FORWARD LOOKING STATEMENT

In this Annual Report, we have disclosed forward looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements – written and oral – that we periodically make contain forward looking statements that set out anticipated results based on the management’s plans and assumptions. We have tried wherever possible to identify such statements by using words such as ‘anticipate’, ‘estimate’, ‘expects’, ‘projects’, ‘intends’, ‘plans’, ‘believes’, and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward looking statements will be realized, although we believe we have been prudent in our assumptions. The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward looking statement, whether as a result of new information, future events or otherwise.

Chairperson's Insight

Dear Shareholders,

On behalf of Avadh Sugar & Energy Limited, it is my sincere pleasure to address you on the closure of financial year 2019-20 of your company. As the economies over the globe are fighting towards the recent pandemic Covid 19, I would like to take this opportunity to appreciate the commitment of all the social workers for their great contribution towards society.

During the fiscal 2019-20, Indian economy went through various downturns from sharp downward revision of India's growth forecast by IMF to 4.8% amid stress in non-banking financial sector and weak rural income growth. The havoc created by pandemic had a serious impact as all the economic activities were at stand still. Post the unpredicted pandemic IMF revised the growth forecast to mere 1.9% in March 2021. However, Government's preemptive measures in the direction of containment from wide-spread of Covid 19 and various economic packages float by GOI can aid India to regain its position of fastest growing economy.

As the gashes of pandemic perish and the economy turn back towards revival in consumption and allied economic activities, Sugar being essential commodity for consumption Indian sugar industry will also experience the normalcy going forward.

Industry Insight

Sugar mills during the first half of the fiscal experienced the pressure on realizations amid heavy inventory carried by the industry due to bumper production in SS 2018-19. Meanwhile second half of this fiscal had started showing some green shoots for the industry, the benchmark raw sugar prices had rose to two year high of 14.90 cent per pound in International market which made Indian sugar viable for buyer in West and South Asia & propping up domestic prices as well.

Meanwhile the sugar output, expected to reach 24.8 mn tonnes in SS 2019-20 compared to 33.0 mn tonnes in SS 2018-19 a decline of ~21%. According to ISMA 23.27 lakh tonnes of sugar was produced till 31st March 2020 as against 29.68 lakh tonnes produced last year by 31st March 2019. Sugar Industry is poised to export ~5 mn tonnes surpassing the peak of 4.96 mn tonne shipped in 2007-08. Government continued to boost ethanol production by millers to contain the glut in sugar production. Ethanol price were raised by government to encourage the millers to divert sugar production towards ethanol.

However, the nationwide lockdown has dampened consumption and initially disrupted production and movement of sugar due to lack of availability of transportation amid Covid 19 pandemic, eventually sugar dispatches picked up after the government intervention to smoothen the supply chain. Sugar mills had enough inventories and the availability of sugar which is an essential food item was ensured by the millers.

Business Performance

The company faced numerous headwinds during the fiscal, overall performance for the year experienced pressure on operating margins affected by lower realizations of co-generation segment. Sugar realizations recovered during the second half of the fiscal along with improved ethanol realization; but the unexpected pandemic had a material impact on the performance during the end of this fiscal. However, sugar being the essential commodity for consumption we expect the performance to improve going forward.

During FY20 our total income stood at Rs. 2565.05 crores against Rs. 2133.68 in FY19, PBT stood at Rs.106.16 crore in FY20 against Rs. 154.37 in FY19 and Profit After Tax was at Rs. 88.62 in FY20 as against Rs. 119.87 in the same period last year.

Our Core Strategies

Avadh Sugar and Energy Limited is a flagship K. K. Birla Group with strong essence of values and commitment towards building a strong and sustainable company. Integrity and commitment towards our stakeholders have always been our priority. Our erstwhile pedigree has always guided us towards operating with strong fundamental and disciplined balance sheet which aid the company to withstand during difficult stages. Our integrated business model and proactive efforts to adopt to the changing market dynamics aid us to deliver compelling performance. The growth of the company along with its stakeholders has always been the core strategy of the company.

Way Forward

"Behind the murky clouds of storm, there lies a brightness of sunshine." We believe as we overshadow the pandemic behind, the company will again regain its growth momentum and thrive towards growth.

Warm regards,

Nandini Nopany

Global Economy

According to IMF the COVID-19 pandemic is imposing high and rising human costs worldwide, and the necessary protection measures are severely impacting economic activity. The global economy is projected to contract sharply by 3 % in 2020, which is worse than during the 2008–09 financial crisis. The advanced economies namely USA is projected to grow at negative (5.9) % in 2020, Euro Area is projected to grow by negative (7.5) %, Japan to grow by negative (5.2) % and UK by negative (6.5) %. The emerging economies are still expected to be at a better growth rate China and India are expected to grow at 1.2 % and 1.9 %, respectively. Effective policies are essential to curtail the possibility of worse outcomes, and the necessary measures to reduce contagion and protect lives are an important investment in long-term human and economic health. Policymakers will need to implement substantial targeted fiscal, monetary, and financial market measures to support affected households and businesses domestically. The world economy expected to experience revival in growth by 3.3. % in 2020 and 3.4% in 2021 amid pandemic fades in second half of 2020 and efficient containment efforts according to IMF.

Indian Economy

The pandemic all over the globe has triggered a slowdown in the economies world over, whereas emerging economies are still expected to grow at mere 1 % to 2 %. India's GDP is expected to fall to 1.9 % in FY21 as against 4.2% in FY20 estimated amid the lockdown due to coronavirus pandemic. Reserve Bank of India (RBI) undertook slew of measures to boost liquidity to NBFCs and other financial institutions to aid support during slowdown amid lockdown, also Reserve Bank of India expects the Indian economy to experience a sharp turnaround and resume its pre-Covid trajectory by growing at 7.4 % in 2021-22. India is the only country other than China to register a positive growth rate in 2020.

Global Sugar Economy

World sugar balance is experiencing a deficit during SS 2019-20 amid lower output in Thailand and the USA a part of which can be offset by record crop in Russia. The world deficit stood at 9.30 mn tonnes. The decrease in production of two Asian giants are to be compensated by higher production in Russia and Brazil. Furthermore, with the recent impact of fall in crude oil prices, expectation of Brazil increasing sugar production & due to Covid-19 pandemic, there has been a decline in the global prices.

Global Sugar Production:

According to International Sugar Organization (ISO) world output is expected to reduce by 4.43% at 166.80 mn tonnes in SS 2019/20. ISO estimates substantial production fall in India and Thailand by 6.06 mn tonnes and 6.16 mn tonnes respectively which will impact the world production output to decline; higher production in Russia and Brazil is not sufficient to compensate the production fall in the following Asian countries. Brazil is likely to regain the position of the world's largest producer in 2019/20 amid output fall in India. The share of cane sugar in global production is expected to decrease on account of decline in output from Asian countries. Production is expected to drop in exporting countries, on the back of lower crops in Thailand and India, the world's second and third largest exporting nations. Exporters' output is forecast to decrease by 6.06 mln tonnes or 4.43% against SS 2018/19.

Global Price Scenario

The international sugar prices experienced a declined trend mainly on account of falling crude prices, growing risk aversion and the expectation of a decline in global demand after the Covid-19 outbreak. In terms of monthly averages world market price for sugar (ISA Daily Price) fell 31% between February 2020 and April 2020. The price trends in domestic markets monitored by ISO varied, with increase observed in EU, Mexico, Russia and decrease observed in Brazil and China.

Global Demand Outlook

During the fiscal global sugar demand had been dampened, income dynamics and population growth are the key drivers of global sugar consumption which was effected by slowdown in global growth which was projected at 3 % and further deepened amid Covid-19 pandemic impacting the demand of sugar globally. According to ISO estimates in SS2019/20 global use of sugar to grow by 1.25% from previous SS compared to 5 year average of 1.34%, the estimates will further change after the impact from pandemic is measured after its revival.

Consumption Outlook

As per ISO world sugar consumption was estimated at 176.10 mn tonnes for SS 2019/20. The global use of sugar is estimated to grow by 2.18 mn tonnes or 1.25% from 2018/19. Unprecedented macro-economic factors like Covid-19 will have an impact on the consumption which shall revive post pandemic fades away from economies world-wide.

Global Ethanol

According to ISO global fuel ethanol production is expected to grow to 113.9 bn litres in 2019, up 2.4 bln litres from the previous year, aided by competitive prices and rapidly increasing demand in key countries. Meanwhile ethanol production in Brazil will continue to be determined by relative returns versus sugar for export. For the coming season, we expect the production dial to be turned slightly back towards sugar, as the world enters a sugar deficit phase. Positive production outlooks are seen in India and Thailand in 2019, where molasses has been an abundant feedstock of choice, following two seasons of growing cane harvests. However, for 2020, growth should remain limited by production capacity in India, and by feedstock availability in Thailand. Furthermore, the dramatic weakness in crude oil prices and lower demand on account of pandemic is expected to affect the overall ethanol offtake by OMCs in 2020.

World Fuel Ethanol Consumption (mn Liters)

Source: International Sugar Organisation

Domestic Sugar Industry

The season started with a balance of 14.58 mn tonne in October'19 and by clubbing the estimation of production which will be 27.10 million tonne, the total availability of sugar was estimated to be around 41.69 mn tonne. The consumption is estimated to be around 30.00 million tonne, 5 million tonne of exports is expected, India is likely to end with closing stock of ~11.69 million tonne in Sep'20 which is enough to meet the requirements of domestic consumption.

SS 2019/20 has been a season with lower output right from the negative impacts to sugar cane production in Maharashtra and Karnataka which contributes from 35% to 40% of the country's sugar output. Cane areas had reportedly reduced by 30% in Maharashtra and about 16% in Karnataka amid poor rainfall between September 2018 and July 2019. Highly irregular monsoons during the fiscal where up to mid-July received only 65% of normal rainfall followed by extremely wet five weeks. Floods affected important cane growing areas in Maharashtra and Karnataka in August - September 2019. On account of water logging in cane fields for long duration some of the cane had been lost completely while some areas had been partially affected in terms of yield and recovery. According to latest data by the Indian Sugar Mills Association (ISMA) sugar production data for the SS 2019/20 until 15 Apr'20 reported a 18% fall in sugar production at 27.10mn tonnes. Exports momentum which was estimated at 5 mn tonnes may take a hit on account of weak global prices and demand.

Covid-19 Impact on Indian Sugar Industry

The unexpected out rage of Covid-19 left the world to stand still, effecting many economic activities. The Indian sugar industry had been impacted by the subsequent lockdown; institutional buying of sugar came to a halt which lead to a fall in demand. Demand for ethanol is remain muted given limited storage with Oil Manufacturing companies (OMCs) on limited end-user consumption because of the lockdown. According to ISMA despatches of sugar have stopped with the lockdown resulting in drying up of 1-1.5mn tonnes of sugar in the pipeline, expects pent-up demand to revive once the lockdown is lifted. Further, due to Covid-19, sugar industry is expected to experience a fall in sugar consumption. Temporary disruptions in the supply chain have been experienced by the millers and a drop in the consumption levels from the usual of 26 million tonnes is expected as there are curbs on social gatherings, celebrations, weddings and so on. People are also avoiding cold drinks and ice creams to avoid falling sick. The FMCG and beverage companies are either working on reduced capacities or have suspended operation

Regional Overview

According to ISMA Uttar Pradesh experienced a buoyant production with 10.8 mn tonnes accounting for growth of 3 % YoY. As of April 2020, 98 mills were under operation against 103 mills in April 2019; cane availability to the sugar mills for crushing in the current season increased as few Gur/khandsari manufacturing units in the state closed their operations. Production in Maharashtra fell 44 % in April 2020 with only one mill under operation. Karnataka's production fell by 22 % to 3.5 mn tonnes with almost all mills shut operations during the period.

Domestic Ethanol

During the fiscal Government of India continued its focus on encouraging millers to produce ethanol and bring under control the glut in sugar industry. In a major boost to the sugar industry, the cabinet committee on economic affairs (CCEA) increased price of ethanol derived from different raw materials under the Ethanol Blended Petrol (EBP) programme. Earlier this fiscal OMCs had commitment to produce 2.6 bn litres of ethanol to aid to reduce India's energy import dependency and sugar industry clear dues of farmers. The CCEA increased the prices of ethanol from 'C' heavy molasses and 'B' heavy molasses by 29 paise per litre and Rs 1.84 per litre respectively. The 'C' heavy molasses and 'B' heavy molasses will be priced at Rs 43.75 per litre and Rs 54.27 per litre, respectively. The price of ethanol manufactured directly from sugar juice was increased to 59.48 per litre. India targets to increase the ethanol blending from current 6 % to 10 % by 2021 -22.

The outbreak of Covid-19 and subsequent lockdown reduced the demand for petrol and diesel drastically nationwide resulting in lower offtake from OMC's depot which in turn has resulted in reduced procurement by OMCs from sugar millers owing to problems of storages. Further slide in crude prices has also resulted in reduced off take of ethanol. The reduction in the demand for fuel has impacted the ethanol requirement. Indian Sugar Mills Association (ISMA) has asked the OMCs to reallocate ethanol to other depots, which have ready storage space and can take additional ethanol supplies beyond the contract.

Domestic Sugar Price

The glut in sugar production in previous season restricted the growth in sugar price in recent past. During such scenario of excess high supply & inventory sugar prices tend to generally erode and even fall below the cost of production resulting in the losses to the sugar millers. Government of India's proactive measures towards supporting sugar millers, levy of minimum support prices by the government aided the sugar prices to stay above the cost of production during SS2019-20.

The prices so far from October 2019-February 2020 remained steady at average of Rs 31 per kg in the current season. The prime reasons that supported the stability in sugar prices during SS2019/20 were lower production in the on-going sugar season, government's MSP measures and focus on higher export and diversion of sugarcane towards ethanol. Wholesale domestic prices declined marginally in March 2020 to Rs 32 per kg after the Covid-19 breakout. The MSP by the government provided cushion to the domestic mill owners in the current environment.

Hand Sanitizers

Govt. of India asked state governments to ensure continuous availability of ethanol to manufacturers of hand sanitizers to meet the surge in

demand due to the coronavirus pandemic. State governments gave permission to distilleries on a priority basis to produce sanitiser in bulk, which can then be packed and bottled. High demand for hand sanitizers since beginning of March led to hoarding which caused a spike in prices and sale of spurious products. Hand sanitizer industry has been unable to meet increased demand as it was not getting adequate supply of ethanol, a key ingredient in the manufacture of sanitizers. Indian Sugar Mills Association (ISMA) and All India Distiller Association (AIDA) assured the government of adequate supply of ethanol to produce sanitizers to meet increased demand. ISMA committed all the requirements of the hand sanitizer manufacturers for ethanol and ENA would be supplied to them at least for the next two to three months. At 100% capacity utilization, the hand sanitizer industry is expected to have a requirement of 8m-10m litres/month of ethanol and India currently has an ethanol production capacity of 3.5bn litres/year.

Co-Generation

In India, bagasse-based generation in September amounted to 234 GWh, brought the completed 2019/20 season total to 13,273 GWh, ~ 3% above last season which was about 12,917 GWh.

Company Overview

Avadh Sugar and Energy Limited is a part of the prestigious K. K. Birla Group of Sugar Companies. Established since 1932, the Group is in sugar business over 7 decades and consequent upon various schemes of merger and demerger, this Company was formed in 2015. Avadh Sugar & Energy Limited (Avadh) is an integrated sugar player dealing in sugar, spirits & ethanol, cogeneration, sanitizer and other by-products. Avadh has four sugar mills at Uttar Pradesh and a combined crushing capacity of 31,800 TCD. Avadh has two distilleries with a total capacity of 200 KLPD (annual capacity 600 lac KL). Cogeneration facilities with capacity of 74 MW. Avadh is strategically located in Uttar Pradesh, a major State in manufacturing for sugar and best recovery pan India, since last two years.

facilities are closely monitored in terms of safety of operations of machinery. We are proud of our talent pool. We encourage healthy conversations for employees with their supervisors and leaders to maintain transparency. The Company believes in offering equal opportunity to everyone in the organisation. The Company does not distinguish between people on basis of caste, creed, gender and physical abilities. The current strength of management staff in 2019-20 is 191 and non-management staff is 1686.

Corporate Social Responsibility

We demonstrate environmental and social responsibility at every step. We aim to benefit the communities around us – workforce, public and environment. We organise regular medical camps, give free medicines and also any emergency medical equipment required by the deprived. We are sowing the seeds for a budding nation by providing education to the underprivileged children and giving them access to free books. We also run an inter-level college for the students. We consider ourselves responsible for the environment around us and consciously take efforts for its upliftment. The Company's CSR policy focuses on practicing its corporate values through its commitment to grow in a socially and environmentally responsible way, while meeting the interests of its stakeholders and with an intent to make a positive difference to society and to conduct the business in socially responsible, ethical and transparent manner to demonstrate commitment to respect the interest of and be responsive towards all stakeholders, including shareholders, employees, customers, suppliers, project affected people, society at large etc. and create value for all of them.

Internal Control Systems

Avadh Sugar & Energy has a vigorous internal control system in place. The internal control system is designed to maintain efficiency, measurability and verifiability, reliability of accounting and management information. Internal audit is conducted for all the processes to identify risks and verify whether all systems and processes are commensurate with the business size and structure. Usage of SAP has increased the operational efficiency significantly. Adequate internal control systems safeguard the assets of the company with timely identification and intervention to alleviate risks. The internal controls are verified by the members of Audit Committee to keep a check on the existing systems and take corrective action to further enhance the control measures.

Risk Management

The risk committee comprises members of the Board of Directors. The committee has prepared a complete Risk Management policy that is imbibed at the operations level to curb internal and external risk challenges. The committee also spreads awareness among employees about various risks associated with the market. An enterprise-wide risk identification, management and reduction programme helps Avadh Sugar & Energy take risk-eliminating actions more proactively and in advance.

The Committee implements measures to counter all risks. Structural risks like sugar price volatility, low sugar recovery, State Advised Price fixation by Government and other industry risks are mitigated through R&D, organising seminars to educate farmers about efficient harvesting practices and adopting operational efficiency at the facilities. These help increase cane yields, improve sugar recovery and help the Company navigate various industry risks and challenges.

Report on Corporate Governance

1. Company's Philosophy

Avadh Sugar & Energy Limited (ASEL), a part of K K Birla Group of Sugar Companies, is of the firm conviction that Corporate Governance in essence refers to the rules, procedures, values, systems or laws by which businesses are operated, regulated, and controlled. A well-defined and enforced corporate governance provides a structure that works for the benefit of everyone concerned by ensuring that the enterprise adheres to accepted ethical standards and best practices as well to formal laws. Governance practices may vary but the principles are generic and universal. Accordingly the Board of ASEL manages its business ethically and in a transparent manner with the profit objective balanced by long term value equitably for all stakeholders which term includes every one ranging from the board of directors, management, shareholders, cane growers, customers, employees and society at large.

Given the fact that the business operations of ASEL is well diversified, sound governance practices are indispensable for it to build and sustain trust in all its stakeholders. ASEL is committed to run its business in a legal, ethical and transparent manner with dedication that originates from the very top and permeates throughout the organization. Besides adhering to the prescribed corporate practices as per the amended SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") from time to time, it voluntarily governs itself as per highest ethical and responsible standards of business.

This chapter, along with the chapters on Management Discussion and Analysis and Shareholders information, reports ASEL's compliance with Listing Regulations highlighting the additional initiatives taken in line with international best practices.

Corporate Governance Philosophy

ASEL's philosophy is to constantly achieve business excellence and optimize long term value through ethical business conditions. Being a value driven organization ASEL envisages attainment of the highest level of transparency, accountability and equity in all facets of its operations including everyone it works with, the community it is in touch with and the environment it has an impact on. Strong Governance practices by the Company have boosted the level of stakeholder's confidence testified by improved performance and various recognitions achieved by the Company. This has helped ASEL to pay uninterrupted value based services to all its stakeholders.

The corporate governance structure in the Company ensures that its Board of Directors is well informed and well equipped to fulfill its overall responsibility by way of providing strategic direction to the senior management, employees, etc. which is the backbone of the ability to meet the aspirations of all stakeholders.

ASEL's initiatives towards adhering to highest standards of governance include: professionalization of the Board; fair and transparent processes and reporting systems; and going beyond the mandated Corporate Governance Code requirements of Securities and Exchange Board of India (SEBI). At the highest level the Company continuously endeavors to improve upon these aspects on an ongoing basis and adopt innovative approaches for leveraging resources, converting opportunities into achievements through proper coordination, empowerment and motivation, fostering a healthy all round growth and development to take the Company forward.

Secretarial Audit Report

Form No. MR-3

Secretarial Audit Report

For the Financial Year Ended on March 31, 2020

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule no. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
AVADH SUGAR & ENERGY LIMITED
P.O. Hargaon, Dist.- Sitapur,
Uttar Pradesh – 261 121

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Avadh Sugar & Energy Limited** [hereinafter called 'the Company'] for the financial year ended 31st March, 2020 ('Audit Period'). Secretarial audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conduct/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company as provided in **Annexure I** and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period, covering the financial year ended on March 31, 2020 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records as maintained by the Company for the financial year ended on March 31, 2020 according to the provisions of:

1. The Companies Act, 2013 (the "Act") and the rules made thereunder including any re-enactment thereof;
2. The Securities Contracts (Regulation) Act, 1956 and the rules made thereunder;
3. The Depositories Act, 1996 and the regulations and bye-laws framed thereunder;
4. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment, and External Commercial Borrowings;
5. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992, to the extent applicable:-
 - a. The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
 - b. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - c. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - d. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - e. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993
6. Laws specifically applicable to the industry to which the Company belongs, as identified and compliance whereof as confirmed by the management, that is to say:
 - a. The Sugar Development Fund Act, 1982 and Rules;
 - b. The Sugarcane (Control) Order, 1966;
 - c. The Sugar Cess Act, 1982;
 - d. The Food Safety and Standards Act, 2006 and Rules;

- e. Food Safety and Standards Regulations;
- f. The Essential Commodities Act, 1955;
- g. Legal Metrology Act, 2009;
- h. Petroleum Act, 1934 And Rules;
- i. Electricity Act, 2003 and Rules;
- j. The Uttar Pradesh Sheera Niyantran Adhiniyam, 1964;
- k. Uttar Pradesh Sugarcane (Regulation of Supply and Purchase) Act, 1953.

We have also examined compliance with the applicable clauses of the Secretarial Standards for Board Meetings (SS-1) and for General Meetings (SS-2) issued by the Institute of Company Secretaries of India.

During the audit period, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, etc. as mentioned above:

Management and Auditor Responsibility:

1. Maintenance of secretarial records is the responsibility of the management of the Company. Our responsibility is to express an opinion on these secretarial records based on our audit;
2. We have followed the audit practices and the processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. We believe that the processes and practices, we followed provide a reasonable basis for our opinion;
3. Wherever our Audit has required our examination of books and records maintained by the Company, we have also relied upon electronic versions of such books and records, as provided to us through online communication. Wherever for the purposes of our Audit, there was a need for physical access to any of the places of business of the Company, the same has taken place with very limited physical access in view of the prevailing lockdown due to the outbreak of COVID-19.
4. We have not verified the correctness and appropriateness of financial records and books of accounts of the Company as well as correctness of the values and figures reported in various disclosures and returns as required to be submitted by the Company under the specified laws, though we have relied to a certain extent on the information furnished in such returns.
5. Wherever required, we have obtained the Management Representation about the compliance of laws, rules and regulation and happening of events etc;
6. The compliance of the provisions of Corporate and other applicable laws, rules, regulations, standards is the responsibility of management. Our examination was limited to the verification of procedure on test basis;
7. Due to the inherent limitations of an audit including internal, financial, and operating controls, there is an unavoidable risk that some misstatements or material non-compliances may not be detected, even though the audit is properly planned and performed in accordance with audit practices.
8. The contents of this Report has to be read in conjunction with and not in isolation of the observations, if any, in the report(s) furnished/to be furnished by any other auditor(s)/agencies/authorities with respect to the Company.
9. The Secretarial Audit report is neither an assurance as to the future viability of the Company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company.

We report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings and Committee meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Resolutions have been approved by majority while the dissenting members', if any, views are captured and recorded as part of the minutes.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period, the Company has not undertaken any specific event/action that can have a major bearing on the company's compliance responsibility in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc., except as follows:

1. Issue of bonus shares

VII. Penalties / Punishment/ Compounding of Offences:

During the financial year 2019-20, there were no penalties / punishment / compounding of offences under the Companies Act, 2013 against the Company, its Directors or other officers in default.

Annexure H

Information under section 134 (3) (m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014 and forming part of the Directors' Report for the financial year ended 31st March, 2020

(A) Conservation of Energy

i. the steps taken or impact on conservation of energy –

The Company continues to take following initiatives to conserve energy during the year 2019-20:

- Various machineries and equipment installed during earlier years besides increasing generation of steam tend to reduce consumption of steam and fuel.
- Auto control combustion system fitted with all the boilers reduces the consumption of bagasse.
- The modified system of heating sugarcane juices and bleeding of vapors for pan boiling is working satisfactorily in the form of considerably reducing consumption of steam and fuel.

The above measures have reduced the consumption of fuel and power substantially and consequently the cost of production.

ii. the steps taken by the company for utilizing alternate sources of energy –

- Use of DG sets for generating electricity has been kept to bare minimum.
- Electricity is generated in Co-Generation Power Plant using Bagasse as fuel which is a renewable source of energy. Captive requirement of electricity is met out of this generation and the balance power is sold to the State Grid.

iii. The capital investment on energy conservation equipments –

In view of lesser availability of funds, the Company does not intend to commit its already strained financial resources towards implementation of energy reduction programmes though the Company shall continue to use its existing resources and implement conventional methods to substantially reduce consumption of energy.

(B) Technology Absorption –

(i) the efforts made towards technology absorption –

Continuous efforts are made to absorb the new technology for which Research and Development work is also undertaken in the following areas –

1) Control of Insect, Pest and Disease

- Through Moist, Hot Treatment:** In order to maintain the genetic purity of varieties of Sugarcane, treatment is given to cane seed with moist hot air treatment. It improves the quality and yield of sugarcane. This process shall continue for the future also.
- Chemical Control:** In order to control the Insect, Pest and Borer, insecticide and pesticide is being applied on the crop just before indent of Pest and Borer for its control.
- Biological Control of Borer:** Parasites Trichogramma have been applied in the crop to protect from insects, Pests and Borers.

2) Encouragement for sowing Cane through Trench Method

Farmers are being encouraged to sow the seeds of Cane through Trench method of sowing so as to increase the yield.

3) Ratoon Management

To increase the yield of the Ratoon, farmers are being educated on constant basis for stubbing the plant and giving the proper dose of fertilizers and irrigation. Farmers are educated also to fill the gaps by new and improved plants.

Owing to above efforts, higher yield of disease free cane is being made available to the Company's sugar mills resulting in higher return to cane growers as well as to the Company. This has also contributed to higher recovery of cane

Section E: Principle-Wise Performance

Principle 1a Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

The Company lays strong emphasis on ethics and establishment of good governance culture. The Company believes that since organisations employ societal and environmental resources, governance processes must ensure that they are utilised efficiently to meet the aspirations and expectations of all stake holders. The Company believes in high standards of governance and adheres to good corporate practices and is constantly striving for improvement and adoption of best practices. Adherence to business ethics, transparency in dealings with all stakeholders, adequate and timely disclosure of information and commitment to corporate social responsibility are the basic elements of the governance policy of the company.

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs/Others?

The Company's Code of Conduct and Business Ethics ("the Code") is applicable to all directors and employees of the Company. The directors and employees of the Company are expected to uphold the standards mentioned thereunder in their day-to-day activities and comply with all applicable laws, rules and regulations. The Company has a Whistle blower Policy which aims to deter and detect actual or suspected misconduct. It has been established to ensure that genuine concerns of misconduct/ unlawful conduct, which an individual believes may be taking place within the organisation, are raised at an early stage in a responsible and confidential manner. This mechanism also provides for adequate safeguards against victimisation of employees who avail of the mechanism. Any employee can report such incident without fear to the ombudsman. The Company, follows five core principles of Integrity, Passion, Quality, Respect and Responsibility, remain consistently vigilant and ensure ethical conduct of its operations. All internal and external stakeholders of the Company are expected to work within the framework of these principles.

There is no group structure or joint venture of the Company. The Company does not have any subsidiary. The Company is gradually encouraging stakeholders associated with it like vendors, suppliers, contractors, etc., to follow the principles envisaged in the Policy.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

There was no complaint received during the year under the Whistle Blower Policy of the Company.

Principle 2a Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle.

Sustainability is a part of the Company's DNA. The Company has business line of Sugar manufacturing and is governed by the principle of Sustainability - Enshrined in the tenets of conserving, preserving, enhancing and creating each business in sync with nature. The Company has Environmental and Safety Accreditations across some of its Units, to drive business sustainability.

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

- (a) **Sugar** – Sugarcane is a water-intensive crop. Several collaborative initiatives are in place along with leading organizations for measuring carbon and water foot print and optimize the use of water in the Company's command area of operation. Pressmud, a by-product of sugarcane, is used as organic manure after converting it in Bio-Compost in sugarcane fields which contains essential nutrients and organic carbon to improve and sustain the soil quality.
- (b) **Distillery Products** – Molasses, a by-product of sugarcane, is used to manufacture Ethanol and is being blended with gasoline by the Oil Marketing Companies for use in automobiles. This helps in reduction of greenhouse gases as against fossil fuels.
- (c) **Power** – Bagasse, a by-product of sugarcane, is used as bio- fuel to generate power and export to grid as a green product. The ash generated is used as a filler during manure production. Bagasse is a CO₂ neutral renewable energy source and it qualifies for Clean Development Mechanism certification.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

- (a) **Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?**
 - i. **Sugar** – For crushing of sugarcane, the resources required are water, steam and power. The Company has progressively invested in optimum use of resources. The core cane crushing operation generates molasses (as by- product) and bagasse (as waste); molasses is utilized to manufacture ethanol (a green fuel) while bagasse is being utilized to generate green power. All four sugar units are now equipped with the latest effluent treatment plants (ETP) coupled with buffer storage reservoirs to avoid shock dosing of the ETP.
 - ii. **Distillery Products** – The best fermentation and distillation efficiencies are achieved with overall efficiency at 89% to 90% as against the norm of 86% in case of Industrial Alcohol.
 - iii. **Power** – The Industry norm of steam to fuel ratio is 2.0 to 2.2 whereas all factories operate between 2.2 to 2.3.
- (b) **Reduction during usage by consumers (energy, water) has been achieved since the previous year?**
The Industrial Alcohol producing units are running on Zero Liquid Discharge (ZLD) technology and therefore does not have any adverse impact on the environment.

3. Does the company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Yes, the Company deploys sustainable procurement practice. All the plants of the Company are situated close to cane growing area. Entire raw material is procured sustainably. Since the inputs are procured from sources close to the units, it also helps in minimizing transportation costs. Cane is also supplied by small and medium farmers through bullock driven carts. The materials required by Distillery and Co-gen plants are mostly internally sourced through pipelines and conveyor belts. This significantly reduces the environmental impact of transportation of raw materials.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors.

The Company is predominantly engaged in the business of manufacture of sugar and sugarcane is the primary raw material for its operations. The Company procures 100% of its raw materials i.e. sugarcane from farmers who are located within its local command area and whose livelihood is directly dependent upon the Company. The Company has taken a number of initiatives to improve the yield through adoption of sustainable cultivation practices by the growers. The Company works closely with cane growers of the allotted areas to improve their productivity. In order to achieve this, the Company shares knowledge and expertise in sustainable agriculture practices with the farmers for cane cultivation. Besides this, the farmers are also guided on selection and use of right type of agri-inputs. These developmental activities help in improvement of quality and yield of cane thereby benefitting the Company as well as the farmers. Women farmer training programs and empowerment have brought women into the forefront of agriculture thus encompassing all genders in business chain management. The Company supports the communities around the place of work by seeking contractual arrangements for handling and transportation of its products and in-plant services.

5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

The production of Sugar from Sugarcane is indeed an eco- friendly virtuous cycle. All joint and by products generated during the process of sugar manufacture are productively utilised viz. bagasse is utilised for power generation, molasses is utilised to produce distillery products and other wastes generated like press mud and ash generated from incineration boilers are utilised for manufacture of organic manure. The

Company has laid down comprehensive guidelines on waste management for all its units, which cover hazardous as well as non-hazardous waste and monitoring of performance for each unit, is carried out on a regular basis. Thus the by-products and waste generated out of manufacturing processes are mostly recycled. The Company is one of the few sugar factories to work towards achieving ZLD for the sugar operations.

Our assessment was based on our knowledge of the business and the observable data of the industry; Evaluated the Company's estimate regarding the period by which the MAT credit entitlement would be utilised. We compared the Company's assessment to business plans and projections of future taxable profits. We verified such estimate to be within the period prescribed under the Income Tax Act, 1961; Assessed the adequacy of related disclosures in the financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding

independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations as at 31 March 2020 on its financial position in its financial statements - Refer Note 39 to the financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;
 - iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2020.
- (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure – A to the Independent Auditors' report on the financial statements of Avadh Sugar & Energy Limited for the year ended 31 March 2020.

Report on the matters specified in paragraphs 3 and 4 of Companies (Auditor's Report) Order, 2016 to the aforesaid financial statements under Section 143(11) of the Companies Act, 2013

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

We report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which fixed assets are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain fixed assets were physically verified during the year and no material discrepancies were noticed on such verification.
- (c) According to information and explanations given to us and on the basis of our examination of the records of the Company, title deeds of immovable properties amounting to Rs. 14,840.81 lakhs, included in Property, Plant and Equipment which were transferred to the Company pursuant to the Scheme of arrangement (refer note 42 to the Financial Statements) are not held in the name of the Company. As explained to us, steps are being taken to complete the transfer of the name in the title deeds in the name of the Company.
- (ii) The inventory, except goods in transit, have been physically verified by the management at reasonable intervals during the year. In our opinion, the frequency of such verification is reasonable. For goods-in-transit, subsequent receipt of goods have been verified. The discrepancies noticed on verification between the physical stocks and the book records were not material and have been adjusted in books of account.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of paragraph 3(iii) of the Order are not applicable to the Company.
- (iv) According to the information and explanations given to us, the Company has not granted any loans or provided any guarantee or security during the year that would attract provisions of Section 185 and 186 of the Act. The provisions of Section 186 of the Act in respect of investments made have been complied with by the Company.
- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted deposits as per the directives issued by the Reserve Bank of India under the provisions of Section 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the provisions of paragraph 3(v) of the Order are not applicable to the Company.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Act and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records with a view to determine whether they are accurate or complete.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including Provident Fund, Income-tax, Goods and Service tax, cess and other material statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, there were no dues payable in respect of Value Added tax, Sales tax, Service tax, duty of excise and duty of customs.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident Fund, Income-tax, Goods and Service tax, cess and other material statutory dues were in arrears as at 31 March 2020 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no dues of Sales tax, duty of excise, Entry tax and Value Added tax which have not been deposited with the appropriate authorities on account of any dispute, except the following:

Name of the Statute	Nature of the dues	Amount (Rs. in lakhs)	Amount paid (Rs. in lakhs)*	Period to which the amount relates	Forum where dispute is pending
UP Sales Tax Act, 1948	Discount on molasses	6.83	0.44	2006-07	Sales Tax Tribunal, Lucknow
Central Sales Tax Act, 1956	Taxability on alcohol sale and other goods	34.56	29.97	2012-13 and 2017-18	Appellate authority upto Commissioner's level

* These amounts have been paid under protest

- (viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of loans or borrowings from financial institutions or banks. The Company did not have any outstanding loans or borrowings from government and there are no dues to debenture holders during the year.
- (ix) According to the information and explanations given to us and based on our examination of the records of the Company, the Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. Term loans raised during the year was applied for the purpose for which it were obtained.
- (x) According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year.
- (xi) According to the information and explanations given to us and based on our examination of the records, the Company has paid/provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, the provisions of paragraph 3(xii) of the Order are not applicable to the Company.
- (xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act, wherever applicable, and the details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, the provisions of paragraph 3(xiv) of the Order are not applicable to the Company.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, the provisions of paragraph 3(xv) of the Order are not applicable to the Company.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934. Accordingly, the provisions of paragraph 3(xvi) of the Order are not applicable to the Company.

Annexure – B to the Independent Auditors’ report on the financial statements of Avadh Sugar & Energy Limited for the year ended 31 March 2020.

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Avadh Sugar & Energy Limited (“the Company”) as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “Guidance Note”).

Management’s Responsibility for Internal Financial Controls

The Company’s management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as “the Act”).

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors’ judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company’s internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The description, nature and purpose of each reserve within other equity are as follows:

(a) Capital Reserve

The difference between the net fair value of assets and liabilities of the sugar business undertakings acquired and shares allotted pursuant to the scheme of arrangement in earlier year.

(b) Capital Redemption Reserve

The Company had created Capital Redemption Reserve on Non-convertible cumulative redeemable preference shares in accordance with the Companies Act, 2013. The reserve may be applied in accordance with the provisions of Section 69 of the Companies Act, 2013.

(c) Molasses Storage and Maintenance Reserve

Molasses Storage and Maintenance Reserve is a fund, which is required under Uttar Pradesh Sheera Niyantran Adhiniyam, 1964 read with Uttar Pradesh Sheera Niyantran Niyamavali, 1974. This fund may be utilised against the cost of construction / maintenance of molasses storage tanks under the requisite permission.

Notes to Financial Statements for the year ended 31st March, 2020

1. Reporting entity

Avadh Sugar & Energy Limited ('the Company') is a public company domiciled in India. The Company is incorporated under the provisions of the Companies Act, 2013. Its shares are listed on National Stock Exchange (NSE), Bombay Stock Exchange (BSE) and Calcutta Stock Exchange (CSE).

The Company is primarily engaged in the manufacture and sale of sugar and its by-products (molasses, bagasse and press-mud), spirits including ethanol and power. The Company has operations in India.

2. Basis of preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of the Companies Act, 2013 ('Act') and other relevant provisions of the Act.

The financial statements are authorised for issue by the Board of Directors of the Company at their meeting held on 22nd June, 2020.

Details of the Company's accounting policies are included in Note 3.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded off to the nearest lakhs, unless otherwise indicated.

2.3 Basis of measurement

The financial statements have been prepared on historical cost convention on the accrual basis, except for the following items:

Items	Measurement basis
(i) Certain financial assets and liabilities	Fair value
(ii) Biological assets other than bearer plants	Fair value less costs to sell
(iii) Employee's defined benefit plan	As per actuarial valuation (present value of defined benefit obligation less fair value of plan assets)

Fair value is the price that would be received on the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using another valuation technique. In determining the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

2.4 Use of judgments and estimates

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial statements for the every period ended is included in the following notes:

- Note 4 and 6 - Useful life and residual value of property, plant and equipment and other intangible assets;
- Note 9 - Determining the fair values of biological assets other than bearer plants on the basis of significant unobservable inputs;
- Note 15 - Recognition of deferred tax assets (including MAT Credit entitlement): availability of future taxable profit and income tax liabilities thereon against which carried forward tax losses / unabsorbed depreciation and MAT credit entitlement respectively can be used;

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

- Note 24 - Measurement of defined benefit obligations: key actuarial assumptions;
- Note 39 - Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 47 - Impairment of financial assets: key assumptions used in estimating recoverable cash flows.

Information about assumptions and judgement uncertainties that have a significant risk of resulting in a material adjustment in the financial statements for the every period ended is included in the following notes:

- Note 7 - Determining the fair values of investments;
- Note 43 - Determination of ROU assets and liabilities; incremental borrowing rate and lease term.

2.5 Measurement of fair value

A number of the Company's accounting policies and disclosures require the measurement of fair values, for financial assets and financial liabilities.

The Company has an established control framework with respect to the measurement of fair values. The management has overall responsibility for overseeing all significant fair value measurements and it regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- **Level 1:** inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- **Level 2:** inputs are inputs, other than quoted prices included in level 1, that are observable for the asset or liability, either directly or indirectly; and
- **Level 3:** inputs are unobservable inputs for the asset or liability.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. Further information about the assumptions made in measuring fair values is included in Note 2.4.

3. Summary of Significant accounting policies

3.1 Classification of assets and liabilities as current and non-current

All assets and liabilities are classified as Current or Non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- (i) it is expected to be realised in or intended for sale or consumption in the Company's normal operating cycle;
- (ii) it is held primarily for the purpose of being traded;
- (iii) it is expected to be realised within twelve months after the reporting date; or
- (iv) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

Current assets include current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (i) it is expected to be settled in the Company's normal operating cycle;
- (ii) it is held primarily for the purpose of being traded;

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

- (iii) it is due to be settled within twelve months after the reporting date; or
- (iv) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating cycle

For the purpose of current / non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months. This is based on the nature of business and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

3.2 Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currency of the Company at the exchange rates prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate prevailing at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of initial transaction.

Exchange differences are recognised in the Statement of Profit and Loss in the period in which they arise.

3.3 Financial instruments

Recognition and initial measurement

Trade Receivables issued are initially recognised when they are originated. All other financial assets and liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Classification and subsequent measurement

(i) Financial assets

On initial recognition, a financial asset is classified and measured at:

- amortised cost; or
- fair value through other comprehensive income (FVOCI) - Equity Investment; or
- fair value through profit or loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

(ii) Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- a) the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

The effective interest rate (EIR) amortisation is included in finance income in the Statement of Profit and Loss. This category generally applies to long-term deposits and long-term trade receivables.

(iii) Financial assets at fair value through other comprehensive income (FVOCI)

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI - equity investment). This election is made on an investment-by-investment basis.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

Financial assets are measured at the FVOCI if both of the following conditions are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Financial assets included within the FVOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI).

(iv) **Financial assets at fair value through profit or loss (FVTPL)**

All financial assets which do not meet the criteria for categorisation as at amortised cost or FVOCI as described above are classified as at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest (SPPI).

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

(v) **Financial assets: Subsequent measurement and gains and losses**

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in Statement of Profit and Loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method (EIR). The amortised cost is reduced by impairment losses, if any. Interest income, foreign exchange gains and losses and impairment are recognised in Statement of Profit and Loss. Any gain or loss on derecognition is recognised in Statement of Profit and Loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in Statement of Profit and Loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to Statement of Profit and Loss.

(vi) **Financial liabilities: Classification, subsequent measurement and gains and losses**

Financial liabilities are classified as measured at amortised cost or FVTPL.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

(vii) *Financial liabilities through fair value through profit or loss (FVTPL)*

A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in Statement of Profit and Loss.

(viii) *Financial liabilities at amortised cost*

Other financial liabilities are subsequently measured at amortised cost using the effective interest (EIR) method. Interest expense and foreign exchange gains and losses are recognised in Statement of Profit and Loss.

Any gain or loss on derecognition is also recognised in Statement of Profit and Loss.

Interest bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortisation process. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximates fair value due to the short maturity of these instruments.

Derecognition

(i) *Financial assets*

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

(ii) *Financial liabilities*

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in Statement of Profit and Loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3.4 Property, plant and equipment [PPE]

(i) *Recognition and measurement*

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises its purchase price inclusive of duties, taxes, after deducting trade discounts and rebates, incidental expenses, erection / commissioning expenses, borrowing cost, any directly attributable cost of bringing the item to its working condition for its intended use and costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate components of property, plant and equipment.

A property, plant and equipment is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Any gain or loss on disposal of an item of property, plant and equipment is recognised in Statement of Profit and Loss.

Property, plant and equipment under construction are disclosed as Capital work-in-progress.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

(ii) **Subsequent expenditure**

Subsequent costs are capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company. Ongoing repairs and maintenance are expensed as incurred.

(iii) **Depreciation**

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual value using straight line method over the useful lives of assets and recognised in the Statement of Profit and Loss.

The useful lives have been determined based on technical evaluation done by the management's expert, supported by independent assessment by professionals, and are in line with the useful life specified in Part C of Schedule II to the Companies Act, 2013, except for certain plant and equipments as 5-40 years, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

The range of estimated useful lives of items of property, plant and equipment are as follows:

Class of assets	Management estimate of useful life (in years)
Factory buildings	5 - 30
Non factory buildings	5 - 60
Plant and equipments	5 - 40
Computer and data processing equipment	3 - 6
Furniture and fixtures	10
Vehicles	8 - 10
Office equipments	5

Depreciation method, useful lives and residual values of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

Depreciation on additions to or disposal of assets is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed off). Leasehold land is being amortised over the period of lease tenure. Freehold land is not depreciated.

Individual assets costing below ₹ 5,000 are fully depreciated in the year of purchase as these assets have no significant useful life.

(iv) **Capital work-in-progress (CWIP)**

Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date. Directly attributable expenditure (including finance costs relating to borrowed funds / general borrowings for construction or acquisition of property, plant and equipment) incurred on project under implementation are treated as Pre-operative expenses pending allocation to the asset and are shown under CWIP.

3.5 Intangible assets

Intangible assets including Computer software are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and impairment loss, if any. Intangible assets are amortised on straight line method basis over the estimated useful life. Estimated useful life of the Computer software is considered as 5 years.

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in Statement of Profit and Loss as incurred.

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted, if appropriate.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

3.6 Biological assets other than bearer plants

Biological assets other than bearer plants comprise standing crops of sugarcane and other agriculture products.

On initial recognition and at the end of each reporting period, Biological assets other than bearer plants are measured at fair value less estimated costs to sell. Changes in fair value are recognised in the Statement of Profit and Loss.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

The fair value of these assets excludes the land upon which the crops are planted or the items of property, plant and equipment utilised in the upkeep of planted areas.

The biological process starts with preparation of land for planting, seedlings and ends with the harvesting of crops. For biological assets, where little biological transformation has taken place since the initial cost was incurred (for example seedlings planted immediately before the balance sheet date), such biological assets are measured at cost i.e. the total expenses incurred on such plantation upto the balance sheet date.

When harvested, sugarcane is transferred to inventory at fair value less costs to sell.

3.7 Inventories

Raw Materials, stores and spares are valued at lower of cost and net realizable value. However, these items are considered to be realizable at cost if the finished products, in which they will be used, are expected to be sold at or above cost. Cost of raw materials and stores and spares is determined on annual weighted average method / moving average method.

Work-in-progress, Finished goods (including Power banked) and Traded goods are valued at lower of cost and net realizable value. Work-in-progress and Finished goods include cost of conversion and other costs incurred in bringing the inventories to their present location and condition based on normal operating capacity. Cost is determined on weighted average basis.

By products (including B-Heavy Molasses) and Saleable scraps, whose cost is not identifiable, are valued at estimated net realisable value.

The comparison of cost and net realisable value is made on an item-by-item basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Assessment of net realisable value is made at each subsequent reporting date. When the circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in net realisable value because of changed economic circumstances, the amount so written-down is adjusted in terms of policy as stated above.

3.8 Impairment

Impairment of financial instruments : financial assets

At each reporting date, the Company assess whether financial assets, than those at FVTPL are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being past due for 90 days or more; or
- it is probable that the borrower will enter bankruptcy or other financial reorganisation.

The Company recognises loss allowances using the expected credit losses (ECL) model for the financial assets which are fair valued through profit or loss.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in Statement of Profit and Loss.

In case of trade receivables, the Company follows the simplified approach permitted by *Ind AS 109 Financial Instruments* for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

For all other financial assets, expected credit losses are measured unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

(i) **Measurement of expected credit losses**

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

(ii) **Presentation of allowance for expected credit losses in the balance sheet**

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

(iii) **Write-off**

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Impairment of non-financial assets

The Company's non-financial assets, other than biological assets, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

The Company's corporate assets (e.g., central office building for providing support to various CGUs) do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

In respect of other assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3.9 Employee benefits

Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in Statement of Profit and Loss in the periods during which the related services are rendered by employees. The Company makes specified contribution periodically to the following defined contribution plans :

- a) Provident / Pension funds;
- b) Superannuation fund.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plans ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in Other comprehensive income (OCI). The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in Statement of profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

The contributions are deposited with the Life Insurance Corporation of India based on information received by the Company. When the benefits of a plan are improved, the portion of the increased benefit related to past service by employees is recognised in Statement of Profit and Loss on a straight-line basis over the average period until the benefits become vested.

Compensated absences

The employees of the Company are entitled to compensated absences which are both accumulating and non-accumulating in nature.

The expected cost of accumulating compensated absences is measured on the basis of an annual independent actuarial valuation using the projected unit credit method, for the unused entitlement that has accumulated as at the balance sheet date. Remeasurement gains or losses are recognised in the Statement of Profit and Loss in the period in which they arise.

Non-accumulating compensated absences are recognised in the period in which the absences occur.

3.10 Provisions (other than for employee benefits)

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. Expected future operating losses are not provided for.

3.11 Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from a past event, with the resolution of the contingency dependent on uncertain future events, or a present obligation where no outflow is possible. Major contingent liabilities are disclosed in the financial statements unless the possibility of an outflow of economic resources is remote. Contingent assets are not recognised in the financial statements but disclosed, where an inflow of economic benefit is probable.

3.12 Revenue from contract with customer

Sale of goods and rendering of services

Revenue from sale of product is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the product. The normal credit term is 0 to 45 days upon delivery.

At contract inception, the Company assess the goods or services promised in a contract with a customer and identify as a performance

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

obligation each promise to transfer to the customer. Revenue from contracts with customers is recognized when control of goods or services are transferred to customers and the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold. Revenue from the sale of goods / services is measured at the fair value of the consideration received or receivables, net of returns and allowances, trade discounts and volume rebates.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the Government. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specific of each arrangement.

Revenue from certain services is recognised at a point in time when the performance obligation is satisfied, and the customer obtains the control of goods or services.

Sale of Power

The Company's derives its power revenue from the production and sale of electricity based on long-term Power Purchase Agreements. Revenue is recognised upon delivery of electricity produced to the electricity grid based on the agreed tariff rate (net of discounts for prompt payment of bills). Delivery is deemed complete when all the risks and rewards associated with ownership have been transferred to the grid as contractually agreed, compensation has been contractually established and collection of the resulting receivable is probable.

Income from Renewable Energy Certificates (RECs)

Income from Renewable Energy Certificates (RECs) is recognised at estimated realisable value on confirmation of RECs by the concerned Authorities.

Interest income

Interest income or expense is recognised using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Interest is recognised on time proportion basis.

Interest income is included in "Other Income" in the Statement of Profit and Loss.

Dividend Income

Dividend income is recognised when the Company's right to receive the dividend is established i.e. in case of interim dividend, on the date of declaration by the Board of Directors; whereas in case of final dividend, on the date of approval by the shareholders.

Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

3.13 Expenses

All expenses are accounted for on accrual basis.

3.14 Government grants

Grants from Government are recognised at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with the conditions attached thereto.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

Government grants related to revenue are recognised in the Statement of Profit and Loss on a systematic and rational basis in the periods in which the Company recognises the related costs for which the grants are intended to compensate and are netted off with the related expenditure. If not related to a specific expenditure, it is taken as income and presented under "Other Operating Revenue".

Government grants received relating to property, plant and equipment and other intangible assets are deducted from the gross value of the property, plant and equipment and other intangible assets concerned in arriving at the carrying amount of the related property, plant and equipment and other intangible assets. The grant is recognised in the statement of profit or loss over the life of the related depreciable asset as a reduced depreciation expense. This change has no impact on these financial statements.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates and is being recognised in the Statement of Profit and Loss by netting with the related finance cost. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

3.15 Leases

Ind AS 116 supersedes Ind AS 17 Leases including its appendices. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the balance sheet.

The Company has adopted Ind AS 116 using the modified retrospective method of adoption under the transitional provisions of the Standards, with the date of initial application on 1st April, 2019. The Company also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of twelve months or less and do not contain a purchase option (short-term leases), and lease contracts for which the underlying asset is of low value (low-value assets). The impact of adoption of Ind AS 116 on the financial statements of the Company has been described under Note 43.

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment (refer to Note 3.8).

The right-of-use assets are disclosed in Property, Plant and Equipment (see Note 4).

(ii) Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Lease liabilities are included in Other financial liabilities (see Note 23).

Short-term lease and lease of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of twelve months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of offices, godowns, equipment, etc. that are of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

As a lessor

Lessor accounting under Ind AS 116 is substantially unchanged from Ind AS 17. Lessor will continue to classify leases as either operating or finance leases using similar principles as in Ind AS 17. Therefore, Ind AS 116 does not have an impact for leases where the Company is the lessor.

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Under Ind AS 17, assets held under leases that do not transfer to the Company substantially all the risks and rewards of ownership (i.e. operating leases) are not recognised in the Company's Balance Sheet. Payments made under operating leases are recognised in the Statement of Profit or Loss on a straight-line basis over the term of the lease unless the payments to the lessor are structured to increase in line with general inflation.

3.16 Income tax

Income tax expense comprises of current tax and deferred tax. Current tax and deferred tax is recognised in the Statement of profit and Loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the end of the reporting period.

Current tax assets and current tax liabilities are off set only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised.

Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised / reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to off set current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Minimum Alternative Tax (MAT) Credit

In case of tax payable as Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961, the credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as a deferred tax asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

3.17 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

financial information is available. All operating segments' operating results are reviewed regularly by the Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segments and assess their performance. Refer Note 44 for segment information presented.

Operating segments are reported in manner consistent with the internal reporting provided to the chief operating decision maker.

The Company's Whole-Time Director (WTD) has been identified as being the chief operating decision maker by the management of the Company.

3.18 Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

3.19 Cash and cash equivalents

Cash and cash equivalents include cash in hand and at bank as well as short-term deposits with an original maturity of three months or less.

3.20 Cash flow statement

Cash flows are reported using the indirect method, whereby profit or loss for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

3.21 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.22 Determination of fair values

Fair values have been determined for measurement and disclosure purposes based on the following methods. Where applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

i) **Financial assets**

Financial assets are initially measured at fair value. If the financial asset is not subsequently accounted for at fair value through profit or loss, then the initial measurement includes directly attributable transaction costs. These are measured at amortised cost or at FVTPL or at FVOCI.

Investments in equity instruments are measured at FVOCI and combination of different methodologies i.e. discounted cash flow method, comparable companies method and net assets method with different weightage has been used for fair valuations of investment in unquoted securities.

ii) **Trade and other receivables**

The fair values of trade and other receivables are estimated at the present value of future cash flows, discounted at the market rate of interest at the measurement date. Short-term receivables with no stated interest rate are measured at the original invoice amount if the effect of discounting is immaterial. Fair value is determined at initial recognition and, for disclosure purposes, at each annual reporting date.

iii) **Financial liabilities**

Financial liabilities are measured at fair value, at initial recognition and for disclosure purposes, at each annual reporting date. Fair value is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the measurement date.

3.23 Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from 1st April, 2020.

A. Measurement of fair values

The fair value of the sugarcane and other agriculture products at harvest is determined by the quantities harvested, it is valued at the rate fixed by the Uttar Pradesh Government (Level 1). The fair value of the harvested sugarcane is the cost of the raw material used in the production of sugar including captive consumption. For biological assets, where little biological transformation has taken place since the initial cost was incurred (for example seedlings planted immediately before the balance sheet date), such biological assets are measured at cost i.e. the total expenses incurred on such plantation upto the balance sheet date (Level 3).

B. Risk management strategy related to agricultural activities

The Company is exposed to a number of risks related to its sugarcane plantations.

i. Regulatory and environmental risks

The Company has established environmental policies and procedures, aimed for compliance, with local environmental and other laws.

ii. Supply and demand risk

The Company is exposed to risks arising from fluctuations in the sale price and quantity of sugarcane produced. When possible the Company manages this risk by aligning its harvest volume to market supply and demand.

iii. Climate and other risks

The Company's sugar cane plantations are exposed to the risk of damage from climatic changes, diseases, forest fires and other natural forces. The Company has extensive processes in place aimed at monitoring and mitigating those risks.

Section 115 BAA of the Income Tax Act, 1961, introduced by the Taxation Laws (Amendment) Act, 2019 gives a one-time irreversible option for payment of income tax at reduced rate with effect from financial year commencing 1st April, 2019 subject to certain conditions. The Company has made an assessment of the impact of the above amendment and decided to continue with the existing tax structure until utilisation of accumulated minimum alternative tax ("MAT") and unabsorbed depreciation.

However, the Company has re-measured the deferred tax assets / liability that is expected to reverse on exercising the option on the future date as per Ind-AS 12 "Income Taxes" and thus, reversal of net deferred tax liability of ₹ **2,246.10 lakhs** (after netting-off reversal of deferred tax assets of ₹ **30.44 lakhs** recognised through other comprehensive income) has been recognised in these financial statements.

(b) Rights, preferences and restrictions attached to equity shares

The Company has only one class of equity shares with par value of ₹ 10 per share. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets on winding up. The equity shareholders are entitled to receive dividend as declared by the Company from time to time. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts, in proportion to the number of equity shares held.

Non-current	319.78	177.08
Current	680.65	679.33
	1,000.43	856.41

Defined benefits - Gratuity Plan

The Company has a defined benefit gratuity plan. Every employee who has completed continuously at least five years or more of service is entitled to Gratuity on terms as per the provisions of The Payment of Gratuity Act, 1972. The approved gratuity fund of erstwhile companies in respect of transferred business undertakings has been transferred to the Company and which has taken an insurance policy with Life Insurance Corporation of India (LIC) to cover the gratuity liabilities.

Net defined benefit liabilities

(₹ in lakhs)

Particulars	As at 31st March, 2020	As at 31st March, 2019
Present value of defined benefit obligations	2,219.72	1,980.55
Fair value of plan assets	1,520.65	1,390.69
Net defined benefit liabilities	699.07	589.86

These defined benefit plans expose the Company to actuarial risks, such as currency risk, interest risk and market (investment) risk.

The Company expects to contribute ₹ 289.55 lakhs to Gratuity Fund in the next year.

Inherent risk

The plan is defined benefit in nature which is sponsored by the Company and hence it underwrites all the risk pertaining to the plan. In particular, this exposes the Company, to actuarial risk such as adverse salary growth, change in demographic experience, inadequate return on underlying plan assets. This may result in an increase in cost of providing these benefits to employees in future. Since the benefits are lump sum in nature, the plan is not subject to longevity risk.

The following tables analyse present value of defined benefit obligations, fair value of defined plan assets, actuarial gain / (loss) on plan assets, expense recognised in the Statement of Profit and Loss and Other Comprehensive Income, actuarial assumptions and other information:

- a) The Company presented disaggregated revenue based on the type of goods / services sold to customers and type of customers. Further, the Company's sales are made within India including export through third party and revenue is recognised for goods transferred at a point in time. The Company's performance obligations are satisfied on delivery of goods to the customer. Delivery of goods completes when the goods have been dispatched or delivered to the specific location, of the customer, as the case may be.

The Company does not have any contracts where the period between the transfer of the promised goods or services to the customer and payments by the customer exceeds one year and hence, there are no significant financing component included in such contracts.

The Company believes that the above disaggregation best depicts how the nature, amount, timing and uncertainty of revenues and cash flows are effected by industry, market and other economic factors.

- b) Trade receivables [Note 10] and Advance from customers [Note 26].
- c) The amount of revenue from contracts with customers recognised in the statement of profit and loss is the contracted price.

 - (2) The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a materially adverse effect on its financial position.
- (b) There has been a Supreme Court Judgment dated 28th February, 2019, relating to components of salary structure that need to be taken into account while computing the contribution to provident fund under the Employees Provident Fund & Miscellaneous Provision Act, 1952. There are interpretative aspects related to the judgment including the effective date of application. The Company will continue to assess any further developments in this matter for the implications on financial statements, if any.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

- 40.** The COVID-19 outbreak and resulted national lockdown imposed by the Government from 25th March, 2020 has caused on Pan-India disruption of businesses. The Government took adequate steps to ensure uninterrupted crushing operation of the sugar mills and the Company has successfully completed its crushing operation of the sugar season 2019-20.

The Company has considered the possible risk that may result from the pandemic relating to COVID-19 on the carrying amounts of assets including inventories, receivables, investments and other financial and non-financial assets, for which the Company has used the principles of prudence in applying judgments, estimates and assumptions including sensitivity analysis as well as the internal / external information available up to the date of approval of these financial statements and the same does not have any material impact on these financial statements.

However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

- 41.** Uttar Pradesh Electricity Regulatory Commission through tariff order effective from 1st April, 2019, has reduced the rates per unit of power, at which power supplied to Uttar Pradesh Power Corporation Limited has been recognised during the current year. Consequent to the same, realisation for the current year are lower by ₹ **3,625.14 lakhs**. The said notification has been challenged before the appropriate court and the matter is sub-judice.

- 42.** Out of total free-hold and lease-hold land, transferred to the Company pursuant to the scheme of arrangement in earlier year, title deeds of ₹ **10,514.39 lakhs** (31st March, 2019: ₹ Nil lakhs) has been transferred in the name of the Company. Title deeds of ₹ **13,844.33 lakhs** (31st March, 2019: ₹ 24,276.25 lakhs) are in the name of erstwhile companies namely The Oudh Sugar Mills Limited and Upper Ganges Sugar & Industries Limited. However, as per terms of the scheme of arrangement passed by NCLT vide its order dated 2nd March, 2017, title in the free-hold and lease-hold land of erstwhile companies deemed to have been transferred to and vested in the name of the Company, as a going concern, without any further act or deeds, so as to become the properties of the Company for the purpose of carrying on its businesses in connection therewith.

Title deeds of land of ₹ **996.48 lakhs** (31st March, 2019: ₹ 1,078.95 lakhs) are yet to be executed, pending for registration in favour of the Company.

43. Lease

The Company has adopted Ind AS 116 "Leases" with the date of initial application being 1st April, 2019, using the modified retrospective method. 44. Operating Segments

A. Basis for segmentation

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. All operating segments and its operating results are reviewed regularly by the Company's Whole-Time Director (WTD) as the Company's Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segments and assess their performance.

The Company has three reportable segments as described below, which are the Company's strategic business:

Reportable segments	Operations
Sugar	Manufacture and sale of sugar, molasses and bagasse
Distillery	Manufacture and sale of industrial spirits (including ethanol), fusel oil and bio-compost
Co-generation	Generation and transmission of power
Others	Trading of petroleum products business comprising of less than 10% revenues.

B. Information about reportable segments

Information related to each reportable segment is set-out below. The Company's WTD reviews the results of each segment on a quarterly basis. The Company's WTD uses Earning Before Interest and Tax (EBITA) to assess the performance of the operating segments. Segment is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within same industries. Inter-segment pricing is determined on an arm's length basis.

46. Government Grants (Contd.)

- (a) The State Government of Uttar Pradesh vide Order No. 13/2018/1697/46-3-18-3(37)/2018 dated 1st October, 2018 announced a financial assistance of ₹ 4.50 per quintal of sugarcane purchased during the sugar season 2017-18. The above subsidy related to purchase made during the previous year has been netted with the Cost of Material Consumed of the previous year and related to purchase made prior to the previous year has been recognised as "Cane Price Subsidy" under the head Other Operating Revenue in the previous year.
- (b) The Central Government, pursuant to notification dated 12th September, 2019 issued by Ministry of Consumer Affairs, Food and Public Distribution, has notified a Scheme for a lump sum financial assistance of ₹10,448 per MT for expenses on export of sugar to the extent of Maximum Admissible Export Quantity (MAEQ) of sugar mills for the sugar season 2019-20. Such financial assistance is subject to fulfillment of certain eligibility conditions as specified in the said notification. The Company has fulfilled the conditions as stipulated in the said scheme and accordingly, the subsidy of ₹ **13,495.27 lakhs** has been accounted for during the current year and disclosed as "Subsidy towards Export Quota (net)" under the head Other Operating Revenue.

The Central Government, pursuant to notification dated 5th October, 2018, issued by Ministry of Consumer Affairs, Food and Public Distribution, has notified a Scheme for financial assistance of ₹13.88 per quintal of actual sugarcane crushed during sugar season 2018-19 or the proportionate inter-se allocation of 3000 lakhs MT of sugarcane to be crushed (for sugar season 2018-19) on the basis of their average sugar production of last three sugar seasons, whichever is lower. The subsidy of ₹ **1,629.19 lakhs** (31st March, 2019: ₹ 607.94 lakhs) has been accounted for during the year by netting with "Cost of Material Consumed". The said assistance is after adjusting the related cost of ₹ **3,666.73 lakhs** (31st March, 2019: ₹1,381.29 lakhs) incurred in performing the obligation.

The Central Government, pursuant to notification dated 9th May, 2018 issued by Ministry of Consumer Affairs, Food and Public Distribution, has notified a Scheme for financial assistance of ₹ 5.50 per quintal of actual sugarcane crushed during sugar season 2017-18 or the proportionate inter-se allocation of 2800 lakhs MT of sugarcane to be crushed (for sugar season 2017-18) on the basis of their average sugar production of last two sugar seasons and season of 2017-18 (upto February 2018), whichever is lower. ₹ 507.08 lakhs (net of expenses) received during the previous year as per the said scheme has been disclosed as "Subsidy towards Export Quota (net)" under the head Other Operating Revenue.

- (c) The Government of India vide its Notification No. 1(6)/2018-SP-I and 1(8)/2019-SP-I dated 15th June, 2018 and 31st July, 2019 respectively announced a financial assistance as reimbursement of carrying cost pertaining to interest and insurance including storage charges towards maintenance of buffer stock. The above subsidy related to interest cost has been netted with the Finance Cost and in respect of insurance including storage charges has been disclosed as "Buffer Stock Subsidy towards Insurance & Storage Charges" under the head Other Operating Revenue.
- (d) As per U.P. Sugarcane (Regulation on Supply and Purchase) Act, 1953 and its Rules 1954, society commission is payable on sugarcane purchased at the rate of three percent of Fair and Remunerative Price (F.R.P.) fixed by the Government of India. However, the same was reduced by the Government of Uttar Pradesh for the sugar season 2017-18, 2018-19 and 2019-20 by ₹2.55, ₹2.75 and ₹2.75 per quintal of sugarcane purchased respectively. The above reduction in society commission applicable on sugarcane purchased during the periods has been netted with the Cost of Material Consumed.
- (e) The Company has obtained certain term loans from banks under financial assistance schemes SEFASU 2018 by the State Government of Uttar Pradesh at below market rate of interest and SOFT 2019 by the Central Government of India at subvention of interest. The difference between the fair value of the loans based on prevailing market interest rates and interest paid on such loans has been recognised in the Statement of Profit and Loss by netting with the related finance cost. Accordingly, deferred income on government grant recognised initially is being derecognised by netting with related finance cost systematically over the tenure of the respective loan under finance assistance scheme. The loan is subsequently measured as per accounting policy applicable to financial liabilities.

The management assessed that trade receivables, cash and cash equivalent, other bank balances, trade payable, cash credits including working capital loan, inter corporate deposits and other financial assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

The following methods and assumptions were used to estimate the fair values:

- The fair value of the quoted investments are based on market price at the respective reporting date.
- The fair value of the unquoted investments is determined using combination of different methodologies i.e. discounted cash flow method, comparable Companies method and net assets method with different weightage. The discount rate used is based on management estimates.

47. Financial instruments - fair values and risk management (Contd.)

B. Measurement of fair values

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in forced or liquidation sale.

The Company has established the following fair value hierarchy that categorise the value into three levels.

Financial assets and liabilities measured at fair value - recurring fair value measurements as under:

Particulars	Note	Level 1	Level 2	Level 3	Total
As at 31st March, 2020					
Investment in equity instruments (Quoted)	7	987.25	-	-	987.25
As at 31st March, 2019					
Investment in equity instruments (Quoted)	7	1,223.95	-	-	1,223.95

Investments in quoted equity instruments, which are classified as FVOCI are based on market price at the respective reporting date.

C. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- (i) Credit risk
- (ii) Liquidity risk
- (iii) Market risk

Risk management framework

The Company's principal financial liabilities includes borrowings, trade payable and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade receivables, cash and cash equivalents, other bank balances, investments, loans and other financial assets that derive directly from its operations.

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's Risk Management Committee monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

The Company's primary risk management focus is to minimise potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

The sources of risks which the Company is exposed to and their management is given below:

Risk	Exposure Arising from	Measurement	Management
Credit risk	Trade receivables	Ageing analysis	Credit limit and credit worthiness monitoring, credit based approval process
Liquidity risk	Borrowings and Other liabilities	Rolling cash flow forecasts	Adequate unused credit lines and borrowing facilities
Market risk	Long term borrowings at variable rates	Sensitivity analysis	Fund management
Interest rate risk		Interest rate movements	
Equity risk	Investment in equity securities	Sensitivity analysis	Long term investment
Regulatory risk	Commercial traction	Impact of policies	Monitoring of Policies and assessing impact
Commodity price risk	Commercial traction	Cash flow forecasting	Business diversification

47. Financial instruments - fair values and risk management (Contd.)

C. Financial risk management (Contd.)

(i) Credit risk

Credit risk is the risk of financial loss of the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company receivables from customers and loans. The Company has no significant concentration of credit risk with any counterparty. The carrying amount of financial assets represent the maximum credit risk exposure. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry also has an influence on credit risk assessment. Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to the customer credit risk management. The Company uses financial information and past experience to evaluate credit quality of majority of its customers. Outstanding receivables and the credit worthiness of its counter parties are periodically monitored and taken up on case to case basis. There is no material expected credit loss based on the past experience.

Exposure to credit risks

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry. The Company evaluates the concentration of risk with respect to trade receivables as low, as the Company sugar sales are mostly on cash. Power and Ethanol are sold to Government entities, thereby the credit default risk is significantly mitigated.

The Company's exposure to credit risk for trade receivables by type of counterparty is as follows.

(₹ in lakhs)

Particulars	As at 31st March, 2020	As at 31st March, 2019
Government concerns (including government undertakings)	7,345.32	7,884.49
Others	3,548.48	3,228.30
	10,893.80	11,112.79

Trade receivables are primarily unsecured and are derived from revenue earned from customers. Credit risk is managed through credit approvals, establishing credit limits and by continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. As per simplified approach, the Company makes provision of expected credit loss on trade receivables using a provision matrix to mitigate the risk of default payments and makes appropriate provisions at each reporting date whenever is for longer period and involves higher risk. On account of adoption of Ind AS 109, the Company uses life time expected credit loss model to assess the impairment loss or gain. The Company uses a provision matrix to compute the credit loss allowance for trade receivables.

Ageing of trade receivables are as under:

(₹ in lakhs)

Particulars	Not yet due	Less than 60 days	61- 180 days	181-365 days	More than 1 year	Total
As at 31st March, 2020	2,442.17	3,328.39	3,120.77	1,969.53	32.94	10,893.80
As at 31st March, 2019	3,878.86	4,838.76	1,878.36	445.13	71.68	11,112.79

During the year, the Company has made the provision of ₹ 66.09 lakhs towards doubtful debts, not written off and the Company is exploring all means to recover the same. The Company's management also pursue all legal option for recovery of dues, wherever necessary based on its internal assessment.

(ii) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. Processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

* including estimated interest.

(iii) Market risk

Market risk is the risk of loss of future earnings, fair value or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, regulatory changes, equity prices and other market changes that effect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings.

Foreign currency risks

All transactions of the Company are in Indian currency, consequently Company is not exposed to foreign currency risk. The Company has no outstanding foreign currency exposure or related derivative contract.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company exposure to the risk of changes in market interest rates relates primarily to the Company's long term and short term borrowing with floating interest rates. The Company constantly monitors the credit markets and rebalances its financing strategies to achieve an optimal maturity profile and financing cost.

The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk.

Currently the Company's borrowings are within acceptable risk levels, as determined by the management, hence the Company has not taken any swaps to hedge the interest rate risk.

C. Financial risk management (Contd.)

Exposure to interest rate risks

The interest rate profile of the Company's interest bearing financial instruments at the end of the reporting period are as follows:

(₹ in lakhs)

Particulars	As at 31st March, 2020	As at 31st March, 2019
Fixed rate instruments		
Financial assets	245.98	232.29
Financial liabilities	20,191.25	27,528.45
Variable rate instruments		
Financial assets	-	-
Financial liabilities	1,39,708.72	1,27,808.79

Cash flow sensitivity analysis

Fixed rate instruments that are carried at amortised cost are not subject to interest rate risk for the purpose of sensitive analysis.

A reasonably possible change of 50 basis points in interest rate at the reporting dates would have increased or decreased equity and profit or loss by the amounts shown below:

(₹ in lakhs)

Particulars	Profit or Loss		Equity, net of tax	
	Strengthening	Weakening	Strengthening	Weakening
31st March, 2020				
Variable rate instruments	(698.54)	698.54	(454.44)	454.44
31st March, 2019				
Variable rate instruments	(639.04)	639.04	(415.73)	415.73

Equity risk

The Company's quoted equity instruments are susceptible to market price risk arising from uncertainties about future values of the investment securities. The reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The senior management reviews and approves all equity investment decisions.

Sensitivity analysis

Investment in equity instruments of the Company are listed on the Bombay Stock Exchange (BSE), National Stock Exchange (NSE) and Calcutta Stock Exchange (CSE) in India. The table below summaries the impact of increase/decrease of the Nifty 50 index on the Company's equity and profit for the period. The analysis is based on the assumption that the BSE had increased / decreased by 10% with all other variables held constant, and that all the Company's equity instruments moved in line with the index.

(₹ in lakhs)

Particulars	Profit or Loss		Equity, net of tax	
	31st March, 2020	31st March, 2019	31st March, 2020	31st March, 2019

BSE - decrease by 10%	(98.73)	(122.40)	(64.23)	(79.63)

Regulatory and Commodity price risk

Sugar industry, being cyclical in nature, is regulated by both Central Government as well as State Government policies. The Company is exposed to the risk of price fluctuations of its raw material (Sugarcane) as well as its finished goods (Sugar). To counter the raw material risk, the Company worked with development of various cane varieties with the objective to moderate the raw material cost and increase product functionality. The risk towards finished goods (Sugar) has been moderated through the various schemes of the Central Government including but not limited to introduction of Minimum Support Price (MSP), creation of buffer stock and export of excess inventory. The Company has further mitigated this risk by well integrated business model by diversifying into co-generation and distillation, thereby utilising its by-products.

Notes to Financial Statements for the year ended 31st March, 2020 (Contd.)

48. Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The management monitors the return on capital, as well as the level of dividends to equity shareholders.

The Company's objective when managing capital are to:

- (a) to maximise shareholders value and provide benefits to other stakeholders, and
- (b) maintain an optimal capital structure to reduce the cost of capital.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. The Company has complied with these covenants and there have been no breaches in the financial covenants of any interest-bearing loans and borrowings.

For the purpose of the Company's capital management, capital includes issued equity share capital and other equity reserves attributable to the equity holders.

The Company monitors capital using debt-equity ratio, which is total debt divided by total equity.
