Chairman's Message

Dear valued Shareholders,

It gives me immense pleasure to present to you our 15th Annual Report for the Financial Year 2025–26.

The past year has been one of strong progress and meaningful milestones for our Company. Building on the momentum of our successful IPO last year, we remained focused on strengthening our market presence, scaling operations, and creating long-term value for all stakeholders.

I am pleased to share that during the year, the Company achieved a major milestone by recording **sales of 1 lakh iPhones** in a single quarter—a testament to the strength of our execution, the dedication of our team, and the trust placed in us by our customers and partners. This achievement marks an important step in our growth journey and further strengthens our position in the technology distribution ecosystem.

Another important achievement during the year was the expansion of our association with Apple through the addition of parts of **Delhi as a new operational region**. This strategic expansion marks an important step in our growth journey and strengthens our presence in one of India's most dynamic markets. We see this as a valuable opportunity to deepen our reach, strengthen customer engagement, and build on our longstanding partnership with Apple.

In addition to expanding our geographic presence, we also significantly strengthened our channel network during the year, with our partner base growing by 38%. This expansion has enabled us to enhance our market reach, deepen relationships across regions, and further reinforce our distribution capabilities. The continued trust and collaboration of our partners remain central to our growth strategy and long-term success.

We also made meaningful progress in diversifying our service offerings with the expansion of our Value-Added Services (VAS) segment. During the year, we strengthened our AppleCare operations as an emerging line of business, enabling us to provide enhanced post-sales support and customer service solutions. This initiative not only broadens our revenue streams but also reinforces our commitment to delivering a comprehensive and seamless customer experience.

As our business continues to grow, we have also invested in strengthening our internal capabilities. Also, we introduced a more structured corporate framework to support our expanding operations, enhance collaboration, and build a stronger foundation for the future. These changes are aimed at improving efficiency, empowering leadership across functions, and ensuring we remain agile as we scale.

Despite a dynamic business environment, our focus remained firmly on sustainable growth, operational excellence, and delivering value through strong execution. We continue to remain committed to our customers, partners, and stakeholders with the same dedication and discipline that have guided our journey over the years.

I would like to sincerely thank our employees for their hard work, dedication, and unwavering commitment. Their efforts continue to drive our progress and shape the future of the Company. I also extend my gratitude to our shareholders for their continued trust and confidence in us.

As we look ahead, we remain optimistic about the opportunities before us. With a stronger market presence, a growing and capable team, and a clear strategic direction, we are confident in our ability to continue building a resilient and future-ready organization. I thank you for your continued support and look forward to the journey ahead.

ITEM NO. 7:

Pursuant to provisions of section 180(1)(c) of the Companies Act, 2013; the board of directors of the company may borrow money on behalf of the company (along with the existing borrowings) up to the aggregate of company's paid-up share capital, free reserves and securities premium. Further, when the board requires to borrow money in excess of the aforesaid aggregate limit, a special resolution requires to be passed in the Company's General Meeting; to authorise the board to the borrow the sum(s) of money up to the specified limit in the said special resolution.

Further, provisions of Section 180(1)(a) of the Companies Act, 2013 provides for the power to sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking of the Company subject to the approval of members in the General Meeting, which authorisation is also proposed up to the specified limit in the said special resolution. Moreover, in order to facilitate the secured borrowing made by the Company, it would be necessary to create pledge, mortgage, hypothecate and/or charge on the assets or whole or part of the undertaking of the Company.

Keeping in view the Company's existing and future financial requirements to support its business operations and to ensure smooth cashflow, when required, it is now proposed that the Company may fix the overall borrowing limit at ₹ 300 crores and recommend the same to the shareholders for approval.

Accordingly, your Directors recommend the Special Resolution mentioned in item no. 7 for approval of the shareholders.

None of the Directors or Key Managerial Personnel of the Company or their relatives are considered to be interested or concerned in the above resolution.

ITEM NO. 8 AND 9:

In the Extra Ordinary General Meeting (EOGM) held on March 13, 2024, the members approved the appointment of Mr. Vijay Lalsingh Yadav as Managing Director of the Company for a period of 5 years on the terms and conditions as contained in the agreement entered into between the Company and Mr. Vijay Lalsingh Yadav, with a specific authority to the Board of Directors to alter or vary terms and conditions of the said appointment and/or agreement including remuneration up to a maximum amount of ₹ 60,00,000/- (Rupees Sixty Lakhs only) per annum.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

This chapter on Management’s Discussion and Analysis (“MD&A”) is to provide the stakeholders with a greater understanding of the Company’s business, the Company’s business strategy and performance, as well as how it manages risk and capital.

The following management discussion and analysis is intended to help the reader to understand the results of operation, financial conditions of HP Telecom India Limited

(1) ECONOMIC OVERVIEW, INDUSTRY STRUCTURE AND DEVELOPMENTS:

The Indian economy continues to demonstrate resilience and steady growth, supported by strong domestic demand, rising disposable incomes, favourable demographics, and increasing digital adoption. The demand for a wide range of consumer durable goods has remained robust, driven by urbanization and continuous technological advancements. This has intensified competition among domestic as well as global brands, positioning India as one of the most attractive markets for future growth.

India has further strengthened its position as a global manufacturing hub, particularly in the electronics sector, supported by government initiatives such as Production Linked Incentive (PLI) schemes, infrastructure development, and ease of doing business reforms. The continued focus on “Make in India” and localization of supply chains has encouraged significant investments in electronics manufacturing and allied sectors.

During FY 2026, India’s electronics exports are expected to maintain a strong growth trajectory, building upon the momentum of previous years. The country continues to progress towards its target of achieving electronics manufacturing output of approximately US\$ 300 billion and exports of US\$ 120 billion in the near term. Capacity expansion, supply chain diversification, and increasing global demand remain key growth drivers.

India’s Consumer Electronics and Appliances (ACE) industry continues to be one of the fastest-growing sectors globally. The industry is expected to further strengthen its global position, driven by increasing penetration in rural and semi-urban markets, rising replacement demand, and the rapid expansion of e-commerce platforms.

The Indian appliances and consumer electronics market is estimated to surpass ₹1.6–1.7 lakh crore (approximately US\$ 19–21 billion) by FY 2026. Growth is being driven by strong demand across product categories such as smartphones, smart televisions, wearables, and home appliances. Additionally, electronics hardware production in India is expected to cross US\$ 100 billion, reflecting the country’s expanding manufacturing capabilities and improving ecosystem.

The global economic environment continues to be influenced by ongoing geopolitical tensions and conflicts in certain regions, which have led to volatility in commodity prices, logistics costs, and supply chains. While these developments pose short-term uncertainties, India’s consumption-

driven economy and proactive policy measures have helped mitigate significant adverse impacts. The Company continues to closely monitor such developments and remains focused on enhancing supply chain resilience, cost optimization, and operational efficiency.

Overall, the sector is expected to witness sustained growth, supported by favourable government policies, rising consumer aspirations, and continuous innovation in technology and product offerings.

INDIAN ECONOMY:

The Indian electronics and telecom ecosystem continues to evolve rapidly, driven by strong consumer demand, faster technology adoption, and expanding digital infrastructure. Smartphones and connected devices have become central to daily life, leading to sustained demand across both urban and semi-urban markets. Increasing data consumption, affordability of devices, and wider 4G/5G penetration have further strengthened the growth outlook of the sector.

The Indian market is witnessing a clear shift towards premiumization, with consumers increasingly opting for higher-value smartphones and smart devices. At the same time, deeper penetration into Tier II and Tier III cities is expanding the overall addressable market, supported by rising disposable incomes and improved financing options. These trends are creating significant opportunities for organized distribution players with strong channel networks.

The distribution landscape is also undergoing transformation, with a growing share of organized retail and e-commerce platforms. However, offline retail continues to play a critical role, particularly in smaller towns, where assisted selling and after-sales support remain key decision factors. This has led to the emergence of hybrid distribution models, where companies are required to maintain strong relationships across both online and offline channels.

On the supply side, India is gradually strengthening its electronics manufacturing ecosystem. While large-scale manufacturing has gained momentum under government initiatives, the industry continues to rely on imports for certain components, making it sensitive to global supply chain dynamics and currency fluctuations. Ongoing efforts towards localization and backward integration are expected to improve long-term resilience.

Global geopolitical developments and trade realignments have prompted companies to diversify supply chains, positioning India as an emerging alternative manufacturing and sourcing destination. However, these factors have also resulted in periodic volatility in product availability, input costs, and logistics, requiring companies to adopt agile procurement and inventory management strategies.

The sector also continues to benefit from policy support aimed at boosting manufacturing, exports, and digital adoption. Increasing internet penetration, rising usage of digital services, and the expansion of 5G networks are expected to further drive demand for smartphones and related devices.

Overall, the Indian electronics and telecom sector presents strong growth potential, supported by favourable demographics, evolving consumption patterns, and ongoing digital transformation. For distribution-led businesses, the ability to manage scale, optimize supply chains, and maintain strong brand and channel relationships will be critical in sustaining growth and competitiveness.

BUSINESS OVERVIEW:

HP Telecom India Limited commenced its operations with a focus on the distribution of mobile phones, accessories, and telecom-related products. Over the years, the Company has evolved into a diversified distribution enterprise with a strong presence in the consumer electronics and smartphone ecosystem.

The Company has consistently expanded its business by associating with reputed national and international brands and strengthening its channel partner network across multiple regions. Its growth strategy has been centered on identifying high-growth product categories, expanding geographical reach, and building long-term relationships with leading technology brands.

A major turning point in the Company's growth journey came with its association with Apple Inc., which enabled the Company to establish a strong presence in the premium smartphone and consumer electronics segment. The Company currently operates as an exclusive distributor for Apple products across key territories including Madhya Pradesh & Chhattisgarh, selected cities in Uttar Pradesh, and prominent markets in Gujarat. Through this association, the Company offers a wide range of Apple products including iPhone, iPad, Mac, Apple Watch, and accessories.

Over the years, the Company has also expanded its portfolio beyond smartphones by participating in the distribution of telecom products, consumer electronics, and allied technology products. The Company continues to maintain business relationships with various brands, enabling it to cater to diverse consumer preferences and market segments.

In recent years, the Company has focused on strengthening its market position by expanding into new territories and improving operational efficiencies. The addition of Nothing Technology Limited products in Gujarat and expansion of trading operations in Delhi marked important steps towards broadening the Company's regional presence and product offerings.

The business environment for smartphones and connected devices continued to remain favorable during FY 2025-26, supported by increasing digital adoption, rising demand for premium devices, and expansion of organized retail channels. The Company continued to capitalize on these opportunities by enhancing its distribution capabilities, optimizing supply chain operations, and strengthening relationships with retailers and channel partners.

While revenue contribution from Apple products continues to remain significant, the Company also derives business from other brands and telecom-related products, including offerings associated with Reliance Jio Infocomm Limited and other mobile device brands. The Company remains focused on expanding its presence in high-growth markets and strengthening its position within the rapidly evolving electronics and telecom distribution industry.

Going forward, the Company intends to continue leveraging its established distribution network, market experience, and brand partnerships to drive sustainable growth and operational efficiency. The Product wise bifurcation of Revenue is as follows:

S. N.	Particulars	Amount (in Lacs)	%
1.	Mobile Phones	2,35,103.76	96.26
2.	Tablet	2,702.95	1.11
3.	Smart Watch	1,128.06	0.46
4.	Audio Device	2,268.51	0.93
5.	Accessories	1,933.72	0.79
6.	Laptop/Mac	999.12	0.41
7.	Home Appliances	0.16	0.00
8.	Apple Care Plan	73.19	0.03
9.	Trolleybag	17.90	0.01
	Total	2,44,227.38	100.00

(2) OPPORTUNITY AND THREATS:

Opportunities:

The Indian electronics and smartphone industry continues to present significant growth opportunities, driven by favourable demographics, increasing digital adoption, and rising consumer aspirations. The shift towards premium smartphones and smart devices is gaining momentum, supported by higher disposable incomes, improved financing options, and increased consumer preference for advanced features and brand value.

India is also emerging as a key beneficiary of the global “China+1” supply chain strategy, with leading global players expanding their manufacturing footprint in the country. Increased localization, coupled with government incentives, is expected to enhance domestic production and improve product availability, thereby supporting growth in the distribution ecosystem.

The rapid rollout and adoption of 5G technology is expected to act as a major demand driver, accelerating replacement cycles and boosting sales of compatible devices. Additionally, deeper penetration into Tier II and Tier III markets, along with increasing internet usage and digital payments, is expanding the overall addressable market for smartphones and allied products.

The continued growth of organized retail and e-commerce platforms is also creating new avenues for distribution-led businesses. Companies with strong channel networks, diversified brand partnerships, and efficient logistics capabilities are well-positioned to capitalize on these opportunities.

Threats:

The Company’s performance remains exposed to global and domestic macroeconomic conditions. Ongoing geopolitical tensions and evolving global trade dynamics may lead to volatility in supply

chains, increased logistics costs, and fluctuations in input prices, which could impact product availability and margins.

The industry is characterized by intense competition, rapid technological changes, and evolving consumer preferences. Frequent product launches and shorter product life cycles require efficient inventory management, as any mismatch may lead to obsolescence risks and pricing pressures.

Further, dependence on imports for certain components exposes the business to foreign exchange fluctuations and regulatory changes, including changes in import duties or government policies. Any adverse movement in currency or policy framework may impact cost structures and profitability.

The sector is also sensitive to changes in interest rates, inflationary pressures, and overall consumer spending patterns, which may affect demand, particularly in price-sensitive segments. Additionally, increased competition from both organized and unorganized players, along with pricing pressures from online platforms, may impact margins.

The Company continues to closely monitor these risks and is focused on strengthening its supply chain, optimizing inventory levels, and maintaining strong relationships with brands and channel partners to mitigate potential adverse impacts.

(3) OUTLOOK ON RISK AND CONCERNS:

The Company operates in a dynamic and competitive business environment, where evolving consumer preferences, technological advancements, and global economic developments continue to influence performance. While the overall outlook for the electronics and telecom sector remains positive, certain risks and concerns require continuous monitoring and proactive management.

The Company believes that policy stability, including the continued rationalization of indirect taxes and supportive government initiatives for manufacturing and digital growth, will provide a conducive long-term environment for the industry. However, short-term uncertainties arising from global and domestic factors may impact business performance.

Key risks and concerns impacting the Company are as follows:

- **Execution Risk:** The Company's ability to effectively scale operations, manage distribution networks, and maintain strong relationships with brands and channel partners remains critical to its growth strategy.
- **Demand and Consumer Sentiment Risk:** The business is closely linked to consumer spending patterns, which may be affected by inflationary pressures, interest rates, and overall economic conditions.
- **Inventory and Obsolescence Risk:** Rapid technological changes and frequent product launches in the smartphone and electronics segment may lead to inventory holding risks, price erosion, and obsolescence if not managed efficiently.

- **Supply Chain Risk:** Dependence on global supply chains and imports for certain products exposes the Company to disruptions, delays, and cost fluctuations arising from geopolitical tensions and logistics challenges.
- **Foreign Exchange Risk:** Currency fluctuations may impact procurement costs and margins, particularly in a business with significant import components.
- **Competitive Intensity:** The industry is highly competitive with the presence of multiple organized and unorganized players, as well as pricing pressures from online platforms, which may affect margins.
- **Regulatory and Compliance Risk:** Changes in government policies, taxation, import duties, and compliance requirements may have an impact on operations and profitability.
- **Credit and Counterparty Risk:** The Company is exposed to risks related to receivables from channel partners, requiring strong credit assessment and collection mechanisms.

The Company continues to strengthen its risk management framework by focusing on efficient inventory planning, diversification of supply sources, prudent credit policies, and cost optimization measures. It also maintains a robust internal control system to monitor and mitigate risks on an ongoing basis.

Overall, despite the presence of these risks, the Company remains confident of leveraging growth opportunities in the sector through disciplined execution, strong partnerships, and a resilient business model.

(4) **INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:**

The Company has a proper and adequate system of internal controls. This ensures that all transactions are authorized, recorded and reported correctly, and assets are safeguarded and protected against loss from unauthorized use or disposition. In addition, there are operational controls and fraud risk controls, covering the entire spectrum of internal financial controls. An extensive programme of internal audits and management reviews supplements the process of internal financial control framework. Properly documented policies, guidelines and procedures are laid down for this purpose. The internal financial control framework has been designed to ensure that the financial and other records are reliable for preparing financial and other statements and for maintaining accountability of assets.

In addition, the Company has identified and documented the risks and controls for each process that has a relationship to the financial operations and reporting. The Company also has an Audit Committee to interact with the Statutory Auditors, Internal Auditors and Management in dealing with matters within its terms of reference. This Committee mainly deals with accounting matters, financial reporting and internal controls.

➤ **Discussion on financial performance with respect to operational performance**

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF

HP Telecom India Limited

(Formerly known as HP Telecom India Private Limited)

Report on the Audit of Financial Statements:

Opinion:

We have audited the accompanying Financial Statements of **HP Telecom India Limited** (*Formerly known as HP Telecom India Private Limited*) ("the Company") which comprises the Balance Sheet as on **March 31, 2026** and the Statement of Profit and Loss, and the Cash Flow Statement for the year ended on that date, and notes to financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards ("AS") prescribed under the Companies Act (Accounts) Rules, 2014, and other accounting principles generally accepted in India, of the state of affairs of the Company as at **March 31, 2026** and its Profit (or Loss), and Cash Flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act 2013. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the entity in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have not determined any matters to be the key audit matters to be communicated in our report.

Management's Responsibility for the Financial Statements:

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; to design and perform audit procedures responsive to those risks; and to obtain audit evidence that is sufficient and appropriate to provide a basis for the auditor's opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economics decisions of a reasonably knowledgeable user of the financial statement may be influenced. We consider quantitative materiality and qualitative factor in (i) planning the scope of our audit work and in evaluating the result of our work and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

ANNEXURE - A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our Report of even date)

On the basis of such checks as we considered appropriate and according to the information and explanations given to us during the course of audit, we state that:

1 Property, Plant, Equipment and Intangible Assets

(a)	Whether the company is maintaining proper records showing full particulars, including quantitative details and situation of property, plant, equipment and intangible assets.	Yes
(b)	Whether these fixed assets have been physically verified by the management at reasonable intervals; whether any material discrepancies were noticed on such verification and if so, whether the same have been properly dealt with in the books of account;	The management conducted physical verification of certain fixed assets in accordance with its policy of physical verification in a phased manner. In our opinion, such frequency is reasonable having regard to the size of the Company and the nature of its fixed assets. As explained to us, the discrepancies noticed on physical verification as compared to book records maintained, were not material and have been properly dealt with in the books of account.
(c)	Whether title deeds of immovable properties are held in the name of the company. If not, provide details thereof.	According to the information and explanations given to us and based on our examination of the records of the Company, the title deeds of immovable properties disclosed in the financial statements are held in the name of the Company, except for certain properties, as detailed in point (a) of note 27 of audited financial statements. The title deeds of such properties are in the process of being transferred in the name of the Company. The delay is attributable to procedural formalities and administrative reasons.
(d)	Whether the company has revalued its Property, Plant and Equipment (including Right of Use Assets) or intangible assets or both during the year and, if so, whether the revaluation is based on the valuation by a Registered Valuer.	No
(e)	Whether any proceedings have been initiated or are pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.	No

2 Inventories

(a)	Whether physical verification of inventory has been conducted at reasonable intervals by the management and whether any material discrepancies were noticed and if so, how they have been dealt with in the books of account;	The management conducted physical verification of inventory in accordance with its policy of physical verification in a phased manner. In our opinion, such frequency is reasonable having regard to the size of the Company and the nature of its inventory. As explained to us, the discrepancies noticed on physical verification as compared to book records maintained, were not material and have been properly dealt with in the books of account.
(b)	Whether Company has availed Working Capital Loan(s) from banks or financial institutions by pledging current assets and the sanction limit(s) by combining limit of all banks or financial institutions exceed Rs 5 Crore and if so. Whether quarterly result or statement filed by the company with such banks or financial institutions are in line with the accounting books.	In our opinion and according to the information and explanations given to us, the Company has been sanctioned working capital limits in excess of Rs. 5 Crore in aggregate from banks during the year on the basis of security of current assets. Based on the quarterly returns or statements submitted by the Company to such banks and financial institutions and according to the procedures carried out by us, we are of the opinion that the quarterly returns and statements filed by the Company are in agreement with the books of account of the Company.

3 Investments, guarantees, securities and loans

	Whether the company has made investment in, provide any guarantee or security or granted any loans, secured or unsecured to companies, firms, LLPs or any other parties, If so,	Yes
(a)	whether during the year the company has provided loans or provided advances in the nature of loans, or stood guarantee, or provided security to any other entity, if so, indicate -	Yes
A	the aggregate amount during the year, and balance outstanding at the balance sheet date with respect to such loans, advances and guarantees or security to subsidiaries, joint ventures and associates;	NA
B	the aggregate amount during the year, and balance outstanding at the balance sheet date with respect to such loans, advances and guarantees or security to parties other than subsidiaries, joint ventures and associates;	Loans & Advances to entities other than subsidiaries, joint ventures and associates: Aggregate amount = 10,00,00,000 Balance outstanding at the balance sheet date = Rs. 10,00,00,000

ANNEXURE - B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **HP Telecom India Limited** (Formerly known as *HP Telecom India Private Limited*) ("the Company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us on internal financial controls with reference to financial statements, the Company has, in all material respects, an adequate internal financial control with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes forming part of the Financial Statements for the year ended March 31, 2026**NOTE 1: COMPANY OVERVIEW**

HP Telecom India Limited (Formerly known as HP Telecom India Private Limited) ("the Company") is a public company incorporated under the provisions of the Companies Act, 1956, and is now governed by the provisions of the Companies Act, 2013. The Company was incorporated on March 26, 2011, and has its registered address at Plot No-97, 1st Floor, Om Square, Near Ishwar Farm, BRTS Canal Road, Bhatar, Althan, Surat-395017, Gujarat. The Shares of the Company are listed on Emerge SME Platform of NSE. The Company is engaged in distributing a wide range of telecommunications and technology products across India.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES**2.1 Basis of Preparation of Financial Statements:**

The Financial Statements of the Company have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP). The Company has prepared these Financial Statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013 read together with the Companies (Accounting Standards) Rules, 2021 and presentation requirements of Division I of Schedule III to the Companies Act, 2013.

These Financial Statements have been prepared on a going concern basis, under the historical cost convention, and on an accrual basis of accounting. The accounting policies adopted in the preparation of these Financial Statements are consistent with those followed in the previous year.

The financial statements are presented in Indian Rupees (₹), which is the Company's functional and presentation currency.

2.2 Use of Estimates:

The preparation of financial statements in conformity with Generally Accepted Accounting Principles in India (Indian GAAP) requires the management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets, and liabilities, and the disclosure of contingent liabilities at the end of the reporting period.

Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Differences between the actual results and the estimates are recognized in the period in which the results are known or materialized. Revisions to accounting estimates are recognized prospectively in the current and future periods.

Significant estimates used by the management in the preparation of these financial statements include, but are not limited to, the determination of useful lives of property, plant and equipment, valuation of inventories (including provision for obsolescence), provision for doubtful debts, provision for taxation (including deferred taxes), and provisions for contingencies.

2.3 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- expected to be realized or intended to be sold or consumed in normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realized within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when it is:

- expected to be settled in normal operating cycle;
- held primarily for the purpose of trading;
- due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and deferred tax liabilities are classified as non-current assets and non-current liabilities respectively.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.4 Cash and cash equivalents:

Cash and cash equivalents in the balance sheet and cash flow statement comprise cash at banks and in hand, debit balance of cash credit accounts and credit cards, and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.5 Cash Flow Statement:

The Company prepares its Cash Flow Statement in accordance with Accounting Standard (AS) 3 "Cash Flow Statements" as notified under the Companies (Accounts) Rules, 2014. The Cash Flow Statement presents cash flows from operating, investing and financing activities, classified and reported using the indirect method for operating activities, whereby net profit is adjusted for effects of non-cash transactions, deferrals or accruals of past or future operating cash receipts or payments. Cash flows from investing and financing activities are reported separately. Cash and cash equivalents include cash on hand, demand deposits, and short-term, highly liquid investments maturing within three months of acquisition.

2.6 Inventories:

Inventories, predominantly consisting of Stock-in-Trade (telecommunications equipment, mobile handsets, consumer electronics, and related accessories), are valued at the lower of Cost and Net Realizable Value (NRV).

Cost is determined using the First-In-First-Out (FIFO) method, with specific identification used for high-value, serialized items. Total cost includes the purchase price and all direct inbound expenses, net of any trade discounts.

Because tech products age quickly, management regularly reviews stock and makes provisions for slow-moving, defective, or technologically obsolete items.

Inventories are presented as "Stock-in-Trade" under "Current Assets" on the Balance Sheet, with any goods-in-transit disclosed separately.

2.7 Revenue Recognition:

(I) Sale of Products:

Revenue from the sale of products is recognized when the significant risks and rewards of ownership of the goods have been transferred to the buyer, and the Company retains no effective control of the goods transferred to a degree usually associated with ownership. This generally coincides with the dispatch or delivery of goods to the customers, in accordance with the agreed terms of sale.

Revenue is recognized only when there is no significant uncertainty regarding the amount of consideration that will be derived from the sale of the goods and regarding its ultimate collection.

Revenue from sales is measured at the fair value of the consideration received or receivable. Sale of products is presented net of sales returns, trade discounts, and volume rebates. These deductions include accrued dealer obligations, such as volume incentives and promotional schemes, as well as price protection discounts. Price protection discounts are recognized when the Original Equipment Manufacturer ("OEM") announces a price drop and are calculated based on eligible unsold channel inventory.

The Company operates as a principal in its distribution network, assuming inventory risk and primary responsibility for fulfilling customer orders. Consequently, revenue from the sale of goods is presented on a gross basis.

Sales revenue is recognized excluding Goods and Services Tax (GST) or other indirect taxes recovered from customers, as these are collected on behalf of the government and do not represent economic benefits flowing to the Company.

(II) Services: Service revenues, like commission income and rent income is recognized as services are performed.

(III) Interest Income: Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

(IV) Other Income: Any other items of income are accounted for on an accrual basis, in accordance with the terms of the relevant agreements or underlying transactions, ensuring they are recorded in the period to which they relate.

2.8 Property, Plant and Equipment and Intangible Assets:

i. Property, Plant and Equipment are stated at cost net of recoverable taxes and less accumulated depreciation and impairment loss, if any. All costs including financing costs, up to the date of commissioning and attributable to the Property, Plant and Equipment are capitalised.

ii. Intangible assets are stated at cost of acquisition, less accumulated amortisation.

2.9 Depreciation and Amortization:

i. Depreciation on Property, Plant and Equipment are provided on "Written Down value Method" in accordance with requirements of Schedule II to the Companies Act, 2013.

ii. Amortization Intangible assets are amortized on "Written Down value Method" over their respective individual estimated useful life.

2.10 Investments:

Current Investments are carried at the lower of cost or quoted / fair value, computed category-wise. Long-term investments are stated at cost. Provision for diminution in the value of long-term investments is made only if such decline is other than temporary. Investments that are readily realisable and intended to be held for not more than 12 months from the date of acquisition are classified as current investment. All other investments are classified as non-current investments. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

2.11 Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. The undiscounted amount of short-term employee benefits, such as salaries, wages, performance incentives, and compensated absences, expected to be paid in exchange for the services rendered by employees are recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

As the number of employees on the direct payroll of the Company has remained below the statutory threshold prescribed under the Code on Social Security, 2020, the provisions relating to the payment of gratuity are currently not applicable to the Company. Consequently, no provision for gratuity liability has been recognized in the financial statements.

A significant portion of the Company's operational manpower requirement is fulfilled through outsourced service contracts with third-party agencies. Personnel deployed under these arrangements are the direct employees of the respective third-party service providers. The responsibility for all statutory compliances related to such personnel, including contributions towards Provident Fund, ESIC, and other applicable labour laws, rests with the third-party providers. The Company, acting in its capacity as the principal employer, annually obtains declarations and confirmations from these providers to ensure timely statutory compliances are being maintained. The charges paid to such third parties are recognized as an expense in the Statement of Profit and Loss.

2.12 Borrowing Cost:

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that takes necessarily substantial period of time to get ready for intended use.

All other borrowing costs are charged to the Statement of Profit and Loss.

2.13 Earnings Per Share:

Basic earnings per share is computed by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share is computed by taking into account the aggregate of the weighted average number of equity shares outstanding during the period and the weighted average number of equity shares which would be issued on conversion of all the dilutive potential equity shares into equity shares.

2.14 Income Taxes:

Tax expense for the year comprises current tax and deferred tax.

(a) Current Tax:

Current tax is determined as the amount of tax payable in respect of taxable income for the year, computed in accordance with the provisions of the Income-tax Act, 1961. The Company has opted for the concessional tax regime under Section 115BAA of the Income-tax Act, 1961. Accordingly, the current tax provision has been recognized based on the applicable concessional rates prescribed under this regime. Consequently, the provisions of Minimum Alternate Tax (MAT) under Section 115JB of the Act do not apply to the Company.

(b) Deferred Tax:

Deferred tax is recognized, subject to the consideration of prudence, on timing differences, being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date, reflecting the concessional rate applicable to the Company under Section 115BAA.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. However, in situations where the Company has unabsorbed depreciation or carry-forward tax losses, deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each balance sheet date, the Company re-assesses recognized and unrecognized deferred tax assets. The Company writes down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which the deferred tax asset can be realized. The Company recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities, and the deferred tax assets and liabilities relate to the taxes on income levied by the same governing taxation laws.

2.15 Accounting of Indirect Tax:

The Company is recording sales and purchases on exclusive method and GST are not passed through the Statement of Profit and Loss of the Company.

2.16 Provision, Contingent Liabilities and Contingent Assets:

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognised but are disclosed in notes. Contingent Assets are neither recognised nor disclosed in the Financial Statements.

The Original Equipment Manufacturer ("OEM") provides standard assurance-type warranties on all products distributed by the Company, covering product performance and quality under the OEM's terms and conditions. The Company does not assume any separate or additional warranty obligations beyond those provided by the OEM. Based on historical experience and the contractual allocation of warranty risk to the OEM, management has determined that no liability for warranty claims is expected to arise and, accordingly, no provision for warranties or related claims is required.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably; the Company does not recognize a contingent liability but discloses its existence in the Financial Statements.

Contingent assets are neither recognized nor disclosed in the Financial Statements.

2.17 Foreign currency transactions:

Transactions denominated in foreign currencies are initially recorded and accounted for at the exchange rates prevailing on the date of the respective transactions.

Monetary assets and liabilities (such as cash, receivables, and payables) denominated in foreign currencies that are outstanding as at the balance sheet date are translated into Indian Rupees using the closing exchange rates prevailing on that date.

Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the initial transaction. Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are translated using the exchange rates at the date when such value was determined.

Exchange differences arising on the settlement of monetary items or on the translation of monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as an expense in the Statement of Profit and Loss in the period in which they arise.

2.18 Impairment of Assets:

The Company assess at each reporting date as to whether there is any indication that an asset (tangible and intangible) may be impaired. An asset is treated as impaired, when the carrying cost of the asset exceeds its recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

Explanation for variances exceeding 25%

- The Debt Service Coverage Ratio has increased due to increase in EBITDA.
- The Inventory Turnover Ratio and Trade Receivables Turnover Ratio increased during the period primarily due to an increase in sales.
- The Trade Payables Turnover Ratio increased during the period primarily due to an increase in purchases.
- Net Profit Ratio and Return on Capital Employed increased primarily due to a increase of operating profits and faster working capital cycles.
