MANAGING DIRECTOR'S MESSAGE

Dear Stakeholders

Ever since we commenced our journey, our prime focus has been to be a part of maximum possible Indian households with a differentiated portfolio of brands. For nearly past two decades, we are pursuing this vision, and have crossed many milestones along the way.

This fiscal year, yet again our country faced the blow of second wave of covid-19 omicron variant beginning in March 2021, with much more devastating effects than the first. Compared to the first wave, the second wave created much more havoc due to shortages of vaccines, hospital beds, oxygen cylinders and other medical supplies in parts of the country.

Unlike the response to the first wave, India adopted a strategy of imposing lockdowns and movement restrictions in a localized manner which helped to limit the impact of second wave on industrial and business activities as compared to the first wave.

We faced many obstacles and hurdles during the year. Extra-ordinary & unusual hikes and frequent fluctuations in prices of cotton & other materials, shortage and price hikes of packaging materials, hike in fuel prices, Russia-Ukraine crisis were all hitting the textile industry. The Russia-Ukraine War has affected the micro, small and medium enterprises (MSMEs) and the textile industry of Tamil Nadu. The cost of raw materials and essential goods had skyrocketed even before the war began. The shortage of cardboard boxes, which is essential for packaging materials was another problem. Further, in order to correct the inverted duty structure, the GST council announced the hike in GST rates on textiles. But owing to the strong opposition on rate hike, the decision was ultimately rolled back and deferred. All these factors lead to severe disruptions in market.

We too, being an MSME with one of our operational unit at Tirupur, Tamil Nadu, were not left untouched by the repercussions of the uncertainties in these times & scenarios. Nevertheless, we displayed great resilience, agility and responsiveness in our operations and we tried our best to stand firmly holding our grounds. To curb these challenges and overcome the hurdles, this year we expanded our clothing range and product horizon. After jeans, now we are also venturing into the market of new products such as sweat shirts, jackets & hoodies opening various doors of opportunities for the Company. Also considering the recent trends, we are planning to opt for e-commerce business model and selling our products via e-commerce portals & websites.

In spite of being an MSME and a regional brand, we try our best to keep up with the national and international players in the Hosiery segment, who are far superior to us in terms of Advertising & marketing budget and also in the global reach to consumers. Given our limited regional reach and our budget constraints, as compared to the other global brands and big players in the market, to be able to survive and sustain in this highly volatile and uncertain business arena is no small achievement. If you compare our level of operations with our peers who are listed on the Main Board of the stock exchanges, whereas we on the other hand are

listed on the SME Board, you'll find that there is no plain level field for us, and thus they enjoy an advantageous position in several ways which are instead barriers for us.

Further, I would like to extend my sincere regards to our shareholders who have posed their faith in our leadership and management. Your faith and support, encourages us and fills our heart with utmost motivation to continue our operations with ultimate passion and a renewed sense of purpose, while progressing towards excellence.

On behalf of the Board, I would like to extend my sincere thanks to the management team, employees, dealers, retailers, suppliers and all other stakeholders for their commitment in the performance during the year. I wish the Jet Knitwears Limited team the very best to continue to operate with more zeal and confidence.

I strongly believe that the worst is behind us and we look forward towards a better and bright future. Our road to success has just began and we have far to go. But, as the wise men have said, ***If you want to go fast, go alone. If you want to go far, go together.*** Thus, it would only be possible with the blessings and support of you all.

I assure you that we, at Jet Knitwears would leave no stone unturned to create value and wealth for all our stakeholders by reaching newer heights and achieving greater milestones.

Warm Regards

(Balram Kumar Narula)

3. OBSTACLES FACED DURING THE YEAR

The second wave of the Covid-19 variant was at a great height in the beginning of the year which again eventually led to slow down of the economic & industrial activities. According to the Covid guidelines, statewide lockdowns and movement restrictions in a localized manner were into effect and the factories, units and offices were working with reduced manpower.

Cotton is the key cost component for your company which has encountered the highest prices increase ever in the history across the globe. Around two folds increase in the cotton prices is observed during the year as compared to previous year. This has impacted adversely our raw material consumption cost.

Further, due to rising inflation in the Country, the purchasing power of the consumers has been reduced significantly leading to stagnancy in demand in the market, especially for regional brands like us. Due to the above factors, the Company could not increase the required selling price of the products as compared to increase in cost of raw materials, in order to maintain the revenue level, which ultimately lead to fall in profitability.

4. GROWTH STRATEGY

Amid second wave of Covid crisis and facing various obstacles as explained above, your Company has taken measures for the growth and expansion of the business. We have expanded our clothing range and now we are not limited to just hosiery products and undergarments but we have also ventured into the market of new products such as sweat shirts, jackets & hoodies etc. which is a complete different segment in itself. This has resulted into the expansion of our product horizon, opening various doors of opportunities for the Company and thereby exposing our reach to a wider market coverage.

5. SUBSIDIARY / ASSOCIATE COMPANY / JOINT VENTURE

Company does not have any Subsidiary / Associate Company. There were no Joint Ventures entered into by the Company during the financial year 2021-22.

6. DIVIDEND

Keeping in view the current economic uncertainties your directors consider it prudent to plough back the profits and not to recommend any dividend for the financial year 2021-22.

7. RESERVES

The Company has not transferred any amount to its reserves, the details in respect of which can be verified from the audited financial statement forming part of this report.

They have also confirmed that they hold a valid certificate issued by the Peer Review Board of the Institute of Chartered Accountants of India as required under the provisions of Regulation 33 of the Listing Regulations.

Audit Report

The notes on financial statement referred to in the Auditor's Report are self-explanatory. No frauds are reported by the Auditors which fall under the purview of sub section (12) of Section 143 of the Companies Act 2013. Further, Disclaimer of Opinion is made by the Auditor in its Audit Report. Details of which are as follows:

Basis for Disclaimer opinion in the Statutory Audit Report: The company's trade receivables (classified as unsecured and considered good by the management) are carried at Rs.15,21,57,244, out of which Rs.7,52,59,566 are outstanding for a period more than six months, which is abnormally high as compared to the turnover of the company. Also out of the above, receivables of Rs.1,21,63,160 are aged more than three years. The balances of these parties are subject to confirmation, and as per the management of the company is recoverable. As a result of these matters, we were unable to determine whether any adjustments might have been found necessary in respect of recorded amount of Trade Receivables and the elements making up the statement of Profit and Loss and statement of cash flows.

Key Audit Matters (KAM): Substantial Movement of Stock upto production of Finished Goods

The company avails services of over thirty job workers and has inter-dependent manufacturing facilities in two States in India. In addition, the company has several depots. The above entails substantial movement of raw material, semi-finished materials and finished goods from one location to another; and at any given point of time, the stocks (of various stages) belonging to the company may be found at several locations. The movement of stock is the key to the business and was therefore considered as one

of the 'Key Audit Matters'. Verification of the internal controls with respect to inventory management and movement, recording of consumption, valuation of stocks as at the reporting date involved extensive verification procedures and called for making estimates and judgments.

Response to Audit Observations

The Board of Directors of the company furnish following response to the Disclaimer of Opinion made by the Auditor in their Report dated May 30, 2022 for the Standalone Financial Statements for the year ended March 31, 2022:

Based on the Management analysis and assumptions, we believe that the Profit and Loss Account and Cash Flow Statement for the year ended March 31, 2022 and the Balance Sheet as at March 31, 2022 are materially correct and as per the management the trade receivables are considered good and are recoverable in nature. The company's trade receivables consist of outstanding balances from over 3000 parties, spread across various remote locations within the operational area of the Company and are generally low in value individually, since the supply chain of the company largely consists of small retailers, who were severely impacted by the COVID-19 pandemic.

The Management is making full efforts to recover these trade receivables. More conservative Credit policies are now being implemented and also third party agencies are hired to help in the speedy payment collection and recovery of trade receivables.

Further as is evident, during the year, the trade receivables outstanding for a period exceeding six months have been reduced by around Rs. 33 lakhs and the total trade receivables have been reduced by around Rs. 158 lakhs. Hence, management does not believe there is any material financial impact of the audit qualification.

In respect of Key Audit Matters, the management submits that the internal control systems for data maintenance with respect to inventory management, movement and valuation of stocks as at the reporting date are currently under development. It is pertinent to note that, we have various ranges of products for men, women and children which are manufactured in different sizes for all age groups. And each different product requires different setup and goes through multiple processes and stages. Thus the average production cycle, right from procurement of yarn till the completion of the finished product ready for sale, takes around 50 days; making the internal systems required for tracking the movement and valuation of stock at different stages a tedious and complex task for the management. Nevertheless, we are making full efforts to extend the internal controls throughout all the production stages so that proper information is readily available at all times regarding the movement and valuation of the inventory at several locations and less reliance is to be placed on estimates and judgements.

The Board at its meeting held on April 19, 2022 examined the said requisition notice and unanimously concluded that the proposed resolution contained in the Requisition Notice is not valid, as it suffered from various legal infirmities which are summarized as below:

- 1. The proposal for migration of the Company from EMERGE Platform of NSE Limited to Main Board of NSE Limited lacks justification and the necessary authorization from the Board of requisitionist.*
- 2. It is contrary to SEBI (ICDR) Regulations, 2018 as the Company does not meet the requirement which is pre condition for shifting the listing to the Main Board and also the proposed business is to be conducted via Postal Ballot.*

Accordingly, in the best interests of the Company as a whole, including all its shareholders and stakeholders, the Board expressed its inability to convene the EGM on the lines requisitioned by the above mentioned shareholders.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

ECONOMIC OUTLOOK

GLOBAL

After being hit hard by second wave of COVID-19, the global economy is well on course on the road to recovery. With a wamble global recovery, FY2021-22 witnessed the consumer demand coming back gradually. The economic growth returned on the back of a sustained consumer demand leading to a significant spike in inflation. Almost all the central banks are now taking policy measures to cut down the excess liquidity that was injected in order to support the economy during the pandemic and constricting the monetary policy to control their runaway inflation.

As per World Economic Outlook update by the IMF, Global growth is expected to moderate from 5.9 in 2021 to 4.4 percent in 2022—half a percentage point lower for 2022 than in the October World Economic Outlook (WEO), largely reflecting forecast markdowns in the two largest economies. By contrast, the forecast for advanced economies is revised up. These revisions reflect pandemic developments and changes in policy support. In China, pandemic-induced disruptions related to the zero-tolerance COVID-19 policy and protracted financial stress among property developers have induced a 0.8 percentage-point downgrade.

By the end of the year, the war in Ukraine has triggered a costly humanitarian crisis that demands a peaceful resolution. At the same time, economic damage from the conflict also contributed to a significant slowdown in global growth in 2022 and added to inflation. The escalation of the Russia-Ukraine crisis has also had a detrimental effect on the prices of crude oil, gas and other commodities leading to further pressure on the fragile economies. Fuel and food prices have increased rapidly, hitting vulnerable populations in low-income countries hardest. Global growth is projected to slow from an estimated 6.1 percent in 2021 to 3.6 percent in 2022 and 2023.

INDIA ECONOMIC OVERVIEW

As 2021 was coming to a close, there was optimism in the air. India was gearing up for a strong economic recovery. But this optimism received a jolt early this year as a second wave of omicron infections swept through the country leaving even severe impacts than the previous year, and then in February, Russia invaded Ukraine. These events aggravated the pre-existing challenges such as surging inflation, supply shortages, and shifting geopolitical realities across the world with no definite end in sight. And the subsequent confluence of headwinds such as surging commodity prices and disruption in trade and financial transactions quickly deteriorated economic fundamentals that were trending up a few months back. Consequently, this has compelled us to temper our growth expectations.

However, we believe the risks are not strong enough to deny India an economic rebound given the domestic demand potential. India's economic position has shown improvement since the invasion of the second wave of COVID-19 in FY 2021-22, which negatively impacted trade activities globally. With a quick vaccination programme roll-out and the government's support, India was able to recover from the economic downturn. Several forecasters such as the International Monetary Fund expected growth to exceed 9% this fiscal. India's GDP growth for FY 2022-23 is estimated at 8 to 8.5%. Given that roughly 80% of the population will be fully vaccinated by the second quarter of 2022, domestic consumption growth shall pick up speed. This will ensure that India reigns as the world's fastest-growing economy over the next few years, driving world growth even as several major economies brace themselves for a slowdown or possibly a recession.

Investment returned significantly in FY 2021-22, increasing by almost 16%, and is expected to increase by another 7% in FY 2022-23. The Indian economy is expected to gain from supply-side reforms and regulatory simplification, strong export growth, and budgetary space to increase capital spending. Inflation remained at 5.3% in FY 2021-22. Inflation in the CPI is predicted to fall to 4.5% in FY 2022-23. The gross Goods and Services Tax collection for FY 2022-23 reached a new high of `27.07 lacs crore, indicating a robust resurgence in the country's economic activities. The significant growth in corporation tax and customs contributed to the tax-to-GDP ratio reaching a two-decade high of 11.7%.

GDP Annual Growth Rate

Inflation Rate

V-shaped economic recovery is due to mega vaccination drive, robust recovery in the services sector and growth in consumption and investment coupled with resurgence in high frequency indicators such as power demand, rail freight, GST collection etc. Almost all emerging economies are reeling under these external shocks but India's underlying economic fundamentals are strong and despite the short-term headwinds, the impact on the long-term outlook will be marginal.

INDUSTRY STRUCTURE AND DEVELOPMENT

Textiles & Apparels

The textile industry of India is one of the oldest and also the largest in the world with a large unmatched raw material base and manufacturing strength across the value chain. Both skilled laborers and unskilled officials are needed to run this business smoothly. Thus, the textile industry serves as the platform offering a huge number of employment opportunities to eligible people in India. India is the largest producer of cotton and jute in the world and also the 2nd largest producer of polyester, silk, and fibre in the world. The products of the Indian textile industry with the traditional designs and textures are very popular all over the world. During FY 2021-22, Indian Textile & Apparel Industry achieved its highest ever export of US\$ 41.3 bn which constituted about 10% of the overall merchandise export of India.

The People associated with this industry hope to see a great comeback in 2022, overcoming the setback during the past 2 years due to the pandemic situation. The Union Budget for 2022-23 also announced some benefits that can help in the growth of the Indian textile industry. The Government of India is continuously working for the holistic development of the Indian T&A sector and is announcing various policy measures like Production Linked Incentive Scheme (PLI), PM Mega Integrated Textile Region and Apparel Park Scheme, etc. for the same. The Union Ministry of Textiles is more active in developing the textile industry, by constant coordination with business owners of this sector. With the rising per capita income, favorable demographics, increasing domestic demand, and a shift in preference to branded products, Indian domestic Textile & Apparel Industry is likely to outperform in the near future and hence, there is a great opportunity for the foreign investors to come and invest in India.

The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, with the capital-intensive sophisticated mills sector on the other end. The decentralised power looms/ hosiery and knitting sector forms the largest component in the textiles sector. India's textiles industry has around 4.5 crore employed workers including 35.22 lakh handloom workers across the country. Exports of textiles (RMG of all textiles, cotton yarns/fabs/made-ups/handloom products, man-made yarns/fabs/made-ups, handicrafts excluding handmade carpets, carpets and jute mfg. including floor coverings) stood at US\$ 29.8 billion between April-December 2021. The Indian textiles market is expected to be worth more than US\$ 209 billion by 2029.

Indian government has allowed 100% FDI in the sector under the automatic route. The Rs. 10,683 crore (US\$ 1.44 billion) PLI scheme is expected to be a major booster for the textile manufacturers. The scheme proposes to incentivise MMF (man-made fibre) apparel, MMF fabrics and 10 segments of technical textiles products.

In March 2022, the Bihar government submitted a proposal to the Union Textiles Ministry to set up a mega hub under the PM Mitra Mega Textile Park and Tamil Nadu Chief Minister Mr. MK Stalin announced that the State Industries Promotion Corporation of Tamil Nadu Ltd (SIPCOT) will set up a mega textile park in the Virudhunagar district. Under Union Budget 2022-23, the total allocation for the textile sector was Rs. 12,382 crore (US\$ 1.62 billion). Out of this, Rs.133.83 crore (US\$ 17.5 million) is for Textile Cluster Development Scheme, Rs. 100 crore (US\$ 13.07 million) for National Technical Textiles Mission, and Rs. 15 crore (US\$ 1.96 million) each for PM Mega Integrated Textile Region and Apparel parks scheme and the Production Linked Incentive Scheme.

For the export of handloom products globally, Handloom Export Promotion Council (HEPC) is participating in various international fairs/events with handloom exporters/weavers to sell their handloom products in the international markets under NHDP. The Ministry of Textiles has also been implementing Handloom Marketing Assistance (HMA), a component of the National Handloom Development Programme (NHDP), all across India. HMA provides a marketing platform to the handloom weavers/agencies to sell their products directly to the consumers, and develop and promote the marketing channel through organizing expos/events in domestic as well as export markets.

Union Minister of Textiles, Commerce and Industry, Consumer Affairs & Food and Public Distribution, Mr. Piyush Goyal announced a mega handloom cluster in Manipur and a handloom and handicraft village at Moirang in Bishnupur. The mega cluster will be set up at an estimated cost of Rs. 30 crore (US\$ 4.03 million) under the National Handloom Development Programme (NHDP). He also announced the creation of 100 textile machinery champions in the country and to promote it in the global market. Through this, the government aims to make India a global player in textiles machinery. In October 2021, the Ministry of Textiles approved continuation of the comprehensive handicrafts cluster development scheme with a total outlay of Rs. 160 crore (US\$ 21.39 million). Through this scheme, the government aims to support domestic SMEs and local artisans. The government also introduced SAMARTH training at 75 training centers across the country, to accelerate the scheme's coverage among artisans. Defence Research and Development Organisation (DRDO) is helping the Indian textile industry to produce yarns and eliminate dependence on import of Chinese and other foreign clothing for military uniforms. Indian defence sector has expressed support towards the Indian technical textile sector.

Innerwear Market Segment

Rapid urbanization across India is one of the key factors driving the growth of the market. With the increasing female workforce participation and rising expenditure capacities, consumer preference is shifting toward trendy intimate wear, sports, bridal, and regular lingerie products. Over the years, innerwear had only been considered as an essential commodity, but there has been a significant shift in trend due to the increasing fashion consciousness among the millennials; it transformed into a fashion statement. As a result of this shift, industry players have placed greater emphasis on widening its innerwear product range – both men's as well as women's. The growing availability of premium, customizable, and economical lingerie variants, coupled with the extensive celebrity collaborations and brand promotion activities on social media to expand the consumer base, are primarily driving the India innerwear market.

The global innerwear market has been bifurcated in terms of product type, material type, end user, age group, category type, distribution channel, and region. According to product type, the market has been segregated into top innerwear, bottom innerwear, and shapewear. Over the last few years, the premium

innerwear market has also been gaining significant traction with the entry of global players in collaboration with Indian brands. Higher discretionary spending, rise in number of working women, and the increasing fashion consciousness among the populace, especially the millennials, and the increasing number of middle-class households is projected to catalyse the demand for the inner wear industry. Moreover, the increasing adoption of organized retail channels is providing a thrust to the lingerie market growth. Product manufacturers and vendors are widely utilizing e-commerce platforms to provide premium-quality branded lingerie to consumers with enhanced convenience.

(Source:technavio)

Additionally, various product innovations, such as the integration of online retail platforms with artificial intelligence (AI) and big data solutions, are acting as other growth-inducing factors. These solutions enable the product manufacturers to monitor the shopping habits of the consumers and provide personalized experiences to the shoppers. In line with this, the launch of innovative nursing brassieres and seamless briefs is also contributing to the growth of the market. Other factors, including extensive celebrity collaborations and brand promotional activities on social media to attract a wider consumer base, along with the increasing preference for lingerie products among males, are anticipated to drive the market toward growth. We expect the India lingerie market to exhibit a CAGR of 18% during 2022-2026.

OPPORTUNITIES AND THREATS

Opportunities

- The government has launched an Emergency Credit Line Guarantee Scheme. The aim of this scheme is to provide funds to micro and small textile business owners. This will help them to invest in increasing their production and minimize the effect of the pandemic. This scheme will be available till March 2023, with a huge guarantee cover.
- The Indian government has several portals for the welfare of laborers. Udyam, NCS, e-Shram, and ASEEM are the government portals that help people in finding employment in various MSMEs. All these portals are now interlinked to help business owners in finding manpower.

- Scheme for Capacity Building in Textile Sector (SCBTS) is launched by the Cabinet Committee on Economic Affairs. An estimated expense of Rs 1300 crore was designated for this scheme, for the skill development in the textile industry.
- The Union Finance Minister has emphasized the development of infrastructure and the setting of centralized Effluent treatment plants for the textile industry. So, funds are allotted in the current budget for these purposes, for the best interest of this industry in India.
- Production-linked incentive (PLI) scheme is launched for promoting the apparel industry, as stated by the Secretary of Textiles Ministry Upendra Prasad Singh.
- Prime Minister Mega Integrated Textile Region and Apparel (PM MITRA) is another beneficial scheme created for the betterment of the infrastructure of the textile industry.
- Growth in organized retail providing a large opportunity for branded play and increase in fashion and brand consciousness making consumers more aspirational and discerning; increasing urban women population and women corporate workforce shall prove to be beneficial for women segment of apparel market.
- In-house Manufacturing and a robust supply network of more than 5000 retailers help the brand ensure adequate supply.

Threats & challenges

- In the last financial year also, the pandemic was still at a great height that eventually led to the slow down of the commercial and industrial activities. These factory owners were working with reduced manpower. The lack of funds to buy raw materials for production was another drawback in this industry. The probability of third or future waves of the variant virus puts severe affects on business, especially retail trade and msme(s).
- In order to correct the inverted duty structure, the GST council announced the hike in GST rates on textiles. But owing to the strong opposition on rate hike, the decision was ultimately rolled back and deferred. Therefore, business owners are quite agitated due to its negative impact.
- Political tensions or militant activities in some places hinder the smooth operations of the textile industry there. Many textile companies face severe labor shortages and a lack of regular transportation if their factories are located in remote places.
- Cotton textile is the major player in the Indian textile industry. The price of cotton has risen too much now, which is a major setback for textile industry owners. They find it hard to maintain their supply chain due to this price hike.
- The inflation in the Indian economy results in frequent demands among laborers for salary hikes. Thus, industry owners do not find the means to expand their business and compete with global textile leaders from other countries.
- The high cost of power in India is another hindrance to textile production. Most modern machines are power-driven, which raises the overall production costs for business owners.

KEY AUDIT MATTERS

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risk of material misstatement of the standalone financial statements. The result of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

Substantial Movement of Stock upto production of Finished Goods

The company avails services of over thirty job workers and has inter dependent manufacturing facilities in two States in India. In addition, the company has several depots. The above entails substantial movement of raw material, semi-finished materials and finished goods from one location to another; and at any given point of time, the stocks (of various stages) belonging to the company may be found at several locations. The movement of stock is the key to the business and was therefore considered as one of the 'Key Audit Matters'. Verification of the internal controls with respect to inventory management and movement, recording of consumption, valuation of stocks as at the reporting date involved extensive verification procedures and called for making estimates and judgments.

How our audit addressed the key audit matter

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually

or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or

regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER SECTION 143(3)(I) OF THE COMPANIES ACT, 2013 (“THE ACT”)

We have audited the internal financial controls with reference to financial statements of Jet Knitwears Limited (“the Company”) as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Financial Statements included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to Financial Statements.

Meaning of Internal Financial Controls With Reference to Standalone Financial Statements

A company's internal financial controls with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of

financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to Financial Statements includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial controls with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information, and according to the explanations given to us, the company has, in all material aspects, an adequate internal financial controls with reference to Financial Statements and such internal financial controls over financial reporting were operating effectively as at March 31st 2022, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in Guidance Note of Audit of International Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

	c.	Frequency of qualification: Third Time		
	d.	For Audit Qualification(s) where the impact is quantified by the auditor, Management's Views: NA		
	e.	For Audit Qualification(s) where the impact is not quantified by the auditor:		
	<p>(i) Management's estimation on the impact of audit qualification: Based on the Management analysis and assumptions, we believe that the Profit and Loss Account and Cash Flow Statement for the year ended March 31, 2022 and the Balance Sheet as at March 31, 2022 are materially correct and as per the management the trade receivables are considered good and are recoverable in nature. The company's trade receivables consist of outstanding balances from over 3000 parties, spread across various remote locations within the country and are generally low in value individually, since the supply chain of the company largely consists of small retailers, who were severely impacted by the COVID-19 pandemic. The Management is making full efforts to recover these trade receivables. Further as is evident, during the year, the trade receivables outstanding for a period exceeding six months have been reduced by around Rs.33 lakhs and the total trade receivables have been reduced by around Rs. 158 lakhs. Hence, management does not believe there is any material financial impact of the audit qualification.</p> <p>(ii) If management is unable to estimate the impact, reasons for the same: Not Applicable</p> <p>(iii) Auditors' Comments on (i) or (ii) above: As is stated in our report, the trade receivables are abnormally high; a significant part of the trade receivables has also remained overdue for more than three years. Further several trade receivables remained subject to confirmation by the respective parties upto the date of our report. However, as per the Management, the trade receivables are all good and recoverable and have been stated to be classified accordingly in the Financial Statements. In the absence of any conclusive evidence as regards the recoverability of these trade receivables and considering the materiality of the amount involved, we have issued a disclaimer of opinion.</p>
