Revenue from transportation services was ₹ 3,329 lakh as compared to ₹ 3,317 lakh in the previous year. Revenue from infrastructure support services and other operating income was ₹ 1,213 lakh as compared to ₹ 1,632 lakh in the previous year, following the completion of certain fixed-term contracts.

The Company continues to provide infrastructure facilities and support services which include pipelines for transportation of petroleum products, natural gas & raw water and other infrastructure support services mainly to Reliance Industries Limited.

Resources and Liquidity

The Company's net worth as on March 31, 2026 stood at ₹ 32,904 lakh, with accumulated reserves and surplus of ₹ 31,394 lakh.

The Return on net worth increased to 3.2% in FY 2025–26 as against 3.1% in the previous year, primarily due to improved profitability on account of effective cost rationalisation, specifically through reduction in other expenses.

Details of significant changes (i.e. change of 25% or more as compared to the immediately previous financial year) in key financial ratios along with detailed explanation is given below:

- The current ratio increased to 9.14 in FY 2025-26 as against 4.12 in the previous year due to reclassification of investments from non current to current on account of maturity falling within 12 months, along with reduction of current liabilities during the year.
- The net capital turnover ratio declined to 0.15 in FY 2025-26 as against 0.27 in the previous year due to a substantial increase in working capital, mainly from higher current assets, coupled with a marginal decrease in net sales during the year.
- Return on Capital Employed decreased to (664.1%) in FY 2025-26 as against 286.8% in the previous year due to reduced revenue from operations and capital employed.

The Company continues to maintain its conservative financial profile and funds its requirements through internal accruals.

Industry Structure, Developments, Opportunities and Outlook

The global business environment in FY 2025-26 remained challenging. Ongoing conflicts in the Middle East and Eastern Europe continued to disrupt freight corridors and commodity markets, with no clear resolution in sight.

For India, the external turbulence has had a dual effect. Persistent supply chain disruptions have prompted a broader rethink of import dependencies, while also strengthening the case for domestic infrastructure capacity. The government's continued prioritization of capital expenditure in roads, ports, pipelines and logistics has supported the broader momentum of infrastructure development in the country. India's infrastructure sector has held up reasonably well, though execution gaps and cost pressures persist. The structural demand for infrastructure remains intact, underpinned by India's long-term industrial expansion.

Challenges, Risks and Concerns

The business environment during the last financial year added the inherent challenges of infrastructure development. Environmental assessments and sustainability compliance have become substantive cost items, while the regulatory and reputational considerations in this area represent material risk factors for the sector. Availability of skilled labour and volatility in input costs add further complexity to the overall business environment.

The management team brings relevant experience and operational depth to navigate the risks inherent in infrastructure development.

Strong governance structures and prudent financial management remain central to how the Company approaches project delivery and operational continuity. The management continuously evaluates evolving risk factors, with governance structures designed to ensure oversight and accountability across the business.

The Company's workforce remains stable and consistent with the nature of its business model. The Company places emphasis on maintaining a workforce that is technically capable and operationally effective, in line with the scale and nature of its business.

The Company continues to have periodical internal audits conducted of all its functions and activities to ensure that systems and processes are followed across all areas.

The Audit Committee regularly reviews the adequacy of internal control systems through such audits. The Internal Auditor reports directly to the Audit Committee.

The Company also has a robust budgetary control system to monitor expenditure against approved budgets on an ongoing basis.

Internal Financial Controls are an integral part of the risk management framework and process that address financial and financial reporting risks. The key internal financial controls have been documented, automated wherever possible and embedded in the business process. Assurance to the Board on the effectiveness of internal financial controls is obtained through management reviews and self-assessment, continuous control monitoring by functional experts as well as testing of the internal financial control systems by the Statutory Auditors and Internal Auditors during the course of their audits.

The Company believes that these systems provide reasonable assurance that the Company's internal financial controls are adequate and operating effectively as intended.

Risk Management

The Company has in place a Risk Management Policy commensurate with its size and operations, providing a structured framework to identify, assess and mitigate risks across safety, health and environment, operational, strategic, financial, regulatory, security, property and reputational domains. The Risk Management Committee oversees the identification, monitoring and reporting of risks, and regularly updates the Board of Directors on mitigation measures.

Given below are significant potential risks to the Company and measures in place to mitigate them:

Operational Risk: Pipeline operations may be disrupted due to natural calamities, equipment failures, or unforeseen events. A key risk is third-party damage to pipelines in high consequence areas. This is mitigated through regular line patrolling, strict adherence to applicable standard operating procedures for close monitoring of third-party activities, if any, and stakeholder awareness programs. Pipeline integrity is further ensured through periodic inspections and external audits in compliance with regulatory requirements.

Safety, Health and Environment Risks: Pipeline transportation of petroleum products and natural gas involves inherent hazards, including risks of accidents, leakages or external threats, which may impact life, property and the environment. The Company addresses these risks through structured inspections, hazard identification, root cause analysis and implementation of preventive measures.

A comprehensive insurance cover is also in place to mitigate potential financial exposures arising from such risks.

**STANDALONE FINANCIAL STATEMENT
FOR THE YEAR ENDED MARCH 31, 2026**

Independent Auditor’s Report

To the Members of Reliance Industrial Infrastructure Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of **Reliance Industrial Infrastructure Limited** (“the Company”), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and notes to the Standalone Financial Statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013, (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (“SA’s”) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (“ICAI”) together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

Key Audit Matter

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Standalone Financial Statements for the financial year ended March 31, 2026. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor’s Response
Revenue Recognition – Refer Note 18 of the Standalone Financial Statements	
Revenue from contracts with customers is recognised when services are rendered to the customer at an amount that reflects the consideration entitled in exchange for those services which will be due upon satisfaction of Performance obligations.	Our audit procedures included and were not limited to the following: <ul style="list-style-type: none"> • assessing the application of Company’s accounting policies over revenue recognition and comparing the accounting policies over revenue recognition with applicable Indian accounting standards. • testing the revenue recognized including testing of Company’s controls on revenue recognition. • our testing included tracing the information of revenue recognised to agreements and receipts. • assessing the revenue recognized with substantive analytical procedure. • assessing the Company’s disclosure on revenue recognition.
The Company focuses on revenue as a key performance measure which could create an incentive for revenue to be recognized before the services are rendered or non-satisfaction of performance obligations or consideration is not measurable.	
Revenue recognition was determined to be a key audit matter and a significant risk of material misstatement due to the aforesaid risk related to the recognition of revenue.	

Information Other than the Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the Consolidated Financial Statements, Standalone Financial Statements and our auditor’s report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Board of Directors for the Standalone Financial Statements

The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of the appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and fair presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to

those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors (i) in planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Independent Auditor's Report

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Wherever the actual value is nil, it is presented as '-' (Hyphen).

B.2 Summary of Material Accounting Policies

Such cost includes purchase price and any cost directly attributable to bringing the assets to its working condition for its intended use.

Notes to the Standalone Financial Statements for the year ended 31st March, 2026

(d) Inventories

Items of Inventories are measured at lower of cost or net realisable value after providing for obsolescence, if any. Cost of Inventories is determined on weighted average basis.

(e) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(f) Contingent Liabilities

Disclosure of contingent liability is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources embodying economic benefits will be required to settle or a reliable estimate of amount cannot be made.

(g) Current Tax and Deferred Tax

The tax expense for the period comprise of Current Tax and Deferred Tax. The Company exercises judgment in computation of current tax considering the relevant rulings and reassesses the carrying amount of deferred tax assets / liabilities at the end of each reporting period.

(h) Revenue Recognition

The Company is the principal as it controls the goods or services before transferring them to the customer.

Recognition of revenue from rendering of services, the Company exercises judgement for identification of performance obligations, and in determining whether the performance obligation is satisfied at a point in time or over a period of time.

Generally, the credit period varies between 0-30 days from the rendering of services.

(i) Financial Instruments

(i) Financial Assets

Purchase and sale of Financial Assets are recognised using trade date accounting. Trade receivables that do not contain a significant financing component are measured at transaction price.

The Company has elected to account for its investments in associates at cost less impairment loss (if any).

All other equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'. However dividend on such Equity Investment are recognised in the Statement of Profit and Loss when the Company has rights to receive payment is established.

The Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at Fair Value Through Profit or Loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to :

- (1) The 12 months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- (2) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

Notes to the Standalone Financial Statements for the year ended 31st March, 2026

For Trade Receivables, the Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 months ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

(ii) Financial liabilities

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts are determined to approximate fair value due to the short maturity of these instruments.

C. Critical Accounting Judgments and Key Sources of Estimation Uncertainty

The preparation of the Company's Financial Statements requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years.

(a) Property, Plant and Equipment / Intangible Assets

Estimates are involved in determining the cost attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the management. Property, Plant and Equipment/Intangible Assets are depreciated/amortised over their estimated useful life, after taking into account estimated residual value.

Management reviews the estimated useful life and residual values of the assets annually in order to determine the amount of depreciation/ amortisation to be recorded during any reporting period. The useful life and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological and future risks. The depreciation / amortisation for future periods is revised if there are significant changes from previous estimates.

(b) Provisions

The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

(c) Impairment of Financial and Non-Financial Assets

The impairment provisions for Financial Assets are based on assumptions about risk of default and expected cash loss rates. The company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on company's past history, existing market conditions as well as forward-looking estimates at the end of each reporting period.

In case of non-financial assets the company estimates asset's recoverable amount, which is higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

(d) Fair Value Measurement

For estimates relating to fair value of financial instruments refer note 27 of financial statements.

Mortality Table (IALM)

Rate of Escalation in Salary (per annum)	6.00%	6.00%
Rate of Employee Turnover	5.00%	5.00%

The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotions, and other relevant factors including supply and demand in the employment market. The above information is certified by the actuary.

The Expected Rate of Return on Plan Assets is determined considering several applicable factors, mainly the composition of Plan Assets held, assessed risks, historical results of return on Plan Assets and the Company's policy for Plan Assets Management.

Notes to the Standalone Financial Statements for the year ended 31st March, 2026

VII. The expected contributions for Defined Benefit Plan for the next financial year will be in line with FY 2025-26.

VIII. Sensitivity Analysis

Significant Actuarial Assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and employee turnover. The sensitivity analysis below, have been determined based on reasonably possible changes of the assumptions occurring at end of the reporting period, while holding all other assumptions constant. The result of Sensitivity analysis is given below:

Particulars	(₹ in Lakh)			
	As at 31st March, 2026		As at 31st March, 2025	
	Decrease	Increase	Decrease	Increase
Change in Rate of Discounting (Delta Effect of +/- 0.5%)	5	(4)	4	(4)
Change in Rate of Salary Increase (Delta Effect of +/- 0.5%)	(3)	4	(4)	4
Change in Rate of Employee Turnover (Delta Effect of +/- 0.5%)	(0)	0	(0)	0

These plans typically expose the Group to actuarial risks such as: Investment Risk, Interest Risk and Salary Risk.

Investment risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Interest rate risk: A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

IX. The Company has estimated and recognized the impact of implementation of the New Labour Codes under Employee benefits expense for the year ended 31st March 2026. The impact of the same is not material to the results for the year.

Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (“SA’s”) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibility for the Audit of the Consolidated Financial Statements section of our report. We believe that the audit evidence obtained by us and other auditor in terms of their reports referred to in “Other Matter” paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Key Audit Matter

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Consolidated Financial Statements for the financial year ended

March 31, 2026. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor’s report thereon

The Company’s Board of Directors are responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Consolidated Financial Statements, Standalone Financial Statements and our auditor’s report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information, and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Board of Directors for the Consolidated Financial Statements

The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act, with respect to the preparation and presentation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Company including in its associate in accordance with the accounting principles generally accepted in India, including Ind AS specified under Section 133 of the Act.

The respective Board of Directors of the companies are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and its associate and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Management and Board of Directors of the Company and of its associate included in the Consolidated Financial Statements are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors and its associate are responsible for overseeing the financial reporting process of the company and its associate.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from

material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statement in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entity or business activities of

Independent Auditor's Report

the Company and its associate to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entity or business activities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entity or business activities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors (i) in planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls with reference to Financial Statements that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(i) Financial Assets

Purchase and sale of Financial Assets are recognised using trade date accounting. Trade receivables that do not contain a significant financing component are measured at transaction price.

The Company has elected to account for its investments in associates at cost less impairment loss (if any).

All other equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'. However dividend on such Equity Investment are recognised in the Statement of Profit and Loss when the Company has rights to receive payment is established.

The Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at Fair Value Through Profit or Loss (FVTPL).

Notes to the Consolidated Financial Statements for the year ended 31st March, 2026

Expected credit losses are measured through a loss allowance at an amount equal to :

- (1) The 12 months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- (2) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For Trade Receivables, the Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 months ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

(ii) Financial liabilities

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts are determined to approximate fair value due to the short maturity of these instruments.

C. Critical Accounting Judgments and Key Sources of Estimation Uncertainty

The preparation of the Group's Financial Statements requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years.

(a) Property, Plant and Equipment / Intangible Assets

Estimates are involved in determining the cost attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the management. Property, Plant and Equipment/Intangible Assets are depreciated/amortised over their estimated useful life, after taking into account estimated residual value.

Management reviews the estimated useful life and residual values of the assets annually in order to determine the amount of depreciation/ amortisation to be recorded during any reporting period. The useful life and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological and future risks. The depreciation / amortisation for future periods is revised if there are significant changes from previous estimates.

(b) Provisions

The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

(c) Impairment of Financial and Non-Financial Assets

The impairment provisions for Financial Assets are based on assumptions about risk of default and expected cash loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward-looking estimates at the end of each reporting period.

In case of non-financial assets the Group estimates asset's recoverable amount, which is higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

(d) Fair Value Measurement

For estimates relating to fair value of financial instruments refer note 27 of Consolidated Financial Statements.

	2012-14	2012-14
	(Urban)	(Urban)
Mortality Table (IALM)		
Discount Rate (per annum)	6.91%	6.90%

Rate of Escalation in Salary (per annum)	6.00%	6.00%
Rate of Employee Turnover	5.00%	5.00%

The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotions, and other relevant factors including supply and demand in the employment market. The above information is certified by the actuary.

The Expected Rate of Return on Plan Assets is determined considering several applicable factors, mainly the composition of Plan Assets held, assessed risks, historical results of return on Plan Assets and the Company's policy for Plan Assets Management.

Notes to the Consolidated Financial Statements for the year ended 31st March, 2026

VII. The expected contributions for Defined Benefit Plan for the next financial year will be in line with FY 2025-26.

VIII. Sensitivity Analysis

Significant Actuarial Assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and employee turnover. The sensitivity analysis below, have been determined based on reasonably possible changes of the assumptions occurring at end of the reporting period, while holding all other assumptions constant. The result of Sensitivity analysis is given below:

Particulars	(₹ in Lakh)			
	As at 31st March, 2026		As at 31st March, 2025	
	Decrease	Increase	Decrease	Increase
Change in Rate of Discounting (Delta Effect of +/- 0.5%)	5	(4)	4	(4)
Change in Rate of Salary Increase (Delta Effect of +/- 0.5%)	(3)	4	(4)	4
Change in Rate of Employee Turnover (Delta Effect of +/- 0.5%)	(0)	0	(0)	0

These plans typically expose the Group to actuarial risks such as: Investment Risk, Interest Risk and Salary Risk.

Investment risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Interest rate risk: A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

IX. The Company has estimated and recognized the impact of implementation of the New Labour Codes under Employee benefits expense for the year ended 31st March 2026. The impact of the same is not material to the results for the year.

The Company monitors rolling forecasts of the Company's cash flow position and ensure that the Company is able to meet its financial obligation at all times including contingencies.
