EXPLANATORY STATEMENT IN RESPECT OF SPECIAL BUSINESS PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item No. 3 and 4:

The Members are hereby informed that pursuant to the provisions of Regulation 17 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended by SEBI (Listing Obligations and Disclosure Requirements) (Amendment) Regulations, 2018 notified on June 7, 2018 and effective from April 1, 2019 (Listing Regulations), no listed entity shall appoint a person or continue the directorship of any person as a non-executive director who has attained the age of seventy five years unless a special resolution is passed to that effect.

The Members are further informed that Shri Basant Lall Shaw (DIN 00249729), Non- Executive Director and Chairman of the Company for life is of 85 years of age and Shri Darshan Kumar Sahni (DIN 01375173) who was appointed as Director (Independent) at the Annual General Meeting of the Company held on 29th September, 2016 for the term of 5 (Five) years w.e.f. 22nd September, 2016 to 21st September, 2021 has also attained the age of 75 years, so their continuance as director is required to be approved by the Members of the Company by way of Special Resolution as per the above amendment in Listing Regulations.

As the Members are aware that Shri Basant Lall Shaw is associated with the Company since its inception and is the founder Promoter of your Company. He has an experience of over 58 years in the Iron & Steel Industry and his guidance and valuable advice plays a major role in the overall working and growth of the Company and therefore, his continuance as the Non – Executive Director of the Company is desirable.

Further, Shri Darshan Kumar Sahni has a vast experience in the opencast and underground mining and held several key positions in Manganese Ore (India) Limited including the position of CMD for more than 8 years and his continued association with the Company would be of immense benefit to the Company, therefore it is desirable to continue him as an Independent Director of the Company.

The Board of Directors of your Company based on the recommendation of Nomination and Remuneration Committee of the Board keeping in view the interest of the Company recommend the resolutions set out at item no. 3 and 4 of the notice related to the continuation of appointment of Shri Basant Lall Shaw as Director liable to retire by rotation and Shri Darshan Kumar Sahni as an Independent Director for the remaining period of his term i.e., upto 21st September, 2021 respectively for the approval of Members by way of Special Resolutions.

Except Shri Darshan Kumar Sahni, none of the other Directors / Key Managerial Personnel of the Company / their relatives is, in any way, concerned or interested in the resolution for continuation of Directorship of Shri Darshan Kumar Sahni.

Except, Shri Arbind Jayaswal, Managing Director & CEO (Foundry Division), Shri Ramesh Jayaswal, Joint Managing Director & CEO (Steel Plant Division) and their relatives, none of the other Directors / Key Managerial Personnel of the Company / their relatives is, in any way, concerned or interested in the resolution for continuation of Directorship of Shri Basant Lall Shaw.

Item No. 5:

Pursuant to the provisions of the Sections 161, 149, 152 and other applicable provisions, if any, of the Companies Act, 2013 ('Act') read with Schedule IV to the Act and the Companies (Appointment and Qualification of Directors) Rules, 2014 (including any statutory modification(s) and re-enactment(s) thereof for the time being in force and SEBI (Listing

Obligations and Disclosure Requirements) Regulations, 2015, the Board of Directors of the Company vide its meeting dated 27th July, 2018 has appointed Shri Rajendra Prasad Mohanka as an Additional Director (Independent) of the Company, who hold the office as an Additional Director till the conclusion of this Annual General Meeting. The Board also recommended for the approval of the members the appointment of Shri Rajendra Prasad Mohanka, as an Independent Director of the Company for a term of 5 (Five) consecutive years from 27th July, 2018 to 26th July, 2023.

Shri Rajendra Prasad Mohanka is not disqualified from being appointed as a Director of the Company in terms of Section 164 of the Act.

The Company has also received declaration from Shri Rajendra Prasad Mohanka, that he meets the criteria of independence as provided in sub-section (6) of Section 149 of the Act and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

In the opinion of the Board, Shri Rajendra Prasad Mohanka, fulfils the criteria specified in the Act and Rules made thereunder and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, for his appointment as an Independent Director of the Company.

The Company has received notice in writing from a Member along with the deposit of the requisite amount under Section 160 of the Act proposing the candidature of Shri Rajendra Prasad Mohanka, as an Independent Director of the Company.

Brief profile along with other particulars of Shri Mohanka, as required by SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, is attached as annexure to this Notice. Shri Mohanka is not related to any other Director of the Company.

Copy of the letter of appointment of Shri Rajendra Prasad Mohanka as an Independent Director setting out the terms and conditions is available for inspection by Members at the Registered Office of the Company on all working days, except Saturdays, during business hours up to the date of the Meeting.

Except, Shri Rajendra Prasad Mohanka, none of the other Directors / Key Managerial Personnel of the Company / their relatives is, in any way, concerned or interested in the said resolution.

Keeping in view his vast experience and expertise, it will be in the interest of the Company that Shri Mohanka's appointment as an Independent Director is approved by shareholders hence, the Board recommends the resolution set out at Item No. 5 of the Notice for Shareholders' approval as an Ordinary Resolution.

Item No. 6:

Pursuant to Section 188 of the Companies Act, 2013 ("the Act"), read with Rule 15 of the Companies (Meetings of Board and its Powers) Rules, 2014 the Company is required to obtain prior approval of the members by way of resolution in case of sale, purchase or supply/availing of any goods, materials or services to/from any of its related parties, directly or through appointment of agent exceeding amount equivalent to ten per cent of the turnover of the Company or Rupees One Hundred Crore, whichever is lower. The aforesaid provisions are not applicable in respect of transactions entered into by the Company in the ordinary course of business and on an arm's length basis.

The Company in its ordinary course of business and on arm's length basis sells and purchases materials to/from different parties. NSSL Private Limited is one of the related parties of the Company engaged in the business of manufacturing Industrial Valves and has a Specialized Machining Division in Nagpur. The purchase of material/products/services from NSSL Private Limited is dependent on the requirement of the Company and the ability of NSSL to supply them to the Company. During the course of its business the Company also sells its products to NSSL Private Limited.

The transactions likely to be entered by the Company with NSSL Private Limited during the period from 1st April, 2019 to 31st March, 2020 are as follows:

Sr. No.	Nature of Transactions	Value of Transactions (Rs. in Lacs)
Estimated Purchase of Goods by the Company from NSSL Private Limited		
		From 1st April, 2019 to 31st March, 2020
1.	Automotive & Tractor components for Engine & Transmission such as Cylinder Heads, Housings, Hubs, Axles etc.	14000.00
2.	Machining Charges	125.00

3.	Iron & Steel Scrap	250.00
	Total Estimated Purchase of Goods	14375.00
Estimated Sale of Goods by the Company to NSSL Private Limited		
1.	Iron & Steel Castings	12700.00
	Total Estimated Sale of Goods	12700.00
	Total Estimated Transaction Value	27075.00

As the total amount of the transactions of the Company with NSSL Private Limited during the financial year 2019-20 as specified above is likely to exceed the limits prescribed under Section 188 of the Act hence the transactions between the Company and NSSL Private Limited during the period from 1st April, 2019 to 31st March, 2020 as specified above needs the approval of the Members of the Company as per Section 188 of the Act. The Board of Directors of the Company recommend the resolution set out at item no. 6 of the notice for Shareholders' approval as an Ordinary Resolution.

The other particulars related to the above transactions are as under: -

Name of the related party	Name of the Director or Key Managerial Personnel who is related, if any	Nature of Relationship	Nature, Material Terms, Monetary Value and Particulars of the contracts or arrangements	Any other information relevant or important for the members to take a decision on the proposed resolution
NSSL Private Limited	Shri Basant Lall Shaw, Chairman	Member in NSSL Private Limited holding 1.94% shares.	For details of transactions, kindly refer the table given above.	The Transactions are in the Ordinary course of Business and are at Arm's Length Basis. Though approval of shareholders would not be required under the provisions of Section 188 of the Act and the Rules framed thereunder for the above specified transactions with NSSL Private Limited, the same is being sought as an abundant precautionary measure. Shri Anand Jayaswal, Managing Director of NSSL Private Limited is the relative of Shri Basant Lall Shaw, Shri Arbind Jayaswal and Shri Ramesh Jayaswal, being the members of Hindu Undivided Family and is also the son of Shri Arbind Jayaswal.
	Shri Arbind Jayaswal, Managing Director & CEO (Foundry Division)	Member in NSSL Private Limited holding 4.31% of shares.		
	Shri Ramesh Jayaswal, Joint Managing Director & CEO (Steel Plant Division)	Member in NSSL Private Limited holding 2.77% of shares.

Tax Expenses	(100.68)	(35.86)
Profit / (Loss) after Tax carried to Balance Sheet	(491.36)	(459.31)

Your Company has not carried any amount to reserves and the amount of Loss after tax of Rs. 491.36 crores has been carried to Balance Sheet and adjusted against retained earnings.

2. DIVIDEND:

Due to absence of profits your Directors regret their inability to recommend declaration of dividend for the year to the Members of the Company.

3. MANAGEMENT DISCUSSION AND ANALYSIS:

Management Discussion and Analysis Report for the year under review giving detailed analysis of the Company's operations, segment-wise performance etc., as stipulated under Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, is given herein below and forms part of this report.

A] Financial Performance:

Your Directors wish to inform that the year under review continued to be a very challenging one with multiple challenges being faced by the Company on financial as well as legal front.

Despite the challenges the Company tried to optimize the production and plant yield through efficient use of resources. Company's Net Sales from operations for the year stood at Rs. 3477.40 Crores and has increased approximately by 37.41% than the previous year's Net Sales from operations of Rs. 2,530.62 Crores. During the year Net Sales has increased mainly due to increased capacity utilisation of new Steel Making Facility, Pellet Plant and increase in selling prices of Iron and Rolled products.

The operations were well supported by the marketing department. The marketing team has been focused on selling high-end value added products (Rolled Products) with Applications in automotive and Auto components segment, thereby ensuring that realisations were better.

The Company was able to record reasonable earnings (EBIDTA). The Company's Earnings before Interest Depreciation and Tax (EBIDTA) level during the year was at Rs. 332.07 Crores as against Rs. 308.86 Crores for the previous year.

The Net Loss before Exceptional Items and Tax for the year stood at Rs. 599.10 Crores and Net loss after Tax for the year stood at Rs. 491.36 Crores.

During the year, the Net Worth of the Company has decreased to Rs. 1149.89 Crores from Rs. 1637.48 Crores in the previous year on account of the losses recorded mainly due to less than expected contribution margin to cover the fixed costs (interest and depreciation) on the newly capitalized projects.

B] Share Capital:

During the year under review, the Company has increased the Authorised Share Capital from Rs. 10,00,00,00,000/- (Rupees One Thousand Crores only) divided into 1,00,00,00,000 (One Hundred Crores) Equity Shares of Rs.10/- each to Rs. 25,00,00,00,000/- (Rupees Two Thousand Five Hundred Crores only) divided into 2,50,00,00,000 (Two Hundred Fifty Crores) Equity Shares of Rs. 10/- each. Further, the Company has not issued any shares including shares with differential voting rights as to dividend, voting or otherwise nor granted stock option or sweat equity.

Segment wise performance for the year under review is as under:

i) Steel Plant Division:

Net Sales from operations during the year has increased to Rs. 3,087.20 Crores as compared to Rs. 2,160.38 Crores of the previous year.

The production levels of the Steel Melt Shop during 2017-18 was at around 128% of the previous year and the production levels of the Rolling Mills was around 129% of the previous year. The Hot Metal production level was around 99% of the previous year. Pellet production level was around 146% of the previous year. The Sponge Iron production level was around 93 % of the previous year. The Net Sales has increased mainly due to increased capacity utilisation of new Steel Making Facility, Pellet Plant and increase in selling prices of Iron and Rolled products.

The share of metallics sales value i.e. pig iron, sponge iron and pellet to total Steel Plant Division sales was around 29% in 2017-18 which is approximately 5% lower than the previous year figure of 34% as the Company focussed more on the production and sale of value added finished steel products.

Going forward the Company expects to further increase the production of finished steel in its overall sales by gradually ramping up the capacity utilisation of its new Steel Making Facility.

ii) Castings Division:

Net Sales from the Foundry Division has increased to Rs. 390.20 Crores during the year from Rs. 370.24 Crores in the Financial Year 2016-17.

The Automotive Castings Sub Division accounted for around 40%, the Centrifugal Castings Sub Division for around 27%, Engineering Castings Sub Division for around 26% and the Construction Casting Sub Division for around 7% of the total Foundry Division Net Sales.

C) Restructuring of Term Loans:

The Company underwent significant financial stress in the last four years due to cancellation of its three captive coal mines which resulted in significant viability issues of the end use Iron and Steel making facilities, payment of additional levy on mined coal as per Hon'ble Supreme Court order, huge dumping of steel in the country which resulted in the low capacity utilisation of its new Steel Making Facilities and unavailability of incremental working capital support due to Reserve Bank of India's (RBI's) Asset Quality review classifying the Company's accounts as technical Non-Performing Asset from back date effect. Hence the Company had requested its lenders to restructure its debts.

Company's Debt Restructuring Scheme has already been sanctioned by 11 out of 12 lenders (around 96% in value) and out of the sanctioned 11 lenders, 10 lenders (Including Lead Bank - SBI) had already executed Master Restructuring Agreement (MRA) on 12th December 2017.

The Company has complied with all the pre-conditions including bringing the upfront promoters' contribution of Rs. 100.38 Crores (Consisting of Share Application Money of Rs. 58.00 Crores in designated Account with SBI and Rs. 42.38 Crores by way of conversion of existing unsecured loan into Equity), Independent Evaluation Committee (IEC) recommendation and Investment Grade rating from two Credit Rating Agencies (CRA) CARE & SMERA appointed by SBI (Lead Lender) on the instructions of the erstwhile JLF, have been complied with.

The Lenders appointed CRAs, CARE & SMERA had given Investment Grade Rating, however, RBI had appointed India Rating & Research Pvt Ltd (IRRPL), who could not give Investment Grade Rating in only 3 working days (from the RBI appointment date), before RBI stipulated timeline of 13th December, 2017.

However, on the directions of Reserve Bank of India (RBI), which had not agreed to the approved Debt Restructuring Scheme being fully implemented within the stipulated time line of 13th December 2017, State Bank of India (SBI), the lead secured lender, had filed an application under Section 7 of the Insolvency and Bankruptcy Code, 2016, against the Company, claiming an amount of Rs. 51383.41 lakhs being in default as on 30th November 2017. The matter is currently in pre-admission stage before the National Company Law Tribunal (NCLT), Mumbai.

Being aggrieved by the non-implementation of the approved Debt Restructuring Scheme, the Company had filed Writ Petition (WP) before the Hon'ble Bombay High Court, Mumbai, against the RBI and the other respondents, raising various questions of law and challenging various communications issued by the RBI from time to time, which had adversely affected the implementation of the approved Debt Restructuring Scheme of the Company. The Hon'ble Bombay High Court had dismissed the WP of the Company.

The Company has challenged the judgment of the Hon'ble Bombay High Court before the Hon'ble Supreme Court of India and subsequent to the year end, on 16th April 2018 the Hon'ble Supreme Court was pleased to issue notice and directed parties to maintain status quo. Presently the matter is subjudiced.

Your Company sincerely believes and is quite hopeful, to achieve better performance in terms of serviceability of its financial obligations under the Debt Restructuring Scheme, deployment of capital and resources, etc.

The Company also strongly believes that all the parameter / ratios as stipulated in the Debt Restructuring Scheme are achievable and can be complied with, in case the Debt Restructuring Scheme is implemented by the lenders.

Besides this in the last six months the steel sector in India has improved, the margins and orders of the Company have improved, further all the lenders of the Company are continually supporting the operations of the Company; accordingly the Management is of the view that the above circumstances will not affect the operations of the Company and continued to prepare the books of accounts on Going Concern basis.

D] Projects:

The Company with a view to set up end use projects for its captive coal mines which were although subsequently deallocated, optimize costs, increase the extent of value addition in the long product segment had commenced implementation of various facilities in the State of Chhattisgarh.

All the under implementation projects of the Company have been completed except the 3.0 Lakhs TPA DRI Plant (Sponge Iron Plant) & it's Associated Captive Power Plant at Bilaspur district in Chhattisgarh.

The same is under implementation stage, however it was decided in the erstwhile Joint Lender's Forum (JLF) meeting held on April 25, 2017 that the said project to be kept in abeyance and no further investment to be done in the Sponge Iron Plant & Associated Captive Power Plant unit at Bilaspur by Company due to its commercial unviability. It was also decided by the JLF forum that the said project would be Non-Core Asset of the Company.

Subsequently on 9th June 2017, the Directorate of Enforcement has provisionally attached the plant and machinery under installation at Dagori Integrated steel plant situated at Bilaspur district to the extent of Rs. 20616.40 lakhs for alleged misuse of coal raised from Gare Palma IV/4 coal block at Chhattisgarh.

The Company had challenged the provisional attachment order before the Adjudicating Authority. The Adjudicating Authority, confirmed the Provisional Attachment Order.

The Company then filed appeal against the order passed by the Adjudicating Authority, before the Appellate Authority. The Appellate Authority vide its order dated 12th February 2018 was pleased to issue notice to Directorate of Enforcement and also directed Directorate of Enforcement not to take any coercive steps. The Company has a good case on merits, is likely to succeed in refuting the allegations and does not expect any material liability on the Company on this account.

E] Industry Outlook, Developments and Concerns:

India was the world's third-largest steel producer in Calendar Year (CY) 2017. The growth in the Indian steel sector has been driven by domestic availability of raw materials such as iron ore, strong demand and cost-effective labour. Consequently, the steel sector- part of the Core Sector has been a major contributor to India's manufacturing output.

Global steel production reached 1,691.2 MT for the CY 2017, up by 5.3 per cent compared to CY 2016 when the output was 1,606.3 MT. World crude steel production was 426.6 Mt in the first three months of CY 2018, up by 4.1% compared to the same period in 2017.

Top 10 steel-producing countries-Calendar Year (CY) 2017 Vs 2016

Rank	Country	2017 (Mt)	2016 (Mt)	% 2017/2016
1	China	831.7	786.9	5.7
2	Japan	104.7	104.8	-0.1
3	India	101.4	95.5	6.2
4	United States	81.6	78.5	4.0
5	Russia (e)	71.3	70.5	1.3
6	South Korea	71.1	68.6	3.7
7	Germany (e)	43.6	42.1	3.5
8	Turkey	37.5	33.2	13.1
9	Brazil	34.4	31.3	9.9
10	Italy	24.0	23.4	2.9

India's crude steel production grew by 6.2 per cent to 101.4 million tonnes (MT) in CY 2017 compared to 95.5 MT in the previous year.

Crude steel production of India reached to 102.331 MT during the April-March 2017-18 period.

The Exports and Imports of iron and steel by India stood at 14.6 MT and 13.1 MT respectively during the April-February 2017-18 period.

India, in fact, has been a net exporter of steel and has surpassed Japan in March, 2018 to be the world's second largest steel producer and also become the second largest exporter of the steel.

The Total consumption of finished steel in India stood at 81.943 MT during the April-February 2017-18 period.

China remained the world leader by producing 831.7 MT in CY 2017, up 5.7 per cent from 786.9 MT in the CY 2016. However, China seem no longer interested in keeping open capital-intensive units that are racking up losses. In 2016 and 2017, it phased out 115 MT of capacity and is aiming to further cut production by 30 MT in 2018. Marginal producers fell a foul of the country's new environmental norms and have been shut down.

Japan, the second largest global steel producer till CY 17, witnessed a negative growth as steel output declined by 0.1 per cent to 104.7 MT in CY 2017 from 104.8 MT in CY 2016.

The crude steel capacity utilisation ratio of the 64 countries (accounted for approximately 99% of total world crude steel production) in March 2018 was 74.5%. This is 2.2 percentage points higher than March 2017. Compared to February 2018, it is 0.9 percentage points higher.

Steel industry and its associated mining and metallurgy sectors have seen a number of major investments and developments in the recent past in India. The India's National Steel Policy (2017), which projected crude steel production capacity will increase to 300 MT per year for 2030-31 from 100-110 MT now, seeks to create a globally competitive steel industry in India and to domestically meet entire demand of high grade automotive steel, electrical steel, special steels and alloys for strategic applications.

The likely growth in rural economy and infrastructure is expected to lead to growth in demand for steel. Further the government of India has also launched e-platform which will facilitate sale of finished and semi-finished steel products.

Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors. The higher consumption crucially dependent on infrastructure investment from public and private sources in port, rail and road-led development, more spending by the household and the government in real estate, affordable housing, smart cities would enable the demand growth.

Global steel demand came in at 1,587 million tonnes in CY 17, according to the World Steel Association's April short range outlook report, falling 2.2% short of its October prediction of 1,622 million tonnes for CY 17. The main reason for the cuts is lower-than-expected demand in China, which is forecast to decline in 2019 also.

On the brighter side, India's domestic steel demand is strong. It was in line with the 2017 forecast and the demand is expected to increase by 5.5% in 2018 and 6% in 2019. That makes India the fastest growing market for steel amongst the top 10 largest steel markets by volume.

While that gives domestic companies an edge, higher domestic supply also means exports will continue. This growth has been supported by a strong pick-up in infrastructure execution in the past year.

The recently formed Global Steel Forum has acknowledged India's capacity expansion of steel as a function of growing consumption in the domestic market.

The prices of finished steel has been witnessing a slightly upward curve enabling the steel producers to improve their earnings and ease out the liquidity challenges faced by them in the last couple of years due to dumping of steel from China, Korea, Russia and Japan. Further the Iron Ore prices have also shown an upward trend internationally and is seen in India as well thus shrinking the margins.

Law and order problems in the Iron Ore Mining belts in the State of Chhattisgarh is still continuing to be a matter of concern for the Company creating serious problems for governmental and social machineries. Though the Company has commenced mining from couple of its iron ore mines, operationalization of other captive Iron Ore Mines in the Chhattisgarh belt have been delayed due to law and order issues.

The Company being in the Alloy Steel Segment (long product) is gradually ramping up the operations of its new Steel Melting Shop and Rolling Mill, however finding market for the products amidst subdued demand and legal issues being faced by the Company on account of NCLT related issues is a major challenge and area of concern for the Company.

The same has partially affected the price negotiations with its customers and the credit period enjoyed by the Company from its suppliers. The Company has to purchase its vital raw materials at sight basis or on cash basis which is affecting the cash/working capital cycle.

F] Internal Control Systems:

The Board of Directors of the Company is responsible for ensuring that Internal Financial Controls have been laid down in the Company and that such controls are adequate and operating effectively.

The Company has an Internal Control System, commensurate with the size, scale and nature of its business. It's a risk focused system, analyzing and reporting to the management on the day to day operations of the Company.

The Internal Audit Department monitors and evaluates the efficacy and adequacy of internal control system in the Company, its compliance with operating systems, accounting procedures, policies and rules & regulations at all the locations of the Company.

On the basis of the report of the internal audit department, the respective department or functional head undertakes corrective action in their respective areas and thereby strengthen the controls. Internal Audit Department presents significant audit observations and corrective actions thereon to the Audit Committee of the Board.

G] Industrial Relations:

Industrial Relations in all the Divisions of the Company remained cordial and harmonious. During the year, average number of persons working in the Company was around 7610 .

H] Material Development in Human Resources, Programs Designed and Undertaken for Development of Human Resource:

The following measures were taken to develop Human Resources in the organization:

1. Introduction of New Performance Management System

The Company has made a new Performance Management System for Steel Plant Division and implemented from previous year. As per the system, Performance Standard of each Department will be fixed first and later individual target will flow from Department targets. Under the system, individual ratings will be drawn out and rewards will be announced as per the performance ratings i.e. A, B, C, D.

2. Revision of Organization Structure, Design and Processes:

The Levels (Grade) in the organization has been increased from 11 to 14 w.e.f. 1st April, 2017. Moreover, seven designations each in Level 1, 2 & 3 were incorporated against the only one previous designation. However, functional / domain responsibility has not been changed. The designations in many of the levels were changed to match with Industry norms. A Policy for promotion and up-gradation has also been made and implemented with effect from 1st April, 2017 as per the approved fitment policy. Job bands were also created to upgrade employees from time to time.

Key measures adopted for the Health, Safety and Welfare of Human Resource

i) Introduction of Safety Month in a particular Department:

Every month a particular Dept. is selected where safety team interact with employees and make them aware of the good safety practices to be adopted while working. Talks on Hazardous working conditions and near miss areas are identified in consultation with employees. This has helped to develop safety consciousness amongst employees.

ii) Performance Assessment of Contractors:

The performance of the Contractors are being rated every month and a meeting with Unit Head is being done. Contractor, who is not complying with safety aspects are slapped with penalty as per the nature of the non-compliance. Contractor have to ensure use of PPE's by the workers and safe working condition are provided to them. This helped the workers to be disciplined towards safety habits.

iii) Medical Check-up of all employees and health related awareness camp in regular intervals:

Medical check-up of the employees as per statutory requirement is conducted, besides this medical check-up of contract labourer are also organized. Health Talk and medical check-up camps on various health related issues by renowned Medical Consultants are also organized.

I] Corporate Social Responsibility:

Corporate Social Responsibility for the Company entails much more than social outreach programs and is an integral part of the way the Company conducts its business. As a part of its social responsibility and as a good corporate citizen, the Company regularly undertakes various programs and projects with a view to promote and protect a congenial and eco-friendly atmosphere in and around the plants and mines and to serve and contribute to the welfare of the society in general.

During the year under review the Board of your Company approved a comprehensive CSR Budget and the CSR activities planned for the financial year 2017-18 on recommendation of CSR Committee and since then it is pursuing the CSR programs and projects as per its approved Corporate Social Responsibility Policy.

As part of its initiatives under “Corporate Social Responsibility” (CSR), the Company has undertaken projects and programs in the areas like Healthcare, Sanitation, Provision of Safe Drinking Water, Eradication of Hunger, Poverty and Malnutrition, Promotion of Education and Imparting Training, Women Empowerment, Promotion of Traditional Art and Culture, Environmental Sustainability, Development of Nationally Recognized Sports and Rural Sports, Programs and Training for development and upliftment of rural masses especially women, youths and girls and Development of Infrastructural facilities in rural areas. These projects and programs are largely in accordance with Schedule VII of the Companies Act, 2013.

During the year under review some of the CSR activities undertaken by the Company in and around the Plants and Mining Areas are as follows:

- i. Health & Eye check-up/awareness camp, Medicine supply to poor, hospitals and health camps, Provision of safe drinking water, Installation/repairing of hand pumps, solar water tanks, solar water pumps, submersible pumps and drilling for Borewells, water supply by tankers in villages, Provision of mid-day meal to weaker section of the society, Distribution of nutritious food and fruits to the malnourished children of mines peripheral villages and to poor, Organizing sanitation awareness programs.

During the Financial Year 2017-18 though the Company was not statutorily required to spend on CSR activities and it continued to be classified as Non-Performing Asset (NPA) by the Banks despite this and all other odds it spent Rs. 209.24 lacs on CSR activities and thus has been able to increase the amount spent on the CSR activities during the Financial Year 2017-18 as compared to previous financial year's Rs. 104.42 lacs.

The Annual Report on CSR activities is attached as “**Annexure A**” and forms part of this report.

4. AUDITORS' REPORT:

Auditors Report on the financial statements of the Company for the year ended 31st March, 2018 is self-explanatory except a qualification which have been specified herein below along with Boards explanation thereto:

AUDITORS' QUALIFICATION

As mentioned in Note no. 19.09 to the Financial Statements, Non-Current Borrowings include an amount of Rs. 254,530.94 Lakhs due to certain banks. As per the arrangements with these banks, the Company is required to comply with certain covenants as referred in the said note and non-compliance with these covenants may give rights to the banks to demand repayment of the loans. As at 31st March, 2018, the Company has not complied with certain covenants and they have not been provided with any confirmation from the banks for extension of time to comply with these covenants. Further the Company has also received loan recall notice from one of the secured lenders in respect of non-current borrowings. The Company has not classified these liabilities as current liabilities as required by Ind-AS.

EXPLANATION TO AUDITORS' QUALIFICATION

Your Directors submit the following explanation to the above qualification of the Auditors:

The Management is of the view that the non-compliance of the loan covenants will not affect the continuity of the Company's operations and hence the Company continues to classify these borrowings as non-current.

5. DIRECTORS AND KEY MANAGERIAL PERSONNEL:

ANNEXURE - A

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES

1. A brief outline of the Company's CSR policy, including overview of projects or programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs –

Corporate Social Responsibility (CSR) lies within the functioning of the Corporate operations itself, which caters to the needs of the community and the regions in which it operates. It has now been realized and accepted that the government alone would not be able to ameliorate the dilapidated condition of the weaker sections of the society. A combined endeavour is needed from all who dwell in the society including the corporates.

CSR has become a global concern. But, Jayaswal Neco Industries Limited (JNIL) has always been aware of its Corporate Social Responsibility and has been fulfilling the aspirations of the society since long. It has adopted CSR as a strategic tool for the sustainable development of the society. For JNIL, CSR is not simply investment of funds for the social cause but linking of the business activity with the social activity.

Objective and Philosophy - The key objective of the CSR policy is to frame guidelines for JNIL to adopt CSR as a part of its business process for the sustainable growth of the society, work towards elimination of all hurdles for the social inclusion of the disadvantaged group such as the poor and the disabled, work for the economic and socio-cultural growth of the communities around which the Company operates. The objective will be to build a self-sustainable habitat that surrounds the units of the Company and to provide utmost attention to the children as in their hands lies the country's future and it is for their sake that the health, education and environment get the topmost priority in our CSR policy. Our ultimate aim is to serve the community in true sense.

With the aforesaid mission, the Corporate Social Responsibility Policy of the JNIL has been meticulously framed taking into account inter-alia the following main features:

- i. To take welfare measures for the community at large so that the poorer section of the society derives the utmost benefit;
- ii. To promote education, including special education and employment enhancing vocational skills among children, women, elderly and disabled persons to widen their livelihood prospects;
- iii. To set up old age home, to participate in the drive to eradicate poverty and malnutrition, to promote preventive and curative healthcare and sanitation;
- iv. To protect and safeguard environment and maintain ecological balance.

6. Commodity Price Risk and Hedging Activities

Fluctuation in commodity prices

Impact: The overall growth momentum and sentiments in the Indian steel industry have improved and it is expected that fluctuation in the finished rolled products prices would be within tolerance limits and the same would be negated with corresponding material costs change although with a lag effect. The Company's finished rolled products are in Alloy Steel-Long Products segment which has a structured market.

The Company imports coking coal and sources iron ore and fines and non-coking coal domestically.

During the last financial year, the imported coking coal prices almost remained flat in the last three quarters after showing decline in prices in the first quarter.

The Iron ore and ore fines prices had witnessed increase internationally and the same trend continued in India as well.

The Indian Steel Industry expects to gain momentum due to government reforms and policies with its announcement of large scale public infrastructure projects, domestic sourcing of steel for government tenders, smart cities, metro rail projects etc., and previous imposition of various anti-dumping and safeguard duties to protect the Indian Steel Industry from cheap imports.

The domestic steel demand is increasing and is expected to show gradual uptrend. There has been upward price revision in the Finished Steel products during the last quarter of the financial year.

However, with global Steel over capacity continuing and US hardening its stand on increasing tariffs on Steel imports, there would be pressure on the selling prices of finished steel globally which may impact the earnings of the Company in future.

Further global factors including environmental norms, policy issues of different governments, flooding etc. play a major role in sharp volatility in coking coal prices.

Mitigation/ Hedging: The Company has augmented its facilities couple of years back by creating large value addition steelmaking capacity as well as various cost reduction projects/ schemes which are expected to enable the Company to remain competitive by producing quality finished steel at low cost.

The Company's policy is to sell its products as per the prevailing market rates and it does not enter into any price hedging arrangements with its customers. The Company keeps a close watch on the steel prices to gauge its impact on its earnings.

The Company actively participates in price negotiation for its Alloy Steel products with its customers on periodic basis individually as well as through its association.

The Company constantly tries to scout for cheaper sources of quality iron ore and fines domestically, coking coal internationally and negotiates hard while procuring them.

For non-coking coal procurement, the Company has secured coal linkages in the year at good prices to ensure sustained supply of quality non-coking coal.

The Risk Management Committee of the Company reviews the commodity related risks and suggests ways to reduce the risks or mitigate the effects of the risks. The Company's key focus is on cost optimization in procurement and production, improvement of yields, reduction of wastages, delivering quality product to the customer in timely manner and customer satisfaction.

7. Foreign Exchange Risk and Hedging Activities

Currency exchange rate fluctuations

Impact: The majority of the earnings of the Company is in Indian Currency as its products are mainly sold in the domestic market. The Company's exports are marginal.

On the import front, the Company imports mainly coking coal as raw material from various countries where the exchange fluctuation may have a negative / positive impact on the Company's earnings.

Mitigation/ Hedging: The Company has a robust Foreign Exchange Management Policy and it has developed various controls in its forex management framework to proactively hedge its forex exposures by booking for forward covers to avoid unexpected forex losses. The Company is not engaged in any forex speculation or buying derivate products though.

The Risk Management Committee of the Company reviews the forex exposure and its hedging policy issues periodically and suggests various ways to the Company's business divisions for improvements and changes, if any.

INDEPENDENT AUDITORS' REPORT

**TO
THE MEMBERS OF JAYASWAL NECO INDUSTRIES LIMITED**

Report on the Financial Statements

We have audited the accompanying Financial Statements of **JAYASWAL NECO INDUSTRIES LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flow and the Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Financial Statements that give a true and fair view of the state of affairs (financial position), loss (financial performance including other comprehensive income), cash flows and the statement of changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards ('Ind AS') prescribed under Section 133 of the Act read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these Financial Statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the rules made thereunder.

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Financial Statements.

Basis for Qualified Opinion

As mentioned in Note no. 19.09 to the Financial Statements, Non Current Borrowings include an amount of Rs. 254,530.94 Lakhs due to certain banks. As per the arrangements with these banks, the Company is required to comply with certain covenants as referred in the said note and non-compliance with these covenants may give rights to the banks to demand repayment of the loans. As at 31st March, 2018, the Company has not complied with certain covenants and they have not been provided with any confirmation from the banks for extension of time to comply with these covenants. Further the Company has also received loan recall notice from one of the secured lenders in respect of non-current borrowings. The Company has not classified these liabilities as current liabilities as required by Ind AS.

Qualified Opinion

In our opinion and to the best of our information and according to the explanations given to us, *except for the possible effects of the matter described in the Para above 'Basis for Qualified Opinion'*, the aforesaid Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018 and its loss including other comprehensive income, its cash flows and the statement of changes in equity for the year ended on that date.

Emphasis of Matters

We draw your attention to the:

- a) Note no. 2.09 to the Financial Statements regarding the attachment of plant and machinery under installation at Dagori Integrated Steel Plant situated at Bilha, Bilaspur (Chhattisgarh) to the extent of Rs. 20,616.40 lakhs by the Directorate of Enforcement, which has been contested by the Company.
- b) Note no. 19.10 to the Financial Statements regarding preparation of Financial Statements of the Company on going concern basis, notwithstanding the fact that the Company has been incurring cash losses, its net worth has been eroded as on 31st March, 2018, loans have been called back by few of the secured lenders, application has been made to National Company Law Tribunal (NCLT), Mumbai, under section 7 of the Insolvency and Bankruptcy Code 2016 by State Bank of India, one of the secured lenders, which has been contested by the Company, for the reasons stated in the said note. These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as going concern. The appropriateness of assumption of going concern is critically dependent upon the Company's ability to raise requisite finance / generate cash flows in future to meet its obligations.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c. The Balance Sheet, the Statement of Profit and Loss (Including other comprehensive income), the Statement of Cash Flow and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - d. In our opinion, except the matter described in the "Basis for Qualified Opinion" paragraph above, the aforesaid Financial Statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act read with relevant rules thereunder;
 - e. The going concern matter described in subparagraph (b) under the "Emphasis of Matters" paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.
 - f. On the basis of the written representations received from the directors as on 31st March, 2018 and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
 - g. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Financial Statements as referred to in Note No. 2.07, 2.08, 2.09, 19.10, 23.04, 27.01 and 36 to the Financial Statements;

- ii. The Company has made provisions, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long term contracts including derivative contracts;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 (the Order) issued by the Central Government of India, in terms of Section 143(11) of the Act, we give in "**Annexure B**" hereto, a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “A” TO THE INDEPENDENT AUDITORS’ REPORT

(Referred to in paragraph 1 (g) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date to the members of Jayaswal Neco Industries Limited on the Financial Statements for the year ended 31st March, 2018)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **JAYASWAL NECO INDUSTRIES LIMITED** (‘the Company’) as of 31st March, 2018 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (‘the Guidance Note’) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards of Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

**ANNEXURE “B” TO INDEPENDENT AUDITORS’ REPORT**

(Referred to in paragraph 2 under the heading “Report on Other Legal and Regulatory Requirements” of our report of even date to the members of Jayaswal Neco Industries Limited on the Financial Statements for the year ended 31st March, 2018)

i. In respect of its fixed assets:

- a. The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets on the basis of available information.
- b. As explained to us, the Company has physically verified certain assets, in accordance with a phased program of verification, which in our opinion is reasonable, having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such physical verification as compared with the available records.
- c. According to the information and explanations given to us, the title deeds of immovable properties are generally in the name of the Company except in respect of 5 immovable properties at Raipur having the aggregate value of Rs. 31 lakhs in respect of which the documents are not registered in the name of the company with the concerned Government Authority and also in case of properties acquired by the entities or unit that have since been amalgamated/merged with the Company in pursuance to the scheme of amalgamation / demerger / arrangement approved by Hon’ble High Court and details of which are as under.:

(Rs. in lakhs)

Sr. No.	Particulars of the Land and Building	Leasehold/ Freehold Land / Building	Net Block as at 31st March, 2018	Remarks (give reasons for the exception)
1	4 immovable properties land at Raipur (1 agreement pledge with the lender)	Leasehold Land	1,841.85	2 title deeds are in the name of Corporate Ispat Alloys Limited, from where the unit demerged and acquired by the Company and 2 title deeds are in the name of Nagpur Alloy Castings Limited erstwhile Company that was amalgamated with the Company under the Companies Act, 1956.
2	7 immovable properties (land / building) at Raipur / Nagpur / Kolkata (4 agreements equitable mortgage with the lenders)	Free hold land / building	70.50	The title deeds are in the name of Jayaswals Neco Limited (earlier known as Jayaswal Chemical Private limited) erstwhile Company that was amalgamated with the Company under the Companies Act, 1956.

As informed to us, in respect of 59 immovable properties having the aggregate value of Rs. 721.91 lakhs the original title deeds have been deposited with the lenders as security, we have been produced photocopies of documents for those immovable properties and based on such documents, the title deeds are held in the name of the Company except 5 immovable properties as disclosed above.

ii. In respect of its inventories:

As explained to us, inventories have been physically verified during the year by the management, except for inventories in transit / job worker for which management confirmation has been received. In our opinion the frequency of verification is reasonable. Discrepancies noticed on physical verification of the inventories between the physical inventories and book records were not material, having regard to the size of the operations of the Company, and the same have been properly dealt with.

- iii. In respect of loans, secured or unsecured, granted by the Company to companies, firms, Limited liability partnerships or other parties covered in the register maintained under section 189 of the Act:
- In the earlier years the Company had granted unsecured loan to one such Company and the terms and conditions on which the loan had been granted were not, prima facie, prejudicial to the interest of the Company.
 - The terms of repayment of principal and payment of interest have been stipulated and during the year, the principal and interest were due for payment but due to the financial crisis the party has not paid the same.
 - The amount is overdue and the Company has considered the said loan and interest receivables as doubtful and has been fully provided for.
- iv. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, in respect of grant of loans, making investments and providing securities.
- v. According to the information and explanations given to us, the Company has not accepted any deposits from the public. Therefore, the provisions of clause (v) of paragraph 3 of the Order are not applicable to the Company.
- vi. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014 prescribed by the Central Government under Section 148(1) (d) of the Act, as applicable and are of the opinion that, prima facie, the prescribed accounts and records have been maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii. According to the information and explanations given to us in respect of statutory dues:
- The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income tax, Sales tax, Service tax, Customs Duty, Excise Duty, Value Added Tax, Cess, Goods and Service Tax and any other statutory dues with the appropriate authorities during the year except in certain cases. According to the information and explanations given to us, no undisputed amounts payable in respect of such statutory dues were outstanding as at 31st March, 2018 for a period of more than six months from the date they became payable.
 - Details of dues of Duty of Custom, Duty of Excise, Service Tax, Sales Tax and Value Added Tax aggregating to Rs. 1,809.89 lakhs that have not been deposited on account of disputed matters pending before appropriate authorities are as under:

Name of the Statutes	Nature of the Dues	Period to which it relates	Amounts (Rs. in lakhs) (*)	Forum where the dispute is pending

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

NOTE: 1

A CORPORATE INFORMATION

Jayaswal Neco Industries Limited ("the Company") is domiciled and incorporated in India under the provision of the Companies Act, 1956 and its shares are listed on the Bombay Stock Exchange ('BSE') and National Stock Exchange of India ('NSE'). The registered office of the Company is situated at F-8, MIDC Industrial Area, Hingna Road, Nagpur - 440016, Maharashtra, India and manufacturing facilities are located in the states of Chhattisgarh and Maharashtra, in India.

The Company is engaged in manufacture and supply of pig iron, sponge iron, pellet, steel and Iron & steel casting.

The financial statements of the Company for the year ended 31st March, 2018 were approved and adopted by Board of Directors in their meeting dated 30th April, 2018.

B BASIS OF PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS:

The financial statements of the Company have been prepared on a going concern basis and to comply with the Indian Accounting Standards (Ind AS), including the rules under the relevant provisions of the Companies Act, 2013.

The financial statements have been prepared on a historical cost basis except certain financial assets and liabilities, assets held for sale and defined benefit plans measured at fair value:

Financial Statements are presented in Indian rupees (Rs.), which is the Company's functional and presentation currency. All amounts are rounded to the nearest lakhs and two decimals thereof, except as stated otherwise.

C SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(I) PROPERTY, PLANT AND EQUIPMENT (PPE):

PPE are stated at cost net of recoverable taxes, less accumulated depreciation and impairment loss, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use, the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

In case of Property, Plant and Equipment, the Company has availed the carrying value as deemed cost on the date of transition i.e. 1st April, 2015.

PPE not ready for the intended use on the date of Balance Sheet are disclosed as "Capital Work-in-Progress" and expenses incurred relating to it, net of income earned during the project development stage, are disclosed as pre-operative expenses under "Capital Work-in-Progress".

Gains or losses arising from derecognition of a PPE are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Depreciation on PPE

- a) Depreciation on the PPE is provided to the extent of depreciable amount on the Straight Line Method over the useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in respect of following assets where the useful life is different than those prescribed in Schedule II as per technical evaluation:

Particulars	Useful life considered for depreciation
Various plants at its Integrated Steel Complex and Flat product making facilities at Raipur.	Over 40 years
Certain Plant and equipments including Furnace Sand Plants, Moulding Machines etc. Automotive Casting Division (II) at Nagpur.	Over 30 years

The Management believes that the useful lives as given above represent the period over which management expects to use these assets.

- b) PPE acquired under finance lease is depreciated on a straight line basis over the lease term.
- c) The leasehold land is amortised over the lease period.
- d) Depreciation on PPE which are added / disposed off during the year is provided on pro-rata basis with reference to the date of addition / deletion. Freehold land is not depreciated.
- e) The residual values, useful lives and method of depreciation of PPE are reviewed at each reporting date and adjusted prospectively, if appropriate.

(II) INTANGIBLE ASSETS:

Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortisation and impairment loss, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use.

In case of Intangible Assets the Company has availed the carrying value as deemed cost on the date of transition i.e. 1st April, 2015.

The Company does not have any intangible assets having indefinite life. Intangible assets are amortised on a straight line method based on useful lives estimated by the management. Technical Know-how is amortised over the useful life of the underlying plant. Softwares are amortised over a period of three years and Indefeasible Right to Use has been amortised over the period of the agreement.

Intangible assets not ready for the intended use on the date of Balance Sheet are disclosed as "Intangible Assets under Development" and expenses incurred relating to it, net of income earned during the development stage, are disclosed as pre-operative expenses under "Intangible Assets under Development."

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

(III) MINING RIGHTS /MINE DEVELOPMENT EXPENDITURE:

Mining rights / mine development expenditure includes leases, costs incurred for acquiring / developing properties / rights up to the stage of commercial production. If the exploration activities are found to be not fruitful, the expenditure on such exploratory work included in mine development expenditure is written off in the year in which it is decided to abandon the project.

Mining rights / Mine development expenditure are depreciated over the useful life of the mine or lease period whichever is shorter.

(IV) LEASES:

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. All other leases are classified as operating leases.

Assets held under finance leases are initially recognised as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised as finance costs in the statement of profit and loss.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

(V) IMPAIRMENT OF NON FINANCIAL ASSETS – PPE AND INTANGIBLE ASSETS:

The Company assesses at each reporting date as to whether there is any indication that any PPE and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

(VI) INVENTORIES:

The inventories i.e. Raw Materials, Stores and Spares, Finished Goods etc. are measured at lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. The cost of inventories comprise of all costs of purchase, costs of conversion and other costs incurred in bringing them to their respective present location and condition.

The cost of Raw Materials and Stores & Spares are determined at first-in-first-out method and weighted average method respectively. By-products are measured at net realisable value. The cost of Work-In-Progress and Finished Goods is determined on absorption costing method.

(VII) CASH AND CASH EQUIVALENT:

Cash and cash equivalent in the balance sheet comprise cash at banks, on hand, cheques in hand, and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

(VIII) NON CURRENT ASSETS HELD FOR SALE:

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when a sale is highly probable from the date of classification, management are committed to the sale and the asset is available for immediate sale in its present condition. Non-current assets are classified as held for sale from the date these conditions are met and are measured at the lower of carrying amount and fair value less cost to sell. Any resulting impairment loss is recognised in the statement of profit and loss as a separate line item. On classification as held for sale the assets are no longer depreciated. Assets and liabilities classified as held for sale are presented separately as current items in the Balance Sheet.

(IX) FINANCIAL INSTRUMENTS:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial Assets -Initial recognition and measurement

All financial assets are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost. Purchase and sale of financial assets are recognised using trade date accounting.

(ii) Financial Assets -Subsequent measurement
a) Financial Assets carried at amortised cost (AC)

Financial assets are measured at amortised cost if it is held within a business model whose objective is to hold asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial Assets measured at fair value through other comprehensive income (FVTOCI)

Financial assets are measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling of financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

c) Financial Assets measured at fair value through profit and loss (FVTPL)

A financial asset which is not classified in any of the above categories is measured at FVTPL.

(iii) Financial Assets - Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's Balance Sheet) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flow from the asset.

(iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

(v) Financial Liabilities - Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

(vi) Financial Liabilities - Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(vii) Financial Liabilities – Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another, from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(viii) Reclassification of Financial Assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

(ix) Offsetting of Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable rights to offset the recognised amounts and there is an intention to settle on a net basis, to realise the asset and settle the liability simultaneously. The legally enforceable rights must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

(X) FAIR VALUE MEASUREMENT:

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy.

(XI) PROVISION, CONTINGENT LIABILITIES AND CONTINGENT ASSETS AND COMMITMENTS

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the statement of profit and loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

Decommissioning Liability

The Company records a provision for decommissioning costs towards site restoration activity related to leasehold land. The decommissioning costs are provided at the present value of future expenditure using a current pre tax rate expected to be incurred to fulfill decommissioning obligations and are recognised as part of the cost of the underlying assets. Any change in the present value of the expenditure, other than unwinding of discount on the provision, is reflected as adjustment to the provision and the corresponding assets. The change in the provision due to the unwinding of discount is recognised in the statement of Profit and Loss.

(XII) CURRENT AND NON-CURRENT CLASSIFICATION:

The Company presents assets and liabilities in statement of financial position based on current/non-current classification.

The Company has presented non-current assets and current assets, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by Ministry of Corporate Affairs (MCA).

An asset is current when it is:

- a) Expected to be realised or intended to sold or consumed in normal operating cycle.
- b) Held primarily for the purpose of trading.
- c) Expected to be realised within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current.

A liability is current when it is:

- a) Expected to be settled in normal operating cycle.
- b) Held primarily for the purpose of trading.
- c) Due to be settled within twelve months after the reporting period, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are treated as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Company has identified twelve months as its normal operating cycle.

(XIII) FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the date of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

(XIV) FINANCIAL DERIVATIVES:

The Company uses derivative financial instruments such as forward currency contracts to hedge its foreign currency risks. Derivative financial instrument are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each period. Any gain or losses arising from changes in the fair value of derivative are taken directly to statement of profit and loss.

(XV) REVENUE RECOGNITION:**Sale of Goods and Services:**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured regardless of when the proceeds are being received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes and duties collected on behalf of the Government.

Revenue from sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated cost can be estimated reliably, there is no continuing effective control or managerial involvement with the goods and the amount of revenue can be measured reliably.

Revenue from the sale of power is recognised when the electricity is supplied and measured based on contractually agreed tariff rates.

Revenue from sale of services is recognised as per the terms of the contract with buyer based on stage of completion when the outcome of the transactions involving rendering of services can be estimated reliably. Percentage of completion method requires the Company to estimate the services performed to date as a proportion of the total services to be performed.

Other Operating Income:

Incentives on exports and other Government incentives related to operations are recognised in the statement of profit & loss after due consideration of certainty of utilization / receipt of such incentives.

Interest Income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend :

Dividend income is recognised when the right to receive dividend is established.

(XVI) EMPLOYEE BENEFITS EXPENSE:**Short Term Employee Benefits:**

Short-term employee benefits are recognized as an expense in the Statement of Profit and Loss / Pre-operative expenditure of the year in which the related service is rendered.

Leave encashment being a short term benefit is accounted for using the projected unit credit method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the year in which they arise.

Post-Employment Benefits**Defined Contribution Plans**

Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognised as an expense in the year in which employees have rendered services.

Defined Benefit Plans

The cost of providing gratuity, a defined benefit plan, is determined using the Projected Unit Credit Method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the period in which they arise. Other costs are accounted in statement of profit and loss.

Re-measurements of defined benefit plan in respect of post employment and other long term benefits are charged to the other comprehensive income in the year in which they occur. Re-measurements are not reclassified to statement of profit and loss in subsequent periods.

(XVII) BORROWING COSTS:

Borrowing costs specifically relating to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized (net of income on temporarily deployment of funds) as part of the cost of such assets. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period. All other borrowing costs are expensed in the period in which they occur.

(XVIII) CUSTOMS:

Liability on account of Customs Duty on Imported materials in transit or in bonded warehouse is accounted in the year in which the goods are cleared from customs.

(XIX) EARNING PER SHARE

Basic earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of shares outstanding during the year.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholder' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

(XX) PRELIMINARY AND ISSUE EXPENSES:

Preliminary and Issue Expenses are adjusted against the Securities Premium Account.

(XXI) TAXES ON INCOME

Tax expense represents the sum of current tax (including MAT and income tax for earlier years) and deferred tax. Tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised directly in equity or other comprehensive income, in such cases the tax is also recognised directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognised in equity or other comprehensive income is also recognised in equity or other comprehensive income.

Current tax provision is computed for income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is

probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised. Deferred tax assets and liabilities are measured at the applicable tax rates. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised.

MAT Credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

D SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

i. Depreciation / Amortisation and useful lives of Property, Plant and Equipment (PPE)/ Intangible Assets:

PPE / intangible assets are depreciated / amortised over their estimated useful lives, after taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation /amortisation for future periods are revised if there are significant changes from previous estimates.

ii. Decommissioning Liabilities:

The Liability for decommissioning costs is recognised when the Company has obligation to perform site restoration activity. In determining the fair value of such provision, assumptions and estimates are made in relation to discount rates, the expected cost to dismantle and remove the plant from the site and the expected timing of those costs. The expected cost to be incurred at the end of the lease term is based on the estimated provided by the internal technical experts.

iii. Tax:

The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in the financial statements.

iv. Contingencies:

Management has estimated the possible outflow of resources at the end of each annual financial year, if any, in respect of contingencies / claim / litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

v. Impairment of Financial Assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

vi. Impairment of non-Financial Assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating

Units (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

vii. Defined Benefits Plans:

The Cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

viii. Recoverability of Trade Receivable:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

ix. Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances

x. Fair value measurement of Financial Instruments :

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.07 The Ministry of Coal (MOC) had invoked Bank Guarantee (BG) of Rs. 1000.00 lakhs for delay in start of production of Moitra Coal Block, Jharkhand. The Company has challenged the BG invocation before the Hon'ble Delhi High Court, wherein vide order dated 24th August, 2015 it granted interim relief to the Company, that no coercive steps will be taken subject to Company keeping the BG alive. The matter is now listed for 2nd May, 2018. The Company is confident that its case is on merits and doesn't envisage any financial impact of the above matter. In identical matters MOC has not invoked BG of other companies.

2.08 The Company had filed Mining Lease applications for Rowghat Iron Ore Deposit, Bastar, Chhattisgarh. The Chhattisgarh State Government (SG) had rejected the same by a common order which was challenged by the Company. The SG had filed a complaint before the Ministry of Mines which had referred the matter to the Chief Vigilance Officer (CVO), which couldn't make out any case against the Company.

The revision petition of the Company was allowed and subsequently the Hon'ble Delhi High Court also confirmed the order. The Hon'ble Delhi High Court had specifically observed that the Company had successfully undertaken prospecting operations in the area. Subsequently in 2012, SG filed a fresh complaint containing same allegations before the Chief Vigilance Commission (CVC). The Central Bureau of Investigation (CBI) on the directions of the CVC had registered an FIR against the Company alleging certain irregularities. Post completion of the investigations by CBI the case is subjudiced.

The Company doesn't expect any financial effect of the above matter under litigation.

- 2.09 The Directorate of Enforcement vide its order dated 9th June, 2017 has provisionally attached, under sub-section 1 of section 5 of the Prevention of Money Laundering Act (PMLA), 2002, the plant and machinery under installation at Dagori Integrated Steel Plant situated at Bilha, Bilaspur (Chhattisgarh) to the extent of Rs. 20616.40 lakhs for alleged misuse of coal raised from Gare Palma IV/4 coal block at Chhattisgarh. The Company had challenged the provisional order before the Adjudicating Authority. The Adjudicating Authority vide its order dated 10th November, 2017, dismissed the appeal filed by the Company and confirmed the Provisional Attachment Order dated 9th June, 2017. The Company then filed appeal against the order dated 10th November, 2017 passed by the Adjudicating Authority, before the Appellate Authority. The Appellate Authority, vide its order dated 12th February, 2018, issued notice to Directorate of Enforcement and also directed Directorate of Enforcement not to take any coercive steps. The next date in the matter is 29th May, 2018. The Company has a good case on merits, is likely to succeed in refuting the allegations and does not expect any material liability on the Company on this account.
- 2.10 During the year the Company has suspended its active development of project of DRI and Captive Power Plant at Bilaspur, Chhattisgarh and accordingly the Company has also suspended the Capitalisation of Borrowing Costs.
- 2.11 The Company has taken valuer's certificate in respect of valuation of Property, Plant and Equipment which is more than its carrying value, accordingly as per the management there is no impairment loss during the year ended 31st March, 2018.

19.08 As on 31st March, 2018, the Company has overdue of principal of Rs. 30372.95 lakhs (Previous Year : Rs. 12101.44 lakhs) and Interest of Rs. 100329.17 lakhs (Previous Year : Rs. 48557.38 lakhs) included in Current Maturities of Long term debt and Interest Accrued and Due respectively in Note No. 25. The overdue of Principal comprise of Rs. 25283.64 lakhs and Rs. 5089.31 lakhs outstanding for a period of more than 3 months and less than 3 months respectively and overdue of Interest comprise of Rs. 85573.99 lakhs and Rs. 14755.18 lakhs outstanding for a period of more than 3 months and less than 3 months respectively. Further, due to default in servicing of its dues by the Company, all the Banks have classified the credit facilities given to the Company aggregating to Rs. 366315.45 lakhs (Previous Year : Rs. 371103.89 lakhs) as at 31st March, 2018 as Non Performing Asset (NPA) in their books of account.

As on 31st March, 2018, the Company has overdue of Lease Obligations of Rs. 109.88 lakhs (Previous Year : Rs. 567.01 lakhs) and Interest of Rs. 10.11 lakhs (Previous Year : Rs. 317.98 lakhs) included in Current Maturities of Lease Obligations and Interest Accrued and Due respectively in Note No. 25.

19.09 The agreements in respect of Non-current Borrowings as at 31st March, 2018 of Rs. 254530.94 lakhs contains certain restrictive covenants including non-adherence of initial Rupee Term Loan repayment schedule and non-payment of interest thereon, as stipulated and debt service facility ratio. In the current year also, the Company has not complied with the terms of these covenants. Further, one of secured lenders had given loan recall notice in respect of Non-current Borrowings but allowing regular operations to the Company. The Company has not classified the said Non-current borrowings to current liabilities as required by Ind AS 1 – “Presentation of Financial Statements”.

19.10 The Company underwent significant financial stress in the last four years due to cancellation of its three captive coal mines which resulted in significant viability issues of the end use Iron and Steel making facilities, payment of additional levy on mined coal as per the Hon'ble Supreme Court order, huge dumping of steel in the country which resulted in the low capacity utilisation of its new steel making facilities and unavailability of incremental working capital support due to Reserve Bank of India's (RBI's) Asset Quality review classifying the Company's accounts as technical Non-performing Asset from back date effect.

All these have resulted in financial constraints to the Company, losses in the operations, erosion of net worth and calling back of loans by few of the secured lenders. The company had approached its secured lenders for an appropriate debt restructured plan with the objective to make the operations of the Company viable and sustainable, which was approved by the super majority of the secured lenders. The Company had complied with the conditions of Debt Restructuring Scheme including getting Independent Evaluation Committee recommendation to the scheme, infusion of stipulated additional funds as Promoters Contribution as per the scheme and signing of its Master Restructuring Agreement by the Lenders.

However on the directions of RBI, which had not agreed to the approved Debt Restructuring Scheme being fully implemented within the stipulated time line of 13th December, 2017, State Bank of India (SBI), the lead secured lender, had filed an application under section 7 of the Insolvency and Bankruptcy Code, 2016, against the Company, claiming an amount of Rs. 51383.41 lakhs as default as on 30th November, 2017. The matter has been listed for hearing on 6th July, 2018 before the National Company Law Tribunal (NCLT), Mumbai. The matter is currently in pre-admission stage.

Being aggrieved by the non implementation of the approved Debt Restructuring Scheme, the Company had filed Writ Petition (WP) before the Hon'ble Bombay High Court, Mumbai, against RBI and the other respondents, raising various questions of law and challenging various communications issued by RBI from time to time, which had adversely affected the implementation of the approved Debt Restructuring Scheme of the Company. The Hon'ble Bombay High Court had dismissed the WP of the Company. The Company has challenged the order of the Hon'ble Bombay High Court before the Hon'ble Supreme Court of India and subsequent to the year end, on 16th April, 2018 the Hon'ble Supreme Court was pleased to issue notice and directed parties to maintain status quo. The matter is now likely to be listed on 2nd July, 2018.

In the last six months the steel sector in India has improved, the margins and orders of the Company have improved, further all the lenders of the Company are continually supporting the operations of the Company; accordingly the Management is of the view that the above circumstances will not affect the operations of the Company and continued to prepare the book of accounts on Going Concern basis.

27.01 During the year 2005 the Government of Chhattisgarh published the Chhattisgarh Upkar (Sansodhan) Adhiniyam, 2004 according to which the Company is liable to pay Energy Development Cess @ 10 paise per unit generated from its captive power plants. The levy of Energy Development Cess has been disputed by the Company and the matter is pending before the Hon'ble Supreme Court of India. The Office of the Chief Electrical Inspector, Government of Chhattisgarh, has been continuously sending demands for the energy development cess since the Hon'ble Supreme Court of India vide its interim order dated 2nd November, 2007 permitted the department to raise the bill. However it directed that no coercive steps shall be taken by the state to recover the dues till further orders. The legislative competence of the Government of Chhattisgarh is not under challenge. During the last year, the Company has

been legally advised that it is highly unlikely that the provision by which the State Government has imposed Energy Development Cess will be struck down by the Hon'ble Supreme Court of India. In view of the above and as a matter of prudence, the Company has made a provision of Energy Development Cess aggregating amounts to Rs. 4008.35 lakhs till 31st March, 2018.

27.02 In Previous year, the Company had recognised liabilities based on substantial degree of estimation for Excise Duty payable on clearance of goods lying in stock. During the period till 30th June, 2017, Rs. 4779.77 lakhs was utilised for clearance of goods. Excise duty is discontinued with effect from 1st July, 2017 upon implementation of Goods and Service Tax (GST).

31.02 Sensitivity Analysis

(Rs. in lakhs)

	Change in Assumption	As at 31.03.2018	As at 31.03.2017
		Effect on Gratuity Increase / (Decrease)	
Discount Rate	+1%	(348.54)	(369.40)
Discount Rate	-1%	404.64	436.51
Salary Increase Rate	+1%	370.29	344.50
Salary Decrease Rate	-1%	(326.22)	(323.95)
Attrition Rate	+1%	(6.68)	(10.63)
Attrition Rate	-1%	7.11	11.51

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of Defined Benefit Obligation has been calculated using the Projected Unit Credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognised in the Balance Sheet.

31.03 Expected payments towards contributions to gratuity in future years :

(Rs.in lakhs)

Year Ended	Expected Payment

31st March, 2023	276.06
31st March, 2024 to 31st March, 2028	1483.03

31.04 Risk Exposures

These plans typically expose the company to Actuarial risks as Investment Risk, Interest Rate risk, Longevity risk and Salary risk.

Investment Risk The present value of the defined benefit plan obligation is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Interest Rate Risk A decrease in the bond interest rate will increase the plan obligation; however, this will be partially offset by an increase in the return on the plan debt investments.

Longevity Risk The present value of the defined benefit plan Obligation is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's obligation.

Salary Risk The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's obligation.

TOTAL	12012.11	9870.39

Third Party claims include :

The Company had entered into a Contract for setting up 70 TPD Oxygen Plant and its operations and maintenance with M/s Goyal MG Gases Private Limited in the year 2002-03. Subsequently in the year 2015-16 dispute arose between both the parties and the matter was referred to the Sole Arbitrator for adjudication of dispute.

The Sole Arbitrator passed an Arbitral Award against the Company dated 4th August, 2017 readwith order dated on 15th September, 2017. As per the Arbitral Award, all the claims of the Company were rejected and all the counter claims were allowed. The Company had challenged the Arbitral Award before the Hon'ble Delhi High Court under the Arbitration and Conciliation Act, 1996. The Hon'ble High Court dismissed the appeals filed by the Company vide its judgement dated 21st December, 2017 and judgement dated 5th April, 2018.

According to the management of the Company, the entire award is without any evidence and reasoning. Counter claims to the tune of Rs 940.88 lakhs have been allowed. Ld. Arbitrator has allowed payment of lease rentals and at the same time has also directed the Company to hand over possession of the plant which is contrary in nature. Considering the above described factual aspects the Company believes that it has good case on merits. The Company is in the process of filing Special Leave Petition (SLP) in the Supreme Court. The total amount of Arbitral award is estimated to be around Rs. 1600.00 lakhs, accordingly the management is of the view that at this stage no provisioning is required against the said award.

B Management is of the view that above litigations will not impact significantly the financial position of the Company.

C The Company has received Show Cause notices from the Excise department which mainly relate to demand of duty for sale of exempted goods, differential duty on sale to related parties and denial of credit on structural steel, new plants, railway receipt, bank expenses and outward freight etc. The Company does not foresee any losses on this account.

B. Segment Identification, Reportable Segments and definition of each segment :

i. Reportable Segments :

The Company's operating segments are established on the basis of those components that are evaluated regularly by the Chief Operating Decision Maker, in deciding how to allocate resources and in assessing performance. These have been identified and reported taking into account the differing risks and returns, nature of products, the organisational structure and the internal reporting system of the Company.

ii. Primary / Secondary Segment Reporting Format :

- The risk-return profile of the Company's business is determined predominantly by the nature of its products. Accordingly, the business segments constitute the Primary Segments for disclosure of segment information.
- Since all the operations of the Company are predominantly conducted within India, there are no separate reportable geographical segments.
- No Non-Current Assets of the Company is located outside India as on 31st March, 2018 and 31st March 2017.
- No single customer has accounted for more than 10% of the Company revenue for the year ended 31st March, 2018 and 31st March 2017.

iii. Segment Composition :

- Steel Segment is engaged in manufacture and sale of Pig Iron, Billets, Rolled Products, Sponge Iron and includes its captive Power Plants at its unit located at Siltara, Raipur and Mining activities in the state of Chhattisgarh and Maharashtra.
- Iron and Steel Castings Segment comprises of manufacture and sale of Engineering and Automotive Castings with production facilities at Nagpur, Bhilai and Anjora.
- Other Segment comprises of trading of Coal, Coke and PVC pipes.

44.02 Fair Valuation techniques used to determine Fair Value

The Company maintains procedures to value its financial assets or financial liabilities using the best and most relevant data available. The Fair Values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the Fair Values:

- i) Fair Value of Cash and Cash Equivalents, Other Bank Balances, Trade Receivable, Trade Payables, Current Loans, Current Borrowings, Deposits and other Current Financial Assets and Liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- ii) The Fair Values of Unsecured Non-current Borrowings is calculated based on discounted cash flows using a lending rate. They are classified as level 2 fair values in the fair value hierarchy due to the inclusion of observable inputs. The Fair Values of Secured Non-current Borrowings and Security Deposits are approximate at their carrying amount due to interest bearing features of these instruments.
- iii) Fair values of Investment in equity are derived from quoted market prices in active markets and Fair values of Mutual Fund are derived from published NAV at reporting date.
- iv) The Fair Value of the remaining financial instruments is determined using discounted cash flow analysis.
- v) The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

44.03 Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:-

- i) **Level 1 :-** Quoted prices / published Net Assets Value (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the Balance Sheet date and financial instruments like mutual funds for which Net Assets Value is published by mutual fund operators at the Balance Sheet date.
- ii) **Level 2 :-** Inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.
- iii) **Level 3 :-** Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The following table provides hierarchy of the fair value measurement of Company's asset and liabilities, grouped into Level 1 (Quoted prices in active markets), Level 2 (Significant observable inputs) and Level 3 (Significant unobservable inputs) as described below:

Particulars	(Rs. in lakhs)

since the Investments under level 3 category are not material and its fair value is zero, so the disclosure for the same is not given.

Note 45 : Financial Risk Management - Objective and Policies

The Company is exposed to Market Risk, Credit Risk and Liquidity Risk. Risk management is carried out by the company under policies approved by the Board of Directors. This Risk management plan defines how risks associated with the Company will be identified, analysed, and managed. It outlines how risk management activities will be performed, recorded, and monitored by the Company. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed, to promote a shared vision of risk management and encourage discussion on risks at all levels of the organization to provide a clear understanding of risk / benefit trade-offs, to deploy appropriate risk management methodologies and tools for use in identifying, assessing, managing and reporting on risks, and to determine the appropriate balance between cost and control of risk and deploy appropriate resources to manage / optimise key risks. Activities are developed to provide feedback to management and other interested parties (e.g. Audit committee, Board etc.). The results of these activities ensure that risk management plan is effective in the long term.

45.01 Market Risk and Sensitivity :

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise three types of risk : Foreign Currency Rate risk, Interest Rate risk and other Price risks, such as Equity Price risk and Commodity risk. Financial instruments affected by market risk include Loans and Borrowings, Deposits and Investments.

The sensitivity analysis relate to the position as at 31st March 2018 and 31st March 2017.

The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations, provisions and on the non-financial assets and liabilities. The sensitivity of the relevant Statement of Profit and Loss item is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as at 31st March, 2018 and 31st March, 2017.

(a) Foreign Currency Exchange Risk and Sensitivity :

Foreign Currency Exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in Foreign Currency Exchange rates. The Company's exposure to the risk of changes in foreign currency exchange rates relates primarily to the Company's operating activities. The Company transacts business primarily in USD and Euro. The Company has foreign currency trade payables and receivables and is therefore, exposed to foreign currency exchange risk. The Company regularly reviews and evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies including use of derivatives like Foreign exchange forward contract to hedge exposure to Foreign currency exchange risk.

The following table demonstrates the sensitivity in the USD, SEK, CAD and Euro to the Indian Rupee with all other variables held constant. The impact on the Company's Loss Before Tax (LBT) due to changes in the fair values of monetary assets and liabilities is given below:

Unhedged Foreign currency exposure as at 31st March, 2018	Currency	Amount in FC	(Rs. in lakhs)

Foreign Currency sensitivity

2% increase or decrease in foreign exchange rates will have the following impact on Loss Before Tax (LBT):-

(Rs. in lakhs)

Particulars	2017-18		2016-17	
	2% Increase - Profit / (Loss)	2% Decrease - Profit / (Loss)	2% Increase - Profit / (Loss)	2% Decrease - Profit / (Loss)
USD	11.75	(11.75)	(0.09)	0.09
EURO	4.06	(4.06)	1.43	(1.43)
SEK	(1.07)	1.07	(0.99)	0.99
CAD	3.82	(3.82)	-	-
(Increase) / Decrease in Loss Before Tax	18.56	(18.56)	0.35	(0.35)

b) Interest Rate Risk and Sensitivity :-

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is having non current borrowings in the form of Term Loan and Inter-corporate Deposits. Also, the Company is having current borrowings in the form of Working Capital and Suppliers Credit. There is a fixed rate of interest in case of Supplier Credit, Vehicle Loan and Inter-corporate Deposits and hence, there is no interest rate risk associated with these borrowings. The Company is exposed to interest rate risk associated with Term Loan and Working Capital facility due to floating rate of interest.

Further, due to default in servicing of its dues by the Company, all the Banks of the Company have classified the credit facilities given to the Company as Non Performing Asset (NPA) in their books of account and interest

in respect of those specified banks are provided in the books of the Company but actual interest levy may vary depending upon as and when it is charged by the banks. The Lenders of the Company had signed the Master Restructuring Agreement for its debts, however on instructions of Reserve Bank of India (RBI) which had not agreed to the approved Debt Restructuring Scheme being fully implemented within the stipulated time line of 13th December, 2017, State Bank of India (SBI), the lead secured lender, had filed an application under section 7 of the Insolvency and Bankruptcy Code, 2016 (IBC), against the Company. Being aggrieved by the non-implementation of the approved Debt Restructuring Scheme the Company had filed Writ Petition (WP) before the Hon'ble Bombay High Court, Mumbai, against RBI and the other respondents. The Hon'ble Bombay High Court had dismissed the WP of the company. The Company has challenged the order of the Hon'ble Bombay High Court before the Hon'ble Supreme Court of India and subsequent to the year end, the Hon'ble Supreme Court was pleased to issue notice and directed parties to maintain status quo.

The table below illustrates the impact of a 2% increase / decrease in interest rates on interest on financial liabilities assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year.

(Rs.in lakhs)

Particulars	2017-18		2016-17	
	2% Increase - Increase in LBT	2% Decrease - Decrease in LBT	2% Increase - Increase in LBT	2% Decrease - Decrease in LBT
Working Capital Facility	(1218.45)	1218.45	(1320.86)	1320.86
Term Loan from Banks	(6107.86)	6107.86	(6133.14)	6133.14
(Increase) / Decrease in Loss Before Tax	(7326.31)	7326.31	(7454.00)	7454.00

The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

c) Commodity Price Risk :

The Company's revenue is exposed to the market risk of price fluctuations related to the sale of its steel products. Market forces generally determine prices for the steel products sold by the Company. These prices may be influenced by factors such as supply and demand, production costs (including the costs of raw material inputs) and global and regional economic conditions and growth. Adverse changes in any of these factors may reduce the revenue that the Company earns from the sale of its steel products.

The Company primarily purchases its raw materials in the open market from third parties. The Company is therefore subject to fluctuations in prices for the purchase of iron ore, coking coal and other raw material inputs. The Company purchased substantially all of its iron ore and coal requirement from third parties in the open market during the year ended 31st March, 2018.

The Company aims to sell the product at prevailing market prices. Similarly the Company procures key raw materials like iron ore and coal based on prevailing market rates as the selling prices of steel prices of input raw materials move in the same direction.

The following table details the Company's sensitivity to a 5% movement in the input price of Iron Ore and Coking Coal.

(Rs.in lakhs)

Particulars	2017-18		2016-17	
	5% Increase - Increase in LBT	5% Decrease - Decrease in LBT	5% Increase - Increase in LBT	5% Decrease - Decrease in LBT
Iron Ore / Fines	(2873.56)	2873.56	(2021.96)	2021.96
Coal / Coke	(4783.04)	4783.04	(3542.23)	3542.23
(Increase) / Decrease in Loss Before Tax	(7656.60)	7656.60	(5564.19)	5564.19

45.02 Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

a) Trade Receivables :

The Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings with the Company for extension of credit to customers. The Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The history of trade receivables shows a negligible provision for bad and doubtful debts. Therefore, the Company does not expect any material risk on account of non performance by any of the counterparties.

b) Financial Instruments and Cash Deposits :

The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances are maintained. Credit risk from balances with bank is managed by the Company's finance department. Investment of surplus funds are also managed by finance department. The Company does not maintain significant cash in hand. Excess balance of cash other than those required for its day to day operations is deposited into the bank.

For other financial instruments, the finance department assesses and manage credit risk based on internal assessment. Internal assessment is performed for each class of financial instrument with different characteristics.

45.03 Liquidity Risk :

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. It will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. The Company's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on short term borrowings and operating cash flows in the form of suppliers credit and working capital to meet its need for fund.

The Company underwent significant liquidity issues in the last four years including the current year, due to cancellation of its three captive coal mines which resulted in significant viability issues of the end use Iron and Steel making facilities, payment of additional levy on mined coal as per the Hon'ble Supreme Court order, huge dumping of steel in the country which resulted in the low capacity utilisation of its new steel making facilities and unavailability of incremental working capital support due to Reserve Bank of India's (RBI's) Asset Quality review classifying the Company's accounts as technical Non-performing Asset from back date effect. All these have resulted in financial constraints to the Company, losses in the operations, erosion of net worth and calling back of loans by two of the secured lenders. The Company had approached its secured lenders for an appropriate debt restructured plan with the objective to make the operations of the Company viable and sustainable, which was approved by the super majority of the secured lenders. The Company had complied with the conditions of Debt Restructuring Scheme including getting Independent Evaluation Committee recommendation to the scheme, infusion of stipulated additional funds as Promoters Contribution as per the scheme and signing of its Master Restructuring Agreement by the Lenders which was not agreed to by the Reserve Bank of India which directed the lead Bank - State Bank of India (SBI) to file application under the Insolvency and Bankruptcy Code, 2016 (IBC) against the Company. However the Company has contested the same and currently the matter is subjudice in the Supreme Court which has granted status quo on the IBC proceedings.

The below table summaries the maturity profile of the Company's financial liability :

Processing fees has not been considered.

45.04 Competition and Price Risk :

The Company faces competition from local and foreign competitors. Nevertheless, it believes that it has competitive advantage in terms of high quality products and by continuously upgrading its expertise and range of products to meet the needs of its customers.

Note : 46 CAPITAL RISK MANAGEMENT

For the purpose of Company's capital management, capital includes issued capital, all other equity reserves and debts. The primary objective of the Company's capital management is to maximise shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using gearing ratio, which is net debt divided by total capital (equity plus net debt). Net debt are Non-current and Current debts as reduced by Cash and Cash Equivalents, Other Bank Balances, Non-current Bank Deposits and Current Investments. Equity comprises all components including other comprehensive income.

The Company monitors capital using gearing ratio, which is total debt divided by total capital plus debt.

Note : 48 STANDARDS ISSUED BUT NOT EFFECTIVE :

On 28th March, 2018, the Ministry of Corporate Affairs (MCA) has notified Ind AS 115 - Revenue from Contract with Customers and certain amendment to existing Ind AS. These amendments shall be applicable to the Company from 1st April, 2018.

48.01 Issue of Ind AS 115 - Revenue from Contracts with Customers

Ind AS - 115 will supersede the current revenue recognition guidance including Ind AS - 18 Revenue, Ind AS 11 - Construction Contracts and the related interpretations. The core principles of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

**48.02 Amendment to Existing issued Ind AS**

The MCA has also notified certain amendments to the following Accounting Standards:

- i. Ind AS 21 - The Effects of Changes in Foreign Exchange Rates
- ii. Ind AS 12 - Income Taxes

Applications of the above standards are not expected to have any significant impact on the Company's Financial Statements.

Note :49 The Management and authorities have the power to amend the Financial Statements in accordance with section 130 and 131 of the Companies Act, 2013.
