6. IMPACT OF COVID-19 PANDEMIC

Covid- 19 first wave started showing its impact from March'2020, which took away the growth of first two months of 2020. The first two months raised the hope both in services and manufacturing sector, but COVID-19 pandemic impacted Indian economy negatively. A nationwide lockdown was declared on 24 March 2020 & extended till June 2020. All socio-economic activities came to a standstill.

The Q1/2020 has very badly impacted the production, demand supply and consumption in all the major economies. All the sectors were badly hit and faced supply and logistics problem. Indian steel production and imports were declined in the month of April and May' 2020. Government announced the financial stimulus of Rs. 20 trillion which has mitigated the economic fall out to some extent due to pandemic.

RHIM has responded well to the challenges presented by COVID-19 in Q1 2020. The Company maintained production capabilities and supply chains to support customers, whilst above all protecting health of employees, customers and business partners. The Company reacted quickly to reduced customer demand by successfully managing costs and cash in the short term. Whilst revenues and profits are down materially in Q1/2020, despite RHIM has maintained good operating margins and positive operating cash flow. The Company took number of key initiatives to further improve, for the longer term, business processes and overall cost effectiveness. This has helped us to regain the profitability in Q2/2020 and beyond.

COVID second wave has affected most part of the India and cases went upto 400 k plus in May'2021 end. In June'2021 there is some respite and cases came down to 70 K per day. Q1/2021 steel production was affected due to manpower issues as well as restriction imposed by the Government on mobility of vehicles. Now the cases are on down trend, we are expecting less or no restrictions in Q2/2021. The long-term economic impact of COVID-19 remains uncertain. However, the business is taking appropriate actions to withstand an extended period of uncertainty. With significant financial strength RHIM is well positioned to take advantage of growth opportunities when markets improve and will exit this period of disruption with positive strategic momentum.

7. MEASURES TAKEN BY COMPANY DURING COVID-19 LOCKDOWN

The Company has taken appropriate measures to ensure safety and health of all its employees and ensured due compliance with various directives issued by Central, State and Municipal authorities. The Company has adopted Work from home for its office-based employees effective mid of March'2020 to minimize the risk. Consequent to the lock-down orders issued by Central and State Governments, the operations have been disrupted from 24 March 2020 at both the Plants situated at Bhiwadi, Rajasthan, Cuttack, Orrisa, Vizag and across different sites, facilities and distribution centres, as per the directives applicable to them. To meet the customers requirement and uninterrupted supplies, the Company started dispatches of the finished goods from 20 April 2020 and after obtaining requisite permission from concerned district administration, the Company has resumed their limited operation from 8 May 2020 at all Plants in compliance with all the safety guidelines/ directives issued by the Central/ State Governments and local administration to safeguard the employees, labourers and all other stakeholders to prevent the spread of COVID-19. The Company has promoted vaccination drive for its employees across the India and distributed the Covid-19 preventive kits to the local communities. The Company has tied up with the local hospitals to help the community in this pandemic. Company has taken lot of actions to protect the health of employees and for the public through their CSR initiatives.

8. MANAGEMENT DISCUSSION AND ANALYSIS

RHIM is in the business of manufacturing and marketing special, basic and non- basic refractory products, systems and services to the steel industry in India and Globally. The Company is market leader for refractories in India and has many global customers for its international quality products. The Company's produces nearly 1,30,000 tons of refractory per annum including customized products and system solutions. Other than this RHIM imports significant value of refractory products which are used for full line contracts in steel industries.

The refractory products are mainly used in high temperature manufacturing processes in iron and steel industry, metal smelters, cement, glass industry and for other industrial products. Demand for refractory is primarily dependent on the consumption of steel, which accounts for about 75% of the total value and the remaining is used for glass, cement, non-ferrous, petrochemicals etc.

Products of RHIM are manufactured at its state-of-the-art manufacturing facility at Bhiwadi, in Rajasthan & Tangi in Orissa and in Vishakhapatnam. The Company has ongoing programs for improving efficiency and effectiveness of its manufacturing processes, raw material cost, energy conservation, control over working capital and to produce special refractories at low cost so as to add maximum value to the customers. Energy efficient installations have been made at the factories. Best in class safety measures and processes have been put in place and improved upon at the factories and all working sites.

The products of the Company are of Global standards in quality and highly cost competitive, which makes it attractive for the customers worldwide.

Industry overview

Review of Global Steel Industry and outlook

As per World Steel Association (WSA), Global crude steel production reached 1,864.0 Million Tonnes (MT) for the year 2020, down by 0.9% compared to 2019 with maximum share of China almost half of total world's production. Forecasts for the global steel demand to grow by 5.8% in the year 2021 primarily supported by a robust consumption growth of 9.1% in China and by substantial fiscal stimulus measures in most of the advanced economies. Asia produced 1,374.9 MT of crude steel in the year 2020, an increase of 1.5% compared to 2019. China's crude steel production in the year 2020 reached 1,053 MT, up by 5.2% in the year 2019. China's share of global crude steel production increased from 53.3% in the year 2019 to 56.5% in the year 2020. Except China and few countries, the growth of steel production in all major economies remain negative for the year 2020. Economic recovery was uneven across countries depending on the success to contain the spread of virus and financial stimulus announced.

India's Steel Industry – Review and Outlook

Our Country is hit badly with COVID 19 effect and thus GDP is negatively affected by 24%. Government has taken initiative to promote "Make in India" concept wherein indigenous production will be given preference (especially in procurement of Govt. controlled SAIL group of plants)

The economy has been recovering strongly since August 2020, much sharper than expected, with the resumption of government projects and pent consumption demand. However, the devastating second wave and renewed rounds of localized lockdown have slowed down the industrial activities and raised the level of business uncertainty.

India industry overview FY 2021

India's crude steel production dropped 6% to 102.4 MT in FY 2021 due to pandemic led countrywide shutdown and muted economic activity in the first quarter. Finished steel production also slumped 8% to 94.6 MT in FY2021. Several large integrated plants diverted their production to exports in first quarter of FY2021 due to muted domestic demand. Finished steel exports grew by 29% to 10.7 MT in FY2021 as 28% of the exports were diverted to China. Finished steel imports dropped 30% to 4.7 MT in FY2021. Finished steel exports reached the peak in June'2020 after which the production was diverted back to domestic markets on steep recovery in demand. Average capacity utilization levels across the country reached 75% of their last year levels by end of July'2020. Thereafter domestic demand remained strong for rest of year due to government's financial stimulus, pent-up demand for automobiles, festive season, and easing liquidity in the country. Effectively, finished steel consumption declined 7% to 93.4 MT in FY2021. India's HRC & Rebar prices reached their decade high in the end of fiscal year due to strong domestic demand, iron ore cost push and elevated global prices.

With large capacity cuts in China to reduce pollution and lower domestic steel production (by means of removal of import duties and export VAT rebates), global market ex-china is expected to remain in deficit. India is expected to benefit from this phenomenon in the short term. Domestic production is expected to be diverted to exports in case of any slowdown in domestic demand due to outbreak of second wave of pandemic. The April'2021 Short range outlook published by World Steel Association expects Indian steel demand to grow by 19.8% in Current Year 2021; unless the 2nd wave of pandemic plays a major spoil sport. The Indian auto industry is expected to record strong growth in 2021-22, post recovering from effects of COVID-19 pandemic. Electric vehicles, especially two-wheelers, are likely to witness positive sales in 2021-22. Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

The COVID-19 crisis is linked with consumers demand, supply, logistics, financials and human resources. The logistic work has been impacted globally which has disrupted the movement of raw material and finished goods, which contributes to the growth challenges across sectors and hence will impact the steel sector negatively.

Indian Refractory industry

With a production capacity of 1.5 MT the India Refractory Industry is an integral part of the Country's steel eco system as well as other thermally intensive industries such as Cement and Glass. Refractories are used as vital input materials in steel production process, without which the commodity cannot be made.

The nationwide lockdown has disrupted the production of all refractory manufacturers in year 2020. Despite the disruption and curtailments in steel production, there is demand of refractory material, with growth in Q2/2020. Indian refractory manufacturers are dependent on China for key raw materials like Bauxite and Magnesite. Clogged logistical network and lack of transportation facilities are taking toll on timely delivery of raw material. Increased freight and raw material cost are starting to be felt in result of refractory industries in the year 2021. Due to non-availability of containers the global supply is erratic. The growth of refractory industry is totally dependent on growth of steel industries in India and globally, which is likely to grow in India in the year 2021 due to good monsoon and Government initiatives, political stability and growth in foreign reserves. Though, it is very difficult to comment on forecast for 2020-2021, even to comment on short term outlook is difficult because of Government's action which are changing the situation on day-to-day basis. With Covid-19 second wave and expected third wave very soon there is lot of uncertainties on overall industry growth.

Benefits of the new structure

Year 2018 has seen the Indian steel market becoming the second largest in the world, further reinforcing the necessity, RHI Magnesita continued emphasis on this geography. The Indian Steel Ministry has set a 300 million tonne per annum steel capacity target by the end of 2030 which bodes well for the future of this industry. The Indian steel industry is undergoing consolidation, which is expected to build up its strength but also to provide a higher market share for industry leaders. As a result of substantial restructuring and consolidation in the India steel industry, demand for higher performance and better-quality solutions has increased – a development which corresponds well to our strengths as a Group and enables us to take advantage of this position, whilst also working to further strengthen our position in the market in terms of cost competitive refractory solutions.

As a combined group in India, RHI Magnesita's business here will be in a strong position to benefit from this consolidation on the basis of the breath of the combined organization as well as its long-standing relationships with the market-leading customers. All the merged Companies are into same and allied business activities.

The new organization structure will form one strong entity to seize growth opportunities and enhance the shareholders' value. It will help in simplification of the corporate structure and consolidation of Indian business. One strong entity will enhance the business and operational synergies, shareholders value and utilization of resources due to pooling of management expertise, technologies and other resource of the companies. This will also create a larger asset base and facilitation of access to better financial resources by optimizing cash flow which contributes to overall growth prospects of the combined company. For the customers the new entity will provide single window for all refractory solution under one umbrella though establishing comprehensive refractory product portfolio. There is also an ongoing exercise to optimize the production footprint in India through maximizing the operational and supply chain excellence. The merger will enhance the shareholder value pursuant to economies of scale and business efficiencies.

Challenges & Opportunities Challenges

The financial year 2020-21 was badly impacted in first half as all the major steel buying industries like energy, auto, machinery, construction showed negative growth during the first half 2020. The demand started growing in second half due to good monsoon, Government fiscal policy and exports. Below are the factors that resulted in challenging times for the industries in terms of growth and margins-

- Volatility in currency is a big concern to keep the margins intact. Rupee depreciation against Dollar and Euro has impacted profitability.
- Non availability of containers and increase in freight and RM cost is biggest concern for refractories in current and in future.
- While steel output prices turned soft, inputs continued to be costlier for domestic production. There are likely to be pressure on the margins in future.
- Raw materials availability from China is in short supply which will have an impact on profitability margin.
- COVID-19 second wave has disrupted supplies, demand, human resource and created uncertainty to Industrial growth for first quarter and third wave is expected soon, therefore market is very uncertain.

Opportunities

The Indian steel industry has a good chance to seize the opportunity as the steel mills are gearing up for an increase in demand from overseas buyers as the pandemic has choked the supplies from China. National Steel Policy 2017 states that India's objective is to increase the per Capita Steel Consumption from 60 Kg. to 160 Kg. by 2030-31, this in turn would have 300 tonne capacity.

Also, to achieve 5 trillion USD economy by fiscal year 2025, India needs to spend 1.4 trillion USD on infrastructure.

The growing steel industry, along with the elevating infrastructure development, is augmenting the demand for refractory materials. These materials exhibit higher-temperature resistance than conventional ones, thereby positively influencing the market growth. The widespread adoption of unshaped refractories for several construction applications is also inflating the global market. Additionally, the high prevalence of recycling refractory materials for steel production is also augmenting the market growth. The growing popularity of refractories in various sectors, such as aerospace, automotive, medical, and electrical, is anticipated to drive the market

Slide Gate Shuttle kilns where oil burners and pipelines have been replaced by gas burners, gas valve train and pipelines. The kiln temperature cycle is controlled by PLC and SCADA. Natural gas used as an alternate fuel which is a cleaner and environment-friendly fuel. Recuperator has been placed in flue line to reuse the waste heat. Overall fuel cost has gone down significantly by this initiative.

B. TECHNOLOGY ABSORPTION, ADAPTATION AND INNOVATION

The Company is constantly trying to provide its customers with products that incorporate latest available technology. Though indigenously available materials and technology are preferred, efforts are being made, wherever possible, to make use of best contemporary technology.

The Company in FY 2021 introduced special type of Mono Block Stoppers and Sub Entry Nozzles, which reduced material consumption as well as improve quality of steel at customer end and created new performance benchmark at our customers end.

The Company used Cleaner fuel (LNG) to replace LDO which reduced emission of SOX, NOX & CO2. The Company also taken an initiative and introduced Dust Collection Systems at the dust generation points.

By using Rainwater Harvesting System at Bhiwadi & Vizag plants, in the FY 2021 the Company recharged 227 kilo liter water and Zero Water Discharge Policy System is also implemented at Bhiwadi plant.

With Recycling Project, the Company reduced the CO2 impact of production while reducing the amount of virgin raw materials required to produce refractory. Innovative solutions also implemented to convert recycled material.

ANNEXURE VII

REPORT ON CORPORATE GOVERNANCE

I. COMPANY'S PHILOSOPHY ON THE CODE OF GOVERNANCE

Corporate Governance for our Company is all about maintaining a valuable relationship and trust with all stakeholders. We consider stakeholders as partners in our success, and we remain committed to maximizing stakeholders' value, be it shareholders, employees, suppliers, customers, investors, communities or policy makers. This approach to value creation emanates from our belief that sound governance system, based on relationship and trust, is integral to creating enduring value for all. We have a defined policy framework for ethical conduct of businesses. We believe that any business conduct can be ethical only when it rests on the six core values of customer value, ownership mindset, respect, integrity, one team and excellence.

Statement on Company's Philosophy on Code of Governance

Corporate governance encompasses a set of systems and practices to ensure that the Company's affairs are being managed in a manner which ensures accountability, transparency and fairness in all transactions in the widest sense. The objective is to meet stakeholders' aspirations and societal expectations. Good governance practices stem from the dynamic culture and positive mindset of the organization. We are committed to meet the aspirations of all our stakeholders.

This is demonstrated in shareholder returns, governance processes and an entrepreneurial performance focused work environment. Additionally, our customers have benefited from high quality products delivered at extremely competitive prices. The essence of Corporate Governance lies in promoting and maintaining integrity, transparency and accountability in the management's higher echelons. The demands of Corporate Governance require professionals to raise their competence and capability levels to meet the expectations in managing the enterprise and its resources effectively with the highest standards of ethics. It has thus become crucial to foster and sustain a culture that integrates all components of good governance by carefully balancing the complex inter-relationship among the Board of Directors, Audit Committee, Finance, Compliance and Assurance teams, Auditors and the Senior Management. Our employee satisfaction is reflected in the stability of our senior management, low attrition across various levels and substantially higher productivity.

At RHIM, we believe that as we move closer towards our aspirations of being a global corporation, our Corporate Governance standards must be globally benchmarked. Therefore, we have institutionalized the right building blocks for future growth. The building blocks will ensure that we achieve our ambition in a prudent and sustainable manner. RHIM not only adheres to the prescribed corporate governance practices as per the listing regulations as prescribed by SEBI, but is also committed to sound Corporate Governance principles and practices. It constantly strives to adopt emerging best practices being followed worldwide. It is our endeavor to achieve higher standards and provide oversight and guidance to the management in strategy implementation, risk management and fulfillment of stated goals and objectives.

We believe, Corporate Governance is not just a destination, but a journey to constantly improve sustainable value creation. It is an upward-moving target that we collectively strive towards achieving. Our multiple initiatives towards maintaining the highest standards of governance are detailed in the following pages.

At RHIM, it is our belief that an enlightened the Board consciously creates a culture of leadership to provide a long-term vision and policy approach to improve the quality of governance. The Board's actions and decisions are aligned with the Company's best interests. It is committed to the goal of sustainably elevating the Company's value creation.

The Company has defined guidelines and an established framework for the meetings of the Board and Board Committees'. These guidelines seek to systematize the decision-making process at the meeting of the Board and Board Committees' in an informed and efficient manner. The Board critically evaluates the Company's strategic direction, management policies and their effectiveness. The agenda for the Board reviews include strategic review from each of the Board Committees', a detailed analysis and review of annual strategic and operating plans and capital allocation and budgets. Additionally, the board reviews related party transactions, possible risks and risk mitigation measures and financial reports from the Chief Financial Officer. Frequent and detailed interaction sets the agenda and provides the strategic road map for the Company's future growth. The Company annually upload BRR to its web site. BRR are available at <https://www.orientrefractories.com>

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1

Businesses should conduct and govern themselves with ethics, transparency and accountability

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs /Others?

Our long-standing reputation for integrity is our most important asset. At RHI Magnesita, every employee, suppliers, contractors and Joint Ventures are responsible and accountable for upholding our high ethical values. In these challenging times, our unwavering commitment to integrity remains steadfast. We do not engage in, nor do we tolerate, corrupt behavior by our employees or suppliers. We employ a multi-faceted approach to prevent corruption. We have clear and unequivocal policies concerning improper payments, facilitation payments, gifts and hospitality, sponsorships and donations, and other areas of risk for public and private corruption.

Our anti-corruption program aims to prevent corrupt behavior and encourage people to report concerns. In 2020 we rolled out a system for Internal Audit, Risk & Compliance teams to monitor employees' gifts, entertainment, and hospitality requests across all regions. We also use a tool to detect excessive gifts and hospitality that could lead to conflicts of interest. Strong due diligence procedures remain in place for the appointment and extension of any contracts with third parties used in sales and promotion roles, which are subject to approval by Internal Audit, Risk & Compliance teams.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management?

During the year, there was no referral made under the Whistle Blower policy of the Company.

Principle 2

Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle.

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

The Company undertakes to assure safety and optimal resource use over the lifecycle of its products. The Company, being a material science & technology-oriented company continuously innovates and strives for optimal resource use over the life cycle of the products it manufactures.

- Hexa rod stopper has been introduced in Market. The material required to produce will be lesser and life will be higher.

- New grade in slide plate has been introduced. Life of the plate is 25 percent more than the previous grade in use.
- Hybrid plug for purging has been introduced. The life of plug is much higher compared the previous design of plug.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

a. Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?

We are Zero Discharge Company, therefore Unit consumption is not appropriate measure.

b. Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Replacement of oil as fuel by CNG by converting more kilns and driers on CNG.

3. Does the company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably?

The Company's integrated operations ensure sustainable usage of the available resources. Joint project opportunities amongst various business units improve efficiencies in sourcing besides resulting in product efficiencies.

Conscious efforts are made to ensure that everyone connected with the Company be it the designers, producers, value chain members, customers and recyclers are made aware of their responsibilities. The Company's efforts through Lean methodologies and Total productive maintenance initiative help in achieving operational efficiencies also resulting in energy conservation and sustainable operations. Usage of materials which are either recycled or capable of recycling assumes top priority.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The Company's global and complex operations does not complement the procurement of goods and services from local and small producers in its location of manufacturing operations. However, the Company interacts with the local & small producers at regular intervals on the business and quality requirements. Assured volumes instils confidence in them to supply quality products by adopting sustainable and safe practices. More local suppliers for metal parts have been developed last year. The Company from time to time provides training and guidance on optimum use of resources, thereby saving cost and time. This has resulted in the small producers manufacturing products which are benchmarks in quality, thereby gaining an edge over the market.

5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%).

Duly recognizing that over-consumption results in unsustainable exploitation of the planet's resources, the business units in the Company are committed to promoting sustainable consumption, including recycling of resources.

The Company has sustainable processes in place to recycle the products and waste, post completion of the manufacturing life cycle.

The Company has an integrated value cycle mapping process. For example: Use of more than 16 % of recycled raw collected from different steel plants.

Principle 3

Businesses should promote the wellbeing of all employees.

Any organization is as good as the people who work for it. The trusting and caring ecosystem allows the Company to nurture a workforce that works passionately in tandem with its core values.

The Company is committed to providing equal opportunities both at the time of recruitment as well as during the course of employment irrespective of caste, creed, gender, race, religion, disability etc. The Company strives to keep the workplace environment safe, hygienic humane, upholding the dignity of the employees including conducting trainings and sending suitable communications on regular basis. The Company's strategic pillars for capability development, propelling performance, scaling up capability and the dedicated HR initiatives thereunder continue to facilitate constant upgradation of the skill and competency of the employees.

The dedicated learning and development programmes enhance the right skill sets and relevant knowledge to employees to achieve operational and futuristic benefits. The learning solutions are designed as per the training need analysis. Proactive steps and structured problem-solving mechanisms with focus on people issues and periodical communication on business related issues ensure cordial industrial relations.

Providing and maintaining a safe and hygiene working environment is a continuous process at RHIM. Periodic awareness sessions, training on usage of protective equipments, identifying and eliminating unsafe conditions are given top priority. Our plant is BS- OHSAS 18001-2007 certified for occupational health and safety management systems. The Company continues its commitment to employ and empower women and its initiatives such as friendly workplace policies for women, policy for prevention of sexual harassment, redressal mechanism in the form of Internal Complaints Committee, women welfare Committees etc. augurs well.

1. **Total number of employees.** : 793

Principle 4

Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized

1. **Has the company mapped its internal and external stakeholders?**
Yes. The Company has identified its internal and external stakeholders.
2. **Out of the above, has the company identified the disadvantaged, vulnerable & marginalized stakeholders?**
The Company's Corporate Social Responsibility (CSR) policy drives the initiatives undertaken by the Company towards the benefit of the disadvantaged, vulnerable and marginalized stakeholders. The systems and process in place to systematically identify stakeholders and for understanding their concerns and for engaging with them is reviewed from time to time. The feedback mechanism available for shareholders and customers to assess the services levels and other complaints follows the spirit laid down herein.
3. **Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stake holders?**
The Company on a periodical basis undertakes dedicated activities as a part of its CSR initiatives for the disadvantaged, vulnerable and marginalized stakeholders in and around the Company's factories/plants. Education, sports and health aids are provided to schools in rural/under-developed areas and to schools supporting differently abled children. The Company has been set up to build a skill bank of a technically competent and industry ready work force by providing specialized training based on National Council Vocational Training syllabus for the rural youth drawn from socially and economically backward sections of the society.

Principle 5

Businesses should respect and promote human rights

1. **Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?**

The Company's policy on human rights is imbibed in its values represented in the Five Ethics and Four Cultural values of the Company. The alignment with this value system is expected out of any person dealing with the Company.

2. **How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?** Nil.

Principle 6

Business should respect, protect, and make efforts to restore the environment

1. **Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others?**

Safeguarding and protecting the environment is a shared value of the Company and its subsidiaries, joint ventures and associates. However, these companies have their own Safety, Health and Environment policies depending on the nature of their business and the local regulatory requirements. The Company's suppliers and contractors would be governed by their respective policies. The Company exercises due diligence in the selection of suppliers/contractors/others who are aligned with its value system.

2. **Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc.?**

Being in the manufacturing business, the Company has mechanisms in place to ensure compliance with the applicable environmental laws. The Company is committed to be an environment friendly organization and has a dedicated Environmental Policy. The Company is an active player in practicing initiatives to address environmental issues and ensuring sustainable development. For Bhiwadi Plant the Company has received the ISO 14001 certificate for their Environment Management Systems, ISO 45000 certificate for safety and occupational health Management System and ISO 9001 for Quality Management Systems. Plant is maintaining zero water discharge. Further, the Risk Management framework covering the Environmental risks is reviewed on a periodical basis and the steps that are required to be taken for mitigating the related risks are analyzed and implemented.

The Company also recognizes the significance of a greener belt by which several saplings are planted on a yearly basis to reduce the carbon footprint.

The Environment, Health and Safety (EHS) Policy of the Company is available at <https://www.orientrefractories.com/policies.htm>

The Company is replacing cooling towers by chillers to reduce ground water consumption. The Company is also using cleaner fuel to reduce NOx and SOx generation and the Company is recycling its products after customer has disposed off after use. This way company is reducing CO2 emissions

3. **Does the company identify and assess potential environmental risks?**

Yes. Identification of potential environmental risks and the mitigation plan thereon is a continuous process. A report of the same is also placed before the Risk Management Committee of the Board of Directors on a periodical basis.

Further, the Company also ensures that the effluent/ emissions are within the permissible limits as prescribed by the statutory authorities.

4. **Does the company have any project related to Clean Development Mechanism?**

No, the Company has not undertaken any specific project related to the Clean Development Mechanism as per the Kyoto Protocol. However, Bhiwadi Plant is already certified for ISO 14001 & ISO 45001.

5. **Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc.?**

The Company utilizes its resources in an optimal and responsible manner ensuring sustainability through reduction, re-use, re-cycling and managing waste. Appropriate measures to check and prevent pollution are undertaken and wherever required assessment of environmental consequences, if any, is taken up with due regard to public interest. Equitable sharing of access and commercialization of biological and other natural resources and associated traditional knowledge is encouraged. The Company seeks to improve its environmental performance by adopting cleaner production methods, promotion of energy efficient and environmentally friendly technologies. Suitable processes and systems are developed

with contingency plans and processes that help in preventing, mitigating and controlling environmental damages caused due to the Company's operations.

For more details on the energy conservation initiatives - please refer Annexure IV of the Directors' report for the FY 2020-21.

6. Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?

Yes, the Company being in manufacturing business, at all times ensures compliance with the applicable environmental laws. The Environment Policy of the Company and the ISO-14001 certification of its facilities reiterates its commitment to be an environment friendly organization setting standards in environment management.

7. Number of show cause/ legal notices received from CPCB/SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year. : Nil

Principle 7

Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

1. Is your company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with: Yes

- Indian Refractory Manufacturers Association
- World Refractory Association through ultimate holding company RHI Magnesita N.V.

2. Have you advocated/lobbied through above associations for the advancement or improvement of public good?

The Company is not actively involved in lobbying. However, as a responsible corporate citizen, the Company as a part of industry association makes recommendations/ representations before regulators and associations for advancement and improvement of industrial climate in India.

Principle 8

Businesses should support inclusive growth and equitable development

1. Does the company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8?

No, the Company does not have any specified programmes/initiatives/projects in pursuit of the policy related to Principle 8.

The Company believes that social responsibility is not just a corporate obligation that has to be carried out, but it is one's dharma.

Therefore, our philanthropic endeavors are a reflection of our spiritual conscience and this provides us a way to discharge our responsibilities to the various sections of the society.

The CSR Committee, constituted for implementation of the well-defined CSR policy laid out by the Company, reviews the spend to be made and the projects for which such funds need to be allocated. The CSR policy highlights the responsibility statement of the Company towards CSR, the principles guiding the initiative, the manner of implementation and the reporting thereof. Skill Development, education and health care are the priority focus areas for the CSR initiatives of the Company.

During Covid wave-2 Company has Vaccinated more than 4000 persons as a part of CSR. In health care domain the Company has organized health check-up camps to offer curative services and conducted awareness programmes on health issue. The Company has incurred running expenses of Ambulance to provide health support to the society. Water and sanitation facilities were also provided under CSR activities at various places. The Company has contributed to Clean Ganga Fund for cleanliness of water and manage drinking water. To conserve water and manage & dispose water, the Company has contributed to Chief Minister Fund of Rajasthan under Mukhya Mantri Jal Swalamban Abhiyan. To promote the education facility, the Company has renovated school building and toilets in surrounding areas, further provided necessary infrastructure & reading materials to girl hostel to promote girl child education.

2. Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structures/any other organization?

The Corporate Social Responsibility initiatives of the Company are implemented through an in-house team as well as through by direct contribution to various external NGOs e.g. Avtar Development Foundation, Grani Agro Rural Advancement and National Innovation, Rotary foundation, Rotary Club of Bhiwadi-Shakti Center for human care, The Earth Saviours Foundation etc.

3. Have you done any impact assessment of your initiative? No

4. What is your company's direct contribution to community development projects?

Please refer the CSR report in Annexure II of the Board's report for the FY 2020-21 for complete details on the spend made by the Company during the FY 2020-21.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community?

The Company's dedicated CSR team focuses education of under privileged girl students. Schools have been adopted, where support is provided by providing various items of necessity. Also, time to time cleanliness drive and health checkup programmes for nearby communities have been undertaken by the Company.

The intent of participating schools and nearby communities during health checkup programmes indicates impact of initiatives. The indirect programmes for assisting communities in and around plant locations has also positively impacted & influenced those in the nearby communities. During Covid pandemic, the Company supported society by providing a ambulance to government run hospital. Also The Company supported the needy members of society by providing food packets and immunity booster kit.

Principle 9

Businesses should engage with and provide value to their customers and consumers in a responsible manner

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year?

The total number of customer complaints across all businesses which were pending at the end of the year where work was in progress constitutes less than 5% which have been subsequently resolved. Robust customer complaint Management system is in place.

2. Does the company display product information on the product label, over and above what is mandated as per local laws?

Yes. Wherever relevant, the Company encourages that its packaging/labeling contain detailed information regarding safe handling, storage, and use, which is over and above what is mandated as per local laws.

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and pending as on end of financial year. None

4. Did your company carry out any consumer survey/ consumer satisfaction trends?

Yes. The Company on a periodical basis conducts various consumer survey/satisfaction trends. The Company put its customers at the fulcrum of its business strategy. The Company understands their requirements and provides them holistic solutions rather than merely supplying materials. The Company collaborates meaningfully with its customers for co-creating sustainable products and solutions. Dedicated customer/dealer meetings, customer plant visits, transparent and compliant product labeling ensures awareness creation for the product usage and safe disposal. Customer visits are not necessarily confined to their product needs but also extends to sharing of best practices like TQM, TPM etc. It is also worthy to note that a significant portion of the Company's business pertains to offering customized products. Hence, customer's requirements rank very high to the Company.

The Business Responsibility Policy of the Company governing its business sustainability efforts is available on the Company's website <https://www.orientrefractories.com/policies.htm>

AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF ORIENT REFRACTORIES LIMITED

Report on the audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying Standalone Financial Statements of Orient Refractories Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the Standalone Financial Statements, including a summary of significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

4. We draw your attention to Note 34 to the Standalone Financial Statements regarding the scheme of amalgamation (the "Scheme") between the Company and its fellow subsidiaries i.e. RHI India Private Limited and RHI Clasil Private Limited (hereinafter referred as 'erstwhile fellow subsidiaries'), as approved by the Hon'ble National Company Law Tribunal ('NCLT') vide its Order dated May 05, 2021. While the appointed date as set out in the NCLT order is July 31, 2018, these Standalone Financial Statements have been prepared in accordance with clause 3.7 of the Scheme which requires the accounting treatment to be carried out as prescribed under applicable accounting standards that is, from the beginning of the preceding year and in accordance with Ind AS 103, Business Combination. Our opinion is not modified in respect of this matter.

Key audit matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue Recognition

(Refer Note 15 to the Standalone Financial Statements)

The Company recognises its revenue based on Ind-AS 115 "Revenue from Contracts with Customers".

Management uses judgement in respect of matters such as identification of performance obligations, allocation of consideration to identified performance obligations and recognition of revenue over a period of time or at a point in time based on timing when control is transferred to the customer.

We focused on this area as a key audit matter, as revenue is required to be recognised in accordance with the terms of the customer contracts, which involves significant management judgement as described above and thus there is an inherent risk of material misstatement.

How our audit addressed the key audit matter

Our testing of revenue transactions was designed to cover certain customer contracts on a sample basis. Our audit procedures included the following:

- Understanding, evaluating the design and testing the operating effectiveness of controls over revenue recognition.
- Assessing appropriateness of management's judgements in accounting for identified contracts such as:
 - ✓ Identification of performance obligation and allocation of consideration to identified preformation obligation;
 - ✓ Evaluating the contract terms for assessment of the timing of transfer of control to the customer to assess whether revenue is recognised appropriately over a period of time or at a point in time (as the case may be) based on timing when control is transferred to customer;
 - ✓ Testing whether the revenue recognition is in line with the terms of customer contracts and the transfer of control; and
 - ✓ Evaluating adequacy of the presentation and disclosures.

Based on the above stated procedures, no significant exceptions were noted in revenue recognition including those relating to presentation and disclosures as required by Ind AS 115.

Other Information

6. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

Responsibilities of management and those charged with governance for the Standalone Financial Statements

7. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
8. In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the Standalone Financial Statements

9. Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs

will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to
 - the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
13. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

14. The corresponding figures of the Company for the year ended March 31, 2020 have been prepared by the management based on the audited financial statements of the Company and its erstwhile fellow subsidiaries as adjusted for giving effect to the Scheme as approved by the NCLT vide Order dated May 05, 2021 (Refer Emphasis of Matter paragraph above). These adjustments have been audited by us.

Our opinion is not modified in respect of above matter.

Report on other legal and regulatory requirements

15. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

16. As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company and its erstwhile fellow subsidiaries (Refer Emphasis of Matter paragraph above) so far as it appears from our examination of those books, except that, in respect of the Company (other than its erstwhile fellow subsidiaries), the back up of the books of accounts and other books and papers maintained in electronic mode has not been maintained on servers physically located in India.
- (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.

ANNEXURE A TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 16(g) of the Independent Auditors' Report of even date to the members of Orient Refractories Limited on the Standalone Financial Statements for the year ended March 31, 2021

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of Orient Refractories Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may

occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 15 of the Independent Auditors' Report of even date to the members of Orient Refractories Limited on the Standalone Financial Statements as of and for the year ended March 31, 2021

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
- (b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of two years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
- (c) The title deeds of immovable properties, as disclosed in Note 3(a) on fixed assets to the Standalone Financial Statements, are held in the name of the Company, except with respect to the title deeds of immovable properties held in the name of its erstwhile fellow subsidiary i.e. RHI Clasil Private Limited amounting to Rs. 2,810.96 lacs. Pursuant to the approval of Scheme by the NCLT vide its Order dated May 05, 2021, the Company is in the process of getting these title deeds transferred in the name of the Company. Also refer Paragraph 4 to our main audit report.
- ii. The physical verification of inventory including stocks with third parties have been conducted at reasonable intervals by the Management during the year. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Therefore, the provisions of Clause 3(iii), (iii) (a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company.
- iv. The Company has not granted any loans or made any investments, or provided any guarantees or security to the parties covered under Section 185 and 186. Therefore, the provisions of Clause 3(iv) of the said Order are not applicable to the Company.
- v. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products.

We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of provident fund, income tax, and professional tax, though there has been a slight delay in a few cases, and is regular in depositing undisputed statutory dues, including employees' state insurance, sales tax, service tax, duty of customs, goods and services tax and other material statutory dues, as applicable, with the appropriate authorities.
- b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of goods and services tax, value added tax which have not been deposited on account of any dispute. The particulars of dues of income tax, sales tax, service tax, duty of customs and duty of excise as at March 31, 2021 which have not been deposited on account of a dispute, are as follows:

Name of the statute	Nature of dues	Amount	Amount paid under protest	Period to which the amount relates	Forum where the dispute is pending

NOTES TO STANDALONE FINANCIAL STATEMENTS

1. Corporate Information

Orient Refractories Limited ('the Company'), is domiciled and incorporated in India and publicly traded on the National Stock Exchange ('NSE') and the Bombay Stock Exchange ('BSE') in India. The registered office of the Company is situated at C-604, Neelkanth Business Park, Opposite Railway Station, Vidhyavihar (West), Mumbai, Maharashtra-400086, India. The Company is primarily engaged in the business of manufacturing and trading of refractories, monolithics, bricks and ceramic paper, rendering management services and has manufacturing facilities in Bhiwadi (Rajasthan), Visakhapatnam (Andhra Pradesh) and Cuttack (Orissa).

The Standalone Financial Statements were approved by the Board of Directors and authorised for issue on 25 June, 2021.

2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these Standalone Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

(i) Compliance with Ind AS

The Standalone Financial Statements comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

Subsequent to the year end, the Company has received an order of Hon'ble National Company Law Tribunal, Mumbai Bench (NCLT) dated 05 May, 2021 wherein they have approved the scheme of amalgamation (the 'Scheme') of the Company with its fellow subsidiaries i.e. RHI India Private Limited and RHI Clasil Private Limited (hereinafter referred as 'erstwhile fellow subsidiaries'). While the appointed date as set out in the NCLT order is 31 July, 2018, these Standalone Financial Statements have been prepared after considering effect in accordance with clause 3.7 of the Scheme which requires the accounting treatment to be carried out as prescribed under the applicable accounting standards that is, from the beginning of the preceding year and in accordance with Ind AS 103, Business Combination. Also refer Note 2.28 below and Note 34.

(ii) Historical cost convention

The Standalone Financial Statements have been prepared on a historical cost basis, except for the following which have been measured at fair value:

- Financial assets comprising of investments in open ended mutual fund schemes, which are being measured at fair value;
- Defined benefit plans – plan assets measured at fair value.

(iii) New and amended standards adopted by the Company

The Company has applied the following standards and amendments for the first time for their annual reporting period commencing 1 April, 2020:

- Definition of Material – amendments to Ind AS 1 and Ind AS 8
- Definition of a Business – amendments to Ind AS 103
- COVID-19 related concessions – amendments to Ind AS 116
- Interest Rate Benchmark Reform – amendments to Ind AS 109 and Ind AS 107

The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

2.2 Critical accounting estimates, assumptions and judgements

The preparation of Standalone Financial Statements requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent liabilities at the date

of the Standalone Financial Statements and the results of operations during the reporting period. The actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

In the process of applying the Company's accounting policies, the management has made the following estimates, assumptions and judgements, which have significant effect on the amounts recognised in the Standalone Financial Statements:

(a) *Property, plant and equipment*

The management engages internal technical team to assess the remaining useful lives and residual value of property, plant and equipment. The management believes that the assigned useful lives and residual value are reasonable.

(b) *Intangibles*

Internal technical or user team assess the remaining useful lives of Intangible assets. The Management believes that assigned useful lives are reasonable.

(c) *Income taxes*

The management's judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets / liabilities. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the Standalone Financial Statements.

(d) *Contingencies*

The management's judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

(e) *Allowance for doubtful trade receivables*

Trade receivables are stated at their amortised cost as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not to be collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

(f) *Revenue from contracts with customers*

For Refractory Management Contracts where the transaction price depends on the customer's production, customer expects total refractory management services from the Company, which includes supply of refractory material and its related services to produce steel. The customer expects complete refractory management for the product of steel in the steel plant. Thus, only one single performance obligation, performance of refractory management service, exists.

2.3 Current Versus non-current Classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

2.4 Property Plant and Equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss on the date of disposal or retirement.

Subsequent costs are capitalised on the carrying amount or recognised as a separate asset, as appropriate, only when future economic benefits associated with the item are probable to flow to the Company and cost of the item can be measured reliably. All other repair and maintenance are charged to profit or loss during the reporting period in which they are incurred.

On transition to Ind AS, the Company had elected to continue with the carrying value of its property, plant and equipment recognised as at 1 April, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation on Property, Plant and equipment is provided on straight-line basis over the useful lives of assets as determined on the basis of technical estimates which are similar to the useful lives as prescribed under Schedule II to the Companies Act, 2013 except for certain Plant and Machinery and Vehicles (which are being used by the employees). These Plant and Machinery are depreciated on straight-line basis, over the period of 6 years and vehicles are depreciated on written down value method, over the period of 5 years and 6 years for four wheelers and two wheelers respectively. Based on past experience and internal technical evaluation, the management believes that these useful lives represent the appropriate period of usage and therefore, considered to be appropriate for charging depreciation.

Assets residual values, depreciation method and useful lives are reviewed at the end of financial year considering the physical condition of the assets or whenever there are indicators for review and adjusts residual life prospectively.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss within Other Income/Other Expenses.

2.5 Intangible Assets

On transition to Ind AS, the Company has opted for the option given under Ind AS 101 to measure all the items of Intangible Assets at their carrying value under previous GAAP. Consequently the carrying value under IGAAP has been assumed to be deemed cost of Intangible Assets on the date of transition to Ind AS.

Identifiable intangible assets are recognised when the Company controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured.

At initial recognition, the separately acquired intangible assets are recognised at cost. Following initial recognition, the intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

Amortisation is recognised in the Statement of Profit and Loss on a straight line basis over the estimated useful lives of intangible assets from the date they are available for use. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Software

Software are capitalised at the amounts paid to acquire the respective license for use and are amortised over the period of license. Intangible Assets are amortised at straight line basis as follows:

Software 1-5 years

2.6 Leases

As a lessee

Leases are recognised as a right-of-use asset at cost with a corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets in accordance with Ind AS 116 'Leases'.

The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs etc.

Subsequently, the right-of-use asset is measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

For lease liabilities at the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the

lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate.

For short-term and low value leases, the Company recognizes the lease payments as an operating expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

2.7 Financial assets (Debt Instruments)

A. Classification and initial recognition

Financial assets are recognised in the Company's statement of financial position when the Company becomes a party to the contractual provisions of the asset. The Company determines the classification of its financial assets at initial recognition. The Company classifies the financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through profit or loss, or through other comprehensive income)
- Those measured at amortised cost

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

All financial assets are initially measured at fair value. Transactions cost that are directly attributable to the acquisition of financial asset (other than financial asset at fair value through profit and loss) are added from the fair value of financial asset.

B. Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

a. *Financial assets at fair value through profit or loss (FVPL):*

Financial assets at fair value through profit or loss include financial assets held for trading and those designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term. Derivatives are classified as held for trading unless they are designated as effective hedging instruments. Financial assets are designated upon initial recognition at fair value through profit or loss when the same are managed by the Company on the basis of their fair value and their performance is evaluated on fair value basis in accordance with a risk management or investment strategy of the Company. Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with changes in fair value recognised in other income in the Statement of Profit and Loss.

b. *Financial assets measured at amortised cost*

Assets that are held for collection of contractual cash flows, where the assets' cash flows represent solely payments of principal and interest, are measured at amortised cost. Interest income from these financial assets is included in other income in the Statement of Profit and Loss.

c. *Fair value through other comprehensive income (FVOCI):*

Financial assets are measured at fair value through other comprehensive income (OCI) if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

C. Derecognition

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

When the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

D. Impairment of financial assets

The Company assesses on forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies simplified approach required by Ind AS 109 *Financial Instruments*, which requires expected lifetime losses to be recognised from initial recognition of receivables.

E. Income recognition - Interest

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

2.8 Financial Liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity.

The Company's financial liabilities includes borrowings, lease liability, trade and other payables.

Classification, initial recognition and measurement

Financial liabilities are recognised initially at fair value. Transaction costs that are directly attributable to the issue of financial liabilities (other than financial liabilities carried at fair value through profit or loss) are added or deducted from the fair value measured on initial recognition of financial liability. Financial liabilities are classified as subsequently measured at amortised cost.

Subsequent measurement

After initial recognition, financial liabilities are subsequently measured at amortised cost using the effective interest rate ('EIR') method. Gains and losses are recognised in profit or loss when the liabilities are derecognised.

De-recognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance cost.]

2.9 Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.10 Fair Value Measurement

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Standalone Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (Unadjusted) marked prices in the active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

2.11 Derivative financial instruments

The Company acquires forward contracts to mitigate the risk arising foreign currency exposures from purchase and sale of goods and services. These forward contracts are designated as derivative financial instruments. Derivatives are initially recognised at fair value on the date of derivative contract is entered into and subsequently re-measured to their fair value at the end of reporting period. The consequent gains/ losses, arising from subsequent re-measurement, are recognised in the statement of profit or loss, unless the derivative is designated as hedging instrument and hedging relationship is established with the item being hedged.

2.12 Impairment of non-financial assets – Property, plant and equipment and Intangible assets

Intangible assets and property, plant and equipment are reviewed for impairment, whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognised for the asset in prior years.

2.13 Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Standalone Financial Statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.14 Inventories

Inventories including stores and spares are valued at the lower of cost on weighted average except certain traded goods which are valued at First in First out basis (FIFO) and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods, including freight, octroi and other levies. Work-in-progress and finished goods include appropriate proportion of labour and overheads. Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

2.15 Cash and Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

2.16 Provisions, contingent liabilities and contingent assets

a) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

b) Contingencies

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Standalone Financial Statements.

2.17 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the Statement of Profit and Loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

2.18 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker.

The Board of Directors of the Company has authorised its Managing Director & CEO to assess the financial performance and position of the Company, and makes decisions in normal course of business operations. For key strategic decisions, the Board of Directors take decisions after evaluating the possible options and recommendations given by the management. The Board of Directors, together with Managing Director has been identified as being the chief operating decision maker. Refer Note 26 for segment information presented.

2.19 Revenue recognition

Revenue is recognised upon transfer of control of promised products or services to customers either over time or at a point of time at an amount that reflects the consideration the Company expects to be entitled to in exchange for those products or services. Control is defined as the ability to direct the use of and obtain substantially all of the economic benefits from an asset.

Revenue is measured based on the transaction price, which is the expected consideration to be received, to the extent that it is highly probable that there will not be a significant reversal of revenue in future periods. If the consideration in a contract includes a variable amount, at the inception of the contract, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods or services to the customer.

At the inception of the contract, the Company identifies the goods or services promised in the contract and assesses which of the promised goods or services shall be identified as separate performance obligations. Promised goods or services give rise to separate performance obligations if they are capable of being distinct.

Revenue from the delivery of products is recognised at the point in time when control over the products is passed to the customers, which is determined based on the individual Incoterms agreed in the customer contract.

Revenue from contracts for total refractory management services is recognised over time on the basis using the output-oriented method (e.g. quantity of steel produced by the customer).

Revenue from providing services is recognised in the accounting period in which the services are rendered.

The Company recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities. Similarly, if the Company satisfies a performance obligation before it receives the consideration, the Company recognises either a contract asset or a receivable, depending on whether something other than the passage of time is required before the consideration is due.

2.20 Government grants

Grants from the government are recognised at their fair value where there is reasonable certainty that the grant will be received and the Company will comply with required conditions. Export incentive under Merchandise Exports from India Scheme (MEIS) and duty drawback are accrued when no significant uncertainties as to the amount of consideration that would be derived and as to its ultimate collection exist. With effect from 1 January, 2021, new scheme i.e. Remission of Duties and Taxes on Export products (RODTEP) has been introduced replacing the existing export incentive under MEIS. As the incentive rates under RODTEP are yet to be notified, the export incentive cannot be measured reliably. Accordingly, the Company has not recognised export incentive for the period 1 January, 2021 to 31 March, 2021.

2.21 Employee benefits

Defined benefit plan - Gratuity

The liability recognised in the balance sheet is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

The Company's contribution to provident fund, national pension scheme and employees' state insurance scheme are considered as defined contribution plans and are charged as expense in the Statement of Profit and Loss, based on the amount of contribution required to be made and when services are rendered by the employee.

Other Benefits - Compensated Absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long-term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

2.22 Equity-settled share option plan (LTIP)

RHI Magnesita N.V. (the 'Ultimate Holding Company') has implemented a share option plan for the members of senior management of the RHI Magnesita Group.

The LTIP is treated as an equity-settled share option plan as the Company does not have an obligation to make any settlement.

The fair value of the LTIP granted is recognised as employee benefits expense with a corresponding increase in reserves. The total amount to be expensed is determined by reference to the fair value of the options granted:

- a) including any market performance conditions
- b) excluding the impact of any service and non-market performance vesting conditions, and
- c) including the impact of any non-vesting conditions

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied.

2.23 Foreign currency translation

(i) Functional and presentation currency

Items included in the Standalone Financial Statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The Company's operations are primarily in India. The Standalone Financial Statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in the Statement of Profit and Loss.

Foreign exchange differences arising on foreign currency borrowings are presented in the Statement of Profit and Loss within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

2.24 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

2.25 Earnings per Share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares

2.26 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.27 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period.

2.28 Business Combinations

Entities under common control

Business combinations involving entities or businesses under common control is accounted for using the pooling of interest method as follows: -

- (i) The assets and liabilities of the combining entities are reflected at their carrying amounts.
- (ii) No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies.
- (iii) The financial information in the Standalone Financial Statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the Standalone Financial Statements unless the business combination had occurred after that date, the prior period information shall be restated only from that date.
- (iv) The consideration for the business combination may consist of securities, cash or other assets. Securities shall be recorded at nominal value. In determining the value of the consideration, assets other than cash shall be considered at their fair values.
- (v) The balance of the retained earnings appearing in the Standalone Financial Statements of the Company is aggregated with the corresponding balance appearing in the financial statements of the transferee. The identity of the reserves is preserved and appear in the Standalone Financial Statements of the Company in the same form in which they appeared in the Standalone Financial Statements of the transferor.

--	---------------	---------------

(ii) Defined Contribution Plan:

The Company has certain defined contribution plans including provident fund. Contributions are made to provident fund for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards contribution to provident fund is Rs. 356.69 Lacs (31 March 2020 - Rs. 345.51 Lacs). The expense recognised during the year towards contribution to Employee State Insurance and National Pension Scheme is Rs 43.94 Lacs (31 March 2020 - 43.12 Lacs).

(iii) Defined Benefit Plan - Gratuity:

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the company makes contribution to recognised funds in India. The Company does not fully fund the liability and maintains the target level of funding to be maintained over a period of time based on estimations of expected gratuity payments. The gratuity fund plan assets of the company are managed by Orient Refractories Employees Group Gratuity Trust and erstwhile RHI India Private Limited group gratuity trust through Kotak Gratuity Group Plan and group gratuity plan with Life Insurance Corporation of India, respectively.

(E) Sensitivity analysis on defined benefit obligation		
Discount rate		
a. Discount rate - 0.5% - the liability to increase by	197.99	193.43
b. Discount rate + 0.5% - the liability to decrease by	(219.77)	(167.62)
Salary increase rate		
a. Rate - 0.5% - the liability to decrease by	(213.01)	(169.65)
b. Rate + 0.5% - the liability to increase by	198.73	187.86

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the Defined benefit recognised in the balance sheet. The methods and types of assumptions used in preparation, the sensitivity analysis did not change compared to the prior period.

(F) Risk Exposures:

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Salary Increases: Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.

Investment Risk: If Plan is funded then assets liabilities mismatch & actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.

Discount Rate: Reduction in discount rate in subsequent valuations can increase the plan's liability.

(G) Defined benefit liability and employer contribution

Defined benefit liability and employer contribution

The Company monitors the deficit in defined benefit obligation (net off plan assets) and endeavours to meet such deficit within reasonable future. The objective is to ensure adequate investments of funds, at appropriate time, to generate sufficient corpus for future payments.

Note 24:

Financial Risk Management

The Company's activities expose it to market risk, liquidity risk and credit risk.

The Company's senior management has the overall responsibility for establishing and governing the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policies accordingly. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk:

(All amount in Rs. Lacs, unless otherwise stated)

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and bank balances, Trade Receivables, Other Financial Assets	Ageing analysis Credit ratings	Diversification of bank deposits and periodic monitoring of realisable value of assets. Business with customers with reliable credit rating in the market.
Liquidity risk	Trade payables and Other Financial liabilities	Cash flow forecasts	Availability of adequate cash and liquid assets.
Market risk – foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash flow forecasting's Sensitivity analysis	Regular monitoring to keep the net exposure at an acceptable level, with an option of taking forward foreign exchange contracts if deemed necessary. Natural hedging by maintaining balances between receivables and payables within same currency.
Market risk – Interest rate	Borrowings with floating rate of interest	Cash flow forecasting's Sensitivity analysis	Regular monitoring to keep the net exposure at an acceptable level.

A. Credit Risk

Credit risk on cash and cash equivalent and bank balances is not significant as it majorly includes deposits with bank and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

Other financial assets primary includes security deposits given to state electricity board and other public sector organisations, wherein possibility of any loss is remote. These deposits are given in the normal course of the business operations.

Credit risk arise from possibility that customer may default on its obligation to make timely payments, resulting into financial loss. The maximum exposure to the credit risk is primarily from trade receivable and unbilled revenue.

The credit risk is managed by the Company through credit term approvals, establishing the financial reliability of the customers taking into account the financial condition, analysis of historical bad debts and ageing of account receivables. Outstanding customer receivables are regularly monitored. Individual credit terms are set accordingly by the Company is credit control department.

To address the risk of any potential non recovery from trade receivables, the Company has the practise of reviewing debtors having balances outstanding for more than 180 days as at period end and consider them for provision for bad and doubtful debts. Besides this, wherever there is specific evidence about the deteriorating financial position, downfall in business, intention to not pay or other similar factors of the customer, the management reviews the underlying facts and merits of such cases to evaluate the need to adjust provision, as computed based on ageing analysis. This provision, based on collective analysis, is sufficient to cover the entire lifetime loss of revenues recognised including those that are currently less than 180 days' outstanding and not provided for.

B. Liquidity Risk

Liquidity risk is the risk that the Company will not be able to settle or meet its obligations on time. The Company's primary sources of liquidity are cash generated from operations. The cash flows from operating activities are driven primarily by operating results and changes in the working capital requirements.

The Company believes that its liquidity position is adequate to fund the operating and investing needs and to provide with flexibility to respond to further changes in the business environment.

C. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises three types of risk: currency rate risk, interest rate risk. Financial instruments affected by market risks include borrowings, foreign currency receivables and payables.

Foreign currency risk: The Company operates internationally and is exposed to foreign exchange risk in relation to operating activities (when revenue or expense is denominated in a foreign currency) arising from foreign currency transactions, primarily with respect to the USD and EUR. The Company manages the exposure through natural hedging, by maintaining appropriate balances of receivables and payables within same currency. The Company also has policies to enter into foreign currency financial contracts in order to manage the impact of changes in foreign exchange rates on the results of operations and future foreign currency denominated cash flows. Forward exchange contracts are not intended for trading or speculative purposes but only for hedge purposes.

The Company does not have material foreign currency exposure .

Other operating revenues(Government grant - export incentives)	897.01	1,130.90
Total Revenue	136,641.31	138,399.13

Disaggregation of Revenue

In the following tables, revenue is disaggregated by product group and by geography. This is consistent with the revenue information that is disclosed for each reportable segment under Ind AS 108 (refer note 26). The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

(All amount in Rs. Lacs, unless otherwise stated)

Particulars	Year ended 31 March, 2021	Year ended 31 March, 2020
Disaggregation of Revenue by Geography		
Within India	112,221.72	112,684.12
Outside India	23,522.59	24,584.11
Total Revenue	135,744.31	137,268.23

Timing of Revenue Recognition

Revenue from the delivery of products is recognised at the point in time when control over the products is passed to the customers, which is determined based on the individual terms agreed in the customer contract.

Revenue from contracts for total refractory management services, revenue is recognized over time on the basis using the output-oriented method (e.g. quantity of steel produced by the customer).

Revenue from providing services is recognized in the accounting period in which the services are rendered.

Performance obligations

Revenue from the sale of products is recognised at the point in time when control over the products is passed to the customers, which is determined based on the individual terms agreed in the customer contract. Control is defined as the ability to direct the use and obtain substantially all the economic benefits from an asset. For the terms CIF (Cost, Insurance and Freight), transport service gives rise to a separate performance obligation to which a part of revenue has to be allocated, as this service is performed after the control of the product is transferred to the customer.

For Refractory Management services where the transaction price depends on the customer's production tonnage the management has determined that both supply of goods and services are not distinct as the customer expects total refractory management services from the Company, which includes supply of refractory material and its related services to produce steel. Thus, only one single performance obligation, the performance of refractory management services, exists. With regard to these contracts, revenue is recognised over time using the output-oriented method (e.g. quantity of steel produced by the customer).

Revenue from services is recognised over time, using an input method to measure progress towards completion of service, because the customer simultaneously receives and consumes the benefits provided by the Company.

Transaction price allocated to the remaining performance obligations

Transaction price is the expected consideration to be received in exchange for transferring goods or services, to the extent that it is highly probable that there will not be a significant reversal of revenue. For Refractory Management Contracts, transaction price depends on the customer's production performance.

The Company has applied practical expedient in Ind AS 115. Accordingly it has not disclosed information about remaining performance obligations wherein the Company has a right to consideration from customer in an amount that directly corresponds with the value to the customer of entity's performance till date using the output method and for the other contracts which have original expected durations of one year or less.

Reconciliation of revenue recognised with contract price

Particulars	Year ended 31 March, 2021	Year ended 31 March, 2020
Contract price	134,332.96	134,613.35
Adjustments for:	-	-
Claims & Rebates	(453.78)	(624.88)
Performance Bonus	1,865.12	3,279.76
Revenue from contracts with customers	135,744.30	137,268.23

Trade Receivables and Contract Balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as Contract Asset.

A receivable is a right to consideration that is unconditional upon passage of time.

Contract assets consist of unbilled revenue which arises when the Company satisfies the performance obligation in the Refractory Management Services contracts but does not have an unconditional right to consideration as it is dependent on the certification of the report on the quantity of steel produced. Contract asset usually gets converted to Trade Receivables within a time period of 30 days.

Contract liabilities consist of advances from customers. Contract liabilities are presented in note 14(b)

Trade receivables are presented net off impairment loss in note 5(b).

(All amount in Rs. Lacs, unless otherwise stated)

Revenue recognised that was included in the contract liability balance at the beginning of the year	Year ended 31 March, 2021	Year ended 31 March, 2020
Revenue from contract with customers	752.88	2,131.99
Total	752.88	2,131.99
Movement in Contract Assets		
Opening balance as on 1 April, 2020	3,127.89	1,877.86
Add: Revenue recognized during the year	135,744.30	137,268.23
Less: Invoiced during the year	(132,741.46)	(136,018.20)
Closing balance as on 31 March, 2021	6,130.73	3,127.89
Movement in Contract Liabilities		
Opening balance as on 1 April, 2020	752.88	2,131.99
Add: Collection during the year	8,685.97	6,322.52
Less: Gross Sales	(9,172.05)	(7,701.65)
Closing balance as on 31 March, 2021	266.80	752.86

The contract assets primarily relate to the company's right to consideration for work completed but not billed at the reporting date. The contract assets are transferred to receivables when the right becomes unconditional. The contract liabilities primarily relate to the advance consideration received from customers.

Significant judgements in the application of the Standard

For Refractory Management Contracts where the transaction price depends on the customer's production performance, the management has determined that both supply of goods and services are not distinct as the customer expects total refractory management services from the Component, which includes supply of refractory material and its related services to produce steel. The customer expects complete refractory management for the agreed product areas in the steep plant in order to enable steel production. Thus, only one single performance obligation, performance of refractory management service, exists.

Note 34:

Merger

On 31 July, 2018 the Board of Directors of the Company and its fellow subsidiaries i.e. RHI India Private Limited (the 'RHI India') and RHI Clasil Private Limited (the 'RHI Clasil') (hereinafter referred to as 'erstwhile fellow subsidiaries'), had granted its in-principle approval to the scheme of amalgamation of RHI India and RHI Clasil with and into the Company with the proposed appointed date of 1 January, 2019 or such other date as may be fixed by the Tribunal ('the Scheme').

The Scheme was filed before the National Company Law Tribunal, Mumbai ('NCLT') and was rejected by them vide order dated 02 March, 2021.

An appeal was filed before the Hon'ble National Company Law Appellate Tribunal ('NCLAT') and NCLAT vide its judgement dated 19 January, 2021 allowed the said appeal and directed the NCLT to approve the said Scheme with an appointed date of 31 July, 2018.

The NCLT vide its Order dated 05 May, 2021 has approved the Scheme with an appointed date of 31 July, 2018 in view of the order passed by the NCLAT.

In accordance with the clause 3.5 of the Scheme, as a consideration of the merger of the Company with the erstwhile fellow subsidiaries, the Company will issue and allot to the shareholders of the erstwhile fellow subsidiaries the shares of the Company in the following manner: -

(i) To the shareholders of RHI India:

For every 100 equity shares of RHI India of face value of Rs. 10 each held in RHI India, every shareholder of the RHI India, shall without any application, act or deed, be entitled to receive 7,044 equity shares of face value of Re. 1 each of the Company, credited as fully paid up on the same terms and conditions of issue as prevalent in the Company; and

(ii) To the shareholders of RHI Clasil:

For every 1000 equity shares of RHI Clasil of face value of INR 10 each held in RHI Clasil, every shareholder of the RHI Clasil, shall without any application, act or deed, be entitled to receive 908 equity shares of face value of Re. 1 each of the Company, credited as fully paid up on the same terms and conditions of issue as prevalent in the Company.

The Company has prepared these Standalone Financial Statements after considering effect in accordance with clause 3.7 of the Scheme which requires the accounting treatment to be carried out as prescribed under applicable accounting standards that is, from the beginning of the preceding year and in accordance with Ind AS 103, Business Combination. The corresponding figures in these Standalone Financial Statements have been prepared by the management based on the audited financial statements of the Company and its erstwhile fellow subsidiaries as adjusted for giving effect to the Scheme as approved by the NCLT. The consideration payable to the shareholders of erstwhile fellow subsidiaries, amounting to Rs. 408.57 lacs has been disclosed as Shares Pending Issuance under Equity. The reserves in the financial statements of the erstwhile fellow subsidiaries have been disclosed in the same form in the financial statements of the Company. The difference between the consideration disclosed as Shares Pending Issuance and the Share Capital of the erstwhile fellow subsidiaries on 01 April, 2019 is Rs. 1,465.71 lacs, which has been disclosed as Capital Reserve in these Standalone Financial Statements.

Pursuant to the Scheme becoming effective, in accordance with clause 3.2 of the Scheme, the authorised share capital of the Company has been increased from Rs. 1,205 lacs to Rs. 3,080 lacs.

On 11 June, 2021 the Board of Directors of the Company took on record the sanction of the Scheme by the NCLT, change in the authorised share capital and have fixed the record date as 24 June, 2021 for the purpose of determining the shareholders of its erstwhile fellow subsidiaries who shall be entitled to receive the shares of the Company.

Change in authorised share capital has been approved by the Registrar of Companies (ROC) on 24 June, 2021.

After the issuance and allotment of the equity shares to the shareholders of its erstwhile fellow subsidiaries, the Company will complete the necessary steps to have the equity shares listed on Bombay Stock Exchange and the National Stock Exchange. Further, pursuant to the issuance and allotment of shares to the shareholders of its erstwhile fellow subsidiaries, the shareholding of the Company will change for which the necessary filings in accordance with the SEBI regulations will be done.

Pursuant to the approval of the Scheme by the Board of Directors of the Company, the intimation of the Scheme and the Record date has been sent to the Bombay Stock Exchange and the National Stock Exchange. Further, the orders of NCLAT and NCLT along with the Scheme have been filed with the ROC and ROC has approved on 24 June, 2021.

Further, the Company has applied for change of name and the approval of ROC is awaited.

Note 35:

Acquisition of Subsidiary

The Board of Directors on 30 April, 2019 approved the acquisition of the entire paid-up equity share capital of "Intermetal Engineers India Private Limited" (the 'IEIPL') a company comprising of 1,597 equity shares of Rs.100/- each to make it a wholly owned subsidiary of the Company. The process of acquisition of IEIPL was completed on 18 May, 2019. The Company has paid consideration of Rs. 1,012.52 Lacs for the acquisition of IEIPL.

Note 36:

Acquisition of group of assets

During the year ended 31 March, 2020, the Company has completed the acquisition of group of assets from Manishri Refractories and Ceramics Private Limited, for a total consideration of Rs. 4,376 lacs. The group of assets include Land, Building and Plant and Machinery. The acquisition of assets has been appropriately recorded as per the requirements of Ind AS 16 and the valuation of Land and Building has been determined based on valuation done by an independent valuer.

Note 37:

Assessment of impact of Covid-19

In preparation of the standalone financial statements for the year ended 31 March, 2021, the Company has taken into account the possible impact of COVID-19 and the related internal and external factors known to the management upto the date of

approval of these standalone financial statements to assess the carrying amount of its assets and liabilities. Based on the current assessment, the management is of the view that impact of COVID-19 on the operations of the Company and the carrying value of its assets and liabilities is not likely to be material as at 31 March, 2021. The management has also assessed that there are no events or conditions that impact the ability of the Company to continue as a going concern.

Note 38:

Transfer Pricing

The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under Sections 92-92F of the Income-tax Act, 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Company is in the process of updating the documentation for the international and domestic transactions entered into with the associated enterprise during the financial year and expects such records to be in existence latest by 30 November, 2021, as required by law. The Management confirms that its international and domestic transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expenses and that of provision for taxation.

Note 39:

Rounding of amounts

All amounts disclosed in the standalone financial statements and notes have been rounded off to the nearest lacs as per the requirement of Schedule III, unless otherwise stated.

Note 40:

Previous year's figures

Previous year's figures have also been regrouped / recasted, wherever necessary, to conform to the current year's presentation.

AUDITOR'S REPORT INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF ORIENT REFRACTORIES LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying Consolidated Financial Statements of Orient Refractories Limited (hereinafter referred to as the 'Holding Company' or the "Company") and its subsidiary (Holding Company and its subsidiary together referred to as "the Group") (refer Note 2 to the attached Consolidated Financial Statements), which comprise the Consolidated Balance Sheet as at March 31, 2021, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the Consolidated Financial Statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2021, of consolidated total comprehensive income (comprising of profit and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by ICAI and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their report referred to in Paragraph 17 of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

4. We draw your attention to Note 34 to the Consolidated Financial Statements regarding the scheme of amalgamation (the "Scheme") between the Holding Company and its fellow subsidiaries i.e. RHI India Private Limited and RHI Clasil Private Limited (hereinafter referred as 'erstwhile fellow subsidiaries'), as approved by the Hon'ble National Company Law Tribunal ('NCLT') vide its Order dated May 05, 2021. While the appointed date as set out in the NCLT order is July 31, 2018, these Consolidated Financial Statements have been prepared in accordance with clause 3.7 of the Scheme which requires the accounting treatment to be carried out as prescribed under applicable accounting standards that is, from the beginning of the preceding year and in accordance with Ind AS 103, Business Combination. Our opinion is not modified in respect of this matter.

Key audit matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Below Key Audit Matters have been reproduced from the report, of the even date, on the audit of standalone financial statements of the Holding Company.

Revenue Recognition

(Refer note 15 to the Consolidated Financial Statements)

The Company recognises its revenue based on Ind-AS 115 "Revenue from Contracts with Customers".

Management uses judgement in respect of matters such as identification of performance obligations; allocation of consideration to identified performance obligations and recognition of revenue over a period of time or at a point in time based on timing when control is transferred to the customer.

We focused on this area as a key audit matter, as revenue is required to be recognised in accordance with the terms of the customer contracts, which involves significant management judgement as described above and thus there is an inherent risk of material misstatement.

How our audit addressed the key audit matter

Our testing of revenue transactions was designed to cover certain customer contracts on a sample basis. Our audit procedures included the following:

- Understanding, evaluating the design and testing the operating effectiveness of controls over revenue recognition.
- Assessing appropriateness of management's judgements in accounting for identified contracts such as:
 - Identification of performance obligation and allocation of consideration to identified preformation obligation;
 - Evaluating the contract terms for assessment of the timing of transfer of control to the customer to assess whether revenue is recognised appropriately over a period of time or at a point in time (as the case may be) based on timing when control is transferred to customer;
 - Testing whether the revenue recognition is in line with the terms of customer contracts and the transfer of control; and
 - Evaluating adequacy of the presentation and disclosures.

Based on the above stated procedures, no significant exceptions were noted in revenue recognition including those relating to presentation and disclosures as required by Ind AS 115.

Other Information

6. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.
7. Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.
8. In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

9. The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.
10. In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable,

matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

11. The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

12. Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
13. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
14. We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
15. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

16. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

17. We did not audit the financial statements of one subsidiary, whose financial statements reflect Total Assets of Rs. 1,173.41 lacs and Net Assets of Rs. 1,047.63 lacs as at March 31, 2021, Total Revenue of Rs. 430.04 lacs, Total Comprehensive Income (comprising of profit and other comprehensive income) of Rs. 66.87 lacs and Net Cash Outflows amounting to Rs. 19.04 lacs for the year ended on that date, as considered in the Consolidated Financial Statements. The financial statements of the subsidiary have been audited by other auditor whose report has been furnished to us by the Management, and our opinion on the Consolidated Financial Statements insofar as it relates to the amounts and disclosures included in respect of the subsidiary and our report in terms of sub-section (3) of Section 143 of the Act including report on Other Information insofar as it relates to the aforesaid subsidiary is based solely on the report of the other auditor.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditor and the financial statements certified by the Management.

18. The corresponding figures of the Company for the year ended March 31, 2020 have been prepared by the Management based on the audited financial statements of the Company and its erstwhile fellow subsidiaries as adjusted for giving effect to Scheme as approved by the NCLT vide Order dated May 05, 2021 (Refer Emphasis of Matter paragraph above). These adjustments have been audited by us.

Our opinion is not modified in respect of above matters.

Report on Other Legal and Regulatory Requirements

19. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books of the Holding Company and its erstwhile fellow subsidiaries (Refer Emphasis of Matter paragraph above) and the report of the other auditor, except that, in respect of the Holding Company (other than its erstwhile fellow subsidiaries), the back up of the books of accounts and other books and papers maintained in electronic mode has not been maintained on servers physically located in India.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account and records maintained for the purpose of preparation of the Consolidated Financial Statements.
 - (d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2021 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary company incorporated in India, none of the directors of the Group companies, incorporated in India is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our comment in Paragraph 19(b) above that in respect of the Holding Company (other than its erstwhile fellow subsidiaries), the backup of the books of accounts and other books and papers maintained in electronic mode has not been maintained on servers physically located in India.
 - (g) With respect to the adequacy of internal financial controls with reference to financial statements of the Group and the operating effectiveness of such controls, refer to our separate report in Annexure A.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Consolidated Financial Statements disclose the impact, if any, of pending litigations on the consolidated financial position of the Group— Refer Note 27 to the Consolidated Financial Statements.
- ii. The Group has long-term contracts as at March 31, 2021 for which there were no material foreseeable losses. The Group did not have any long-term derivative contracts as at March 31, 2021.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary company incorporated in India.
- iv. The reporting on disclosures relating to Specified Bank Notes is not applicable to the Group for the year ended March 31, 2021.

20. The Group has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act..

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 18(f) of the Independent Auditors' Report of even date to the members of Orient Refractories Limited on the consolidated financial statements for the year ended March 31, 2021

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended March 31, 2021, we have audited the internal financial controls with reference to financial statements of Orient Refractories Limited (hereinafter referred to as "the Holding Company") and its subsidiary Company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company, and its subsidiary company, to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to financial statements is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their report referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company, and its subsidiary company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to one subsidiary company, which is a Company incorporated in India, is based on the corresponding report of the auditor of such a Company incorporated in India. Our opinion is not modified in respect of this matter.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

Orient Refractories Limited ('the Company' or 'the Holding Company'), domiciled and incorporated in India and publicly traded on the National Stock Exchange ('NSE') and the Bombay Stock Exchange ('BSE') in India. The registered office of the Company is situated at C-604, Neelkanth Business Park, Opposite Railway Station, Vidhyavihar (West), Mumbai, Maharashtra-400086, India. The Company is primarily engaged in the business of manufacturing and trading of refractories, monolithics, bricks and ceramic paper, rendering management services and has manufacturing facilities in Bhiwadi (Rajasthan), Visakhapatnam (Andhra Pradesh) and Cuttack (Orissa). The Company has a subsidiary i.e. Intermetal Engineers (India) Private Limited ('the subsidiary') which was acquired on 18 May, 2019 and which is primarily engaged in the business of manufacturing and sale of slide gate mechanics and related components.

The Consolidated Financial Statements were approved by the Board of Directors and authorised for issue on 25 June, 2021.

2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these Consolidated Financial Statements. These policies have been consistently applied to all the years presented, unless otherwise stated. The Consolidated Financial Statements consist of the Holding Company and its subsidiary (Holding Company and its subsidiary together referred to as "the Group").

2.1 Basis of preparation

(i) Compliance with Ind AS

The Consolidated Financial Statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

Subsequent to the year end, the Company has received an order of Hon'ble National Company Law Tribunal, Mumbai Bench (NCLT) dated 05 May, 2021 wherein they have approved the scheme of amalgamation (the 'Scheme') of the Company with its fellow subsidiaries i.e. RHI India Private Limited and RHI Clasil Private Limited (hereinafter referred as 'erstwhile fellow subsidiaries'). While the appointed date as set out in the NCLT order is 31 July, 2018, these Consolidated Financial Statements have been prepared after considering effect in accordance with clause 3.7 of the Scheme which requires the accounting treatment to be carried out as prescribed under the applicable accounting standards that is, from the beginning of the preceding year and in accordance with Ind AS 103, Business Combination. Also refer Note 2.28 below and Note 34.

(ii) Historical cost convention

The Consolidated Financial Statements have been prepared on a historical cost basis, except for the following which have been measured at fair value:

- Financial assets comprising of investments in open ended mutual fund schemes, which are being measured at fair value;
- Defined benefit plans – plan assets measured at fair value.

(iii) New and amended standards adopted by the Group

The Group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 April 2020:

- Definition of Material – amendments to Ind AS 1 and Ind AS 8
- Definition of a Business – amendments to Ind AS 103
- COVID-19 related concessions – amendments to Ind AS 116
- Interest Rate Benchmark Reform – amendments to Ind AS 109 and Ind AS 107

The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(iv) Principals of consolidation and equity accounting

Subsidiary is the entity over which the Group has control. The Group controls an entity where the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to effect those returns through its power to direct the relevant activities of the entity. Subsidiary is fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date the control ceases.

The acquisition method of accounting has been used to account for business combinations by the Group.

The Group has combined the financial statements for the parent and its subsidiary line by line adding together like items of assets, liabilities, equity, income and expenses. Unrealised losses have also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of the subsidiary have been changed where necessary to ensure consistency with the policies adopted by the Group. Also refer to note 2 above.

2.2 Critical accounting estimates, assumptions and judgements

The preparation of Consolidated Financial Statements requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent liabilities at the date of the Consolidated Financial Statements and the results of operations during the reporting period. The actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

In the process of applying the Group's accounting policies, the management has made the following estimates, assumptions and judgements, which have significant effect on the amounts recognised in the Consolidated Financial Statement:

(a) Property, plant and equipment

The management engages internal technical team to assess the remaining useful lives and residual value of property, plant and equipment. The management believes that the assigned useful lives and residual value are reasonable.

(b) Intangibles

Internal technical or user team assess the remaining useful lives of Intangible assets. The Management believes that assigned useful lives are reasonable.

(c) Income taxes

The management's judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Group reviews at each balance sheet date the carrying amount of deferred tax assets / liabilities. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the Consolidated Financial Statements.

(d) Contingencies

The management's judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Group as it is not possible to predict the outcome of pending matters with accuracy.

(e) Allowance for doubtful trade receivables

Trade receivables are stated at their amortised cost as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not to be collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

(f) Revenue from contracts with customers

For Refractory Management Contracts where the transaction price depends on the customer's production, customer expects total refractory management services from the Group, which includes supply of refractory material and its related services to produce steel. The customer expects complete refractory management for the product of steel in the steel plant. Thus, only one single performance obligation, performance of refractory management service, exists.

2.3 Current Versus non-current Classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

2.4 Property Plant and Equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss on the date of disposal or retirement.

Subsequent costs are capitalised on the carrying amount or recognised as a separate asset, as appropriate, only when future economic benefits associated with the item are probable to flow to the Group and cost of the item can be measured reliably. All other repair and maintenance are charged to profit or loss during the reporting period in which they are incurred.

On transition to Ind AS, the Company had elected to continue with the carrying value of its property, plant and equipment recognised as at 1 April, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation on Property, Plant and equipment is provided on straight-line basis over the useful lives of assets as determined on the basis of technical estimates which are similar to the useful lives as prescribed under Schedule II to the Companies Act, 2013 except for certain Plant and Machinery and Vehicles (which are being used by the employees). These Plant and Machinery are depreciated on straight-line basis, over the period of 6 years and vehicles are depreciated on written down value method, over the period of 5 years and 6 years for four wheelers and two wheelers respectively. Based on past experience and internal technical evaluation, the management believes that these useful lives represent the appropriate period of usage and therefore, considered to be appropriate for charging depreciation.

Assets residual values, depreciation method and useful lives are reviewed at the end of financial year considering the physical condition of the assets or whenever there are indicators for review and adjusts residual life prospectively.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss within Other Income/Other Expenses.

2.5 Intangible Assets

On transition to Ind AS, the Group has opted for the option given under Ind AS 101 to measure all the items of Intangible Assets at their carrying value under previous GAAP. Consequently, the carrying value under IGAAP has been assumed to be deemed cost of Intangible Assets on the date of transition to Ind AS.

Identifiable intangible assets are recognised when the Group controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Group and the cost of the asset can be reliably measured.

At initial recognition, the separately acquired intangible assets are recognised at cost. Following initial recognition, the intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

Amortisation is recognised in the Statement of Profit and Loss on a straight line basis over the estimated useful lives of intangible assets from the date they are available for use. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Software

Software are capitalised at the amounts paid to acquire the respective license for use and are amortised over the period of license. Intangible Assets are amortised at straight line basis as follows:

Software 1-5 years

2.6 Leases

As a lessee

Leases are recognised as a right-of-use asset at cost with a corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets in accordance with Ind AS 116 'Leases'.

The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs etc.

Subsequently, the right-of-use asset is measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

For lease liabilities at the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate.

For short-term and low value leases, the Group recognises the lease payments as an operating expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

2.7 Financial assets (Debt Instruments)

A. Classification and initial recognition

Financial assets are recognised in the Group's statement of financial position when the Group becomes a party to the contractual provisions of the asset. The Group determines the classification of its financial assets at initial recognition. The Group classifies the financial assets in the following measurement categories

- Those to be measured subsequently at fair value (either through profit or loss, or through other comprehensive income)
- Those measured at amortised cost

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

All financial assets are initially measured at fair value. Transactions cost that are directly attributable to the acquisition of financial asset (other than financial asset at fair value through profit and loss) are added from the fair value of financial asset.

B. Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

a. Financial assets at fair value through profit or loss (FVPL):

Financial assets at fair value through profit or loss include financial assets held for trading and those designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term. Derivatives are classified as held for trading unless they are designated as effective hedging instruments. Financial assets are designated upon initial recognition at fair value through profit or loss when the same are managed by the Group on the basis of their fair value and their performance is evaluated on fair value basis in accordance with a risk management or investment strategy of the Group. Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with changes in fair value recognised in other income in the Statement of Profit and Loss.

b. Financial assets measured at amortised cost

Assets that are held for collection of contractual cash flows, where the assets' cash flows represent solely payments of principal and interest, are measured at amortised cost. Interest income from these financial assets is included in other income in the Statement of Profit and Loss.

c. Fair value through other comprehensive income (FVOCI):

Financial assets are measured at fair value through other comprehensive income (OCI) if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

C. Derecognition

A financial asset is derecognized only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

When the Group has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the Group has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

D. Impairment of financial assets

The Group assesses on forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies simplified approach required by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of receivables.

E. Income recognition - Interest

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

2.8 Financial Liabilities

Financial liabilities of the Group are contractual obligation to deliver cash or another financial asset to another entity.

The Group's financial liabilities includes borrowings, lease liability and trade and other payables.

Classification, initial recognition and measurement

Financial liabilities are recognised initially at fair value. Transaction costs that are directly attributable to the issue of financial liabilities (other than financial liabilities carried at fair value through profit or loss) are added or deducted from the fair value measured on initial recognition of financial liability. Financial liabilities are classified as subsequently measured at amortised cost.

Subsequent measurement

After initial recognition, financial liabilities are subsequently measured at amortised cost using the effective interest rate ('EIR') method. Gains and losses are recognised in profit or loss when the liabilities are derecognized.

De-recognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance cost.

2.9 Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

2.10 Fair Value Measurement

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (Unadjusted) marked prices in the active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

2.11 Derivative financial instruments

The Group acquires forward contracts to mitigate the risk arising foreign currency exposures from purchase and sale of goods and services. These forward contracts are designated as derivative financial instruments. Derivatives are initially recognised at fair value on the date of derivative contract is entered into and subsequently re-measured to their fair value at the end of reporting period. The consequent gains/ losses, arising from subsequent re-measurement, are recognised in the statement of profit or loss, unless the derivative is designated as hedging instrument and hedging relationship is established with the item being hedged.

2.12 Impairment of non-financial assets – Property, plant and equipment and Intangible assets

Intangible assets and property, plant and equipment are reviewed for impairment, whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognised for the asset in prior years.

2.13 Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Consolidated Financial Statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit or Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.14 Inventories

Inventories including stores and spares are valued at the lower of cost on weighted average except certain traded goods which are valued at First in First out basis (FIFO) and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods, including freight, octroi and other levies. Work-in-progress and finished goods include appropriate proportion of labour and overheads. Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

2.15 Cash and Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

2.16 Provisions, contingent liabilities and contingent assets

a) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

b) Contingencies

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Consolidated Financial Statements.

2.17 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the Statement of Profit and Loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

2.18 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker.

The Board of Directors of the Group has authorised its Managing Director & CEO to assess the financial performance and position of the Group, and makes decisions in normal course of business operations. For key strategic decisions, the Board of Directors take decisions after evaluating the possible options and recommendations given by the management. The Board of Directors, together with Managing Director has been identified as being the chief operating decision maker. Refer Note 26 for segment information presented.

2.19 Revenue recognition

Revenue is recognised upon transfer of control of promised products or services to customers either over time or at a point of time at an amount that reflects the consideration the Group expects to be entitled to in exchange for those products or services. Control is defined as the ability to direct the use of and obtain substantially all of the economic benefits from an asset.

Revenue is measured based on the transaction price, which is the expected consideration to be received, to the extent that it is highly probable that there will not be a significant reversal of revenue in future periods. If the consideration in a contract includes a variable amount, at the inception of the contract, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods or services to the customer.

At the inception of the contract, the Group identifies the goods or services promised in the contract and assesses which of the promised goods or services shall be identified as separate performance obligations. Promised goods or services give rise to separate performance obligations if they are capable of being distinct.

Revenue from the delivery of products is recognised at the point in time when control over the products is passed to the customers, which is determined based on the individual Incoterms agreed in the customer contract.

Revenue from contracts for total refractory management services, is recognized over time on the basis using the output-oriented method (e.g. quantity of steel produced by the customer).

Revenue from providing services is recognised in the accounting period in which the services are rendered.

The Group recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities. Similarly, if the Group satisfies a performance obligation before it receives the consideration, the Group recognises either a contract asset or a receivable, depending on whether something other than the passage of time is required before the consideration is due.

2.20 Government grants

Grants from the government are recognised at their fair value where there is reasonable certainty that the grant will be received and the Company will comply with required conditions. Export incentive under Merchandise Exports from India Scheme (MEIS) and duty drawback are accrued when no significant uncertainties as to the amount of consideration that would be derived and as to its ultimate collection exist. With effect from 1 January, 2021, new scheme i.e. Remission of Duties and Taxes on Export products (RODTEP) has been introduced replacing the existing export incentive under MEIS. As the incentive rates under RODTEP are yet to be notified, the export incentive cannot be measured reliably. Accordingly, the Company has not recognised export incentive for the period 1 January, 2021 to 31 March, 2021.

2.21 Employee benefits

Defined benefit plan - Gratuity

The liability recognised in the balance sheet is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

The Group's contribution to provident fund, national pension scheme and employees' state insurance scheme are considered as defined contribution plans and are charged as expense in the Statement of Profit and Loss, based on the amount of contribution required to be made and when services are rendered by the employee.

Other Benefits - Compensated Absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long-term employee benefits. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

2.22 Equity-settled share option plan (LTIP)

RHI Magnesita N.V. (the 'Ultimate Holding Company') has implemented a share option plan for the members of senior management of the RHI Magnesita Group.

The LTIP is treated as an equity-settled share option plan as the Company does not have an obligation to make any settlement.

The fair value of the LTIP granted is recognised as employee benefits expense with a corresponding increase in reserves. The total amount to be expensed is determined by reference to the fair value of the options granted:

- a) including any market performance conditions
- b) excluding the impact of any service and non-market performance vesting conditions, and
- c) including the impact of any non-vesting conditions

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied.

2.23 Foreign currency translation

- (i) Functional and presentation currency

Items included in the Consolidated Financial Statements are measured using the currency of the primary economic environment in which the Group operates ('the functional currency'). The Group's operations are primarily in India.

The Consolidated Financial Statements are presented in Indian rupee (INR), which is the Group's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in the Statement of Profit and Loss.

Foreign exchange differences arising on foreign currency borrowings are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

2.24 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

2.25 Earnings per Share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Group
- by the weighted average number of equity shares outstanding during the financial year

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares

2.26 Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.27 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period.

2.28 Business Combinations

Entities under common control

Business combinations involving entities or businesses under common control is accounted for using the pooling of interest method as follows: -

- (i) The assets and liabilities of the combining entities are reflected at their carrying amounts.
- (ii) No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies.
- (iii) The financial information in the Consolidated Financial Statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the Consolidated Financial Statements unless the business combination had occurred after that date, the prior period information shall be restated only from that date.
- (iv) The consideration for the business combination may consist of securities, cash or other assets. Securities shall be recorded at nominal value. In determining the value of the consideration, assets other than cash shall be considered at their fair values.
- (v) The balance of the retained earnings appearing in the Consolidated Financial Statements of the Company is aggregated with the corresponding balance appearing in the financial statements of the transferee. The identity of the reserves is preserved and appear in the Consolidated Financial Statements of the Company in the same form in which they appeared in the Consolidated Financial Statements of the transferor.

(i) Leave obligations

The leave obligation cover the company's liability for earned leave.

The entire amount of provision of Rs. 730.14 Lacs (31 March 2020 - Rs. 554.84 Lacs) is presented as current, since the Group does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the Group does not expect all employees to avail the full amount of accrued leaves or require payment for such leave within the next 12 months.

Leave obligation not expected to be settled within the next 12 months	653.38	509.06
--	---------------	---------------

(ii) Defined Contribution Plan:

The Group has certain defined contribution plans including provident fund. Contributions are made to provident fund for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards contribution to provident fund is Rs. 357.30 Lacs (31 March 2020 - Rs. 345.51 Lacs). The expense recognised during the year towards contribution to Employee State Insurance and National Pension Scheme is Rs 47.25 Lacs (31 March 2020 - 46.18 Lacs).

Contribution to provident and other funds:

Contribution to Employee state insurance	9.19	9.72
Contribution to Provident fund	357.30	345.51
Contribution to National Pension Scheme	38.06	36.46
	404.55	391.69

(iii) Defined Benefit Plan - Gratuity:

The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the company makes contribution to recognised funds in India. The Group does not fully fund the liability and maintains the target level of funding to be maintained over a period of time based on estimations of expected gratuity payments. The gratuity fund plan assets of the Company are managed by Orient Refractories Employees Group Gratuity Trust and erstwhile RHI India Private Limited group gratuity trust through Kotak Gratuity Group Plan and New group gratuity cash accumulation plan with Life Insurance Corporation of India, respectively. The gratuity fund plan assets of the subsidiary are managed by Intermetal Engineers (India) Private Limited Employee Group Gratuity Scheme through LIC Gratuity Group Plan.

(E) Sensitivity analysis on defined benefit obligation

Discount rate

a. Discount rate - 0.5% - the liability to increase by	197.99	193.43
b. Discount rate + 0.5% - the liability to decrease by	(219.77)	(167.62)

Salary increase rate

a. Rate - 0.5% - the liability to decrease by	(213.01)	(169.65)
b. Rate + 0.5% - the liability to increase by	198.73	187.86

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the Defined benefit recognised in the balance sheet. The methods and types of assumptions used in preparation, the sensitivity analysis did not change compared to the prior period.

(F) Risk Exposures:

Through its defined benefit plans, the Group is exposed to a number of risks, the most significant of which are detailed below:

Salary Increases: Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.

Investment Risk: If Plan is funded then assets liabilities mismatch & actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.

Discount Rate: Reduction in discount rate in subsequent valuations can increase the plan's liability.

Mortality & disability: Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities.

Withdrawals: Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

(G) Defined benefit liability and employer contribution

The Group monitors the deficit in defined benefit obligation (net off plan assets) and endeavours to meet such deficit within reasonable future. The objective is to ensure adequate investments of funds, at appropriate time, to generate sufficient corpus for future payments.

Note 24:
Financial Risk Management

The Group's activities expose it to market risk, liquidity risk and credit risk.

The Group's senior management has the overall responsibility for establishing and governing the Group's risk management framework. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policies accordingly. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk:

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and bank balances, Trade Receivables, Other Financial Assets	Ageing analysis Credit ratings	Diversification of bank deposits and periodic monitoring of realisable value of assets. Business with customers with reliable credit rating in the market.
Liquidity risk	Trade payables and Other Financial liabilities	Cash flow forecasts	Availability of adequate cash and liquid assets.
Market risk – foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash flow forecasting's Sensitivity analysis	Regular monitoring to keep the net exposure at an acceptable level, with an option of taking forward foreign exchange contracts if deemed necessary. Natural hedging by maintaining balances between receivables and payables within same currency.
Market risk – Interest rate	Borrowings with floating rate of interest	Cash flow forecasting's Sensitivity analysis	Regular monitoring to keep the net exposure at an acceptable level.

(All amount in Rs. Lacs, unless otherwise stated)

A. Credit Risk

Credit risk on cash and cash equivalent and bank balances is not significant as it majorly includes deposits with bank and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

Other financial assets primary includes security deposits given to state electricity board and other public sector organisations, wherein possibility of any loss is remote. These deposits are given in the normal course of the business operations.

Credit risk arise from possibility that customer may default on its obligation to make timely payments, resulting into financial loss. The maximum exposure to the credit risk is primarily from trade receivable and unbilled revenue.

The credit risk is managed by the Group through credit term approvals, establishing the financial reliability of the customers taking into account the financial condition, analysis of historical bad debts and ageing of account receivables. Outstanding customer receivables are regularly monitored. Individual credit terms are set accordingly by the Group is credit control department.

To address the risk of any potential non recovery from trade receivables, the Group has the practise of reviewing debtors having balances outstanding for more than 180 days as at period end and consider them for provision for bad and doubtful debts. Besides this, wherever there is specific evidence about the deteriorating financial position, downfall in business, intention to not pay or other similar factors of the customer, the management reviews the underlying facts and merits of such cases to evaluate the need to adjust provision, as computed based on ageing analysis. This provision, based on collective analysis, is sufficient to cover the entire lifetime loss of revenues recognised including those that are currently less than 180 days' outstanding and not provided for.

B. Liquidity Risk

Liquidity risk is the risk that the Group will not be able to settle or meet its obligations on time. The Group's primary sources of liquidity are cash generated from operations. The cash flows from operating activities are driven primarily by operating results and changes in the working capital requirements.

The Group believes that its liquidity position is adequate to fund the operating and investing needs and to provide with flexibility to respond to further changes in the business environment.

C. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises three types of risk: currency rate risk, interest rate risk. Financial instruments affected by market risks include borrowings, foreign currency receivables and payables.

Foreign currency risk: The Group operates internationally and is exposed to foreign exchange risk in relation to operating activities (when revenue or expense is denominated in a foreign currency) arising from foreign currency transactions, primarily with respect to the USD and EUR. The Group manages the exposure through natural hedging, by maintaining appropriate balances of receivables and payables within same currency. The Group also has policies to enter into foreign currency financial contracts in order to manage the impact of changes in foreign exchange rates on the results of operations and future foreign currency denominated cash flows. Forward exchange contracts are not intended for trading or speculative purposes but only for hedge purposes. The Group does not have material foreign currency exposure.

Note 26:

The Group is primarily engaged in the business of manufacturing refractories and monolithics. Based on the information reported to the chief operating decision maker (CODM) for the purpose of resources' allocation and assessment of performance, there is single business segment in accordance with the requirements of Indian Accounting Standard (Ind AS 108 on 'Operating Segment Reporting' notified under the Companies (Indian Accounting Standard) Rules, 2015.

Geographical Segments

The analysis of geographical segment is based on the geographical location of the customers. The Group operates primarily in India and has presence in international markets as well. Its business is accordingly aligned geographically, catering to two markets i.e. India and Outside India. For customers located outside India, the Group has assessed that they carry same risk and rewards. The Group has considered domestic and exports markets as geographical segments and accordingly disclosed these as separate segments. The geographical segments considered for disclosure are as follows:

- Sales within India include sales to customers located within India.
- Sales outside India include sales to customers located outside India

Timing of Revenue Recognition

Revenue from the delivery of products is recognised at the point in time when control over the products is passed to the customers, which is determined based on the individual terms agreed in the customer contract.

Revenue from contracts for total refractory management services, revenue is recognized over time on the basis using the output-oriented method (e.g. quantity of steel produced by the customer).

Revenue from providing services is recognized in the accounting period in which the services are rendered.

(All amount in Rs. Lacs, unless otherwise stated)

Performance obligations

Revenue from the sale of products is recognised at the point in time when control over the products is passed to the customers, which is determined based on the individual terms agreed in the customer contract. Control is defined as the ability to direct the use and obtain substantially all the economic benefits from an asset. For the terms CIF (Cost, Insurance and Freight), transport service gives rise to a separate performance obligation to which a part of revenue has to be allocated, as this service is performed after the control of the product is transferred to the customer.

For Refractory Management services where the transaction price depends on the customer's production tonnage the management has determined that both supply of goods and services are not distinct as the customer expects total refractory management services from the Company, which includes supply of refractory material and its related services to produce steel. Thus, only one single performance obligation, the performance of refractory management services, exists. With regard to these contracts, revenue is recognised over time using the output-oriented method (e.g. quantity of steel produced by the customer).

Revenue from services is recognised over time, using an input method to measure progress towards completion of service, because the customer simultaneously receives and consumes the benefits provided by the Company.

Transaction price allocated to the remaining performance obligations

Transaction price is the expected consideration to be received in exchange for transferring goods or services, to the extent that it is highly probable that there will not be a significant reversal of revenue. For Refractory Management Contracts, transaction price depends on the customer's production performance.

The Group has applied practical expedient in Ind AS 115. Accordingly it has not disclosed information about remaining performance obligations wherein the Group has a right to consideration from customer in an amount that directly corresponds with the value to the customer of entity's performance till date using the output method and for the other contracts which have original expected durations of one year or less.

Reconciliation of revenue recognised with contract price

Particulars	Year ended 31 March, 2021	Year ended 31 March, 2020
Contract price	134,729.00	134,972.71
Adjustments for:	-	-
Claims & Rebates	(453.78)	(624.88)
Performance Bonus	1,865.16	3,279.77
Revenue from contracts with customers	136,140.38	137,627.60

Trade Receivables and Contract Balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as Contract Asset.

A receivable is a right to consideration that is unconditional upon passage of time.

Contract assets consist of unbilled revenue which arises when the Company satisfies the performance obligation in the Refractory Management Services contracts but does not have an unconditional right to consideration as it is dependent on the certification of the report on the quantity of steel produced. Contract asset usually gets converts to Trade Receivables within a time period of 30 days.

Contract liabilities consists of advances from customers. Contract liabilities are presented in note 14(b)

Trade receivables are presented net off impairment loss in note 5(b).

Revenue recognised that was included in the contract liability balance at the beginning of the year

Revenue from contract with customers	766.02	2,149.98
Total	766.02	2,149.98

Movement in Contract Assets

Opening balance as on 1 April, 2020	3,127.89	1,877.86
Add: Revenue recognized during the year	130,650.96	137,627.59
Less: Invoiced during the year	(127,648.12)	(136,377.56)
Closing balance as on 31 March, 2021	6,130.73	3,127.89

Movement in Contract Liabilities

Opening balance as on 1 April, 2020	766.02	2,149.98
Add: Collection during the year	8,779.17	6,453.30
Less: Gross Sales	(9,272.75)	(7,837.26)
Closing balance as on 31 March, 2021	272.44	766.02

The contract assets primarily relate to the company's right to consideration for work completed but not billed at the reporting date. The contract assets are transferred to receivables when the right become unconditional. The contract liabilities primarily relate to the advance consideration received from customers.

Significant judgements in the application of the Standard

For Refractory Management Contracts where the transaction price depends on the customer's production performance, the management has determined that both supply of goods and services are not distinct as the customer expects total refractory management services from the Component, which includes supply of refractory material and its related services to produce steel. The customer expects complete refractory management for the agreed product areas in the steep plant in order to enable steel production. Thus, only one single performance obligation, performance of refractory management service, exists.

In the foreground, a bright orange and yellow flame or molten material is visible on the left side, with sparks or debris being ejected upwards. The background is dark and industrial, with vertical structural elements and a large, dark, rectangular object on the right. The overall scene is dimly lit, with the primary light source being the intense heat of the furnace.
