MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A] INDUSTRIAL STRUCTURE AND DEVELOPMENTS

There are about 750 – 800 paper mills (organized & unorganized sector) in the country with Installed capacity of 13 Million tonnes with the domestic demand for all varieties of paper in India is estimated at around 13.90 Million tonnes in FY 2014-15 (production 12.20 Million tonnes - Exports 0.6 Million tonnes & Import 2.3 Million tonnes) which is 3% of global demand of 400 Million tonnes even though population of 121 crores as per 2011 census is 17% of world population.

Wood based industry accounts for 31% of production while waste paper and agri residue accounts for 47% & 22% respectively. Capacity-wise industrial Paper accounts for about 40%, Printing & Writing Paper 35%, Speciality Paper 6% and Newsprint 19% of total production.

The demand writing & printing paper accounts for approx. 4.10 Million tonnes, packaging grades for approx. 5.90 Million tonnes and newsprint about 2.50 Million tonnes apart from Speciality grade about 0.60 Million tonnes based on data for FY 2013-14.

The estimated turnover of the industry is INR 50,000 crore approximately and its contribution to the exchequer is around INR 4,500 crore. The industry provides employment to more than 0.5 million people directly and 1.5 million people indirectly.

There are about 121 units manufacturing newsprint with installed capacity of 2.6 million tonnes in our country whereas demand of newsprint is estimated at around 2.630 Million tonnes in FY 2014-15 (production 1.24 Million tonnes – Imports 0.139 Million tonnes & negligible exports. The per capita consumption is about 2 kg and it is expected to grow in line with GDP growth which is projected to be 7 to 7.75 % as per Economic survey 2016. The newsprint supplied to publishers registered with Registrar of newsprints is not subject to any excise duty.

The global demand is estimated to 32 million tones with surplus capacity due decline in demand caused by trends in advertising, electronic data transmission and storage, and the Internet with adverse effects on the demand for traditional print media. Neither the timing nor the extent of those trends can be predicted with certainty. The aging population and declining birth rate also affected demand of newsprint. This sector is to compete with, other forms of media and advertising and electronic data transmission and storage, such as television, electronic readers and websites which has reduced consumption of newsprint.

Some of the leading newsprint manufactures have either closed capacity or converted machines to produce LWC container board etc. The decline in newsprint worldwide is estimated to be 7 % in year 2014 and 10 % in year 2015 with decline reported from Europe , Oceania , South Africa and North America in the range of 6 to 10 % in these two years.

The consumption of newsprint was 6.8 million tonnes in Europe 3.6 million tones in North America whereas it was 11.4 million tones in Asia and Oceania in year 2015

The Ministry of Power, Government of India has notified unit-specific “energy use norms” for the paper industry vide Notification dated 30.03.2012 and the industry had to comply the same by the target year 2014-15. Non-compliance of the same leads to penalties whereas improvement over the norms is rewarded by issue of Energy Saving Certificates. The Company has reported improvements and is therefore eligible for Energy Saving Certificates.

B] OPPORTUNITIES & THREATS

The low per capita consumption of paper/paperboard in the country is bound to increase with the growth in the GDP, rising income of middle class, increasing demand for computer stationery and spending by Government on education sector and ban on plastic packaging starting with Gutka manufacturing units. The consumption of newsprint is also expected to rise on lines of GDP growth irrespective of decline worldwide which also appears to have bottomed out.

The Import duty on paper & paper board for ASEAN countries has been reduced from 2.50% to 0% with effect from 01.01.2014 vide notification No. 57/2013 dated 31.12.2013 which had implications in terms of cheaper imports being of 2.30 million tonnes in 2014-15. Newsprint is not subject to any import duty which continues to remain a threat to domestic industry.

The Company has swing facility on one of the machine to manufacturer writing & printing paper as per market conditions.

The industry imports waste paper for sustained production of newsprint and depreciation of rupee against US dollar may lead to increase in input cost, however prices were stable in FY 2015-16

C] SEGMENT WISE OR PRODUCT WISE PERFORMANCE

The Company is operating only in newsprint segment hence segment wise reporting is not applicable

D] OUTLOOK

India is the fastest growing paper market in the world with expected CAGR of 6 to 6.5% in next 5 years due to thrust on education, urbanization and growth in economy. Newsprint sector is also expected to grow in line with GDP growth.

E] RISK & CONCERNS

The Company has derived 100 % of revenue from newsprint business in 2015-16 hence may be affected due to import of newsprint. Further absence of organized collection of waste paper and therefore reliance on imported waste paper may affect it with deprecation of rupee against US dollar. However plant is located near to Hazira port which gives it advantage over competitors in the segment.

F] INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has adequate system of internal control to safeguard and protect from loss, unauthorized use or disposition of its assets. All the transactions are properly authorized, recorded and reported to the Management. The Company is following all the applicable Accounting Standards for properly maintaining the books of accounts and reporting financial statements. The Company has engaged Ernst & Young for Internal Audit and yearly audit programme is submitted to the audit committee of the Board. The audit reports are reviewed by the management and the Audit Committee of the Board from time to time. Implementation of SAP ERP has also strengthened the internal control systems of the Company

G] DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

This has been dealt with in the Directors' Report.

H] MATERIAL DEVELOPMENT IN HUMAN RESOURCES /INDUSTRIAL RELATIONS FRONT INCLUDING NO OF PEOPLE EMPLOYED

The Company had entered into bipartite long term wage revision settlement with the recognized union on 11th July 2015 for period of 7 years from July 2013 to June 2020. The Company's industrial relations are cordial. Your Directors acknowledge the support and co-operation from employees at all levels.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of Shree Rama Newsprint Limited on the financial statements for the year ended March 31, 2016]

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Shree Rama Newsprint Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Difference between actual results and estimates are recognized in the period in which the results are known or materialize.

Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to the accounting estimates is recognized prospectively in the current and future periods.

c) Revenue recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Any trade discounts and rebates are deducted in arriving at the purchase price.

All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

f) Foreign Currency Transactions:

Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Subsequent Recognition

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined. In case of monetary items the difference between the year end rate and rate on the date of the transaction is recognised as exchange difference.

The recoverable amount is the greater of the net selling price or their value in use, value in use is arrived at by discounting the estimated future cash flows to their present value based on appropriate discount factor. Net selling price is the estimated selling price in the ordinary course of business, less estimated cost of completion and to make the sale.

If at the Balance Sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

As per the assessment conducted by the Company at March 31, 2016, there were no indications that the fixed assets have suffered an impairment loss.

h) Taxation:

Income-tax expense comprises current tax (i.e. amount of tax for the year determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effect of timing differences between accounting income and taxable income for the year)

ii) Deferred taxation:

Deferred Tax is recognised, subject to the consideration of prudence, on timing differences being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. In situations where the Company has unabsorbed depreciation or carry forward tax losses all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each balance sheet date the Company re-assesses unrecognized deferred tax assets. It recognises unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Derivative contracts which are closely linked to the existing assets and liabilities are accounted as per the policy stated for Foreign Currency transactions and translations.

All other derivative contracts are marked to market and losses are recognized in the Statement of Profit and Loss. Gains arising on the same are not recognized, until realized on the grounds of prudence.

p) Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognized when the Company has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding long term benefits) are not discounted to its present value and are determined based on best estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements. Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.
