CHAIRMAN'S MESSAGE

DEAR SHAREHOLDERS & STAKEHOLDERS,

The 53rd year of your Company has been a year of strategic consolidation, steady progress and resilience in a dynamic and evolving business environment.

We are pioneers in the ABS market and are well recognized on all of our product ranges for the best practices we follow in line with global standards. The same has been consistently acknowledged and appreciated by our clients, for whom we have remained trusted and reliable partners for several decades. Over the last few years, the Indian polymer industry at large has experienced multiple headwinds across both domestic and global markets. However, at an organizational level, we have withstood these challenging conditions and maintained healthy operational performance, demonstrating resilience in both execution and cost management.

> We are pioneers in the ABS market and are well recognized on all of our product ranges for the best practices we follow in line with global standards. The same has been consistently acknowledged and appreciated by our clients, for whom we have remained trusted and reliable partners for several decades. Over the last few years, the Indian polymer industry at large has experienced multiple headwinds across both domestic and global markets. However, at an organizational level, we have withstood these challenging conditions and maintained healthy operational performance, demonstrating resilience in both execution and cost management.

OPERATIONAL PERFORMANCE:

During the year, business performance was supported by stable domestic demand, with India continuing to remain a net importer. However, the operating environment was influenced by several external challenges. These included geopolitical tensions, ongoing supply chain disruptions, and volatility in raw material prices. The overall global landscape remained dynamic, marked by uncertainty and continuous developments that impacted market conditions.

ABS volumes witnessed increase, supported by increased demand from the automotive and consumer durables sectors, while a strategic focus on value-added grades helped sustain margins. SAN also witnessed increase in demand.

The Polystyrene segment witnessed mixed conditions, with subdued demand, particularly in GPPS. However, performance is expected to improve, supported by a recovery in end-use segments.

INDIA - EXPANSION AND CAPACITY AUGMENTATION:

Over the past year, we undertook debottlenecking initiatives to maximise capacity utilisation and successfully augmented our effective capacities. Building on this, your Company is now accelerating a brownfield expansion in ABS. In Phase 1, we plan to add 50 KT of capacity by FY27 for which work is in progress.

Our existing ABS capacities are operating at near-optimal utilisation levels, and these expansion initiatives will support future demand while further strengthening our market position. At the same time, we remain focused on improving product mix, enhancing value-added offerings, and driving cost efficiencies across operations. We also plan to augment our broader manufacturing capabilities to meet evolving market demand over the long term.

ACQUISITION & INTEGRATION:

Following the successful acquisition of INEOS Styrolution Thailand Co. Ltd. in January 2025, the current year has been one of stabilisation and consolidation.

a) We have focused on deepening our understanding of the acquired business's manufacturing processes and core technologies, while advancing integration across operations and aligning the workforce.

b) Our continued focus on customer engagement has supported a phased brand transition, ensuring high customer retention.

c) The business's diversified portfolio of specialty ABS, high-heat ABS, specialised SAN grades, and other products has strengthened our capabilities across the value chain.

d) We have now presence of our marketing teams in China, Vietnam, Indonesia, Japan & South Korea.

Overall, these efforts have positioned us well for the coming year. This acquisition is expected to unlock synergies through an enhanced product mix, expanded customer access, and a broader geographic footprint. By leveraging shared technologies, operational expertise, and market reach, we are well positioned to deliver sustainable, long-term growth.

MARKET OUTLOOK:

The global economy continues to witness elevated uncertainty arising from geopolitical tensions, evolving trade dynamics, inflationary pressures, foreign exchange volatility, and rising crude oil prices. Recent geopolitical developments, including ongoing wars and tariff-related uncertainties, have impacted the global business environment, affecting business sentiment and delaying strategic decision-making across industries. As a result, manufacturers across sectors have remained focused on conserving resources and maintaining operational stability.

Despite these global challenges, India continues to remain one of the fastest-growing major economies, supported by strong domestic consumption, sustained investments, and stable macroeconomic fundamentals. The outlook for the polymer industry in India also remains positive, driven by growth across key end-use sectors such as automotive, consumer durables, packaging, and infrastructure. Increasing urbanisation, rising incomes, and supportive policy initiatives continue to strengthen demand for high-performance materials.

Your Company remains well-positioned to capitalise on these opportunities through its strong customer relationships, expanding product portfolio, and continued focus on R&D & capacity expansion.

> While the year presented its share of challenges, your Company has demonstrated resilience through disciplined execution and strategic focus. I am confident that our continued emphasis on value-added products, capacity expansion, operational excellence, and customer-centricity will enable us to drive sustainable growth and create long-term value.

SAFETY, SUSTAINABILITY & RESPONSIBILITY:

Safety and sustainability remain integral to our business philosophy. We continue to strengthen our practices to ensure safe operations, reduce environmental impact, and promote responsible manufacturing.

We continue to invest in innovation, sustainability and aligning our operations with evolving regulatory and environmental expectations.

CONCLUSION:

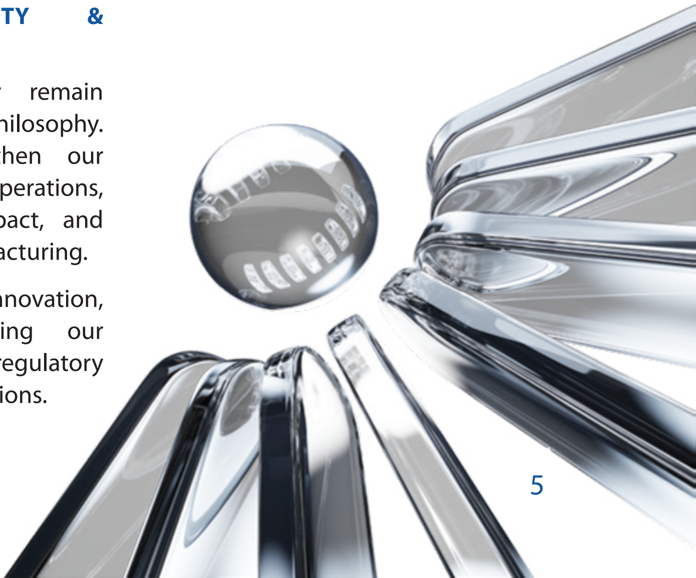
While the year presented its share of challenges, your Company has demonstrated resilience through disciplined execution and strategic focus. I am confident that our continued emphasis on value-added products, capacity expansion, operational excellence, and customer-centricity will enable us to drive sustainable growth and create long-term value.

I would also like to thank the entire Styrenix team for their commitment and dedication in overcoming and rising above these challenges. Our achievements would not have been possible without the dedication and the trust of our customers, the support of our partners & all stakeholders and the confidence of our shareholders.

I extend my sincere gratitude to each of you for your continued support.

Sincerely,

RAKESH S. AGRAWAL
Chairman



STYRENIX AT A GLANCE

Styrenix Performance Materials Limited delivers **high-performance styrenic solutions** built on quality, consistency, and reliability.

The Company has established strong expertise across key product categories, including **ABS, SAN, ASA, GPPS, HIPS, and specialty blends,** enabling it to address diverse and evolving industry requirements through a combination of in-house technology and application-driven innovation.

Styrenix continues to strengthen its position as a reliable supplier across **automotive, appliances, electrical and electronics, healthcare, packaging, and consumer applications.**

Built on a legacy of **long-term partnerships, reliable materials** and a philosophy of shared growth with our customers, each milestone reflects our commitment to **consistent performance, customized solutions, and strong technical support.**

> Setting benchmarks in ABS and SAN, with a strong presence and expanding in polystyrene, ASA and specialty blends.

BOARD OF DIRECTORS

MR. RAKESH S. AGRAWAL

Chairman

Mr. Rakesh S. Agrawal is the Chairman of the Shiva Group, a family-promoted enterprise with diversified interests across acid chlorides, alkyl chlorides, polymers, engineering services, and trading, supported by manufacturing operations in India and Europe.

He holds a Master's degree in Engineering (Chemistry) from Stevens Institute of Technology, USA. A first-generation entrepreneur, Mr. Agrawal was instrumental in introducing engineering thermoplastics in India through the establishment of ABS Plastics Limited (now Styrenix Performance Materials Limited).

During his tenure as Managing Director from 1973 to 2012, the Company witnessed significant growth in capacity and scale, establishing a strong foundation for its future expansion. Under his leadership, the Company set up India's first manufacturing facility for ABS and SAN resins, pioneering the technology, product applications, and market development for these materials in the country. He also played a key role in building strong in-house R&D capabilities.

Mr. Agrawal has been actively associated with several industry and professional bodies. He has served as President of the Federation of Gujarat Industries and has been a member of the Executive Committee of FICCI for several years.

He is also deeply engaged in educational, social, and charitable initiatives. He serves as a Trustee of United Way of Baroda, where he has also held the position of Chairman. In addition, he has been a member of the Board of Governors at GSFC University for six years and served as a Senate Member of MS University of Baroda for four years.

MR. RAHUL R. AGRAWAL

Managing Director

Mr. Rahul Rakesh Agrawal has nearly 26 years of experience in the chemical manufacturing industry, and has played a key role in building and scaling businesses across segments. He holds a Bachelor's degree in Chemical Engineering from the University of Michigan and an MBA from Harvard Business School.

He is the Director and Promoter of Shiva Pharmachem Limited, headquartered in Vadodara, Gujarat. The Company is a global supplier and a leading manufacturer of multifunctional intermediates for pharmaceuticals, agrochemicals, and performance chemicals, with three manufacturing facilities and a strong international export presence.

He is also the promoter of Shiva Performance Materials Pvt. Ltd., based in Vadodara, Gujarat, which focuses on the production of specialty polymers, including acrylic resins used in inks, coatings, semiconductor, and optical fibre applications. Shiva Performance Materials is among the leading global suppliers in the graphic arts and toner industries and is known for offering cleaner alternatives to solvent-based chemistries, particularly in packaging applications.

MR. VISHAL R. AGRAWAL

Joint Managing Director

Mr. Vishal Rakesh Agrawal is the Managing Director and Promoter of Shiva Pharmachem Limited, headquartered in Vadodara, Gujarat. The Company is a global supplier and a leading manufacturer of multifunctional intermediates for pharmaceuticals, agrochemicals, and performance chemicals, with three manufacturing facilities and a strong export presence across international markets.

He holds a Bachelor's degree in Chemical Engineering and a Master's degree in Information Management from Stevens Institute of Technology.

With over 26 years of experience in the chemical manufacturing industry, Mr. Agrawal founded Shiva Pharmachem Limited with a focus on chlorination chemistry. Under his leadership, the Company has evolved into a diversified, multiproduct enterprise with capabilities across multiple chemistries.

In 2015, he led the acquisition of a specialty chemicals company in Europe, further strengthening the Company's global footprint and expanding its portfolio of advanced chemical solutions.

MR. RAVISHANKAR KOMAPALLI

Whole-Time Director

Mr. K. Ravishankar brings over 48 years of experience in the manufacturing of styrenic polymers, including Acrylonitrile Butadiene Styrene (ABS), Styrene Acrylonitrile (SAN), polystyrene (PS), and styrene acrylics. He has extensive expertise in managing multiple chemical plant operations, including facilities involving highly hazardous processes.

He holds a degree in Chemical Engineering from Andhra University (1977) and began his career at the polystyrene plant of Polychem Ltd. In addition, he holds a Diploma in Safety Management from the Central Labour Institute, Mumbai, and has deep expertise in advanced process safety systems and practices.

He has held key roles across leading organizations, including the UB Group, Bayer, Sumitomo Chemical (Indonesia), INEOS Styrolution, and Shiva Performance Materials Ltd. Most recently, he served as a consultant to Supreme Petrochem Ltd for its upcoming mass ABS project.

Technology development and process expertise are his core strengths, with hands-on experience across globally recognized processes from JSR, Bayer, Sumitomo, Monsanto, and BASF. He is also a co-inventor of a patented high rubber graft ABS powder technology, currently in operation at the Nandesari plant in Gujarat.

MR. MILIN MEHTA

Independent Director

Mr. Milin Mehta leads the practice at K C Mehta & Co. LLP and brings over three decades of professional experience in advisory and assurance services. He is a member of the Institute of Chartered Accountants of India, and holds a Master's degree in Commerce along with a degree in Law.

His expertise spans taxation, valuation, mergers and acquisitions, and corporate governance. He has played a key role in shaping the firm's tax and transaction advisory capabilities, including establishing its international tax and transfer pricing practice. He currently focuses on Transaction Advisory Services while providing strategic oversight to the tax function.

He is widely recognized for his expertise in complex tax litigation and has been associated with several landmark judicial decisions. He was invited by the Ministry of Finance, Government of India, through the Central Board of Direct Taxes, to serve on committees responsible for the formulation of Income Computation and Disclosure Standards (ICDS) and MAT computation under the Ind AS framework.

Mr. Mehta also serves as an Independent and Non-Executive Director on the boards of various listed and unlisted companies, He also chairs Audit Committee of several listed and unlisted companies.

A prolific speaker, he has presented papers and delivered lectures at national-level forums. He remains actively engaged with industry bodies and contributes to initiatives in education, healthcare, and social welfare.

MR. PREMKUMAR TANEJA

Independent Director

Mr. Premkumar Taneja brings over four decades of extensive experience in governance, administration, and business management. He has held several senior leadership positions with the Government of Gujarat, including Additional Chief Secretary across key departments such as Industries & Mines, Home, and Forest & Environment, and has also served as a Director with the Government of India.

He has led multiple state-promoted enterprises as Chairman, Managing Director, or Director for over a decade, including Gujarat State Fertilizers & Chemicals Ltd, Gujarat Alkalies and Chemicals Ltd, Gujarat State Electricity Corporation Ltd, Gujarat Industries Power Company Ltd, Gujarat Narmada Valley Fertilizers & Chemicals Ltd, Gujarat Urja Vikas Nigam Ltd, and the erstwhile Bharuch Eco Aqua Infrastructure Ltd. In these roles, he developed deep expertise across all aspects of business management and public sector operations.

Mr. Taneja has been instrumental in driving operational and financial turnarounds, notably at GACL and the erstwhile Gujarat Electricity Board, which was subsequently restructured into seven state-owned entities.

In recognition of his leadership, he was conferred the "Outstanding Manager of the Year Award" by the Ahmedabad Management Association in 2005 during his tenure as Managing Director of GACL. Several organizations under his leadership have also received awards from the Government of India and other reputed institutions.

MR. P. N. PRASAD

Independent Director

Mr. P. N. Prasad is a seasoned banking professional with over 38 years of experience across diverse areas of banking and financial services. Mr. Prasad holds a Master's degree in Science and is a Certified Associate of the Indian Institute of Bankers, where he was also a rank holder in the CAIIB examination.

He began his career with State Bank of India in 1983 as a Probationary Officer and retired as Deputy Managing Director in 2020. At the time of his superannuation, he headed the Commercial Clients Group, the Bank's corporate banking vertical. He was also leading its Project Finance & Structuring Strategic Business Unit, a specialized division focused on infrastructure and project financing.

Over the course of his career, Mr. Prasad held leadership roles in India and overseas for more than 25 years, with expertise spanning corporate banking, project finance, infrastructure lending, debt syndication, treasury operations, risk management, international banking, trade finance, and stressed asset resolution. He also served as Chief Executive Officer of SBI's operations in Belgium, overseeing activities across Belgium, the Netherlands, and Luxembourg from 2008 to 2012.

Mr. Prasad currently serves as an Independent Director on the boards of Axis Bank Limited, Asset Reconstruction Company India Limited (ARCIL), Indo Borax & Chemicals Limited, National E-Governance Services Limited and Insolvency Professional Agency of Institute of Cost Accountants of India Ltd. He previously served as a Shareholder Director at Bank of India.

He has contributed to policy and regulatory initiatives, including as a member of a committee constituted by the Reserve Bank of India on the functioning of Asset Reconstruction Companies, and as Chairman of a coordination committee set up by the Ministry of Commerce, Government of India, to address issues in the gems and jewellery sector.

MRS. RADHIKA NATH

Independent Director

Mrs. Radhika Nath is a Trustee on the Governing Council, overseeing educational initiatives across all Mahindra schools. She is an Executive Board member of Mumbai First, a nonpartisan body working with civil society, professionals, and captains of industry to improve the quality of life and investment in the city.

She started and led the Synergies division at the Mahindra Group, a platform to coordinate non-core product sourcing and requirement as a strategic enabler of business agility, to raise the Group's capabilities, performance and value. She has about 32 years of experience in the retail industry, export and trade. ABSOLAC® ABS

ABSOLAC® is a versatile engineering thermoplastic combining toughness, heat resistance, and excellent surface quality. It is widely used across automotive, appliance, and consumer segments.

ABSOLAC® HH-ABS

ABSOLAC® High Heat ABS grades are engineered to provide enhanced thermal stability and dimensional integrity at elevated temperatures. They retain mechanical strength, impact performance, and surface finish during prolonged heat exposure and thermoforming, while offering improved heat deflection temperature (HDT), excellent processability, and consistent aesthetics—making them ideal for components subjected to thermal stress.

ABSOLAN® SAN

ABSOLAN® SAN is a transparent, rigid thermoplastic known for its excellent surface gloss, chemical resistance, and dimensional stability. It is widely used where clarity, aesthetics, and strength are required.

ASALAC™ ASA

ASALAC™ ASA (Acrylonitrile Styrene Acrylate) is an engineering thermoplastic widely used for outdoor and durable applications, especially where weather resistance and long-term aesthetics are critical.

STYROLOY™ PC+ABS

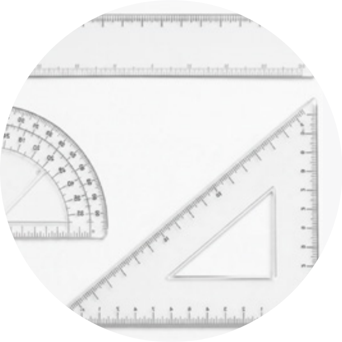
Styroloy™ PC+ABS (Polycarbonate + Acrylonitrile Butadiene Styrene) is a high-performance engineering thermoplastic blend that combines the toughness and heat resistance of PC with the processability and surface quality of ABS. It is widely used where strength, impact resistance, and good aesthetics are required.

STYROLOY™ PA+ABS

Styroloy™ PA+ABS blends combine the mechanical strength, heat resistance, and fatigue performance of Polyamide (PA) with the toughness, surface finish, and processing ease of ABS.

STYROLOY™ ASA+PMMA

Styroloy™ ASA+PMMA (Acrylonitrile Styrene Acrylate + Polymethyl Methacrylate) is a premium polymer blend designed to deliver excellent weather resistance, high gloss, and long-term color stability, making it ideal for outdoor and aesthetic applications.



STYRENIX® PS (GPPS)

Styrenix® PS - GPPS (General Purpose Polystyrene) is a transparent, rigid thermoplastic widely used for cost-effective applications where clarity, ease of processing, and good surface finish are required.

STYRENIX® PS (HIPS)

Styrenix® HIPS combines good toughness with ease of processing and excellent surface appearance.

DOMESTIC CAPACITY AND SCALE

OPERATIONAL SCALE AND VOLUME GROWTH

The Company continues to demonstrate steady growth in sales volumes, reflecting strong demand and operational efficiency. India sales volumes have increased consistently over the last three years, reaching 185.4 KT in FY25 from 122.4 KT in FY22, underscoring the Company's ability to scale in line with market opportunities.

MANUFACTURING CAPACITY

The Company has established a diversified and well-balanced manufacturing base, providing a strong foundation to support both current operations and future expansion.

Its India manufacturing capacity includes:

- ABS: 100,000 TPA, sold as finished products
- SAN: 100,000 TPA, primarily used for captive consumption and downstream processes
- Polystyrene (PS): 100,000 TPA, sold as finished products
- Rubber: 27,000 TPA, used for captive consumption in downstream processes

This integrated setup enhances operational efficiency and supports value chain control.

UNLOCKING GROWTH POTENTIAL

The Company's existing infrastructure is designed for scalability, enabling efficient capacity expansion with high operating leverage. A disciplined, phased approach to expansion ensures timely execution while maintaining operational stability.

With a strong manufacturing backbone and integrated capabilities, the Company is well-positioned to support increasing demand and drive long-term growth.

CAPACITY EXPANSION

The Company is currently implementing Phase I expansion of ABS capacity, adding 50,000 TPA. The project is progressing as per schedule and is expected to further strengthen its market position. Going forward, the Company plans to add another 50,000 TPA, reinforcing its commitment to growth and expansion.

BROADENING HORIZONS:

ACQUISITION OF INEOS STYROSOLUTION (THAILAND)

Enhancing global reach, product mix, and margins through strategic expansion.

ABOUT INEOS STYROSOLUTION (THAILAND)

INEOS Styrolution (Thailand) Company was engaged in the manufacture and sale of specialty engineering polymers, with a portfolio comprising specialty ABS, high heat ABS, and SAN grades. In addition, the company produced HRG rubber, a critical raw material used in ABS manufacturing.

ABOUT THE ACQUISITION

The acquisition of INEOS Styrolution (Thailand) Company was completed in January 2025, with the Company acquiring 100% shareholding for a consideration of USD 22 million. The transaction was financed through a term loan.

EXPONENTIAL GROWTH OPPORTUNITIES

The acquisition is expected to strengthen the Company's growth trajectory by enhancing its product mix through the addition of high-margin, specialized ABS grades used in refrigeration liner applications. It also supports the Company's ambition to emerge as a stronger global supplier by expanding its geographic reach and enabling cross-selling opportunities across markets.

Further, access to high-quality HRG rubber, a critical raw material for ABS, is anticipated to drive operational efficiencies, support consistent product quality, and contribute to improved margins.

MANUFACTURING CAPACITY

ABS: 85,000 TPA

SAN: 1,00,0000 TPA

HRG RUBBER: 31,000 TPA

BUILDING FROM WITHIN:
EMPLOYEE HEALTH, SAFETY AND SUSTAINABILITY

A commitment to quality of life for our employees and society at large

EMPLOYEE HEALTH AND SAFETY HIGHLIGHTS

The Company remains firmly committed to safeguarding the health and safety of its employees as well as the surrounding communities as well as integrity of their living environment. It continues to adhere to globally recognized environmental standards and is certified under ISO 14001:2015 and ISO 45001: 2018 Std.

Between April 2022 and June 2026, operations recorded 5.8 million employee work hours and 8.9 million contractor work hours, with only three reportable incidents, reflecting a strong focus on workplace safety.

Sustainability remains a key priority, with ongoing initiatives focused on the use of cleaner fuels, water saving and the reduction of energy consumption, recycling of treated water, and emissions control. The Company also actively promotes environmental stewardship through green belt development in nearby areas. Environmental awareness and community engagement are reinforced through initiatives such as tree plantation drives on World Environment Day (June 5, Annually), Swachhata Abhiyan activities at sites, environment and energy conservation awareness to employees.

FOCUS AREAS

The Company continues to strengthen its Environment Health and Safety framework through a structured focus on process safety, risk management, and sustainability.

Process safety remains a key priority, with training aligned to OSHA guidelines conducted for cross-functional operations teams through external experts.

Robust engineering controls have been implemented to mitigate process-related risks and a heightened focus on the safe storage and handling of styrene.

Operational practices are further strengthened by integrating best-in-class technologies and safety standards drawn from global leaders such as JSR, Bayer/Lanxess, INEOS, and BASF.

Sustainability initiatives remain integral to SHE efforts, with continued emphasis on reducing resource consumption across water, energy, waste, and emissions, along with ongoing green belt development.

Emergency preparedness is being enhanced through capacity building of fire and safety teams, including specialized training programs conducted in multiple batches with external experts.

BEST PRACTICES FOLLOWED

The Company adheres to a comprehensive framework of best practices to strengthen process safety, operational reliability, and risk management.

Process Safety Management systems, aligned with OSHA guidelines, form the foundation of operations, supported by regular operational audits and integrated asset care and process safety audits. A proactive approach to risk identification and mitigation is ensured through detailed HAZOP (Hazard and Operability) studies across all processes, along with a structured Management of Change framework covering personnel, facilities, and technology.

Workplace safety is further reinforced through the use of flame-resistant clothing (FRC) in operations and the implementation of Behaviour-Based Safety practices, fostering a strong safety culture across the organization.

DRIVING PERFORMANCE THROUGH R&D EXCELLENCE

Turning customer insights into scalable, high-performance material innovation

INNOVATION

The Company's innovation approach is centered on transforming customer insights into differentiated, application-specific solutions. Strong in-house capabilities enable the development of unique product offerings tailored to evolving market needs.

Continuous engagement with customers drives the creation of new grades aligned with real-world performance requirements, ensuring relevance and adaptability across applications. Rapid colour customisation capabilities further enhance responsiveness, allowing precise and efficient alignment with customer specifications.

RESEARCH AND DEVELOPMENT

The Company's R&D function serves as a strong backbone, ensuring quality, scalability, and reliability across its product portfolio.

The state-of-the-art R&D centre, established in Gujarat, is equipped with advanced infrastructure, including a dedicated colour excellence facility with over 1,300 shades. Focused expertise in rubber research, colour development, and new product innovation enables the Company to deliver high-performance, differentiated materials.

Certified testing laboratories, compliant with NABL ISO/IEC 17025 standards, ensure accuracy and reliability in product validation. With a customer-centric approach, R&D efforts are closely aligned with application requirements, enabling faster adoption and enhanced value creation.

GLOBAL ECONOMY

The global economy concluded the financial year navigating a period of heightened uncertainty. Geopolitical tensions, particularly the outbreak of war in the Middle East and the resulting disruptions to the Strait of Hormuz, unsettled the energy markets and global trade flows, while exerting upward pressure on prices. According to the estimates by the International Monetary Fund (IMF), global growth is projected to moderate to 3.1% in 2026, with a marginal improvement to 3.2% in 2027. Global inflation is also expected to rise to 4.4% in 2026, largely driven by elevated energy and food prices.

The implications of this challenging environment extend beyond headline macroeconomic indicators. Emerging market and developing economies, particularly those dependent on imports and exposed to global trade dynamics, remain vulnerable to external shocks. Manufacturing companies continue to face challenges on both operational and demand fronts. Volatility in raw material and energy costs, supply chain uncertainties, pricing and consequent margin pressures remain key concerns influencing business performance in the current landscape.

While the global outlook remains supportive of moderate growth, uncertainty continues to remain elevated, driven by evolving geopolitical and economic developments, the severity of emerging risks, and the pace at which global economic conditions stabilize which may cause change in estimates.

INDIAN ECONOMY

Overview

India continued to strengthen its position as one of the fastest-growing major economies globally in FY26, with real GDP expanding by 7.7%, supported by resilient domestic demand and sustained investment activity. Growth was broad-based, with the manufacturing, construction, and services sectors each contributing meaningfully to economic expansion. Government initiatives such as tax policy reforms during the year, including the restructuring of personal income tax slabs and the rationalisation of GST rates, provided an additional boost to consumption demand while maintaining revenue stability.

A significant structural milestone during the year was the conclusion of the India–EU Free Trade Agreement, which is expected to enhance export competitiveness and accelerate India's integration into global value chains, with meaningful implications for domestic manufacturing sectors over the medium term.

Global Uncertainties

Rising global crude oil prices have resurfaced as a critical macro risk for India, given its dependence on imports for 85% of its oil requirements. As the world's third-largest importer, India's external balance, currency stability, and inflation trajectory remain highly sensitive to sustained increases in crude prices. Every rise in oil prices can widen the current account deficit and increase demand for US dollars. This exerts depreciation pressure on the rupee and can trigger volatility in capital flows.

On the domestic front, higher crude prices drive cost-push inflation through elevated fuel, logistics, and manufacturing costs. At a sectoral level, consumption-driven and energy-intensive sectors like petrochemicals and polymer producers may face temporary pressures. Overall, sustained high crude prices may pose a broad-based risk to macro stability and business environment.

Looking Ahead / Growth Outlook

India's GDP growth is projected to moderate to 6.6% in FY27 according to revised estimates, reflecting a more challenging external environment. Elevated geopolitical tensions, higher energy prices, and volatility in global trade and financial markets are expected to pressure exports, inflation, and capital flows. Inflation is projected to rise to 5.1%, while the current account deficit may widen due to higher crude oil imports.

Despite external headwinds, the domestic economy remains well positioned, supported by resilient private consumption, rising government capital expenditure, and improving corporate and banking sector balance sheets. Manufacturing is expected to benefit from trade agreements and policy support measures, while services growth should remain supported by the continued expansion of global capability centres and sustained demand. Together, these factors are expected to drive India's medium-term growth outlook as external conditions gradually stabilise.

The Indian automobile sector, among the largest in the world by volume and characterised by significant scale across two-wheelers, passenger vehicles, and commercial vehicles, is projected to grow at a healthy pace over the medium term, with passenger vehicle sales expected to register a CAGR of approximately 9% through FY27. Increasing vehicle penetration, premiumisation of product portfolios, and the accelerating shift towards electric mobility are reshaping demand across the automotive value chain, driving higher consumption of high-performance, lightweight polymers.

The consumer durables and appliances sector also presents a favourable demand outlook, with the market expected to grow at a CAGR of approximately 11%, reaching around US$ 34 billion by FY29. Rising household affluence, deeper penetration in semi-urban markets, and a decisive consumer shift towards smart, energy-efficient, and premium appliances are the key growth drivers. As product complexity and quality standards continue to rise, the importance of advanced material inputs in appliance manufacturing is expected to increase.

India's growth outlook remains favourable, driven by strong domestic fundamentals, resilient consumption, and improving investment momentum. While global conditions continue to be shaped by geopolitical tensions, trade disruptions, and financial market volatility causing near term headwinds, the Indian economy is well-positioned to navigate these challenges.

REVIEW OF OPERATIONS

In Q4 of FY 2024-25, the Company had entered a Sales & Purchase Agreement ('SPA') with INEOS Styrolution Group GmbH on December 9, 2024, for acquiring 100% shareholding of INEOS Styrolution Thailand Co. Ltd. ('target company') located in Thailand. The acquisition transaction successfully completed on January 17, 2025. The target company is acquired at approx. 21.9 Mn USD for 100% shareholding.

The acquisition of Styrenix Performance Materials (Thailand) Ltd., has enabled the Group to unlock multiple strategic and operational synergies, including an improved product mix with a greater share of value-added offerings. It has also facilitated expansion of the customer base by providing access to new Asian markets and strengthening relationships with existing and new clients. Additionally, the combined entities achieved benefit from enhanced global reach, leveraging a wider geographic footprint and established distribution networks. Access to know-how and technologies continue to further support product innovation, process efficiencies, and overall competitiveness, positioning the Company for more sustainable long-term growth.

Standalone:

During the FY 2025-26, the sales volume was 195 KT compared to 186 KT in previous year i.e. an increase of 5%.

During FY 2025-26, revenue from operations stood at ₹ 2,640.3 crores vs. ₹ 2,744.4 crores in FY 2024-2025. EBITDA for FY 2025-26 is ₹ 369.7 Crore (14%) vs. ₹ 355.8 Crore (12.9%) in previous year.

Consolidated:

During the FY 2025-26, the sales volume was 248 KT compared to 202 KT in previous year.

During FY 2025-26, revenue from operations stood at ₹ 3,438.03 crores vs. ₹ 2,982.42 crores in FY 2024-2025. EBITDA for FY 2025-26 is ₹ 359.6 Crore (10.4%) vs. ₹ 362.7 Crore (12.1%) in previous year.

The Company had acquired Styrenix Performance Materials (Thailand) Ltd effective Jan 17, 2025; therefore the consolidated figures include three months Jan to Mar 2025 for Thailand and FY 2025-26 represents full year. Therefore, previous year is not comparable with current year.

Product Segments & Key Developments

The Company provides styrenics applications for many everyday products across a broad range of industries, viz automotive, electronics, household, construction and healthcare and includes packaging and toys, sports & leisure. With best-in-class production technology, advanced R&D skills, your Company is perfectly equipped to ensure the highest level of quality, efficiency, and innovation.

Your Company's product portfolio having trademarks includes ABSOLAC® ABS, ABSOLAN® SAN, STYRENIX® PS, STYROLOY® Blend and ASALAC® ASA which continue to have a preferred market status amongst user industries. Research and Development towards new product and grade development and processes is yielding good results and has helped the Company to add differentiated and value-added products in its portfolio.

ABS

ABS witnessed increase in volumes during the year, supported by increased demand from key end-use industries such as automotive, appliances and consumer durables. The operating environment, raw material prices saw a dip through most part of the year, however, it saw upward movement by end of the Year.

During the year, the Company focused on improving its product mix by increasing the share of higher value-added grades, which supported margin stability. Continuous cost optimisation initiatives, coupled with improved process efficiencies, aided performance. The Company also undertook targeted measures to strengthen supply chain responsiveness and enhance operational execution. Despite sustained competitive intensity, including import pressures, these initiatives enabled the Company to navigate the challenging environment and maintain overall segment performance.

SAN

SAN also witnessed increase in demand with applications spanning select end-use industries such as stationary, electronics and household goods.

POLYSTYRENE

Polystyrene witnessed a mixed performance during the year, with demand conditions remaining subdued in couple of months during the year.

While the Company expanded its overall capacity from 66,000 TPA to 100,000 TPA, the incremental capacity was largely in GPPS, where demand recovery lagged and overall volumes remained below installed capacity levels amid weak market conditions and increased imports supply in the system.

The Company continued to strengthen its presence in the OEM segment, with a higher share of sales now coming from OEM customers across both GPPS and High Impact Polystyrene (HIPS). HIPS performed relatively better during the year, operating at near full capacity utilisation, supported by strong demand and a higher proportion of OEM-linked business. With improving demand conditions and seasonal tailwinds, the Company remains well positioned to enhance utilisation levels and drive growth in the Polystyrene segment.

R&D

Established in 1995, Your Company continues to focus on innovative solutions to create more value for its customers. Company focuses on rubber research, new product developments, new colour development activities and has developed more than 1,400 colours.

All these efforts have been enhancing our portfolio with differentiated and value-added offerings.

CAPEX

The Company is planned brownfield expansion in ABS and accordingly in phase 1 will add additional 50 KT ABS capacity by second half of FY 2026-27.

RATINGS

Care Edge Ratings reported “Reaffirmed” outlook on Long- term / Short-term bank facilities of the Company (₹ 650 crores). The “Reaffirmed” outlook on the rating of the Company reflects CARE Ratings Limited’s expectations of sustained healthy operating performance of the company, marked by substantial growth in the scale of operations with full-year consolidation of the acquired entity and sustained healthy PBILDT margin.

The credit rating as received by the Company from Credit Rating Agency for long term / short term bank facilities, as of October 10, 2025, is CARE A+, POSITIVE / CARE A1+ [Single A Plus; Outlook: Positive/ A One Plus].

OPPORTUNITIES

The current landscape presents significant opportunities for the polymer industry, particularly in India. With a burgeoning population, an expanding middle class and increasing per capita income, the demand is also on the rise. Initiatives like “Make in India” and the “Smart Cities Mission” are driving the need for polymer-based products across various sectors.

Moreover, India’s automotive sector, one of the largest globally, is poised for further growth, presenting opportunities for styrenics manufacturers to supply components and materials. The anticipated surge in demand for household appliances like air conditioners and refrigerators further adds to the potential for market participation.

The packaging industry continues to thrive due to urbanization, lifestyle changes, and the surge of e-commerce. Polystyrene manufacturers stand to benefit by offering innovative and sustainable packaging solutions to meet this demand.

Furthermore, the increasing demand for consumer electronics in developing countries, fuelled by rising disposable incomes and urbanization, presents another avenue for growth. As digitization activities continue to grow, the consumption of electronics products is expected to rise, contributing to the expansion of the target market.

Overall, the combination of evolving consumer preferences, infrastructure development initiatives, and technological advancements presents a promising landscape for the polymer industry to capitalize on various opportunities for growth and innovation.

POTENTIAL CHALLENGES

Polymer manufacturing continues to rely heavily on the availability and prices of key imported raw materials like Styrene and Acrylonitrile which in turn depends on crude oil, natural gas and other backward value chain feedstocks. The ongoing geopolitical tensions and uncertainties caused by the conflict in the Middle East, may pose a threat in terms of fluctuations in availability as well as pricing of key raw materials along with impact due to supply chain disruptions. Consequently, fluctuations in raw material prices can significantly impact the costs and margins. Fluctuations in foreign currency may further weigh on the forex gain/ loss and therefore the profitability. Also, since India imports a significant amount of polymer resins to meet its increasing domestic demand, it creates pressure on domestic manufacturers which may result in lower prices and margins.

Being key player in Polymer segment, one of the major risks is waste management and environmental pollution for which careful attention and proactive measures to mitigate related risks have been taken.

To address these threats effectively, we invest in research and development, explore and develop sustainable options in supply chain, maintain a proactive stance to capitalize on new opportunities and have implemented robust foreign currency hedging policy to mitigate the challenges to the maximum extent.

OUTLOOK

Your Company continues to monitor changes in general economic situation and is prepared to take measures to safeguard its business operations. Our close association with key OEMs in automotive and appliance industry has enabled us to drive profitable growth and we expect it to continue in the coming year. Our organizational focus on key industry segments ensures a deep understanding of their needs and will enable new product introductions for the specific industry. Your Company utilizes its R&D capabilities to develop new products and maintains a strong intellectual property position.

Rural and Urban consumption patterns appear to be strengthening due to high agricultural incomes and increased demand throughout the festive season; indicators such as rising UPI and automobile transactions suggest an overall high level of consumer spending in the economy.

(https://www.ibef.org/economy/monthly-economic-report)

In consumer durables, Rural India is set to drive the next wave of growth in consumer durables, with improved electrification and better power supply expanding demand beyond metros into tier 3 and 4 towns. This widening base, coupled with rising disposable incomes, is creating strong momentum for the industry.

(https://www.ibef.org/industry/indian-consumer-market)

India's auto industry is expected to maintain steady growth momentum in FY27, supported by lower ownership costs and improving income trends, according to various estimates by research firms, the passenger vehicle market is estimated to grow in the range of 5-7% during the next financial year, while the two-wheeler market is projected to grow between 6-8%. The growth forecast for the commercial vehicle market is seen in the range of 4-6%, while the three-wheeler market is expected to grow at 9-10%.

(https://www.autocarpro.in/news/siam-looking-ahead-conclave-estimates-indias-fy27-pv-growth-at-5-7-2w-at-6-8-130618)

India's ABS and Polystyrene markets continue to be influenced by global market trends and trade dynamics. Changes in international prices, demand from other countries, and geopolitical factors can have indirect effects on the Indian market.

In FY 2025-26, the ABS market in India has reached to approximately 360 KT and we expect it to grow at a CAGR (Compound Annual Growth Rate) of approx. 7- 8% until the fiscal year 2030.

India's Polystyrene market demand stood at 280 KT in FY 2025-26 and is projected to grow at a CAGR (Compound Annual Growth Rate) of approx. 5-6% until the fiscal year 2030.

Annexure - V to the Board's Report

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNINGS AND OUTGO

Pursuant to provisions of Section 134(3) (m) of the Act and Rule 8(3) of Companies (Accounts) Rules, 2014

CONSERVATION OF ENERGY

A. Energy conservation measures taken:

(i) Efforts have been initiated to improve overall equipment efficiency at all plants.

(ii) Power factor has been maintained high throughout the year by proper monitoring of the capacitor banks at all plants.

(iii) The reuse of steam condensate generated from steam usage is stored and used as raw material instead of draining to waste, reducing water consumption.

(iv) Installation of screw air compressor with variable frequency drive has reduced the power consumption at all plants.

(v) Changeover from CFL/MLL to LED lights for streetlights has resulted in energy savings at Dahej, Nandesari, Katol & Moxi plants.

(vi) Sludge treatment has been optimized in Nandesari plant, resulting in energy savings.

(vii) Optimization in utility booster pump from Aglo reactor in Nandesari plant resulting in energy savings.

(viii) Cooling tower fan optimization in Nandesari plant resulting in energy savings.

(ix) All roots blower for pneumatic conveying system are provided with Acoustic Enclosure to maintain noise level below prescribed levels, at Moxi & Katol plant.

(x) Premium efficiency motors installed resulting in energy saving, as a part of Moxi 100 project.

(xi) Bio digesters are installed in Katol, Nandesari, Dahej and Moxi site to convert domestic food waste to Natural Gas. This energy is used for cooking.

(xii) Installation of AVR Panel for Lighting resulting in energy saving, in Katol site.

(xiii) Replacement of canned pump in Hot oil unit circuit with air cooled centrifugal pump, at Katol site.

(xiv) Optimization of boiler operations and steam consumption at Katol site.

(xv) Nandesari site has taken initiative to use the Common utility (steam) for operations (steam outsourcing), from the GIDC.

B. Steps taken by the Company for using alternate sources of Energy.

- Fuel switch over from furnace oil to natural gas at Nandesari, Katol and Dahej plant has been implemented for cleaner environment and better energy efficiency.

  In a strategic move toward sustainability, Styrenix Performance Materials has signed definitive agreements with 36.13% equity stake in "Clean Max Jasper Pvt. Ltd." (CMJPL), a renewable energy firm engaged in wind-solar hybrid power generation and transmission.

  This acquisition aligns with Styrenix' s commitment to using green energy in coming years for protection of environment, reducing CO_2 emissions.

C. Capital investment on energy conservation equipment.

No additional capital investment on energy conservation equipment for various projects was done for 2025-26. The company has implemented and sustained reliable performance from the capital investments made in 2023-24.

c. A brief on types of customers:

Styrenix operates as a 100% B2B business, supplying polymer materials in granular form to plastic processing customers. These customers convert our materials through various processing methods such as injection molding, extrusion, and blow molding.

The end-use applications of our materials span a wide range of industries, including automotive (two-wheelers and four-wheelers), household appliances (refrigerators, air conditioners, washing machines, geysers, juicer mixers, etc.), electrical, electronics, stationery, packaging, construction, and other miscellaneous segments.

Among the OEMs, some have their own in-house plastic processing capabilities, while many outsource plastic component manufacturing to Tier 1 and Tier 2 vendors, who are also our customers. We serve these plastic processing customers directly, while also catering to small and medium-sized customers through our distributor channel partners.

26. **Overview of the entity's material responsible business conduct issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications.**[1]

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Greenhouse Gas Emissions	Risk	Styrenix is a chemical manufacturing company that manufactures SAN and ABS. Scope 1 and Scope 2 are the direct emissions that generate during the manufacturing process. Operating risks and costs associated with regulatory compliance as well as GHG emissions may arise for chemical entities.	To reduce GHG emissions the Company has taken various initiatives: a. Establishing green belts covering 29,922 square meters around its industrial estate and neighbouring villages like Katol, Nandesari, and Moxi to enhance local ecosystems. b. Optimization combustion in boilers for efficiency. c. APCM like cyclone separators, bag filters, and dispersion stacks are installed to control emissions. d. Styrenix uses alternate fuel [natural gas only) instead of liquid fuel at all its operations, to reduce GHG emissions. e. Steps are already taken to move in the direction of green energy (wind-solar hybrid power) in coming years. f. Emissions monitored as per the legal requirements, well below the permissible limits. This supports Styrenix' s commitment to reducing its carbon footprint and promoting cleaner energy alternatives.	Negative (There has been no negative impact in the reporting period of 2025-26)
2	Air Quality	Risk	Air emissions from chemical manufacturing may also include nitrogen oxides (NOx), sulphur dioxides (SOx), and hazardous air pollutants (HAPs), in addition to greenhouse gases (GHGs). These emissions are usually caused by the burning of fuel and the processing of feedstock, just as greenhouse gases.	Company is committed to ensuring the safe handling and containment of hazardous materials, aligning with regulatory requirements and best practices for industrial operations. a. APCM like cyclone separators, bag filters, and dispersion stacks are installed to control emissions. b. Styrenix uses alternate fuel [natural gas only) instead of liquid fuel at all its operations. c. Emissions are monitored periodically as per the legal requirements, well below the permissible limits.	Negative (There has been no negative impact in the reporting period of 2025-26)

[1] Material issues identified are referred from the Sustainability Accounting Standards Board (SASB) 2023-24 version. SASB Standards are maintained and enhanced by the International Sustainability Standards Board (ISSB); this follows the SASB's merger with the International Integrated Reporting Council (IIRC) into the Value Reporting Foundation (VRF) and subsequent consolidation into the IFRS® Foundation in 2022.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
3	Energy Management	Risk	Purchased electricity account for a sizeable portion, fossil fuels like natural gas and diesel are typically the most commonly used non-feedstock energy source. A sizeable portion of production costs could come from energy purchases, also contributes to the GHG emissions.	a. Steps are already taken to move in the direction of green energy (wind-solar hybrid power) in coming years. b. Awareness has been created regularly for energy savings at all sites. c. The Company has switched to LED lights for street lighting, replacing CFL or MLL lights, resulting in greater energy efficiency, longer lifespan, and reduced maintenance costs. d. Transitioning from furnace oil to natural gas at Nandesari, Katol, and Dahej plants promotes a cleaner environment and enhances energy efficiency. e. Bio digesters installed at Katol, Nandesari, Dahej, and Moxi sites convert food waste into natural gas, used as a sustainable cooking fuel alternative to LPG or electricity.	Negative (There has been no negative impact in the reporting period of 2025-26)
4	Water Management	Risk	Lack of water may raise the risk of operational disruption and raise capital and procurement expenses. Resource depletion.	a. Continual awareness to employees including contractors for water conservation is done at all sites. b. Treated water from ETP at Katol, Moxi and Nandesari sites is reused for gardening and green belt. c. Optimization of sewage treatment plant (STP) operations at the Katol site to enhance the efficiency and effectiveness of the STP processes to ensure better treatment of wastewater generated on-site. d. Advanced dissolved air flotation (DAF) systems and supplementary secondary clarifiers have been installed at the Nandesari site's wastewater treatment plant (WWTP). These enhancements are geared towards optimizing the treatment process for incoming effluent, particularly focusing on reducing total suspended solids (TSS) content. e. As a water conservation initiative, water saving tap designs are used at site for reducing freshwater consumption.	Negative (There has been no negative impact in the reporting period of 2025-26)

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5	Hazardous Waste Management	Risk	Hazardous waste at site needs careful handling storage, segregation, as it has potential for land contamination if spilled. When it comes to the transportation, treatment, storage, and disposal of certain wastes, there are legal and practical obstacles that entities must overcome in order to manage waste. Efficient waste management and recycling raises brand value while cutting expenses.	a. Hazardous waste storage facilities with adequate design with secondary containment are provided at all sites. b. Periodic awareness of employees & contractors is done for waste handling and storage. c. Waste generation is minimized by means of adequate technologies & process optimization. d. Hazardous waste is disposed in accordance with local laws (Pollution Control Boards).	Negative (There has been no negative impact in the reporting period of 2025-26)
6	Workforce Health & Safety	Opportunity	Developing a strong safety culture is essential to proactively reducing safety impacts, which could otherwise have a negative financial impact and lead to increased medical expenses, legal issues, and lost productivity. Our significant manufacturing knowledge & Safety systems has allowed us to build a world-class safety culture. This promotes increased efficiency among our employees because the Company is confident in their workplace safety. In the long run, this improves product quality and cuts expenses. As an added opportunity, company has set its Health & Safety systems as per ISO 45001: 2018 standard.	Not Applicable	Positive

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
7	Safety & Environmental Stewardship of Chemicals	Risk	For companies in the chemicals sector, product safety and stewardship are vital concerns. The possibility of chemicals having negative effects on human health or the environment throughout the usage phase may alter product demand and regulatory risk, which may have an impact on revenues and raise operating, regulatory compliance, and mitigation expenses.	a. The company has implemented adequate controls in processes to prevent any injury, ill health or harm to environment, in line with legal requirements. b. Periodic safety audits are conducted to monitor and additional improvement actions are taken as needed. c. The Company is taking action to improve environmental impact assessments and prioritize research and development efforts to enhance process safety.	Negative (There has been no negative impact in the reporting period of 2025-26)
8	Management of the Legal & Regulatory Environment	Opportunity	The industry must anticipate and adjust to legislative developments in the short and long terms, since they have a substantial impact on product demand, manufacturing costs, and brand value. The Company has adopted a clear regulatory management plan that connects company performance with long-term environmental results and accounts for societal externalities which has resulted in reduced regulatory uncertainty, increased brand value, and enhanced competitiveness.	Not Applicable	Positive

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
9	Operational Safety, Emergency Preparedness & Response	Risk	The Chemicals industry faces significant health, safety, and emergency management challenges due to the use of hazardous substances like Styrene, Butadiene, and Acrylonitrile. Accidental releases of these substances can occur due to technical failure, human error, or weather. The combustible nature of these substances and high operating temperatures increase the risk of explosions, hazardous spills, and other emergencies. These events can harm workers, communities, and the environment. Therefore, strong process safety management can reduce operational downtime, mitigate costs, and improve workforce productivity.	The company has robust SHE systems implementation in place in line with ISO 45001: 2018 requirements. Onsite emergency preparedness & response plans are in place for all sites and offices. All emergency and first aid fire fighting equipment's are maintained by periodic maintenance and inspections for maintaining their integrity. The Company avoids these threats by regular asset care audits, risk appraisal using scientific methodologies such as HAZOP, and environmental impact assessments. Workforce training, simulated drills for disaster management engagement with the neighbourhood, and research and development to increase process safety. Company has strong Process Safety Management Program.	Negative (There has been no negative impact in the reporting period of 2025-26)
10	Community Relations	Opportunity	Chemical entities are crucial economic contributors, providing employment and capital for communities. However, environmental policy, health, and process safety issues have significant regulatory, operational, financial, and reputational implications. Long-term health impacts from air emissions and water use, and potential process safety incidents can lead to regulatory penalties and legal action. Styrenix conducts an Environmental Impact assessment to enhance community relations. Also, company conducts various awareness programs in its neighbourhood and CSR programs.	Not Applicable	Positive

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment/ evaluation/assurance has been carried out by an external agency.

Our Company undergoes an annual environmental audit administered by auditors appointed by the Gujarat Pollution Control Board (GPCB) across all our sites. Furthermore, our manufacturing facilities hold ISO 14001 certification from the DQS Certification body, which rigorously evaluates our environmental management systems.

2. **Please provide details of total Scope 3 emissions & its intensity, in the following format:**

Parameter	Unit	FY 2025-26	FY 2024-25

3. **With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.**

The company refrains from conducting its operations in environmentally fragile or ecologically sensitive regions. This strategic decision underscores the company's commitment to responsible business practices and environmental stewardship, avoiding potential harm to delicate ecosystems. By deliberately choosing locations that are not ecologically sensitive, the company aims to minimize its environmental impact and contribute to the preservation of biodiversity and natural habitats.

4. **If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:**

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	2025-26: Haz. Waste reduction	Nandesari site took objective to reduce hazardous waste generation by 5%, by optimizing chemical treatment dosing and optimizing dewatering operations.	Reduction of pollution load on environment.
2	Tree Plantation	495 Nos of trees were planted in total for all 4 site locations during environmental day celebrations.	Reduce air pollution.

Initiatives implemented & sustained from previous years are detailed below:

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Elimination of waste incineration	The sludge from the Environmental Treatment Plant (ETP) undergoes pre-processing before being utilized as an alternative fuel source for energy recovery in cement manufacturing through co-incineration.	The outcome resulting from the strategies and actions described above is the decrease in greenhouse gas emissions.
2	Reuse of treated effluent	All the effluent treated at the Dahej and Katol sites, along with the domestic wastewater treated at the Moxi site, undergoes recycling for gardening purposes.	This entails utilizing the treated effluent and wastewater as a sustainable water source for nurturing plants and green spaces, contributing to water conservation efforts and promoting eco-friendly practices within these areas.
3	Alternate Fuel usage	The transition from using furnace oil to natural gas as fuel has been successfully carried out at the Nandesari, Katol, and Dahej plants. This strategic shift aims to promote a cleaner environment and enhance energy efficiency within these facilities. Bio digesters have been installed across multiple locations including Katol, Nandesari, Dahej, and Moxi sites with the purpose of transforming domestic food waste into natural gas through a biological process. This natural gas is subsequently utilized as a cooking fuel, serving as a sustainable and eco-friendly alternative to traditional cooking fuels such as LPG or electricity.	By utilizing natural gas, which is a cleaner-burning fuel compared to furnace oil, the plants can significantly reduce their emissions of pollutants and greenhouse gases. This transition not only aligns with environmental sustainability goals but also improves operational efficiency and contributes to a more sustainable and responsible approach to industrial production. The implementation of bio digesters not only facilitates the effective management of organic waste but also promotes the generation of renewable energy, contributing to the reduction of greenhouse gas emissions and fostering a more environmentally conscious approach to waste management and energy utilization.

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
4	Energy Reduction	LED lights have been adopted as the primary source of illumination for street lighting, replacing conventional CFL or MLL lights. This transition to LED technology offers several advantages, including greater energy efficiency, longer lifespan, and reduced maintenance costs.	LED lights consume significantly less energy compared to CFL or MLL lights, resulting in lower electricity consumption and greenhouse gas emissions. Additionally, their longer lifespan reduces the frequency of replacements, leading to cost savings and reduced waste generation. By choosing LED lights for street lighting, not only is energy efficiency enhanced, but the overall environmental impact is minimized, contributing to sustainable urban development initiatives.
5	Water consumption reduction	Improvement of sewage treatment plant (STP) operations is being pursued at the Katol site. This optimization effort involves enhancing the efficiency and effectiveness of the STP processes to ensure better treatment of wastewater generated on-site.	By optimizing STP operations, the aim is to achieve higher levels of pollutant removal and overall wastewater treatment performance. This may include implementing advanced treatment technologies, optimizing chemical dosing, enhancing monitoring and control systems, and improving maintenance practices.
6	Waste Water Treatment Plant rewamping–Use of DAF systems and additional Secondary clarifiers.	Advanced dissolved air flotation (DAF) systems and supplementary secondary clarifiers have been installed at the Nandesari site's wastewater treatment plant (WWTP). These enhancements are geared towards optimizing the treatment process for incoming effluent, particularly focusing on reducing total suspended solids (TSS) content.	By integrating these enhancements, the objective is to substantially decrease the level of suspended solids present in the treated water, consequently boosting the overall efficiency of the treatment process. This leads to a further enhancement in the quality of wastewater, particularly in terms of reducing the TSS discharged and lessening the environmental pollution load.
7	Energy Reduction, Emission reduction	The Nandesari site has initiated a program to utilize common utility services, particularly steam, sourced from the Gujarat Industrial Development Corporation (GIDC), rather than operating individual site boilers. This strategic move involves discontinuing the operation of boilers on-site.	Utilizing the steam outsourcing opportunity facilitated by GIDC, the site endeavors to enhance its energy efficiency and operational performance, consequently leading to a decrease in Scope 1 and Scope 2 emissions at the site.
	Energy Reduction	The Nandesari site's wastewater treatment plant has upgraded its sludge dewatering process by installing a highly efficient screw press (volute type) and discontinuing the operation of the RVBF (Rotary Vacuum Belt Filter).	This upgrade enhances the dewatering process, ensuring more effective removal of water from the sludge before disposal. By adopting the screw press technology, the site improves its operational efficiency and reduces energy consumption compared to the previous method. Additionally, discontinuing the RVBF operation streamlines the treatment process, potentially reducing maintenance requirements and operational costs associated with the previous dewatering method.

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
		At the Katol site, a canned pump within the hot oil unit circuit has been replaced with an air-cooled centrifugal pump.	This upgrade involves substituting the existing pump technology with a more efficient and reliable air-cooled centrifugal pump. Unlike canned pumps, which rely on external cooling systems, air-cooled centrifugal pumps utilize ambient air for cooling, simplifying maintenance and reducing energy consumption. This replacement enhances the reliability and performance of the hot oil unit circuit, contributing to improved operational efficiency and reduced downtime. Additionally, the adoption of air-cooled centrifugal pumps aligns with the site's commitment to modernizing equipment for enhanced reliability and sustainability.
		Efforts have been made to optimize the operations of boilers and steam consumption at the Katol site. This optimization initiative involves fine-tuning the processes and procedures related to boiler operations to achieve maximum efficiency and effectiveness.	By carefully managing steam consumption, the site aims to minimize energy wastage and improve overall operational performance. This optimization not only reduces operational costs but also contributes to environmental sustainability by conserving energy resources and reducing greenhouse gas emissions associated with steam production. Additionally, enhancing boiler operations ensures reliable and uninterrupted steam supply, supporting the site's production needs while maintaining a focus on efficiency and sustainability.
8	Water consumption reduction	At Nandesari site, the water used for hydrotesting of reactors is now reused for additional testing, thus saving the water.	Water resource consumption is achieved.
9	Water consumption reduction	The steam condensate generated from steam usage is stored and used as raw material instead of draining to waste treatment.	Reduction in water consumption and also reduction in waste and treatment.
10	Water and energy consumption	Regeneration water from Demin plant is now segregated and treated separately based on its quality, this has reduced the load on ETP and also the energy and chemical consumption.	Reduction on chemical resource consumption which has potential to increase treates water pollution load and also energy savings due to less hydraulic load treatment.
11	Water consumption reduction	The tap design of domestic water is changed with the discharge nozzle having 80% saving in water consumption based on flowrate.	Reduction in domestic water consumption including ground water conservation.

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

The Company maintains a robust Emergency Management System and plan to effectively address any unforeseen events. This system encompasses organizational structures and provides clear guidance to management, facilitating the efficient management of incidents or crises. The primary objective is to minimize the overall negative impact of such situations and expedite a return to normal operations. The Incident and Emergency Management system is designed to address events that could potentially disrupt business operations, damage credibility, or pose risks to economic, environmental, safety, health, security, or legal aspects. Moreover, it accounts for scenarios that may require significant regional or global resources to manage effectively. Regular simulations of emergency plans are conducted to assess the preparedness and response capabilities, as well as to identify and mitigate any potential gaps in the system. This proactive approach ensures that the Company remains vigilant and well-prepared to handle emergencies, thereby safeguarding its operations and stakeholders.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

The operations of the plant have minimal environmental impact. We have implemented Air Pollution Control Measures at various pollution sources across our manufacturing sites, ensuring that emissions remain well below the limits set by regulatory bodies such as the Gujarat Pollution Control Board (GPCB) and the Central Pollution Control Board (CPCB).

To verify the effectiveness of these controls, we conduct periodic monitoring through both the State Pollution Control Board and laboratories approved by the National Accreditation Board for Testing and Calibration Laboratories (NABL). This systematic approach ensures that we maintain compliance with environmental standards and continuously improve our pollution mitigation efforts.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

The Company has not undertaken any mitigation or adaptation measures as of yet.

8. How many Green Credits have been generated or procured :

a. **By the listed entity**

b. **By the top 10 (in terms of value purchases and sales respectively) value chain partners.**

Company has not generated green credits or produced currently.

PRINCIPLE 7:

Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

17 PARTNERSHIPS FOR THE GOALS

Essentials Indicators

1. a. Number of affiliations with trade and industry chambers/ associations.

The Company is associated with 4 (Four) trade and industry chambers/ associations.

b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.

S. No	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)
1	Plastics Export Promotion Council	National
2	Federation of Gujarat Industries	State
3	Chemicals & Petrochemicals manufacturers Association	National
4	Centralized Extended Producers Responsibility Portal for Plastic Packaging	National

2. **Provide details of corrective action taken or underway on any issues related to anti competitive conduct by the entity, based on adverse orders from regulatory authorities**

Name of authority	Brief of the case	Corrective active taken
Not Applicable		

Leadership Indicators

1. **Details of public policy positions advocated by the entity:**

Sr. No	Public policy advocated	Method resorted for such advocacy	Whether information available in public domain? (Yes/No)	Frequency of Review by Board (Annually/ Half yearly/ Quarterly / Others – please specify)	Web Link, If available
Through a number of industry associations, the Company takes part in issues that promote the public interest and the industry's growth. The Company maintains a Code of Conduct Policy to make sure that, when interacting with the aforementioned trade groups and industry bodies, the highest standards of corporate conduct are upheld.					

PRINCIPLE 8:

Businesses should promote inclusive growth and equitable development

3 GOOD HEALTH AND WELL-BEING
4 QUALITY EDUCATION
8 DECENT WORK AND ECONOMIC GROWTH
9 INDUSTRY, INNOVATION AND INFRASTRUCTURE
13 CLIMATE ACTION
16 PEACE, JUSTICE AND STRONG INSTITUTIONS

Essentials Indicators

1. **Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.**

Name and Brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/ No)	Relevant Web Link
Social Impact Assessment is not applicable to the Company as there has been no direct or indirect impact to the community as well as the environment by any of their operations. The Company remain committed to adhering to applicable laws and regulations while ensuring positive social outcomes in all our endeavours.					

2. **Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:**

S. NO	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	5 of PAFs covered by R&R	Amounts paid to PAFs in the FY (in ₹)
Not Applicable						

3. **Describe the mechanisms to receive and redress grievances of the community.**

Local Community approaches the Site HR Team if they have any grievances.

4. **Percentage of input material (inputs to total inputs by value) sourced from suppliers:**

Parameter	FY 2025-26	FY 2024-25
Directly sourced from MSMEs/ small producers	6%	4%
Directly from within India	15%	17%

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost:

Location	FY 2025-26	FY 2024-25
Rural	2%	2%
Semi-Urban	68%	66%
Urban	25%	27%
Metropolitan	5%	5%

(Place to be categorized as per RBI Classification System–rural / semi-urban / urban / metropolitan)

Leadership Indicators

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Details of negative social impact identified	Corrective action taken
Not Applicable	

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S. No	State	Aspirational District	Amount spent (In ₹)
The Company has not yet embarked on CSR projects in designated aspirational districts as identified by government bodies. However, we remain open to opportunities for meaningful engagement and positive contributions in these areas in the future.			

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No):

No.

(b) From which marginalized /vulnerable groups do you procure?

Not applicable

(c) What percentage of total procurement (by value) does it constitute?

Not applicable

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:

S. No	Intellectual Property based on traditional knowledge	Owned/ Acquired (Yes/No)	Benefit shared (Yes / No)	Basis of calculating benefit share
Considering the nature of operations and business activities of the Company, this element is Not Applicable.				

5. Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.

Name of authority	Brief of the case	Corrective Action taken
Considering the nature of operations and business activities of the Company, this element is Not Applicable		

6. Details of beneficiaries of CSR Projects:

S. No	CSR Project	No. of persons benefitted from CSR projects	% of beneficiaries from vulnerable and marginalized groups
1	Green Infrastructure for Skill Development Institutes.	Not Quantifiable	NA
2	Education related project–support for school and tuition fees of the students.	12 Students	100
3	Upgradation and renovation of two Aanganwadis and construction of 12 Units of Household Sanitary Latrine Bathroom.	120 students and 12 House Holds	100
4	Support to purchase End-fire Prostate Transrectal Transducer Probe.	Not Quantifiable	NA
5	Education related project to support children of leprosy affected families and other underprivileged children.	40 Children	100
6	Support the education of underpriledged children.	101 Students	100
7	Support for specially abled children.	12 Students	100
8	Environmental sustainability and Rural Development throught construction of Check Dam project.	20 Families	100
9	Notebook distributon to school children.	2244	100
10	Promoting sanitation through renovation/ repair of ladies washrooms at campus of Laxminarayan Innovation Technological University (LITU) .	Not Quantifiable	NA
11	Equipment support to Geriatric Medical Care Center–Physiotherapy Unit.	Not Quantifiable	NA
12	Treatment support to Indegent Patients.	20 Patients	100
13	Project for art galleries, studios and infrastructure for protection of art.	Not Quantifiable	NA

PRINCIPLE 9:

Businesses should engage with and provide value to their consumers in a responsible manner

Essentials Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback:

Styrenix follows a structured Non-Conformance Management (NCM) system to effectively address customer complaints. This involves a detailed process including complaint registration, sampling, witnessing, analysis, implementation of corrective actions, and final resolution/settlement.

A dedicated cross-functional team within the Marketing function, known as Technical Service, is responsible for managing and resolving customer complaints in a timely and efficient manner.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	100.00
Safe and responsible usage	100.00
Recycling and/or safe disposal	100.00

3. **Number of consumer complaints in respect of the following:**

Particulars	FY 2025-26			FY 2024-25		
	Received during the Year	Pending resolution at end of year	Remarks	Received during the Year	Pending resolution at end of year	Remarks
Data Privacy	0	0	NIL	0	0	NIL

Restrictive Trade Practices	0	0	NIL	0	0	NIL
Unfair Trade Practices	0	0	NIL	0	0	NIL
Other (Logistics)	237	0	Necessary improvement actions are continuously being implemented to further strengthen customer satisfaction.	213	2	With continued business growth and new product launches, a few routine delivery related issues have emerged. These are being proactively addressed and shall be resolved during upcoming deliveries, reaffirming our focus on customer satisfaction.

4. **Details of instances of product recalls on account of safety issues:**

	Number	Reasons for recall
Voluntary recalls	0	NA
Forced recalls	0	NA

5. **Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.**

   Yes.

   https://styrenix.com/wp-content/uploads/2026/03/Cyber-Security-policy.pdf

6. **Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.**

   No complaints have been reported hence this is not applicable.

7. **Provide the following information relating to data breaches:**

   a. **Number of instances of data breaches:** Nill.

   b. **Percentage of data breaches involving personally identifiable information of customers:** Nill.

   c. **Impact, if any, of the data breaches:** None.

Leadership Indicators

1. **Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).**

   www.styrenix.com.

2. **Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.**

   Product packaging is clearly labelled with relevant information to ensure safe handling, proper usage, and regulatory compliance.

   Each production lot is accompanied by a Test Certificate that explicitly specifies restrictions on use, including non-application in banned or regulated end-use segments.

3. **Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.**

   The marketing team is strategically spread across regions with local offices. In the event of any potential disruption, each sales manager proactively communicates with their respective customers regarding product discontinuation, ensuring timely updates and continuity planning.

4. **Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)**

   Yes, We ensure that all product packaging clearly displays essential product details along with government-mandated information, such as the BIS certification number, to enable proper identification and ensure appropriate usage.

   As an ISO-certified organization, we conduct periodic customer satisfaction assessments using structured formats to continuously monitor feedback and enhance our product and service quality.

Independent Auditor's Report

To The Members Of
Styrenix Performance Materials Limited

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OPINION

We have audited the financial statements of Styrenix Performance Materials Limited ("the company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the statement of changes in equity and the statement of cash flows for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	Auditor's Response
1) Assessment of ongoing income tax and indirect tax litigations [Refer to 1(s) (Material accounting policies) and Note 37 (Contingent liabilities) to the financial statements] As at March 31, 2026, the Company is subjected to indirect tax litigations relating to disallowance of service tax credit on certain input services, and income tax litigations relating to disallowance of expenses, transfer pricing adjustments etc. (together referred to as "litigations"). These matters are in appeal before various judicial forums.	Our audit procedures included the following: • Understanding and evaluating process and controls designed and implemented by the management including testing operating effectiveness of relevant controls • Gaining an understanding of the tax related litigations through discussions with the management, including the significant developments, additions and settlements during the year; • Inspecting demand notices, assessment/transfer pricing orders including documents related to filing of appeals with various authorities/courts, if any, received from tax authorities and evaluating the Company's response to those matters;

Key audit matter	Auditor's Response
The eventual outcome of these litigations is uncertain, and the positions taken by the management are based on the application of significant judgement and estimation. The review of these matters requires application and interpretation of tax laws and reference to applicable judicial pronouncements. Based on management judgement and the advice from external legal and tax consultants and considering the merits of the case, the Company has recognized provisions wherever required and for the balance matters, where the management expects favorable outcome, these litigations have been disclosed as contingent liabilities in the financial statements unless the possibility of outflow of resources is considered to be remote. Given the uncertainty and application of significant judgment in this area in terms of the eventual outcome of litigations, we determined this to be a key audit matter.	• Obtaining confirmations from the Company including the status of the significant litigations, their views regarding the likely outcome and magnitude of the potential exposure; • Evaluating the management's assessment on the likely outcome and potential magnitude of litigations, and • Assessing the adequacy of the Company's disclosures in the financial statements.
2) As described in Note 39 to the standalone financial statement, pursuant to the notification of certain provisions of the new Labour Codes by the Government of India on November 21, 2025, the Company assessed the impact of the changes on employee benefit obligations. Based on management's current assessment and the guidance issued by the Institute of Chartered Accountants of India ("ICAI"), the Company has recognised past service cost aggregating to ₹ 2.78 crores, comprising past service cost relating to gratuity of ₹ 2.28 crores and past service cost relating to leave encashment of ₹ 0.50 crores. The said amount has been disclosed as an Exceptional Item in the standalone financial statement.	Our audit procedures included the following: • Obtaining an understanding of the provisions of the new Labour Codes and management's assessment of their applicability to the Company; • Examining employee compensation and benefit policies, salary registers, and other relevant records and documents; • Reviewing the actuarial valuation report issued by the independent Actuaries in respect of employee benefit obligations and • Evaluating the adequacy of the disclosures made in the financial statements in respect of the new Labour Codes. Based on the procedures performed and the evidence obtained, including the actuarial valuation report obtained from the independent Actuaries, we found management's assessment and conclusion regarding compliance with the new Labour Codes and the related financial statement impact to be reasonable.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

- The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Management Discussion and Analysis, Corporate Governance Report, Business Responsibility and Sustainability Report and Shareholder's Information but does not include the financial statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this audit report.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also expressing our opinion that the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1) As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2) As required by Section 143 (3) of the Act, we report that:

    a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

    b. In our opinion, proper books of account as required by law have been kept by the company so far as it appears from our examination of those books.

    c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.

    d. In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

    e. On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.

    f. The observation relating to the maintenance of accounts and other matters connected therewith, are as stated in paragraph (b) above.

    g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements.

    h. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended.

       In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

    i. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

        i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements–Refer Note 37 to the financial statements.

        ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

        iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

        iv. Refer below mentioned (a), (b) and (c)

            a) The Management has represented that, to the best of it's knowledge and belief, as disclosed in the note 48 to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

            b) The Management has represented, that, to the best of it's knowledge and belief, as disclosed in the note 48 to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. Interim dividends declared and paid by the Company during the year and until the date of this report is in accordance with section 123 of the Companies Act 2013.

vi. Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the company as per the statutory requirements for record retention.

"ANNEXURE – A" TO INDEPENDENT AUDITOR'S REPORT

The annexure referred to in our Independent Auditors' Report to the members of Styrenix Performance Materials Limited ("the Company") on the financial statements for the year ended March 31, 2026, we report that:

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The Company does not hold any intangible assets, hence reporting under this clause is not applicable.

(b) As explained to us, Property, Plant and Equipment have been physically verified by the management in a phased manner over period of two years, which in our opinion is reasonable, having regard to the size of the Company and nature of its assets. No material discrepancies were noticed on such physical verification as compared with the available records.

(c) Based on the examination of the registered sale deed / transfer deed / conveyance deed provided to us, we report that the title deeds of all the immovable properties of land and buildings (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in property, plant and equipment, capital work in progress, and assets held for sale, are held in the name of the Company as at the balance sheet date.

(d) The Company has not revalued any of its property, plant and equipment (including Right of Use assets) during the year. The Company does not have any intangible assets.

(e) According to the information and explanation given to us, no proceedings have been initiated during the year or are pending against the Company as at March 31, 2026 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii) (a) The inventories except for goods-in-transit and stocks held with third parties, were physically verified during the year by the Management at reasonable intervals. In our opinion and based on information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories performed as applicable, when compared with the books of account.

(b) According to the information and explanations given to us, the Company has been sanctioned working capital limits in excess of ₹ 5 crores, in aggregate, at points of time during the year, from banks or financial institutions on the basis of security of current assets. In our opinion and according to the information and explanations given to us, the quarterly returns or statements comprising stock statements, book debt statements, statements on ageing analysis of the debtors/other receivables, and other stipulated financial information filed by the Company with such banks or financial institutions are in agreement with the unaudited books of account of the Company of the respective quarters.

(iii) In respect of Investments made, guarantees provided, security given, loans and advances in the nature of loans

a) According to information and explanation provided to us, the Company has granted loans to employees and provided guarantees to subsidiary company during the year and details of which are as follows:

Particulars	Loans (₹ inCrores)	Corporate Guarantees (₹ in Crores)
Aggregate amount granted/provided during the year		
Subsidiaries		152.33
Others*	0.12	
Balance Outstanding as at Balance Sheet Date in respect of above cases		
Subsidiaries		388.40
Others*	0.14	

*Others refer to unsecured loans given to employees

b) According to information and explanation given to us and based on the audit procedures performed by us, we are of the opinion that the terms and conditions in relation to investments made, guarantees provided and grant of all loans are not prejudicial to the interest of the company.

c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are regular as per stipulation

d) According to information and explanations given to us and based on the audit procedures performed, in respect of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.

e) No loan or advance in the nature of loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.

f) According to information and explanations given to us and based on the audit procedures performed, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause (iii)(f) is not applicable.

(iv) According to the information and explanations given to us, the Company has neither, directly or indirectly, granted any loan, or provided guarantee or security to any of its directors or to any other person in whom the director is interested and accordingly, the requirement to report on clause 3(iv) of the Order with respect to section 185 of the Companies Act, 2013 is not applicable to the Company. Further, the Company has complied with the provisions of Section 186 of the Companies Act, 2013, to the extent applicable

(v) According to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits during the year from the public or under the directives issued by Reserve Bank of India, therefore, the provisions of sections 73 to 76 of the Act and rules framed there under are not applicable to the Company.

(vi) We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014 prescribed by the Central Government under Section 148(1) of the Act, as applicable and are of the opinion that, prima facie, the prescribed accounts and records have been maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

(vii) (a) According to the information and explanations given to us, in respect of statutory dues, The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Income Tax, Customs Duty, Cess, Goods and Service Tax and any other statutory dues with the appropriate authorities.

There were no undisputed amounts payable in respect of such statutory dues which were outstanding as at March 31, 2026 for a period of more than six months from the date they became payable.

(b) Details of dues of Income-tax, Sales Tax, Service Tax, duty of Customs, duty of Excise, Value Added Tax and Goods and service tax which have not been deposited as on March 31, 2026 on account of disputes are given below

(viii) According to the information and explanations given to us, no unrecorded transactions in the books of account have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

(ix) (a) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.

(b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.

(c) The Company has not taken any term loan during the year and there are no unutilized term loans at the beginning of the year and hence, reporting under clause (ix)(c) of the Order is not applicable.

(d) On an overall examination of the financial statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.

(e) The company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

(f) the company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

(x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.

(b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company

(xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

(b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.

(c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year and up to the date of this report.

(xii) The Company is not a Nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii) of the Order is not applicable to the Company.

(xiii) In our opinion and according to the information and explanations given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.

(xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.

(b) We have considered, the internal audit reports issued to the Company during the year and covering the period up to December 2025 and the draft internal audit reports were issued after the balance sheet date covering the period up to March 2026.

(xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with them, hence requirement to report on clause 3(xv) of the Order is not applicable.

(xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi) of the Order is not applicable.

(xvii) The Company has not incurred cash losses in the financial year and in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year hence reporting under this clause in not required.

(xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) (a) In our opinion and according to the information and explanation given to us, there is no unspent amount under sub-section (5) of section 135 of the act pursuant to any project other than ongoing projects. Accordingly, clause 3(xx)(a) of the Order is not applicable.

(b) In our opinion and according to the information and explanation given to us any amount in respect of ongoing projects, the Company has transferred unspent CSR amount under sub-section (6) of section 135 of the act, to a Special account within a period of 30 days from the end of the said financial year in compliance with the provision of section 135(5) of the Companies Act, 2013.

ANNEXURE – B(ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the Internal Financial Controls over Financial Reporting of Styrenix Performance Materials Limited ("the company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining Internal Financial Controls based on the Internal Control over Financial Reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting with reference to financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, , to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

Notes forming part of Standalone Financial Statements

For the year ended March 31, 2026

BACKGROUND

Styrenix Performance Materials Limited (the 'Company') is a public limited Company domiciled in India and is listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The Company is engaged in manufacture, trading and sale of "Engineering Polymers". The Company has manufacturing facilities at Nandesari, Moxi, Katol and Dahej and Research and Development centre at Moxi in Gujarat.

NOTE 1: MATERIAL ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

(i) Compliance with Ind AS:

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Schedule III to the Act.

The accounting policies adopted in the preparation of the financial statements are consistent with those of the previous year.

The material accounting policy information related to preparation of the financial statements have been discussed in the respective notes.

(II) Historical Cost Convention:

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value (refer note 34);
- assets held for sale – measured at lower of its carrying amount and fair value less costs to sell
- defined benefit plans – plan assets measured at fair value (refer note 39).

(b) Segment Reporting

The Company operates in "Engineering Polymers" which in the context of IND AS 108 Operating segments constitutes a single reportable business segment.

(c) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements of the Company are presented in Indian rupee (₹), which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in Statement of profit and loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of profit and loss on a net basis within other income or other expenses.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

(d) Revenue recognition

(i) Sale of goods

The Company is engaged in manufacturing, trading and sale of "engineering Polymers". Sales are recognized when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

Revenue from these sales is recognized based on the price agreed with the customer, net of the estimated discounts based on discount agreements. Revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. No element of financing is deemed present as the sales are made with a credit term of 30-45 days, which is consistent with market practice.

Sale of goods does not involve warranty obligation or right to return.

A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(ii) Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(iii) Commission Income

Commission income is recognized when the terms of the contract are fulfilled.

(iv) Rendering of services

Income from services rendered is recognized based on agreements/arrangements with the customers as the service is performed and there are no unfulfilled obligations.

(e) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

(f) Leases

As a lessee:

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the company. Contracts may contain both lease and non-lease components. As a general rule, the Company separates non-lease components, such as services, from lease payments except where it is not practical to determine non-lease components.

Assets and liabilities arising from a lease are initially measured on present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in substances fixed payments), less any lease incentive receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- payments of penalties for terminating the lease, if the lease term reflects the company exercising that option

Lease payments to be made under reasonably certain extension option are also included in the measurement of the liability. The lease payments are discounted using the lessee's incremental borrowing rate, being the rate that lessee would have to pay to borrow the fund necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar term, security and conditions.

The Company is exposed to potential future increases in variable lease payments based on index or rate, which are not included in the lease liability until they take effect. When adjustment to lease payments based on index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. Finance cost is charged to profit or loss over the lease period so as to produce a constant periodical rate of interest on the remaining balance of the liability for each period.

Variable lease payments other than those based on index or rate are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

Right-of-use assets are measured at cost comprising the following:

- the amount of initial measurement of lease liability,
- any lease payments made at or before the commencement date less any lease incentives received,
- any initial direct costs, and
- restoration costs

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight line basis.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognized on a straight-line basis in the Statement of profit and loss. Short term leases are leases with a lease term of 12 months or less. Low value asset comprise IT equipment and Office Equipment.

As a lessor:

The Company does not have any lease arrangements where the entity is a lessor.

(g) Impairment of assets

The carrying amounts of assets are reviewed at each balance sheet date for any indication of impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(h) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(i) Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost, less provision for impairment.

(j) Inventories

Raw materials, packing materials, stores and spares, work in progress, traded and finished goods are stated at the lower of cost and net realizable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

Costs are assigned to individual items of inventory on the basis of weighted average cost basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(k) Investments and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss and
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income as the case may be. For investments in equity instruments and mutual funds, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through Statement of profit and loss.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of acquisition of financial assets carried at fair value through profit and loss are expensed in the Statement of profit and loss.

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured subsequently at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method.

Equity instruments and investment in mutual funds: The Company subsequently measures all investments at fair value through Statement of Profit and Loss. Dividends and Gain or loss from such investments are recognized in profit or loss as other income when the Company's right to receive payments is established.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortized cost. The impairment methodology applied depends on whether there has been an increase in credit risk (Refer note 35).

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognized only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the group retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

(v) Income recognition

Interest income

Interest income on financial assets at amortized cost is calculated using the effective interest method is recognized in the statement of profit and loss as part of other income. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

Dividends

Dividends are received from financial assets at fair value through profit or loss. Dividends are recognized as other income in profit or loss when the right to receive payment is established.

(l) Derivatives

Derivatives are taken as the hedging instrument by the Company.

For derivatives taken against underlying asset/liability or that are used to hedge forecast transactions, the Company generally designates only the change in fair value of the forward contract related to the spot component and aligned forward element on reporting date.

Gains or losses relating to the effective portion of the change in the spot component and aligned forward element of the forward contracts are recognized in Statement of profit and loss.

(m) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(n) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods and estimated useful lives:

Depreciation is calculated using the straight-line method over useful lives of assets as follows:

Asset Category	Estimated useful life
Lease hold land & Improvements	Lease Term
Building, including temporary structure (*)	3-60 Years
Road (*)	10 Years
Plant & Machinery (*)	3-40 Years
Furniture & Fixtures (*)	3-16 Years
Office Equipment (*)	3-7 Years
Vehicles (*)	8-10 Years

(*)Based on technical evaluation, the management believes that the useful life given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Useful life of Leasehold Improvements is considered based on lease term.

Depreciation and amortization methods and useful lives are reviewed periodically, including at each financial year end.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of profit and loss.

(o) Non-Current Assets Classified as Held for sale

Non-current Assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognized for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognized for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognized. A gain or loss not previously recognized by the date of the sale of the asset is recognized at the date of de-recognition.

Assets are not depreciated or amortized while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognized.

Assets classified as held for sale are presented separately from the other assets in the balance sheet.

(p) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid or not due for payment. The amounts are unsecured and are usually paid as per the agreed payment terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

(q) Borrowings

Borrowings are initially recognized at fair value and are subsequently measured at amortized cost. In case of foreign currency loan, any difference between the proceeds received and repayment amount is recognized in the Statement of profit and loss.

Borrowings are derecognized from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(r) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(s) Provisions and contingent liabilities

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each reporting period and reflect the best current estimate. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

(t) Employee benefits

Short-term employee benefits obligations:

All employee benefits payable within twelve months of service such as salaries, wages, bonus, ex-gratia, medical benefits etc. are classified as short-term employee benefits and are recognized in the Statement of Profit and Loss as an expense and are presented as current employee benefit obligations in the Balance sheet at the undiscounted amount on an accrual basis. Short-term leave encashment is provided at undiscounted amount during the accounting period based on service rendered by employees.

Termination benefits are recognized as an expense as and when incurred.

Defined contribution plans

Contributions to defined contribution schemes such as contribution to Provident Fund, Super annuation fund, Employees' State Insurance Corporation, National Pension Scheme and Labours Welfare Fund are charged as an expense to the Statement of Profit and Loss based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plans

Gratuity: The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is actuarially determined (using the Projected Unit Credit method) by an independent actuary at the end of each year. Remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognized in other comprehensive income.

Non-current compensated absences: The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

(u) Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(v) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(w) Earnings per share

Earnings per share (EPS) is calculated by dividing the net profit or loss for the period attributable to Equity Shareholders by the weighted average number of Equity shares outstanding during the period. Earnings considered in ascertaining the EPS is the net profit for the period and any attributable tax thereto for the period (Refer Note 33).

(x) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off in Crore as per the requirement of Schedule III, unless otherwise stated.

(y) Exceptional items

When items of income or expense are of such nature, size and incidence that their disclosure is necessary to explain the performance of the Company for the year, the Company makes a disclosure of the nature and amount of such items separately under the head "Exceptional items"

(z) Measurement of PBITDA

As permitted by the Guidance Note on Division II–IND AS Schedule III to the Companies Act, 2013 the Company has opted to present Profit before interest (finance cost), tax, depreciation and amortization as a separate line item on the face of the Statement of Profit and Loss for the year. The Company measures PBITDA on the basis of profit / (loss) from continuing operations and other income. In its measurement, the Company does not include depreciation and amortization expense, finance costs and tax expense.

Critical estimates and judgments:

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the group's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Areas involving critical estimates and judgements are:

Estimated useful life of tangible assets

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation and amortization expense in future periods. The policy has been detailed in note 1 (n).

Estimated defined benefit obligation

The Company's retirement benefit obligations are subject to number of assumptions including discount rates, inflation and salary growth. Significant assumptions are required when setting these criteria and a change in these assumptions would have a significant impact on the amount recorded in the Company's balance sheet and the statement of profit and loss. The Company sets these assumptions based on previous experience and third party actuarial advice. Further details on the Company's retirement benefit obligations, including key judgements are set out in note 1 (t) and note 39.

Impairment of financial assets

The impairment provisions for financial assets disclosed are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Further details on impairment of financial assets, including key judgements are set out in note 1 (k) (iii) and note 35 (i)

Leases

Ind AS 116 Leases requires a lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of lease and the importance of the underlying lease to the Company's operations taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics. Further details on Leases, including key judgements are set out in note 1 (f) and note 2 (B)

Provisions and contingent liabilities

A provision is recognized when the Company has a present obligation as result of a past event and it is probable that the outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities may arise in the ordinary course of business in relation to the claims against the Company. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgements and use of estimates regarding the outcome of future events. While ascertaining the possible outcome of contingencies, the management of the Company exercises judgements basis evaluation of the judicial pronouncements and/or legal opinions from an independent expert. Further details are set out in note 1 (s) and note 37.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

NOTE - 34 : FAIR VALUE MEASUREMENTS

A. Accounting classification and fair values

This section mentions the classification of financial instruments and explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

B. Measurement of fair values

i) Valuation techniques and significant unobservable inputs

The carrying amounts of financial assets and liabilities other than those valued at Level 1 and Level 2 are considered to be the same as their fair values due to the current and short term nature of such balances and no material differences in the values. Difference between fair value of non-current borrowings carried at amortised cost and the carrying value is not considered to be material to the financial statement.

ii) Levels 1, 2 and 3

Level 1 : This includes listed equity instruments that have a quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.”

iii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments.
- the fair value of forward foreign exchange contracts are determined using forward exchange rates at the Balance Sheet date.

All of the resulting fair value estimates are included in level 1 and 2.

NOTE - 35 : FINANCIAL RISK MANAGEMENT

Risk management framework

Financial Risk Evaluation and Management is an ongoing process within the Organisation. The Company has a robust risk management framework to identify, monitor and minimize risks. As a process, the risk associated with each area are identified and prioritized based on severity, likelihood and effectiveness. Process owners are identified for each risk and metrics are developed for monitoring and reviewing the risk mitigation controls. Risk evaluation and assessments are reviewed by the Chief Financial Officer (CFO) and Managing Director on a quarterly basis. This is constantly monitored by the Board.

Notes forming part of Standalone Financial Statements

For the year ended March 31, 2026

The Company has exposure to the following risks arising from financial instruments:

i) Credit risk

ii) Liquidity risk

iii) Market risk

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact on the financial statements.

i) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument leading to a financial loss. The Company is exposed to credit risk from its operating activities, primarily trade receivables and from its financing activities, including deposits with banks and other financial instruments.

The carrying amount of financial assets represents the maximum credit exposure, being the total of the carrying amount of balances with banks, short term deposits with banks, trade receivables and other financial assets excluding equity investments.

Trade receivables

Trade receivables of the Company are typically unsecured and derived from sales made to a large number of independent customers. Customer credit risk is managed by the Company based on established policies, procedures and control relating to customer credit risk management. Before accepting any new customer, the Company has appropriate level of control procedures to assess the potential customer's credit quality. The credit-worthiness of its customers are reviewed based on their financial position, past experience and other relevant factors. Outstanding customer receivables are reviewed periodically. The credit period provided by the Company to its customers generally ranges from 0-60 days.

The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account available external and internal credit risk factors, the Company's historical experience for customers and forward looking information. Based on the industry practices and the business environment in which the entity operates, management considers that the trade receivables are credit impaired if the payments are more than 180 days past due.

Other financial assets

The Company has mainly cash and cash equivalents, investment in mutual funds, deposits with banks (PSU and high rated private banks) and government authorities, and security deposits for utilities with government bodies and reputed corporate entities, and for leasehold premises. These are periodically confirmed by respective parties.

Notes forming part of Standalone Financial Statements

ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's cash flow management system ensures, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments.

*The gross outflows of the contractual undiscounted cash flows relating to derivative financial liabilities disclosed in the above table are held for risk management purposes and are not usually settled before contractual maturity.

iii) Market risk

Market risk is mainly driven by changes in economic and political environment across globe, fluctuation in foreign exchange rates and interest rates movement, which affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables, payables and current borrowings. The objective of market risk management is to avoid excessive exposure in foreign currency revenues and costs.

1. Currency risk

The functional currency of the Company is Indian Rupee. The Company is exposed to currency risk on account of payables and receivables in foreign currency. Since there is no material export sales, this is not perceived to be a major risk. Raw materials are mostly imported. The company has a policy to mitigate this risk by taking derivative contracts to protect against any adverse exchange rate fluctuation. This policy is reviewed on a periodic basis.

Company does not use derivative financial instruments for trading or speculative purposes.

EUR sensitivity *		
₹/EUR - Increase by 5%	0.07	(0.02)
₹/EUR - Decrease by 5%	(0.07)	0.02

*Holding all other variables constant

2. Interest rate risk

(a) Interest rate risk exposure

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of variable interest bearing liabilities because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing liabilities will fluctuate because of fluctuations in the interest rates. The Company does not have variable interest rate borrowing.

The Company's fixed rate borrowings were carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Significant estimates: Actuarial assumptions and sensitivity

The significant actuarial assumptions were as follows:

₹ in Crores

Particulars		As at March 31, 2026	As at March 31, 2025
a.	Discount rate (per annum)	7.15%	6.60%
b.	Estimated rate of return on Plan Assets (per annum)	7.20%	7.20%
c.	Rate of escalation in salary (per annum)	6.00%	6.00%

The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market.

The expected rate of return on plan assets is determined considering several applicable factors, mainly the composition of plan assets held, assessed risks and historical results of return on plan assets.

Sensitivity analysis

Reasonable possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

i) **Asset volatility**

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. The plan assets are managed by LIC and are subject to market risk. Any shortfall is contributed to the fund by the Company. The Company intends to maintain the above investment in the continuing years.

ii) **Changes in bond yields**

A decrease in bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Company has not changed the processes used to manage its risks from previous periods. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

Expected contributions to post-employment benefit plans for the year ending March 31, 2026 are ₹ : 1.31 Crore (March 31, 2025: 1.45 Crore)

The weighted average duration of the defined benefit obligation is 5.7 years (2024-25: 5.23 years). The expected maturity analysis of gratuity is as follows:

Independent Auditor's Report

To The Members Of
Styrenix Performance Materials Limited

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

OPINION

We have audited the accompanying consolidated financial statements of Styrenix Performance Materials Limited (hereinafter referred to as "the Parent Company") and its subsidiaries (the Parent Company and its subsidiaries together referred to as "the Group"), comprising the Consolidated Balance Sheet as at March 31, 2026, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Cash Flow Statement, Consolidated Statement of Changes in Equity, for the year then ended, and a summary of the material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2026 of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associates in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of reports of the other auditors referred to in paragraph (a) and (b) of the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

	The Key Audit Matter	**How the key audit matter was addressed in our audit**
1)	Assessment of ongoing income tax and indirect tax litigations [Refer to Note 1(s) – Material Accounting Policies and Note 37 – Contingent Liabilities to the Consolidated Financial Statements] As at March 31, 2026, the Group is subject to various indirect tax and income tax litigations. These include disputes relating to disallowance of service tax credit on certain input services, income tax litigations disallowance of expenses, and transfer pricing adjustments (collectively referred to as "litigations"), which are currently under appeal before various judicial forums. The ultimate outcome of these litigation matters is inherently uncertain and involves significant judgment and estimation by the management. The management's assessment / review involves the interpretation of complex tax laws and reliance on external legal and tax experts. Provisions have been recognized where required based on such assessments, and for matters where a favourable outcome is expected, the litigations have been disclosed as contingent liabilities, except where the possibility of an outflow of economic resources is considered remote. Given the uncertainty of the outcomes and the significant management judgment involved in the assessment, this area has been determined to be a key audit matter.	Our audit procedures included the following: • Understanding and evaluating process and controls designed and implemented by the group including testing operating effectiveness of relevant controls • Gaining an understanding of the tax related litigations through discussions with the management, including the significant developments, additions and settlements during the year; • Inspecting demand notices, assessment/transfer pricing orders including documents related to filing of appeals with various authorities/courts, if any, received from tax authorities and evaluating the Company's response to those matters; • Obtaining confirmations from the Group, including the status of the significant litigations, their views regarding the likely outcome and magnitude of the potential exposure; • Evaluating the reasonableness of management's judgments regarding the likely outcome and potential financial magnitude of litigations; and • Assessing the adequacy and appropriateness of related disclosures made in the consolidated financial statements in accordance with the applicable accounting framework.
2)	As described in Note 39 to the Consolidated financial statement, pursuant to the notification of certain provisions of the new Labour Codes by the Government of India on November 21, 2025, the Company assessed the impact of the changes on employee benefit obligations. Based on management's current assessment and the guidance issued by the Institute of Chartered Accountants of India ("ICAI"), the Company has recognised past service cost aggregating to ₹ 2.78 crores, comprising past service cost relating to gratuity of ₹ 2.28 crores and past service cost relating to leave encashment of ₹ 0.50 crores. The said amount has been disclosed as an Exceptional Item in the Consolidated financial statement.	Our audit procedures included the following: • Obtaining an understanding of the provisions of the new Labour Codes and management's assessment of their applicability to the Company; • Examining employee compensation and benefit policies, salary registers, and other relevant records and documents; • Reviewing the actuarial valuation report issued by the independent Actuaries in respect of employee benefit obligations and • Evaluating the adequacy of the disclosures made in the financial statements in respect of the new Labour Codes. Based on the procedures performed and the evidence obtained, including the actuarial valuation report obtained from the independent Actuaries, we found management's assessment and conclusion regarding compliance with the new Labour Codes and the related financial statement impact to be reasonable.

The Key Audit Matter	How the key audit matter was addressed in our audit
3) As described in Note 52 to the consolidated financial statements relating to the acquisition of a wholly owned subsidiary effective from January 1, 2025, which was initially accounted for on a provisional basis in accordance with Ind AS 103 – Business Combinations. During the year, the Group finalized the purchase price allocation based on the fair valuation of the identifiable assets acquired and liabilities assumed. Based on the valuation carried out by an independent Registered Valuer, the provisional bargain purchase gain of ₹315.78 crores recognized at the acquisition date was finalised to ₹367.60 crores consequent to fair valuation adjustments relating to Buildings & Industrial Structures and Plant & Equipment. Considering the materiality of the transaction and the significant judgments and estimates involved in determining the fair values of the acquired assets and liabilities, including the resultant bargain purchase gain, the matter was considered to be a Key Audit Matter.	Our audit procedures included the following: • Understanding the transaction documents, including the share purchase agreement, and the terms of the acquisition. • Obtained an understanding of the valuation methodologies used by management and the external valuation experts in provisional and final valuation of acquired assets and liabilities. • Reviewed the Final purchase price allocation (PPA) workings, and evaluated the basis for recognition of Bargain Gain (Capital Reserve). • Tested the translation of foreign currency balances related to the acquisition and assessed the appropriateness of the exchange rates used. • Assessed the accounting treatment followed by the company for said acquisition is in accordance with the requirements of Ind AS 103 or other applicable Ind AS and also assess the compliance of the disclosures made in note 52 of the Consolidated Financial Statement with the applicable accounting financial reporting framework. Assessing the accounting treatment adopted by management for compliance with the applicable financial reporting framework

OTHER INFORMATION

The Parent Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Parent Company's annual report, but does not include the financial statements and auditor's report thereon. The above-referred information is expected to be made available to us after the date of this audit report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Parent Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.

The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Parent Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of each company.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial statements of such entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) and (b) of the section titled "Other Matters" in this audit report.

We communicate with those charged with governance of the Parent Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS:

(a) We draw attention to Note 53 to the Consolidated Financial Statement relating to the Scheme of Arrangement pursuant to which Styrenix Polymers (Thailand) Co. Ltd was merged with Styrenix Performance Materials (Thailand) Co. Ltd with effect from June 26, 2025, which is under common control of Styrenix Performance Materials Ltd under a reverse merger arrangement. Pursuant to the Scheme, the assets, liabilities and reserves of Styrenix Polymers (Thailand) Co. Ltd were transferred to and accounted for by Styrenix Performance Materials (Thailand) Co. Ltd at their respective book values in accordance with the applicable accounting principles prescribed for business combinations involving entities under common control.

(b) We did not audit the financial statements and other financial information of two Foreign Subsidiaries, whose financial statements reflect total assets of ₹ 1048.89 Crores as at March 31, 2026, and total revenues of ₹ 952.62 Crores, total profit/(Loss) after tax of ₹ (68.99) Crores, total comprehensive income of ₹ (39.71) Crores and net cashflow increase / (decrease) amounting to ₹ 42.49 Crores for the year ended on that date, as considered in the Consolidated Financial Statements. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these Foreign Subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, insofar as it relates to the aforesaid Foreign Subsidiaries is based solely on the reports of the other auditors.

The financial statements and other financial information of above foreign subsidiaries have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements/ financial information certified by the management.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1) As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of section 143 (11) of the Act, we give in the **"Annexure – A"**, a statement on the matters specified in the paragraph 3 and 4 of the Order to the extent applicable.

2) As required by Section 143 (3) of the Act, based on our audit and on the consideration of the reports of other auditors on separate financial statements of subsidiaries, referred in the Other Matters section above we report, to the extent applicable, that:

   a. We/the other auditors whose report we have relied upon, have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements;

   b. In our opinion, proper books of account as required by law relating to presentation of the aforesaid Consolidated Financial Statements have been kept by the Management of the Company so far as it appears from our examination of those books;

   c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Consolidated Statement of Other Comprehensive Income, the Consolidated Statement of Cash flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of Consolidated Financial Statements.

   d. In our opinion, the aforesaid Consolidated Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended.

   e. On the basis of written representations received from the Directors of the Parent Company as on March 31, 2026 and taken on record by the

Board of Directors of the Parent Company, none of the directors of the Parent Company is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Companies Act, 2013. Reporting on disqualification of directors under Section 164(2) is not applicable to the foreign subsidiary/ies incorporated outside India.

f. With respect to the adequacy of the internal financial controls over financial reporting of the Parent Company and the operating effectiveness of such controls, refer to our separate Report in **"Annexure – B"**. Since the reporting on internal financial controls over financial reporting under Section 143(3)(i) of the Companies Act, 2013 is applicable only to companies incorporated in India, our report does not include such reporting for the foreign subsidiary/ies. Our report in "Annexure – B" expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the Parent Company as at March 31, 2026.

g. In our opinion and to the best of our information and according to the explanations given to us, the managerial remuneration for the year ended March 31, 2026 has been paid or provided by the Parent Company to its directors in accordance with the provisions of Section 197 read with Schedule V to the Companies Act, 2013. The provisions of Section 197 of the Act are not applicable to the foreign subsidiary/ies incorporated outside India;

h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and also other financial information of the subsidiaries as noted in the "Other Matter" Section:

   i. The Consolidated Financial Statements disclosed the impact of pending litigations on the Consolidated financial position of the Group to the Consolidated Financial Statements. (Refer Note: 37 of the Consolidated Financial Statement)

   ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   iii. There were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the Parent Company and its subsidiaries incorporated in India.

   iv. (a) The management of the Parent Company incorporated in India whose financial statements have been audited under the Act, have represented to us that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Parent Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the respective Parent Company incorporated in India ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

   (b) The management of the Parent Company incorporated in India whose financial statements have been audited under the Act, have represented to us, that, to the best of its knowledge and belief, no funds have been received by the Parent Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Parent Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

   (c) Based on such audit procedures as considered reasonable and appropriate in the circumstances performed by us whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (iv) (a) and (iv) (b) contain any material misstatement.

v. The Parent Company incorporated in India have declared and paid interim dividend during the year. Interim dividends declared and paid by the Parent Company during the year and until the date of this report is in accordance with section 123 of the Companies Act 2013.

vi. Based on our examination which included test checks, with respect to the Indian parent company included in the Consolidated Financial Statements, we report that the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility. This feature has been operated throughout the year for all relevant transactions recorded in such software.

Further, during the course of our audit, we did not come across any instance where the audit trail feature was tampered with. Additionally, the audit trail records have been preserved by the Indian parent company in accordance with the statutory requirements for record retention.

This reporting is not applicable to the foreign subsidiaries included in the Consolidated Financial Statements, which is governed by the local laws and accounting systems of the respective jurisdiction.

"ANNEXURE B" TO THE INDEPENDENT AUDITOR'S REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS OF STYRENIX PERFORMANCE MATERIALS LIMITED

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Styrenix Performance Materials Limited** (hereinafter referred to as "the Parent Company") which is incorporated in India, as of March 31, 2026 in conjunction with our audit of the Consolidated Financial Statements of the Group for the year ended on that date. The Group comprises the Parent Company and its foreign subsidiaries, which are incorporated outside India.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the **Parent Company**, which is incorporated in India, is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the **Guidance Note on Audit of Internal Financial Controls Over Financial Reporting** (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation, and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records, and timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent company incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Parent company incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to fraud or error may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Parent Company has, in all material respects, maintained adequate internal financial controls over financial reporting and such internal financial controls were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India (ICAI).

Other Matters

This report does not include a report on the internal financial controls over financial reporting in respect of the foreign subsidiaries, as such reporting is not required under Section 143(3)(i) of the Act for entities incorporated outside India.

Our opinion is not modified in respect of this matter.

Ltd during the quarter April to June 25 and effective Jun 26, 2025 Styrenix Performance Materials (Thailand) Ltd shall continue as surviving entity.

NOTE 1: MATERIAL ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Principal of Consolidation

A subsidiary is an entity that is, directly or indirectly, controlled by the Holding Company. Controls exists when the Holding Company, directly or indirectly, has power over the investee, is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity.

Consolidation of a subsidiary begins when the Holding Company, directly or indirectly, obtains control over the subsidiary and ceases when the Holding Company, directly or indirectly, loses control of the subsidiary. Income and expenses of a subsidiary acquired or disposed of during the year are included in the Consolidated Statement of Profit and Loss from the date the Holding Company, directly or indirectly, gains control until the date when the Holding Company, directly or indirectly, ceases to control the subsidiary.

The Consolidated Financial Statements relating to "Styrenix Performance Materials Limited." (The Holding Company) and its subsidiaries have been prepared on the following basis:

I. The Consolidated Financial Statements of the Holding Company and its subsidiaries are combined on a line-by-line basis by adding together items of assets, liabilities, equity, incomes, expenses and cash flows, after fully eliminating intra-group balances and intragroup transactions resulting in unrealised Profit / (Loss) in accordance with the Ind AS 110 "Consolidated Financial Statements". The accounting policies of subsidiaries have been harmonised to ensure consistency with the policies adopted by the Holding Company.

II. Profits or losses resulting from intra-group transactions that are recognized in assets, such as Inventory, are eliminated in full.

III. In the case of foreign subsidiaries, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities are converted at rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognized in the Foreign Currency Translation Reserve (FCTR).

IV. The Consolidated Financial Statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Holding Company's Standalone Financial Statements.

V. The carrying amount of the Holding Company's investment in each subsidiary is offset (eliminated) against the Holding Company's portion of the equity in each subsidiary.

VI. Non-controlling interest represents that part of the total comprehensive income and net assets of subsidiaries attributable to interests that are not owned, directly or indirectly, by the Holding Company.

VII. Loss of Control:

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it:

i. Derecognises the assets (including goodwill) and liabilities of the subsidiary.

ii. Derecognises the carrying amount of any non-controlling interests.

iii. Derecognises the cumulative translation differences recorded in equity.

iv. Recognises the fair value of the consideration received.

v. Reclassifies the parent's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

vi. Recognises the fair value of any investment retained.

vii. Recognises any surplus or deficit in profit or loss.

(b) Basis of preparation

(i) Compliance with Ind AS:

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria as set out in the Schedule III to the Act.

The accounting policies adopted in the preparation of the financial statements are consistent with those of the previous year.

The material accounting policy information related to preparation of the financial statements have been discussed in the respective notes.

(ii) Historical cost convention:

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value (refer note 34);
- assets held for sale – measured at lower of its carrying amount and fair value less costs to sell
- defined benefit plans – plan assets measured at fair value (refer note 39).

(c) Segment Reporting

The Group operates in "engineering Polymers" which in the context of IND AS 108 Operating segments constitutes a single reportable business segment.

The Group primarily operates in India and therefore the analysis of geographical segment is demarcated into its Indian and Overseas operation (Refer Note 41).

(d) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements of the Group are presented in Indian rupee (₹), which is the Group's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in Statement of profit and loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of profit and loss on a net basis within other income or other expenses.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

(e) Revenue recognition

(i) Sale of goods

The Group is engaged in manufacturing, trading and sale of "engineering Polymers". Sales are recognized when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

Revenue from these sales is recognized based on the price agreed with the customer, net of the estimated discounts based on discount agreements. Revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. No element of financing is deemed present as the sales are made with a credit term of 30-45 days, which is consistent with market practice.

Sale of goods does not involve warranty obligation or right to return.

A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(ii) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(iii) Commission Income

Commission income is recognized when the terms of the contract are fulfilled.

(iv) Rendering of services

Income from services rendered is recognized based on agreements/arrangements with the customers as the service is performed and there are no unfulfilled obligations.

(f) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

(g) Leases

As a lessee:

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Contracts may contain both lease and non-lease components. As a general rule, the Group separates non-lease components, such as services, from lease payments except where it is not practical to determine non-lease components.

Assets and liabilities arising from a lease are initially measured on present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in substances fixed payments), less any lease incentive receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- payments of penalties for terminating the lease, if the lease term reflects the group exercising that option

Lease payments to be made under reasonably certain extension option are also included in the measurement of the liability. The lease payments are discounted using the lessee's incremental borrowing rate, being the rate that lessee would have to pay to borrow the fund necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar term, security and conditions.

The Group is exposed to potential future increases in variable lease payments based on index or rate, which are not included in the lease liability until they take effect. When adjustment to lease payments based on index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. Finance cost is charged to profit or loss over the lease period so as to produce a constant periodical rate of interest on the remaining balance of the liability for each period.

Variable lease payments other than those based on index or rate are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

Right-of-use assets are measured at cost comprising the following:

- the amount of initial measurement of lease liability,
- any lease payments made at or before the commencement date less any lease incentives received,
- any initial direct costs, and
- restoration costs

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight line basis.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognized on a straight-line basis in the Statement of profit and loss. Short term leases are leases with a lease term of 12 months or less. Low value asset comprise IT equipment and Office Equipment.

As a lessor:

The Group does not have any lease arrangements where the entity is a lessor.

(h) Impairment of assets

The carrying amounts of assets are reviewed at each balance sheet date for any indication of impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(i) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(j) Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost, less provision for impairment.

(k) Inventories

Raw materials, packing materials, stores and spares, work in progress, traded and finished goods are stated at the lower of cost and net realizable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

Costs are assigned to individual items of inventory on the basis of weighted average cost basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(l) Investments and other financial assets

(i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss and
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income as the case may be. For investments in equity instruments and mutual funds, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through Statement of profit and loss.

(ii) Measurement

At initial recognition, the Group measures a financial asset at its fair value. Transaction costs of acquisition of financial assets carried at fair value through profit and loss are expensed in the Statement of profit and loss.

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured subsequently at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method.

Equity instruments and investment in mutual funds: The Group subsequently measures all investments at fair value through Statement of Profit and Loss. Dividends and Gain or loss from such investments are recognized in profit or loss as other income when the Group's right to receive payments is established.

(iii) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortized cost. The impairment methodology applied depends on whether there has been an increase in credit risk (Refer note 35).

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognized only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Group has not retained control of the financial asset. Where the group retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

(v) Income recognition

Interest income

Interest income on financial assets at amortized cost is calculated using the effective interest method is recognized in the statement of profit and loss as part of other income. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

Dividends

Dividends are received from financial assets at fair value through profit or loss. Dividends are recognized as other income in profit or loss when the right to receive payment is established.

(m) Derivatives

Derivatives are taken as the hedging instrument by the Group.

For derivatives taken against underlying asset/liability or that are used to hedge forecast transactions, the Group generally designates only the change in fair value of the forward contract related to the spot component and aligned forward element on reporting date.

Gains or losses relating to the effective portion of the change in the spot component and aligned forward element of the forward contracts are recognized in Statement of profit and loss.

(n) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(o) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods and estimated useful lives:

Depreciation is calculated using the straight-line method over useful lives of assets as follows:

Asset Category	Estimated useful life
Lease hold land & Improvements	Lease Term
Building, including temporary structure (*)	3-60 Years
Road (*)	10 Years

(*)Based on technical evaluation, the management believes that the useful life given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Useful life of Leasehold Improvements is considered based on lease term.

Depreciation and amortization methods and useful lives are reviewed periodically, including at each financial year end.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of profit and loss.

(p) Non-Current Assets Classified as Held for sale

Non-current Assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognized for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognized for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognized. A gain or loss not previously recognized by the date of the sale of the asset is recognized at the date of de-recognition.

Assets are not depreciated or amortized while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognized.

Assets classified as held for sale are presented separately from the other assets in the balance sheet.

(q) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid or not due for payment. The amounts are unsecured and are usually paid as per the agreed payment terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

(r) Borrowings

Borrowings are initially recognized at fair value and are subsequently measured at amortized cost. In case of foreign currency loan, any difference between the proceeds received and repayment amount is recognized in the Statement of profit and loss.

Borrowings are derecognized from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(s) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(t) Provisions and contingent liabilities

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each reporting period and reflect the best current estimate. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

(u) Employee benefits

Short-term employee benefits obligations:

All employee benefits payable within twelve months of service such as salaries, wages, bonus, ex-gratia, medical benefits etc. are classified as short-term employee benefits and are recognized in the Statement of Profit and Loss as an expense and are presented as current employee benefit obligations in the Balance sheet at the undiscounted amount on an accrual basis. Short-term leave encashment is provided at undiscounted amount during the accounting period based on service rendered by employees.

Termination benefits are recognized as an expense as and when incurred.

Defined contribution plans

Contributions to defined contribution schemes such as contribution to Provident Fund, Super annuation fund, Employees' State Insurance Corporation, National Pension Scheme and Labours Welfare Fund are charged as an expense to the Statement of Profit and Loss based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Group has no further defined obligations beyond the monthly contributions.

Defined benefit plans

Gratuity: The Group provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Group's liability is actuarially determined (using the Projected Unit Credit method) by an independent actuary at the end of each year. Remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognized in other comprehensive income.

Non-current compensated absences: The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

(v) Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(w) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(x) Earnings per share

Earnings per share (EPS) is calculated by dividing the net profit or loss for the period attributable to Equity Shareholders by the weighted average number of Equity shares outstanding during the period. Earnings considered in ascertaining the EPS is the net profit for the period and any attributable tax thereto for the period (Refer Note 33).

(y) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off in Crore as per the requirement of Schedule III, unless otherwise stated.

(z) Exceptional items

When items of income or expense are of such nature, size and incidence that their disclosure is necessary to explain the performance of the Group for the year, the Group makes a disclosure of the nature and amount of such items separately under the head "Exceptional items"

(aa) Measurement of PBITDA

As permitted by the Guidance Note on Division II–IND AS Schedule III to the Companies Act, 2013 the Group has opted to present Profit before interest (finance cost), tax, depreciation and amortization as a separate line item on the face of the Statement of Profit and Loss for the year. The Group measures PBITDA on the basis of profit / (loss) from continuing operations and other income. In its measurement, the Group does not include depreciation and amortization expense, finance costs and tax expense.

Critical estimates and judgments:

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the group's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Areas involving critical estimates and judgements are:

Estimated useful life of tangible assets

The Group reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation and amortization expense in future periods. The policy has been detailed in note 1 (o).

Estimated defined benefit obligation

The Group's retirement benefit obligations are subject to number of assumptions including discount rates, inflation and salary growth. Significant assumptions are required when setting these criteria and a change in these assumptions would have a significant impact on the amount recorded in the Group's balance sheet and the statement of profit and loss. The Group sets these assumptions based on previous experience and third party actuarial advice. Further details on the Group's retirement benefit obligations, including key judgements are set out in note 1 (u) and note 39.

Impairment of financial assets

The impairment provisions for financial assets disclosed are based on assumptions about risk of default and expected loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Further details on impairment of financial assets, including key judgements are set out in note 1 (l) (iii) and note 35 (i)

Leases

Ind AS 116 Leases requires a lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of lease and the importance of the underlying lease to the Group's operations taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics. Further details on Leases, including key judgements are set out in note 1 (g) and note 2 (B)

Provisions and contingent liabilities

A provision is recognized when the Group has a present obligation as result of a past event and it is probable that the outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities may arise in the ordinary course of business in relation to the claims against the Group. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgements and use of estimates regarding the outcome of future events. While ascertaining the possible outcome of contingencies, the management of the Group exercises judgements basis evaluation of the judicial pronouncements and/or legal opinions from an independent expert. Further details are set out in note 1 (t) and note 37.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

NOTE - 34 : FAIR VALUE MEASUREMENTS

A. Accounting classification and fair values

This section mentions the classification of financial instruments and explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

B. Measurement of fair values

i) Valuation techniques and significant unobservable inputs

The carrying amounts of financial assets and liabilities other than those valued at Level 1 and Level 2 are considered to be the same as their fair values due to the current and short term nature of such balances and no material differences in the values. Difference between fair value of non-current borrowings carried at amortised cost and the carrying value is not considered to be material to the financial statement.

ii) Levels 1, 2 and 3

Level 1 : This includes listed equity instruments that have a quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

iii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments.
- the fair value of forward foreign exchange contracts are determined using forward exchange rates at the Balance Sheet date.

All of the resulting fair value estimates are included in level 1 and 2.

NOTE - 35 : FINANCIAL RISK MANAGEMENT

Risk management framework

Financial Risk Evaluation and Management is an ongoing process within the Organisation. The Group has a robust risk management framework to identify, monitor and minimize risks. As a process, the risk associated with each area are identified and prioritized based on severity, likelihood and effectiveness. Process owners are identified for each risk and metrics are developed for monitoring and reviewing the risk mitigation controls. Risk evaluation and assessments are reviewed by the Chief Financial Officer (CFO) and Managing Director on a quarterly basis. This is constantly monitored by the Board.

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2026

The Group has exposure to the following risks arising from financial instruments:

i) Credit risk

ii) Liquidity risk

iii) Market risk

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact on the financial statements.

i) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument leading to a financial loss. The Group is exposed to credit risk from its operating activities, primarily trade receivables and from its financing activities, including deposits with banks and other financial instruments.

The carrying amount of financial assets represents the maximum credit exposure, being the total of the carrying amount of balances with banks, short term deposits with banks, trade receivables and other financial assets excluding equity investments.

Trade receivables

Trade receivables of the Group are typically unsecured and derived from sales made to a large number of independent customers. Customer credit risk is managed by the Group based on established policies, procedures and control relating to customer credit risk management. Before accepting any new customer, the Group has appropriate level of control procedures to assess the potential customer's credit quality. The credit-worthiness of its customers are reviewed based on their financial position, past experience and other relevant factors. Outstanding customer receivables are reviewed periodically. The credit period provided by the Group to its customers generally ranges from 0-60 days.

The Group uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account available external and internal credit risk factors, the Group's historical experience for customers and forward looking information. Based on the industry practices and the business environment in which the entity operates, management considers that the trade receivables are credit impaired if the payments are more than 180 days past due.

Other financial assets

The Group has mainly cash and cash equivalents, investment in mutual funds, deposits with banks (PSU and high rated private banks) and government authorities, and security deposits for utilities with government bodies and reputed corporate entities, and for leasehold premises. These are periodically confirmed by respective parties.

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2026

ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's cash flow management system ensures, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments.

As at March 31, 2026

The gross outflows of the contractual undiscounted cash flows relating to derivative financial liabilities disclosed in the above table are held for risk management purposes and are not usually settled before contractual maturity.

iii) Market risk

Market risk is mainly driven by changes in economic and political environment across globe, fluctuation in foreign exchange rates and interest rates movement, which affect the Group's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables, payables and current borrowings. The objective of market risk management is to avoid excessive exposure in foreign currency revenues and costs.

1. Currency risk

The functional currency of the Group is Indian Rupee. The Group is exposed to currency risk on account of Imports of raw materials and exports of finished goods. To protect against any adverse exchange rate fluctuation, the group mitigates foreign exchange risk by taking derivative contracts and has policy in place which is reviewed on a periodic basis.

Group does not use derivative financial instruments for trading or speculative purposes.

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2026

(a) Foreign currency risk exposure

The Group's exposure to foreign currency risk at the end of the reporting period expressed in ₹, are as follows:

₹ in Crores

Particulars	As at March 31, 2026		As at March 31, 2025	
	USD denominated	EUR denominated	USD denominated	EUR denominated

EUR sensitivity *		
₹/EUR - Increase by 5%	0.01	(0.03)
₹/EUR - Decrease by 5%	(0.01)	0.03

*Holding all other variables constant

2. Interest rate risk

(a) Interest rate risk exposure

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of variable interest bearing liabilities because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing liabilities will fluctuate because of fluctuations in the interest rates.

The group has fixed and floating rate borrowings. Group's fixed rate borrowings were carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates. Floating rate borrowing is exposed to change in respective benchmark rates and it is covered in sensitivity analysis, in case interest rate changes by 1 % higher/ lower.

Significant estimates: Actuarial assumptions and sensitivity

The significant actuarial assumptions were as follows:

₹ in Crores

Particulars		As at March 31, 2026	As at March 31, 2025
a.	Discount rate (per annum)	7.15%	6.60%
b.	Estimated rate of return on Plan Assets (per annum)	7.20%	7.20%
c.	Rate of escalation in salary (per annum)	6.00%	6.00%

The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market.

The expected rate of return on plan assets is determined considering several applicable factors, mainly the composition of plan assets held, assessed risks and historical results of return on plan assets.

Sensitivity analysis

Reasonable possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

₹ in Crores

Particulars	As at March 31, 2026	
	Increase	Decrease
Discount rate (0.5% movement)	(0.44)	0.46
Salary growth rate (0.5% movement)	0.33	(0.32)

Salary growth rate (0.5% movement)	0.40	(0.37)

Risk exposure

Through its defined benefit plans, the Group is exposed to a number of risks, the most significant of which are detailed below:

i) Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. The plan assets are managed by LIC and are subject to market risk. Any shortfall is contributed to the fund by the Group. The Group intends to maintain the above investment in the continuing years.

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2026

ii) Changes in bond yields

A decrease in bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

The Group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Group has not changed the processes used to manage its risks from previous periods. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

Expected contributions to post-employment benefit plans for the year ending March 31, 2026 are ₹ : 1.31 Crore (March 31, 2025: 1.45 Crore)

The weighted average duration of the defined benefit obligation is 5.7 years (2024-25: 5.23 years). The expected maturity analysis of gratuity is as follows:

₹ in Crores

Particulars	Less than a year	Between 1 - 5 year	Over 5 year	Total
Defined benefit obligation (gratuity)				
As at March 31, 2026	2.26	9.06	6.00	**17.32**
As at March 31, 2025	3.42	6.60	4.80	**14.82**

(ii) Unfunded

Compensated absences

The Compensated absences covers the liability for sick, earned, and annual leave benefits. The Actuarial liability for compensated absences as at year ending March 31, 2026 is ₹ 6.22 Crore including 0.50 Crores due to change in wage defination as per new Labour code 2025 (March 31, 2025: ₹ 5.78 Crore). Current year charge is included in Employee benefit expense (Refer Note 30).

Legal Severance Payment Plan

The Legal Severance Payment Plan covers the liability for Styrenix Performance Material (Thailand) Ltd. The Actuarial liability for Legal Severance Payment Plan as at year ending March 31, 2026 is ₹ 43.15 Crore (2024-25 ₹ 41.30 Crore). Current year charge is included in Employee benefit expense (Refer Note 30).

Long service award benefit

The Long service award benefit covers the liability for Styrenix Performance Material (Thailand) Ltd. The Actuarial liability for Long service award benefit as at year ending March 31, 2026 is ₹ 9.98 Crore (2024-25 ₹ 6.51 Crore). Current year charge is included in Employee benefit expense (Refer Note 30).

(iii) New Labour Codes 2025 Impact

On November 21, 2025, the Government of India notified new Labour Codes. The incremental impact on the standalone financial result consist of gratuity liability amounting to ₹ 2.28 Crores and compensation towards leave encashment ₹ 0.50 Crore arising primarily due to change in "wage" definition. The same has been disclosed as an Exceptional Item in the Audited Consolidated Financial Results.

The Group continues to monitor the finalisation of central/state Rules and clarification from the Goverment related to provision of the new Labour Codes.

Notes :

(1) The ratios disclosed for FY 2025-26 are based on the Full year Consolidated Financial Statements, whereas the ratios for the previous FY 2024-25 are based consolidated Financials statements for January 2025 to March 2025.

Accordingly, the comparability of ratios between the two years is limited. In cases where there is a variation of more than 25%, the primary reason is the change in the basis of financial reporting from Full FY 2025-26 to Consolidated period January 2025 to March 2025. The impact of consolidation includes additional revenue, expenses, assets, and liabilities of the acquired subsidiaries which significantly influence ratio calculations such as Debt-Equity Ratio, Inventory Turnover Ratio, Trade Receivables Turnover Ratio, etc.

The Company believes that the changes in ratios are not indicative of operational inefficiencies but are a result of the change in the financial reporting basis.

(2) Return on capital employed, Debt service ratio and Debt to equity ratio has changed on account of ₹ 222.31 Crore loan taken from HSBC Thailand for acquisition of Styrenix Performance Materials (Thailand) Ltd., (formerly known as Ineos Styrolution (Thailand) Co., Ltd.

(3) Return on Investments depends on fair market valuation of quoted investments.
