Less : Tax Expenses / (Benefits)	(2,344.49)	(1,448.91)
Profit / (Loss) after Tax	(4,184.26)	(1,257.78)
Other comprehensive income, net of income tax	1.14	32.46
Total comprehensive income for the period	(4,183.12)	(1,225.32)
Basic / Diluted earnings per share of ₹10/- each, before / after extraordinary items	(14.85)	(4.47)

2) Dividend

In view of the stringent financial position, your Directors have not recommended payment of dividend for the year 2018-19. Also no amount has been transferred to reserves.

3) Financial Performance

Your Company earned an income of ₹ 40,245.20 lakhs in the year 2018-19 as against ₹ 56,402.02 lakhs during the previous year. The Company has incurred a net loss of ₹ 4,183.12 lakhs as against the net loss of ₹ 1,225.32 lakhs incurred during the previous year.

4) Operational Performance

a) Sugar Division

The key operational data of our sugar division for the year 2018-19 are as follows:

Particulars	2018-19	2017-18
Sugarcane crushed (Tons)	9,21,726	7,56,525
Recovery %	8.48	8.84
Sugar Produced (Tons)	78,183	66,859
Sugar Sold - Domestic (Tons)	86,987	1,16,362

The sugarcane crushing has increased by 22% due to improved sugarcane cultivation in the command area, with a marginal drop in sugar recovery.

b) Cogeneration Division

During the year under review, the total power generated by all our Units was 1,113 lakh units as against 1,052 lakh units in the previous year. The company exported 662 lakh units during the year as against 638 lakh units in the previous year.

The Company has received 1,18,077 units of carbon credits and has been accounted during the year under review.

c) Distillery Division

Unit I Distillery restarted operations on 3rd February 2019 after stoppage of four years. Last four years, the plant was not operated due to low availability of cane and slowdown of demand of rectified spirit. The current supportive policy of Ethanol blending and competitive prices for ethanol along with the relaxations by the State Government on supply of ethanol has helped the unit to restart production of ethanol.

Both Unit I and Unit III have together produced 186.20 lakh litres of Alcohol in 2018-19 as against 192.03 lakh litres of Alcohol in the previous year and sold 211.59 lakh litres of alcohol as against 188.60 lakh litres of alcohol in the previous year.

5) Default in the payment to the lenders

The Tamil Nadu Government has officially declared failure/deficit of the north east monsoon for the years 2016 and 2018, and many districts of Tamil Nadu as drought affected. The Company's command areas have been severely affected by drought conditions. Owing to the continuous drought, falling capacity utilization and mismatch between sugar realization and cane price, the company has become a Non-Performing Asset (NPA) in the month of June'2018.

Even before the company became NPA in the month of June 2018, it presented a draft Debt restructuring proposal which was not accepted by the consortium of banks. The State Bank of India (lead bank) allowed the company to continue its business operations under certain conditions which is being met by the company. The company again submitted a revised Debt restructuring plan in the month of March 2019 which was again not accepted by the banks.

The company is currently in the process of discussion with Asset Reconstruction Companies (ARC) for a possible debt resolution by way of assignment of debt.

The company has on 10th May 2019 received notice under Section 13(2) of the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 dated 8th May 2019 from ICICI bank calling upon the Company to pay ₹ 67.43 Crores (entire outstanding as on 31.3.2019). The company is in discussion with the ICICI Bank for a possible debt resolution.

The company is in default of SDF loans since the Financial Year 2016. The Ministry of Consumer Affairs, Food and Public Distribution has allowed restructuring of SDF loans on occurrence of a natural calamity in a particular State vide notification dated 17th September 2018. Further guidelines in this regard are awaited.

6) Future Outlook

While Tamilnadu has had a dismal sugar production because of low sugarcane availability, the country as a whole had produced 325 lakh tons in the season 2017-18, leaving a large surplus of 107 lakh tons, and is set to produce 330 lakh tons in the current season 2018-19. Therefore, sugar prices will remain depressed or anchored to the Minimum Support Price fixed by the Government of India.

The Tamilnadu Government has declared a drought in two out of the last four years. G.O. Ms. No.6, Revenue [DM 3(1)] dated 10th January 2017 and G.O. Ms. No.91, Revenue and Disaster Management D.M.III (1) Section dated 7th March 2019 have declared 2016 and 2018 respectively as drought hit years. The command area of the company has also been severely affected by the drought and has produced only 9.22 lakh tons of sugarcane in financial year 2018-19 with a consequent low capacity utilization and increased cost of production.

The monsoon in the current year and the Government policy on sugar would continue to have a significant bearing on the prospects of the industry in the coming years.

7) Fixed Deposits

Your Company has not accepted any deposits within the meaning of Section 73 of the Companies Act, 2013 and the Companies (Acceptance of Deposits) Rules, 2014 during the year under review.

8) Auditors

Statutory Auditors: As approved by the Shareholders, M/s.S.Krishnamoorthy & Co., Chartered Accountants, Coimbatore are holding office as Statutory Auditors for the five financial years from 2016-17 to 2020-21 and holding office up to the conclusion of the 35th AGM to be held in the year 2021.

Cost Auditors: In terms of Section 148 of the Companies Act, 2013 read with Companies (Cost Records and Audits) Rules, 2014, the products manufactured by the company viz. Sugar, Industrial Alcohol and Cogeneration of Power are covered under the ambit of mandatory cost audit. Accordingly, the Company has made and maintained the cost records as specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013.

As per the recommendation of the Audit Committee, the Board of Directors had appointed M/s.S.Mahadevan & Co., Cost Accountants, as the Cost Auditor of the Company, to carry out the cost audit for the financial year 2019-20 and fixed their remuneration. The necessary resolutions will be placed before the ensuing Annual General Meeting for ratification of remuneration as per Section 148(3) of the Companies Act, 2013.

9) Conservation of energy, technology absorption, foreign exchange earnings and outgo

Annexed herewith as Annexure 1.

10) Corporate Governance

The Company is committed to maintain the highest standards of corporate governance and adhere to the corporate governance requirements set out by SEBI. The Company has also implemented several best corporate governance practices as prevalent globally. The report on Corporate Governance (Annexure 2) as stipulated under the SEBI (LODR) Regulations, 2015 forms an integral part of this Report. The requisite certificate from the Auditors of the Company confirming compliance with the conditions of corporate governance is attached to the report on Corporate Governance.

11) Details of Directors or Key Managerial Personnel Appointed / Resigned

Key Managerial Personnel appointed / resigned during the year is furnished below:

14) Declaration given by Independent Directors

The Independent Directors of the Company have furnished declarations as required under Section 149(6) of the Companies Act 2013 & SEBI (LODR) Regulations, 2015.

15) Whistle Blower Policy ('Vigil Mechanism')

The Board has established a Vigil Mechanism, as required under the SEBI (LODR) Regulations, 2015, for directors and employees to report concerns about unethical behaviour, actual or suspected fraud and violation of the company's code of conduct or ethics policy.

This mechanism also provides for adequate safeguard against victimization of director(s) / employee(s) who avail of the mechanism and also provide for direct access to the Chairman of the Audit Committee in exceptional cases. The Company affirms that no person has been denied access to the Audit Committee.

The said Policy has been revised with effect from 1st April 2019 and the same is available on the website of the Company www.rajshreesugars.com/policies.

16) Particulars of Loans, Guarantees or Investments under Section 186

The Company has not made any loan, given any guarantee or made any investment as per Section 186 of the Companies Act 2013 during the year under review.

17) Sexual Harassment

The company has a policy on prohibition, prevention and redressal of Sexual Harassment of women at workplace and matters connected therewith or incidental thereto covering all the aspects as contained under "The Sexual Harassment of women at workplace (Prohibition, Prevention and Redressal) Act, 2013".

During the calendar year ended 31st December 2018, no complaint was received under the policy.

31) Risk Management Policy

The Company has formulated a Risk Management Policy as required under SEBI (LODR) Regulations 2015. The Company has also formulated a specific policy viz., 'Forex and Interest Rate Risk Management Policy for Currency and Interest Rate Risk Management'.

The Board perceives the risk of continued deficit monsoons which may erode the operational viability of the business. While there are slew of measures from the Government of India to address the pan-India surplus of sugar, there is currently lack of a special package of support measures specifically targeted to revive the Tamilnadu Sugar industry which is in distress because of very low capacity utilization.

The details about the risks being faced by the Company are furnished in the 'Management Discussion & Analysis Report' (Annexure 7).

32) Significant & material orders passed by regulator or courts or tribunals impacting going concern status and companies operations in future

There have been no significant & material orders passed by regulator / courts / tribunals impacting going concern status and companies operations in future.

33) Compliance with Secretarial Standards

The company has complied with all applicable mandatory Secretarial Standards issued by the Institute of Company Secretaries of India and approved as such by the Central Government, as per the provisions of Companies Act, 2013.

34) Acknowledgement

Your Directors thank the Banks and Financial Institutions for their valuable and timely financial assistance and support provided by them to the Company. Your Directors also thank the cane growers, suppliers, Government Institutions and others for the cooperation extended to the Company. The Board also places on record its appreciation of the dedicated services rendered by the employees of the Company.

May **Goddess Lakshmi** shower Her blessings for the continued prosperity of the Company.

ANNEXURE 1
BOARD'S REPORT FOR THE YEAR ENDED 31ST MARCH 2019

A. CONSERVATION OF ENERGY

i) The steps taken or impact on conservation of energy;

At Unit-I, Varadarajnagar:

1. 250 numbers ordinary Tube light lamps in Tissue culture lab, 15 numbers SV/MV lamps in Distillery plant and street lights have been replaced with LED lamps, which resulted in the saving of 19,211 units of power for the financial year.
2. Distillery RS plant 1 - 30 HP Air blower stopped for 12 hours instead of continuous operation, thereby saving 20 units / hour, which resulted in saving of 17,280 units for the financial year.
3. Distillery AA plant - 3HP product pump stopped and product transferred through the modified line by gravity, thereby saving 2 units/hour, which resulted in saving of 1170 units for the financial year.
4. Effective Utilization of Biogas in Canteen resulted in saving of 15 cylinders.

At Unit-II, Mundiampakkam

1. Optimized capacity of seed screw pump to 12.5HP in place of 25HP, resulted in energy saving of 223 units per day and 24,530 units for the financial year.
2. Tube lights, SV / MV lamps were replaced with LED lamps in Quarters street lights and Cogen VFD room, resulted in energy saving of 29 units per day and 10,548 units for the financial year.
3. Effective utilization of Biogas in Canteen resulted in saving of 110 cylinders.
4. Standby 75KW VFD connected to mill Imbibition water pump, resulted in energy saving of 150 units per day & 20,250 units for the financial year.

At Unit-III, Semmedu

1. Alternate supply source from 20.5MW provided for part of Distillery process operation to minimize 3MW load thereby reducing steam venting from 3 MW exhaust, which resulted in saving of 1.75 tons of 3 ATA Steam per hour.
2. Common VFD introduced for 20.5MW Cogen Coal spreaders (5 numbers) for reducing the speed to 300rpm, instead of running in full speed in DOL mode during empty run to avoid shaft bend / bearing failure, resulted in power saving of 70 units/day and for financial year 9,590 units.
3. Eliminating LPG cylinders by using Biogas at canteen resulted in saving of 1.5 cylinders per day and 440 cylinders in the financial year.
4. Solar power panel provided for two wheeler shed nearby main office, resulted in power saving of 315 units in the financial year.

ii) The steps taken by the company for utilizing alternate sources of energy; Nil

iii) The capital investment on energy conservation equipment (₹in lakhs)

- 1) At Unit-I - 1.20
- 2) At Unit-II - 0.31
- 3) At Unit-III - 5.01

B. TECHNOLOGY ABSORPTION

- i) The efforts made towards technology absorption;
 - 1) New high yielding, high sugar and short duration variety viz., Co 11015 was identified for large scale evaluation from Sweet Bloom varietal evaluation project, a collaborative study between SISMA and ICAR Sugarcane Breeding Institute (SBI), Coimbatore. This variety recorded highest juice quality from 8th month onwards and recorded higher cane yield than existing ruling variety Co 86032 in two plant and one ratoon crop study.
 - 2) Based on the above study results, multi-location study was taken up with Co 11015 variety in different soil and environmental conditions to assess its suitability. Simultaneously multiplied this variety in 25 acres for large scale evaluation for Big Mill Test. Rapid multiplication of this variety through tissue culture and chip bud seedling is under progress as a replacement for other medium sugar varieties.
 - 3) New set of 18 Sweet Bloom clones obtained from Sugarcane Breeding Institute were multiplied and taken up for plant trial at Mundiampakkam as part of the SISMA-SBI project.
 - 4) New variety Co 0212 was evaluated for its yield and quality and found that the yield was 4 to 6 tonnes higher than Co 86032; however the big mill test results revealed that the CCS was 0.20 % lesser. Since this variety is performing well under drought conditions, planting of this variety in specific pockets and further evaluation is under progress.
 - 5) Three new clones viz., VSI 08121, Co 0238 and Co 06030 were planted in different soil and climatic conditions at Mundiampakkam and Varadaraj Nagar and the evaluation is under progress to assess its suitability.
 - 6) Evaluation of 38 new sugarcane clones obtained from ICAR Sugarcane Breeding Institute, Coimbatore (2012, 2013 and 2014 series clones) is under progress at Mundiampakkam and Varadaraj Nagar cane farm for yield and juice quality.
 - 7) New set of 29 clones for All India Co-ordinated Research Project on Sugarcane were obtained from ICAR Sugarcane Breeding Institute, Coimbatore and are being multiplied at Varadaraj Nagar for further evaluation in 2020.
 - 8) Research evaluation of more than 200 clones obtained from Sugarcane Breeding Institute, Coimbatore and Sadhana Agri Tech, Bangalore in the past years resulted in the identification of 10 promising clones performing better than the predominant variety, Co 86032 in terms of both yield and quality. Final evaluation with the selected varieties are under progress.
 - 9) Produced and supplied 0.77 lakhs Tissue culture sugarcane seedlings for the breeder seed nursery programme. Also produced 7069 new variety tissue culture seedlings. This quality seed nursery production initiative by the company was widely lauded by other sugar mills and Sugarcane Breeding Institute, Coimbatore during their surveys / field visits.
 - 10) 192 tonnes of rejuvenated Co 86032 and new variety seed material were obtained from Sugarcane Breeding Institute, Coimbatore for promotion of good quality seed material for the nursery and bulk planting so as to facilitate for the higher cane yield to the farmers and higher CCS % for the mill.
 - 11) The promising clones identified from R&D trials are being multiplied through Tissue Culture for rapid introduction of new varieties to bestow prime mover advantage to the company in terms of enabling realization of better profits by farmers and higher sugar recoveries by our company.
 - 12) Varietal purity for higher sugar recovery is being ensured through an exclusive R&D breeder seed nursery farm operational at Varadaraj Nagar and Mundiampakkam thus catering to the nursery seed requirement of farmers of all our Units.

- 13) Application of Samartha, an organic growth promoter manufactured by M/s Rajshree Biosolutions LLP, @ 6 litre / acre recorded higher CCS of 10.90 % and comparable yield increase of 8.40 tonne / acre over control. Hence large scale evaluation of that product in 20 acres has been initiated to study its efficacy on cane yield and juice quality at Mundiampakkam.
 - 14) A collaborative study with Rivulis Drip Irrigation Company has been initiated to study the suitability of Drip Irrigation System in wet land condition. First year plant crop study is under progress.
 - 15) New product field evaluation studies with Jivdhan (microbial bio mixture) and chelated zinc for sugarcane yield and quality improvement is under progress.
 - 16) Obtained "Soil Test Based Fertilizer Recommendation Software" from Sugarcane Breeding Institute, Coimbatore and being used for fertilizer recommendation to the sugarcane farmers.
 - 17) Integrated measures combining sound, smell and physical barriers were tested against Wild boar incidence. More than 15 field studies with different combinations were tested and the wild boar incidence was controlled up to 50 days period.
 - 18) Periodical monitoring of cane area through regular and mass pest and disease survey is being carried through the cane team and SBI Scientists. Forecast of the potential problem that may arise with recommendations of solutions is being given to farmers through cane team to manage the pest and disease problems.
 - 19) Trained the cane team and farmers through series of field demonstrations for promotion of sticky trap, INB management measures, Integrated method of Wild boar management, chip bud seedling production, vermi compost production technologies so as to improve the average cane yield and net income of the farmers.
 - 20) The entire cane team of all three factories attended the two days National Level Training on Advances in sugarcane cultivation held at ICAR Sugarcane Breeding Institute, Coimbatore as part of the knowledge update.
 - 21) Presented two research articles in XII ISSCT International Pathology Workshop held at Coimbatore jointly organized by ISSCT- Mauritius and SBI-Coimbatore during 3rd-7th September 2018. Mr.Balaji (Breeder, Mundiampakkam) got the "Young Scientist Award" for his presentation.
 - 22) Presented the status report of all Rajshree Group units on Strategies for cane yield improvement, mechanization, varietal performance and nursery in the 49th R&D Workshop at Erode on 1st and 2nd November 2018.
 - 23) The Company received Best Client Award from BNI Kultivate - Nandhi Tractors, Coimbatore during November 2018 in view of good support in popularizing Sugarcane Mechanisation especially Chisel Plough.
- ii) The benefits derived like product improvement, cost reduction, product development or import substitution;
- 1) The company's efforts is continuing in promotion of drip irrigation, trash shredding, trash mulching and rain gun irrigation to improve the crop yield and save the crop from drought condition.
 - 2) Developed two technical videos on "Rain Gun Irrigation in Sugarcane Crop" and "Sticky Pheromone Trap of INB Management" for educating the farmers and cane team and for improving the adoption level of the technologies.
 - 3) Large scale and targeted adoption of a specific drought management practice of potash and micronutrient foliar spray through entrepreneurs resulted in mitigating crop moisture stress and preventing crop perishals.
 - 4) Continual technology up-gradation of in-house R&D biological control agent production facilities and farmer-entrepreneur units resulted in coverage of 25 % of cane area across all units with eco-friendly biological control agents and significant reduction in pest incidence and better cost benefit to farmers.

- 5) A simple tool for Pocket Manuring of fertilizers near the root zone was developed and around 400 tools were distributed to the farmers for large scale adoption.
 - 6) 240 tube lights in TC lab have been replaced with LED bulbs to save the power cost and to improve the tissue culture seedling growth in the production process.
 - 7) Ring Bud cutting machine was introduced and is being used for promotion of single bud seed supply for planting High Sugar Varieties through Self Nursery scheme.

xix. Commodity Price Risk or foreign exchanges risk and hedging activities:

Sugar being a commodity is exposed to cycles and price risk. To mitigate commodity risks, the company enters into forward sales contract with the reputed institutional buyers for a reasonable quantity.

Government in June 2018 has fixed a minimum selling price of sugar at ₹ 29 per kg for sale at factory gate in domestic market, below which no sugar mill can sell sugar. Later the price was increased to ₹ 31 per kg in February'2019. The Government also re-introduced the release order mechanism for controlling the sugar that can be sold in the market. This has helped in arresting the free fall of sugar price.

MANAGEMENT DISCUSSION AND ANALYSIS

Industry Scenario and Development

Global Sugar Outlook

According to Platts-Kingsmen (International Sugar Analyst), global sugar production in 2019-20 (October - September) was estimated at 189 million tons and consumption was estimated at 183 million tons.

Sugar Sector in India

As estimated for the sugar season 2018-19, the sugar production is likely to be over 32.5 million tons almost at the same levels as in the previous year. India has emerged as the largest producer of sugar in the world. With the consumption estimate of 26-27 million tons and exports of over 3 million tons the closing stock is expected to be in range of 13-14 million tons as compared to the opening stock of 10.7 million tons. It remains to be seen how much is actually exported considering the lack of parity between the global and domestic prices and considering the export incentives which the Government has announced.

Sugar Sector in Tamil Nadu

Tamil Nadu sugar industry is passing through a most traumatic period due to continuous failure of monsoon rains, inadequate cane availability, low sugar recovery, increasing cane cost, gross underutilization of capacities and consequent increase in the cost of production. The capacity utilization at the sugar mills have fallen to 25%. Tamil Nadu is witnessing continuous drop of sugar production over the past 6 seasons on account of successive deficit monsoons. Season wise cane crushed by Tamil Nadu sugar mills is given below :

Sugar season	Cane crushed (in Lac MT)
2011-12	255
2012-13	215
2013-14	158
2014-15	141
2015-16	156
2016-17	119
2017-18	65
2018-19 (estimate)	70

Revenue Department, Government of Tamil Nadu vide Notification No. II(1)/REV/D/2017 dated 18.1.2017 has declared 32 districts as Drought affected due to failure of North East Monsoon in 2016. Further, the Revenue and Disaster Management Department of Government of Tamil Nadu has vide Notification No. ii(1)/REVD/1 (h)/2019 dated 7.3.2019 declared 24 districts and 38 blocks of 7 districts in the State of Tamil Nadu as affected by Hydrological Drought during North East Monsoon in 2018.

Tamil Nadu sugar mills have been served a double whammy – very low sugar prices due to glut in the National and Global level and higher cost of production, much higher than that of sugar mills in other States due to years of successive drought and consequent drastically lower sugarcane production. Due to steep fall in capacity utilization coupled with increasing cane price and falling revenues from the downstream products, cash flows of Tamil Nadu sugar industry were severely stressed.

Due to the deficit in monsoon over past six years and more particularly the drought in 2016 and 2018, the cane crushing in your company has dropped from 28.4 Lakh tons in Financial Year (FY) 2012-13 to 9.22 lakh tons in FY 2018-19. Your company did not have adequate revenue generation to pay cane price to the farmers and simultaneously service and repay the loans taken from Banks. As a result the company defaulted to the banks and was categorized as a Non-performing Asset (NPA) in the month of June '2018.

The company is in discussion with the banks for resolution, including the restructuring of debt.

Government of India Sugar Policies

The Government had announced slew of measures to revive the sugar industry.

(A) Minimum sale price of sugar and Release order mechanism:

The Government of India in June '2018 had fixed a minimum selling price of sugar at ₹ 29/- per kg for sale at factory gate in the domestic market, below which no sugar mill should sell sugar. Later the price was increased to ₹ 31 per kg in February '2019. The Government also re-introduced the release order mechanism for controlling the quantity of sugar that can be sold in the market. This has helped in arresting the free fall of sugar price.

(B) Creation of Buffer Stock:

With a view to improve the liquidity position of the sugar mills, enabling them to clear cane price arrears of farmers and to stabilize domestic sugar price, the central government has created a buffer stock of 30 LMT (Lakh Metric Tonnes) of sugar in August 2018 for which the Government will reimburse carrying cost of ₹ 1175 crores towards maintenance of buffer stock.

(C) Minimum Indicative Export Quota (MIEQ):

Government of India allocated 50 lac tons of sugar for export under MIEQ for the season 2018-19. Government announced an export subsidy of ₹ 138.8 per ton of cane crushed and ₹ 1000 - 2500 per ton of sugar towards transportation subsidy depending on the distance to the port or actuals whichever is lower. This would help in removing the surplus sugar from the domestic market.

(D) Ethanol directly from Sugarcane juice:

The Central Government on July 26, 2018, amended the Sugarcane (Control) Order, 1966 vide Sugarcane (Control) Amendment Order, 2018. Following are the key amendments:

- (i) Production of Ethanol directly from sugarcane juice to be allowed in case of sugar mills only.
- (ii) For Ethanol produced directly from sugarcane juice or B-Heavy molasses, the recovery rate to be determined by considering every 600 litres of Ethanol as equivalent to one MT of production of sugar.

(E) Soft Loan

With a view to facilitate payment of cane dues of the farmers for the current sugar season 2018-19, the Central Government notified a scheme for extending soft loan to sugar mills. The quantum of soft loan has been determined at 85% of reported production of white sugar by mills in sugar season 2017-18, valued at ₹ 31,000/- per MT.

The financial assistance extended is by way of interest subvention for the soft loan for a period of one year, calculated at 7% simple interest or actual rate of interest charged by the bank, whichever is lower. As per the scheme, only those mills which had cleared at least 25% of Fair & Remunerative Price (FRP) dues of Sugar Year (SY) 2018-19 by 26.3.2019 were eligible for interest subvention. Since the Company is under NPA, it need sovereign guarantee from the State Government for availing this soft loan, which was not forthcoming. Also, the Company did not want to add burden of further debts. Hence, the company did not avail the Soft loan

(F) Tamil Nadu state sugarcane policy

During the year, the Tamil Nadu (TN) Government paid a transitional production incentive of Rs.200/- per MT of sugarcane, directly to the bank account of farmers of Varadarajnagar, Mundiampakkam, and Semmedu, who had supplied sugarcane during 2017-18 sugar season, to bridge the difference between FRP and the higher State Advised Price (SAP) announced earlier by the State Government.

Opportunities & Threats

Sugar business is cyclical and is highly dependent upon the monsoon. Pricing of sugar cane is beyond the control of the sugar mill and is announced by Central Government. The sugar price realizations are also subject to market sentiments inconsistent with the fundamentals of actual demand and supply.

Delays in the collection of cogeneration dues also pose a challenge in the management of cash flows.

Sugarcane Price

For the season 2018-19, Central Government has fixed FRP of ₹ 275/- per quintal for a basic recovery rate of 10% in place of ₹ 255/- per quintal for season 2017-18; providing a premium of ₹ 2.75 per quintal for each 0.1 % increase in recovery over and above 10%. However in case of the mill with a recovery of lower than 9.5%, the price has been fixed at ₹ 261.25 per quintal for the 2018-19 season in place of ₹ 255/- per quintal for season 2017-18. This policy of differentiating the price based on the recovery, would help the Tamil Nadu mills as most of the mills (barring few) normally operate at less than 9.5% recovery.

Tamil Nadu state has enacted an Act to regulate the price of the sugarcane purchased by the sugar factories from the farmers in the State of Tamil Nadu. This Act is called "Tamil Nadu Sugarcane (Regulation of Purchase Price) Act 2018". Under the said Act the sugar cane price shall be calculated on the basis of revenue sharing. The sugarcane price shall be the higher value among the following namely:-

- i) the sugarcane price arrived at a sum equal to seventy percent of the ex-factory basic value of sugar and primary by-products such as bagasse, molasses and press mud: or
- ii) the sugarcane price arrived at as a sum equal to seventy-five percent of the ex-factory basic value of the sugar alone.

This has been a long pending demand of the Tamil Nadu sugar Industry. TN government has in the past announced SAP which was far in excess of affordability of the sugar mills. This welcome step would help in eliminating the mismatch of sugar price and cane price and thus stabilize the long term viability of the Tamil Nadu sugar mills.

Ethanol

The Cabinet Committee on Economic Affairs (CCEA) in September'2018 has increased Ethanol price from ₹ 40.85 to ₹ 43.46 as the base price per liter of ethanol produced from C-Heavy molasses. They have also fixed ₹ 52.43 as the base price per liter of Ethanol produced from B-Heavy Molasses and ₹ 59.13 as the base price per liter for Ethanol produced from Cane juice for the Ethanol season 2018-19 (December to November). The decision will serve multiple purposes of reducing excess sugar in the country, increasing liquidity with the sugar mills for settling cane farmer's dues and making higher ethanol available for Ethanol Blended Petrol program (EBP). Increased ethanol blending in petrol has many benefits including reduction in import dependency, support to agricultural sector, more environmental friendly fuel, lesser pollution and additional income to farmers. All distilleries will be able to take benefit of the scheme and large number of them are expected to supply ethanol for the EBP program and thereby improve the financial position of the distillery units. At the Company, we already have a ethanol capacity of 125 KLPD and are benefitted by these policy amendments.

Outlook

While Tamil Nadu has had a dismal sugar production because of low sugarcane availability, the country as a whole had produced 325 lakh tons in the season 2017-18, leaving a large surplus of 107 lakh tons, and is set to produce 330 lakh tons in the current season 2018-19. Therefore, sugar prices will remain depressed or anchored to the Minimum Support Price fixed by the Government of India. However, monsoon and Government policy on sugar would continue to have a significant bearing on the prospects of the industry in the coming years.

Risks and concerns

Your company continues to review and manage the risks emanating from such a dynamic environment at periodic intervals.

The major risks faced by the industry include sugarcane availability, price realization and regulatory control by Government and financial liquidity amongst others.

Sugarcane availability

Sugarcane is the main raw material in sugar mills. Sugarcane cultivation is monsoon dependent. Hence it becomes unpredictable in adverse climatic conditions. Similarly other factors like scarcity of harvest labour, sugarcane price, and availability of remunerative/alternate crops will have a direct impact on cane availability and affect our business.

Risk mitigation:

- ❖ Continuous yield improvement activities to obtain a better quality cane leading to a better recovery.
- ❖ Close monitoring of cane development activities, which includes supply of good quality seeds, fertilizers and manure, among others.
- ❖ Promoting drip irrigation with support of State subsidy.

- ❖ Testing new improved varieties of cane with support of Sugarcane Breeding Institute.
- ❖ Careful monitoring of cane planting and harvesting schedule.
- ❖ Introduction of farmers mechanisation in agricultural operations.
- ❖ Maintaining good relationship with farmers.

Sugar price realization risk

Sugar being a commodity, the price remains volatile and realizations get adversely affected during a downturn. Coupled with this, higher cane price too affects profitability.

Risk mitigation: To address the challenge of cyclical in the sugar business, the Company has adopted an integrated business model manufacturing sugar and also producing alcohol and cogenerating power from sugarcane residue viz., molasses and bagasse. The Power and Alcohol business enhances the profitability of the company and de-risks the business from the adverse movements of sugar price.

The Company is also focusing on improving direct sales to institutional buyers to lock down on prices, thereby balancing the volatility of the market.

Regulatory risk

The sugar industry continues to be regulated by State Governments by other controls viz., reservation of cane area and fixation of sugarcane price.

In order to stabilize the domestic sugar prices, due to glut in the sugar production in the country, and to enable the sugar mills across the country to clear the cane price arrears, the government had taken the following measures, during the year:

- a) The Government had allowed 2 million tonnes of export under Minimum Indicative Export Quota (MIEQ) scheme for the 2017-18 marketing year, with each Mill being allocated a certain fixed quantity.
- b) The Government had also brought back the monthly sugar release mechanism to control sugar supply to the domestic market.
- c) The Government had created a buffer stock of 3 million tonnes of sugar.
- d) The Government had announced Minimum Selling Price (MSP) of Rs.31/- per kg, below which the mills cannot sell sugar.
- e) Central Government notified a scheme for extending soft loan to sugar mills. The quantum of soft loan has been determined at 85% of reported production of white sugar by mills in sugar season 2017-18, valued at ₹ 31,000/- per MT.
- f) The Government had announced a production incentive of ₹ 13.88 per quintal of cane crushed during the 2018-19 sugar crushing season.

Since, the Company is working at 32% of its production capacity due to continuous drought for the last 5 years, it is not possible to meet some or all of the regulatory measures taken by the Government.

Risk mitigation:

- ❖ Indian Sugar Mills Association (ISMA) and South Indian Sugar Mills Association (SISMA) of which the Company is a member are in the process of presenting recommendation for appropriate policy changes to reduce governmental influence in the sugar sector and work toward complete decontrol of the sugar industry.
- ❖ The Company had challenged the monthly sugar release mechanism, before the court of law and got an order in favour of the Company.
- ❖ The State Government had also sent representations to the Ministry of Consumer Affairs, Food & Public Distribution seeking exemption from MIEQ and monthly release mechanism, and to release the production incentive of Rs.13.88 per quintal to the Tamil nadu sugar mills without linking it to compliance with MIEQ, release mechanism and supply of ethanol to oil marketing companies.

Financial liquidity risk

Sugar industry is highly working capital intensive. Raising adequate and rightly-priced working capital and arranging funds for payment of the interest and principal with respect to loans availed might pose a challenge. The other associated risk is soaring interest rates.

The sugarcane availability and sugar price risk continue to have significant impact on the financial liquidity of the Company.

Since the Company has been declared NPA in June 2018, it is operating without working capital facilities.

Risk mitigation:

- ❖ The Company has been granted holding-on-operations by the lenders, with certain conditions including cut-back from cash flows, enabling the Company to continue its operations.
- ❖ The Company has also obtained an interim stay on the application of release mechanism from the High Court of Judicature at Chennai enabling sale of sugar as needed.
- ❖ Further, the Company is also under discussions with the Banks for possible debt restructuring or assignment of debt to Asset Reconstruction Companies.

Internal control systems and their adequacy

The Company has a well-established internal control systems in the form of well-documented policies, authorization guidelines commensurate with the level of responsibility and standard operating procedures, to ensure proper functioning of operations. Moreover there exists an effective internal audit system, commensurate with the requirements of the company.

The Board, Audit Committee and the Management review the findings and recommendations of the Internal Auditors and take corrective action, wherever necessary. Moreover the Audit Committee periodically interacts with Statutory Auditors and makes continuous assessments of the adequacy and effectiveness of the internal control systems.

Human Resources

The Management Staff Strength as on 31st March 2019 is 210. The Non-Management Staff strength as on 31st March 2019 is 637. Industrial Relations are cordial and there is no significant development.

Ratio's where there has been significant change from the Financial Year 2017-18 to Financial Year 2018-19

Sl. No.	Key Profitability Ratios	FY 2018-19	FY 2017-18	Remarks
1.	EBITDA / Sales % (Operating Profit Margin)	4.4%	6.5%	Operating EBITDA for the year 2018-19 stood at ₹ 17.38 crores as against ₹ 36.78 crores for year 2017-18. Owing to drought, capacity utilization recorded a significant fall and resultant poor sugar recovery coupled with mismatch between the Cost of production and Selling price of sugar resulted in fall in the EBITDA.
2.	Net Profit Margin (%)	-16.3%	-4.7%	Interest cost for the year 2018-19 stood at ₹ 57.96 crores as against ₹ 60.08 crores for year 2017-18. Insufficient operating EBITDA resulted in negative net profit margins.
3.	Return on Net Worth	-46.6%	-9.3%	As explained in point no. 1 and 2 above

Sl. No.	Key Liquidity Ratios	FY 2018-19	FY 2017-18	Remarks
1.	Current Ratio	0.44	0.62	Negative net profit margin resulted in the tightness of working capital and mounting current liabilities.
2.	Debtors Turnover Ratio	6.35	11.80	Owing to drought conditions and consequent drop in sugar production, sugar sales dropped from 1.16 lakh tons in FY 2017-18 to 0.87 lakh tons in FY 2018-19. The cogeneration dues for export of power to TANGEDCO mounted from ₹ 25.50 crores to ₹ 49.80 crores during the same period.
3.	Inventory Turnover	3.52	4.01	Drop in the sugar sales led to the fall in the ratio, however the lower sugar stocks in the current year helped to moderate the fall.

Sl. No.	Key Capital Structure Ratios	FY 2018-19	FY 2017-18	Remarks
1.	Debt Equity Ratio	5.10	3.57	Loss after tax resulted in the erosion of the reserves and surplus and thus resulted in inflated Debt equity ratio
2.	Interest Coverage Ratio	0.30	0.61	Dismal operating margin resulted in EBITDA being insufficient to service debt. The interest charge remained at identical levels because of the default on term loan. This led to the drop of interest coverage ratio.

INDEPENDENT AUDITOR'S REPORT

To the Members of Rajshree Sugars & Chemicals Limited

Report on the Financial Statements

Opinion

We have audited the Financial Statements of Rajshree Sugars & Chemicals Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, the Loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S.No.	Key Audit Matter	Auditor's Response
1	Accounting for Interest on loans from Banks consequent to loan accounts being treated as NPA: The company's loan accounts with banks have become NPA and the consortium of bankers other than ICICI Bank and Federal Bank have not debited interest with effect from 28.06.2018. However, the Company has recognized the liability towards accrued interest, as per terms of sanction read with CDR concessions, aggregating to ₹ 4363.29 lakhs and shown it under interest accrued and due .	The accounting for interest accrued and due as stated has given rise to the carrying amount of outstanding loan and interest at variance compared to statement of account from the respective bankers. At the request of the Company, bankers have allowed operation of the accounts as before under certain restrictions. The Company is in negotiation for an amicable resolution of the matter as permitted by law and the matter is pending. We have reviewed the relevant documents and have no alternate view on the accounting of interest on loans in the circumstances.

S.No.	Key Audit Matter	Auditor's Response
2	Unsecured Loan from Sugar Development Fund : The Company has defaulted in repayment of dues towards Principal and Interest on account of stringent financial position and have represented for rescheduling of the terms of repayment. There has been no favourable response from the SDF. In this background, the Company has accounted for Interest payable at the rates as per terms of sanction aggregating to ₹ 1528.64 lakhs and shown it under interest accrued and due.	The method of accounting of interest due/overdue has resulted in the carrying amount of outstanding loan and interest at variance from the demand received from SDF on the specified due dates. The Company has pursued the matter with concerned authorities through Industry Association and the matter is pending. We have reviewed the relevant documents and have no alternate view on the accounting of interest in the circumstances.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance / conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive, income changes in equity and cash flows of the Company in accordance with the IndAS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in

- (i) planning the scope of our audit work and in evaluating the results of our work; and
- (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid Financial Statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure " B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

The remuneration paid by the Company to its Directors by way of fee for attending meetings of the Board or committee thereof, is in accordance with the provisions of Section 197(5) of the Act

The Remuneration paid to the Managing Director and the Whole Time Director, is in accordance with the provisions of Section 197 of the Companies Act and that the same is not in excess of the limit laid down under the said section. The same has been approved by the Consortium of Bankers from whom the Company has availed loan facilities. Approval from Sugar Development Fund, the only other Secured Creditor has not been received till date as detailed in Note No.37(14).
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements.

- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company except unpaid dividend of ₹ 39,729/- for the Financial Year 2009-10 as per the stay orders issued by the Court.

ANNEXURE - A

Referred to in paragraph 1 of Report on Other Legal and Regulatory Requirements

According to the information and explanations sought by us and given by the Company and the books and records examined by us during the course of our Audit and to the best of our knowledge and belief we report the following:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets
 - (b) The fixed assets have been physically verified in a phased periodical manner, by the management, which in our opinion is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies have been noticed on such physical verification.
 - (c) The title deeds of all the immovable properties of land and building which are freehold are held in the name of the company as at the Balance Sheet date. In respect of building that has been taken on lease and disclosed as fixed assets in the Ind AS financial statements, the Lease Agreements are in the name of the Company.
- (ii) The physical verification of inventory has been conducted by the management at reasonable intervals. The Company has maintained proper record of inventory and no material discrepancies were noticed on the physical verification of inventories as compared to the book records.
- (iii) The Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act.
- (iv) The Company has not advanced any loans to its directors or any other person in whom the directors are interested or given any guarantee or provided any security in connection with any loan taken by the directors or such other person as contemplated under section 185 of the Act.
- (v) The Company has not accepted any deposits from the public. Therefore the provisions of clause (v) of para 3 of the order are not applicable to the company.
- (vi) The Central Government has prescribed the maintenance of cost records under section 148(1) of the Act, in respect of manufacture of sugar and alcohol as well as generation and transmission of electricity by the company. We have broadly reviewed the accounts and records of the company in this connection and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have not, however carried out a detailed examination of the same.
- (vii) (a) The Company is regular in depositing undisputed statutory dues including provident fund, employee's state insurance, income-tax, goods and service tax, duty of customs, duty of excise, cess and other material statutory dues with the appropriate authorities. There are no undisputed arrears of statutory dues which were outstanding as at 31 March 2019 for a period of more than six months from the date they became payable.
- (b) The details of disputed statutory dues which have not been deposited by the Company are as given below:

ANNEXURE - B TO THE AUDITORS' REPORT

(Referred to in Paragraph 2(f) of Report on Other Legal and Regulatory Requirements)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Rajshree Sugars & Chemicals Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining Internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that;

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

Company overview

RAJSHREE SUGARS & CHEMICALS LIMITED ('the Company') is a public limited company incorporated in India. The company's equity shares are listed on BSE and NSE. The registered office is located at The Uffizi, 338/8, Avinashi Road, Peelamedu, Coimbatore - 641 004, Tamilnadu, India.

1. Significant accounting policies

1.1 Statement of compliance

The financial statements have been prepared as a going concern in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

1.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the accounting policies mentioned below. Historical cost is generally based on the fair value of the consideration given in exchange of goods or services.

The principal accounting policies are set out below:

All assets and liabilities have been classified as current or non-current according to the Company's operating cycle and other criteria set out in the Act. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

1.3 Going concern

The Board of Directors have considered the financial position of the Company at 31st March 2019 and projected cash flows and financial performance of the Company for at least twelve months from the date of approval of these financial statements as well as planned cost and cash improvement actions, and believe that the plan for sustained profitability remains on course.

The Board of Directors have taken actions to ensure that appropriate long-term cash resources are in place at the date of signing the accounts to fund the Company's operations.

1.4 Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amount of revenues and expenses for the years presented. Actual results may differ from the estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods affected.

1.5 Revenue recognition

The company derives revenue primarily from the sale of Sugar.

Revenue from contract with customers is recognised when the Company satisfies performance obligation by transferring promised goods and services to the customer. Performance obligations are satisfied at the point of time when the customer obtains controls of the asset.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

Revenue is measured based on transaction price, which is the fair value of the consideration received or receivable, stated net of discounts, returns and Goods and Services Tax. Transaction price is recognised based on the price specified in the contract, net of the estimated sales incentives/ discounts. Accumulated experience is used to estimate and provide for the discounts/ right of return, using the expected value method.

Ind AS 115 provides a single model of accounting for revenue arising from contracts with customers based on the identification and satisfaction of performance obligations.

1.6 Foreign currencies

1.6.1. Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). The financial statements are presented in Indian rupee, which is the company's functional and presentation currency.

1.6.2. Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the year-end exchange rates are generally recognized in profit or loss.

1.7 Employee Benefits

1.7.1. Short term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the Balance Sheet.

1.7.2. Other long term employee benefit

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of the expected future payments to be made in respect of services provided by employee up to the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Measurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur. Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the period-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the leave as a current liability in the balance sheet; to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where Company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

1.7.3. Post-employment obligation

The Company operates the following post-employment schemes:

- a) Defined benefit plans such as gratuity for its eligible employees and
- b) Defined contribution plans such as provident fund.

Defined benefit plan:

The Company has a gratuity defined benefit plans for its employees. The costs of providing benefits under these plans are determined on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for each plan using the projected unit credit method. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and the balance sheet. The Company has funded this with Life Insurance Corporation of India ('LIC') and HDFC Standard Life Insurance Company. The contributions made to the LIC are treated as plan assets. The defined benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligation as reduced by the fair value of plan assets.

Defined contribution plan:

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme and pension scheme as expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

1.7.4. Bonus plans

The Company recognizes a liability and an expense for bonus. The Company recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

1.8. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1.8.1 Current tax

The income tax expenses or credit is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted.

1.8.2 Deferred tax

Deferred tax is provided in full, using the balance sheet approach, on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences and incurred tax losses to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

1.8.3 Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the income taxes are also recognized in other comprehensive income or directly in equity respectively.

1.9. Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any.

Such assets are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. The other repairs and maintenance of revenue nature are charged to profit or loss during the reporting period in which they are incurred.

1.9.1. Investment Property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

1.10. Intangible assets

Intangible assets are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any.

1.11. Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

1.12. Inventories

Inventories are valued at the lower of cost and net realizable value.

The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and appropriate proportion of variable and fixed overhead expenditure. Overhead expenditures are being allocated on the basis of normal operating capacity. Raw materials are valued at first in first out. Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Non-production inventory (other than those supplied along with main plant and machinery, which are capitalized and depreciated accordingly) are charged to profit or loss on consumption.

1.13 Provisions and contingencies

Provisions: Provisions are recognized when there is a present obligation or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and the risks specific to the liability.

Contingent Liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

1.14 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial instruments (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss. Subsequently, financial instruments are measured according to the category in which they are classified.

1.15 Financial assets

All purchases or sales of financial assets are recognized and de-recognized on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place;

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

1.15.1. Classification of financial assets

Classification of financial assets depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

A financial asset that meets the following two conditions is measured at amortized cost unless the asset is designated at fair value through profit or loss under the fair value option:

- *Business model test* : the objective of the Company's business model is to hold the financial asset to collect the contractual cash flows.
- *Cash flow characteristic test* : the contractual term of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option:

- *Business model test* : the financial asset is held within a business model whose objective is achieved by both collecting cash flows and selling financial assets.
- *Cash flow characteristic test* : the contractual term of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are measured at fair value through profit or loss.

1.15.2. Financial assets at fair value through profit or loss (FVTPL)

Investment in equity instrument are classified at fair value through profit or loss, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Financial assets that do not meet the amortized cost criteria or fair value through other comprehensive income criteria are measured at fair value through profit or loss. A financial asset that meets the amortized cost criteria or fair value through other comprehensive income criteria may be designated as at fair value through profit or loss upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets and liabilities or recognizing the gains or losses on them on different bases.

Investments in debt based mutual funds are measured at fair value through profit and loss.

Financial assets which are fair valued through profit or loss are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognized in profit or loss.

1.15.3. Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost less provision for impairment.

1.15.4. Cash and cash equivalents

In the cash flow statement, cash and cash equivalents includes cash in hand, cheques and drafts in hand, balances with bank and deposits held at call with financial institutions, short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet and forms part of financing activities in the cash flow statement. Book overdrafts are shown within other financial liabilities in the balance sheet and forms part of operating activities in the cash flow statement.

1.15.5. Impairment of financial assets

The Company assesses impairment based on expected credit losses (ECL) model to the following :

- financial assets measured at amortized cost
- financial assets measured at fair value through other comprehensive income

Expected credit loss are measured through a loss allowance at an amount equal to :

- the twelve month expected credit losses (expected credit losses that result from those default events on the financial instruments that are possible within twelve months after the reporting date); or
- full life time expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

1.15.6. Income recognition

Interest income from debt instruments is recognized using the effective interest rate method.

1.16 Financial liabilities

All financial liabilities are subsequently measured at amortized cost using the effective interest rate method or at fair value through profit or loss.

1.16.1. Trade and other payables

Trade and other payables represent liabilities for goods or services provided to the Company prior to the end of financial year which are unpaid.

1.16.2. Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest rate method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

1.16.3. Foreign exchange gains or losses

For financial liabilities that are denominated in a foreign currency and are measured at amortized cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortized cost of the instruments and are recognized in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the exchange rate at the end of the reporting period. For financial liabilities that are measured as at fair value through profit or loss, the foreign exchange component forms part of the fair value gains or losses and is recognized in profit or loss.

1.17. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

1.18. Leases

Leases of property, plant and equipment where the Company, as a lessee has substantially all the risks and rewards of ownership, are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

1.19 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

1.20. Government grants

Grants from the Government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

1.21. Earnings Per Share

Basic earnings per share have been computed by dividing the net income by the weighted average number of shares outstanding during the year. Diluted earnings per share has been computed using the weighted average number of shares and diluted potential shares, except where the result would be anti-dilutive.

NOTES TO THE FINANCIAL STATEMENTS (₹ in Lakhs)

1.22. Dividends

Final dividends on shares are recorded on the date of approval by the shareholders of the Company.

1.23 New Amendments issued yet not effective:

Ind AS 116, Leases:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the Statement of Profit & Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The Company is in the process of evaluating the impact of the standard.

Projected Benefit Obligation on Current Assumptions	870.30	839.75
Delta Effect of +1% Change in Rate of Discounting	(52.93)	(52.79)
Delta Effect of -1% Change in Rate of Discounting	59.74	59.76

Delta Effect of +1% Change in Rate of Employee Turnover	16.44	17.09
Delta Effect of -1% Change in Rate of Employee Turnover	(18.17)	(18.87)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet. The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

(v) Brief description of the Plans & risks

Interest rate risk : A fall in the discount rate which is linked to the Government Securities. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk : The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability

Investment Risk : The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk: Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value of an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

The company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(ii) Fair value of assets carried at amortised cost

The carrying amounts of trade receivables, trade payables, loans, deposits, advances, borrowings, cash and cash equivalents and other current financial liabilities are considered to be the same as their fair values, due to their short-term nature.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Contd.)

33 Financial risk management

The company's activities expose it to market risk, liquidity risk and credit risk.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk

(A) Credit risk

Credit risk on deposit is mitigated by depositing the funds in reputed private sector bank.

For trade receivables, the primary source of credit risk is that these are unsecured. The Company sells the products to customers only when the collection of trade receivables is certain and whether there has been a significant increase in the credit risk on an on-going basis is monitored throughout each reporting period. As at the balance sheet date, based on the credit assessment the historical trend of low default is expected to continue. An impairment analysis is performed at each reporting date on an individual basis for major clients. Any recoverability of receivables is provided for based on the impairment assessment. Historical trends showed as at the transition date, 31st March 2017 and 31st March 2018 that the company had no significant credit risk.

(B) Liquidity risk

Objective of liquidity risk management is to maintain sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. The company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal requirements.

(I) Maturities of financial liabilities

The tables below analyse the company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

- all non-derivative financial liabilities, and
- net and gross settled derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

34 Capital management

(a) Risk management

The company's objectives when managing capital are to;

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue of new shares or sell assets to reduce debt.

Consistent with others in the industry, the company monitors capital on the basis of the following gearing ratio:

Net debt (total borrowings net of cash and cash equivalents) divided by

Total 'equity' (as shown in the balance sheet).

The company's strategy is to maintain an optimal gearing ratio. The gearing ratios were as follows:

	March 31, 2019	March 31, 2018
Net debt	45,820.30	46,991.56
Total equity	8,980.52	13,163.64
Net debt to equity ratio	5.10	3.57

(b) Dividends

The company has not declared any dividends during the current year and the previous year.

9) Provision towards Gratuity and superannuation schemes has been made upto date as per the demands received from Life Insurance Corporation of India and HDFC Standard Life Insurance Company Limited based on actuarial valuation. Provision for leave encashment benefit has been made for the entire amount due and payable as at the close of the year.

10) Contingent Liabilities not provided for

a) Claims against the company not acknowledged as debt:

- i) CESTAT had set aside the central excise demand of ₹ 397.78 Lakhs with interest and penalty for the period Apr'12 to Mar'13 and passed orders in favour of the Company in the matter of eligibility of exemption on molasses captively consumed and eligibility of cenvat credit availed on molasses procured from other Units in case of Unit III. The department has filed an appeal against this order in the Supreme Court of India and the decision is awaited. On the same issue for the period from Apr'13 to Mar'14, the Commissioner of Central Excise, Pondicherry has confirmed demand of ₹ 550.40 Lakhs with interest and penalty of ₹ 10.00 Lakhs against which the company has preferred an appeal before CESTAT. The department has further issued notices for demand of ₹ 1197.71 Lakhs (Apr'14 to Mar'16), ₹ 80.38 Lakhs (Apr'12 to Jun'12) and ₹ 896.83 Lakhs (Apr'16 to Jun'17) which are yet to be adjudicated by the department. The department has also issued a notice for demand of ₹ 456.45 Lakhs towards Cenvat credit availed on Distillery capital goods on the same grounds as the other notices. This notice is also pending for adjudication before the Commissioner of Central Excise, Pondicherry.
- ii) In case of Unit I, a demand of ₹ 27.80 Lakhs on the same issue of eligibility of exemption on molasses captively consumed for the period April'10 to Feb'11 was set aside by the CESTAT, Chennai and the department of Excise has preferred an appeal against this decision in the Supreme Court. For the subsequent periods (Jan'12 to Dec'14), demand of ₹ 476.55 Lakhs with interest and penalty is also being contested by the Company. In view of the CESTAT order, the Company feels that they have a strong case and hence have not provided for these contingent liabilities in the account.
- iii) VAT (Assessment year 2011-12 & 2012-13) Appeal is pending before the Assistant Commissioner Commercial Taxes, in respect of a demand raised by the department, due to wrong classification of the product code. The total demand raised is ₹ 75.85 lakhs and the amount paid is ₹ 18.96 lakhs, towards initial payment for the appeal. Appeal has closed in favour of the Company and the order is awaited from the Assessment Circle.
- iv) The South Indian Sugar Mills Association (SISMA), of which the company is a member, had filed W.P. No.7872/2015 before the Hon'ble Madras High Court against Union of India and Director of Sugar, Tamil Nadu challenging the very jurisdictional basis of fixing additional cane price for the Sugar years 2004-05 to 2008-09 in the absence of any statutory power to do so. In the said writ on 19/3/15 there is a direction to respondents that they shall not initiate any coercive proceedings to recover any amount pursuant to impugned order. No provision was made by the Company to the alleged cane dues pursuant to the above direction of the Court.

The Hon'ble Justice T S Sivagnanam by order dt. 13th February 2019 has dismissed the said Writ Petition. The judgement further directs Sugar mills to furnish the details called for by the Director of Sugar by his communication dated 11th Mar'15 and 13th Mar'15 (ie particulars which forms the basis for fixation of clause 5A price) within a period of 7 days from the date of receipt of copy of the certified copy of judgement. SISMA has decided to challenge the said judgement by way of Appeal before Madras High Court . The principal ground of attack by Sugar Mills is that "L " factor has to be determined on All India basis once and for all and there is no scope or legal permissibility to fix "provisional L factor" for Tamil Nadu and Pondicherry Zone alone. There are other grounds also in favour of Sugar Mills to dispute the said liability.

Hence the amount is indeterminate at this juncture.

- v) Recompense amount payable as per Corporate Debt Restructuring (CDR) scheme as at the close of the previous year ending 31.03.2018 is ₹ 4,767 lakhs.

The company's loan accounts have been treated as Non performing assets by the consortium banks as a result of default in payment of interest and loan installments with effect from 28th June 2018. The matter is under negotiation with the concerned authorities for regularization.

- b) The Government of Tamilnadu notified the State Advised Price (SAP) of ₹ 2,650/- per MT of sugarcane for the sugar seasons 2013-14 and 2014-15 and ₹ 2,850/- per year for sugar season 2015-16 & 2016-17. The company has accounted the cane purchase at the rate of ₹ 2,350/- per MT (for the cane procured during Apr 2014 to Sep 2014) and at the rate of ₹ 2,400/- per MT (for the cane procured during the period October 2014 - September 2016. For the sugar season 2016-17, the company has paid ₹ 2,425/- per MT. All the private mills in Tamilnadu are disputing the SAP, and the case is pending before the High Court of Madras. The total disputed price involved is ₹ 17,790 Lakhs (₹ 17,130.90 lakhs)

- 11) Income Tax assessments have been completed up to Assessment year 2016-17. Disallowances made in the order of assessment in some of the years, purely technical in nature, have been disputed in appeal before the appellate authorities. No provision has been made therefor since there are no tax demands for the present.

- 12) In terms of Ind AS-36, the company had carried out an exercise to ascertain the impairment, if any, in the carrying values of its Fixed assets. The exercise has not revealed any impairment of assets save and except the following:

The Tamil Nadu Government has issued a G.O. dated 31.08.2010 as directed by the Hon'ble Madras High Court, notifying the elephant corridor in the Nilgiris District, which includes company's land of 7.83 acres in Masinagudi Village Nilgiris District. The GO has now been disputed before the Hon'ble Supreme Court by the Company in SLP (C) 16898/2011 and interim stay has been granted and the petition is still pending. The carrying value of the said land in the books is ₹ 35.57 lakhs (31.03.2018 ₹ 35.57 lakhs)

- 13) CSR activities

Gross amount required to be spent by the company during the year - NIL

Amount spent by the company during the year - NIL
