DIVIDEND

In view of loss after tax, no dividend is recommended for the year ended 31st March, 2018.

ECONOMIC SCENARIO

Indian economy is poised to win back its tag of the fastest growing economy in the world. The recent upgrade of India's rating by the US based credit rating agency Moody's (Baa2 from Baa3) in recognition of the reforms agenda pursued by the Government is a major boost to investor confidence. Further, as the short term disruptions caused by major reforms such as the Goods and Services Tax (GST) and demonetization wave, the economy is on the rebound and is likely to achieve higher growth targets in the New Year.

After registering GDP growth of over 7% for the third year in succession in 2016-17, the Indian economy is headed for somewhat slower growth, estimated to be 6.5% in 2017-18, as per first Advance Estimates released by CSO. This is slightly lower than the projection based on recent developments, which is the highest among the major economies of the world. That this growth has been achieved in a milieu of inflation, improved current account balance and notable reduction in the fiscal deficit to GDP ratio makes it all the more creditable. In addition to the introduction of GST, the year also witnessed significant steps being undertaken towards resolution of problems associated with non-performing assets of the banks, further liberalization of FDI, etc., thus strengthening the momentum of reforms.

However, from Sectoral point of view, we see that the agricultural sector registered moderate growth as erratic monsoon in several parts and flooding in some states impacted performance. Industrial growth accelerated sharply during the second quarter of FY 2018 and jumped to 6.9% from 1.5% in the previous quarter, on account of a sharp increase in manufacturing and electricity, gas, water supply and utility services. Services sector grew at 6.6% in the second quarter as compared to 7.8% in the previous quarter.

ANNEXURE “A” TO DIRECTORS’ REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Economic Outlook

The economy of India is a developing economy and it is poised to win back its tag of the fastest growing economy in the world. The recent upgrade of India's rating by the US based credit rating agency Moody's (Baa2 from Baa3) in recognition of the reforms agenda pursued by the Government is a major boost to investor confidence. Further, as the short term disruptions caused by major reforms such as the Goods and Services Tax (GST) and demonetization, recede the economy is on the rebound and is likely to achieve higher growth targets in the Year 2018-19. The GDP growth for the fiscal year 2017-18 is at a four-year low of 6.6 %, mainly due to the poor performance of agriculture and manufacturing sector, as against 7.1% in the last fiscal year.

In the financial year 2017-18, the Current account deficit (CAD) widened to 1.9% of the GDP from 0.7% in 2016-17. The widening of the CAD on a year-on-year (y-o-y) basis was primarily on account of a higher trade deficit (US\$ 44.1 billion) brought about by a larger increase in merchandise imports relating to exports. In April-December 2017, there was an accretion of US\$ 30.3 billion to the foreign exchange reserves, as against a net outflow of US\$ 3.2 billion a year ago. The Economic Survey 2017-18 tabled in Parliament said that foreign exchange reserves grew by 14.1 per cent at the end of December 2017. Economic growth is picking up partly because the temporary impact of demonetization and GST has dissipated, and corrective actions have been taken. For the entire financial Year 2017-18, the growth rate of Indian economy is 6.5 %. The Reserve Bank of India expects 7.4 % growth in the financial year 2018-19.

2. Industry Structure and Developments

Non-Banking Financial Companies (NBFCs) have played a critical role in stimulating the growth of the Indian economy and have made a significant contribution towards supporting the government's agenda of extending financial inclusion. In fact, they have emerged as key financiers to businesses, especially the high-potential, credit-hungry MSME sector.

Your Company operates in only one segment for investment. The Business Segment has been identified in accordance with Accounting Standard. The market for this activity offers high potential for growth. There have been a number of reasons behind growth of Indian economy in last couple of years. A number of market reforms have been instituted by Indian government and there has been significant amount of foreign direct investment made in India. Much of this amount has been invested into several businesses including knowledge process outsourcing industries. India's foreign exchange reserves have gone up continuously in last few years. Real estate sector as well as information technology industries of India have taken off. Capital markets of India are doing quite well too. All these factors have contributed to growth of Indian economy.

3. Opportunities

Non-banking Finance Companies, in India, are expected to see 18% compounded annual growth rate (CAGR) for the next two and a half years and raise their share in total credit to 19 per cent by 2020, according to rating agency CRISIL.

To enable the NBFCs to realize their true potential in the economy, the regulatory framework must succeed in walking the thin line between under-regulation and over-regulation. It will be interesting to see how the NBFC sector and the regulator work with each other to usher in an era of financial inclusion. There are great opportunities in NBFC Sector in the year to come.

Non-banking finance companies (NBFCs) are an integral part of the Country's financial system because of their complementary and as well as competitive role. They act as a critical link in the overall financial system catering to a large market of niche customers.

4. Threat

The major threat being faced by Investment & Finance Companies are regulatory changes in NBFCs, Interest Rate hikes by RBI, Inflation, aggressive marketing of banks and volatility in global equity and commodity Market.

We have audited the internal financial controls over financial reporting of Nagreeka Capital and Infrastructure Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal -financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over -financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of -financial statements for external purposes in accordance with generally accepted accounting principles. INDEPENDENT AUDITORS' REPORT (Contd.)

that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.
