VALUE DRIVEN GROWTH

MESSAGE FROM THE CHAIRMAN

Dear Shareholders,

I am delighted to share with you my thoughts and views on the performance of your Company last year, as well as discuss prospects for the future.

Let me begin by echoing the remarkable positivity in the Indian economy since the last two years. The long-term initiatives taken by a determined government will have lasting impact on the overall progress of the country in the years to come. There are already visible signs that the country is moving ahead in the right direction and at the right speed. For the second year in a row, India emerged as the fastest growing major economy with a GDP growth rate of 7.6%. This is more remarkable considering that this performance was achieved in spite of two consecutive sub-par monsoons. With all the key building blocks in the right place, India is indeed in a 'sweet spot' on the global platform.

The effect of consistent economic growth has rubbed-off on every industry and sector, though in varying degrees. Demand, which had been subdued, has started picking up. Inflation has been largely stable, interest rates have remained low and

importantly, there have been many initiatives taken by the government to increase transparency in the sector and make it more attractive to foreign investors. Clarity on REITs and legislations like the Real Estate Regulation Act are steps in the right direction which are likely to attract more investments in the real estate sector.

There has been a marked improvement in the commercial lease and rental scenario over the last year. Buoyed by an overall positivity in sentiments and revival of confidence, absorption across all key cities have increased quite remarkably over the previous year. The average rentals have also shown a moderate improvement. As the economic climate improves, this augurs extremely well for the real-estate space in general, and your Company in particular.

Your Company has always been focused on VALUE DRIVEN GROWTH. It has always invested cautiously in carefully considered assets and pragmatically developed a business model that delivers a consistent cash-flow. It is this unique mix of cash-flow with capital appreciation of its assets that underline VALUE DRIVEN GROWTH at Cinline.

₹ **3,207.57** lacs
Total Revenue For
the Year 2015-16

₹ **2,375.73** lacs
EBITDA For the
Year 2015-16

Today, Cinline has 9 (nine) Theatres and all these Theatres are leased to PVR Cinemas on a long-term basis, generating a steady cash-flow of rental income. In addition, your Company also owns Eternity Mall at Nagpur occupied by some of the top national and international brands, adding to the rental income. Your Company also has a modest presence in the emerging renewable energy space in the form of two windmills located at Viswada in Gujarat and at Revangaon in Maharashtra. Currently, the total capacity of these two windmills is 2.2 MWA. The Company earns additional revenues from the power generated by these windmills.

This year, your Company delivered excellent financial performance. The total revenues for the year increased to ₹ 3,207.57 lacs compared to ₹ 2,659.74 lacs in the previous year, an increase of 20.60%.

EBITDA for the year stood at ₹ 2,375.73 lacs against ₹ 1,965.16 lacs in 2014-15 lacs, increasing by 20.89%. PAT increased by 46% from ₹ 394.94 lacs in 2014-15 to ₹ 576.59 lacs in 2015-16.

Rental income increased to ₹ 1,658.91 lacs compared to ₹ 1,444.74 lacs in the previous year, an increase of 14.82%. Revenue from windmill business increased by a 4.86% to ₹ 166.08 lacs against ₹ 158.38 lacs last year.

The outlook for your Company continues to remain positive. The momentum gathered in the commercial and retail real estate space during the year is expected to gain further on the back of forecasts of continued economic growth in the next few years. Consumer demand is expected to pick up as the effects of the implementation of the 7th Pay Commission increase wages and augment consumer spending power of middle class in the country. The likely implementation of the Goods and Services Tax (GST) will give a major fillip to the overall economic growth, unleashing the potential of a one-marketplace for the first time.

It is amidst these extremely positive tidings that I wish to conclude my message. I am quite convinced that we are poised for a phase of sustained long-term growth in India. At Cinline, we shall continue with our focus to creating and delivering and sustained VALUE BASED GROWTH for all our stakeholder.

Thank you very much for your continued trust and confidence in Cinline.

Your sincerely,

Rasesh Kanakia
Chairman

MANAGEMENT DISCUSSION AND ANALYSIS

ANNEXURE-A TO DIRECTORS' REPORT

ECONOMIC SCENARIO

Global economy

The global economy having grown 3.4% in 2014 and tangible signs of recovery failed to sustain the momentum and slowed to 3.1% in 2015. Geopolitical tensions, unstable financial markets, weak commodity prices, declining net capital flows to emerging economies and slowdown in global trade were some of the factors impacting growth.

Emerging and developing nations have been a primary contributor to global growth for past few years. However, declining trade and increased net capital outflow led to further depreciation of their currencies triggering adverse balance sheet and slowing down the average growth in the region to 4% compared to 4.6% in 2014. Consolidation in the China (world's largest economy by purchasing power), rebalancing of economy towards sustainable growth based on consumption and services and slowdown in manufacturing led to lower growth of 6.9% (7.3% in 2014). While Brazil and Russia continued to struggle with deep recessions resulting in its economy witnessing a negative growth of -3.8% and -3.7% respectively.

Recovery in the Euro area led to a partial recovery in the advanced economies as it grew marginally by 1.9% compared to 1.8% in 2014. Improving credit scenario and declining unemployment pulled up growth in Euro area to 1.6% compared to 0.9% in 2014. In the US, recoveries in housing markets, no fiscal drag and strengthening balance sheet was off-set by declining growth across certain sectors, weakening energy investments and strengthening dollar that led to weak exports. Growth in the US economy remained constant at previous year's level of 2.4%. Japanese economy continues to remain fragile.

The outlook for the global economy is not very attractive and it is expected to grow at a slow pace in the coming two years driven by macro-economic problems in various countries, global asset market volatility and stabilizing Chinese economy. Moreover, Britain's exit from the Euro area is further likely to dampen global trade and growth spirits. The global economy is expected to grow 3.2% in 2016 and then start picking-up momentum growing by 3.5% in 2017. (Source: *World Economic Outlook, International Monetary Fund*)

Global Inflation trend

Global investment and trade trend

Indian economy

The Indian economy continues to outshine under the enigmatic leadership of the investment-friendly Prime Minister Mr. Narendra Modi. Roll-out of favourable policies, commitment to fiscal targets and rising private consumption driven by declining oil prices led to a robust growth of 7.6% in the real GDP in 2015-16 compared to 7.2% in 2014-15. All the sectors of the economy performed well – the agriculture sector grew 1.2% despite a rainfall deficit and droughts in certain areas, the consolidated services sector grew 8.8% and the industrial sector grew 7.4% driven by a robust growth in manufacturing sector by 9.3%.

Initiatives like 'Make in India', 'Start-up India', 'Digital India', 'Jan Dhan Yojana' and 'Swachh Bharat Abhiyan' along with various economic reforms, fast-tracking of project clearances, focus on single-window clearance mechanism and enhancing tourism has created a positive economic environment. As per World Bank's ease of doing business index, the country's ranking has improved by four spots to 130 out of 189 countries – clearly showing signs of recovery in the business activities.

Macro-economic factors are under control. Inflation is under 5% and fiscal deficit declined to 3.99% of GDP by end of March, 2016. Repo rates have declined by 100 basis points to 6.5% as on April, 2016 while forex reserves have surged to an all-time high of USD 355.60 bn as on March, 2016, equivalent to 10 months of imports.

Year-on-year changes in GDP, private final consumption expenditure and gross capital formation (in %)

The outlook for Indian economy is pretty strong with all the global financial agencies predicting India to be the fastest growing major economy in the coming years. Increased focus on infrastructure, low oil prices and various macro-level initiatives by the government is expected to drive GDP growth by 7.6%. The Finance Minister, Mr. Arun Jaitley expects the Indian economy to more than double to USD 5 trillion in a matter of few years as the government steps on its reforms agenda to accelerate growth. INDUSTRY OVERVIEW

Investment in Indian real estate market

The Indian real estate sector grew aggressively during the 2000s driving strong economic growth momentum, liberalisation of policies, increasing private participation, surge in middle-class population and rising influx in urban areas. This had dual impact on the sector – firstly the real estate prices sky-rocketed and secondly the developers began rampant development of new projects anticipating high demand. This led to rising unsold inventory, escalating costs and project delays. The past few years have been a difficult one for the sector.

After witnessing an aggressive growth during the 2000s driven by strong economic growth momentum, liberalisation of policies, increasing private participation, surge in middle-class population and rising influx in urban areas, the real estate

sector has faced challenging times since the financial crisis of 2008. While the boom of 2000s soared the prices, it also led to rampant new projects, leading to a supply overhang. The demand-supply equation was aggravated with the financial crisis, leading to a difficult phase for the sector.

In spite of this, the sector is currently at an important inflection point as the economy is reviving strongly, interest rates are low, wages have risen (implementation of seventh pay commission), FDI policies relaxed and most importantly amendments in the real estate act that shall enhance transparency and boost buyer confidence in the industry. This overall improvement in both the macro-economic factors as well as encouraging changes in legislation has led to marked revival of interest and investment in the real estate sector by both domestic and foreign investors.

The year witnessed significant increase in private equity investments, primarily foreign-based. However, FDI inflows have significantly declined by 84% from Rs. 4,652 cr in 2014-15 to Rs. 727 cr. (Source: Department of Industrial Policy & Promotion)

Commercial real estate

The year 2015 witnessed a rise in office space absorption from 38.3 mn sq. ft. (msf) in 2014 to 41.1 msf in 2015 driven by strengthening economy and rising business activities. However, the supply of new office declined marginally from 34.9 msf in 2014 to 34.5 msf leading to lower vacancy. The overall office space vacancy levels fell reduced to 15.6% in 2015 compared to peaks of 21% in 2012 owing to strong demand from the IT/ITeS and manufacturing industries.

NCR, Bengaluru and Mumbai are the prime destinations having the highest stock of office space and new launches during the year. The top six cities (Mumbai, NCR, Bengaluru,

Pune, Chennai and Hyderabad) have a combined office stock of 560 msf with nearly 85% occupancy level. Bengaluru, Pune and Hyderabad have the least vacancy levels at 7.5%, 10.8% and 14.6% respectively.

Retail real estate

The retail real estate in India is witnessing major shift in trends as retail brands are focusing on consolidation by enhancing focus on profit-making malls while exiting loss-making ones and entry of institutional investors driven by relaxation in norms. The year 2015 witnessed a muted demand in retail real estate with very few quality launches. The trend is expected to continue in the coming years due to absence of quality projects. However, over long term the scenario is positive as consumption is rising, private investors are flocking and major international brands are entering the Indian market. Food and beverage (F&B) sector emerged as the strongest category for retail real estate and the trend is likely to continue. (Source: Jones Lang LaSalle)

Annexure 2 to the Independent Auditors' Report of even date to the members of Cineline India Limited, on the financial statements for the year ended 31 March 2016

Annexure 2

Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the financial statements of Cineline India Limited ("the Company") as of and for the year ended 31 March 2016, we have audited the internal financial controls over financial reporting (IFCoFR) of the Company of as of that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India (ICAI) and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of

internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2016

value of the defined benefit obligations at the balance sheet date based on an actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method. The discount rates used for determining the present value of the obligations under the defined benefit plan are based on the market yields on government bonds as at the balance sheet date. Current tax

Current tax is computed and provided for in accordance with the applicable provisions of the Income Tax Act, 1961.

Minimum alternate tax

Minimum alternate tax (MAT) paid in accordance with the tax laws gives rise to future economic benefits in the form of adjustments of future income tax liability. The same is considered as an asset if there is convincing evidence that the Company will pay normal income tax after the tax holiday period. Accordingly, MAT credit is recognised as an asset in the balance sheet when it is probable that the future economic benefits associated with it will flow to the Company and the asset can be measured reliably.

Deferred tax

Deferred tax is measured based on the tax rates and

the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. If the Company has unabsorbed depreciation or carry forward tax losses, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that such deferred tax assets can be realised against future taxable profits.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

i. Impairment of assets

In accordance with Accounting Standard 28 "Impairment of Assets" as specified under section 133 of the Act, read with the Rule 7 of the Companies (Accounts) Rules, 2014 as amended, the carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any impairment. The recoverable amount of the assets (or where applicable, that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. An impairment loss is recognised whenever the carrying amount of an asset or a cash-generating unit exceeds its recoverable amount. Impairment loss is recognised in the statement of profit and loss or against revaluation surplus where applicable.

j. Provisions and contingencies

Provisions are recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed in respect of possible obligations or present obligations that arise from past events, whose existence would be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company. When there is a possible obligation or present obligation in respect of which the likelihood of outflow of resources is remote, no provisions or disclosure is made.
