ANNUAL REPORT 2013-14

**STAYING
TRUE**

At Pfizer, '**Staying True**' is, quite simply, a way of life. It is the way we work, the manner in which we approach challenges - staying true to the values of honesty, trust, and care. It guides our intentions, every action, forms the basis of the relationships we build within and with stakeholders outside, and dictates the decisions we make. Staying True to values means:

- Staying True to **Honesty** - integrity, ethics, compliance with every regulation and maintaining a high standard in our conduct - as a company and as individuals.
- Staying True to **Trust** - that our customers have in our products and our stakeholders have in our way of work.
- Staying True to **Care** - towards patients by keeping their needs for quality and innovative therapies at the forefront and towards our colleagues by making Pfizer a great place to work at.

STAYING TRUE TO THRIVING IN CHANGE

Change is around us. As India develops, there continues to be optimism and anticipation of new opportunities for growth. We expect a greater focus on quality and accessible healthcare for the population of our country - better ways to insure our population, greater demand for innovative drugs, more awareness towards preventive healthcare, and better facilities in both, public and private sector. These are changes that we look forward to. At the same time, changes also come by way of continuing uncertainty on policy. Between the revision of the National List of Essential Medicines and the review of price ceilings that apply to them – and both in different cycles, the industry faces constant change and unpredictability. The lack of adequate protection of intellectual property too continues to be an area of concern.

In this environment, we stay true to our ability to deal with and thrive in change by being ready for it. In part, we do this by making changes within our organization too – to better equip us to serve our customers and leverage on opportunities that become available.

OWN the Reality

OWN the Opportunity

OWN the Risk and Re-imagine

Following the focus on priority therapeutic areas through 'Uplift' last year, we took up a restructuring of our business as well, both globally and in India. This change has allowed us to strengthen core competencies in specific areas - through products, research, better trained field force, and targeted measurement of business performance. Above all, this has allowed us to focus better on the needs of our doctors and patients by being able to work more closely with them.

We have built our new business structure on the foundations that already exist in Pfizer's '**OWN IT!**' culture. We have remained true to being able to thrive in change, by actively gearing up for it.

**STAYING
TRUE
TO
UNWAVERING
INTEGRITY**

Integrity comes first. It's the first test that every decision passes, the consideration that supersedes all others. By staying true to unwavering integrity, we make the Company stronger. We find solutions to challenges and approach our opportunities in a truthful, honest, and hardworking way. This is also our way to build a stronger reputation and gain respect from each stakeholder we engage with.

The Compliance function equips us with the tools and training we need. We have taken significant steps to strengthen the internal controls and bring in new procedures that aid good governance and adherence to regulations. The Legal function not only provides legal support to the organization but also partners, through proactive counsel, to reduce and mitigate risks.

As an example of its focus on compliance and risk mitigation, Pfizer has introduced a web based tool named 'unCOMPLYcate' that identifies the accountability structure and helps monitor and assess the effectiveness of compliance activities.

STAYING
TRUE
TO
THE
INDOMITABLE
SPIRIT

Adversity makes us stronger. It challenges us to remain focused on our goals - to climb higher, do better, and achieve the impossible. The year gone by has been a true test of our resilience to survive the strongest storms. We embraced change, both externally and from within the organization. We took up the initiative to enhance our capabilities and competitiveness to serve all our customers both - new and traditional - in a more efficient and effective way.

Our teams, that form the commercial organization, were restructured on a new linear, therapeutic based model. This model in turn fits in seamlessly with the global new structure that is designed to simplify processes and amplify growth. We looked at different ways to deliver growth with increased efficiency based on the 5 Cs - Competitive advantage, Customer focus, Capability building, Continuous improvement, and Cost effectiveness.

The new Pricing Policy, followed by issues with Trade, had generated turmoil in the market. We decided to take the challenge head on and not lose our focus. We reached out to our colleagues for feedback and worked with external stakeholders to gain insights that allowed us to go to market with innovative approaches. Armed with a portfolio of mega brands and focus on therapeutic areas, we are aiming to scale new heights with our dexterity and sure-footedness.

**STAYING
TRUE
TO
A
BRIGHTER
TOMORROW**

People make Pfizer. We believe in the value and strength that our people bring to the organization and that a brighter tomorrow hinges on the individual success of our colleagues. We encourage the Pfizer Values that include Performance, Respect, Innovation and Customer Focus. We foster an environment where collaboration, accountability and teamwork form the bedrock of the way we work. A movement called '**OWN IT!**'

In implementation, this means introducing platforms for free and frank conversations that result in actionable feedback to the organisation. It means the creation of dedicated teams to conceive and drive colleague engagement activities. It also means we are listening to our colleagues and bringing in the changes they desire to make the work environment more stimulating and encouraging.

Your Company continues to invest in career development programs for its employees. Importantly, we also invest in further improving the organization's communication with the field force to improve engagement, alignment, sharing of common goals, and learning from best practices.

We have remained true to a brighter tomorrow, by working to ensure a productive, collaborative, and satisfying today for our people.

STAYING
TRUE
TO
RESEARCH
ORIENTED
EXCELLENCE

The motto of the Medical Affairs team is 'Simplifying Science, Multiplying Wellness.' True to this, Medical Affairs undertakes activities around medical education with a focus on improving patient outcomes. These activities include deliberations with Healthcare Professionals (HCPs) on emerging data and updated scientific information, conducting medical advisory board meetings, speaker training programs, expert group meetings in therapy areas, and providing support to International Speaker Programs.

The annual India Research Innovation Science Network (IRIS) program creates a network of HCPs passionate about shaping an ecosystem of healthcare innovation in India. In partnership with IIM Ahmedabad, this year IRIS conceptualized and conducted a 'Doctors as Designers' workshop with the aim to take doctors through the stages of innovation, from 'having an idea' to 'introducing a workable product' that addresses a pressing unmet healthcare need.

Medical Affairs provides scientific support to investigator initiated research, through sharing of medical information, designing and conduct of local clinical studies, scientific engagements with physicians and institutions, product training to our field force, evaluation of new products and assistance with their launch. The team also provides medical support to regulatory registration as well as safety review and labeling activities. Additionally, Medical Affairs also takes responsibility for ensuring compliance of promotional practices according to international and local industry standards, and regulatory requirements.

**STAYING
TRUE
TO
ENTERPRISE
DELIGHT**

Simply put, Business Technology is the team that connects the entire organization using innovative platforms. This team works closely with all business units to develop and deliver business solutions and services that help them keep the end customer at the front and center.

Pfizer launched a major new initiative to equip its field force with 3G enabled iPad devices. The goal was to move from using paper as a primary mode of communication with HCPs and from limited connection to the company with time spent in Internet cafes to an iPad enabled workforce. Termed iConnect, the program allows us to talk about our products using electronic details that are customized by doctor type, access to a larger array of reference materials, and use a platform for training and significantly improved connectivity.

Reflecting our desire to reduce paper and introduce technology at all levels, we have also introduced an electronic platform to our Board, facilitating paperless board meetings and quick access to documents and an electronic approval system.

With Panorama, a new Business Intelligence and Reporting tool, we have also put in place a solution that delivers meaningful management dashboards with business insights.

**STAYING
TRUE
TO
RESOLUTE
COMMITMENTS**

Our corporate social responsibility strategy focuses on leveraging the full range of the company's resources - people, skills, expertise and funding - to broaden access to medicines and strengthen healthcare delivery for the underserved in India and step up in times of national crises. Your Company remains cognizant of its responsibilities to also meet the requirements towards Corporate Social Responsibility (CSR) under the new Companies Act.

In June 2013, Himalayan floods unleashed devastation across the state of Uttarakhand, displacing over 150,000 people across the state and creating a medical emergency of enormous scale in their wake.

Pfizer stepped up. Our colleagues demonstrated the '**One Pfizer**' Spirit by supporting the survivors of the flood through a clothing donation campaign with the help of NGO partner, Goonj. Together with funding contribution from the Pfizer Foundation, our colleagues also participated in a fund raising campaign of their own for the NGO, AmeriCares.

Pfizer colleagues joined hands with Dignity Foundation, an NGO that works for the welfare of senior citizens, to help them experience a truly memorable 'Joy of Giving' week in October 2013 and on the occasion of 'International Day of Older Persons.'

Dear Shareholders,

An Indian Company that derives a majority of its revenue from products made in and for India with the same exacting standards of quality we are known for globally - This would be a good way to describe your Company. We are a multinational bio-pharmaceuticals company that is comfortably at home in India.

And India is changing.

There is optimism for the future that extends across sectors with the promise of fast paced growth. But this optimism isn't unbridled. An uncertain policy environment, that frequently impacts the prices of our products and the sanctity of our patents, tempers it.

In the midst of this cautious optimism, your Company is taking decisive steps to be ready for the opportunities that come. The business has been restructured in line with the global structure of Global Innovative Pharma Business (GIP); Global Established Pharma Business (GEP) and Vaccines, Oncology, and Consumer Healthcare Business (VOC) - bringing dedicated focus to product lines. The field force is being modernized and flagship brands strengthened too.

We are also taking steps to conclude the merger process that will bring Wyeth Limited and Pfizer Limited together as one entity, and we thank you for your continued support and commitment towards it. The integration of the two portfolios aligns well with our own new structure, strengthening each vertical.

In these ways and more, we are equipping ourselves for the future.

Along the way into the future, there will be questions asked on enhancing access to not just medicines, but healthcare delivery too to serve our vast population. How do we ensure affordability, access, innovation and profitability at the same time? How do we build a reputation for the country as a safe haven for intellectual property? Boost local innovation of our own, continue to modernize all domestic production to global standards and encourage ethical marketing? Your Company will be at the forefront of this dialogue. We will be a part of the solution.

As India changes, we will stay true to thriving in that change. Above all, we remain true to India.

Sincerely,

Aijaz Tobaccowalla

PHARMACEUTICAL INDUSTRY PERFORMANCE - OVERVIEW & OUTLOOK

The Indian healthcare market is an amalgamation of many markets in one, given the disparity in income levels and access to healthcare. India's population aged 60 and older is projected to climb from 8% in 2010 to 19% (32.3 Crores) in 2050, according to the United Nations Population Division (UN 2011). This could see an increase in the demand for better healthcare including well equipped hospitals/facilities, larger number of healthcare professionals, and superior quality drugs.

The Indian Pharmaceutical market growth has slowed from a high of 16.5% in 2011-12 to 9.9% in 2013-14 (IMSTSA MAT March 2014). This has been driven by multiple factors, with the new Pricing Policy being a key contributor. The expansion of the number of drugs under price control, resulting in lowering of prices effective July 2013, led to significant market disruption in supply chain logistics. The higher priced products had to be recalled from the market and the revised lower priced products were to be introduced simultaneously to ensure uninterrupted supply. This process was complicated and required significant investments in logistics and infrastructure and also resulted in write offs. Companies also faced margin challenges from the Trade, post the introduction of the new Pricing Policy.

Five companies bore 42% of the total impact of the new Pricing Policy and the overall impact to the Industry was approximately ₹ 1597 crores (IMS Press Release June 2013).

The pharmaceutical market slowdown was felt by MNCs more than Indian pharmaceutical companies. The 9.9% pharmaceutical growth MAT March 2014 shows a split, with MNCs growing at 5.2% and Indian pharmaceutical companies growing at 11.8%. IMS reflects your Company growth at 7.1%. Growth of the top 10 Pharmaceutical companies also slowed down to less than the market growth.

The total audited pharmaceutical market in India is at ₹ 80352 Crores (Retail Sector ₹ 67681 Crores, Hospital Sector ₹ 7726 Crores and others ₹ 4945 Crores). The retail sector grew at 10.1% and the hospital sector grew by 5.6%. As opposed to previous years, volumes of existing products contributed only 2.4%, new products volume contributed 6.3% and price contributed 1.2% (IMS MAT March 2014). According to IMS Health, the Indian pharmaceutical market currently ranks 14th globally in terms of value and 2nd in volume. This disparity between market value size and volume can be directly attributed to the low cost of pharmaceutical products in India compared to rest of the world.

The recent action of National Pharmaceutical Pricing Authority ('NPPA') in widening the scope of Pricing Policy continues to create an uncertain operating environment. The issues surrounding the Intellectual Property Rights and new rules governing clinical trial is causing considerable challenges to the Industry.

The Indian pharmaceutical market is forecasted to grow at a CAGR of 10.5% between 2013 and 2018, reaching ₹ 135747 Crores by 2018 (IMS Prognosis Report September 2014).

The Industry's projected growth over the years can be attributed to multiple factors including an expanding market, heightened health awareness among masses, increasing disposable income, changing lifestyles resulting in higher incidence of lifestyle diseases, government's focus on affordable healthcare, and an emerging, but rapidly growing health insurance industry.

Despite all the regulatory challenges, given the strong market fundamentals, the Indian Pharmaceutical Industry is looking to achieve a unified dream of providing quality healthcare. They have taken up the baton to lead the way and manufacture medicines that not only provide a better quality of life but also provide an assurance that they care about healthcare.

OPPORTUNITIES, THREATS, RISKS & CONCERNS

The Industry has been impacted by an unprecedented series of policy changes through the past year. The Government introduced the new Pricing Policy with the notification of the Drugs (Prices Control) Order, 2013 (DPCO 2013) which brought 348 formulations in the National List of Essential Medicines (NLEM) under price control. This new policy replaced the archaic and non-transparent Price Control Order of 1995 that had regulated prices of 74 bulk drugs and their formulations.

It was expected that the implementation of the DPCO 2013, under the market-based pricing model, would bring transparency and stability to the Pharmaceutical Industry. However, the issues with Trade over demand for trade margins and wider interpretation of the DPCO by the NPPA, bringing additional medicines under price control, meant an unexpected interruption in business and an adverse revenue impact on the Industry.

The challenges faced in the implementation process of the new Pricing Order have impacted the revenue and profitability of the Company. While, the industry is gradually settling in from the volatile transition, several ambiguities about the extent of the price control remain a challenge.

The new provisions of Schedule H1 (covering 46 drugs) under the Drugs and Cosmetics Act, 1945 which puts in stringent regulatory requirements on the Industry and traders became effective 1st March 2014 and may potentially impact the availability of these drugs due to practical issues in implementation.

Following an amendment in the Drugs and Cosmetics Act, 1945 in January 2013, the environment for Clinical Trials has deteriorated with extremely stringent requirements and layers of clearance mechanism being introduced in the recent past. This new rule has resulted not only in delays in the approval of new chemical entities (NCEs) and new formulations thus restricting new drug launches but it has also seen many companies move their clinical studies out of the country.

The environment for the protection of Intellectual Property ('IP') in India continues to be the biggest concern for innovative companies. The patented products portfolio continues to face challenges either by way of the new committee set up to recommend the patented products pricing policy or through the continuous threat of issuance of unwarranted compulsory licenses and the denial of patentability of inventions in India. This continued trend of anti-IP developments in India continues to create huge uncertainty in the market, negatively impacting innovation and investment in the Pharmaceutical Industry.

The Government needs to increase its expenditure on healthcare which is currently just 4% of GDP (of which a mere 1.4% is on drugs). The Government also needs to put in place a pragmatic policy that allows the market to grow and quickly develop the healthcare infrastructure, streamlines regulatory processes, encourages the creation of Public Private Partnership (PPP) models, increases access to medicines, and creates an environment that incentivizes Research & Development to build a healthy ecosystem for innovations.

India remains a market of unmet needs. Despite the above uncertain regulatory and policy environment, there are positive economic indicators in the operating environment. The industry is engaging with the Government to find sustainable and holistic innovative models and policies to address the country's healthcare issues in a manner that balances the Government's health priorities while providing a predictable and conducive environment for the innovative industry.

For the Industry to achieve growth at its full potential and develop new drugs to meet unmet medical needs, it is imperative that the Government provides a predictable and stable business environment and policies that treat all pharmaceutical companies alike.

Your Company continues to have a positive outlook and the strategy is to build itself through therapeutic and customer based business models.

REVIEW OF OPERATIONS

In preparation for the changing market dynamics, the Company reorganized its sales force structure around therapeutic areas. This allowed us to approach the healthcare providers with a portfolio of products associated directly with their interests. Aligning with the global restructuring undertaken by Pfizer Inc. U.S.A. into three distinct business units Global Established Pharma Business (GEP), Global Innovative Pharma Business (GIP) and Vaccines, Oncology & Consumer Business (VOC), has also helped in bringing additional focus for teams as they work with their global colleagues.

The restructured business units will continue to drive your Company's growth and your Company is constantly looking at new ways of engaging with its customers and health care professionals.

The year under review also saw the announcement of the proposed merger of Wyeth Limited with Pfizer Limited which creates a single "Go to Market" strategy and company brand image leading to stronger market presence and higher confidence levels with all stakeholders. This merger increases the long term value for the shareholders of both companies as it brings together two diversified portfolios that are complementary to each other under one roof.

Key Product Performance for the year under review:

Six of your Company's brands feature among the top 100 pharmaceutical brands in India. Two of its key brands Corex (Cough Formulation) and Becosules (Multivitamin), continue to rank among the top 20 pharmaceutical brands (IMS-TSA, MAT March 2014)

Trade Rx:

The realignment of your Company's internal structure saw the formation of the Trade Rx team as one which put the three mega brands of Corex, Becosules, and Gelusil under one structure. The categorization was based on the high brand recall and trade volumes which saw not just new prescriptions but also repeat sales.

- Corex is the market leader in the Codeine Cough Market and is used for effective treatment of dry cough. Currently Corex is **ranked as No. 1** in Indian Pharmaceutical Market as per IMS TSA MAT Mar 2014.
- Becosules is the **No. 1 B-complex** of India with a market share of 53% in its category (IMS – TSA, MAT March 2014). It has been in existence for more than 60 years and is the most prescribed vitamin mineral supplement. It is also the 'most consumed' because of the unit sales leadership in the VMS category.
- Gelusil is the **No. 1 antacid** which is used for relief in acidity, heartburn and flatulence and has been in existence for more than 42 years. The brand is the market leader with a share of 33% (IMS -TSA, MAT March 2014). Gelusil has been voted as the one of the most trusted OTC brand by Brand Equity - Dec 2013.

MANUFACTURING OPERATIONS

Pfizer's continued focus on the quality of its products makes it amongst the most trusted companies in the world. As a Company, Pfizer fully understands that its products impact lives of millions of patients and their families across the world. Your Company has several levels of quality systems that assure compliance with local laws and meet Pfizer's global quality standards.

Concern for the environment is an important factor in your Company's operations. There is a constant emphasis on conservation of resources across its manufacturing sites to reduce waste.

(o) Earnings per share

Basic and diluted earnings per share are computed by dividing the net profit after tax attributable to equity shareholders for the year, with the weighted number of equity shares outstanding during the year.

(p) Provisions and contingent liabilities

The Company creates a provision when there exist a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are not recognized in financial statements.

Thus, the total demand raised now stands revised to ₹ 212.43 lakhs (March 2013: ₹ 212.43 lakhs). The DPLR Committee had, vide its letter dated 24 February 1997 invited the Company to make its submissions/ representations against the above said claim. The Company has made its submissions to the DPLR Committee vide its letter dated 14 May 1997 claiming that no amount whatsoever is due and payable having regard to the facts and relevant material of the case.

Pursuant to the submissions made by the Company, the DPLR Committee directed by an Order on 17 November 1998 that clarifications should be obtained from the Mumbai High Court on whether the Interim Stay granted in the Civil Writ Petition Number 2368 of 1996 is applicable to this matter. (This Writ Petition is filed by OPPI and IDMA jointly against any Notice issued by the Government of India after 25 August 1987 to any member of the OPPI or IDMA, initiating proceedings for recovery of an amount demanded in respect of a period prior to that date).

On a Notice of Motion filed by the Company in the said Writ Petition, the Mumbai High Court has granted ad interim Order that "pending the hearing and final disposal of this Notice of Motion, further proceedings in the said Case No 49/1996 pending before the said Drug Prices Liability Review Committee be stayed."

The Bombay High Court vide its judgement dated 22 December, 2011 dismissed the Writ Petition filed by OPPI & IDMA and directed the companies who have been issued show cause notices to file appropriate replies and directed the government to pass appropriate orders accordingly.

the years 1983 to 1989. The Company has repudiated the liability on this account. The Company's Solicitors have advised that the repudiation by the Company is legally sustainable. The Government has pursued the matter. The Company maintains its position that the claim by the Government is not legally sustainable.

(e) Chloramphenicol

The Government has arbitrarily determined the liability of the Company at ₹ 145 lakhs (March 2013: ₹ 145 lakhs) and ₹ 14 lakhs (March 2013: ₹ 14 lakhs) being the difference between the price of bulk drug Chloramphenicol powder and Chloramphenicol Palmitate respectively allowed in the formulation price and actual procurement price for the period 1979 to 1988. The Company has repudiated the liability on this account as advised by the Company's Solicitors. The Company has also obtained a Stay order from the Honorable High Court of Mumbai against the demand.

Pursuant to the submissions made by the Company, the DPLR Committee directed by an Order on 17 November 1998 that clarifications should be obtained from the Mumbai High Court on whether the Interim Stay granted in the Civil Writ Petition Number 2368 of 1996 is applicable to this matter. (This Writ Petition is filed by OPPI and IDMA jointly against any Notice issued by the Government of India after 25 August 1987 to any member of the OPPI or IDMA, initiating proceedings for recovery of an amount demanded in respect of a period prior to that date).

Similar applications were filed as in the matter of Protinex before the Bombay High Court in Writ Petition filed by OPPI & IDMA and similar order was passed i.e Case No 23/95 pending before the said Drug Prices Liability Review Committee was stayed. The OPPI & IDMA Writ Petition have been disposed with the direction as aforesaid.

(f) Pursuant to the repeal of DPCO 1970, erstwhile Warner-Hindustan Limited (merged with Parke-Davis (India) Limited in 1988 and Parke – Davis (India) Limited merged with Pfizer Limited in 2003) had classified Isokin tablets, Isokin liquid and Pyridium tablets as decontrolled products under the DPCO 1979. The categorization was, however, challenged by the Government in 1984 and a demand of ₹ 113 lakhs (March 2013: ₹ 113 lakhs) was raised against the Company. Against this demand an excise duty set off of ₹ 7 lakhs (March 2013: ₹ 7 lakhs) was allowed to the Company and a final demand of ₹ 106 lakhs (March 2013: ₹ 106 lakhs) was raised in 1987.

The Company had deposited an amount of ₹ 30 lakhs (March 2013: ₹ 30 lakhs) in February 1987 and ₹ 25 lakhs (March 2013: ₹ 25 lakhs) in May 1990 totalling to an aggregate of ₹ 55 lakhs (March 2013: ₹ 55 lakhs) in full and final settlement of the demand, as per the arguments set forth by the Company. The Government subsequently raised a demand of ₹ 117 lakhs (March 2013: ₹ 117 lakhs) towards interest on principal demand. (i.e. interest of ₹ 43 lakhs (March 2013: ₹ 43 lakhs) for Pyridium for the period 1982 to August 1995 and ₹ 74 lakhs (March 2013: ₹ 74 lakhs) for Isokin for the period 1982 to June 1997).

The Company filed a Writ Petition in the Andhra Pradesh High Court in September 1997 for staying all further proceedings against the Company. The High Court stayed the demand in respect of collection of interest but directed the Company to deposit the balance demand of ₹ 51 lakhs (March 2013: ₹ 51 lakhs) (which amount was deposited in November 1997).

The said Writ Petition has been heard and disposed off by final judgement of the Hon'ble Hyderabad High Court, on 15 April 2011. The Hon'ble High Court has inter alia set aside all the demand notices and further directed the Respondents to refund the monies paid under the interim orders.

The Union of India has preferred a SLP before the Honorable Supreme Court against the above judgement. In view of there being a discrepancy in the English and Hindi Notification of DPCO, 1979 in para 13(5) of the DPCO, 1979 the Special Leave Petition came to be allowed vide order dated 12 April, 2013 setting aside the impugned judgment and restoring the writ petition to file, to conduct appropriate enquiry and for hearing and fresh disposal. The matter now stands remanded back to the Hyderabad High Court.

(g) Multivitamin Formulations:

The Government has arbitrarily raised a demand of ₹ 182.38 lakhs (March 2013: ₹ 182.38 lakhs) on account of alleged overpricing of certain multivitamin formulations marketed by erstwhile Pharmacia Healthcare Limited (merged with Pfizer Limited) for the period 1983 to 1986. The Company has repudiated the liability on this account as advised by its solicitors. The Company filed a Writ Petition No. 814 of 1992 in the High Court at Mumbai. The Supreme Court of India, in a Special Leave Petition (SLP) filed by the Company held that pending disposal of Writ Petition filed before the High Court at Mumbai, the Company shall furnish an undertaking in respect of 50% of its liability and shall deposit the balance 50% aggregating to ₹ 91.19 lakhs (March 2013: ₹ 91.19 lakhs). This amount has been deposited with the Government of India and is included under the head "Long Term Loans and Advances".

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2014

Pursuant to a Transfer Petition (Civil) no 475-496 of 2003 filed under Article 139A(1) of the Constitution of India, all pending writ petitions in respect of DPEA liabilities are now to be transferred to the Supreme Court to be heard and finally decided by the Supreme Court of India. Consequently as a result of the said transfer petition, Writ Petitions referred to in (a), (b), (c), (e), (f) and (g) above will now be heard and disposed off by the Supreme Court.

The Supreme Court however, by order dated 3 May 2010 disposed off the Transfer Petition, directing that the concerned High Courts to take up the writ petitions before them and dispose them on merits.

The Writ Petitions filed before the Hon'ble Bombay High Court came up for hearing in the Hon'ble Bombay High Court on February 1, 2013. The Hon'ble Bombay High Court was of the view that the Orders passed by the Union may be set aside and the Union may be directed to decide the matters afresh keeping all the issues and contentions open. Consequently, as directed by the Hon'ble Court draft minutes of the order were prepared and circulated to the Advocates for the Union for their perusal.

In view of the disagreement between the parties on the draft minutes, on 12 March, 2013 the Union sought to press for their Notice of Motion for all the matters to be listed for final hearing. Thereafter, the Hon'ble Bombay High Court passed an Order for the matters to be listed in due course and rejected the Notice of Motion of the Union.

Thereafter, the Union made an application before the Hon'ble Chief Justice for having this group of matters to be assigned to a Division Bench for expeditious hearing. However, till date no Order has been passed in the matter.

In view of matters (a), (b), (c), (e), (f) and (g) being subjudice, the legal opinion being in favor of the Company, and based on the assessment of the Management, no further provision is considered necessary over and above the sum of ₹ 198.37 lakhs (March 2013: ₹ 198.37 lakhs) which has been paid off in earlier years.

The Company would continue to seek legal recourse in all the above matters.

(h) Other Pricing related disputes

The government had raised various demands for alleged overcharging of prices on batches manufactured prior to the effective date of price notifications for certain products. The government had also raised demands on account of alleged non-adherence of certain price notifications on 4 products marketed / traded by the Company. The total liability in respect of these demands amounted to ₹ 2074.97 lakhs against which the Company has made a provision of ₹ 761 lakhs (March 2013: ₹ 280 lakhs).

Based on the legal opinions obtained during the year the Company is of the opinion that the estimated liability in respect of these cases involved shall not exceed the amount provided in books of accounts.
