Dear Shareholders,

It gives me great pleasure to place before you the financial results for the year ended March 31, 2023. The year went by was a normal year without any loss of working days as was witnessed in the earlier two years 20-21 & 21-22.

During the year, the revenue from operations of your Company fell by 2.95% to ₹ `3407.08 Lakhs as against ₹ `3510.40 Lakhs as of last year at gross level. But in spite of less turnover the Net Profit for the year ended March 31, 2023 stood at Rs. 235.18 Lacs. The Company recorded a Net Profit growth of 1.99% in FY 2022-23 on y-o-y basis as compared to FY 2021-22.

Taking into consideration the uncertainties prevailed in all areas, the performance was satisfactory. We are hopeful for a better performance in next year.

These results were driven by our relentless focus on operational efficiency, enhanced sales across all product categories, and optimization of margins. SILGO affirming the robustness and variety of our product offerings. A primary focus for SILGO has been to maintain an optimal inventory level, ensuring effective management of working capital and facilitating the pursuit of growth objectives. Our commitment to innovation and design excellence enabled us to captivate our customers' imagination and deliver jewelry that resonated deeply with their desires.

As we look to the future, the outlook for the jewelry industry remains promising. As India continues on its path to becoming a 5 trillion economy, we are bound to witness an increase in the spending power of people. Jewelry demand despite challenges of inflation and global uncertainty is expected to benefit from this strong economic growth and the growing urbanization and middle class. SILGO remains focused on driving innovation, customer satisfaction, and sustainable financial growth. Our growth strategy centers on increasing customer engagement, generating healthy profits, acquiring new customers, and penetrating promising markets by opening new stores. We are well poised to capture future market opportunities and provide our customers with unparalleled products and experiences.

Going forward, in 23-24 I wish to state that the year began well. The first quarter of 23-24 was promising for multiple reasons namely "Akshaya Thrithiyai" & large number of wedding events. This augurs well for the company particularly in the background of escalating silver price witnessed currently.

In this background, your company is well placed to repeat and even better the performance in 23-24 for the following reasons:

- a. Improved product mix resulting in expanded gross profit margin also will contribute to improve the bottom-line of the company.
- b. Improved visibility of the brand may bring in better "Footfall" and inquiries that may fructify for incremental sales.
- c. Polarization aspects of business will result in better overall performance

At the same time, your company should find timely solutions to the current challenges faced by the wholesale and retail trade namely,

- i. High level of silver price and its behavior
- ii. Shift in customers preferences to other discretionary consumable durables.
- iii. Accelerated inflation trend noticed will compel the company to incur more on labor and interest outflow.
- iv. Unhealthy competition from both organized and unorganized players.

In this context, the management has taken the following pro-active steps to mitigate the adverse impact:

- a. Concentration on product mix composition.
- b. Improvement in "stock rotation" with the help of technology.
- c. Better inventory stocking in company's outlet to increase the "footfall".
- d. Highly competitive pricing for all products.
- e. To act as source for design-oriented other active brands in our display.

Our financial position continues to be good. Looking forward to yet another rewarding year 23-24. Before I conclude, I would like to place on record my heartfelt gratitude to all our employees, thanks to our bankers under multiple banking system and to all our beloved shareholders who have extended support and trust to the management at all points in time.

With warm regards

NITIN JAIN

MANAGEMENT DISCUSSION ANALYSIS REPORT

GLOBAL JEWELLERY INDUSTRY

INTRODUCTION

The worldwide jewellery market is poised for significant expansion. This growth is primarily propelled by shifting consumer preferences towards unique jewellery designs, including oversized hoop earrings and geometric shapes like rectangles, spheres, and squares. The increasing fondness for personalized and environmentally sustainable jewellery amplifies this trend. Additionally, the global gold jewellery sector is expected to experience growth in the projected timeframe. This growth can be attributed to the upward trajectory of GDP per capita, the steady increase in consumer disposable income, and the enduring allure of gold as a viable long-term investment.

Distribution of the Global Jewellery Market By Product Type in 2022

- Necklace
- Ring
- Earring
- Bracelet
- Others

MARKET SIZE

In the year 2022, the global market for gold jewelry, with a valuation of \$193.3 billion, is expected to ascend to \$304.2 billion by the year 2030. This projected growth signifies a Compound Annual Growth Rate (CAGR) of 5.8% spanning from 2022 to 2030, within the post-COVID-19 commercial environment. Gold, recognized for its enduring value, commands greater trust compared to the currencies of nations.

Retailers worldwide exhibit a significant level of trust in gold as opposed to conventional currencies, with 61% of them subscribing to this perspective.

RISING DISPOSABLE INCOME FUELLING THE MARKET GROWTH

The rapid increase in family members' combined earnings is resulting in higher disposable income for consumers, significantly increasing their spending power. As a result, an increasing number of consumers nowadays are unwilling to compromise product quality regardless of cost and prefer to purchase various types of authentic gems and jewellery available in the market. Moreover, the rising disposable income levels have increased the purchasing power of consumers, which has resulted in an improved standard of living. Furthermore, the education levels of women have risen in India, leading to an increase in the ratio of women in the workforce and providing them more purchasing power. Such factors are positively influencing the gems and jewellery market of India.

INDIAN SILVER MARKET

OVERVIEW:

India has emerged as the largest market for silver jewellery and silverware, experiencing substantial growth over the past few years. The country's silver jewellery exports for the fiscal year 2022-23 exhibited an 8% year-on-year increase, reaching \$2.93 billion. We spoke to two notable silver jewellery exporters to understand the reasons behind this upsurge in exports and to explore strategies for Indian manufacturers to tap into other markets and maintain this momentum.

Silver holds deep cultural and traditional significance in India. It plays a vital role in various important events and rituals. Whether in weddings or religious ceremonies, the exchange and gifting of silver items represent blessings, prosperity, and positive fortune.

While the cultural value of silver is undeniable, its price volatility can impact consumer behaviour. In times of uncertain prices, consumers might delay their silver-related purchases in hopes of more favourable market conditions before making decisions. Nonetheless, the enduring cultural importance of silver ensures that it remains a cherished and desired metal in India, regardless of short-term price fluctuations.

According to silver exporters, several factors have contributed to the recent surge in demand for Indian silver exports. Among these factors are innovative designs and the integration of technology. Krishna Goyal, Convener of the Silver Panel Committee at the GJEPC (Gem & Jewellery Export Promotion Council), attributes this growth to the global economy's recovery from the pandemic, particularly in the United States, a major market for Indian silver jewellery. He notes that following the impact of Covid-19, consumers had reduced disposable income, and innovative designs provided them with the opportunity to attain personal adornment desires at affordable prices.

MARKET SIZE:

As of the year 2022, the Indian market had exported silver with an approximate value of ₹16,300 Crores. Projections indicate that the Indian silver market is poised for a robust growth trajectory, projected to expand at a Compound Annual Growth Rate (CAGR) of 21.3%. This growth trend is anticipated to lead to a market valuation of \$208.2 million by the year 2027.

India stands as one of the prominent global importers and consumers of silver, given its widespread utilization both domestically and industrially. The country's demand for silver spans various sectors. Additionally, other countries that rank among the largest silver markets include China, Germany, the United Kingdom, Japan, and several others.

Rajasthan, Jharkhand, Karnataka, and Andhra Pradesh are the leading states in the Indian market for silver production. These states contribute significantly to the overall silver output within the country.

The utmost level of silver purity is 99.9, denoting that the silver is exceedingly malleable and, consequently, not suitable for crafting ornaments or jewelry. Typically, silver items with the highest purity, such as coins and bars, are prevalent in the silver market due to their specific properties and purposes.

As reported by GlobalData, India secured the position of the eleventh-largest global producer of silver in the year 2022. However, the output experienced a decrease of 0.95% compared to the preceding year, 2021. Over the five-year period leading up to 2021, silver production in India demonstrated a Compound Annual Growth Rate (CAGR) of 7%. Looking ahead, it is projected that between the years 2022 and 2026, silver production is anticipated to experience a more modest CAGR of 0.11%.

Key Growth Drivers:

The fiscal year 2023 (FY23) marked an outstanding period for the jewellery market, with expectations of growth reaching up to \$103.6 billion by the conclusion of this calendar year (CY). To gain a deeper insight into the market dynamics, let's delve into the factors propelling the growth within this sector.

The Hyperlocal Approach:

The demand for Indian jewellery is characterized by its diversity, which is influenced by regional preferences, income disparities, and cultural traditions. The jewellery demand in India is primarily driven by local tastes and customs, making it a hyperlocal phenomenon.

Silgo Retail Jewellers stands out in India's Silver jewellery market by adopting a hyperlocal strategy. Unlike its national competitors, Silgo operates at a micro-market level, tailoring its offerings to cater to specific regional requirements. This approach enables Silgo to establish strong connections with customers on a local level while leveraging the strengths of regional and smaller-scale players. This hyperlocal approach not only recognizes and adapts to the varying preferences and traditions across different regions but also allows brands like Silgo Retail Jewellers to effectively connect with customers on a more personal and relatable level, fostering stronger customer relationships and engagement.

Region	Percentage
North	20%
South	40%
East	15%
West	25%

SILVER DEMAND & SUPPLY

The demand for jewellery exhibits distinct patterns of seasonality, primarily influenced by weddings, festivals, and agricultural harvests in rural regions. These specific events hold significant importance in each locality and contribute significantly to driving growth. The distinctive seasonality of jewellery demand necessitates an in-depth comprehension of local consumer preferences. It also requires tailored marketing strategies to cater to diverse audiences, localized sourcing and product strategies, as well as a substantial working capital. As a result, only a select few local players have effectively transformed into regional contenders, and an even smaller number have successfully expanded on a national scale.

The hyperlocal nature of jewellery demand emphasizes the essential need for an astute and strategic approach to address the diverse array of markets. This approach recognizes the uniqueness of each market and the necessity for a nuanced strategy to engage with and cater to customers effectively. By adapting to local preferences and requirements, jewellery businesses can maximize their appeal and achieve success in a variety of regional markets.

OUR RESPONSE:

At Silgo Jewellers, localization is at the heart of our approach. We prioritize tailoring our product offerings, brand messaging, showroom experiences, and grassroots engagement to resonate with local communities.

We've designed state and city-specific campaigns and enlisted brand ambassadors who can connect with national, regional, and local audiences, ensuring our message reaches effectively.

Our product range is curated to align with local market preferences, and we collaborate closely with local artisans. We've strategically established procurement centres in key jewellery manufacturing areas. Our showrooms are a reflection of local tastes, and our staff members are not only fluent in local languages but are also well-versed in local customs and traditions.

While we proudly position ourselves as hyperlocal jewellers through impactful national campaigns, we also present ourselves as a formidable upcoming national brand.

Organized retail's growing share in the jewellery industry is anticipated to continue driving change:

The jewellery retail sector is undergoing a substantial transformation with the rise of organized players. This shift is driven by the urban population's expansion and the preferences of the younger generation. These discerning consumers prioritize brands and transparency in pricing, seeking quality similar to other branded products. Organized retailers excel in meeting these demands by ensuring purity, authenticity, and an enhanced shopping experience.

The Indian jewellery market is projected to expand at a Compound Annual Growth Rate (CAGR) of 5.54% from 2022 to 2027. This growth is expected to result in an increase of USD 21.54 billion in the market size.

CHALLENGES IN THE RETAIL JEWELLERY MARKET:

While there are promising indications of the retail market progressing toward a more robust and organized ecosystem, there are still significant challenges that pose a threat to its growth. The Indian gem and jewelry industry faces difficulties in obtaining bank credit. Over 20% of loans extended to this sector have turned into non-performing assets (NPAs), leading to the gem and

jewelry industry receiving a mere 2.7% of India's total credit allocation. Smaller independent jewelers face even more significant financing hurdles, often relying on monthly gold schemes for funding or functioning as money lenders.

The report concludes that national and regional chain stores are likely to continue expanding their market share due to their access to credit and their ability to maintain extensive inventories. Conversely, smaller players might encounter restricted access to credit if they fail to meet transparency standards. Banks and financial institutions remain cautious about lending to the gem and jewelry sector if transparency benchmarks are not met.

1) Overcoming Negative Perceptions about the Jewellery Industry with Regard to Ethics:

The jewelry industry faces the challenge of addressing negative perceptions related to ethical concerns. Efforts are needed to enhance transparency, responsible sourcing, and ethical practices to regain consumer trust.

2) A Need for Financial Transparency

Ensuring financial transparency within the jewelry industry is crucial. The sector must establish practices that provide clarity in pricing, cost structures, and value for customers, boosting confidence and loyalty.

3) A Need for Generic Promotion of Diamonds & Jewellery:

There's a requirement for industry-wide efforts to promote diamonds and jewelry. Establishing a unified promotional strategy can raise awareness and drive demand, benefiting both consumers and businesses.

RISKS AND CONCERNS:

- Relatively long operating cycle and working capital intensive nature of the business is an inherent characteristic of the G&J industry.

INDEPENDENT AUDITOR'S REPORT

**To,
THE MEMBERS OF

Report on the Financial Statements

We have audited the accompanying financial statements of M/S SILGO RETAIL LIMITED ("the Company"), which comprise the balance sheet as at March 31, 2023 and the Statement of Profit and Loss and statement of cash flow and Statement of changes in Equity for the year then ended, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS"), and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

There are no Key Audit Matters Reportable as per SA 701 issued by ICAI.

Information other than the financial statements and Auditors' Report thereon.

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis,

Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. Based on work we performed, we conclude that there is no material misstatement of this other information. We have nothing to report in this regard.

Management's responsibility for the financial statements

The Company's board of directors are responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such control.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Annexure – ‘B’ to the Independent Auditors’ Report:**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (‘the Act’). We have audited the internal financial controls over financial reporting of Silgo Retail Limited (‘the Company’) as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial Statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company.
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial control over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.
