CHAIRMAN SPEECH

Dear Shareholder,

“The achievements of an organization are the results of the combined efforts of each individual.” – Vince Lombardi

It brings me immense happiness to see your Company's performance during FY 2018 in spite of various challenges. I must acknowledge that the credit for your Company's achievements goes to employees who demonstrated their competence and commitment.

In the years to come 2017-18 will be remembered as a pivotal year in the growth journey of Fineotex. A year that has helped us built a platform to take the company to level-next growth. We have consolidated our position as one of the faster growing Specialty Chemical Company in India, we also aspire to continue to emerge as a globally recognized one.

We have continued to remain a zero debt Company and the entire capital expenditure for improvements and addition of technology & equipment are being met from internal accruals.

Among our many laurels, one of the key aspects that separate us from our peers is our integrated business model. We are the most integrated Textile Processing Chemical Company in the country today having a wide range of textile chemical products for all the processes viz. Pretreatment, Dyeing, Printing and finishing.

As the Textile Industry evolves, we too have adapted to the changing consumer and industry needs. These changing dynamics make a strong case in point for Fineotex. Our philosophy of 'ready for the next phase' is relevant in true context, as we strive to achieve ambitious targets.

I see very positive signs in the country, which augur well for our Industry and your Company. An upwardly mobile and young population is creating significant growth and demand for better products and infrastructure. The Marketing and Business teams have been strengthened and re-trained to handle the emerging challenges.

Over the past few years we have undertaken various initiatives resulting in better systems & policies, tighter execution and greater competitiveness. These are structural and internal changes that will strengthen us greatly over the medium and long term.

In addition, we continue to make high-quality products, with a number of variants across all our business divisions. We have invested in new plant and technologies, to better our quality benchmarks, produce more efficiently and further reduce the impact on environment.

The result of these operational achievements was visible during the consolidated year under review, as we registered 6.3% growth in revenues (as per IND As) to RS. 1429 millions (from RS. 1344 millions in previous year) and 1.7% growth in EBITDA to RS. 300 million (from RS. 295 million in previous year).

We continue to make sustained investments for our capacity expansion and keep a comfortable debt profile. Our financial achievements and health underpin our long-term vision and strategies.

Our people and our customers form an integral part of our growth journey. We continue to engage actively with our employees, with training and motivation that helps them perform consistently to deliver greater efficiencies. We also put a strong focus on health and safety aspects, conducting proper training and mock drills to ensure that the team is vigilant and agile for any unforeseen circumstances. We also place higher emphasis on the needs of our customers who reciprocate our efforts for united gains.

While we march ahead towards our business goals, we also make conscious efforts towards making active contributions to society and environment. Our regular contributions and initiatives towards uplifting several people in various aspects are our humble endeavor to make our world a better place.

I am thankful to the Board of Directors, for their continued support and guidance towards taking the company ahead. I would also like to place on record our appreciation towards our bankers, suppliers and customers for their continued trust in us, and building an enriching association.

Fineotex Chemicals is an Indian Company, serving customers in india and across the world. We are keenly promoting the 'Make in india' philosophy with our enriched product portfolio. We are determined to continue to grow in the 'next phase' of our corporate journey and emerge as an even stronger and customer-focused company, delivering performance that matters to all stakeholders.

ANNEXURE TO THE NOTICE

EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013.

Pursuant to Section 102 of the Companies Act, 2013 ("the Act"), the following Explanatory Statement sets out all material facts relating to the business mentioned under Item Nos. 3 to 6 of the accompanying Notice dated August 14, 2018.

Item No. 3

Given the Company's future growth plans, the Board of Directors of the Company, ("Board" which term shall be deemed to include any committee constituted by the Board or any person(s) authorized by the Board in this regard), considers it necessary to augment the long term resources of the Company by way of issuing securities to eligible investors, subject to an aggregate maximum limit of up to an amount of Rs. 100 crores, and further subject to the prevailing market conditions and other relevant considerations.

The Board intends to deploy the net proceeds from the issue of the above mentioned securities for funding any one or more of the following: (i) capital expenditure, (ii) general corporate purpose, (iii) strategic acquisitions, (iv) reduction/restructuring of debt, (v) consolidation of the ownership of our subsidiaries, and/or, (vi) investment in joint venture companies, subsidiaries etc., as may be permitted by applicable statutory and regulatory parameters from time to time.

The proposed resolutions will authorize the Board to create, offer, issue and allot Securities (including equity shares) and/or instruments or securities convertible into equity shares of the Company and/or convertible preference shares and/or convertible debentures or bonds (compulsorily and/or optionally, fully and/or partly) and/or non-convertible debentures with warrants and/or securities with or without detachable/non detachable warrants and/or warrants with a right exercisable by the warrant holder to subscribe for equity shares, in any combination as the Board deems fit.

As the aforesaid issue may result in issue of Securities by the Company to investors who may or may not be the members of the Company, the consent of the members through a Special Resolution is required pursuant to the provisions of Section 23, 42, 62, 71 and other applicable provisions, if any, of the Companies Act, 2013, the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 ('the ICDR Regulations') and other applicable laws for the time being in force. The detailed terms and conditions for the offer of Securities will be determined by the Board in consultation with the Advisors, Lead Managers and such other agency or agencies as may be required to be consulted by the Company considering the prevailing market conditions and in accordance with the applicable provisions of law and other relevant factors.

The pricing of the Securities that may be issued to Qualified Institutional Buyers pursuant to a QIP shall be determined subject to such price not being less than the price calculated in accordance with Chapter VIII of the ICDR Regulations. The Company may, in accordance with applicable law, offer a discount of not more than 5% or such percentage as permitted under applicable law on the floor price determined pursuant to the ICDR Regulations or such other discount

as may be permitted under applicable law. The relevant date for the purpose of pricing the Securities shall, subject to applicable laws, be the date of the meeting in which the Board / Committee decides to open the proposed issue or such other date as may be permitted under the ICDR Regulations.

Your Directors commend passing of this resolution by way of a special resolution.

None of the Directors or Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested in the Special Resolution set out at Item No. 3 of the notice except to the extent of their shareholding in the Company.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS

GLOBAL DEVELOPMENTS AND THEIR EFFECT

Since the Global Depression in 2008 and its aftermath, slowly the world economy has been picking up gradually. Since 2012 there has been a gradual growth in the economy. Of course there are hiccups here and there but the trend of overall growth in the economy is positive. This growth has a positive effect on the textile industry which in turn augurs well for the textile chemicals in which we operate. It is forecasted that this trend would continue at least for the next few years.

During the last few years the textile processing markets are changing globally. The breaking up of the Soviet Block and opening of Chinese economy has caused revolutionary changes in the industry. The textile processing has moved from North America and Europe to China, South East Asia and Eastern Asia. Almost 50% of the processing of the textile is done in China and the half of the Balance in India, Pakistan, Bangladesh, Malaysia, Vietnam, South Korea, Indonesia and other parts of Asia.

In the past 30 years, there has been a continued shift in the geographic location of the world's textile production and chemical consumption: first to South Korea, Taiwan, Indonesia and Thailand in the 1980s, and second to China and India after 1995, and away from the traditional production centres of the United States, Western Europe and Japan. These regions have suffered from the loss of their traditional export markets and major increases in imports, mainly from East Asian countries. The only textile segments in the United States, Western Europe and Japan that remained unaffected by this geographic shift were the production of carpets, tire cord, technical textiles and nonwoven fabrics.

In 2015, China was the largest consumer of textile chemicals, accounting for close to half of the global value. China has become the largest market for textile chemicals, based on ever-growing apparel and textile production and on huge production of synthetic fibers and cotton. North America was the second-largest market owing to the higher value of binder and coating chemicals consumed in the United States in the nonwoven and carpet industries. The position in 2017 was as under :

The prospects for the Global Textile Chemicals:

The Global textile Chemical business can be broadly classified under following segments:

❖ **By Product**

- Coating & Sizing Chemicals
- Wetting Agents
- Defoamers
- Other Coating & Sizing Chemicals
- Colorants & Auxiliaries
- Finishing Agents
- Surfactants
- Desizing Agents
- Bleaching Agents
- Yarn Lubricants
- Others

❖ **By Application**

- Home Furnishing Textiles
- Carpets & Rugs
- Furniture
- Other Home Furnishing Textiles
- Technical Textiles
- Agrotech
- Geotech
- Meditech
- Other Technical Textiles
- Apparel
- Industrial Textiles

❖ **By Consumption**

- China – almost 50%
- North America
- East Asia
- Western Europe
- India
- East Africa
- Others

The basic role of the textile auxiliary chemicals is to improve the processing performance. There is some imperfection in each product for every user and hence these products are called Specialty Chemicals. These products are low volume, high margin products which form the miniscule part of the total cost as well as weight of the textiles.

Global consumption of textile chemicals grew 2.8% per year on a volume basis during 2012–15. Future growth will depend on the fortunes of the textile industry. It is expected to reach \$27,560 million by 2022 from \$21,770 million in 2015, and growing at a CAGR of 3.4% from 2016 to 2022.

The significant impacting factors in the textile chemicals industry include development of apparel industries due to increase in demand for consumers and growth in population. Along with these factors, the market is influenced by the increase in demand for home furnishing products, evolution of environmental friendly chemicals required by textiles industries and development of packaging industries, which require large textile chemicals.

Boosting growth will be the rising level of personal income in both developed and developing countries, which will promote the production of textiles used in apparel, upholstery, household furnishings and floor coverings. While colorants and auxiliaries will remain the biggest product segment, faster gains will be seen in finishing chemicals, which impart specific aesthetic, physical and functional properties to textiles. The Asia/ Pacific region, China and India in particular, will continue to be the largest consumer of textile chemicals, and is also forecast to experience the fastest growth.

On-going advancements in the textile chemicals market due to innovative efforts have further enhanced the efficiency of these chemicals. The report includes textile chemical market forecast from 2016 to 2022. To understand the market, drivers, restraints, and opportunities are explained in the report. Further, the key strategies adopted by potential market leaders to facilitate the effective planning are also discussed under the scope of the report. The market value and volumes are further derived using bottom-up approach and by considering price trends.

Textile Chemicals and Fineotex

Fineotex Chemical Limited is a major Company which manufactures a range of specialty chemicals which improve the process performance from pre-weaving preparatory stage to finishing chemicals. The trust of its chemicals are for use by the Apparel segment of the textile industry. Its products are well accepted and are used by who's who in the textile industry in India. There is no significant player who has not used Fineotex products.

The products are also accepted world wide with exports to over 25 countries.

The SWOT Analysis

Strength

The strength of Fineotex lies in its attribute that it creates an immediate sense of dependability in the mind of all the stakeholders. The Company has around 4 decades of experience in this business backed by expertise in production, availability of capacity, ability to work with

the customer to maximize his process performance and anticipate the customers' needs and solve the same. This has made the company a dependable ally to the customers. This is recognized by the Product Finder Company which has recognized Fineotex as the fastest growing Chemical Company.

Weakness

The Company's products and philosophy requires it to be ever ready to contemplate on consumer needs, look for solutions and work with them to solve the issues. This could affect the pace at which the Company can cater to the requirements of the industry. However the inherent strength of Fineotex proven by the previous history has demonstrated that such threats are tackled successfully and converted into opportunity. This has helped the Company to grow at fast rate.

Opportunities

Fineotex has a wide range of products used in various stages of textile processing. The thrust area for its operations is the fast changing and expanding range of finishing chemicals. These are quality demanding products as well as have good margins. The scope for these products is unlimited and varied having different requirements like anti-microbial, wrinkle-resistant, stain resistant, flame retardants, warp sizes, biocides & water repellents etc.

With increasing personal income in both developing and developed countries there would be a steady increase in textile consumption, This will give an opportunity for textile specialty chemicals to expand. The Company's thrust is of Apparel segment which will include fabric, sports, fashion & home textile etc. The Company is in a position to produce such products and technically equipped to train the processing units of maximizing their benefits.

Threats

The present uncertainties of trade wars in the Global Economy is not likely to cause any major impact on the Company. Any upheaval in domestic market or in export market or within the barriers processes are met by balancing the product mix and the markets. The Company's product are tailor made to the customers' requirements and the name guarantees quality and dependability. Hence, except for unforeseen circumstances like acts of God, the Company does not foresee any threats to the Company's business and the area of its operations.

Outlook

With the rising incomes, the demand for textiles will grow which in turn will keep the demand for textile chemicals. With increased sophistication expected, the demand for speciality products will increase. Fineotex has also focussed its thrust on finishing chemicals which demand high quality and efficiency with varying consumer demands. These are challenging opportunities with commensuration high margins. Fineotex awaits for these opportunities to unfold.

At a group level, it has developed an eco friendly product that controls mosquito outbreak. Approvals are sought from the authorities globally from the Health Organisations. The processes are in the advance stage of approval. This is a separate area of health care which will give both value and volume sale to the Company in the coming years.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONS

During the year, the turnover of the Company has grown to Rs.9187.63 Lakhs, as compared to Rs. 8202.23 Lakhs for FY 2016-17 resulting in growth of 12.01 %. The Company's performance during the year shows a jump of 0.74 % in profit after tax over the last year. The increase in profits is due to Company's conscious effort to improve quality of the products as per customers' requirements which has helped in enhancing margins as well as increase in the market share. The Company is a zero debt Company with no borrowings for its local operations. Short term borrowings are restricted to need based working capital requirements. Employee benefit expense increased to Rs. 462.49 Lakhs during the year as against Rs. 337.75 Lakhs in the previous FY 2016-17. The increase is mainly due to salary hike given to employees and appointment of new employees.

The salient indicators are as under :-

(Rs. In lakhs)

	Standalone		Consolidated	
	2017-18	2016-17	2017-18	2016-17
Income from Operations	9187.63	8202.23	14292.68	13439.38
PBDIT	3113.84	2866.49	3514.18	3923.11
PAT (after Minority Interest)	2128.15	2112.47	2396.64	2906.79
EPS (of Rs 2/-) (Basic & Diluted)	1.91	1.90	2.04	2.32

During the year under review the plant had smooth operations.

As per the Accounting Standard 17 issued by the Institute of Chartered Accountants of India and Companies (Accounting Standards) Rules, 2006, the Company has only one segment i.e. specialty or auxiliary chemicals and preparations which are mainly used in textile processing. The Company's products play an important role in the textile manufacturing processes. With the cautious growth expected in the textile industry in the coming year with increasing demand for chemicals needed for this industry based on the increasing expectation of quality and fashionable textile products, the Company expects a growth in turnover for the current year. However the margins continue to be under stress. The total quantitative sales in 2017-18 were 10094 MT against 90,772 MT in 2016-17. It is pertinent to note that quantity is not a very indicative criteria to evaluate performance as the quantity may vary depending upon the concentration level of products sold.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Internal Control System is reviewed in the light of changed circumstances and way of doing business especially after the introduction of Goods and Services Tax. Your Company has an effective system of receipt, storage and utilization of materials – especially in the environment in which the Company operates. This is reflected in its Internal Financial Controls. The interventions of the Top Management in the Control processes is significantly required and this is provided by them. Its products are not standardized but each supply has to meet the requirements of the customer on his shop floor. This is backed by quality control at each stage. It has also in place adequate accounting, administrative, logistics and system of internal check and controls to ensure safety and proper recording of

all assets of the Company and their proper and authorized utilization. The Company constantly reviews its adherence to the environmental norms. The Company has its own Internal Control system and the Audit Committee reviews its adequacy from time to time. Measures are taken to strengthen the same and check its effectiveness.

HUMAN RESOURCE

The Company has 84 employees at the year end including whole time Directors. We are equal opportunity employer. Out of the total strength, over 20% are women. We consider our employees as our most valuable asset and have been working towards keeping them engaged and inspired. The current workforce structure has a good mix of employees as all levels. The Company is aware that the success of its business depends upon its technical expert's co-coordinating with research and development staff on the one hand and marketing on the other. Necessary training and orientation is provided to our employees to equip them in providing productive and committed results.

Independent Auditor's Report

To the Members of Fineotex Chemical Limited

Report on the Audit of Standalone Ind AS Financial Statements

We have audited the accompanying Ind AS standalone financial statements of Fineotex Chemical Limited ('the Company'), which comprise the Balance Sheet as at 31st March 2018, the statement of Profit and Loss, including the statement of Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information. (herein after referred to as Ind AS Financials Statements)

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We have conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS standalone financial

statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2018 and its profit, total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the 'Annexure A', a statement on the matters specified in the paragraph 3 and 4 of the order.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss including Statement of Other Comprehensive Income, Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid Ind AS standalone financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standard) Rules, 2015, as amended.
 - (e) On the basis of the written representations received from the directors as on 31st March 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2018 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure B'; and
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our

opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS standalone financial statements – Refer Note 36 to the Ind AS standalone financial statements;

ANNEXURE - B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Fineotex Chemical Limited ("the Company") as of 31st March 2018 in conjunction with our audit of the Ind AS standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management, override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES**1 BACKGROUND**

Fineotex Chemical Limited is a public limited by shares domiciled in India, incorporated under the provisions of Companies Act, 1956. Its shares are listed on National Stock Exchange of India Limited and BSE Limited. Its registered office is situated at 42,43 Manorama Chambers, S.V. Road Bandra (West) Mumbai - 400050 India.

The Company is engaged in the business of manufacturing of Textile chemicals, auxiliaries and specialty chemicals.

2 STATEMENT ON SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the Significant Accounting Policies adopted in the preparation of these Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 BASIS FOR PREPARATION OF ACCOUNTS**a) Statement of compliance with Ind AS**

The Standalone Financial Statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act. The Financial statements for the year ended 31st March 2017 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These Standalone Financial Statements for the year ended 31st March 2018 are the first financial statements of the Company under Ind AS. The date of transition to Ind AS is 1st April, 2016. Accordingly, the Company has followed the provisions of Ind AS 101, 'First Time Adoption of Indian Accounting Standards', in preparing its opening Ind AS Balance Sheet as of the date of transition, i.e. 1 April 2016. Certain of the Company's Ind AS accounting policies used in the Opening Balance sheet differed from its previous GAAP policies applied as at 31 March 2016, and accordingly adjustments were made to restate the opening balances as per Ind AS. The resulting adjustments arose from events and transactions before the date of transition to Ind AS. Therefore, as required by Ind AS 101, those adjustments were recognized directly through retained earnings as at 1 April 2016.

Refer Note 35 for an explanation of how the transition from Indian GAAP(IGAAP) to Ind AS has affected the Company's financial position, financial performance and Cash Flows.

b) Current versus Non-Current classification

All assets and liabilities have been classified as Current or Non Current as per the Company's normal operation cycle i.e. twelve months and other criteria set out in the Schedule III of the Act.

c) Historical Cost Convention

The financial statements are prepared on accrual basis of accounting under historical cost convention in accordance with Generally Accepted Accounting Principles in India and the relevant provisions of the Companies Act, 2013 including Indian Accounting Standards notified there under, except for the following:

- Certain financial assets and liabilities (including derivative instrument) measured at fair value
- Defined benefit plans - plan assets measured at fair value

2.2 USE OF ESTIMATES

In preparation of the financial statements, the Company makes judgments, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Significant judgments and estimates relating to the carrying values of assets and liabilities include useful lives of property, plant and equipment and intangible assets, impairment of property, plant and equipment, intangible assets and investments, impairment of trade receivables, provision for employee benefits and other provisions, recoverability of deferred tax assets, commitments and contingencies.

2.3 REVENUE RECOGNITION**a) Sale of Goods**

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods as well as its collection. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, related discounts and volume rebates. It includes excise duty and subsidy and excludes Value Added Tax / Sales Tax/GST.

b) **Export Benefits**

- i) Incomes in respect of Duty Drawback in respect of exports made during the year are accounted on accrual basis.
- ii) Focus Market License, Focus Product License and Merchandise Exports from India Scheme (MEIS) income is recognised on accrual basis when considering the related expenses to the same profit or losses on transfer of licenses are accounted in year of the sales. Duty free imports of material under Advance License matched with the export made against the said licenses.

c) **Dividend**

Dividend income is recognised when the right to receive the same is established, which is generally when shareholders approve the dividend.

d) **Insurance Claims**

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

2.4 **FOREIGN CURRENCY TRANSACTIONS**

a) **Functional and Presentation Currency**

The financial statements are presented in Indian Rupee (INR), which is company's functional and presentation currency.

b) **Initial Recognition**

Transactions in foreign currencies are recorded at the exchange rate prevailing on the dates of the transactions. Exchange difference arising on foreign exchange transaction settled during the year are recognized in the Statement of profit and loss of the year.

c) **Measurement of foreign currency items at the Balance sheet date**

Monetary assets and liabilities denominated in foreign currencies are re-translated into functional currency at the exchange rate prevailing at the end of the reporting period. Non monetary assets and liabilities that are measured based on a historical cost in a foreign currency are not re-translated. Exchange differences arising out of these transaction are changed to the profit and loss.

2.5 **PROPERTY, PLANT AND EQUIPMENTS**

a) **Property, plant and equipment (PPE)**

i) **Recognition and measurement**

Freehold land is carried at cost. All other items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenses directly attributable to the acquisition of the assets. The cost of an item of a PPE comprises its purchase price including import duty, and other non-refundable taxes or levies and any directly attributable cost of bringing the assets to its working condition of its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

ii) **Subsequent expenditure**

Expenditure incurred on substantial expansion up to the date of commencement of commercial production are capitalized. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate only when it is probable that future economic benefit associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

b) **Capital Work-In-Progress And Pre-Operative Expenses During Construction Period**

Capital work-in progress includes expenditure directly related to construction and incidental thereto. The same is transferred or allocated to respective Property, Plant and Equipment on their completion / commencement of commercial production.

c) **Intangible assets**

Intangible assets are held on the balance sheet at cost less accumulated amortization and impairment loss if any.

2.6 **IMPAIRMENT OF NON- FINANCIAL ASSETS**

The Company's non-financial assets other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is an indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a discount rate that reflects current market assessments of time value of money and the risks specific to the CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment losses recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amount of the other assets of the CGU on a pro rata basis.

An impairment loss in respect of assets for which impairment loss has been recognized in prior periods, the Company reviews at reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.7 DEPRECIATION AND AMORTISATION

Depreciation is calculated to systematically allocate the cost of Property, Plant and Equipment and Intangible Asset over the estimated useful life. Depreciation is computed using Straight Line Method (SLM) over the useful lives of the assets as specified in Schedule II to the Companies Act, 2013.

Useful lives of the items of Property, Plant and Equipment are as follows:

Asset	Estimated Useful Life
Building	30 Years
Plant & Machinery	20 Years
Leasehold Improvements (Lower useful life as compared to useful life given in Schedule II to the Companies Act, 2013)	20 Years
Furniture and Fixtures	10 Years
Vehicles	8 Years
Other equipment	5 Years

The assets and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. Depreciation and amortization on property, plant and equipment added/disposed off during the year has been provided on pro-rata basis with reference to the date of addition/disposal.

2.8 NON-DERIVATIVE FINANCIAL INSTRUMENTS

I. Financial Assets

a) Classification of financial assets

The Company classifies financial assets as subsequently measures at amortised cost, fair value through other comprehensive income or fair value through profit & loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

i) Debt instrument at amortised cost:

A 'debt Instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objectives is to hold assets for collecting contractual cash flow and
- Contractual terms of the asset give rise on specified dates to cash flow that are solely payments of principal and interest (SPPI) on the principal amount outstanding."

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or cost that are an integral part of the EIR. The EIR. Amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. The category generally applies to trade and other receivable.

ii) Debt instrument at fair value through other comprehensive income (FVOCI):

Assets that are held for collection of contractual cash flow and selling the financial assets, where the assets' cash flow represents solely payments of principal and interest are measuring at FVOCI, movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue or foreign exchange gains and losses which are recognised in profit and loss. When the financial assets is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the EIR method. The company does not have any instruments classified as fair value through other comprehensive income (FVOCI).

iii) Debt instrument measured at fair through profit and loss (FVTPL):

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/ (losses) in the period in which it arises. Interest income from these financial assets is included in other income.

iv) Equity investments:

Investment in associates are accounted using equity method.

All other equity investments which are in scope of Ind-AS 109 are measured at fair value. Equity instrument which are held for trading are classified as at FVTPL. For all other equity investments, the Company decide to classify the same either as at fair value through other comprehensive income (FVOCI) or FVTPL. The company makes such election on an instrument-by- instrument basis. The classification is made on initial recognition and is irrevocable. The company has designated the equity investments at FVTPL

For equity investments classified as FVOCI, all fair value changes on the instruments, excluding dividend, are recognized in other comprehensive income (OCI). There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of such investment

Equity investments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Costs of certain unquoted equity instruments has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range.

b) Initial recognition and measurement

All financial assets are recognised initially at fair value and for those instruments that are not subsequently measured at FVTPL, plus/ minus transaction cost that are attributable to the acquisition of the financial assets.

Trade receivable are carried at original invoice price as the sales arrangements do not contain any significant financial component. Purchase or sales of financial assets that required delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the assets.

c) Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) primarily derecognised (i.e. removed from the company's balance sheet) when :

- The rights to receive cash flows from the asset have expired, or
- The Company has neither transferred nor retained substantially all the risks and rewards all the assets, but has transferred control of the assets.

When the company has transferred its rights to receive cash flow from an asset or has entered into a pass-through arrangement, it evaluates whether it has transferred substantially all the risks and rewards of ownership. In such cases, the financial asset is derecognised. When it has neither transferred nor retained substantially all of the risks and rewards of the assets, nor transferred control of the assets, the Company continues to recognise the transferred asset to the extent of the company's continuing involvement. In the case, the company recognises and associated liability. The transferred asset and the associated liability are measured on a basis that reflect the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and maximum amount of consideration that the company could be required to repay.

d) Impairment of financial assets

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised COST e.g., loan, debt security, deposits, and bank balance.
- Trade Receivables

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application simplified approach does not require the company to track change in risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivable. The provision matrix based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, historically observed default rate updated and change in the forward looking estimates are analysed.

II. Financial Liabilities and equity instruments

Debt and equity instruments issued by an entity are classified as either financial liability or as equity in accordance with substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

a) Equity instruments:

An equity instruments is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by an entity are recognised at the proceeds received, net of direct issue costs.

An equity instruments is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by an entity are recognised at the proceeds received, net of direct issue costs.

b) Financial liabilities :- Classification

Financial liabilities are classified as either 'at FVTPL' or 'other financial liabilities' which consists of derivative financial instruments, wherein the gain/losses arising from remeasurement of these instruments are recognized in the statements of profit and loss. Other financial liability (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

c) Initial recognition and measurement:

All financial liability are recognised initially at fair value and for those instruments that are not subsequently measured at FVTPL, plus/minus transaction cost that are attributable to issue of these instruments.

d) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of the new liability. The difference in the respective carrying amounts is recognised in the statement of Profit and Loss.

2.9 INVENTORIES

Inventories are stated at the lower of cost and net realizable value.

- Cost of Raw Material is determined on a First In First Out (FIFO) basis.
- Stores and Consumables are valued at cost (net of CENVAT) or net realizable value whichever is lower.
- Work in Progress is valued at cost or net realizable value whichever is less. Cost comprises direct materials and appropriate portion of direct labour costs, manufacturing overheads and depreciation.
- Finished goods are valued at cost or net realizable value whichever is lower. Cost comprises direct materials and where applicable, direct labour costs, those overheads that have been incurred in bringing the inventories to their present location
- Scrap is valued at estimated realisable value.

2.10 NON-CURRENT ASSETS HELD FOR SALE

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and its sale is highly probable. The Management must be committed to the sale, which should be expected to qualify for recognition as completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

2.11 BORROWING COSTS

Borrowing Costs that are interest and other costs that the company incurs in connection with the borrowings of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs include interest cost measured at EIR and exchange difference arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing Costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets,

wherever applicable, till the assets are ready for their intended use. Such capitalisation is done only when it is probable that the asset will result in future economic benefits and the costs can be measured reliably. Capitalisation of borrowing cost is suspended and charged to statement when active development is interrupted. Capitalisation of borrowing costs commences when all the following conditions are satisfied:

- i. Expenditure for the acquisition, construction or production of a qualifying asset is being incurred;
- ii. Borrowing costs are being incurred; and
- iii. Activities that are necessary to prepare the asset for its intended use are in progress.

A qualifying asset is one which necessarily takes substantial period to get ready for intended use. All other borrowing costs are charged to revenue account.

2.12 EMPLOYEE BENEFITS

Short term employee benefit obligations

Liabilities for wages, salaries, compensated absences including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related services are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are to be settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Post-employment obligations

The Company operates the following post-employment schemes:

- A. Defined benefit plans such as Gratuity; and
- B. Defined contribution plan such as Provident Fund

Gratuity Obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligations is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expenses in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in present value of the defined benefit obligation resulting from plan amendment or curtailments are recognised immediately in profit or loss as past service cost.

Defined Contribution Plans

The Company pays provident fund contributions to publicly administered funds as per the local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expenses when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payment is available.

2.13 EXCISE DUTY

Excise duty (including Education Cess) on Finished Goods are shown separately in Manufacturing and Other Expenses and included in the valuation of Finished Goods.

2.14 CENVAT

CENVAT Credit of Raw Materials and Other Consumables is accounted at the time of purchase and the same is being adjusted to the cost of Raw Materials and Other Consumables.

2.15 ACCOUNTING FOR TAXES ON INCOME

Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in Deferred Tax Assets and Liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period i.e. as per the provisions of the Income Tax Act, 1961, as amended from time to time. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on the rates and tax laws enacted or substantively enacted, at the reporting date in the country where the Company operates and generates taxable income. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Current tax assets and liabilities are offset only if, the Company :

- i) has legally enforceable right to set off the recognised amounts; and
- ii) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.”

Deferred Taxes

Deferred tax is recognised in respect of temporary differences between the carrying amounts of the assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purpose

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences only if it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realised; such reductions are reversed when the probability of future taxable profits improves. Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantially enacted at the reporting date.

Deferred Tax Assets and Liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and Deferred Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Any tax credit including MAT credit available is recognised as Deferred Tax to the extent that it is probable that future taxable profit will be available against which the unused tax credits can be utilised. The said asset is created by way of credit to the Statement of Profit and Loss and shown under the head deferred tax asset

The carrying amount of Deferred Tax Assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the Deferred Tax Asset to be utilised. Unrecognised Deferred Tax Assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset only if, the Company :

- i) has legally enforceable right to set off the recognized amounts; and
- ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

a) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating

to a provision is presented in the Statement of Profit and Loss net of any reimbursement. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

b) Contingent Liability

Contingent liabilities are not provided for and if material, are disclosed by way of notes to accounts. Contingent Liability is disclosed in the case of:

- i. A present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- ii. A present obligation arising from the past events, when no reliable estimate is possible;
- iii. A possible obligation arising from the past events, unless the probability of outflow of resources is remote.

provision due to the passage of time is recognised as interest expense.

Contingent Liability is disclosed in the case of:

- i. A present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- ii. A present obligation arising from the past events, when no reliable estimate is possible;
- iii. A possible obligation arising from the past events, unless the probability of outflow of resources is remote.

2.16 LEASES

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

a) Company as a Lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the Statement of Profit and Loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

b) Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease.

Leases are classified as Finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

2.17 EARNING PER SHARE

a) Basic Earnings Per Share

Basic Earnings Per Share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of

equity shares outstanding during the period. Earnings considered in ascertaining the company's earnings per share is the net profit for the period after deducting preference dividends, if any, and any attributable distribution tax thereto for the period.

b) Diluted Earnings Per Share

Diluted Earnings Per Share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.18 CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents comprise cash and deposits with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.19 STATEMENT OF CASH FLOWS

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing Cash Flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement. The Company is evaluating the requirements of the amendment and the effect on the financial statements is being evaluated.

2.20 DIVIDEND

The Company recognises a liability for dividends to equity holders of the Company when the dividend is authorised and the dividend is no longer at the discretion of the Company. As per the corporate laws in India, a dividend is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.21 ROUNDING OFF

All amounts disclosed in the financial statements and notes have been rounded off to the nearest rupees, unless otherwise stated.

2.22 EXCEPTIONAL ITEMS

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

2.23 OPERATING CYCLE

All assets and liabilities have been classified as current or non-current as per each Company's normal operating cycle and other criteria set out in the Schedule III to the Act

2.24 SEGMENT REPORTING

As the Company has only one primary business activity, Segment reporting is not applicable.

2.25 STANDARDS ISSUED BUT NOT YET EFFECTIVE

Ind AS 115 was issued on 28 March 2018 and establishes a five-step model to account for revenue arising from contracts with customers. Under Ind AS 115, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The new revenue standard will supersede all current revenue recognition requirements under Ind AS. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after 1 April 2018. The Company plans to adopt the new standard on the required effective date using the partial retrospective method.

NOTE 35(i): FIRST TIME ADOPTION OF INDIAN ACCOUNTING STANDARDS (IND AS)

“These are the Company’s first financial statements prepared in accordance with Ind AS

The accounting policies set out in note 2 have been applied in preparing the financial statements for the year ended 31st March 2018, the comparative information presented in these financial statements for the year ended 31 March, 2017 and in the preparation of an opening Ind AS Balance Sheet at 1 April, 2016 (the Company’s date of transition).

In preparing its opening Ind AS Balance Sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company’s financial position, financial performance and Cash Flows is set out in the following tables and notes”

Exemptions applied

Ind AS 101 “First-time adoption of Indian Accounting Standards” allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions:

Optional Exemption

1 Deemed Cost for Property , Plant and equipments and intangible assets :

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per previous GAAP and use that as its deemed cost as at the date of transition. Accordingly, the Company has elected to measure continue with the carrying values under previous GAAP for carrying value

2 Investment in foreign subsidiaries :

Under, Ind AS 101 an entity can determine the value of investment in a Subsidiary, Associate or Joint ventures as either of the below:

- Cost determined in accordance with Ind AS 27 (i.e. retrospective application of Ind AS 27)
- Fair value at the entity’s date of transition to Ind AS
- Previous GAAP carrying amount

Accordingly, the Company has elected to carry forward the previous GAAP amounts as the deemed cost for investment in equity shares of Subsidiaries in the Standalone Financial Statements.

Mandatory Exemption

1 Estimates

An entity’s estimates in accordance with Ind AS’s at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were an error.

Ind AS estimates as at 1 April 2016 and 31 March 2017 are consistent with the estimates as at the same date made in conformity with the previous GAAP

2 Classification and measurement of financial assets

The Company has classified the financial assets in accordance with Ind AS 109 on the basis of facts and circumstances that exist at the date of transition to Ind AS.

FOOT NOTE 35 (iv): NOTES TO RECONCILIATION OF EQUITY AS AT APRIL 01, 2016 AND MARCH 31, 2017 AND PROFIT & LOSS FOR THE YEAR ENDED MARCH 31, 2017

1 Fair valuation of investments

In the financial statements prepared under Previous GAAP, Non-current Investments of the Company were measured at cost less provision for diminution (other than temporary). Under Ind AS, the Company has recognised such investments as follows:

- Equity Shares of subsidiary companies - At Cost
- Equity and Debt oriented mutual funds - At fair value through profit and loss (FVTPL)
- Quoted Equity Shares - At FVTPL through an irrevocable election

Ind AS requires the above investments to be recognised at fair value (except investments in equity shares of subsidiary and associate companies).

On the date of transition to Ind AS, the difference between the fair value of Non-Current Investments as per Ind AS and their corresponding carrying amount as per financial statements prepared under Previous GAAP, has resulted in an increase in the carrying amount of these investments by Rs. 1,53,70,180/- which has been recognised directly in retained earnings (Equity).

As at 31st March, 2017, the difference between the fair value of Non-Current Investments as per Ind AS and their corresponding carrying amount as per financial statements prepared under Previous GAAP, has resulted in an increase in the carrying amount of these investments by Rs. 7,01,14,523/-. On such fair valuation, net gain amounting to Rs. 8,18,57,068/- has been recognised in other income in the Statement of Profit and Loss.

2 Security Deposits

Under previous GAAP, the company accounted for deposits at transaction value. Under Ind AS, the deposits with inherent significant financing element are initially recorded at fair value with difference between transaction value and fair value being treated as prepaid expenses. The deposits are subsequently measured at amortised cost and prepaid rent is amortised over contract period on a straight line basis. This has resulted to an decrease in equity on the transition date by Rs. 1,11,776/-. The profit before tax for the year ended March 31, 2017 has increased by Rs. 1,11,776/-.

3 Deferred Tax

Indian GAAP requires Deferred Tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind-AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind-AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or through other comprehensive income.

4 Deferral of Sales

Under Ind AS, revenue is recognised on transfer of significant risk and rewards to the customer with the seller retaining no continuing managerial involvement in the goods. This requires careful consideration of the sales delivery terms. On account of this, the sales made on CIF basis, which were recorded on bill of lading date under IGAAP, have been deferred with the corresponding inventory and sales deferral account being recognised.

This has resulted in increase in inventory by Rs. 9,72,006/- and Rs. 65,90,893/- as on 1st April 2016 and 31st March 2017 respectively. The value of trade receivables decreased by Rs. 17,50,100/- and Rs. 1,18,66,930/- as on 1st April 2016 and 31st March 2017 respectively.

5 Actuarial gain and loss

Under previous GAAP company measured the defined benefit obligations internally. On adoption of Ind AS the company has obtained actuarial valuation for its defined benefit obligation. The difference between defined benefit obligation as per actuarial valuation under Ind AS 19 and as measured under previous GAAP is recognised under retained earnings on transition to Ind AS. Consequently, provisions for employee benefit has been increased by Rs. 1,83,120/- and Rs. 3,42,717/- with a corresponding reduction in retained earnings on the 1st April 2016 and 31st March 2017 respectively.

Further under previous GAAP the company actuarial gains and losses in the statement of profit and loss in the period in which they occur. Under Ind AS, the company recognised all measurement gains and losses arising from defined benefit plans in Other Comprehensive Income in the period in which they occur.

6 Excise Duty

Under Indian GAAP, Sale of Goods was presented as net of excise duty. However, under Ind AS, Sale of Goods includes excise duty. Excise duty on Sale of Goods is separately presented on the face of statement of Profit and Loss.

7 Other Comprehensive income

Under Indian GAAP, the Company has not presented Other Comprehensive Income (OCI) separately. Hence, it has reconciled Indian GAAP Profit or Loss to Ind AS Profit or Loss. Further, Indian GAAP Profit and Loss account is reconciled to total Comprehensive Income as per Ind AS.

8 Other adjustments

Assets and Liabilities as well as items of Income and Expenses have been regrouped / re-classified wherever necessary to align with the provisions of Ind AS.

Total	2,66,223	-	-

Measurement of Fair Values :

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- The fair values of investment in shares is the share price quoted on recognised stock exchange as on the reporting date of balance sheet
- The fair values of investment in mutual fund is the N.A.V as on the reporting date of balance sheet
- The fair values of interest free security deposit given / accepted is estimated by discounting cash flows using rates currently available for instruments with similar terms, credit risks and remaining maturities. Management regularly assesses a range of reasonably possible alternatives for those significant observable inputs and determines their impact on the total fair value

NOTE 41: FINANCIAL RISK MANAGEMENT AND POLICIES

The Company's activities expose it to market risk. In order to minimize any adverse effects on the financial performance of the Company

This note explains the sources of risk which the Company is exposed to and how the Company manages the risk and the impact of hedge accounting in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Trade Receivables and other financial assets	Ageing analysis	Diversification of bank deposits, credit limit and letter of credit
Market risk - foreign currency risk	Recognised financial assets and liabilities not denominated in Rupees	Very limited Exposer	Company manages through natural Hedge
Market risk - Security prices risk	Investment in Shares and mutual funds	Sensitivity analysis	Portfolio diversification

The Company risk management is carried out by policies approved by the board of directors. The board provides written principles for overall risk management, as well as policies covering specific areas. There is no change in objectives, policies and process for managing the risk and methods used to measure the risk as compared to previous year.

(a) Market Risk:-

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs

(a)(i) Market Risk - Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The company's exposure to the risk of changes in market interest rates primarily to the Company's borrowings, both short term and long term obligations with fixed and floating interest rates. However the companies exposure to floating rate borrowings are very limited to its size of operation.

The company is also exposed to interest rate risk on its financial assets that include fixed deposits (which are part of cash and cash equivalents) since all these are generally for short durations, there is no significant interest rate risks pertaining to these deposits

Exposure to interest rate risk

Particulars	As at March 31, 2018	As at March 31, 2017
Fixed-rate instruments		
Financial Liabilities - Borrowings	70,20,602	22,84,695
Total	70,20,602	22,84,695

Sensitivity analysis to interest rate risk

The company doesn't account for any fixed rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

(a)(ii) Market Risk - Price Risk(Securities)

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price.

Exposure to Price Risk

Other price risk arises from financial assets such as investments in equity instruments and mutual funds disclosed below. The Company does make deposit with the banks as margin money against the borrowing facility provided by the banks. Deposit is made in fixed rate instrument. In view of this it is not susceptible to market price risk, arising from changes in interest rates or market yields which may impact the return and value of the investments.

Particulars	As at March 31, 2018	As at March 31, 2017
Investments in Quoted Equity Shares	9,16,38,498	6,68,39,869

(a)(iii) Market Risk - Currency Risk

The Company is having import and exports as well. Accordingly the group is exposed to currency risk on account of its trade payables and trade receivables in foreign currency. The functional currency of the group is Indian Rupees. The group follows a natural hedge driven currency risk mitigation policy to the extent possible. The exposed Foreign currency is not substantial to the operation of group.

Exposure to Currency risk

The summary quantitative data about the Group's exposure to currency risk are reported to management of the company are as follows:

(b) Credit Risk

Credit Risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

The carrying amount of Financial Assets represents the maximum credit exposure.

Trade Receivables

The Company has established a credit policy under which each new customer is analysed individually for creditworthiness before the payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, industry information, business intelligence and in some cases bank references.

Trade Receivables of the Company are typically unsecured, except to the extent of the security deposits received from the customers or financial guarantees provided by the market organizers in the business. Credit Risk is managed through credit approvals and periodic monitoring of the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company performs ongoing credit evaluations of its customers' financial condition and monitors the creditworthiness of its customers to which it grants credit terms in the normal course of business. The Company has no concentration of Credit Risk as the customer base is geographically distributed in India.

Expected credit loss for trade receivable:

The allowance for impairment of Trade receivables is created to the extent and as and when required, based upon the expected collectability of accounts receivables. On account of adoption of Ind AS 109, the Company uses lifetime Expected Credit Loss (ECL) model for assessing the impairment loss. For this purpose, the Company uses a provision matrix to compute the expected credit loss amount for trade receivables. Loss rates are based on actual credit loss experience and past trends. The provision matrix takes into account external and internal credit risk factors and historical experience / current facts available in relation to defaults and delays in collection thereof. Accordingly based on the provision matrix there is no expected credit loss to the company and accordingly there is no provision for doubtful debts

Other Financial Assets

The company maintains exposure in Cash and Cash equivalents and Bank deposits with banks, Equity Shares and Investments in Mutual Funds. The Company has diversified portfolio of investment with various number of counterparties which has goods credit ratings, goods reputation and hence the risk is reduced. Individual risk limits set for each counterparty based on financial position, credit rating and post experience. Credit limits and concentration of exposures are actively monitored by the Company.

Expected credit loss on financial assets other than trade receivable:

With regards to all financial assets with contractual cash flows other than trade receivable, management believes these to be high quality assets with negligible credit risk. The management believes that the parties from whom these financial assets are recoverable, have strong capacity to meet the obligations and where the risk of default is negligible and accordingly no provision for expected credit loss has been provided on such financial assets. Break up of financial assets other than trade receivables have been disclosed on balance sheet

The Company's maximum exposure to credit risk as at 31st March, 2018, 2017 and 1st April, 2016 is the carrying value of each class of financial assets.

(c) Liquidity Risk

Liquidity Risk is the risk that the Company will face in meeting its obligation associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach in managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Any short term surplus cash generated, over and above the amount required for working capital management and other operational requirements is retained as Cash and Cash Equivalents (to the extent required).

Exposure to Liquidity Risk

The responsibility of liquidity risk management rest with board of directors which are appropriate risk management framework for short, medium and long term liquidity measures with adequate cash flows and banking facilities.

The following table shows the maturity analysis of the Company's Financial Liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet Date

Independent Auditors' Report on Consolidated Financial Statements

To the Members of Fineotex Chemical Limited

Report on the Audit of Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of FINEOTEX CHEMICAL LIMITED ("the Holding Company") and its subsidiaries (collectively referred to as "the Group") which comprise the Consolidated Balance Sheet as at 31st March 2018, Consolidated Statement of Profit and Loss, including Statement of Other Comprehensive Income, Consolidated Cash Flow Statement, the consolidated Statement of Changes in Equity for the year ended on that date and a summary of Significant Accounting Policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Management and Board of Directors of the Holding Company are responsible for the preparation of the consolidated Ind AS financial statements in terms of the requirements in Section 134(5) of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in Equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 (hereinafter referred to as "the Act") read with Companies (Indian Accounting Standard) Rules, 2015 as amended. The Management and Board of Directors of the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditors' Responsibility

Our responsibility is to express an opinion on the consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We have conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Company, as at 31st March 2018, and their consolidated profit, including other comprehensive income, and their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Other Matters

- a) We have not audited the financial statements and financial information of six subsidiaries, whose financial statements have been considered for the purpose of consolidated Ind AS financial statements, which constitute total assets of Rs.4139.00 Lakhs as at 31st March, 2018, total revenue of Rs. 8269.94 Lakhs and net cash outflow amounting to Rs. 515.88 Lakhs for the year ended 31st March, 2018 as considered in the consolidated Ind AS financial statement. The consolidated Ind AS Financial Statements contains the unaudited financial statements of five subsidiaries incorporated outside India and are as provided to us by the management. The Ind AS financial statements and other financial information of one of the subsidiary incorporated in India has been audited by other auditor whose report has been furnished to us, and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of subsidiaries, and our report in terms of sub section (3) and (11) of S. 143 of the Act in so far as it relates to the aforesaid subsidiaries, is based solely on such financial statements and on the report of such other auditors, as the case may be.

Our opinion on the consolidated Ind AS financial statements, and our report on other legal and regulatory requirements below is not modified in respect of the above matters with respect to our reliance on the work done by other auditors and the financial statements as certified by the management.

Report on Other Legal and Regulatory Requirements

1. As required by sub-section 3 of Section 143 of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books.
 - (c) The consolidated balance sheet, the consolidated statement of profit and loss, including other comprehensive income, the consolidated cash flow statement and the consolidated statement of changes in equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements.
 - (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015, as amended.
 - (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March 2018 taken on record by the Board of Directors of the Holding Company and the report of the statutory auditors of its subsidiary company incorporated in India, none of the Directors of the Group companies incorporated in India is disqualified as on 31st March 2018 from being appointed as a Director of that company in terms of sub-section 2 of Section 164 of the Act.

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in "Annexure A"; and
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated Ind AS financial position of the Group. Refer Note 37 to the consolidated Ind AS financial statements;
 - ii. The Group has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund.

ANNEXURE - A TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Fineotex Chemical Limited (hereinafter referred to as "the Holding Company") and its subsidiary company which are companies incorporated in India, as of 31st March 2018, in conjunction with our audit of the consolidated Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company and its subsidiary company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors referred to in the 'Other Matters' paragraph is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's and its subsidiary company incorporated in India's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting with reference to the consolidated Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to the consolidated Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company and its subsidiary company incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Holding Company and its subsidiary company incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matter

Our aforesaid report under section 143(3) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to the subsidiary company incorporated in India is based on the corresponding reports of the auditor of such company.

SIGNIFICANT ACCOUNTING POLICIES

1 BACKGROUND

Fineotex Chemical Limited is a public limited by shares domiciled in India, incorporated under the provisions of Companies Act, 1956. Its shares are listed on National Stock Exchange of India Limited and BSE Limited. Its registered office is situated at 42,43 Manorama Chambers, S.V. Road Bandra (West) Mumbai - 400050 India.

The Company is engaged in the business of manufacturing of Textile chemicals, auxiliaries and specialty chemicals.

Fineotex Chemical Limited along with its Subsidiaries is collectively referred to as “the Group”

2 STATEMENT ON SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the Significant Accounting Policies adopted in the preparation of these Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 BASIS FOR PREPARATION OF ACCOUNTS

a) Statement of compliance with Ind AS

The Standalone Financial Statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act. The Financial statements for the year ended 31st March 2017 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These Standalone Financial Statements for the year ended 31st March 2018 are the first financial statements of the Company under Ind AS. The date of transition to Ind AS is 1st April, 2016. Accordingly, the Company has followed the provisions of Ind AS 101, ‘First Time Adoption of Indian Accounting Standards’, in preparing its opening Ind AS Balance Sheet as of the date of transition, i.e. 1 April 2016. Certain of the Company’s Ind AS accounting policies used in the Opening Balance sheet differed from its previous GAAP policies applied as at 31 March 2016, and accordingly adjustments were made to restate the opening balances as per Ind AS. The resulting adjustments arose from events and transactions before the date of transition to Ind AS. Therefore, as required by Ind AS 101, those adjustments were recognized directly through retained earnings as at 1 April 2016.

Refer Note 34 for an explanation of how the transition from Indian GAAP(IGAAP) to Ind AS has affected the Company’s financial position, financial performance and Cash Flows.

b) Current versus Non-Current classification

All assets and liabilities have been classified as Current or Non Current as per the Company’s normal operation cycle i.e. twelve months and other criteria set out in the Schedule III of the Act.

c) Historical Cost Convention

The financial statements are prepared on accrual basis of accounting under historical cost convention in accordance with Generally Accepted Accounting Principles in India and the relevant provisions of the Companies Act, 2013 including Indian Accounting Standards notified there under, except for the following:

- Certain financial assets and liabilities (including derivative instrument) measured at fair value
- Defined benefit plans - plan assets measured at fair value

d) Principles of Consolidation

The Consolidated financial statement of the Group represents consolidation of financial statements with Subsidiary companies. The proportion of ownership interest in each Subsidiary is as follows:

Name of the subsidiaries	Country of Domicile	Proportion of Ownership Interest	
		As at March 31, 2018	As at March 31, 2017
Fineotex Malaysia Limited	Malaysia	100.00%	100.00%
BT Chemicals SDN BHD	Malaysia	67.16%	57.14%
BT Biotex SDN BHD	Malaysia	67.62%	57.14%
BT Exon SDN BHD	Malaysia	70.00%	57.14%
Fineotex Specialties FZE	UAE	100.00%	100.00%
Manya Steels Private Limited	India	100.00%	100.00%

Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group combines the Financial Statements of the parent and its Subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of Subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group. Non controlling interest in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

Changes in Ownership Interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized within equity

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified in the Statement of Profit and Loss.

2.2 USE OF ESTIMATES

In preparation of the financial statements, the Company makes judgments, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Significant judgments and estimates relating to the carrying values of assets and liabilities include useful lives of property, plant and equipment and intangible assets, impairment of property, plant and equipment, intangible assets and investments, impairment of trade receivables, provision for employee benefits and other provisions, recoverability of deferred tax assets, commitments and contingencies.

2.3 REVENUE RECOGNITION

a) Sale of Goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods as well as its collection. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, related discounts and volume rebates. It includes excise duty and subsidy and excludes Value Added Tax / Sales Tax/GST.

b) Export Benefits

- i) Incomes in respect of Duty Drawback in respect of exports made during the year are accounted on accrual basis.
- ii) Focus Market License, Focus Product License and Merchandise Exports from India Scheme (MEIS) income is recognised on accrual basis when considering the related expenses to the same profit or losses on transfer of licenses are accounted in year of the sales. Duty free imports of material under Advance License matched with the export made against the said licenses.

c) Dividend

Dividend income is recognised when the right to receive the same is established, which is generally when shareholders approve the dividend.

d) Insurance Claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

2.4 FOREIGN CURRENCY TRANSACTIONS

a) Functional and Presentation Currency

The financial statements are presented in Indian Rupee (INR), which is company's functional and presentation currency.

b) Initial Recognition

Transactions in foreign currencies are recorded at the exchange rate prevailing on the dates of the transactions. Exchange difference arising on foreign exchange transaction settled during the year are recognized in the Statement of profit and loss of the year.

c) Measurement of foreign currency items at the Balance sheet date

Monetary assets and liabilities denominated in foreign currencies are re-translated into functional currency at the exchange rate prevailing at the end of the reporting period. Non monetary assets and liabilities that are measured based on a historical cost in a foreign currency are not re-translated. Exchange differences arising out of these transaction are changed to the profit and loss.

2.5 PROPERTY, PLANT AND EQUIPMENTS

a) Property, plant and equipment (PPE)

i) Recognition and measurement

Freehold land is carried at cost. All other items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenses directly attributable to the acquisition of the assets. The cost of an item of a PPE comprises its purchase price including import duty, and other non-refundable taxes or levies and any directly attributable cost of bringing the assets to its working condition of its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

ii) Subsequent expenditure

Expenditure incurred on substantial expansion up to the date of commencement of commercial production are capitalized. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate only when it is probable that future economic benefit associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

b) Capital Work-In-Progress And Pre-Operative Expenses During Construction Period

Capital work-in progress includes expenditure directly related to construction and incidental thereto. The same is transferred or allocated to respective Property, Plant and Equipment on their completion / commencement of commercial production.

c) Intangible assets

Intangible assets are held on the balance sheet at cost less accumulated amortization and impairment loss if any.

2.6 IMPAIRMENT OF NON- FINANCIAL ASSETS

The Company's non-financial assets other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is an indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a discount rate that reflects current market assessments of time value of money and the risks specific to the CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment losses recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amount of the other assets of the CGU on a pro rata basis.

An impairment loss in respect of assets for which impairment loss has been recognized in prior periods, the Company reviews at reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.7 DEPRECIATION AND AMORTISATION

Depreciation is calculated to systematically allocate the cost of Property, Plant and Equipment and Intangible Asset over the estimated useful life. Depreciation is computed using Straight Line Method (SLM) over the useful lives of the assets as specified in Schedule II to the Companies Act, 2013.

Useful lives of the items of Property, Plant and Equipment are as follows:

Asset	Estimated Useful Life
Building	30 Years
Plant & Machinery	20 Years
Leasehold Improvements (Lower useful life as compared to useful life given in Schedule II to the Companies Act, 2013)	20 Years
Furniture and Fixtures	10 Years
Vehicles	8 Years
Other equipment	5 Years

The assets and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. Depreciation and amortization on property, plant and equipment added/disposed off during the year has been provided on pro-rata basis with reference to the date of addition/disposal.

2.8 NON-DERIVATIVE FINANCIAL INSTRUMENTS

I. Financial Assets

a) Classification of financial assets

The Company classifies financial assets as subsequently measures at amortised cost, fair value through other comprehensive income or fair value through profit & loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

i) Debt instrument at amortised cost:

A 'debt Instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objectives is to hold assets for collecting contractual cash flow and
- Contractual terms of the asset give rise on specified dates to cash flow that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or cost that are an integral part of the EIR. The EIR. Amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. The category generally applies to trade and other receivable.

ii) Debt instrument at fair value through other comprehensive income (FVOCI):

Assets that are held for collection of contractual cash flow and selling the financial assets, where the assets' cash flow represents solely payments of principal and interest are measuring at FVOCI, movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue or foreign exchange gains and losses which are recognised in profit and loss. When the financial assets is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the EIR method. The company does not have any instruments classified as fair value through other comprehensive income (FVOCI).

iii) Debt instrument measured at fair through profit and loss (FVTPL):

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/ (losses) in the period in which it arises. Interest income from these financial assets is included in other income.

iv) Equity investments:

Investment in associates are accounted using equity method.

All other equity investments which are in scope of Ind-AS 109 are measured at fair value. Equity instrument which are held for

trading are classified as at FVTPL. For all other equity investments, the Company decide to classify the same either as at fair value through other comprehensive income (FVOCI) or FVTPL. The company makes such election on an instrument-by- instrument basis. The classification is made on initial recognition and is irrevocable. The company has designated the equity investments at FVTPL

For equity investments classified as FVOCI, all fair value changes on the instruments, excluding dividend, are recognized in other comprehensive income (OCI). There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of such investment

Equity investments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Costs of certain unquoted equity instruments has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range.

b) Initial recognition and measurement

All financial assets are recognised initially at fair value and for those instruments that are not subsequently measured at FVTPL, plus/ minus transaction cost that are attributable to the acquisition of the financial assets.

Trade receivable are carried at original invoice price as the sales arrangements do not contain any significant financial component. Purchase or sales of financial assets that required delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the assets.

c) Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) primarily derecognised (i.e. removed from the company's balance sheet) when :

- The rights to receive cash flows from the asset have expired, or
- The Company has neither transferred nor retained substantially all the risks and rewards all the assets, but has transferred control of the assets.

When the company has transferred its rights to receive cash flow from an asset or has entered into a pass-through arrangement, it evaluates whether it has transferred substantially all the risks and rewards of ownership. In such cases, the financial asset is derecognised. When it has neither transferred nor retained substantially all of the risks and rewards of the assets, nor transferred control of the assets, the Company continues to recognise the transferred asset to the extent of the company's continuing involvement. In the case, the company recognises and associated liability. The transferred asset and the associated liability are measured on a basis that reflect the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and maximum amount of consideration that the company could be required to repay.

d) Impairment of financial assets

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised COST e.g., loan, debt security, deposits, and bank balance.
- Trade Receivables

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application simplified approach does not require the company to track change in risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivable. The provision matrix based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, historically observed default rate updated and change in the forward looking estimates are analysed.

II. Financial Liabilities and equity instruments

Debt and equity instruments issued by an entity are classified as either financial liability or as equity in accordance with substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

a) Equity instruments:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by an entity are recognised at the proceeds received, net of direct issue costs.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by an entity are recognised at the proceeds received, net of direct issue costs.

b) Financial liabilities :- Classification

Financial liabilities are classified as either 'at FVTPL' or 'other financial liabilities' which consist of derivative financial instruments, wherein the gain/losses arising from remeasurement of these instruments are recognized in the statements of profit and loss. Other financial liability (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

c) Initial recognition and measurement:

All financial liabilities are recognised initially at fair value and for those instruments that are not subsequently measured at FVTPL, plus/minus transaction cost that are attributable to issue of these instruments.

d) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of the new liability. The difference in the respective carrying amounts is recognised in the statement of Profit and Loss.

2.9 INVENTORIES

Inventories are stated at the lower of cost and net realizable value.

- Cost of Raw Material is determined on a First In First Out (FIFO) basis.
- Stores and Consumables are valued at cost (net of CENVAT) or net realizable value whichever is lower.
- Work in Progress is valued at cost or net realizable value whichever is less. Cost comprises direct materials and appropriate portion of direct labour costs, manufacturing overheads and depreciation.
- Finished goods are valued at cost or net realizable value whichever is lower. Cost comprises direct materials and where applicable, direct labour costs, those overheads that have been incurred in bringing the inventories to their present location
- Scrap is valued at estimated realisable value.

2.10 NON-CURRENT ASSETS HELD FOR SALE

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and its sale is highly probable. The Management must be committed to the sale, which should be expected to qualify for recognition as completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

2.11 BORROWING COSTS

Borrowing Costs that are interest and other costs that the company incurs in connection with the borrowings of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs include interest cost measured at EIR and exchange difference arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing Costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets, wherever applicable, till the assets are ready for their intended use. Such capitalisation is done only when it is probable that the asset will result in future economic benefits and the costs can be measured reliably. Capitalisation of borrowing cost is suspended and charged to statement when active development is interrupted. Capitalisation of borrowing costs commences when all the following conditions are satisfied:

- i. Expenditure for the acquisition, construction or production of a qualifying asset is being incurred;
- ii. Borrowing costs are being incurred; and
- iii. Activities that are necessary to prepare the asset for its intended use are in progress.

A qualifying asset is one which necessarily takes substantial period to get ready for intended use. All other borrowing costs are charged to revenue account.

2.12 EMPLOYEE BENEFITS

Short term employee benefit obligations

Liabilities for wages, salaries, compensated absences including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related services are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are to be settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Post-employment obligations

The Company operates the following post-employment schemes:

- A. Defined benefit plans such as Gratuity; and
- B. Defined contribution plan such as Provident Fund

Gratuity Obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligations is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expenses in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in present value of the defined benefit obligation resulting from plan amendment or curtailments are recognised immediately in profit or loss as past service cost.

Defined Contribution Plans

The Company pays provident fund contributions to publicly administered funds as per the local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expenses when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payment is available.

2.13 EXCISE DUTY

Excise duty (including Education Cess) on Finished Goods are shown separately in Manufacturing and Other Expenses and included in the valuation of Finished Goods.

2.14 CENVAT

CENVAT Credit of Raw Materials and Other Consumables is accounted at the time of purchase and the same is being adjusted to the cost of Raw Materials and Other Consumables.

2.15 ACCOUNTING FOR TAXES ON INCOME

Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in Deferred Tax Assets and Liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period i.e. as per the provisions of the Income Tax Act, 1961, as amended from time to time. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on the rates and tax laws enacted or substantively enacted, at the reporting date in the country where the Company operates and generates taxable income. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Current tax assets and liabilities are offset only if, the Company :

- i) has legally enforceable right to set off the recognised amounts; and
- ii) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.”

Deferred Taxes

Deferred tax is recognised in respect of temporary differences between the carrying amounts of the assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purpose

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences only if it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realised; such reductions are reversed when the probability of future taxable profits improves. Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantially enacted at the reporting date.

Deferred Tax Assets and Liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and Deferred Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Any tax credit including MAT credit available is recognised as Deferred Tax to the extent that it is probable that future taxable profit will be available against which the unused tax credits can be utilised. The said asset is created by way of credit to the Statement of Profit and Loss and shown under the head deferred tax asset

The carrying amount of Deferred Tax Assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the Deferred Tax Asset to be utilised. Unrecognised Deferred Tax Assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset only if, the Company :

- i) has legally enforceable right to set off the recognized amounts; and
- ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

a) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

b) Contingent Liability

Contingent liabilities are not provided for and if material, are disclosed by way of notes to accounts. Contingent Liability is disclosed in the case of:

- i. A present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- ii. A present obligation arising from the past events, when no reliable estimate is possible;
- iii. A possible obligation arising from the past events, unless the probability of outflow of resources is remote.

provision due to the passage of time is recognised as interest expense.

Contingent Liability is disclosed in the case of:

- i. A present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- ii. A present obligation arising from the past events, when no reliable estimate is possible;
- iii. A possible obligation arising from the past events, unless the probability of outflow of resources is remote.

2.16 LEASES

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

a) Company as a Lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the Statement of Profit and Loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

b) Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease.

Leases are classified as Finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

2.17 EARNING PER SHARE

a) Basic Earnings Per Share

Basic Earnings Per Share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the company's earnings per share is the net profit for the period after deducting preference dividends, if any, and any attributable distribution tax thereto for the period.

b) Diluted Earnings Per Share

Diluted Earnings Per Share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.18 CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents comprise cash and deposits with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.19 STATEMENT OF CASH FLOWS

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing Cash Flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement. The Company is evaluating the requirements of the amendment and the effect on the financial statements is being evaluated.

2.20 DIVIDEND

The Company recognises a liability for dividends to equity holders of the Company when the dividend is authorised and the dividend is no longer at the discretion of the Company. As per the corporate laws in India, a dividend is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.21 ROUNDING OFF

All amounts disclosed in the financial statements and notes have been rounded off to the nearest rupees, unless otherwise stated.

2.22 EXCEPTIONAL ITEMS

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

2.23 OPERATING CYCLE

All assets and liabilities have been classified as current or non-current as per each Company's normal operating cycle and other criteria set out in the Schedule III to the Act

2.24 SEGMENT REPORTING

As the Company has only one primary business activity, Segment reporting is not applicable.

2.25 STANDARDS ISSUED BUT NOT YET EFFECTIVE

Ind AS 115 was issued on 28 March 2018 and establishes a five-step model to account for revenue arising from contracts with customers. Under Ind AS 115, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The new revenue standard will supersede all current revenue recognition requirements under Ind AS. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after 1 April 2018. The Company plans to adopt the new standard on the required effective date using the partial retrospective method.

NOTE 36(i): FIRST TIME ADOPTION OF INDIAN ACCOUNTING STANDARDS (IND AS)

“These are the Company’s first financial statements prepared in accordance with Ind AS

The accounting policies set out in note 2 have been applied in preparing the financial statements for the year ended 31st March 2018, the comparative information presented in these financial statements for the year ended 31 March, 2017 and in the preparation of an opening Ind AS Balance Sheet at 1 April, 2016 (the Company’s date of transition).

In preparing its opening Ind AS Balance Sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company’s financial position, financial performance and Cash Flows is set out in the following tables and notes”

Exemptions applied

Ind AS 101 “First-time adoption of Indian Accounting Standards” allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions:

Optional Exemption

1 Deemed Cost for Property, Plant and equipments and intangible assets :

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per previous GAAP and use that as its deemed cost as at the date of transition. Accordingly, the Company has elected to measure continue with the carrying values under previous GAAP for carrying value”

Mandatory Exemption

1 Estimates

The group estimates in accordance with Ind AS’s at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were an error.

On an assessment of the estimates made under Indian GAAP the Group has concluded that there was no necessity to revise the estimates under Ind AS except where estimates were required by Ind AS and not required by Indian GAAP or the basis of measurement were different

2 Classification and measurement of financial assets

The Company has classified the financial assets in accordance with Ind AS 109 on the basis of facts and circumstances that exist at the date of transition to Ind AS.

The remaining mandatory exceptions either do not apply or are not relevant to the Group

FOOT NOTE 36 (iv): NOTES TO RECONCILIATION OF EQUITY AS AT APRIL 01, 2016 AND MARCH 31, 2017 AND PROFIT & LOSS FOR THE YEAR ENDED MARCH 31, 2017

1 Fair valuation of investments

In the financial statements prepared under Previous GAAP, Non-current Investments of the Company were measured at cost less provision for diminution (other than temporary). Under Ind AS, the Company has recognised such investments as follows:

- Equity Shares of subsidiary companies - At Cost
- Equity and Debt oriented mutual funds - At fair value through profit and loss (FVTPL)
- Quoted Equity Shares - At FVTPL through an irrevocable election

Ind AS requires the above investments to be recognised at fair value (except investments in equity shares of subsidiary and associate companies).

On the date of transition to Ind AS, the difference between the fair value of Non-Current Investments as per Ind AS and their corresponding carrying amount as per financial statements prepared under Previous GAAP, has resulted in an increase in the carrying amount of these investments by Rs. 1,53,70,180/- which has been recognised directly in retained earnings (Equity).

As at 31st March, 2017, the difference between the fair value of Non-Current Investments as per Ind AS and their corresponding carrying amount as per financial statements prepared under Previous GAAP, has resulted in an increase in the carrying amount of these investments by Rs. 7,01,14,523/-. On such fair valuation, net gain amounting to Rs. 8,18,57,068/- has been recognised in other income in the Statement of Profit and Loss.

2 Security Deposits

Under previous GAAP, the company accounted for deposits at transaction value. Under Ind AS, the deposits with inherent significant financing element are initially recorded at fair value with difference between transaction value and fair value being treated as prepaid expenses. The deposits are subsequently measured at amortised cost and prepaid rent is amortised over contract period on a straight line basis. This has resulted to an decrease in equity on the transition date by with a corresponding increase in the profit before tax for the year ended March 31, 2017

3 Deferred Tax

Indian GAAP requires Deferred Tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind-AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind-AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or through other comprehensive income.

4 Deferral of Sales

Under Ind AS, revenue is recognised on transfer of significant risk and rewards to the customer with the seller retaining no continuing managerial involvement in the goods. This requires careful consideration of the sales delivery terms. On account of this, the sales made on CIF basis, which were recorded on bill of lading date under IGAAP, have been deferred with the corresponding inventory and sales deferral account being recognised. This has resulted in increase in inventory by Rs. 9,72,006/- and Rs. 65,90,893/- as on 1st April 2016 and 31st March 2017 respectively. The value of trade receivables decreased by Rs. 17,50,100/- and Rs. 1,18,66,930/- as on 1st April 2016 and 31st March 2017 respectively.

5 Actuarial gain and loss

Under previous GAAP company measured the defined benefit obligations internally. On adoption of Ind AS the company has obtained actuarial valuation for its defined benefit obligation. The difference between defined benefit obligation as per actuarial valuation under Ind AS 19 and as measured under previous GAAP is recognised under retained earnings on transition to Ind AS. Consequently, provisions for employee benefit has been increased by Rs. 1,83,120/- and Rs. 3,42,717/- with a corresponding reduction in retained earnings on the 1st April 2016 and 31st March 2017 respectively. Further under previous GAAP the company actuarial gains and losses in the statement of profit and loss in the period in which they occur. Under Ind AS, the company recognised all measurement gains and losses arising from defined benefit plans in Other Comprehensive Income in the period in which they occur.

6 Excise Duty

Under Indian GAAP, Sale of Goods was presented as net of excise duty. However, under Ind AS, Sale of Goods includes excise duty. Excise duty on Sale of Goods is separately presented on the face of statement of Profit and Loss.

7 Other Comprehensive income

Under Indian GAAP, the Company has not presented Other Comprehensive Income (OCI) separately. Hence, it has reconciled Indian GAAP Profit or Loss to Ind AS Profit or Loss. Further, Indian GAAP Profit and Loss account is reconciled to total Comprehensive Income as per Ind AS.

8 Cumulative translation differences on foreign operations

The Group has elected the option to reset the cumulative translation differences on foreign operations that exists as of the transition date to zero.

9 Other adjustments

Assets and Liabilities as well as items of Income and Expenses have been regrouped / re-classified wherever necessary to align with the provisions of Ind AS.

Total	16,34,26,955	17,24,45,401	16,49,90,671

Fair valuation of financial assets and liabilities with short term maturities is considered as approximate to respective carrying amount due to the short term maturities of these instruments.

(b) Fair Value Hierarchy

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs are other than quoted prices included in Level 1 that are observable for the assets or liabilities, either directly or indirectly.

Level 3 - Inputs are not based on observable market data (unobservable inputs).

The Financial Instruments included in Level 2 of fair value hierarchy have been valued using quotes available for similar assets and liabilities in the active market.

For Assets and Liabilities which are measured at Fair Values as at the Balance Sheet date, the classification of fair value calculations by category is summarized below:

Particulars	As at March 31, 2018	As at March 31, 2017	As at April 01, 2016
Financial Assets			
Level 1			
Investments in quoted equity shares	9,16,38,498	6,68,39,869	7,00,10,050
Investments in mutual fund units	45,58,42,460	40,32,89,325	29,73,12,631

Total	56,56,94,383	48,96,29,194	38,51,06,147
Financial Liabilities			
Level 2			
Security Deposit Accepted	2,66,223	-	-
Total	2,66,223	-	-

Measurement of Fair Values :

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- The fair values of investment in shares is the share price quoted on recognised stock exchange as on the reporting date of balance sheet
- The fair values of investment in mutual fund is the N.A.V as on the reporting date of balance sheet
- The fair values of interest free security deposit given / accepted is estimated by discounting cash flows using rates currently available for instruments with similar terms, credit risks and remaining maturities. Management regularly assesses a range of reasonably possible alternatives for those significant observable inputs and determines their impact on the total fair value

NOTE 42: FINANCIAL RISK MANAGEMENT

The Group's activities expose it to market risk. In order to minimize any adverse effects on the financial performance of the Company

This note explains the sources of risk which the Group is exposed to and how the Group manages the risk and the impact of hedge accounting in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Trade Receivables and other financial assets	Ageing analysis	Diversification of bank deposits, credit limit and letter of credit
Market risk - foreign currency risk	Recognised financial assets and liabilities not denominated in Rupees	Very limited Exposer	Company manages through natural Hedge
Market risk - Security prices risk	Investment in Shares and mutual funds	Sensitivity analysis	Portfolio diversification

The Group's risk management is carried out by policies approved by the board of directors. The board provides written principles for overall risk management, as well as policies covering specific areas. There is no change in objectives, policies and process for managing the risk and methods used to measure the risk as compared to previous year.

(a) Market Risk:-

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs

(a)(i) Market Risk - Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates primarily to the Group's borrowings, both short term and long term obligations with fixed and floating interest rates. However the Group's exposure to floating rate borrowings are very limited to its size of operation.

The Group is also exposed to interest rate risk on its financial assets that include fixed deposits (which are part of cash and cash equivalents) since all these are generally for short durations, there is no significant interest rate risks pertaining to these deposits

Exposure to interest rate risk

Particulars	As at March 31, 2018	As at March 31, 2017
Fixed-rate instruments		
Financial Liabilities - Borrowings	70,20,602	22,84,695
Total	70,20,602	22,84,695

Sensitivity analysis to interest rate risk

The Group doesn't account for any fixed rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

(a)(ii) Market Risk - Price Risk(Securities)

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price.

Exposure to Price Risk

Other price risk arises from financial assets such as investments in equity instruments and mutual funds disclosed below. The Group does make deposit with the banks as margin money against the borrowing facility provided by the banks. Deposit is made in fixed rate instrument. In view of this it is not susceptible to market price risk, arising from changes in interest rates or market yields which may impact the return and value of the investments.

(b) Credit Risk

Credit Risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

The carrying amount of Financial Assets represents the maximum credit exposure.

Trade Receivables

The Group has established a credit policy under which each new customer is analysed individually for creditworthiness before the payment and delivery terms and conditions are offered. The Group's review includes external ratings, if they are available, financial statements, industry information, business intelligence and in some cases bank references.

Trade Receivables of the Group are typically unsecured ,except to the extent of the security deposits received from the customers or financial guarantees provided by the market organizers in the business. Credit Risk is managed through credit approvals and periodic monitoring of the creditworthiness of customers to which the Group grants credit terms in the normal course of business. The Group performs ongoing credit evaluations of its customers' financial condition and monitors the creditworthiness of its customers to which it grants credit terms in the normal course of business. The Group has no concentration of Credit Risk as the customer base is geographically distributed in India.

Expected credit loss for trade receivable:

The allowance for impairment of Trade receivables is created to the extent and as and when required, based upon the expected collectability of accounts receivables. On account of adoption of Ind AS 109, the Group uses lifetime Expected Credit Loss (ECL) model for assessing the impairment loss. For this purpose, the Group uses a provision matrix to compute the expected credit loss amount for trade receivables. Loss rates are based on actual credit loss experience and past trends. The provision matrix takes into account external and internal credit risk factors and historical experience / current facts available in relation to defaults and delays in collection thereof. Accordingly based on the provision matrix there is no expected credit loss to the Group and accordingly there is no provision for doubtful debts

Other Financial Assets

The Group maintains exposure in Cash and Cash equivalents and Bank deposits with banks, Equity Shares and Investments in Mutual Funds. The Group has diversified portfolio of investment with various number of counterparties which has goods credit ratings, goods reputation and hence the risk is reduced. Individual risk limits set for each counterparty based on financial position, credit rating and post experience. Credit limits and concentration of exposures are actively monitored by the Group

Expected credit loss on financial assets other than trade receivable:

With regards to all financial assets with contractual cash flows other than trade receivable, management believes these to be high quality assets with negligible credit risk. The management believes that the parties from whom these financial assets are recoverable, have strong capacity to meet the obligations and where the risk of default is negligible and accordingly no provision for expected credit loss has been provided on such financial assets. Break up of financial assets other than trade receivables have been disclosed on balance sheet

The Group's maximum exposure to credit risk as at 31st March, 2018, 2017 and 1st April, 2016 is the carrying value of each class of financial assets.

(c) Liquidity Risk

Liquidity Risk is the risk that the Group will face in meeting its obligation associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach in managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. Any short term surplus cash generated, over and above the amount required for working capital management and other operational requirements is retained as Cash and Cash Equivalents (to the extent required).

Exposure to Liquidity Risk

The responsibility of liquidity risk management rest with board of directors which are appropriate risk management framework for short , medium and long term liquidity measures with adequate cash flows and banking facilities.

The following table shows the maturity analysis of the Group's Financial Liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet Date
