ANNEXURE TO THE NOTICE

(Explanatory Statement as required by Section 173 of the Companies Act, 1956)

Item no. 5

Mr. Syed K. Husain appointed by the Board of Directors as an Additional Director of the Company, with effect from 29th May, 2013.

The Company has received a Notice u/s 257 of the Companies Act, 1956, along with a deposit of Rs. 500/- from one of the members, proposing the candidature of Mr. Syed K. Husain for the office of Director of the Company.

Mr. Syed K. Husain is an Engineering Graduate with Post Graduation in Management and has over 35 years of rich experience in various fields like Transportation of Goods, Logistics, Engineering, Construction and General Management.

Your Directors feel that his presence on the Board will be beneficial to the Company and therefore recommend the passing of the resolution at item no. 5 of the Notice.

Save and except Mr. Syed K. Husain, none of the other Directors is concerned or interested in passing of the resolution at item no. 5 of the Notice.

Item no. 6

The erstwhile Share Transfer Agents of the Company M/s Computronics Financial Services (India) Ltd conveyed their intentions to discontinue the Share Transfer Work and to transfer the business of the Registrars and Share Transfer Agents to M/s Bigshare Services Private Limited. The Board of Directors in their Meeting held on 12th August 2013 has appointed M/s Bigshare Services Private Limited as the new Share Transfer Agents of the Company subject to approval of shareholders required under Section 163 of the Companies Act.

Approval of members is sought, pursuant to the provisions of Section 163 of the Companies Act, 1956, to keep the Register of Members, the Index of Members and copies of all Annual Returns prepared under section Section 159 and 160, together with copies of certificates and documents required to be annexed thereto under Sections 160 and 161, at the office of M/s Bigshare Services Private Limited, E-2/3, Ansa Industrial Estate, Sakivihar Road, Saki Naka, Andheri (East), Mumbai-400072, who are the new Registrars and Share Transfer Agents of the Company and also deal with the dematerialization of Company's shares.

To avoid administrative inconvenience and expenses, and in the interest of more expeditious and interactive disposal of investor queries, it is proposed to keep all the Registers and documents etc. envisaged under the provisions of the said section 163 at the office of M/s Bigshare Services Private Limited, the Registrars and Share Transfer Agents of the Company, situated at E-2/3, Ansa Industrial Estate, Sakivihar Road, Saki Naka, Andheri (East), Mumbai-400072.

The Special Resolution under this item also specifies the time and place of inspection of the Registers and other documents of the Company, as envisaged under the said Section 163, by its members and others, namely, between the hours of 10.30 a.m. and 12.30 p.m. on any working day i.e. any day excluding Saturdays, Sundays and public and bank holidays and any other day on which the office of M/s Bigshare Services Private Limited, remains closed.

None of the Directors of the Company is concerned or interested in passing of the Resolution at item No.6 of the Notice.

PERFORMANCE REVIEW:

The overall economic scenario continues to project a grim picture across all segments. FY 2012-13 proved to be a challenging year due to global economic uncertainties and disturbances in many parts of the World. However the global economy in the Financial Year 2012-13 improved slowly, but was short on expectations. Deceleration in industrial output and exports weakened India's economic growth significantly. Your Company is also not exception to this situation. Despite these constraints and challenging environment, the Company, although not able to perform to its full potentials has done reasonably well to sustain itself in such difficult economic scenario.

The performance of your Company in terms of the revenue earned during the financial year 2012-13 has been satisfactory. Total income earned by the Company during the year under consideration increased and stood at Rs.51078.26 lacs as compared with 45383.05 lacs for the previous year. The Profit Before Tax is Rs.385.18 lacs and Profit After Tax is Rs.241.28 lacs. The reduction in Profit After Tax as compared to previous year is mainly on account of higher Depreciation and finance cost.

The Net Worth of your Company is Rs.8936.18 lacs while the Fixed Assets base is Rs.5126.89 lacs. The Fixed Assets if considered at the current market price, would be substantially higher but not quantified. The Earning Per Share is Rs.1.59.

Your Company is taking various measures to meet the situation. The Company is concentrating on its 'Patel Retail' express business, which has high margin of profits and also putting more efforts to increase its warehousing business in the years to come. Prudent cost reduction measures have also been undertaken along with plans for faster recovery of dues.

Notwithstanding the continued recessionary trends in the economy, the Company is confident of improving its volumes and profitability in the current year and will be able to sail through the adverse economic conditions much more comfortably.

DIVIDEND :

For the year under consideration, the Board of Directors have recommended a dividend of Re.0.50/- per share i.e. 5% on the equity share capital of the Company for the financial year ended March 31, 2013. The dividend payout for the year under review has been formulated after consideration of shareholders aspirations and Company's long term growth objectives to be met by internal accruals.

FUTURE PLANS AND OUTLOOK:

With the GDP Growth rate of Indian economy is slowing down to 5.0 per cent in the year 2012-13, it is always challenging for the corporates to grow in terms of business and profitability. Our planning in the coming year is to sustain the present business and look for the opportunities to increase our profitability.

Subject to improvement in global economic scenario, the Indian logistics industry is certainly viewed as one that is being defined by dynamic trends, buoyed by rapid industrial and economic growth. Your company is poised to take the advantage of such situation to continue to give its best to its customers.

'Patel Retail' division of the Company is expected to continue its growth trajectory. This business is in a unique position to capitalise on the growing opportunities in India. The strategic expansion plans for 'Patel Retail' will be drawn in the current year to strengthen its market share and growth. The Company is also planning to increase its market share in Full Truck Business (FTL).

The Company has upgraded its Linux base ERP software to support its business strategy. The Company is planning to make investment in computerization of its operations to improve its service efficiency.

In recent times, the Indian warehousing segment in India has evolved significantly. Apart from conventional storing services, warehouses are now providing value-added services like consolidation and breaking up of cargo, packaging, labeling, bar coding and reverse logistics etc. Warehousing and related activities account for approximately 20% of the total logistics industry. Your Company has also started to spread its wings in the warehousing business. The demand for warehousing space is growing steadily and the Company is planning to increase its warehousing business, which will bring more value for the shareholders in the years to come.

On the front of the Cargo Consolidation Business, after expanding at 20%-plus rates through 2011 and early 2012, the Indian air cargo market stopped growing at the end of 2012.

The current Airline Policies have a fragmentary approach, which is not helping the air cargo industry. Airports and fuel are getting more expensive even as airlines struggle. A weak rupee isn't helping and has caused further cost increases in dollar-denominated expenses for the International courier and cargo consolidation as well..

The cargo capacity management will remain tight throughout the year, as the domestic capacity will only increase by 7% to 8%, which is half of the increase seen in the previous financial year.

Other challenges loom on the horizon. The policy on ground handling needs to be resolved for our business and our Company to grow and show robust growth. Despite the above challenges, your Company is geared to take up the same and shall maintain its market share and profitability.

SUBSIDIARY:

The Company does not have any Subsidiary Company as on date of this report.

FINANCE:

A) Bank Finance:

The Company enjoys fund based and non fund based credit facilities from the Banks to meet its working capital requirements. The Company also enjoys a credit line for buying the trucks on deferred payment guarantee basis. The Company is regular in payments of installments and there are no over dues as on the date of reporting.

B) Fixed Deposits:

The Company is eligible to raise the public deposits of Rs.2978.10 lacs as on 31st March 2013. However the Company is following very conservative policy for acceptance of public deposits. Accordingly, Fixed Deposits accepted by the Company stood at Rs.1065.30 lacs as on 31st March 2013. There were no unpaid or overdue deposits as on 31st March 2013, other than unclaimed Deposits aggregating Rs.11.58 lacs. During the year under consideration, amount of Rs.58,469/- being unclaimed fixed deposits and interest accrued thereon, has been transferred to the Investor Education and Protection Fund. The Company is maintaining 15% of the amount of the Fixed Deposits maturing on or before 31st March 2014 as liquid assets in fixed deposits with scheduled banks as required under rule 3A of Companies (Acceptance of Fixed Deposits) Rules, 1975.

C) Credit Rating:

The Company holds a credit rating, assigned by India Ratings & Research Private Ltd, a Fitch group Company and a credit rating agency, who reaffirmed National long term credit rating 'BBB-' [outlook stable(investment grade)] for our fund based & non fund based borrowings from banks & for finance lease.

DIRECTORS :

Mr. Sandeep Parikh, Director of the Company, retires by rotation at the ensuing Annual General Meeting and, being eligible, has offered himself for re-appointment as the Director.

Mr. Syed K. Husain was appointed as an Additional Director of the Company with effect from 29th May 2013. Mr. Husain vacates office of Director, at the ensuing Annual General Meeting. The Company has received a Notice alongwith the necessary deposit u/s 257 of the Companies Act, 1956, proposing the candidature of Mr. Syed K. Husain as the Director of the Company.

AUDITORS:

M/s M.S.P. & Company retire as the Auditors of the Company at the ensuing Annual General Meeting and, being eligible, offer themselves for re-appointment.

The Company has received a letter from the Auditors to the effect that their appointment, if made would be within the prescribed limits under section 224 (1B) of the Companies Act, 1956 and that they are not disqualified for such re-appointment within the meaning of section 226 of the said Act.

AUDITORS' REPORT:

Your Directors refer to observations made by the Auditors in their Report and wish to state that the related notes forming part of the Accounts provide sufficient explanations and hence no further comments required on the observations of Auditors.

CORPORATE GOVERNANCE :

To comply with conditions of Corporate Governance, pursuant to clause 49 of the Listing Agreements with the Stock Exchanges, a Management Discussion and Analysis Report, Corporate Governance Report and Auditors' Certificate on the compliance of conditions of Corporate Governance, are included in this Annual Report.

SECRETARIAL AUDIT REPORT:

As a measure of good corporate governance practice, the Board of Directors of the Company appointed Mr. Dinesh Kumar Deora, Practicing Company Secretary, to conduct Secretarial Audit of records and documents of the Company. The Secretarial Audit Report for the financial year ended 31st March, 2013 is provided in the Annual Report.

MANAGEMENT DISCUSSION & ANALYSIS REPORT (Within the limits set by the Company's competitive position)

Economic Scenario

The Financial Year 2012-13 was a challenging year for the global economy as well as Indian economy. India was affected by what happened in the rest of the world and our economy too has slowed after 2010-11. The GDP Growth rate of Indian economy has slowed to 5.0 per cent in the year 2012-13 which is the slowest pace in a last decade and well below India's potential growth rate of 8 percent. The slow down was reflected in all sectors of the economy but the industrial sector suffered sharpest decline in the growth rate. Even then, of the large countries of the world, only China and Indonesia are growing faster than India in 2012-13.

The rising food inflation, high fiscal deficit, current account deficit, tight monetary policies are some of the constraints to the growth rate that Indian economy is facing throughout the year. Various policy measures are undertaken by the Government including liberalization of FDI in retail and aviation, deferment of General Anti-Avoidance Rules (GAAR), reduction in withholding tax on overseas borrowings by domestic companies, measures such as progressive deregulation of administered fuel prices etc. which could possibly help to stabilize the macroeconomic conditions and return the economy to its high growth trajectory.

India's service sector growth has slowed, though the sector is still growing at a much higher rate than other sectors of the economy. The Indian transportation and logistics industry is poised at a crossroads along its growth trajectory. This is particularly important at this juncture in light of the ongoing global economic uncertainty that has been impacting the Indian market to an extent. However, driven by strong fundamentals and consistent domestic demand, the resilient Indian economy in general and, the logistics sector in particular, are seemingly well-positioned to sail through turbulent global waters.

Company's Business in brief:

Your Company offers a complete range of Logistics Products, which include following business activities:

- Surface Transport
- Door Pick-up and Door Delivery
- On-Board Couriers
- Domestic Cargo Consolidation
- International Freight Forwarding
- International Courier Consolidation
- Warehousing

Your Company is a single stop Logistics Services Provider, offering unified Logistics solutions through the extensive infrastructure of Offices and Delivery Destinations across all over the country.

(A) PATEL ROADWAYS

This division of the Company undertakes the conventional transportation of goods including part and full truck load. It involves point-to-point movement of cargo in a single trip in truck loads of various capacities ranging from 5-25 tons. It also includes movement of specially containerized goods. Over the years this division mastered the art and has earned the reputation of offering the finest services with strict adherence to delivery schedules.

Industry overview:

The economic growth of a country always has a co-relation with The Road Freight Transport Industry. The Structure of the road freight transport industry in India is highly fragmented due to large number of operators. The Industry is highly competitive due to the presence of large number of small players in the industry.

The profitability of the industry largely depends upon factors like fuel cost, freight rates, vehicle utilization, vehicle mix, broker commission, government policies etc. The profitability of the industry is also affected due to increased costs on account of poor road conditions and toll charges and lack of improved infrastructural development in the country.

Opportunities & Threats:

The Roadways business has its Market dynamics due to multiple factors, particularly rising domestic consumption which leads to distinguishing advantage to the business, of last-mile connectivity which has been driving the emergence of multiple tier-II cities and penetration in rural markets. The proposed abolition of Octroi in Mumbai and Maharashtra would again make the In & Out flow of the material feasible.

The impending change in the Indian tax system from the current state-level Value Added Tax (VAT) to a national and uniform Goods and Services tax (GST) should help to create a national market for many goods and services as the trade boundaries between states will not exist and companies can consolidate their supply chains.

With a liberalization in policies, India is trying to develop as a global outsourcing hub. The opening up of key sectors like retail, aviation to multinational companies could be the other growth drivers as it would bring with it new market opportunities to this sector. With the development of use of EDI (electronic data interchange) and IT (information technology) in the transport industry, the operational efficiency will also improve.

The government is also taking steps to reform the transport sector which include increasing public funding for transportation in its Five Year Plans, launching National Highway Development Program, Accelerated Road Development Program for the remote areas like North East region etc. The government is also financing the development and maintenance of roads by creating a Central Road Fund (CRF). This will lead to better infrastructure facilities and would help to enhance sector capacity and improve efficiencies.

Still, the industry is vulnerable to certain threats. As road transportation is a low-margin business, the unfavorable trend of rising fuel prices (estimated to constitute 50–60 percent of total transportation expenditure) over the last 5 years critically affects operating profitability. The entry of new players in the industry has also made the business extremely competitive.

The risk involved in road transport is very high and vehicles moving with high value goods are always under threat of thefts and pilferages and the incidences of missing vehicles are also increasing in spite of VTS being in place.

Outlook:

The transportation market in India is expected to continue offering significant opportunities to all concerned stakeholders. While the quality of road infrastructure is certainly to improve, the pace of infrastructure development is critical to minimize losses, both economic and environmental.

The outlook for Road Freight Transport Sector largely depends upon infrastructural facilities available in the country. Not only the demand for road connectivity has been rising, but also focus on improving basic road infrastructure as well as technology adoption has increased in recent years. The number of expressways and highways have increased; many roads have been widened; electronic toll collection is becoming increasingly common; the 'green channel' concept is gaining ground, and inter-state check posts are becoming automated. Other examples of key progressive measures include the development of Indian Road Transportation Exchange (IRTEX) and gradual fleet modernization. Thus, against the backdrop of positive initiatives led by industry stakeholders, the industry, as a whole, needs to continue tapping the advantages of road transportation more efficiently and optimally than ever before.

Risks & Concerns:

The Road Transport Sector is subjected to many inherent operational risks like fragmented ownership of vehicles, poor infrastructure of roads, bureaucratic delays at the borders, poor vehicular maintenance, etc. It is also exposed to market risks and financial risks to which all the corporates are exposed. These include risks like fluctuations in the economy and sudden changes in the Governmental policies and laws at macro level and risks like increase in the prices of component parts and fuel, increase in the hiring charges of vehicles etc. at micro level. Besides these, the Road Transport Sector is also saddled by natural calamities and events like bandhs and riots in various parts of the country. The fuel hikes on petrol, diesel, CNG and LPG which leads to increase in the Freight rates, affects the prices of all the commodities and raw materials. The industry is also facing huge shortage of skilled drivers & hamals in the recent past.

(B) PATEL RETAIL

This division of the Company provides Premium Door-to-Door Express Cargo Service to over 250 branches serving more than 400 delivery stations, covering the length and breadth of the Country.

Industry Overview:

Indian express industry is growing very fast although the size of the Indian express industry is miniscule when compared to the global express industry. However, the Express Cargo industry in India has been growing at a phenomenal rate of 35% and expected to grow more than double by 2014. The business of Express Cargo is carried on by using all three modes of cargo movement i.e. surface, air and rail. However, surface cargo movement constitutes the bulk of the express cargo movement. The industry is changing from hard freight to express cargo with door delivery facility. With the increase in modern trade and malls in the newly developing cities across India demand for products are increasing and this is giving growth boost in Retail growth.

Opportunities & threats:

The Indian express industry is expected to grow at an impressive rate over the next few years. Moreover, with India being recognized as an outsourcing destination, manufacturing sectors like textiles, automobiles and pharmaceuticals, IT peripherals are likely to witness increased activities in medium to long term. In order to maintain its competitiveness, companies operating in these industries are expected to outsource their logistics requirements to third party logistics service provider (3PL) and concentrate on their core-competency of manufacturing.

There are extra ordinary opportunities in this business. Using strength of our existing infrastructure of nearly 350 branches / offices / hubs, VTS scheduled vehicles, Centralised Delivery System and manpower, our Company has already started expanding its activities in this lucrative sector.

Express industry is undergoing phenomenal growth due to the rising popularity of e-commerce. Low volume, high value tiny packages from traditional cargo to express mode is the up-coming trend. Keeping this in view, there is lot of scope for the express industry to flourish in India.

Challenges faced by the industry include new players entering this industry and becoming more and more competitive. The other challenges includes matching upto the rising expectations of the customer, expanding the network to reach hitherto uncovered areas, containing rising fuel and freight costs and retention of manpower.

Outlook:

The express sector in India has a bright opportunity. As a fast-growing, market-driven economy, we believe India is poised to take a leading role on the world's stage. The outlook for this product is progressive. Though it is a part of the Transport Sector in general, the Express Cargo Industry, in a short span of time, has been able to carve a separate status and identity for itself. With the steady growth in all the sectors including the Manufacturing and the Retail Trade, the Express cargo industry is poised for healthy growth. The improvement in the road infrastructure is becoming evident and a larger segment of corporates have started preferring express deliveries made in time.

This mode of transport has an ability to grow at a very brisk pace. The net margins in this business are much higher as compared to those in the conventional freight transport business as the customer is prepared to pay a higher price for professional handling of cargo and door-to-door delivery, and "**Just in Time**" delivery of cargo.

Risk & concerns:

The complexities of this business are very high because the service levels are based on a number of constituents like reach (depth and width), government regulations, infrastructure etc which are not in the control of service providers in this industry. To a certain extent the risks are akin to the transport industry as a whole. Besides, the investment and commitment levels required are also quite steep. The industry might face significant challenges in the coming years like increase in fuel cost, shortage of skilled manpower and increasing competition etc.

(C) POBC AND PATEL AIRFREIGHT DOMESTIC

These divisions of the Company carries on the business of air cargo consolidation in the domestic markets.

Industry overview:

The year 2012-13 was not very encouraging in terms of growth. The industry overview is not very promising and satisfactory either. The logistics industry has a direct relationship with the global business activities and thus the cargo industry was affected by the turbulent global economic scenario.

The political uncertainties and resultant delays in policy implementations have also affected the overall growth of the economy leading to delays in development of air cargo industry. No doubt the E commerce has been the only face saver which has been able to give good volumes to the Cargo industry.

We do not foresee any significant changes in the year 2013-14, except for positive business outlook and a hope that the Indian economy will grow at better pace than the last year. With the improving technological advancements, the Air Cargo Industry is set to achieve a lot of business dynamism.

Opportunities & Threats:

The Air Cargo Market in India largely depends upon Economic Development in the country and Rising International Trade. The recent past has witnessed a phenomenal demand for Air Cargo Transport as product life cycle have become shorter and demand for speedy delivery has increased. Air Cargo logistics business has been benefited from innovative and changing business models such as Just In Time manufacturing and global outsourcing.

The positive development of E Commerce and emergence of Just – In – Time concept across the world, the Indian cargo market has been anticipating a rapid growth of Domestic Air Cargo Logistics business.

With the opening of the Aviation sector to the foreign players under FDI, and initiatives like setting up of the Cargo service centres and improvement of airports in the tier II cities of the country, the industry will see a rapid growth and global best practices in the years to come.

The Threats to the industry are the constantly rising OIL prices and heavy competition in the Industry. Due to these factors profit margins might not increase in the same proportion of business volumes.

Outlook:

The Economy of India is set to accelerate in 2013-14 backed by favorable external sector demand outlook and a pickup in the domestic reforms like liberalization of FDI in retail, and aviation etc.

The outlook of Air Cargo industry in the coming years is encouraging as it has a great potential to grow further. We believe that with the growth in the E Commerce industry and overall demand for industrial products in the current year, our business will see tremendous growth.

Risks & Concerns:

The bottlenecks emerging out of lack of best Infrastructure facilities in India is one of the major constraints that the industry faces today. The depreciation of the rupee combined with the arbitrary increased of fuel surcharges by the airlines has made the existence in domestic air cargo market very tough. The rupee depreciation at the current level resulted in high oil prices leading to hike in ATF prices which will again increase the FSC of the airlines hitting the bottom-line of the industry as a whole .

(D) POBC INTERNATIONAL

This Division is in the business of Wholesale Courier Consolidation for International Sectors and operates line-hauls ex Mumbai & Delhi to various International Destinations.

Industry Overview

The Industry Overview is somewhat similar to that of POBC Domestic, as it is part of the same Industry. The main difference however is that POBC Domestic Consolidates both Courier & Cargo Loads in the Domestic Market, whereas POBC International Consolidates only International Courier Loads. There are therefore several factors which are different.

Opportunities and Threats

Customers are moving to cheaper forms of consignments, and with less standard offering which is stealing our business, the pressures will not ease us anytime soon. In fact, revenues are 5% lower today than three years ago, resulting in decline in revenue per consignment.

Customers are enticed by cheaper yet decent quality offerings for standard domestic and international consignment, drawing them away from express shipping. Many businesses stopped using express services during the slowdown period and have not come back – the main reason for the overall decline in revenues.

Document consignment is stagnating in the era of emails or local letter services – a global phenomena, both domestically and internationally. Not surprisingly, much of the volume in document shipping has been replaced by email or local letter services.

Outlook

The overall outlook for this Business is Grim. The Customer Base has been Eroded, as large customers now deal directly with the airlines. The recent closure of some of the airlines also added concerns to the business.

Risks and Concerns

Pricing will remain as a challenge for the business as the distinctions between express service and standard service shipping blur. Although the express service guarantees a delivery date and time, many companies are offering express services only at standard prices. This further shrinks the market for us. Collection of Payments in time is also a challenge as Customers are demanding and getting extended credit facilities.

(E) PATEL AIRFREIGHT INTERNATIONAL

This Division is in the business of handling Airfreight of Export Cargo ex Mumbai.

Industry Overview

This is part of the International Freight Forwarders Community and is focused on Exports by Air ex Mumbai. It is a business where we deal with Exporters and Sub Agents to generate International Air Cargo volumes on various Airlines ex Mumbai to destinations all over the world.

Opportunities and Threats

Airline cargo businesses continue to face difficult conditions with demand for air freight falling in the last quarter of the year, and oil prices remaining high. There is depressed demand in the European countries for air-freighted

commodities including semi-conductor shipments. Furthermore, capital investment intentions by Japanese and UK companies remain weak.

Despite the challenging aspects described above, there were some positive indications in the demand backdrop.

There is still no sign of an inventory overhang. The Consumer confidence in the European countries has improved over the last few months, which could offset some of the downward pressure on demand coming from Europe.

Being part of the Aviation Industry and the Freight Forwarding Community, we are obviously affected by the issues concerning this trade, such as increasing Aviation fuel costs and additional costs towards Security Measures, which are constantly being added/ enhanced. Stiff Competition in the market leading to low yields, congestion at the Air Cargo Terminals due to inadequate infrastructure, delays in customs clearance due to technology upgradation issues are some of the other challenges that we face.

Outlook

With the emerging Indian Economy and India's share of World Trade increasing, the outlook for India's Air Exports appears to be good. We expect cargo volumes to improve in the current year as compared with the year 2012-13, which is in line with expectations for economic growth and increased share of world trade.

Risks and Concerns

The international air cargo industry is struggling under the weight of an issue of overcapacity. Its nature largely international, air freight has encountered severe headwinds as the eurozone fiscal crisis and middling economic recovery in the U.S. put pressure on demand for exports out of Asia, especially China and India. With shippers putting over more emphasis on cost-cutting, more traditional airborne products are shifting to other modes of transportation. The exceptions, of course, are high-value products such as Apple iPhones and iPads that tend to create temporary spikes in volume and underpin the industry.

Human Resource Management:

The "House of Patels" is mainly a service provider in the arena of Logistics. In this field there are several players, and the fact that we have completed half a century and are one of the acknowledged leaders in this field is mainly due to the quality of service that we provide to our esteemed clients.

The management firmly believes that the 'people' are the driving force behind the growth of every organization and continues to focus on people development by leveraging technology and encouraging them to attend courses and educational programs to develop their core area of competence. Sourcing the right candidates, engagement, development and retention of intellectual capital is a vital management exercise. Our human capital constitutes a judicious mix of youth, imagination, risk-taking ability and seasoned experience.

The Company have always held the view that recognizing and rewarding excellence is essential for having a totally committed, dedicated and "charged" work force.

The Company continues to enjoy peaceful and harmonious relations with all its employees through several proactive measures during the year. The Company employed 1037 people as on 31st March 2013.

Internal Control System:

The Company has a satisfactory Internal Control System, the adequacy of which has been reported by the Auditors in their Report as required by the Companies (Auditor's Report) Order, 2003.

The Company is committed to further improve Internal Controls and strengthen the Internal Audit function. Further stress on Corporate Governance is being given in the current year. We firmly believe that the business can grow and develop on the required lines and profitability can be sustained only through Strong and Transparent Corporate Governance.

Financial performance and segment-wise performance:

The discussion on the financial performance of the Company is covered in the Directors' Report. The segment-wise performance is available in note 34 of the notes forming part of the Accounts for the year under consideration.

Cautionary Statement:

Statements in the Management Discussion and Analysis Report describing Projections, Estimates, Expectations, Future Outlook etc. in connection with the business may be 'forward looking statements' within the meaning of applicable securities laws and regulations. However, the actual results could materially differ from those expressed or implied in the statements made by the Management. Various factors which are outside the purview of the Management Control can cause these deviations. These factors include economic developments in the country, changes in governmental policies and fiscal laws, sudden and unexpected rise in input costs, change in the demand supply pattern in the industry, etc.

ANNEXURE TO INDEPENDENT AUDITOR'S REPORT

The Annexure referred to in paragraph 1 of the Our Report of even date to the members of Patel Integrated Logistics Limited on the accounts of the company for the year ended 31st March, 2013.

On the basis of such checks as we considered appropriate and according to the information and explanation given to us during the course of our audit, we report that:

- (I) In respect of its fixed assets:
 - (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) We have been informed that the Company has put in place a policy of physical verification of fixed Assets in a phased manner to cover all the Fixed Assets in the span of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
 - (c) The Fixed Assets disposed off during the year, in our opinion, do not constitute a substantial part of the fixed assets of the Company and such disposal has, in our opinion, not affected the going concern status of the Company.
- (II) In respect of inventory of stores, operating supplies, etc.:

In view of there being no requirement to carry and hold any stock of inventories, therefore, the provision of this clause of the Companies (Auditor's Report) Order, 2003 (as amended) is not applicable to the Company.
- (III)
 - (a) According to the information and explanation given to us and on the basis of our examination the Company has not granted any loans, secured or unsecured to companies, firms or other parties covered in the register maintained u/s 301 of the Companies Act, 1956, therefore, the provision of this clause III (b), (c) and (d) of the Companies (Auditor's Report) Order, 2003 (as amended) is not applicable to the Company.
 - (e) The Companies has taken unsecured loan from two companies listed in the register maintained under section 301 of the Companies Act, 1956. The maximum amount outstanding during the year was Rs.1,76,00,000/- (2 Companies) and the year end balance of loan taken from such company is Rs.1,15,00,000/- (1 Company).
 - (f) In our opinion and according to the information and explanation given to us, the rate of interest and other terms and conditions are prima-facie not prejudicial to the interest of the company.
 - (g) The principal amounts are been repaid as per the repayment schedule and interest outstanding if any at the year end has been added to the loan amount in the financial statement.
- (IV) In our opinion and according to the information and explanations given to us, there is an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchase of fixed assets and sale of services. During the course of our audit, we have neither come across nor have we been informed of any continuing failure to correct major weaknesses in the internal control system.\
- (V) In respect of contracts or arrangement entered in the Register maintained in pursuance of section 301 of the Companies Act, 1956, to the best of our knowledge and belief and according to the information and explanations given to us;
 - (a) The transactions made in pursuance of contracts or arrangements that are required to be entered in the Register maintained under Section 301 of the Companies Act, 1956, have been duly entered by the Company.
 - (b) In our opinion, the transactions in pursuance of contracts or arrangements that are required to be entered in the Register maintained under Section 301 of the Companies Act, 1956 aggregating during the year to Rs. 500,000/- (Rupees Five Lacs Only) or more in respect of any party during the year, the rates are considered to be reasonable having regard to the prevailing market price at the relevant time.
- (VI) In our opinion and according to the explanations given to us, the Company has complied with the provision of sections 58A and 58AA of the Companies Act, 1956 and the Companies (Acceptance of Deposits) Rules, 1975 and the Directives issued by the Reserve Bank of India with regards to the deposits accepted from the public. According to the information and explanation given to us, no order under the aforesaid sections has been passed by the Company Law Board on the Company.

- (VII) In our opinion, the Company has an in house internal audit system and it has also assigned internal audit through independent firm of Chartered Accountants which is commensurate with the size and nature of Company's business.
- (VIII) The Central Government has not prescribed maintenance of cost records under section 209(1)(d) of the Companies Act, 1956 in respect of any of the activities of the Company.
- (IX) (a) In our opinion and according to the explanations given to us, the undisputed statutory dues including Provident Fund, Investor Education and Protection Fund, Employees' State Insurance, Income-Tax, Sales-Tax, Wealth Tax, Service Tax, Custom Duty, Excise Duty, Cess to the extent applicable and any other statutory dues have generally been regularly deposited with the appropriate authorities. According to the information and explanations given to us there were no outstanding statutory dues as on 31st of March, 2013 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there is no amounts payable in respect of income tax, wealth tax, service tax, sales tax, customs duty and excise duty which have not been deposited on account of any disputes.

Notes on Financial Statements for the Year Ended 31st March, 2013

1. Significant Accounting Policies

a. Basis for preparation of Financial Statements:

The accounts have been prepared to comply in all material aspects with applicable accounting principles in India, the applicable Accounting Standards notified under Section 211[3c] of the Companies Act, 1956 and the relevant provisions thereof.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Revised Schedule VI to the Companies Act, 1956.

Based on the nature of service and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current / non – current classification of assets and liabilities.

The preparation of the financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumption that affect the reported amounts of assets and liabilities as at the balance sheet date, reported amounts of revenues and expenses during the year and disclosure of contingent liabilities as at that date. The estimates and assumption used in the financial statements are based upon the managements evaluation of the relevant facts and circumstances as of the date of financial statements.

b. Fixed Assets and Depreciation:

i. All fixed assets are stated at cost of acquisition which includes amounts added on revaluation, less accumulated depreciation and impairment losses.

ii. Assets acquired on financial lease on or after April 1, 2001 are capitalised at their fair values.

iii. Depreciation / Amortisation

Depreciation on all assets, including those revalued, and those valued at market price is provided under straight line method at the rates and in the manner prescribed under Schedule XIV to the Companies Act, 1956.

iv. Depreciation on additions to assets or sale or disposal of assets is calculated on a pro-rata basis from / to the date of addition / deduction.

v. Computer Software is amortised over a period of three years, being the economic useful life as estimated by the management.

vi. Cost of leasehold land is amortised over the residual period of the lease.

vii. Assets taken on financial lease are depreciated over their useful life.

c. Impairment of Assets:

Impairment loss if applicable is provided to the extent the carrying amount of assets exceeds their recoverable amount and the same is charged to the Profit and Loss Account in the year in which an asset is identified as impaired.

d. Investments:

i. Non – Current Investments are stated at cost as they are made with long-term perspective. Provision for diminution, if any, in value of investments is made to recognize a decline other than temporary in the value of the investment and valuation is done on global basis.

ii. Membership shares of a Co-operative Housing Society related to office premise are included under Non - Current Investments.

iii. Profit / Loss on sale of Non – Current Investments is computed on FIFO basis.

Notes on Financial Statements for the Year Ended 31st March, 2013

e. Policy For Revenue Recognition:

- i. Revenue / Income and Cost / Expenditure are generally accounted on accrual basis as they are earned / incurred, except those with significant uncertainties.
- ii. Amounts recovered towards demurrage and delivery charges are accounted at the time when they are ultimately realised. Freight includes recoverable on undelivered consignments as certified by the management and recoveries for other allied services.
- iii. Income on account of Co-Loading and Cargo division is recognized on booking of courier & cargo load.
- iv. Income from Money transfer business is accounted for when the remittance amount is paid to the receiving party.
- v. Dividend income from investment is recognised as and when received.
- vi. Other incomes are accounted for on accrual basis except when the recovery is uncertain, it is accounted for on receipt basis.
- vii. Claims made against the Company are evaluated as to type thereof, period for which they are outstanding and appropriate provision made. Claims are stated net of recoveries from Insurance Companies and others.
- viii. Administrative and other expenses are stated net of recoveries wherever applicable.

f. Retirement Benefits (Staff Benefits):

- i. The Company has taken a policy with Life Insurance Corporation of India under the Group Gratuity Scheme to cover gratuity liability to the extent of Rs.10,00,000/- per employee and the premium is accrued on yearly basis. Additional liability if any, in excess of Rs.10,00,000/- per employee is provided for on payment basis in respect of gratuity entitlement.
- ii. Leave encashment is accounted on the basis of actuarial valuation as at the close of the financial year.

g. Foreign Currency Transactions:

- i. Current Assets / Liabilities denominated in foreign currency are restated at the rates prevailing at the year end or at the rates at which forward cover has been booked, whichever is applicable.
- ii. Difference, if any, on settlement / restatement is taken to Profit and Loss Account.

h. Taxes on Income:

- i. Current tax is determined as the amount of tax payable in respect of taxable income for the year.
- ii. Deferred tax liabilities and assets are recognised at substantively enacted tax rates, subject to the consideration of prudence, on timing difference, being the difference between taxable income and accounting income that originate in one year and are capable of reversal in one or more subsequent years. Deferred tax assets are recognised and carried forward only to the extent there is a reasonable certainty that sufficient future taxable income will be available against such deferred tax can be realised.

i. Provision and contingencies:

A provision is recognized when the company has legal and constructive obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. A contingent liability is disclosed when the company has possible or present obligation where it is not certain that an outflow of resources will be required to settle it. Contingent assets are neither recognized nor disclosed.

Dear Shareholder(s)

Sub.: NECS Mandate / Bank account details to be submitted by shareholders.

Securities and Exchange Board of India (SEBI) has directed the Companies to remit the dividend to their shareholders by way of National Electronic Clearing Service (NECS). If a shareholder does not opt for the NECS then the Company is required to print the bank account details of the shareholder on the dividend warrant.

We have the NECS facility for our shareholders and the coverage of the facility depends upon the response of shareholders.

The dividend of shareholders who have decided to opt for the NECS facility, will be directly credited to their bank account of which details are submitted by them. An intimation will be separately sent to shareholders giving the details of the credit of dividend, after the same is credited to their bank accounts.

If you decide to avail of the NECS facility, you are requested to fill up the enclosed 'NECS Mandate form' and send the same on or before 23rd September 2013 to your Depository Participant (DP) in case you hold the shares of the Company in the dematerialized form AND to the Share Transfer Agents of the Company if you hold the shares of the Company in the physical form.

Even if you decide not to avail of the NECS facility to be extended by the Company, you are still requested to fill up the enclosed 'Bank Account Details Mandate form' and send the same on or before 23rd September 2013, to the Share Transfer Agents of the Company, so that your bank account details can be printed on your dividend warrant to avoid fraudulent encashment.

Thanking you,

Yours' faithfully,

For PATEL INTEGRATED LOGISTICS LIMITED
