Sri D Seetharamaiah, Chairman

Dear Shareholders

The Financial year 2009-10 was a tough year for the industry. The economic environment became challenging in all the major markets. During the tough economic environment, we focused our efforts on gaining the knowledge and capabilities to build tomorrow's enterprises. So, We are working to minimize waste, reduce the consumption of energy and fresh water besides preserve the natural habitat.

Revenue inflow from dairy has contributed in strengthening rural purchasing power, thereby giving growth impetus to rural markets. Urban business organizations of all size and dimensions are now turning their attention towards rural consumers, in an effort to beat the economic slowdown. Higher disposable income among consumers in rural areas is leading to smart buying at value-for-money. In the current scenario, rural India is contributing most to the country's health in terms of employment, wealth and prosperity. By empowering rural India, the urban community can live comfortably and peacefully. If our policy makers continue their sustained support to rural organizations such as dairy, not only will India emerge triumphant from the current crises, but will also create an effective safety shield against future economic turbulence.

During the year under review the gross income for the year grew by 13 % to Rs.903.31 crores when compared to Rs.799.25 crores of the previous year. The growth in the Dairy business, and a healthy performance by the value added product segments in Dairy division. The retail business portfolio accounts for 24 % of the Company's gross income. The profit after tax and exceptional item for the year was Rs. 5.72 crores, when compared to Rs.34.96 crores loss of the previous year.

The strategic thrust placed on opening of Heritage Parlors in the last year has now started yielding the desired results. We had anticipated the paradigm shift in macro economic scenario and the burgeoning threat of organized retailers. Heritage Parlors will enable us to counter the potential threat from competitors. They will increase the visibility of the Heritage brand in the retail market. Our own retail outlets enable us to interface directly with consumers and provide an ideal platform to showcase our entire range of products. Our outlets have not only helped brand Heritage to become ubiquitous but also have managed to provide a very rewarding

employment opportunity to hundreds of entrepreneurs across south India. We have projected a goal of setting up more number of Heritage parlours during current year. To achieve this challenging goal, we have identified certain potential locations.

We are happy to announce a dividend of Rs. 1.80 (18%) on equity shares of Rs.10/- each. The dividend is payable on the equity shares outstanding as on record date and is subject to approval by the shareholders.

We will continue to follow our successful strategy and actively shape our future. We will focus on improving our product innovation and expanding our business in order to get closer to key markets. With the economic recovery, in step with rising population and growing economics of the developing countries the demand of our products has gone up substantially.

Over the years, the Company has reinforced its core strengths by building new competencies that efficiently serve the emerging needs of a fast paced economy. "Corporate governance is about maintaining an appropriate balance of accountability between three key players: the corporation's owners, the directors whom the owners elect, and the managers whom the directors select. Accountability requires not only good transparency, but also an effective means to take action for poor performance or bad decisions."

Corporate governance is about commitment to values and ethical business conduct. It is about how an organization is managed. This includes its corporate and other structures, its culture, policies and the manner in which it deals with various stakeholders. Accordingly, timely and accurate disclosure of information regarding the financial situation, performance, ownership and governance of the company is an important part of corporate governance. This improves public understanding of the structure, activities and policies of the organization. Consequently, the organization is able to attract investors, and enhance the trust and confidence of the stakeholders.

We believe that sound corporate governance is critical to enhancing and retaining investor trust. Accordingly, we always seek to ensure that we attain our performance goals with integrity. Our Board exercises its fiduciary responsibilities in the widest sense of the term.

Our disclosures always seek to attain the best practices in corporate governance. We also endeavor to enhance long-term shareholder value and respect minority rights in all our business decisions.

Company's Philosophy on Code of Corporate Governance:

Our corporate governance philosophy is based on the following principles:

- Satisfy the spirit of the law and not just the letter of the law. Corporate governance standards should go beyond the law
- Be transparent and maintain a high degree of disclosure levels.
- Make a clear distinction between personal conveniences and corporate resources

- Communicate externally, in a truthful manner, about how the Company is run internally
- Have a simple and transparent corporate structure driven solely by business needs
- Management is the trustee of the shareholders' capital and not the owner.

The Board of Directors is at the core of our corporate governance practice and oversees how the Management serves and protects the long-term interests of all our stakeholders. We believe that an active, well-informed and independent Board is necessary to ensure highest standards of corporate governance.
