The Byke Hospitality Limited (Byke) is one of India's fastest growing hospitality brands. The country's strong growth momentum, increased disposable income and enhanced desire for a better quality of life among its millions of citizens is leading to a new energy in the hospitality space.

With a strong brand, and renewed momentum, Byke is leveraging this opportunity to grow at a rapid pace. We are focusing on travellers at the bottom and middle of the pyramid in helping them experience world-class hospitality at affordable costs, to significantly expand the consideration set for customers in the hospitality industry in India. Therefore, we are contributing to democratising hospitality and enable many more people to discover the joy of travelling.

We are focusing on increasing our brand presence in gateway cities, serving our corporate and association customers meeting their needs, and expanding our select service brands in urban markets.

INTRODUCING BYKE

Incorporated in 1990, The Byke Hospitality Limited is an emerging hospitality company with pan-India presence.

We operate in two broad segments - owning and managing hotel properties and room chartering. Each of our properties offers a memorable experience, adapting global best-practices to Indian sensibilities. Byke employs a team of highly skilled staff, who are instrumental in taking the brand forward and making our guests feel at home. Byke offers the unique value-proposition of being India's first and only vegetarian hospitality brand. Our gastronomic offerings incorporate exclusive multi-cuisine vegetarian options that are enriched with natural and authentic flavours, while preserving nutrition.

We also book rooms for third parties through our unique room chartering business model at strategically identified cultural and religious tourist destination on bulk basis and let-out them to tourists during peak seasons.

VISION

To be a leader and preferred choice in the Hospitality Industry while sustaining our Indian culture of *"Atithi Devo Bhavah."*

MISSION

Providing excellent contemporary Hospitality services with a touch of tradition across the country and optimal returns to stakeholders with extraordinary and unmatched strategies.

UNIQUE AND ASSET-LIGHT BUSINESS MODEL

AT BYKE WE BELIEVE THAT GROWTH SHOULD BE CAPITAL NEUTRAL, ESPECIALLY IN HIGH OUTLAY INDUSTRIES SUCH AS HOSPITALITY. WHICH IS WHY WE HAVE CREATED OUR BUSINESS MODEL AROUND THE CONCEPT OF BEING ASSET-LIGHT, SO THAT OUR CORE OFFERING OF HOSPITALITY IS NOT IMPEDED BY CAPITAL CONSTRAINTS AND UNPRODUCTIVE INVESTMENTS IN REAL ESTATE.

This allows us to leverage high profitability from a low capital base. It has helped us register significant growth despite an overall slowdown and lack of momentum in the occupancy levels in the hospitality space. Although there is attractive growth in India, it is not uniform, and given the poor monsoons, and other structural inefficiencies, it is difficult to predict when the next cycle of high-demand will come. Therefore, remaining asset-light is an assured way of generating higher ROI and protecting cash flows for future growth.

We follow two distinct operating models - Owned & Leased (O&L) and Room Chartering (RC).

Byke operates 9 resorts across Maharashtra, Rajasthan, Goa, Odisha(Puri) and Himachal Pradesh

(Manali) with a total capacity of 677 keys. These operate primarily on a leased model. While 2 of the 9 resorts are owned, the remaining 7 are on an operating lease.

Under our room chartering business, we manage room inventory at various locations. Our offering includes the booking of third-party hotel rooms at strategically identified cultural and religious tourist destinations during peak seasons, on a bulk basis, and subsequently letting them out to tourists at a retail level through agents.

Byke also focuses on the MICE category (meetings, incentives, conferencing, and exhibitions). Bankquets and F&B constitute a sizeable chunk of our overall revenues, enabling a diversified revenue mix and augmenting occupancy returns.

ROOM CHARTERING MODEL — A UNIQUE VALUE PROPOSITION

- The chartering business involves aggregation of hotel rooms through prior booking of inventory. This is done on a 'take or pay' basis, 3-4 months before the tourist season
- Room aggregation is carried out on a pan-India basis
- The chartering is done for the entire duration of the tourist season in a particular location
- There are strict quality checks while purchasing inventory, to minimise the risk of refunds because of customer complaints
- The aggregated rooms are sold onward to travel agents, largely in mini metros and tier-2 cities across the country. This is a B2B business

MD'S MESSAGE

Dear Shareholders,

INDIA IS EMERGING AS ONE OF THE BEST PERFORMING ECONOMIES ACROSS THE GLOBE WITH THE GDP GROWTH ESTIMATED AT 7.6% IN THE CURRENT FISCAL. THE INDIAN TRAVEL AND TOURISM INDUSTRY, BESIDES BEING AN IMPORTANT PROXY OF GROWTH, IS A SIGNIFICANT SOURCE OF FOREIGN EXCHANGE AND IS A MAJOR EMPLOYER. IT IS AMONG THE TOP 10 SECTORS IN INDIA TO ATTRACT THE HIGHEST FOREIGN DIRECT INVESTMENT (FDI). DURING THE PERIOD APRIL 2000-MARCH 2016, THE HOTEL AND TOURISM SECTOR ATTRACTED AROUND US\$ 9.23 BILLION OF FDI, ACCORDING TO THE DATA RELEASED BY DEPARTMENT OF INDUSTRIAL POLICY AND PROMOTION (DIPP).

TODAY, WE ASPIRE TO CREATE A FORMIDABLE BRAND BY 2020 WITH 25 PROPERTIES ACROSS INDIA. WE ARE AT AN INFLEXION POINT WHERE WE HAVE CREATED OUR POSITIONING AND BRAND, AND WILL NOW LEVERAGE IT TO GROW AGGRESSIVELY.

As you all are aware, we started 'The Byke' journey by acquiring 2 hotels with 102 rooms in 2010-11. From this humble beginning to having a portfolio of 677 rooms today, we have indeed come a long way. We have spent these 5 years in building our foundation and cementing our understanding of the hospitality industry, besides building a team, setting up processes & controls and establishing a strong brand in the mid-market tourism segment. We believe that this foundation will help us leapfrog into an aggressive era of growth going forward.

We have focused on creating value through our values. We believe in value-for-money and thus we are in the middle-class segment with the motto of providing leisure for all. Our focus is on asset light model with light

balance sheet. Our "pure vegetarian" tag appeals to a larger set of consumers who are looking for affordable options that do not interfere with their cultural sensitivities.

The success mantra for our growth is guest satisfaction through quality services. This is further driven by brand loyalty, excellence in delivery and collaborative efforts with our partners.

Following these principles and values we have been able to generate attractive returns for all stakeholders: for our consumers who can enjoy leisure at an affordable rate, for our hotelier partners and for our investors and employees through profitable growth. Revenues have grown at over 36% CAGR over the last five years, hitting ₹ 230 crore for

2015-16. Profits rose nearly eleven fold to hit ₹ 26 crore mark in the same period. We earned a spot on FORBES ASIA's Best under a Billion list last year and in the current year. However, we believe that this is only a small beginning and our best is yet to come.

Today, we aspire to create a formidable brand by 2020 with 25 properties across India. We are at an inflexion point where we have created our positioning and brand, and will now leverage it to grow aggressively. We believe we have all the ingredients in place which will help us in attaining this vision – experience, team, processes and capital.

Our focus would be on locations where we foresee a good opportunity to generate revenues across all sources, be it F&B, corporate or social events. Keeping this in mind, we recently added our second largest property of 122 rooms at Thane. We expect significant revenue contribution from all streams in this property.

When complete, our 25 properties would represent the diversity of India and its geographical expanse. We believe that our vegetarian-only approach has helped us in creating a niche positioning for ourselves. Going forward, we will continue to focus on this. We can gladly say that this value proposition has been a positive catalyst for us rather than a deterrent. Together with this, being asset light in an industry which is fraught with challenges is sure to assist in attaining our vision.

It is heartening that the Government is pursuing policies to encourage foreign direct investment, especially in service sectors such as Hospitality. We believe that initiatives like 'Make In India' cannot be fully successful without the motto of 'Serve in India', and the service sector deserves equal prominence and

attention. These policies should result in increasing numbers of business travellers visiting India which would have a direct and positive bearing on occupancies in metropolitan cities. The government's friendly visa policies focus on cleanliness, and better infrastructure is sure to augment the inflow of tourists as well.

The hospitality industry helps in the revival of the economy. The impact of technology to reach out to millions has added a fast and exciting boost to the economy. Technology is improving customer experience, operations and several other aspects. With the dawn of the ground breaking enterprise solutions, the hospitality scene in India is improving.

I have always strongly believed that people are our biggest asset. We would continue to select carefully, train and motivate our people. This will enable us to compete effectively.

We are focused on delivering outstanding shareholder value. As we enter into an exciting growth phase of our journey, we seek continuous support and faith from all our stakeholders. I would like to express our sincere gratitude to all our stakeholders for continued trust and support. I expect the same cooperation from you all to make our future journey more remarkable.

Best wishes,

Anil Patodia
Managing Director

THE SUCCESS MANTRA FOR OUR GROWTH IS GUEST SATISFACTION THROUGH QUALITY SERVICES. THIS IS FURTHER DRIVEN BY BRAND LOYALTY, EXCELLENCE IN DELIVERY AND COLLABORATIVE EFFORTS WITH OUR PARTNERS.

REVENUES HAVE GROWN AT OVER 36% CAGR OVER THE LAST FIVE YEARS, HITTING ₹ 230 CRORE FOR 2015-16. PROFITS ROSE NEARLY ELEVEN FOLD TO HIT ₹ 26 CRORE MARK IN THE SAME PERIOD.

AGGREGATING DEMAND AND EXTENDING BRAND PRESENCE

As a service brand, our core objective is to reach out to as many people as possible, in growing our operations. In hospitality industry geographic presence is a major constraint and therefore, we act as aggregators of rooms across the country to mitigate this.

Room chartering enables Byke to scale up revenues beyond its own resort locations and geographic presence. With a strong agent network, we have expanded our presence pan India, especially at major religious tourist destinations to offer standardised service offerings that incorporate contemporary best practices.

As the resorts are taken on a lease, we utilise the resources for modernisation and renovation of the acquired properties, which has helped it to increase occupancies and ARR's post acquisition.

We have one of the widest sales and marketing network, reaching out to the target audience. We also have a unique third party marketing tie-up through which the Byke brand is present across 66 cities in the country.

The chartering business revenue increased from ₹ 897 million in 2014-15 to ₹ 1,172, registering a growth of 31%.

The occupancy remained at an attractive 94% in 2015-16, better than the underlying industry. The improvement in the ARR and occupancy in the RC business indicates the success of our strategic planning and strong marketing. Additionally, they also indicate higher customer satisfaction, and improved demand.

Key features

- Model offers flexibility to expand depending on tourist trend
- Developed relationship with hotel owners at 50+ locations
- Efficient risk mitigation due to pan-India presence
- Better negotiation given scale leads to low break-even point

Over the last few years we have been focusing on upgrading the quality of products and service to contemporary, global standards.

Room Nights Sold

DEMOCRATISING HOSPITALITY

With an increasingly large middle class population beginning to look outward and fulfill aspirations to travel both within and beyond India's borders, the tourism industry is poised to realise the inherent tourism potential in India; a country with an incredibly rich and diverse cultural, geographical and natural canvas.

At Byke, we envisage the creation of world-class hospitality assets that offer a unique experiential proposition. The success in the past few years is combination of the relentless spirit of the employees, the unwavering support of investors, unquestioning loyalty of its customers and the futuristic approach of the management.

We execute our asset-light strategy in the most attractive, high-growth markets and industry segments. We take a disciplined approach to capital

allocation, investing for the future growth of our brands. This enables us to drive sustainable growth in our profitability and deliver superior shareholder returns over the long term. Our focus on an asset-light business model is supported by a disciplined, long-term approach to allocating capital and reducing the asset intensity of the business.

Over the last few years we have been focusing on upgrading the quality of products and service to contemporary, global standards. The investments made in renovation and refurbishment of resorts, along with investments in human capital and information technology, has resulted in the delivery of a considerably enhanced holiday experience to all customers.

EXPANSION HOLDS PROMISE

At Byke, we are expanding our reach to new destinations to ensure stronger presence and guarantee higher returns. Byke started off with limited locations and today has a diverse geographical footprint. We aim to continue on this path and emerge as a pan-India player with a presence across all key locations in India. This is the bedrock of our expansion strategy.

We aim to extend our presence to cater to a wide and varied range of customers. We are planning to add 8 more properties, which would lead to an addition of ~450-500 rooms over the next two years. The company plans to increase the number of properties from 9 to 25 by 2020. Our asset-light model allows us to plan for such growth, because incremental room addition requires minimal capital employment. Our profitability funds our growth, and enables us to also remain largely deleveraged. The objective is to cross ₹ 500 crore in revenues by 2020, creating a pan-India chain with 25 properties.

Expansion in 2015-16

Byke expanded to two new strategic locations in 2015-16.

The Thane property that commenced operations in 2015-16, is strategically located in a high density area. It has 122 well-appointed rooms, 4 Banquet Halls, 2 Conference Rooms, besides a multi-cuisine restaurant and bar lounge.

The Byke Vijaya, Puri commenced operations in April, 2016. It has been taken on a long-term lease for 15 years. With this the aim is to create a difference and offer high quality hospitality in places of religious and cultural importance, which are a significant driver of tourism in India. Puri, besides being one of the 'Chaar Dhams' in Hinduism, is

also a beach-destination, close to metros like Kolkata and Bhubaneswar, and an important emerging destination for weddings and corporate MICE events, in Eastern India.

Planned expansion in 2016-17

In the current fiscal, Byke aims at adding at least 4 new properties. These are spread across Lonavala, Mumbai, and Mahabaleshwar, and will result in the addition of another 300 rooms, taking our total keys close to 1000. Further expansion in addition to the aforementioned is expected to happen, with the tentative locations being Dalhousie, Jodhpur, Chandigarh, Udaipur, Darjeeling and Gangtok. We anticipate these properties to be fully operational by 2017-18 and start contributing to revenues.

VALUE FOR STAKEHOLDERS

We strive to deliver growth and create significant value for all our stakeholders on sustainable basis. We have pursued growth across all our businesses and aspects, with the firm belief in our corporate ethos of value-delivery.

We present below a brief account of how the value creation process works for all principal stakeholders.

Customers

Through regular communication we work to understand how we can best serve the needs of our customers. Consistent improvements in member satisfaction and ability to deliver family-friendly experiences on a larger scale have validated the Company's investments in technology and processes, and at the same time improved its competitive positioning in the mid-market hospitality industry. We focus on increasing value for the consumer and "selling the way the customer wants to buy."

Shareholders / Investors

We endeavour to communicate and report clearly to build trust with our investors, using continuing engagement to gather feedback that boosts our approach and performance. We have a lucid and steady strategy and an excellent management team that maintains sustainable growth and build shareholder value.

Economic And Sector Overview

The global economy witnessed a turbulent macro-economic environment in the year 2015-16, with major economies showing signs of slowdown in growth. Amidst of this, Indian economy displayed resilience and emerged as the fastest growing economy with a growth rate of more than 7%. India's GDP grew 7.6% in 2015-16, up from 7.2% in 2014-15. The Economic Survey projected that India will grow at 7-7.75% in 2016-17.

The Indian travel and tourism industry has emerged as the largest service sector in the country. The tourism industry beholds significant amount of employment opportunities. The industry's total contribution to employment stood at 8.7% in 2015 and is expected to go up to 9% by 2026. The industry plays a vital role

in driving economic growth and bringing about inclusive social economic progress. As per the WTTC's Economic Impact Report (India), 2016, the total contribution of Travel & Tourism to GDP was ₹ 8,309 billion (6.3% of GDP) in 2015; this is predicted to rise to ₹ 18,300 billion (7.2% of GDP) by 2026.

Domestic travel spending generated 82.5% of direct Travel & Tourism GDP in 2015 compared with 17.5% for visitor exports (i.e. foreign visitor spending or international tourism receipts). Rising disposable incomes and affordable air travel options provided by low cost flights augurs well for the domestic travel industry, and is expected to increase traction.

The Budget 2015-16 showcased the government's focus on building a stronger eco-system for the travel and tourism industry, as several measures have been taken which in turn would benefit the hospitality industry. The tourism ministry got a 70% hike in the Union budget, as an amount of ₹ 15.9 billion was allocated to the industry to be used towards infrastructure development and promotion and publicity initiatives. As the global economy is slowing down, the Government is focusing on boosting the domestic demand which in turn would be the key to tourism growth. The focus on revamping roads and airports across the country is a positive move that should provide a boost to infrastructure and the tourism sector as it will enhance connectivity to the smaller cities and encourage people to travel to unexplored destinations.

As per ICRA, the hospitality industry is forecasted to grow at 8-10% during 2016-17 with domestic demand-led occupancy growth. Pan-India occupancies are estimated to have grown by 5% during 2015-16 to around 63% (from 60% in 2014-15). Additionally, programmes such as 'Make in India' and the 'Smart Cities' initiative have highlighted the Government's support to skill development and investments in Hospitality and Tourism.

Growth Drivers

Domestic travel is on rise

With the increasing number of working women, double-income households are on the rise. This has further led to an increase in disposable income. The increased propensity to spend by the middle class and the growing affluence of the India's upper middle and high income classes have led to growth in the tourism sector in India. Domestic travel has been boosted by competitive air fares and a depreciating rupee, which has prompted domestic vacationing as a preferred option over foreign destinations. Further, the Incredible India campaigns run by the Ministry of Tourism raised the interest of the domestic consumers, who are more keen now to travel within the country and experience the diversity on offer.

Demand in Tier 2 and Tier 3 cities and towns

Hotel offerings in tier 2 and 3 cities and towns are largely restricted to unorganised segment. With increasing household income levels and disposable incomes, consumers now have more power to spend on such offerings. Further, with the increasing migration of students and workforce from such areas to metros, the increased brand exposure from hotels in these locations provides players with an opportunity to establish a brand connect.

Evolving Customer Preferences

Rising incomes, increasing working population, expanding urbanisation, and spiralling consumerism have evolved the lifestyle of today's progressive Indian. The Indian population has become more demanding as Indians have started travelling abroad a lot more. This has led to the need for advancements and innovations across industries to keep pace with the consumer's needs. Customisation of products and services has become the key success driver in today's industry.

Price sensitivity of consumers driving budget and mid-market hotel segments

While demand has increased in line with the supply of rooms in recent years, consumer behaviour towards making reservations has changed. The market has become more price-sensitive and customer loyalty is now linked with room rates, leading to increased competition across segments. This presents a unique opportunity for industry players to enter into segment focused offerings such as budget and mid-market. These two segments are also referred to as select service offerings, wherein on-site amenities are limited and only cater and market to a specific demographic.

Business Overview

The Byke Hospitality Limited is a rapidly expanding hospitality Company focused on the mid-market segment. The Company has a unique 'asset-light' business model which allows it to leverage high profitability from a low capital. Also, it targets niche vegetarian segment where all its restaurants and banquets serve vegetarian food. The business can be broadly classified into two segments: Owned & Leased (O&L) and Room Chartering (RC).

Own + Lease Business

The Company operates nine properties, of which two are owned (Byke Heritage, Matheran and Byke Sunflower, Goa) and seven are on a long-term lease under the 'Byke' brand. Byke acquires properties on operating lease basis for long-term and focuses on improving the profitability through revamping and refurbishing, better management, better marketing and distribution network, and utilising the full potential of Food & Beverage (F&B) and events in these properties.

In 2015-16 the property in Thane, Byke Suraj Plaza, became operational. The property has 122 rooms, 1 restaurant, 1 bar lounge, 4 lawns / banquets and 3 conference rooms. Thane is a popular destination for weddings, birthdays, and corporate events and will enable the Company to earn significant MICE and F&B revenue from this hotel.

As on March 2016, the Company had 677 rooms under management of which 102 are Company owned. This includes the property in Puri, Byke Vijaya, which became operational in April 2016.

Room Chartering Business

Under this business, the Company charts third-party rooms at popular tourist and religious destinations across India during the location specific peak seasons. The Company's pan India network of over 300 agents is leveraged to sell these rooms successfully. This business provides scalability and flexibility to the Company as it gets access to a wide range of properties and locations.

In 2015-16, the Company sold 490,877 room nights (up from 373,250 in 2015-16) across around 50+ cities in India.

Key Operational Highlights

- Total rooms portfolio at the end of the year 2015-16 stood at 623 spanning across 8 properties
- Commenced operations of Thane Property
- Awarded for contribution to promote vegetarian hotels in India at 'Hospitality India & Explore the World Annual International Travel Awards'
- Featured in Forbes Asia's 'Best under a Billion' list. Byke is among the 11 companies from India that have made it to the list

Risk Management

The Managing Board is responsible for risk management in the company and has implemented a risk management system. The aim of the system is to ensure that the extent to which the Company's strategic and operational objectives are being achieved is understood, that the Company's reporting is reliable and that the Company complies with relevant laws and regulations.

Risk Management System has been designed to achieve maximum integration of the risk management process in the normal business processes. It provides for risk assessment tools, controls for risks that commonly occur in the company, and monitoring & reporting procedures & systems.

The Company faces the following risks:

Competition: The hospitality sector presents immense growth opportunity thereby attracting strong competition from hotel majors.

Mitigant: Byke is present in the mid-market segment, which faces low competition from branded hotels. Byke has created a strong brand in this segment.

Industry slowdown: Any industry slowdown in terms of reduced occupancy and Average Room Rate (ARR) would impact the business of the company.

Mitigant: Byke has also increased focus on F&B/ Restaurants/ Events revenue, which has been growing at a faster rate than room revenue. Also, there has been a focus to steadily increase ARR and occupancy levels by extensively improving the service standards of the brand.

Natural calamities: Any natural calamity in a region where Byke is present could adversely impact the business.

Mitigant: Byke has been rapidly expanding its portfolio across India. In the room chartering business, it is present in over 50 cities. Thus pan-India presence lowers the risk.

Internal Control Systems & their Adequacy

The large size and nature of the business demands the Company to maintain a proper internal control system. Efforts are made by the Management to maintain a sound financial and commercial practice capable of improving the efficiency of the operation and sustainability of the business.

The systems provide for adequate checks and balances; adherence to applicable statutes, accounting policies and approval procedures; and for ensuring optimum use of available resources. The system are regularly reviewed and improved upon. Regular assessments and audits help ensure that every operating unit consistently implements the controls and standards.

The Company has robust internal control systems and procedures. The Audit Committee of the Board oversees the adequacy of the internal control environment through regular reviews of the audit findings and monitoring implementations of internal audit recommendations through the compliance reports submitted to them.

Human Resources

The Company has Human Relations and Industrial Relations policies in force. These are reviewed and updated regularly in line with the Company's strategic plans. The Human Relations team continually conducts training programs for the development of employees.

The Company aims to develop the potential of every individual associated with the Company as a part of its business goal. Respecting the experienced and mentoring the young talent has been the bedrock for the Company's successful growth.

The Company's employee base represents a healthy mix of experienced and willing-to-experience employees.

Human resources are the principal drivers of change. They push the levers that take futuristic businesses to the next level of excellence and achievement. The Company focuses on providing individual development and growth in a work culture that enables cross-pollination of ideas, ensures high performance, and remains empowering.

Corporate Social Responsibility

The Byke Hospitality Limited's Management believes in taking the environment and social responsibility sincerely, and aims to play an active role in contributing towards the society. It endeavors to integrate community development, social responsibility and environmental sustainability into its CSR strategy and formalise the integration of sustainability into its business practices. In pursuance of Section 135 of the Companies Act, 2013 the Company has put in place a formal CSR Policy. At the core, the endeavor is to evolve the eco-system the Company operates in. The Company believes in the concept of inclusive growth by reaching out and empowering the community.

Some of the key CSR initiatives undertaken by the Company during 2015-16 are discussed below:

Health and Community Welfare: The Company regularly carries out blood donation and medical check-up camps, awareness sessions in the areas of health, natural remedies, and cancer awareness program to benefit the local communities in which it operates. In the area of community welfare, it engaged with several children homes and old-age homes, and provided basic amenities and infrastructural support such as water heaters, refrigerators, blankets and bed sheets.

Education, Skill Development and Livelihood: The Company has adopted rural schools and anganwadis, renovated their infrastructure and strengthened basic amenities at several of its resort locations. Other than these, educational material and amenities are regularly provided to underprivileged students and schools. During the year, the Company has distributed sewing machines to women so as to support skill development and generate livelihood.

Environment: Over 4,200 trees were planted at Kudal District in Maharashtra and Goa and Jaipur during the year in it's an initiative of tree plantation. The Company responded with great resolve to the 'Swachh Bharat Abhiyaan' of the Government, and almost all resort locations carried out cleanliness drives in their vicinity.

The Company has been and shall always remain committed to the wellbeing of its neighbouring communities, society, environment and the nation at large.

Growth Strategy and Outlook

Byke is steadily moving ahead with its vision to create a strong brand in the domestic mid-market tourism segment. With the adoption of the 'asset-light' strategy in 2011, the Company has aggressively added rooms in both the lease and room chartering businesses.

From 102 rooms under management during 2010-11 to 677 during 2015-16, the O&L segment is growing steadily. There has been a steady increase in the occupancy level and Average Room Rent (ARR). The average occupancy in O&L business has been steadily increasing – from 61% in 2011-12 to 65% in 2015-16. Though the occupancy declined to 65% in 2015-16 (from 67% in 2014-15), this has been largely due to addition of the new Hotel Byke Suraj Plaza, which saw lower occupancy owing to its new launch. The ARR has increased to ₹ 3,909 in 2015-16 from ₹ 2,768 in 2011-12, a CAGR of 9%.

Going forward the focus would be to add room inventory pan-India under the lease model reaching 25 properties by 2020. The Company is focussed on increasing rooms revenue as well as F&B and events revenue.

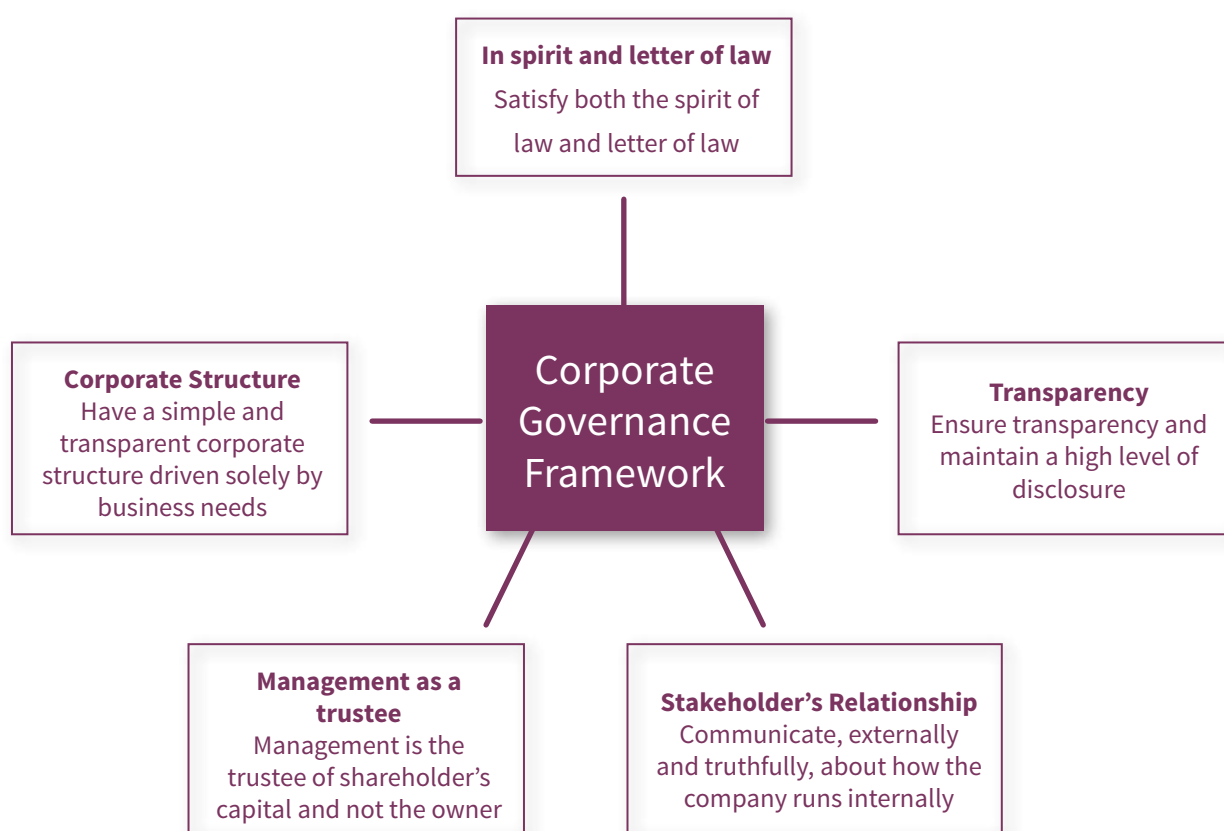

The room chartering business grew from 140,000 room-nights purchased in 2011-12 to 519,967 in 2015-16, nearly 4 times in size. The occupancy level was 94% in 2015-16. The chartering business will continue to be strategic for the Company as it gives insights into tourist trends and also helps identify locations to expand.

CORPORATE GOVERNANCE REPORT

The Byke Hospitality Limited is committed to adoption of best governance practices and its adherence in the true spirit, at all times. Our governance practices are a product of self-desire, reflecting the culture of trusteeship that is deeply ingrained in our value system and reflected in our strategic thought process.

A sound corporate governance strengthens investors' trust and enables the company to fulfill its commitment towards the customers, employees and the society in general.

The driving principles of our corporate governance framework and encapsulated in the following daigram.

A sound corporate governance strengthens investors' trust and enables the company to fulfil its commitment towards the customers, employees and the society in general. This approach to value creation emanates from our belief that sound governance system, based on relationship and trust, is integral to creating enduring value for all. We have a defined policy framework for ethical conduct of businesses. We believe that any business conduct can be ethical only when it rests on the six core values of Customer Value, Ownership Mind-set, Respect, Integrity, One Team and Excellence.

The Company has adopted various codes and policies to carry out its duties in an ethical manner. Some of these codes and policies are (i) Code of Conduct for Directors and Senior Management, (ii) Code of practices and procedures for fair disclosure of

unpublished price sensitive information, (iii) Whistle Blower Policy, (iv) Policy on Related Party Transactions, (v) Corporate Social Responsibility Policy etc. At a macro level, our governance philosophy rests on five basic tenets, viz., Board accountability to the Company and shareholders, strategic guidance and effective monitoring by the Board, protection of minority interests and rights, equitable treatment of all shareholders as well as superior transparency and timely disclosures.

The Company strongly believes that sound and unambiguous system of Corporate Governance practices go a long way in retaining investor trust and preserving the interest of all stakeholders. Its Business Ethics & Code of Conduct provides the over arching philosophy of its Corporate Governance practices.

INDEPENDENT AUDITOR'S REPORT

To the Members of
THE BYKE HOSPITALITY LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of THE BYKE HOSPITALITY LIMITED ('the Company'), which comprise the balance sheet as at March 31, 2016, the statement of profit and loss and the cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the

auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2016 and its profit and its cash flows for the year ended on that date.

ANNEXURE – B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of THE BYKE HOSPITALITY LIMITED ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of

ANNEXURE – B TO THE AUDITORS' REPORT

Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally

accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ACCOMPANYING NOTES TO THE FINANCIAL STATEMENTS

As at March 31, 2016

NOTE 1: Significant Accounting Policies

1.1 Basis of accounting and preparation of financial statements

These financial statements have been prepared to comply with the Accounting Standards referred to in the Companies (Accounting Standards) Rules, 2006 notified by the Central Government in exercise of the power conferred under sub-section (1) (a) of section 642 and the relevant provisions of the Companies Act, 1956 read with the Rule 7 of Companies (Accounts) Rules, 2014 in respect of section 133 of the Companies Act, 2013 (the "Act") and Accounting Standard-30 'Financial Instruments: Recognition and Measurement' issued by the Institute of Chartered Accountants of India to the extent it does not contradict any other accounting standard referred to in section 133 of the Act. The financial statements have been prepared on a going concern basis under the historical cost convention on accrual basis. The accounting policies have been consistently applied by the Company unless otherwise stated.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non current classification of assets and liabilities.

1.2 Use of estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

1.3 Inventories

Inventories are valued at the lower of cost (on weighted average basis) and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including octroi and other levies, transit insurance and receiving charges.

1.4 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

1.5 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

1.6 Depreciation and amortisation

With the applicability of Companies Act, 2013 with effect from April 01, 2014, depreciation / amortisation is provided on the 'straight line' method unless otherwise mentioned, pro-rata to the period of use of assets, based on the useful lives as specified in Part C of Schedule II to the Companies Act, 2013.

Depreciation on additions/ deletions to fixed assets is calculated pro-rata from/ up to the date of such additions/ deletions.

Assets individually costing ₹ 5,000 or less are fully depreciated in the year of purchase.

Depreciation on additions to fixed assets is provided on pro-rata basis from the date of put to use of assets.

1.7 Tangible fixed assets

Tangible Fixed assets are carried at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date.

ACCOMPANYING NOTES TO THE FINANCIAL STATEMENTS

As at March 31, 2016

Capital work-in-progress:

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

1.8 Impairment of assets

The carrying values of assets / cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

1.9 Revenue recognition

Revenue / Income and Cost/Expenditure are generally accounted on accrual as they earned or incurred, except in case of significant uncertainties. Interest and other income are accounted on accrual basis. Dividend income is accounted for when the right to receive it is established.

1.10 Investments

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties etc.

1.11 Employee benefits

- (a) All employee benefits falling due within twelve months of rendering the services are classified as short term employee benefits. Benefits like salaries, wages, short term compensated absences etc. and the expected cost of bonus, ex-gratia are recognised in the period in which the employee renders the related service.
- (b) Retirement benefits in the form of Provident Fund and Employees State Insurance Scheme are defined contribution schemes and the contributions are charged to the Statement of Profit & Loss of the period when the contributions to the respective funds are due.
- (c) Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial period.
- (d) Actuarial gains and losses in respect of gratuity is charged to the Statement of Profit & Loss.

1.12 Borrowing costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to Statement of Profit & Loss.

1.13 Segment reporting

Based on the guiding principles stated in Accounting Standard 17 "Segment Reporting", the management does not recognise any distinguishable component of the Company. Hence the disclosure requirements of AS-17 in this regard is not applicable.

1.14 Lease

Where the Company as a lessor leases assets under finance leases, such amounts are recognised as receivables at an amount equal to the net investment in the lease and the finance income is recognised based on a constant rate of return on the outstanding net investment.

Assets leased by the Company in its capacity as lessee where substantially all the risks and rewards of ownership vest in the Company are classified as finance leases. Such leases are capitalised at the inception of the lease at the lower of the fair value and

ACCOMPANYING NOTES TO THE FINANCIAL STATEMENTS

As at March 31, 2016

the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis.

1.15 Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

1.16 Taxes on income

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.

1.17 Provision and Contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes.
