## 20. AUDITOR'S REPORT AND STATUTORY AUDIT

As tenure of M/s. Harshil Shah & Company, Chartered Accountants, (ICAI Registration no. 141779W), Mumbai as the Statutory Auditors is completing on this Annual General Meeting, Board recommended the appointment of M/s. BPSD & Associates, Chartered Accountants, (ICAI Registration no. 118251W), Nagpur as the Statutory Auditors of the Company to hold office from the conclusion of this Annual General Meeting (AGM) until the conclusion of the 78th (Seventy Eight) AGM of the Company to be held in the year 2025 (Subject to ratification by the members at every AGM).

The Company has received consent and written confirmation M/s. BPSD & Associates, Chartered Accountant that their appointment, if made, would be in conformity with limit specified in the said section.

Auditor express following opinion on the financial results during the year under review:

a) The Company has invested Rs. 15.52 crores in a partnership firm. The financial statements of the said partnership firm for the year ended March 31, 2020 were not available; hence the impact on the profit/ (loss) and corresponding impact on the carrying amount of investment is not ascertainable.

b) The Company has not performed impairment testing with respect to the investment in a partnership firm as required by Indian Accounting Standard (Ind AS 36) 'Impairment of Assets'; hence the impact on the carrying amount of investment is not ascertainable.

c) Balances of trade receivables, trade payables, loans and advances given/ taken are subject to confirmations, reconciliations and consequent adjustments.

#### **Material Uncertainty related to Going Concern**

We draw attention to Note 8 in the standalone financial results that the Company has incurred net loss during the year and the current liabilities have exceeded the current assets. Further, the Company has defaulted in repayment of principal dues and interest payable to banks. These events indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

#### **Emphasis of Matter**

We draw attention to Note 9 in the standalone financial results that the Company has defaulted in repayment of principal dues and interest payable to banks. The Company has provided interest liability based on last available sanction letter on the principal outstanding and is actively in discussion with the lenders for debt restructuring. Pending the final outcome of the restructuring with the bankers, no further adjustment have been made in the standalone financial results in respect of the principal amount of loan and interest provided thereon. Our opinion is not qualified in respect of this matter.

The observations made in the Auditor's Report are dealt with separately in the Notes to the Statement of Profit and Loss and the Balance Sheet in Note No. 29 to 38 of the Accounts. These are self-explanatory and do not call for any further comments.

## **21. COST AUDITORS**

## **GLOBAL ECONOMY**

Although slowdown in the manufacturing sector and trade tensions between the US and China were among the many factors that softened the economic outlook for 2019, the year did begin on a firm footing. The projected global economic growth, albeit downgraded, was 2.9%. Despite the economic and financial headwinds, growth in developing Asia was projected to remain a robust 5.5% during 2019 (Asian Development Outlook, Update, September 2019). However, in 2019-20, the Indian economy grew by 4.2% against 6.1% expansion in 2018-19 whereas China's growth was 6.1% in 2019 vs. 6.7% in 2018. Growth among advanced economies was forecast to drop to 2% during the year although growth in Sub-Saharan Africa was projected to accelerate to 3.1% (Source: World Economic Outlook, International Monetary Fund). However, due to the COVID-19 pandemic, the International Monetary Fund has projected a sharp contraction of the global economy to a status much worse than what resulted from the 2008-09 financial crisis.

## **INDIAN ECONOMY**

India continues to be one of the fastest growing emerging economies in the world. A slowdown in the manufacturing and construction sector has lately affected GDP growth – slightly below 5% in the current fiscal. An impending revival in demand, positive consumption pattern and rising disposable income, makes India the most sought after investment destinations. Already the fifth largest economy in the world, India is supposed to take its place among the world's top three economic powers in the next 10-15 years. The Covid-19 pandemic has undoubtedly affected India, but with the right economic stimulus and the gradual opening up of the lockdown the situation can be expected to improve. Inter-state movement of goods is gradually picking up and retail financial transactions are showing a healthy trend..

## **GLOBAL TEXTILE**

One of the largest providers of employment after agriculture, the global textile and apparel industry is dynamic and ever-evolving. It has undergone enormous changes over the years, witnessing multiple shifts in consumption and production patterns, as also significant changes in geographies and manufacturing, given its dependence on the availability of cheap labour.

Textile and Apparel trade is predicted to grow at a CAGR of 6.4% during the period 2020-29. Apparel trade is likely to grow at a CAGR of 5.5% and textiles at a CAGR of 7% during the period. Rising disposable income, population, and rapid urbanisation in the emerging economies such as India, China, and Mexico are believed to be the key drivers of this market growth.

The US and EU countries are the major consumers of textiles and they dominate the Apparel Industry. But over the years, a major part of the industry has moved away from the developed world towards China, South and South- East Asia, because of the abundance of raw materials and cheap labour. But more interestingly, the emerging markets led by countries such as India, China, Russia and Brazil are becoming consumption markets. India and China, both of which have a strong textile manufacturing base, are emerging as both sourcing and consuming nations.

Presently, China holds the largest share in textile and apparel global trade, aided by its vertically integrated supply chain from production of fibre to the weaving of fabric and garmenting. The textile industry in China has the capability to manufacture all categories of products and provides an entire ecosystem that offers complete service to brands and retailers. But increasing labour and energy costs are eroding China's competitive advantage to some extent. It is seeing a slowdown in exports. The global apparel manufacturers are finding Bangladesh, Vietnam and India equally attractive destinations.

## **INDIAN TEXTILE INDUSTRY**

India's textiles industry goes back several centuries and is among the oldest industries in the country. It accounts for 14% of the industry output and is one of the largest contributors to the economy, accounting for ~2% of the GDP. After agriculture, it is the second largest generator of income, employing close to 40 million people, and contributing 10% to the country's manufacturing, owing to its labour-intensive nature. The industry is vertically integrated with almost all sub-sectors and is thus integral to the economy.

India is the second largest producer and exporter of textiles after China and fourth largest producer and exporter of apparel after China, Bangladesh and Vietnam. The Textiles and Apparel Industry constitutes ~11% of the total exports of the country.

However, one factor affecting India's textile trade is currency fluctuation that remains a challenge for the industry. Exports have been a core feature of India's textile sector. Indian textiles and apparel exports were estimated at \$35.5 billion in 2019 and is expected to grow at a CAGR of 11% over the next decade to reach \$100 billion by 2029. Exports of both man-made textile and readymade garments have seen a major boost.

A major factor behind the robustness of India's textile industry is its strong production base with a wide range of fibres and yarns. India is among the top producers of jute and silk, and beyond its natural fibres such as cotton, jute, silk and wool; and synthetic, its manmade fibres such as polyester, viscose, nylon and acrylic have also created a niche for themselves in the market.

## **INDIAN RETAIL SECTOR**

Its retail industry growth is predominantly supported by expanding consumption patterns, rising income levels and improved lifestyle choices. With a dynamic demographic shift powered by young consumers, the demand is expected to remain positive. Moreover, the growing penetration of mobile and internet across the interiors of India has led to a significant rise in e-commerce shopping.

## **Opportunities and Challenges**

The future for the Indian textile industry looks promising, buoyed by strong domestic consumption. Overall, the government has been

supportive in encouraging textile industry in India. Many incentives and schemes have been announced in the Union Budget to promote the sector. Further, introduction of GST is seen as a positive step in the long run. With the right government policies, we believe that the Indian Textile Industry is well poised to benefit from the large opportunity offered in the domestic and export market.

However, there are several challenges ahead for the Textile industry for enhancing its competitive strength and global positioning in terms of inflexible labour laws, poor infrastructure and competition from other low cost countries which will have to be addressed to sustain the growth momentum of the industry.

### STRENGTHS OF THE TEXTILE INDUSTRY

The following are a few strengths of the Indian Textile Industry:

- An Independent and self-reliant industry;
- Large and potential domestic and international market;
- Abundant Raw Material availability that helps industry to control costs and reduces the lead-time across the operations;
- Availability of skilled manpower provides competitive advantage to the industry;
- Availability of large varieties of cotton fiber and has a fast growing synthetic fiber industry;
- Promising export potential.

### WEAKNESSES OF THE TEXTILE INDUSTRY

The following are a few drawbacks of the textile industry, which it has to overcome.

- The Industry is a highly fragmented Industry.
- It is highly dependent on Cotton.
- There is lower productivity in various segments.
- There is a declining Mill Segment.
- Lack of Technological Development that affect the productivity and other activities in whole value chain.
- Infrastructural Bottlenecks and inefficiencies such as, transaction time at ports and transportation time.
- Unfavorable labour laws.
- Lack of trade membership, which restricts us to tap other potential markets.

### SEGMENTWISE PERFORMANCE:

The Company has only one business segment i.e. “Textiles”.

### INTERNAL CONTROL SYSTEM AND ADEQUACY:

The Company has a proper and adequate Internal Control System to ensure that its assets are safeguarded and protected against unauthorized use and disposition and all the transactions are properly recorded and reported. The Company also has a system of management reviews to ensure compliance with the prescribed procedures and authority levels.

Pursuant to section 134(5)(e) of the Companies Act, 2013, The Company has proper and adequate Internal Control and Internal Financial Control System, same is reviewed by Company's Internal Auditor together with Statutory Auditors, the Report by auditor on the company's Internal Financial Control System forms a part of Independent Auditors Report.

### MATERIAL DEVELOPMENTS IN HUMAN RESOURCES/INDUSTRIAL RELATIONS FRONT

Employees are the company's most valuable resources. The company continues to create a favorable environment at work place. ## INDEPENDENT AUDITOR'S REPORT

### To the Members of Mohota Industries Limited

### Report on the Audit of the Standalone Financial Statements

#### Qualified Opinion

We have audited the accompanying standalone financial statements of Mohota Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the basis for qualified opinion paragraph of our report, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, the Loss (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

#### Basis for Qualified Opinion

- a) The Company has invested Rs. 15.52 crores in a partnership firm. The financial statements of the said partnership firm for the year ended March 31, 2020 were not available; hence the impact on the profit/ (loss) and corresponding impact on the carrying amount of investment is not ascertainable.
- b) The Company has not performed impairment testing with respect to the investment in a partnership firm as required by Indian Accounting Standard (Ind AS 36) 'Impairment of assets'; hence the impact on the carrying amount of investment is not ascertainable.
- c) Balances of trade receivables, trade payables, loans and advances given/ taken are subject to confirmations, reconciliations and consequent adjustments.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

#### Material Uncertainty related to Going Concern

We draw attention to Note -- in the standalone financial statements that the Company has incurred net loss during the year and the current liabilities have exceeded the current assets. Further, the Company has defaulted in repayment of principal dues and interest payable to banks. These events indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

#### Emphasis of Matter

We draw attention to Note -- in the standalone financial results that the Company has defaulted in repayment of principal dues and interest payable to banks. The Company has provided interest liability based on last available sanction letter on the principal outstanding and is actively in discussion with the lenders for debt restructuring. Pending the final outcome of the restructuring with the bankers, no further adjustment have been made in the standalone financial results in respect of the principal amount of loan and interest provided thereon. Our opinion is not qualified in respect of this matter.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

## **I. Provisions for Contingencies and Litigations and disclosure of Contingent liabilities**

### **Description of Key Audit Matter:**

At March 31, 2020, the Company held provisions in respect of Maharashtra Municipal Tax and has disclosed total contingent liabilities of Rs 247.73\_ lakhs. These provisions are based on judgements and accounting estimates made by management in determining the likelihood and magnitude of claims. Accordingly, unexpected adverse outcomes could significantly impact the Company's reported loss and balance sheet position.

Refer Note --- of financial statements and accounting policies for contingent liabilities, provisions, and related disclosures.

### **Our response:**

- We evaluated the design and tested the operating effectiveness of controls in respect of the determination of the provisions. We determined that the operation of the controls provided us with evidence over the completeness, accuracy and valuation of the provisions.
- We read the summary of litigation matters provided by management and held discussions with the management and their legal counsels. We requested legal letters from some of the Company's external legal advisors with respect to the matters included in the aforesaid disclosures. Where appropriate, we examined correspondence connected with the cases.
- For litigation provisions, we tested the calculation of the provisions, assessed the assumptions against third party data, where available and assessed the estimates against historical trends.
- We considered management's judgements on the level of provisioning and disclosures in respect of the aforesaid matters, which we considered to be appropriate.

### **Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(l) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:  
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its director during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. (refer note --)
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - iii. There are no amounts required to be transferred to the Investor Education and Protection Fund by the Company.

**Annexure - A to the Auditors' Report**

(referred to in paragraph 1 under 'Report on Other Legal and regulatory requirements' section of our report to the members of the Company of even date)

The Annexure referred to in Independent Auditors' Report to the members of the Company on the financial statements for the year ended 31 March, 2020, we report that:

- i.
  - a) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of Fixed Assets.
  - b) According to the information and explanations given to us, the Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of three years. In our opinion, the periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, certain fixed assets were physically verified during the year and no material discrepancies were observed on such verification.
  - c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- ii. The Management has conducted physical verification of the inventories of stores and spares once at the year end, which in our opinion is reasonable. No material discrepancies were noted on such physical verification.
- iii. According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to Companies, Firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act. Accordingly, paragraph 3(iii) (a), (b) and (c) of the Order are not applicable to the Company.
- iv. According to the information and explanations given to us, the Company has not given any loans, or made any investments, or provided any guarantee, or security as specified under Section 185 and 186 of the Companies Act, 2013. Accordingly, paragraph 3(iv) of the Order is not applicable.
- v. According to information and explanations given to us, the Company has not accepted any deposits from the public in accordance with the provisions of section 73 to 76 or any relevant provisions of the Act and rules framed thereunder.
- vi. According to the information and explanations given to us, we have broadly reviewed the books of account maintained by the company pursuant to the Rules made by the Central Government for the maintenance of cost records under section 148 of the Act, related to the manufacture of yarn & fabrics, and are of the opinion that prima-facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- vii.
  - a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, income-tax, employees' state insurance, duty of excise sales tax, value added tax, duty of customs, service tax, Goods and service tax, cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities.

## **Annexure - B to the Auditors' Report**

(Referred to in paragraph 2(g) under 'Report on Other Legal and regulatory requirements' section of our report to the members of the Company of even date)

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Mohota Industries Limited (formerly known as The Rai Saheb Rekhchand Mohota Spg. & Wvg. Mills Limited) ("the Company") as of 31 March, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's Internal Financial Controls over Financial Reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an Audit of Internal Financial Controls, both applicable to an Audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain Reasonable Assurance about whether adequate Internal Financial Controls over Financial Reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Controls system over Financial Reporting and their operating effectiveness. Our audit of Internal Financial Controls over Financial Reporting included obtaining an understanding of Internal Financial Controls over Financial Reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of Internal Control based on the assessed risk. The procedures elected depend on the Auditor's Judgment, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's Internal Financial Controls system over Financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that;

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**(i) Defined benefit plan - Gratuity**

The Company provides for gratuity for employees as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is an unfunded plan.

The amounts recognised in the balance sheet and the movements in the net defined benefit obligation over the year are as follows:

	As at 31 <sup>st</sup> March 2020	As at 31 <sup>st</sup> March 2019
<b>Present value of obligation as at the beginning of the year</b>	<b>607.18</b>	<b>530.12</b>

<b>Total amount recognised in other comprehensive income</b>	<b>(1.88)</b>	<b>76.25</b>
Benefit payments	(93.84)	(72.24)
<b>Present value of obligation as at the end of the year</b>	<b>597.91</b>	<b>607.18</b>

**Significant estimates: actuarial assumptions and sensitivity**

The significant actuarial assumptions were as follows:

	As at 31 <sup>st</sup> March 2020	As at 31 <sup>st</sup> March 2019
Expected return on Plan Assets	7.47%	7.56%
Rate of Discounting	7.47%	7.56%
Rate of Salary Increase	4.50%	4.00%
Rate of Employee Turnover	2.50%	2.00%
Mortality Rate During Employment	Indian Assured Lives Mortality (2006-08)	Indian Assured Lives Mortality (2006-08)
Mortality Rate After Employment	N.A.	N.A.

Assumptions regarding future mortality rates are based on Indian Assured Lives Mortality (2006-08) Ultimate as published by Insurance Regulatory and Development Authority (IRDA).

The actuarial valuation is carried out yearly by an independent actuary. The discount rate used for determining the present value of obligation under the defined benefit plan is determined by reference to market yields at the end of the reporting period on Indian Government Bonds. The currency and the term of the government bonds is consistent with the currency and term of the defined benefit obligation.

**The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:**

	<b>Year ended 31<sup>st</sup> March 2020</b>
Discount rate (1% increase)	(30.05)
Discount rate (1% decrease)	33.14
Future salary growth (1% increase)	33.48
Future salary growth (1% decrease)	(30.90)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

**(ii) Defined contribution plan**

The Company also has certain defined contribution plan. Contributions are made to provident fund and employee state insurance scheme for employees at the specified rate as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is ₹ 3,54,01,946/- (31 March 2019: ₹2,88,76,900/-).

### 37. Financial Instrument - Accounting classifications and fair values measurements

The fair value of the assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in forced or liquidation sale.

The following methods and assumptions were used to estimate the fair value:

1. Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial instruments approximate their carrying amounts largely due to the short term maturities of these instruments.
2. Financial instruments with fixed and variable interest rates are evaluated by the company based on parameters such as interest rate and individual credit worthiness of the counter party. Based on this evaluation, allowance are taken to the account for the expected losses of these receivables.

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 : Quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2 : Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels of in the fair value hierarchy :

As at 31 March 2020

The Company has not disclosed the fair values for financial instruments such as trade receivables, cash and cash equivalents, other bank balances, loans, borrowings, trade payable, other financial assets and financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

## Financial risk management objectives and policies

The Company has exposure to the following risks arising from financial instruments :

- Credit risk
- Liquidity risk
- Market risk
- Interest risk

## Risk management framework

The Company's management has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company conduct yearly risk assessment activities to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company has a system in place to ensure risk identification and ongoing periodic risk assessment is carried out. The Board of directors periodically monitors the risk assessment.

### i. Credit risk

Credit risk is the risk that counterparty will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables and deposits to landlords) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The company generally doesn't have collateral.

The carrying amount of following financial assets represents the maximum credit exposure:

( ₹ in Lakhs)

Particulars	As at 31 March 2020	As at 31 March 2019
Trade receivables	5,903.61	3,855.57
Cash and cash equivalents	20.12	103.57
Loans	(1.82)	0.92
Other financial assets	39.99	39.99

### Trade and other receivables

Customer credit risk is managed as per Company's established policy, procedures and control relating to customer credit risk management. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

An impairment analysis is performed for all major customers at each reporting date on an individual basis. In addition, a large number of minor receivables are grouped into homogenous group and assessed for impairment collectively. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in note 8. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several industries and operate in largely independent markets.

### Bank balances and deposits with banks

Credit risk from balances with banks is managed by the company's finance department as per Company's policy. Investment of surplus funds are made only with approved counter parties and within credit limits assigned to each counter party. Counter party credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Company's Board of directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counter party's potential failure to make payments.

### ii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

### Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and un-discounted, and include estimated interest payments and exclude the impact of netting agreements.

Contractual Cash Flows						(₹ in Lakhs)
As at 31 March 2020	Carrying amount	Total	Upto 1 year	1-3 years	3-5years	More than 5 years
Borrowings	6,208.81	6,208.81	6,208.81	-	-	-
Trade and other payables	3,162.01	3,162.01	3,162.01	-	-	-
Other financial liabilities	278.08	278.08	278.08	-	-	-

Contractual Cash Flows						
March 31, 2019	Carrying amount	Total	Upto 1 year	1-3 years	3-5years	More than 5 years
Borrowings	5,221.26	5,221.26	5,221.26	-	-	-
Trade and other payables	2,708.34	2,708.34	2,708.34	-	-	-
Other financial liabilities	367.38	367.38	367.38	-	-	-

### iii. Market risk

Market risk is the risk of loss of future earnings, fair value or future cash flows arising out of change in the price of a financial instrument. These include change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowing.

The company manages market risk through a risk management committee engaged in, inter alia, evaluation and identification of risk factors with the object of governing/mitigation them accordingly to company's objectives and declared policies in specific context of impact thereof on various segments of financial instruments.

### Currency risk

The Company is exposed to currency risk on account of its borrowings and other payables in foreign currency. The functional currency of the Company is Indian Rupee. The Company uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

### Exposure to currency risk

"The summary quantitative data about the Company's exposure to currency risk as reported to the management is as follows:"

(in Lakhs)

Particulars	March 31, 2020 USD	March 31, 2019 USD
Export receivables	0.00	0.00
Packing Credit Loan	0.00	3.16
<b>Total</b>	<b>0.00</b>	<b>3.16</b>

The Company has used forward exchange contracts to hedge the currency exposure and therefore, not exposed to significant currency risk at the respective reporting dates.

### Sensitivity analysis

1% increase or decrease in foreign exchange rates will have the following impact on profit before tax

Particulars	2019-20		2018-19	
	1% increase	1% decrease	1% increase	1% decrease
USD	0.00	(0.00)	0.03	(0.06)
<b>Increase/(decrease) in Profit or Loss</b>	<b>0.00</b>	<b>(0.00)</b>	<b>0.03</b>	<b>(0.06)</b>

**iv. Interest risk**

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments was as follows

Particulars	As at 31 March 2020	As at 31 March 2019
<b>Fixed rate instruments</b>		
<b>Financial assets</b>		
Deposit with banks	211.17	100.80
	<b>211.17</b>	<b>100.80</b>
<b>Variable-rate instruments</b>		
<b>Financial liabilities</b>		
Overdraft against fixed deposit	7,473.03	6,873.15
	<b>7,473.03</b>	<b>6,873.15</b>

**Cash flow sensitivity analysis for variable-rate instruments**

An increase of 100 basis points in interest rates at the reporting date would have decreased gain as at year end by the amounts shown below. This analysis assumes that all other variables remain constant.

( ₹ in Lakhs)

Particulars	Profit or loss
<b>31 March 2020</b>	
Variable-rate instruments	74.73
<b>Cash flow sensitivity</b>	<b>74.73</b>
<b>31 March 2019</b>	
Variable-rate instruments	68.73
<b>Cash flow sensitivity</b>	<b>68.73</b>

A decrease of 100 basis points in the interest rates at the reporting date would have had equal but opposite effect on the amounts shown above, on the basis that all other variable remain constant.

## Notes to the financial statements for the year ended 31 March 2020

### 1. Reporting entity

Mohota Industries Limited (the 'Company') is a Company domiciled in India, with its registered office situated at 409, 4th Floor, 174-Gold Mohur CHS Ltd., Shamaldas Gandhi Marg, Kalbadevi, Mumbai - 400 002. The equity shares of the Company are listed on the Bombay Stock Exchange Limited (BSE) and National Stock Exchange of India Limited (NSE) in India. The Company is primarily involved in Textile manufacturing. The manufacturing facilities of the Company is located at Hinganghat and Burkoni. Now the Company is running with Job Work only at its Hinganghat.

### 1 Basis of preparation

#### a. Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements were authorised for issue by the Company's Board of Directors on 28th August, 2020. Details of the Company's accounting policies are included in Note 2.

#### b. Functional and presentation currency

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All amounts have been rounded off to two decimal places to the nearest lakhs, unless otherwise indicated.

#### c. Basis of Measurement

The financial statements have been prepared on the historical cost basis, except for certain financial assets and liabilities and defined benefit plan assets/liabilities measured at fair value.

#### d. Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

#### Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

#### Note 34 – lease; whether an arrangement contains a lease and;

#### Note 34 – lease classification

#### Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31st March 2020 is included in the following notes:

- Note 3 – useful life of Property, plant and equipment
- Note 31 – employee benefit plans
- Note 29 – Income taxes
- Note 35 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;

#### e. Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as

follows.

- Level1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level2: inputs other than quoted prices included in Level1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall in to different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

## 2. Significant accounting policies

### a. Property, plant and equipment

#### i. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipments recognized in profit or loss.

#### ii. Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

#### iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is recognized in the statement of profit and loss.

Asset	Management estimate useful life	Useful life as per Schedule II of the Companies Act, 2013
Building	30 Years	30 Years
Plant and machinery (including moulds)	15 years	15 years
Office equipments	5 years	5 years
Furniture and fixtures	10 years	10 years
Computers	3 years	3 years
Computer server	3 years	6 years
Vehicles- Motor car	8 years	8 years
Electric fittings	10 years	10 years

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on internal assessment and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed off).

**b. Intangible assets**

**i. Acquired intangible**

Intangible assets comprise purchased technical know-how are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortization and any accumulated impairment losses.

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

**iii. Amortisation**

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method and is included in depreciation and amortisation in Statement of Profit and Loss.

Intangible assets are amortised over a period of 10 years for technical know-how and 3 years for others. Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

**c. Inventories**

Inventories are valued at the lower of cost and net realizable value. Cost includes purchase price, duties, transport & handling costs and other costs directly attributable to the acquisition and bringing the inventories to their present location and condition.

The basis of determination of cost remains as follows:

- a) Raw material, packing material: Moving weighted average cost.
- b) Stores & Spares: Moving weighted average cost.
- c) Work-in-progress: Cost of input plus overhead up to the stage of completion.
- d) Finished Goods: Cost of input plus appropriate overhead.

**d. Impairment**

Impairment of non-financial assets

- a) An asset is deemed impairable when recoverable value is less than its carrying cost and the difference between the two represents provisioning exigency.
- b) Recoverable value is the higher of the 'Value in Use' and fair value as reduced by cost of disposal.
- c) Test of impairment of PPE, investment in subsidiaries / associates / joint venture and goodwill are undertaken under Cash Generating Unit (CGU) concept. For Intangible Assets and Investment Properties it is undertaken in asset specific context.
- d) Test of impairment of assets are generally undertaken based on indication of impairment, if any, from external and internal sources of information outlined in para 12 of Ind AS-36.

Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

**e. Employee benefits**

**i. Short-term employee benefits**

Short-term employee benefit obligations are measured on an un-discounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii. Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund and Employee State Insurance scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

**iii. Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses are recognized in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in

profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

**iv. Other long-term employee benefits**

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Re-measurements gains or losses are recognized in profit or loss in the period in which they arise.

**f. Provisions and contingent liabilities**

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assumptions of the time value of money and the risks specific to the liability. The unwinding of discount is recognized as finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

A provision for onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote.

**g. Leases**

Assets held under leases that do not transfer to the Company substantially all the risks and rewards of ownership (i.e. operating leases) are not recognized in the Company's Balance Sheet.

Payments made under operating leases are generally recognized in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

**As a lessee**

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership been classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

**As a lessor**

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflation.

**h. Borrowing costs**

Borrowing costs directly attributable to the acquisition or construction of those property, plant and equipment which necessarily takes a substantial period of time to get ready for their intended use are capitalised. All other borrowing costs are expensed in the period in which they incur in the statement of profit and loss.

**i. Revenue**

The Company has adopted Ind AS 115 - 'Revenue from contracts with customers' with effect from April 01, 2018. Revenue from the sale of goods in the course of ordinary activities is recognised at the 'transaction price' when the goods are 'transferred' to the

customer. The 'transaction price' is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods to a customer, excluding amounts collected on behalf of third parties (for example, goods and service tax). The consideration promised in a contract with a customer may include fixed amounts, variable amounts, or both. The goods are considered as 'transferred' when the customer obtains control of those goods.

Revenue from services is recognised in the accounting period in which service are rendered. For fixed price contracts, revenue is recognised based on actual services provided to the end of the reporting period as a proportion of the total services to be provided.

Dividend income is recognised when the right to receive payment is established and known.

There is no impact on account of applying the Ind AS 115 Revenue from contract with customers instead of erstwhile Ind AS 18 Revenue on the financials Statements of the Company for the year ended and as at March 31, 2020.

**j. Foreign currency transactions**

Transactions in foreign currencies are initially recorded by the company at their functional currency spot rates at the date of the transaction.

Monetary assets and liabilities denominated in foreign currency are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rates are recognised as income or expenses in the period in which they arise. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates at the date of transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

**k. Recognition of interest income**

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

**l. Government grant**

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate. When the grant relates to an asset, it is treated as deferred income and recognised in the statement of profit and loss on a systematic basis over the useful life of the asset.

**m. Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**ii. Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets recognised or unrecognised are reviewed at each reporting date and are recognised / reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Company offsets, the current tax assets and liabilities (on a year on year basis) and deferred tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis

**n. Earnings per share**

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding after adjusting for the effects of all potential dilutive ordinary shares.

**o. Cash flow statement**

Cash Flows are reported using indirect method, where by profit /loss before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. Cash flow for the year are classified by operating, investing and financing activities.

**p. Financial instruments**

**i. Recognition and initial measurement**

The Company initially recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

**ii. Classification and subsequent measurement**

**Financial assets**

**Financial assets carried at amortised cost**

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**Financial assets at fair value through profit or loss**

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

**Financial liabilities**

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

**iii. Derecognition**

**Financial assets**

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial assets are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

**Impairment of financial assets**

The company assesses impairment based on expected credit losses (ECL) model at an amount equal to:

- 12 months expected credit losses, or
- Lifetime expected credit losses

depending upon whether there has been a significant increase in credit risk since initial recognition.

However, for trade receivables, the company does not track the changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

**Financial liabilities**

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and a new financial liability with modified terms is recognised in the statement of profit and loss.

#### iv. Off setting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

#### q. Recent accounting pronouncements

- Ind AS 116 Leases: Ministry of Corporate Affairs has notified Ind AS 116, Leases on March 30, 2019. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit & Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The adoption of this Ind AS will not have any material impact on the Financials.

- Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments: On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019.

The adoption of Ind AS 12 Appendix C would not have any material impact on the financial statements.

- Amendment to Ind AS 12 – Income taxes: On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment on the standalone financial statements.
- Amendment to Ind AS 19 – plan amendment, curtailment or settlement: The Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', on 30 March, 2019 in connection with accounting for plan amendments, curtailments and settlements. The amendments require an entity:
  - a) to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and
  - b) to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company does not have any material impact on account of this amendment.
