opined by the independent auditor SKM INTERNATIONAL CHARTERED ACCOUNTANT OF SOMA TEXTILE FZC situated at Umm Al Quwain Free Trade Zone, Umm Al Quwain U.A.E. However, the management of Soma Textile FZC confirms that there is no requirement under the laws, rules and Regulations of the UAQFTZ or Memorandum of Association which require the capital adequacy of the share capital in the Company on year to year basis.

ANNUAL REPORT 2017-18

Summary of significant accounting policies followed by the company

The consolidated financial statements includes results of the associates of Soma Textile & Industries Limited, consolidated in accordance with Indian Accounting Standards 28 'Investment in Associates and Joint Ventures.

Name of the company	Country of Incorporation	% shareholding of Soma Textile & Industries Limited	Consolidated as
Soma Textile FZC	Outside India	40%	Associate

An associate is an entity over which the Group is in a position to exercise significant influence over operating and financial policies. The considerations made in determining whether significant influence is being exercised are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its associate are accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

The Statement of Profit and Loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the Statement of Changes in Equity.

Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

If an entity's share of losses of an associate equals or exceeds its interest in the associate (which includes any long-term interest that, in substance, form part of the Group's net investment in the associate), the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the Statement of Profit and Loss.

For the purpose of Section 2(6) of the Companies Act, 2013, "associate company", in relation to another company, means a company in which that the other company has a significant influence, but which is not a subsidiary company of the company having such influence and includes a joint venture company. Explanation- For the purpose of this clause, "significant influence" means control of at least twenty per cent of total share capital and/or the ability to significantly influence the operational and financial policies of the company but not control them. The holding of Soma Textiles & Industries Limited in Soma Textile FZC is 40%. The Soma Textile FZC is consolidated as an associates by virtue of formers ability to influence the operational and financial policies whereby the share of the parent in the associate's net worth and profit has been picked up and accounted for under an independent line item in the "General Reserve", "investment" and "Statement of profit and loss". The excess of cost of investment in the associate and the share of net worth of the associate on the day of investing is reflected as a "Goodwill".

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards notified under the Companies (Indian Accounting Standards) Rules, 2015 ("Ind AS") as amended by the Companies (Indian Accounting Standards) Rules, 2016, the Companies (Indian Accounting Standards) Rules, 2017 and other relevant provisions of the Companies Act, 2013. The Financial Statements have been prepared on the historical cost basis.

On consolidation, the Investment in associate are translated into INR at the rate of exchange prevailing at the reporting date and their share of loss/Profit are translated at exchange rates prevailing at the dates of the transactions.

Notes to these consolidated financial statements are intended to serve as a means of informative disclosure and a guide to better understanding of the companies. Recognising this purpose, the Ministry of Corporate Affairs vide its General Circular No. 39/2014 dated 14th October 2014 has clarified that only those note which are relevent to understanding the Consolidated Financial Statements should be disclosed and not merely repeating the notes diusclosed in the standalone financial statements to which these consolidated financial statements are attached to.

(iii) Notes to the reconciliation to previous GAAP:

- (a) Under previous GAAP, Preference share were treated as Equity. Ind AS 32 and Ind AS 109 'Financial Instruments- Classification, Recognition and measurement' requires that the Preference share to be classified based on the substance of the rights attached to it, further it also requires all financial instruments to be measured on initial recognition at fair value. On initial recognition the dividend payment to the preference shareholder has been estimated by discounting the future Dividend payment at the coupon rate that the borrower may pay to an unrelated lender or preference share holder. Accordingly, the difference between the transaction amount and its fair value at the date of transaction has been recorded as an equity. Subsequently, the Preference shares are measured at amortised cost using effective interest rate method at each balance sheet date. Under Ind AS based on the substance of rights attached to the preference shares, the same is classified under financial liability.
- (b) Under previous GAAP, loans given to associate were long-term in nature and measured at cost. Ind AS 109 'Financial Instruments' requires all financial instruments to be measured on initial recognition at fair value. On initial recognition the fair value of loans to associate has been estimated by discounting the future loan repayments using the rate the Lender may receive from an unrelated foreign borrower for an advance. Accordingly, the difference between the transaction amount and its fair value at the date of transaction has been recorded as an investment in equity of the related entity. Subsequently, the loan is measured at amortised cost using effective interest rate method at each balance sheet date.
- (c) Under previous GAAP, actuarial gains and losses on employees defined benefit obligations were recognised as part of Employee benefits in Statement of Profit and Loss. Under Ind AS, the actuarial gains and losses on re-measurement of net defined benefit obligations are recognised in Other Comprehensive Income.

(iv) Other material reclassification adjustments made in the Balance sheet and Statement of Profit and Loss

Under previous GAAP, revenue from sale of goods was presented net of excise duty whereas under Ind AS the revenue from sale of goods is presented inclusive of excise duty. The excise duty is presented on the face of the Statement of Profit and Loss as part of expenses.
