Nowhere is this frenzied rate of change more visible than in entertainment and the proliferation of digitally consumed content. We mean to achieve this by strengthening our existing platforms and building new ones, gauging viewer preferences and aligning our content offerings accordingly. We are also focussing on technology, to create a brand of sustainable value.

message from the md & ceo

Dear Shareholders,

At ZEE, FY 2014-15 has been a year of achievement, accomplishment, and major investments for the future. We have always believed in striving for the best and playing a proactive role in defining the industry's next-practices and striving harder. In FY 2014-15, we set ourselves clear, actionable goals for the future, and began the process of investing energy and resources in them. ZEE is already India's most admired media brand, and our content reaches nearly a billion people across the world through our domestic and international bouquet of channels and multiple distribution platforms. For us, this is only a beginning, given that our objective is to be recognised amongst the top global media conglomerates by the year 2020.

The performance of ZEE in FY 2014-15 has been commendable, and higher than the overall industry growth. Our network share has risen. This has in turn, translated into a significant growth on the advertising revenue front. On the subscription front, ZEE's wholly owned subsidiary, Taj Television India Pvt. Ltd., since this FY 2014-15 has been independently distributing all the network's channels. Our flagship channel continued to perform well, and the new launches such as &TV and Zindagi have met with great enthusiasm.

We maintained a steady progress across all quarters, and reported revenue of ₹ 48,837 Million (Y-o-Y growth of 10.4 per cent) with EBITDA of ₹ 12,538 Million (Y-o-Y growth of 4 per cent) and net post-tax profit of

₹ 9,775 Million (Y-o-Y growth of 10 per cent). Despite pricing challenges, and increasing costs, we were able to maintain a healthy net margin of 20 per cent. This outcome indicates that our operations were based on a prudent strategy, and bear testimony to our know-how and expertise. We are confident that we will be able to continue on the path of augmenting shareholder value.

ZEE has been able to demonstrate its leadership acumen and forward thinking abilities consistently. This is not just borne out by what we have done in the past, or by what we have achieved during the year. It is reflected in the way we are imagining the future, and investing diligently in it. We are creating capabilities, infrastructure,

We believe that to truly make an impact, the entertainment industry has to be quick, targeted and collaborative. At ZEE, we have focused our efforts and energies in investing in this new future. We are creating competencies for tomorrow across our business. We have devoted significant efforts to reorganise ourself, to create content incubation centres, and to focus on a global stage. We are working on concrete strategies to ensure that ZEE leverages its leadership and experience and maximises the global opportunity of rapidly expanding media industry.

content and platforms all designed to align themselves with emerging consumer preferences and audience behaviour.

The overall ecosystem in India in general and the media environment in particular has evolved significantly. Given that ZEE has been a leader in anticipating trends and responding to them, this evolution has turned out to be positive for our growth. The implementation of digitisation (Phase I & II), despite few delays, has resulted in the creation of new opportunities throughout the media value chain. We believe that our brand's goodwill, and our content expertise present a huge opportunity to create new products for specific markets and segments to drive greater viewer engagement and

During FY 2014-15, we took many steps towards this very end. We expanded aggressively in the American, European, APAC and Middle East Markets. We launched new channels with a clear view on rich and engaging content, customised to specific audience groups. We are also investing in further training our existing talent, together with nurturing new people across diverse competencies.

The key elements of our strategy going forward will be to consistently invest in growth opportunities to safeguard and grow our leadership, in a competitive environment. We will concentrate on the opportunities that digitisation presents, and seek to maximise revenue from this, while operating in a prudent environment. We

will consistently seek out newer markets globally, and fortify our existing ones. And through all of this, we will maintain the highest standards of corporate governance and ethics while creating superior value.

I am very grateful for your support so far, and assure you that we will work very hard to retain it. I hope all of you will be by our side, as ZEE charts a journey into the next level of growth and its corporate evolution.

thinking big—●

At ZEE we understand this very well, because we have led the entertainment revolution in India ever since our inception. Therefore, our responsibility to think beyond here and now is even greater, for us to sustain our leadership and grow our relevance.

As the world changes around us, we are focusing on not just on what is, but on what can be. All our actions are geared towards that.

At ZEE, we have imbibed a 'think tomorrow' culture across our organisation and have aligned our strategic priorities, corporate actions and tangible goals with the future in view. And we are doing this in a manner that will place us in a different orbit.

We are on track to realising our vision 2020 goals of five times viewership growth and four times content consumption growth, delivering on our promise of emerging as one of the largest and most influential global entertainment providers.

global ambitions

At ZEE, we are taking important steps to achieve our global ambitions. These goals are critical to our mission, and thus, we have put in place a strategy to ensure the realisation of our objectives. The key elements of our execution roadmap are:

Creating an entertainment platform based on mobility:

In order to gear up for the rising trend of accessing content on the go, we are all set to create an entertainment platform that is based on mobility.

Global benchmarking

Taking forward our philosophy of *Vasudhaiva Kutumbakam*, we are targeting international markets, with one core objective: that of gaining attention. We believe that all our actions and processes must be based on best practices. Towards this end, we are creating an internal cell to regularly monitor our operational environment worldwide and identify practices to emerge as a world-class entertainment company.

is about focusing

The ideas factory:

For every idea to be evaluated and explored thoroughly we are setting up an incubation cell that will function in the manner of an ideas factory. This incubation centre will be based on furthering a culture of innovation and creativity, responsible for generating new concepts in a structured manner leading to problem solving. We believe that the most ground breaking innovations can come from the simplest of notions, and thus every thought needs to be nurtured.

Creating a talent pipeline of leadership

Our people are the most vital aspect of our strategy. We are identifying and grooming future leaders to ensure a high-performing culture.

Creating a portfolio of global properties

Aiming to be amongst the world's leading content companies, we're consistently working towards creating a portfolio of global content properties, leading to a direct connect with the global audiences.

Focused on global consumption leadership:

We are closely monitoring the consumption patterns worldwide and strategising our offerings to suit the needs and preferences of our viewers in domestic and international markets, to multiply our consumption levels.

Sharpening forecasts:

With the aim of enabling decision makers to better strategise upcoming content, our teams establish benchmarks based upon analysis of latest viewership trends.

on excellence

Managing intellectual capital:

Since its inception, ZEE has nurtured and developed its intellectual capital, which is being further treasured and utilised in the right markets to reap higher benefits and to optimally utilise its potential.

creating real time entertainment

As global entertainment evolves at a frenetic pace, conventional barriers to content consumption are fading away. It is fast becoming a seamless, technology driven world where internet and digital platforms are ruling the roost to entertainment. The widespread popularity of smart-phones and phenomenon like the Internet of Things have made for a trend wherein audiences are no longer confined to their television sets to view their favourite programme.

By the end of 2015, India alone is expected to have 213 Million users of mobile internet. Global mobile connections are projected to increase to almost 9.5 Billion in 2019 from around 6.9 Billion in 2014, on the back of a rapid growth in mobile phones, tablets and other devices.

It's the demand of the day that entertainment be available on-the-go and the signs of this tremendous transformation of analogue to digital in the realm of media is visible all across the globe, as it is in India. The physical and virtual are converging and quickly and the only way to stand out or draw attention to an entertainment offering is to make sure that it can be accessed from a anywhere-anytime paradigm.

16

is preparing for

9.5 bn Projected number of mobile connections in the world in 2019

ZEE is both a facilitator and a contributor to the anytime, anywhere, any screen, any content ecosystem. We are at the forefront of creating content that is relevant to diverse audiences, and available across multiple platforms.

ZEE is very much in synch with this process of change, and is geared to offer its entertainment content through 'NOW media' i.e. through digital tools and OTT platforms, among others. It is also adopting cutting-edge, advance formats like 'high definition' and '4K'. We foresee that these formats will transform the viewing experience in the near future, and content producers will have to be nimble-footed and geared up to address the technology paradigm, in addition to the content quality. The demarcation between 'on-air' and 'online' is rapidly disappearing, with almost all devices getting backward and forward integrated using the Internet.

ZEE Music Company

Marks ZEE's foray into the music business and allowing for a more comprehensive IP portfolio.

Ditto TV

Industry leading innovation, OTT platform with 20mn+ users.

Essel Vision

Aims to create customised, cutting-edge content and to optimise the commercial and qualitative imperatives. The initiative has produced popular movies and programmes.

a where work is play

17

Today, ZEE is poised not just as a content producer and aggregator but also a content innovator, contributing to a rapidly increasing anytime, anywhere, any screen trend. We have sharpened our content-creation abilities by preparing teams to this end. With an aim to be relevant to diverse audience group across all genres, we have also incubated newer verticals within ZEE.

Essel Vision, our production arm, is a step in the content-innovation direction. It creates proprietary and differentiated content across genres and formats including TV shows and feature films. Essel Vision has already created a name for itself

by producing a series of well-appreciated and clutter-breaking content properties. We believe that Essel Vision will play an increasingly important role in setting ZEE apart as a quality entertainment provider.

ZEE Music Company, is another one of our initiatives that seeks to close the loop in terms of genre offerings from ZEE. The music industry in India is dominated by a few key players. Our extensive content library, network and distribution reach are synergistic, and allow us to play a key role in this industry and benefit from its opportunities and market size. ZEE Music

Company's repertoire of projects comprise 36 Hindi movies, 15 Marathi movies, 2 Punjabi movies and 30 popular single numbers.

Ditto TV, the OTT platform from ZEE was another market leading innovation from the ZEE stable. It has inspired many other similar platforms. Ditto TV has a 20 mn+ users and nearly 50,000 hours of content, and is consistently growing. This enables our viewers unfettered access to our premium content.

'Think borderless' is what inspires us at ZEE. This helps us innovate across silos to create entertainment and content that appeals to diverse audiences across the globe. To facilitate this, we are emerging as pioneers in the understanding of digital mediums, and making way for content that is available on-the-go and on a medium of the user's choice. At another level, we are enhancing the level of customisation for our global audiences. This ensures that no matter where our viewers are, in India in its many towns and cities or across the world, we will be able to make them feel at home, and cater to their preferences.

Towards this end, we are setting up infrastructure to rapidly scale-up in high-growth, high-potential markets such as Latin America, Japan and China. Our digital

platforms such as Ditto TV, together with our ability to make content available for streaming across devices, has enabled us to succeed.

Currently, we entertain 959 Million viewers. However, by year 2020, we aim to reach a milestone of five times this number. Our key potential international markets are Africa, SEA, and the Middle East, where we focus on providing content that's contemporary, engaging and relevant. Our aim is to become a global content company. To cite an example of one such endeavour, would be the introduction of Zindagi and ZEE Hiburan. Zindagi is the first syndicated channel that showcases

Pakistani programmes. It has swiftly garnered popularity in India, diminishing boundaries and creating a world of entertainment that's available to all. ZEE Hiburan is a General Entertainment Channel launched in Indonesia. It is the third launch by your company in the APAC region. Its offerings comprise Indian content that has been customised for the local audience of Indonesia, the fastest growing pay-TV market in the region.

From being the first private satellite channel in India, to creating a bouquet of specialty offerings that went on to become industry norms, we have always followed a philosophy of 'never settle'. This enables us to keep fine-tuning our portfolio and add more channels and platforms.

In pursuit of our Vision 2020, ZEE continues to invest in adding more channels and offerings to its portfolio. This helps us remain the preferred entertainment provider to a large audience across the world enhancing our revenue and visibility. In fact, ZEE is the only Indian entertainment company to feature in Nikkei Inc's 'India40' list. Our sustained achievements over the last several decades as India's leading entertainment provider has even led to us being a case study at leading reputed international universities like INSEAD. For the year 2020, our vision is to build a brand that's timeless and lends credence and solidity to our operations.

To evaluate our brand's strength and help plan our future goals better, we engaged Interbrand – The Global Brand Consultancy Firm – on board. Interbrand's brand valuation methodology has been specifically designed to take all the stakeholders and value-creation levers into account. Brand analysis helps us understand the brand's contribution to our enterprise value. It also helps ZEE brands ceaselessly strive to play a larger role in the customer's viewing decision.

The ZEE brand, as valued by Interbrand's ISO-certified methodology, is estimated to be worth ₹ 41.94 Billion. ZEE endeavours to increase its global reach to five times more from its current audience of 959 million viewers. It also plans to increase its content consumption to four times more. It plans to expand its market footprint and its relevance to viewers across a range of ethnicities and nationalities. This reflects in the improvement in ZEE's financial performance – and, along with it, its brand value. ZEE with its initiatives is on its way to close the gap in brand value with the global best.

of the brand

ZEE's channel packing is contemporary and thus eye-ball grabbing, and an important part of its branding. ZEE's tagline, music and jingle are hard-hitting and trendy, and thus go a long way in creating brand recall.

Vikram Sakhuja Group CEO, Madison

ZEE espouses attributes like authenticity, relevance, consistency and understanding as it strives to attain its long-term vision: to become the first global media brand amongst the top 100, with foundations in an emerging market, ensuring greater stickiness and viewer loyalty across the spectrum.

business responsibility

ZEE is conscious of the need to pursue growth and vision with responsibility. We recognise that we will be successful tomorrow, only if we think of the world as it will be the day after. And the day after that. In essence, therefore, building a sustainable enterprise that helps create awareness, and fosters action towards a better world, is central to our strategy.

We deploy the best corporate management principles and ethics, towards securing sustainable profit generation and an above-average return on our investments. Besides financial returns, ZEE is also committed to driving positive value-creation for all our stakeholders, principally communities and students. We believe we have a role to play in improving lives, not just through our entertainment but also by living our responsibility as a caring corporate.

We are also conscious of our responsibility towards climate change safeguarding the world from the effects of rapid climate change. ZEE ensures that its operations are monitoring and reducing their carbon footprint on an ongoing basis, and we further support initiatives across our channels and on-ground activities, to encourage the creation of a greener and safer world.

Social Responsibility

ZEE partners society in many ways through responsible content and social initiatives across all its channels. This enables us to help build an equitable and aware society. Our mission is to be a world-class entertainment conglomerate that makes a difference to the lives of many. And it is with this very end, that we feel a sense of responsibility towards those whose lives we touch, choosing to stay connected with a number social initiatives.

ZEE & Education

We believe that education is the important determinant of progress for the disadvantaged. We have, in the last year, set up libraries as well as trained about 40 teachers and 20 school heads in library management. These trained individuals have helped enhance reading habits amongst students. As a result of this effort,

libraries were accessed for about four to five hours a week, catering to over 2,400 students and comprising over 650 books on an average in each library. These libraries acted as repositories of study material and had children accessing over 3,950 books. In total, we delivered over 13,000 books that were recommended by parents, teachers, and government officials.

Room to Read & ZEE

ZEE partnered with 'Room to Read', a global organisation'. 'Room to Read' envisions a society in which all children should pursue quality education to not only garner knowledge but also contribute to their community. ZEE will enhance literacy levels across the states of Rajasthan and Uttarakhand by setting up libraries and in turn helping better the lives of over 2,400 children.

for our world

41

In late 2014, severe floods crippled life in the state of Jammu and Kashmir, India's Paradise.

These floods impacted many regions of the state, including the capital Srinagar. The devastation was widespread, with lives lost, people having to leave their homes and move to safer areas, shops and establishments submerged and many houses broken. The remote locations, the excruciating winter, as well as the lack of effective drainage in the valley further complicated matters.

ZEE, in partnership with the Event and Entertainment Management Association (EEMA) and the Film and Television Producers Guild, launched a fund-raiser campaign, 'Gionee Presents Hum Hain Ummeed-E-Kashmir' powered by 'Clinic Plus' to raise funds and awareness for the flood-stricken areas of Jammu & Kashmir.

A charity concert was telecast on October 16, 2014 across 39 channels of ZEE to encourage citizens of India to contribute to this cause. ZEE aired its channels for free, and our sponsors contributed towards

key NGOs to pledge support. The concert found immense support in social media, with live-updates of the donation figures being available throughout the show. We raised over ₹ 7 crores through the donations made. With the funds collected, we constructed 108 shelters in partnership with our philanthropy partner, United Way of India.

Nationalities

For ZEE our objectives and ideas for tomorrow will only be realised if our people are geared up for the challenge and have been invested with the right skills and vision. We realise that our people are the most valuable asset we have, and they will lead the path in our journey to the future. Growing and nurturing talent has a significant role in our Vision 2020, and in 14-15, we took significant steps to further bolster our human capital.

We groomed internal talent to take up important positions, and also laterally hired people from other industries. Our new product launches saw the infusion

of external talent with new skill sets. At the same time, our existing employees were encouraged to take up newer, more challenging roles, in order to hone their execution and leadership abilities. To ensure that we hire the best available talent from the emerging pool of professionals, we initiated campus connect programmes. These not just reinforced our employer branding as a preferred place to work, but also enabled us to hire graduates from management schools across the country.

ZEE also leveraged the power of social and professional networks in its talent

acquisition process, given their growing importance and popularity. We ensured that the hiring managers from our end were trained in the best possible techniques, that included 'talent based interviewing'. This further improved the quality of talent we sourced.

Apart from ensuring that we inculcated top-tier talent into ZEE, succeeding planning exercises were also initiated across functions. This would pave the way for a smoother transition of people to other roles, and ensure continuity by identifying replacements and training them.

Best Media Company to work for

Great Places To Work Survey FY 2014-15

ZEE improved its overall score at the Great Place to Work Survey in FY 2014-15. We were ranked the highest amongst media companies with an increasing score across most parameters. Not just this, ZEE's The Trust Index© also improved. This score reflects the percentage of employees who shared a positive response (rated 4 or 5 on a 5 point scale). An increase in the overall scores only indicates our consistent focus on being a preferred employer. A better talent mapping during the recruitment process, strengthening

of induction and on-boarding activities, leading to a seamless integration of new joiners into the organization, contributed to the improved score. These practices also enabled the new inductees to have enhanced role-clarity, and linking KRAs to commitments. Together with this, there was an increased emphasis on learning and providing our people with growth opportunities within the organisation. Our practices during the year ensured a quicker and better understanding of employee issues and their quick resolution.

BUSINESS STRATEGY

The key elements of ZEE's strategy during the year were

- (i) to invest in growth opportunities to safeguard business leadership in a competitive environment
- (ii) to concentrate on additional revenues from digitization
- (iii) Rationalize on costs across different heads
- (iv) Fortify its expansion in the international markets
- (v) Maintain consistently high standards of corporate governance

(i) Invest in growth opportunities to safeguard business leadership in a competitive environment:

In FY2015, ZEE launched two Hindi GECs - Zindagi and &tv, to further enhance market share through a planned content lineup. The launch of new shows across network channels along with the tie up of cricket rights and other major sporting events has helped ensure that in a highly fragmented environment, the network grew its dominance.

(ii) Concentrate on additional revenues from digitization:

India is a fast digitizing market and the consumer shift towards digital services is exhibited through the rampant expansion of digitized households. The completion of the digitization process in Phase I and Phase II cities and the rollout in Phase III and Phase IV cities is seen as a positive step that should lead to a boost in the subscription revenues in the future.

(iii) Rationalize on costs across different heads

The belief at the Company has always been that higher spends may not necessarily result in sustained incremental viewership. The network continues to endeavor towards maintaining its cost structures through better negotiations with suppliers and better control on distribution spends.

Zee TV continues its dominant position in US, Middle East & Africa in terms of viewership within the SA channels.

management discussion and analysis

(iv) Fortify its expansion in the international markets:

During the year, the Company undertook various initiatives to further strengthen its dominance in international markets by entering into deals with new platform operators as well as launching new channels in some of the geographies. In line with this expansion strategy, the company launched Zee World, Zee Nung and Zee Hiburan in various geographies.

(v) Corporate Governance:

ZEE firmly believes that good governance is critical to sustaining corporate development, increasing productivity and competitiveness and creating shareholder wealth. The governance process should ensure that the available resources are utilized in a manner that meets the aspirations of all of its stakeholders. The Company's essential charter is shaped by the objectives of transparency, professionalism and accountability. The Company continuously endeavors to improve on these aspects on an ongoing basis. While the increasing emphasis on transparency and accountability, standards have been set by various governing bodies on disclosure as well as judiciousness in conduct, ZEE has always tried to go a step further in this direction.

RISK FACTORS

Competition from other players

The Company operates in highly competitive environment that is subject to innovations, changes and varying levels of resources available to each player in each segment of business.

Ever changing trends in Media sector

It may not be possible to consistently predict changing audience tastes. People's tastes vary quite rapidly along with the trends and environment they live in. In this makes it is virtually impossible to predict whether a particular show or serial would do well or not. With the kind of investments made in ventures, repeated failures would have an adverse impact on the bottom line of the Company.

Cost of programming mix might affect its bottom line

The urge to compete and provide the best content to viewers, ZEE would have to incur high expenditure to provide an impetus on its programming front from time to time. The increase in costs might not necessarily perk up its revenues in the same proportion.

Investments in new channels

The Company may from time to time launch new channels like we did with Zindagi and &tv this year. Content for these channels is either freshly created or acquired. The success of any new channel depends on various factors, including the quality of programming, price, extent of marketing, competition etc. There can be no assurance that the Company will be as successful in launching new channels as it has been the case of its existing channels.

Macroeconomic environment

Macroeconomic environment can be a potential source of risk. Moderating growth, along with high inflation, can adversely impact advertising revenues of the Company, which forms the largest component of the Company's revenues.

Slowdown in DTH/Digital rollout

The uptake of pay digital services by subscribers has been a very encouraging sign for all broadcasters. Internationally most broadcasters derive a greater share of their revenues from the subscription revenues whereas in India the under-declaration in the analogue cable system has led to broadcasters being more dependent on advertising revenues, which tend to be cyclical in nature and more affected by the macro economic factors. The rollout of

pioneer

ZEE has been a pioneer in the international markets and has the highest market share amongst all South East Asian broadcasters across Europe and USA.

Phase I and Phase II cities took longer than expected. Similarly, it may take longer to realize revenues from Phase III and Phase IV cities as their rollouts may not be completed on time.

Increased competitive environment in the Hindi General Entertainment Space

The Hindi GEC genre is amongst the key genres for all advertisers and hence is most lucrative to all the TV broadcasters. Even though we launched Zindagi and &tv this year, any new competition in the Hindi GEC space can have an impact on the Company's revenues.

Sluggish consumer uptake in the international markets

ZEE has been a pioneer in the international markets and has the highest market share amongst all South East Asian broadcasters across Europe and USA. Indian content in these markets serves the preference of a niche audience and ZEE has strong relations with distribution platforms in these markets giving management the confidence that the Company will retain market share in key geographies. Given the global economic slowdown, consumers may find it difficult to upgrade their packages and the value growth from these markets may get affected.

Increase in cost of acquisition for some of the key sports properties

While a significant amount of rights have been signed on by the Company for leading sports properties, any future contracts may be at higher costs, which may put pressure on margins of the Company.

The Company may be exposed to foreign exchange rate fluctuations

The Company receives a significant portion of its revenues and incurs a significant portion of its expenses in foreign currencies, particularly US Dollars and UK Pounds. Accordingly, the Company is exposed to fluctuations in the exchange rates between those currencies and the Indian Rupee; the Company's reporting currency, which may have an impact on its revenues and expenses.

forming part of the Consolidated Financial Statements

1 Basis of preparation of Consolidated financial statements

These consolidated financial statements have been prepared under the historical cost convention on going concern basis in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP), including the Accounting Standards notified under the relevant provisions of the Companies Act, 2013. In case of an Indian subsidiary viz. 2 Principles of Consolidation

- i. The Consolidated Financial Statements (CFS) relate to Zee Entertainment Enterprises Limited and its subsidiary Companies, associates and jointly controlled entity.
- ii. The consolidation of financial statements of the parent company and its subsidiaries is done to the extent possible on a line-by-line basis by adding together like items of assets, liabilities, income and expenses. All significant intra-group transactions, unrealised inter-company profits and balances have been eliminated in the process of consolidation. Minority interest in subsidiaries represents the minority shareholders proportionate share of the net assets and net income.
- iii. The CFS are prepared using uniform accounting policies for transactions and other events in similar transactions except in case of six subsidiaries wherein the liability on account of retirement benefits is provided on estimated

basis as per local laws instead of actuarial basis. This liability represents 15.79 % (15.23%) of total gratuity and leave benefits of the Group as at the year end.

- iv. The CFS includes the Financial Statements of the parent company and the subsidiaries (as listed in the table below). Subsidiaries are consolidated from the date on which effective control is acquired and are excluded from the date of transfer / disposal.

2.1 Significant Accounting Policies

a. Use of estimates

The preparation of financial statements requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities, on the date of the financial statements and the reported amount of revenue and expenses for the year. Difference between the actual results and estimates are recognised in the year in which the results are known / materialised.

b. Comparatives

Previous years figures have been regrouped, rearranged or recasted wherever necessary to conform to this year's classification. Figures in brackets pertain to previous year.

c. Fixed Assets

(ii) Tangible fixed assets

(a) Tangible fixed assets are stated at cost, less accumulated depreciation and impairment loss, if any. e. Impairment of tangible and intangible assets

At each Balance Sheet date, the Group reviews the carrying amount of assets to determine whether there is an indication that those assets have suffered impairment loss. If any such indication exists, the recoverable amount of assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value.

f. Depreciation / Amortisation on tangible / intangible assets

(i) Depreciable amount for tangible fixed assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on tangible fixed assets is provided on straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, where the life of the assets has been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating

- Effective 01 April 2014, the Group has changed its method of accounting in respect of expenses incurred on development of new television channels till the time it is ready for commercial launch as Intangible assets, as permitted under AS 26. Instead of charging it to statement of profit and loss. Accordingly ₹ 133 million of development expenditure has been capitalized and ₹ 6 million has been amortized during the period. Had the Group continued to use the earlier method of accounting, the profit after tax for the current period would have been lower by ₹ 84 million.
- During the year, the Group has adopted the useful life as per the Schedule II of the Companies Act, 2013. Consequently, ₹ 141 Millions representing the written down value of fixed assets whose lives have expired as at 1 April 2014 have been adjusted in the Surplus in Statement of Profit and Loss net of deferred tax effect of ₹ 47 millions (Note 4). The unamortised carrying value has been depreciated / amortised over the revised / remaining useful lives.
