## Forward-looking statement

In this Annual Report, we have disclosed forward looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements - written and oral - that we periodically make contain forward looking statements that set out anticipated results based on the management's plans and assumptions. We have tried, wherever possible, to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward looking statements will be realised, although we believe we have been prudent in our assumptions. The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward looking statement, whether as a result of new information, future events or otherwise.

# FIVE MINUTES...

## ALL IT TAKES TO KNOW ZEE BETTER

For more than 20 years, ZEE has provided quality entertainment, touching lives and emotions of a wide cross-section of people globally.

We are the leading global M&E Company from the emerging markets. We are closely linked to the language, culture and emotions of billions of people, spanning 169 countries across the world. Our content transcends geographical and cultural barriers and enjoys an all-encompassing magnitude.

### IN THE BUSINESS OF QUALITY ENTERTAINMENT CONTENT

At ZEE, we create innovative content and broadcast it on all available screens. Over the years, our success has been driven by improved results in each of our business segments. We have built an amazing brand in ZEE, which has carved a niche for itself in the hearts of the audience through an array of television products – Zee TV, Zee Cinema, Zee Cafe and TEN Sports, known across the globe. The channels provide enormous opportunities for us to continuously create high-quality content and unparalleled experiences for diverse audience. The M&E industry is cluttered by growing number of channels, which encourage ‘me-tooism’. Therefore, people look for quality brands they know and love. In the growing world of entertainment – cinema, regional, sports and so forth, people seek our high quality family entertainment.

## STORY OF EVOLUTION

India's M&E industry is one of the fastest growing industries in the world. The domestic M&E industry has been strengthened by ZEE's pioneering vision and innovation. We have played a pivotal role in accelerating the growth of this US\$ 15 billion industry (Source:

FICCI KPMG Report 2012- 13) in the last two decades.

Started in 1992 with one channel, in a 21-year span we offer a bouquet of 32 domestic channels and 29 international channels.

Through our prudence and first-mover advantage, we have established ourself as a strong player in the regional entertainment space, while expanding our global presence.

## OUTPERFORMING

At ZEE, the passion to innovate and entertain the audience has never digressed us from the path of delivering steady and sustainable returns to our shareholders. We understand the importance of a strong balance sheet and crafted multi-pronged strategies to accomplish our financial goals. Our efforts have enabled us to outperform the industry growth in spite of an overall challenging macro-environment. Since inception, we have consistently maintained a CAGR of more than 30% in shareholder value

generation. Even after a 19.3% increase in expenses owing to new business ventures, we have achieved a PAT growth of 22.1% during fiscal 2013. Our subscription revenues reached ₹ 16,234 million in 2013, 22.6% up y-o-y. Advertising revenues for the year touched ₹ 19,639 million, clocking a growth of 24% over last year. Our growing market capitalisation, which touched ₹ 200,760 million in FY 2013, reflects our position as India's leading listed M&E Company.

## NEW OFFERINGS

During the year, we have launched two offerings for Indian audience: ZeeQ, an edutainment channel and Zee Bangla Cinema a 24/7 Bengali movie channel. We have also significantly strengthened our international presence with the launch of two channels in UAE (Zee TV HD and Zee Cinema HD). To further strengthen our presence in Europe, ZEE channels were launched on Your TV and Yupp TV. ZEE entered the Canadian market, with the launch of Zee TV HD in partnership with Ethnic Channels Group Limited (ECG), Canada's largest distributor of third language television services. Our new launch, Zee Alwan has also received commendable response from Arabic viewers within a short time span.

At ZEE, we have substantially increased our presence in the US by launching the first south asian HD channel ZEE TV HD and inking distribution deals with Charter LA and Centurylink. We are strengthening the bond further through a number of events and celebrations.

With the first mover advantage in regional space, our regional channels today have become either the leaders or strong contenders for leadership in their respective genres.

## FUTURE PROSPECTS

The M&E industry shows considerable optimism for future growth, driven by increasing media penetration and rise in per capita consumption. In India, the ratio of advertising expenditure to GDP is significantly lower than developed and developing economies. As the Indian economy continues to accelerate its pace, the advertising

expenditure to GDP ratio is poised to increase over the next five years.

ZEE is at the forefront to take advantage of the evolving landscape. We will launch new channels in various domains and expand international reach globally by the launch of local

channels. With the successful implementation of digitisation in Phase I and II and advancement of technology, ZEE will reach to the audience on every available viewing device.

# CREATING A GLOBAL BRAND

ZEE as a brand, has achieved global recognition today, and has grown exponentially over the years, establishing a strong connect in the minds and hearts of its audience globally. In these glorious two decades, brand ZEE has contributed immensely to the network of the Company.

At the time, when Doordarshan was a sole player in the industry, Mr. Subhash Chandra, made inroads owing to his visionary qualities and entrepreneurial mindset to survive and grow. What also helped was his insightful understanding of the trade and great appetite for risk taking. Driven by the passion to create a brand that would dominate the global media landscape, ZEE survived the initial pangs only to emerge as the global media brand resonant to entertainment.

**“VASUDHAIVA KUTUMBAKAM” IS AN EXTRACT FROM THE UPANISHADS, AN ANCIENT INDIAN TEXT, WHICH SAYS: “THAT IS YOU, THIS IS I, IS THE WAY OF THE NARROW MINDED. FOR THOSE OF EVOLVED THOUGHT, THE WORLD IS ONE FAMILY.” AT ZEE, WE HAVE EMBRACED THIS 2000-YEAR-OLD MAXIM AS A BELIEF. IT SHAPES OUR VALUES. IT GUIDES OUR ACTIONS. IT DEFINES OUR PURPOSE.**

The launch of Zee TV in 1992 was only the beginning. It was an era of liberalisation and the Country's economy was opening up to vibrant opportunities. ZEE being a brand with young, contemporary and aspirational thoughts, capitalised these opportunities. What followed over the years was a continual string of path-breaking developments such as the launch of India's first Hindi movie channel – Zee Cinema, first food channel – Zee Khana Khazana, first golf channel – Ten Golf, first edutainment channel – ZeeQ. Today we have a portfolio of 32 channels in India and 29 dedicated channels in the international market.

Over the years, we have been vigilant in enhancing its brand reputation in every market in which we operate. We have developed globally competitive pricing strategies, technological advantage across the value chain and cultivated a global mindset to build on the cultural diversity. We have adopted successful practices and have given deep thought to the notions of traditional customers, values and innovation and in the process formed a beautiful family of viewers, shareholders, employees and business partners across the globe.

With this global cadre achieved by the brand, there was a definite need for a brand positioning statement, which differentiates ZEE from the other global media brands, and establishes a strong emotional connect with the entire world. With this approach in mind, “Vasudhaiva Kutumbakam” - The World is my Family has been launched as the positioning for Brand ZEE, which conveys the message of creating a world without borders, castes, races and strangers, hence uniting everyone as a part of one Family.

## NO LIMITATIONS IN OUR AMBITION FOR GROWTH

At ZEE, we have never been bound by preconceived notions of growth. Despite a challenging business landscape, we outperformed the industry in more ways than one.

# MORE

Since inception, we have nurtured creativity, ensured viewer satisfaction and seized market opportunities. We have invested in business in a disciplined manner with focus on enhancing our efficiencies to achieve superlative financial performance.

Don't take our words for it. The result of our efforts is visible in our numbers. We are one of the few entertainment companies to maintain an operating margin of 25%, whereas the industry reports single-digit margin. Our subscription revenue increased by 22.6% in FY 2013, on the back of the performance of our joint

venture MediaPro. Following pan India digitisation, we look forward to enhanced revenues.

There is another element to the growth factor at ZEE: it has to be inclusive and participatory.

Our efforts to create a commercially viable business model and make ZEE one of the leading global M&E brands was recognised by the Global Association of Billionaires and Millionaires (GABM). We were bestowed with the 'Best India Corporate Citizen Award', which reflects our commitment towards corporate governance, fair trade and business practices.

All Indian Management Association (AIMA) recognised our effort in building the brand ZEE over the last 20 years. We were awarded the 1st runner up award at the 'AIMA RK Swamy High Performance Brand of the Year'. Other awards included the IMC Fusion 2013 Award for excellence in Media, organised by Indian Merchants' Chamber and the Dun & Bradstreet - Rolta Corporate Awards 2012 for "Top Indian Company" under M&E Sector.

## NO CONSTRAINTS IN OUR CREATIVITY

## NO HIGH WALLS TO HINDER HUMAN ENGAGEMENT

Engaging meaningfully with the audience is integral to our core philosophy. Our growing viewer fraternity is a testimony of our ability to deepen viewer connect. However, our objective is not just to break stereotypes of television programming, but to act as a positive 'change agent' in people's lives.

We have always tried to be vocal against social stigma, whether it is domestic violence, dark complexion, girl-child trafficking or autism, among others. The confidence of protagonists to stand up against adversities strengthens optimism for our viewers. We have also provided a platform to nurture the talents of our viewers through programmes like Sa Re

**> ZEE aims at entertaining more than a billion viewers by the year 2020 <**

## Dear Shareholders,

It is no big challenge to produce astounding results in a good economy, but to deliver consistent double-digit growth and outperform the industry in an economy with 5% GDP growth, takes special effort. The World economy is at a cusp, with the US showing signs of a rebound and the EU economy likely to revive in the near future. Keeping this in light, our performance in FY 2013 assumes more significance when evaluated against the backdrop of a challenging global and domestic business environment. I believe the focus on reforms augur well for the Indian economy in the long term. I can say that the overall outlook is one of cautious optimism.

As per the latest FICCI – KPMG Report, Indian Media & Entertainment industry has emerged unscathed by the dismal economic scenario. Indian television sector grew by over 12% in 2012 and is now worth more than ₹ 370 billion. It is further projected to increase to ₹ 848 billion with a CAGR of 18% by 2017. C&S homes are projected to grow to 173 million covering 91% of the total TV households. This points to exciting times for the television industry.

INCREASE IN OPERATING PROFIT DURING FY 2013

**GROWTH** > 26%  
IN DOMESTIC SUBSCRIPTION REVENUE  
FOR FY 2013

Indian television industry has witnessed the introduction of the much awaited cable digitisation in 2012. Despite initial obstacles, Phase I of digitisation in the four metros has been rolled out smoothly resulting in the much needed transparency in the industry. Currently, the Phase II of digitisation is being implemented in 38 more cities across the country. These efforts have translated into enhanced subscription revenues for broadcasters and make them less dependent on advertising and drive higher value creation. Broadcasters will be relieved from paying huge sums as carriage fee, thereby increasing profitability and enabling them to focus on better content creation. At the same time, subscription revenues will increase for broadcasters and make them less dependent on advertising and drive higher value creation. Niche and specialist channels will now be able to launch and grow since the shortage of bandwidth created by analogue cable systems no longer hold true.

During FY 2013, ZEE's revenue stood at ₹ 36,996 million with EBDITA of ₹ 9,543 and Net Profit of ₹ 7,196 million. Having achieved the milestone of 20 years, your Company has decided to reward shareholders with an issuance of redeemable preference shares aggregating to ₹ 2,015 Crores by way of bonus. ZEE has been able to accomplish this growth, by being innovative on a continuous basis and constantly working on its business model to make it relevant to these times. Improved results year on year reflects the strength of our entire portfolio of brands. It is also the result of our long-term strategy to make significant investments in content, local production, digital foray and our zest to find new ways to entertain viewers globally.

Leveraging the opportunity due to the digitisation drive, we have further diversified our offering of niche channels and launched ZeeQ and Zee Bangla Cinema – a 24-hour Bengali Movie channel during the year. We will be launching various products in the near future to fully exploit the opportunities available in the marketplace.

In twenty years, brand ZEE has earned global recognition and has created a special place in

the hearts and minds of its internal and external stakeholders. With its strong presence in the international markets, covering 169 countries and entertaining over 670 million viewers, ZEE aims at entertaining more than a billion viewers by the year 2020. In this journey of two decades, ZEE has not just bagged prestigious awards and accolades, but has also formed a beautiful family of viewers, shareholders, employees and business partners across the globe.

However, there was a definite need for a positioning statement for brand ZEE, which will differentiate ZEE from other global competitors and establish a strong emotional connect with its stakeholders. With this approach, "Vasudhaiva Kutumbakam - The world is my family" has been launched as our new positioning, which conveys the message of creating a world without borders, caste and strangers, hence uniting everyone as a part of one ZEE family. This positioning will not just be for the front-end, but going forward, would be deeply carved into the ethos of the Organisation, reflecting through our communication, content and conduct.

ZEE has ventured into the production of fiction and non-fiction programming through its in-house production facility Essel Vision. This is part of our backward integration strategy to be present at all the points of value creation. At the same time this will help in cost optimisation, better control on content and quick turnaround time. Further, this will enhance ZEE's capability to enter various other entertainment domains like film production in the near future.

We are building a sustainable digital business model with strong cross platform presence on all devices and screens. Expansion of ZEE's digital business comprising the OTT platform-Ditto TV and mobile applications will play a vital role in the future. In a major drive for new digital services, your Company has made strategic investments in an international digital brand integration specialist firm MirriAd, which has developed an end-to-end platform that can digitally integrate brands into professionally produced video content at scale.

International expansion will also play a significant role in our vision to become a leading global M&E Company by 2020. ZEE is making targeted content investments in local languages across the globe to expand footprint and capitalise on various distribution platforms. Further consolidating its position in international markets, ZEE launched a GEC - ZEE Alwan for audience in the Middle East, which will host programmes in local languages apart from dubbed content. ZEE launched Zee TV HD for audience in Canada and will shortly be launching international channels with content produced in India for global markets.

CONSOLIDATED  
REVENUE IN FY 2013

## Dear Shareholders,

We are a young Company, a little over twenty years. But we are mature enough to foresee opportunities, drive growth and outperform the Industry at a time of global uncertainties. Does that make us complacent? Not the least. It vindicates the strength of our vision, leadership and stability in execution, despite challenges. We are happy that in a constantly evolving global entertainment arena, more and more viewers count upon us as the preferred brand to provide them innovative and quality entertainment.

Entertainment that breaches geographic boundaries and acts as a positive force in an integrated world. That's the cusp of the new positioning for brand ZEE, "Vasudhaiva Kutumbakam"- The world is my family.

Our creativity has found global acceptance and our universe of entertainment is expanding. The challenge now is to strengthen an enterprise, which is already performing well, build brand ZEE globally and create new opportunities for growth. India's Media & Entertainment Industry supports fast growth and is open to new ideas for transformation. The Industry is expected to reach a market size of ₹ 1,661 billion by 2017, and the key growth driver is undoubtedly the Television Industry.

Digitisation has been implemented in 42 cities. Our JV MediaPro has done impressively well during the year, resulting in an 22.6% growth in subscription revenues over the previous fiscal year. Our consolidated revenue grew by 21.7% reaching ₹ 37 billion, operating margin increased to 25.8% in FY 2013. PAT grew by 22.1%.

The initiatives we took in FY 2013 were designed to take us one step further in sustaining and consolidating our Industry leadership. Our focus has been to differentiate from the crowd and create our own space in the Industry. ZEE Café and ZEE Studio have strengthened their foothold in the English entertainment genre with the acquisition of iconic shows like Gossip Girls, Miss Universe 2012 and Vampire Diaries.

ZEE has consolidated its presence in the regional entertainment space. Zee Marathi had an impressive market share of 35% during the fiscal while Zee Bangla led the non-fiction genre with an 87% market share. Zee Bangla Cinema, the first 24 hours Bengali movie channel, is the preeminent destination for the best in Bangla Cinema and is gaining significant popularity among viewers. ZeeQ, India's first edutainment channel for kids, emphasises on learning through entertainment. The channel is a product of extensive research by experts to make learning an enjoyable experience for children

During the year, ZEE launched varied products in the international markets – Zee TV HD and Zee Cinema HD in UAE and Zee TV HD in Canada. Zee Alwan our GEC for Middle East market is expanding its viewer base with innovative local and dubbed content. India's first OTT platform Ditto TV is available to international audience across 180 countries. It has added content from various other broadcasters during the year.

ZEE's performance has been remarkable in FY 2013. We implemented the right strategies to leverage the incremental revenue from digitisation vis-à-vis low placement cost, enhancing operational efficiency. In the coming years, we will emphasis more on in-house production, global programming and deliver more to the audience by introducing an array of free-to-air and niche channels.

In its milestone year, ZEE was felicitated by the Industry and peers for its pioneering vision at various forums. ## BUSINESS STRATEGY

The key elements of ZEE's strategy during the year were (i) to take appropriate steps to safeguard its leadership position in a fiercely competitive environment (ii) to concentrate on additional revenues from digital pay platforms (iii) Build presence on new / alternate media platforms (iv) Rationalise on costs across different heads (v) Fortify its expansion in the international markets (vi) maintain consistently high standards of corporate governance.

### (i) Appropriate steps to safeguard its leadership position in a fiercely competitive environment:

The launch of new shows across network channels along with the tie up of cricket rights and current series rights of programs has helped ensure that in a highly fragmented environment, the network maintained and grew its dominance. The Company aims to further enhance the market share through a planned content lineup and continue to grow business profitability in a sustained manner.

### (ii) Concentrate on additional revenues from digital pay platforms:

India is a fast digitising market and the consumer shift towards digital services is exhibited through the rampant expansion of digital homes. At the end of March 2013, there were an estimated 33 million net digital pay TV homes on DTH and an estimated 16 million net homes on digital cable, up from 29 million DTH and 4 million digital cable homes in March 2012. Key initiatives in the last fiscal include the launch of ZeeQ - India's first edutainment channel, aimed at children in the age group of 4 to 14 years.

### (iii) Build presence on new / alternate media platforms:

In line with the strategy of growth through focused disciplined investments, ZEE launched India's first and only OTT (over-the-top) platform, Ditto TV, in February 2012 with an aim to offer Live TV Channels and On Demand Video Content to consumers on multiple platforms including mobile phones, tablets, laptops, desktops and connected TVs. The platform picked up

significant traction in FY2013. The platform is now present in over 180 countries offers over 56 channels and boasts of over 1.5 mm users.

### (iv) Rationalise on costs across different heads:

The belief at the Company has always been that higher spends will not necessarily result in sustained incremental viewership. Even in the wake of competition, the network maintained its cost structures though with increased competition our costs also moved up. Better negotiations with suppliers and stricter control on distribution spends will help in further keeping costs under check.

### (v) Fortify its expansion in the international markets:

During the year, the Company undertook various initiatives to further strengthen its dominance in international markets by entering into deals with new platform operators as well as launching new channels in some of the geographies. In line with this expansion strategy, the Company launched Zee Alwan, an Arabic GEC channel in the Middle East market.

### (vi) Corporate Governance:

ZEE firmly believes that good governance is critical to sustaining corporate development, increasing productivity and competitiveness and creating shareholder wealth. The governance process should ensure that the available resources are utilised in a manner that meets the aspirations of all its stakeholders. Your Company's essential charter is shaped by the objectives of transparency, professionalism and accountability. The Company continuously endeavours to improve on these aspects on an ongoing basis. While the increasing emphasis on transparency and accountability standards have been set by various governing bodies on disclosure as well as judiciousness in conduct, ZEE has always tried to go a step further in this direction.

## RISK FACTORS

Competition from other players:

The Company operates in highly competitive environment that is subject to innovations, changes and varying levels of resources available to each player in each segment of business.

### Ever changing trends in Media sector:

It may not be possible to consistently predict changing audience tastes. People's tastes vary quite rapidly along with the trends and environment they live in. This makes it virtually impossible to predict whether a particular show or serial would do well or not. With the kind of investments made in ventures, repeated failures would have an adverse impact on the bottom line of the Company.

### Cost of programming mix might affect its bottom line:

The urge to compete and provide the best content to viewers, ZEE would have to incur high expenditure to provide an impetus on its programming

# MANAGEMENT DISCUSSION AND ANALYSIS

front from time to time. The increase in costs might not necessarily perk up its revenues in the same proportion.

## Investments in new channels:

The Company may from time to time launch new channels. Content for these channels is obtained from its existing library as well as from programmes acquired in the normal course of its business. The success of any new channel depends on various factors, including the quality of programming, price, extent of marketing, competition etc. There can be no assurance that the Company will be as successful in launching new channels as it has been the case of its existing channels.

## Macroeconomic environment:

Macroeconomic environment can be a potential source of risk. Moderating growth, along with high inflation, can adversely impact advertising revenues of the Company, which forms the largest component of the Company's revenues.

## Slowdown in DTH/Digital rollout:

The uptake of pay digital services by subscribers has been a very encouraging sign for all broadcasters. Internationally most broadcasters derive a greater share of their revenues from the subscription revenues whereas in India the under-declaration in the analogue cable system has led to broadcasters being more dependent on advertising revenues, which tend to be cyclical in nature and more affected by the macro economic factors. The industry expects pay digital services to grow at a rapid pace in the next two years and ZEE is likely to benefit heavily from this rapid growth. A slowdown in growth of digital services may lead to incremental profit margins being impacted.

## Increased competitive environment in the Hindi General Entertainment Space:

The Hindi GEC genre is amongst the key genres for all advertisers and hence is most lucrative to all the TV broadcasters. Any new competition in the space can have an impact on the Company's revenues.

## Sluggish consumer uptake in the international markets:

ZEE has been a pioneer in the international markets and has the highest market share amongst all South East Asian broadcasters across Europe and USA. Indian content in these markets serves the preference of a niche audience and ZEE has strong relations with distribution platforms in these markets giving management the confidence that the Company will retain market share in key geographies. In the given slowdown, consumers may find it difficult to upgrade their packages and the value growth from these markets may get affected.

## Increase in cost of acquisition for some of the key sports properties:

While a significant amount of rights have been signed on by the Company for leading sports properties, any future contracts may be at higher costs, which may put pressure on margins of the Company.

## The Company may be exposed to foreign exchange rate fluctuations:

The Company receives a significant portion of its revenues and incurs a significant portion of its expenses in foreign currencies, particularly US dollars and UK pounds. Accordingly, the Company is exposed to fluctuations in the exchange rates between those currencies and the Rupee, the Company's reporting currency, which may have a substantial impact on its revenues and expenses.

# NOTES

forming part of the Consolidated Financial Statements

## 1 CORPORATE INFORMATION

Zee Entertainment Enterprises Limited (hereinafter referred to as 'the parent company', 'the Company' or 'ZEEL') together with its subsidiaries, jointly controlled entity and associate (collectively known as "the Group") derives revenue mainly from advertisements and subscription. The Group also derives revenue from space-selling and distribution for other satellite television channels and sale of television content, film distribution etc.

## 2 BASIS OF CONSOLIDATION

- The Consolidated Financial Statements (CFS) of the Group are prepared under Historical Cost Convention on going concern basis in accordance with Generally Accepted Accounting Principles in India and Accounting Standard - 21 on "Consolidated Financial Statements" issued by the Institute of Chartered Accountants of India (ICAI), to the extent possible in the same manner as that adopted by the parent company for its separate financial statements by regrouping, recasting or rearranging figures, wherever considered necessary.
- The CFS are prepared using uniform accounting policies for transactions and other events in similar transactions except

in case of four subsidiaries wherein the liability on account of retirement benefits is provided on estimated basis as per local laws instead of actuarial basis. This liability represents 27.63 % (28.36%) of total gratuity and leave benefits of the Group as at the year end.

- The consolidation of financial statements of the parent company and its subsidiaries is done to the extent possible on a line-by-line basis by adding together like items of assets, liabilities, income and expenses. All significant intra-group transactions, unrealised inter-company profits and balances have been eliminated in the process of consolidation. Minority interest in subsidiaries represents the minority shareholders proportionate share of the net assets and net income.
- The CFS includes the Financial Statements of the parent company and the subsidiaries (as listed in the table below). Subsidiaries are consolidated from the date on which effective control is acquired and are excluded from the date of transfer / disposal.
