The company's shares are being traded in the Bombay Stock Exchange (BSE) and National Stock Exchange of India Ltd. (NSE).

Dividend:

As you are aware, during the year 2013-14, the performance did not match expectation. Cash flow has not substantially improved as the company did not receive disbursements from customers on timely basis. To regularise the funds flow, your directors decided to retain the resources and hence do not recommend any dividend for this year too.

Management Discussion and Analysis Report

1. Industry Structure and Development and Outlook

As per the World Economic Forum Report 2013-14 presented in Davos, Switzerland, India now ranks 60th in Global Competitive Index continuing its downward trend that began in 2009. Since then, India has been overtaken by a number of countries like Brazil and South Africa. The country's supply of transport, ICTs, and energy infrastructure remains largely insufficient and ill-adapted to the needs of the economy, despite the steady improvement that has been made since 2006. The Indian business community repeatedly cites infrastructure as the single biggest hindrance to doing business, ahead of corruption and cumbersome bureaucracy. Discontent within the business community remains high about the lack of reforms and the perceived inability of the government to push them through. The inflation rate and public deficit-to-GDP ratio were dangerously close to double digits in 2012. The

Recent research shows that every 10 percent increase in infrastructure provision increases output by approximately 1 percent in the long term. Improved infrastructure quality accounted for 30 percent of growth attributed to infrastructure in developing countries. Scaling up infrastructure investment in developing countries can help generate a virtuous cycle in support of a global recovery.

The Global economy grew by about 3.7 % in 2013-14, which will rise to 3.9% in 2014-15, as per the IMF report. Indian economic growth rate was 5.4% in 2013-14, which may go up to 6.4% in 2014-15.

2. Opportunities & Threats

Tarmat has been the pioneers in airport runway works and airside works. We have also been executing highways and roads.

India has about 76818 km of National Highways, of which 10226 km was added in the Eleventh Plan (2007-2012). These constitute only 1.7% of the road network, but carry 40% of the traffic. The ministry of road transport and highways has decided to adopt the Engineering Procurement and Construction (EPC) mode for National Highways which are not viable on PPP basis. The 12th Five Year Plan envisages construction of 20,000 km of 2-lane National Highways projects through EPC mode.

In spite of this, the future is not bright as we foresee. Inflation at an alarming rate has created a situation where there is no margin on the projects. Inordinate delay occurs in obtaining clearance from the various government agencies. We are aware that some reputed infrastructure companies withdrew from National Highway projects due to delay in getting all clearances.

3. Internal Control

The company has a proper and adequate system of internal controls covering all operational and financial functions commensurate with the size of the company. The company's internal control is designed in such a way that it ensures corporate strategy is implemented, achieve effective and efficient corporate processes, safeguard the value of corporate assets, reliability and integrity of accounting and management data, and operations comply with all existing rules and regulations.

All the financial and audit control systems are also reviewed by the Audit Committee of the board of Directors of the company.

4. Operations

The company continued its focus on cost reduction and cost control at all levels.

5. Human Resources and Industrial Relations

The company understands the value of acquiring the highly intellectual human capital which the company believes is a crucial asset of the company. For this purpose, company follows the strategy "to attract, to retain and to motivate" the personnel through providing the framework for helping employees develop their personal and organizational skills, knowledge, and abilities. We have focused on to build positive attitude in the employees while working with Tarmat Limited. Tarmat Limited follows the principle - "good performance should be appreciated by good rewarding."
