Care Today Fund Team's continuous interaction with the partner organizations and during the team's visit to the project areas it was observed that the construction of toilets so far has extremely benefitted the beneficiaries, especially women and girl children and the whole households are using it to their extreme satisfaction. The ongoing project activities are progressing satisfactorily and would address the issues of sanitation and hygiene adequately with the project areas.

2. Organization: Nageshwara Charitable Trust (NCT), Nagpur, Maharashtra

A) Feedback From individual Households:

1. Earlier we had to go in open and always had fear of unknown men. Now as we are using our own toilet, we feel very safe.
2. It was very embarrassing for us to sit next to road. The onlookers used to tease our young children. Now all these nuisances have stopped.
3. It was very scary to go in dark due to fear of snake and stray animals.
4. It was very embarrassing and shameful when our guests refuse to stay at our place as we did not have toilets at home. Now we feel proud to invite our relatives and guests.
5. My daughter is studying in 9th standard and now, she is taking part in all school activities and she feels very safe while using our own toilet.
6. The expenses on medicines have decreased to a great extent.

7. It was very difficult for us to go in open during rainy season.
8. To go to market, we have Bus service only twice a day. We used to miss the morning bus as many a time we have to wait to go out due to movement of people around. Now after having our own toilet, we never missed the bus and released from all the difficulties.

B) From SHG Members and Anganwadi sevakas:

It used to be a main subject in any meeting as the officials used to ask this embarrassing question of not having toilet and defecating in open. Now, we are discussing other developmental issues in the meeting.

C) From GP Members:

1. Now we have clean roads in our villages.
2. We feel proud and get support from officials in public programmes and government schemes.
3. We feel nice to see increased girls attendance in our schools.

Feedback from Ms. Aliyani, one of the first beneficiaries who have started using the unit:

"I have a family of 8 people in my home – Two of us, our four children (eldest daughter is 17 years and youngest son is 5 years) and my in-laws. We are so thankful to you people for providing us these toilets in our village. It was a difficult life for us before toilets came in, especially when our daughters would need to use it in the middle of the night. We would have to accompany them far. We would also have to accompany our girls during the day. My girls would feel so ashamed to go out in the open, always conscious of prying eyes. We would have to be so cautious always. Also the path to the open field was so filthy with young children sitting to defecate right on the path. Now that is soon going to change and we feel so much better. Also, the 'sone khat' (compost) that is being made is of very good quality. We used to buy these for Rs. 1000 a kg from the marketplace. Now this Rs. 1000 is saved. And if we have more compost, we can also sell it to people who would want it, thus making some more money. But we will first use it for our fields. Also since earthworms will increase, we will sell the excess earthworms to people who may need it."

Feedback from Ms. Jayshree Daulat Valimbe, age 42 years

"I have already started talking about the advantages of this toilet structure to other women folk in the village. Since mine was the first one to be built, many women came up to me to ask how I maintain it, and I do give them all information. I am much thankful to you and the people who supported this construction in our village. Now our village will surely become clean and green (Swaccha ani hirvi)."

4. Organization: Jeevan Rekha Parishad, Bhubaneswar, Odisha

- A. I am Mrs Pramila Jani from Badakuradanki village. Menstruation, pregnancy and post natal period become more problematic for our women in rural areas as they go to forest for open defecation and disposal of clothes etc. With the construction of Toilet all these health problems of women will be solved. I am very happy that I have a Toilet, especially a Bio-toilet in my house to cater 6 members of my family. Thanks to the Care Today Fund/India Today Group/TVTN Ltd and NGO JRP for helping us in building toilets in our village.

- B. My name is Mrs Jubati Jani from Badakuradanki village. I am a SHG member. We have started a campaign in the area called "Let us Build Toilets". We are now aware that due to open defecation there is Diarrhea, Skin diseases, etc. Open defecation is one of the key contributors to mal-nutrition. I am educating the people of my area and they are very happy to have toilets in their houses.

- C. I am Mrs Sukanti Jani of Badakuradanki village. I am very happy that I have a toilet for my family. I am little sorry that due to non-availability of space I have constructed the toilet on my other plot which is 500 meter away from my house. I have no alternative like many others. But we are very happy to have our own toilet. My son is recently married and he is happy that his wife will no more go to forest for open defecation.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS

The year 2015-16 was a crucial year for the Media and Entertainment(M&E) industry in India. A year that sparked hope but at the same time a year in which many expectations did not materialise. This was a year when costs generally went up as compared to the previous year.

The size of Indian M&E stands at INR 1,15,700 Crore in 2015 up by 12.8% from INR 1,02,600 Crore in 2014 with advertising revenue size at INR 47,500 Crore in 2015 up from INR 41,400 Crore. The Indian M&E industry is expected to grow at a Compound Annual Growth Rate (CAGR) of 14.3% to INR 2,26,000 Crore by 2020 with advertising revenues expected to grow to INR 99,400 Crore at a CAGR of 15.9%. (SOURCE: KPMG- FICCI India Media and Entertainment Industry Report 2016)

The growth in popularity of digital media continued to surge in 2015 with a significant growth in digital advertising of 38.2% over 2014. At the same time, traditional media also continued to exhibit healthy growth rates, with the television sector registering a 14.2% growth led by strong growth in advertising at 17% on the back of increased e-commerce spends and renewed spending by other sectors such as Auto, Telecom, Mobile handsets etc. Advertising revenue for News Television, however, grew at mid-single digit rates of 5-8% in 2015.

Subscription revenue growth, remained a challenge particularly for niche segments like News due to delays in Phase 3 digitization and further delays in availing the on ground benefits of Phase 1 and 2 digitization.

Phase 3 digitization failed to meet its deadline with only around 76 per cent of boxes seeded by December 2015. Many High Courts gave stay to DAS-III digitalization from 30 days to 90 days so the seeding of the Boxes was very slow. While the government has not officially extended the timelines, the process has slowed down due to multiple court cases challenging the process.

For the Radio business, 2015 was a year where Phase III finally saw the light of day.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

TELEVISION

Performance and Industry Outlook

The details of performance of this segment have been provided in the Director's Report.

The television industry in India is estimated at INR 54,220 Crore in 2015 up from INR 47,490 Crore in 2014,

and is expected to grow at a CAGR of 15.1% to reach INR 1,09,760 Crore in 2020.

In 2015, during the first half, Multi-System Operators ('MSOs') continued to focus on improving their operating models in Phase I and II cities, while changing focus in the latter half of the year to rolling out STBs in Phase III areas. MSOs are continuing to build internal processes to reflect the change in business model from B2B to B2C service providers but different players have had varying degrees of success in achieving this.

The number of Cable and Satellite (C&S) subscribers is estimated to have reached 16 Crore. Excluding DD Free Dish, the number of paid C&S subscribers is estimated at 14.50 Crore in 2015, implying a paid C&S penetration of 83 per cent. The number of TV households in India are expected to increase to 20 Crore by 2020, with paid C&S subscriber base expected to grow to 17.40 Crore by 2020, representing 87% of TV households.

Distribution & Impact on Broadcasters

At the end of 2015, the digitization of C&S households (in terms of STBs rolled out) stood at 60 per cent including DD Free Dish subscribers. However, challenges in improving addressability and increasing monetization continue to trouble the industry. In 2015 as well, there was no significant impact of digitisation on sharing of subscription revenues among stakeholders or on carriage fees. The carriage was on the rise due to the expansion of new markets (BARC) and monopolistic era of MSOs in key markets.

In 2014, the Ministry of Information and Broadcasting, extended the deadlines for Phase III and IV of Digital Addressable System (DAS) implementation from the earlier combined deadline of December 2014 to December 2015 and December 2016, respectively. A delay of 12 months is expected in the rollout of STBs in Phases III and IV each, and it is expected that the rollout of Phase IV would be largely completed by December 2017. The benefit of digitization in these phases in terms of improved addressability and Average Revenue Per User ('ARPU') are expected to take much longer. At the end of 2020 it is expected that digital cable subscribers and DTH subscribers would be in the ratio of 53:47 with 9 Crore digital subscribers, and 7.90 Crore DTH subscribers by 2020.

Even though there is a push from the government to roll out domestically manufactured STBs in phases III and IV, according to industry discussions this may be difficult to achieve because of several reasons such as - i) Domestic STB manufacturing facilities may not be able to scale up in such a short period of time, ii) The foreign STB manufacturers provide vendor financing which is critical for MSOs, iii) The quality of imported STBs is superior in most cases, and iv) There are no incentives from the government to use domestically manufactured STBs.

Another emerging trend is that the LCOs in phase III and IV areas are uniting to form cooperatives so that they can combine their finances and digitize on their own, without being backed by a MSO. These cooperatives MSOs are not backed by the technology i.e CAS / SMS so the survival chances in long run are very less.

As per the TRAI's revised regulations on channel aggregators, broadcasters cannot package their channels with those of other broadcasters while offering them to cable and DTH operators. This led to lower bargaining power to broadcasters while negotiating subscription revenues and carriage fees with MSOs and DTH operators. While this did not necessarily impact large broadcasters with a strong portfolio of channels, it has become more difficult for smaller broadcasters having only a few channels as also for cluttered segments like News where many channels are Free to Air. The newly impacted NSTPL TDSAT judgement with effect from 1st Apr'16 has forced broadcasters to come up with the new RIO Rates w.e.f. 1st May'16 and simultaneously TRAI has issued a consultation paper related to subscription model and carriage fees. The new tariff order which will come out soon will also impact broadcasters. These two developments will have an impact on the subscription and carriage fees.

After a rollout of STBs in Phase I and Phase II markets, there was an initial decline in carriage fees, but there has not been any significant decline after 2014. As per industry discussions, there was an increase in the overall carriage fees paid to distributors in 2015 due to the launch of new channels and channels continuing to increase distribution coverage in smaller towns and cities. Carriage fees remained broadly stable for existing small deals, but new deals/existing monopolistic deals saw a hike of 5-10 per cent in carriage fees. Looking into 2016, the same trend is expected to continue.

Broadcasting Revenue- Advertising

The TV advertising industry witnessed a 17% growth on the back of a strong economy, growing ad spends by ecommerce companies, contribution from cricket events and two important state elections. This is higher than the 13% projected in *KPMG- FICCI India Media and Entertainment Industry Report* last year. As against TV Industry growth of 17 % TV News witnessed a muted mid-single digit growth of 5-8%.

Update on ad cap regulation - TRAI had passed a regulation in March 2013 that restricted advertisements to 12 minutes per hour, allowed for advertisements only during breaks of live sporting events, prohibited partial advertisements and required broadcasters to submit details of advertisement carried on their channels in a specified format to TRAI. This had left the industry divided. While several Hindi entertainment channels implemented the rule, the News Broadcasters Association (NBA), independent music channels and several regional broadcasters appealed against the TRAI' order in the Delhi High Court. The Delhi High Court passed an interim order prohibiting TRAI from taking any coercive action against

channels not following the ad-cap regulations and the case is expected to be heard in the Hon'ble Delhi High Court next on 21st July 2016. In a latest development, the hearing in the ad cap case has been postponed by the Delhi High Court until August 1, 2016

News genre- The TV news industry grew at mid single digit rates of 5-8%. Much of the growth came from increased spending of non-traditional players such as e-commerce and auto while spending by traditional players such as FMCG and financial services was lower than expected. Over the past two years, many of the top news broadcasters have reduced their ad inventory by showcasing about 18-20 minutes of ads on Hindi news channels. This reduction in ad inventory has however, not been matched by an equal increase in ad rates which grew in the low single digits. Some of the regional and Hindi news broadcasters have tried to balance this by targeting the smaller and niche brands, which do not have negotiating power of the larger media buying agencies. While currently these smaller brands contribute to only 30 per cent of the news advertising pie, over the next few years this could increase to as much as 60 to 70 per cent for the Hindi and the regional news genre.

The year 2015 was not a good year even from the perspective of costs, as the benefits of digitisation have not fully set in and the news channels continued to see an increase in employee and talent costs. Carriage fee which was supposed to continuously decline with digitisation, in fact increased for new deals. News channels still do not see much potential in subscription based revenues. While consolidation in the news space makes sense due to lack of financial viability of so many news channels, it is unlikely to happen over the short term due to low cost of entry and exit as well as imbalance in value expectations. With increasing penetration of internet and smart phones, consumption of news on digital platforms continues to gain traction, including live streaming of TV news channels. Going forward, industry participants expect that digital will act as a complementary source of revenues for TV news broadcasters. News broadcasters are also trying to leverage the digital opportunity by increasing viewer engagement on social media.

other developments: Other themes in 2016 and going forward-Upcoming regulations that can impact the industry.

Commercial establishments

As per the amendment to the 2004 broadcasting and cable TV tariff order made by TRAI in July 2014, broadcasters cannot charge differential rates to commercial subscribers which do not specifically charge customers on account of showing TV programmes. Instead broadcasters should charge them on a per television basis like an ordinary subscriber. However, in cases in which commercial establishments specifically charge extra to its clients or visitors on account of viewing of channels at its premises, the tariff would be as mutually agreed between the broadcaster and the commercial subscriber. The amendment also directs that commercial subscribers cannot obtain television service from broadcasters directly

and have to do so only from a distribution platform such as MSO or DTH operator.

The TV broadcasters did not respond well to these amendments since at present they charge commercial establishments with a high premium. The Indian Broadcasting Federation (IBF) appealed against the order with TDSAT which ruled that i) the RIO must reflect the rates of channels and bouquets along with any bulk discount schemes, ii) the a la carte rate and bouquet rates must be in accordance with the ratio mandated by TRAI, iii) broadcasters have to issue fresh RIOs in compliance with the interconnection regulations within one month from the operationalisation of the order. As per the TDSAT order all rates and discounts have to be made public, removing any kind of discriminatory pricing.

Broadcasters are planning to approach the TDSAT again requesting it to delay the implementation of the RIO Order until the TRAI completes the ongoing consultation on the review of tariff systems.

Broadcast Audience Research Council (BARC) - The implementation of the viewership measurement system by BARC was a major initiative in 2015. While inclusion of rural markets and increase in sample size led to a reshuffle in the rankings of channels, particularly highlighting the viewership of FTA channels, there was no immediate impact on the advertising budget among channels or genres as a result of this.

DIGITAL MEDIA

Digital Media as a category grew the fastest in 2015 at 38.2% and is expected to show a growth of 34.9% in 2016. It is expected to reach a value of INR 8,110Crore, accounting for 14.8 per cent of the total advertising expenses in 2016, keeping it the third largest contributor after television and print. Digital ad spends outperformed expectations in 2015 growing almost 38.2% over 2014 to reach INR 6,010Crore. It is expected to cross INR 25,500Crore in 2020 driven by a number of factors including:

- Increasing allocation of budgets to engage customers through the digital medium.
- Shift of traditional companies using digital channels for their business's operations.
- Continued allocation of spend from ecommerce companies.
- Significant rise in consumption of video online, a category that tends to attract much higher CPMs.

RADIO

Performance

The Board on February 6, 2015 approved the sale of Radio FM Business (seven radio stations) of the Company subject to regulatory approvals and authorized a Committee of Senior Officials to negotiate and execute requisite documents

with potential buyers. With the approval of Ministry of Information and Broadcasting ("MIB"), Company sold its FM Radio Stations in Amritsar, Jodhpur, Patiala and Shimla to Entertainment Network (India) Ltd vide Business Transfer Agreement dated September 11, 2015

With respect to sale of remaining Metro Radio Stations at Delhi, Mumbai and Kolkata MIB by its order dated May 1, 2015 denied approval on the ground that the proposed sale was not in conformity with the FM Radio Guidelines. The Company has further challenged the above referred MIB order with the Hon'ble High Court and the matter is pending.

Industry outlook

The completion of the Stage I of the Phase III auctions, migration of existing operators from Phase II to Phase III and the announcement of the hike in the FDI caps for FM radio brought much cheer to the industry. Companies spent approximately INR 1056 Crore to acquire 91 new stations and will spend INR 3933 Crore as they migrate their existing 243 stations to Phase III in 2015.

The radio industry is enjoying a steady CAGR of 14.5 per cent and grew by an estimated 15.1 per cent in 2015 to reach a revenue of INR 1980Crore. Growth has been driven by both - volume enhancement in tier II and tier III cities and an overall increase in ad rates.

Stage 1 of Phase III FM Radio auctions have been the costliest in the history of the FM industry. INR 522 Crore was paid for stations in Mumbai, Delhi and Bengaluru alone. The Non-refundable One Time Entry Fee (NOTEF) of INR 1055 Crore along with Non-refundable One Time Migration Fee (NOTMF) payable of INR 3933 Crore is much higher than what was spent for the earlier Phases I and II.

Major implications

Geographical expansion-With phase III, the industry is likely to look for expansion in tier II and tier III cities.

Mergers and acquisitions- Larger players in the radio segment expanded into tier II and tier III cities through acquisitions of smaller players in the industry. In order to migrate from Phase II to Phase III licensing, radio channels were required to pay a large one time migration fee. Hence, Radio channels have sought funds to upgrade equipment and meet working capital requirements. As the trend of consolidation continues, the large networks- are likely to emerge as strong national players, smaller players may therefore struggle.

RISK AND CONCERNS

A. Television

Issues of MSO's and LCO's

MSOs face additional risks associated with managing LCOs. Since the MSO primarily drives a B2B model with LCOs, they have very limited control on key subscriber touch points and subscriber experience delivery. MSOs have very limited visibility on subscriber billing and service provisioning. Additionally, LCOs often underreport subscription figures to MSOs leading to revenue leakages. The ability of an operator to effectively control these risks can directly impact revenue and margins.

Competition leading to increasing content and distribution Cost

In the current scenario, broadcasters are vying for a share of viewer eye balls, in order to chase ad spends. Fragmentation of viewership ratings and excess capacity are forcing players to incur high marketing, content and distribution costs in order to stay competitive.

Measurements systems

The implementation of the viewership measurement system by BARC, was a major initiative by the industry in 2015. While inclusion of rural markets and increase in sample size led to a reshuffle in the rankings of channels, particularly highlighting the viewership of free-to-air channels, there was no immediate impact on advertising (ad) budget allocations among channels or genres. Going forward, sustained trends in ratings could lead to advertisers re-thinking their ad spend mix and broadcasters their content strategy.

Aaj Tak gets a sizeable premium for its advertising over its competitors. Any significant change in market share of its viewership may lead to a dilution of the premium.

Tax and Regulatory Concerns:

The Indian M&E Industry is a sunrise sector for the economy and is growing at a rapid pace. Rising income and evolving lifestyles, backed by increasing digitisation and higher internet usage, pave way for the tremendous scope of growth for almost all segments of this industry.

However, industry players face nebulous and vexatious taxation issues. Considering the positive global investor sentiments, the Indian demographics and the probability of high growth, the industry was hoping for resolution of some

of the tax issues faced by it. Although no tax exemptions/benefits have been made available specifically to the M&E sector, the incentives to boost growth or employment generation, and simplification/rationalisation of taxation, with a focus on reducing litigation and providing certainty in taxation should bring some respite.

Discount given to advertising agencies by broadcasters- Generally, advertising agencies purchase advertisement airtime from broadcasters for placement of advertisements of their clients on the television channels of the broadcasters. As a customary practice followed by the broadcasting industry, the invoice raised by them on advertising agencies reflected standard discount of 15 per cent. The tax authorities have been contending that such discount is in the nature of 'commission or brokerage' paid by television channels to advertising agencies and accordingly, is liable to withholding tax at 10 per cent under Section 194H of the IT Act. However, taxpayers believe that the aforesaid discount given to advertising agencies is not in the nature of 'commission or brokerage' and hence, not liable for TDS under Section 194H of the IT Act. The above controversy has resulted in protracted litigation on the matter.

However, recently, the CBDT vide a circular No. 5 / 2016 dated 29.02.2016 has clarified that the deduction of tax is not required on payments made by television channels/newspaper companies to the advertising agency for booking or procuring of or canvassing for advertisements, bringing much relief in this matter.

Taxation of Transponder charges- Broadcasting companies make payments for-transponder charges to the satellite companies for transmission of their TV signals. The tax authorities contend that payments made towards transponder charges are in the nature of 'royalty'. However, in the case of Asia Satellite Telecommunications Co. Ltd. (Asia Sat), the Delhi High Court has held that such payments do not constitute 'royalty' and are not liable to tax in India.

With a view to override the above decision, the definition of 'royalty' under the IT Act was amended vide the Finance Act, 2012, to bring within its ambit payments made for transmission of signals by satellite. Though Delhi High Court in the case of TV Today Network Limited affirmed the taxability of payments towards transponder charges as 'royalty' under the Indian IT Act, in view of the retrospectively amended definition of 'royalty', but it did not decide on the alternative plea of the company that the same cannot be taxable under Double taxation treaty. On the alternative plea The Delhi High Court referred back the case to the Tribunal and in turn the Tribunal referred the case back to the file of Assessing Officer, which is still undecided and pending.

However, recently, the Delhi High Court in the case of New Skies Satellite BV [ITA No. 473 and 474 of 2012] and Shin Satellite Public Co. Ltd. [ITA No. 500 of 2012] has held that even post the amendment in the definition of royalty under the

IT Act, payments received by foreign satellite companies for lease of transponders is not taxable as royalty under the tax treaty. Thus, relying on this decision, non-resident taxpayers can continue to take the benefit of tax treaties entered into with India to contend that such payment is not in the nature of 'royalty' under the tax treaty and hence, not liable to tax in India.

B. FM Radio

Sale of Radio Stations

The Board on February 6, 2015 approved the sale of Radio FM Business (seven radio stations) of the Company subject to regulatory approvals and authorized a Committee of Senior Officials to negotiate and execute requisite documents with potential buyers. On February 16, 2015, an application was filed with the Ministry of Information and Broadcasting ("MIB") seeking its approval for the sale of Radio FM Business to ENIL. Since there was no response from the MIB on the application filed by the Company, the Company filed a writ petition in the Delhi High Court to expedite the matter. On April 20, 2015, the Court directed the MIB to decide the Company's application within two weeks. MIB by its order dated May 1, 2015 denied approval to the sale of Radio FM Business on the ground that the proposed sale was not in conformity with the FM Radio Guidelines.

The Committee further challenged the above referred MIB order with the Delhi High Court. Thereafter on the basis of representation filed by the Company with MIB, it conveyed its approval for sale of FM Radio Stations in Amritsar, Jodhpur Patiala and Shimla vide its letter dated 20th July, 2015 and the Company entered into Business Transfer Agreement with respect to the above four stations on September 11, 2015 with ENIL. The sale of Radio Stations at Delhi, Mumbai and Kolkata was not approved by MIB since it was stated by MIB that the sale of these stations was not in conformity with the FM Radio Guidelines, the matter is pending with the Hon'ble High Court.

Changes to Copyright Act

Another area of concern is the amendment to the Copyright Act, which have introduced a new right in favor of broadcasters i.e. "Statutory License", which applies to all broadcasters. It is pertinent to mention that though the Copyright Rules have been framed in 2013, till date the procedural aspects of availing the benefits of statutory licensing by the radio broadcasters still remains to be framed.

1. We have audited the internal financial controls over financial reporting of T.V. Today Network Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the

Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls

and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and

that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Initial direct costs are recognized as an expense in the Statement of Profit and Loss in the period in which they are incurred.

I. Earnings Per Share

Basic earning per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

o. Provisions and Contingencies

Provision is recognized when the Company has a present obligation as a result of past event and it is more likely than not that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. A disclosure for contingent liabilities is made when there is a possible obligation or a present obligation that probably will not require an outflow of resource or where a reliable estimate of obligation cannot be made.

p. Impairment of Assets

Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. Impairment occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. The impairment loss to be expensed is determined as the excess of the carrying amount over the higher of the asset's net sales price or present value, as determined above.

Assessment is also done at each balance sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

q. Cash and Cash Equivalents

34. Discontinuing Operations

On February 6, 2015, the Board of Directors of the Company approved the sale of Radio FM Business (seven radio stations). The decision was intimated to the stock exchanges on the same date. The disposal plan is consistent with the Company's long-term strategy to focus its activities on Television Broadcasting. The Company signed a non-binding Memorandum of Understanding (MoU) with Entertainment Network (India) Limited on February 13, 2015, in relation to the sale of seven radio stations to Entertainment Network (India) Limited, subject to fulfilment of the contractual obligations and receipt of all necessary regulatory approvals, including permission from the Ministry of Information and Broadcasting, Government of India. The purchase price for the whole of Radio Business, as per the said MoU, is Rs. 485,000,000, to be paid on the closing date.

On receipt of approval from the Ministry of Information and Broadcasting on July 20, 2015, the Company sold four of its radio stations at Amritsar, Patiala, Jodhpur and Shimla on September 18, 2015 to Entertainment Network (India) Limited, as a going concern, on a slump sale basis, for a lump sum consideration of Rs. 40,000,000, adjusted for net working capital, as per the business transfer agreement. Such transaction resulted in a profit of Rs. 20,701,133 included in 'Other Income'.

The application to the Ministry to grant approval for sale of its three radio stations at New Delhi, Mumbai and Kolkata, was declined by the Ministry. The Company has filed a writ petition before the Honourable High Court of Delhi against such denial, which is pending before the Honourable Court. The Ministry also demanded a payment of Rs. 713,600,000 towards additional migration fee for migration of its radio stations from Phase II to Phase III Policy Regime, against which the Company has obtained an interim relief till the disposal of the aforesaid case and accordingly, the same has been disclosed as a contingent liability (refer note 20). The Company is pursuing the case legally and expects a favourable outcome.

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 9(f) of the Independent Auditors' Report of even date to the members of T.V. Today Network Limited on the consolidated financial statements for the year ended March 31, 2016.

Report on the Internal Financial controls under clause (i) of sub section 3 of section 143 of the Act.

1. In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2016, we have audited the internal financial controls over financial reporting of T.V. Today Network Limited (hereinafter referred to as "the Holding Company") and its subsidiary company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company and its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical

requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud

may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its subsidiary company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based

on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

A disclosure for contingent liabilities is made when there is a possible obligation or a present obligation that probably will not require an outflow of resource or where a reliable estimate of obligation cannot be made.

q. Impairment of Assets

Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. Impairment occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. The impairment loss to be expensed is determined as the excess of the carrying amount over the higher of the asset's net sales price or present value, as determined above.

Assessment is also done at each balance sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

34. Discontinuing Operations

On February 6, 2015, the Board of Directors of the Company approved the sale of Radio FM Business (seven radio stations). The decision was intimated to the stock exchanges on the same date. The disposal plan is consistent with the Company's long-term strategy to focus its activities on Television Broadcasting. The Company signed a non-binding Memorandum of Understanding (MoU) with Entertainment Network (India) Limited on February 13, 2015, in relation to the sale of seven radio stations to Entertainment Network (India) Limited, subject to fulfilment of the contractual obligations and receipt of all necessary regulatory approvals, including permission from the Ministry of Information and Broadcasting, Government of India. The purchase price for the whole of Radio Business, as per the said MoU, is Rs 485,000,000, to be paid on the closing date.

On receipt of approval from the Ministry of Information and Broadcasting on July 20, 2015, the Company sold four of its radio stations at Amritsar, Patiala, Jodhpur and Shimla on September 18, 2015 to Entertainment Network (India) Limited, as a going concern, on a slump sale basis, for a lump sum consideration of Rs. 40,000,000, adjusted for net working capital, as per the business transfer agreement. Such transaction resulted in a profit of Rs. 20,701,133 included in 'Other Income'.

The application to the Ministry to grant approval for sale of its three radio stations at New Delhi, Mumbai and Kolkata, was declined by the Ministry. The Company has filed a writ petition before the Honourable High Court of Delhi against such denial, which is pending before the Honourable Court. The Ministry also demanded a payment of Rs 713,600,000 towards additional migration fee for migration of its radio stations from Phase II to Phase III Policy Regime, against which the Company has obtained an interim relief till the disposal of the aforesaid case and accordingly, the same has been disclosed as a contingent liability (refer note 20). The Company is pursuing the case legally and expects a favourable outcome.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting

to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1. Summary of significant accounting policies

a. Basis of preparation

These financial statements have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis. Pursuant to section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, till the standards of accounting or any addendum thereto are prescribed by Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 shall continue to apply. Consequently, these financial statements have been prepared to comply in all material aspects with the accounting standards notified under Section 211(3C) [Companies (Accounting Standards) Rules, 2006, as amended] and other relevant provisions of the Companies Act, 2013.

The Ministry of Corporate Affairs (MCA) has notified the Companies (Accounting Standards) Amendment Rules, 2016 vide its notification dated March 30, 2016. The said notification read with Rule 3(2) of the Companies (Accounting Standards) Rules, 2006 is applicable to accounting period commencing on or after the date of notification i.e. April 1, 2016.

All assets and liabilities have been classified as current or non-current as per the criteria set out in the Schedule III to the Companies Act, 2013. The Company does not have any operations and, therefore, no operating cycle exists.

b. Interest Income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

c. Taxes on Income

Tax expense for the year, comprising current tax and deferred tax, is included in determining the net profit for the year. Current tax is determined based on liability computed in accordance with relevant tax rates and tax laws.

Deferred tax is recognized for all timing differences arising between accounting income and taxable income and is measured at the tax rates and tax laws that have been enacted or substantively enacted as on the balance sheet date.

Deferred tax assets are carried forward to the extent there is reasonable certainty that sufficient future taxable profits will be available against which such deferred tax assets can be realized. Deferred tax assets in respect of unabsorbed depreciation or brought forward losses are recognized to the extent of virtual certainty supported by convincing evidence that sufficient future taxable profits will be available against which such deferred tax assets can be realized.

d. Provisions and Contingent Liabilities

Provision is recognized when the Company has a present obligation as a result of past event and it is more likely than not that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. A disclosure for contingent liabilities is made when there is a possible obligation or a present obligation that probably will not require an outflow of resource or where a reliable estimate of obligation cannot be made.

e. Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

f. Cash and Cash Equivalents

In the cash flow statement, cash and cash equivalents include cash in hand, cheques in hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.
