Circular Ref. No: 65/2018

All Members

Sub- Introduction of One Time Password (OTP) based Two-Factor Authentication (2FA) mechanism for Collateral Interface for Members (CIM)

This is further to our Circular no. 784/2017 (Download Red no NSCCL/CD/34358) dated March 10, 2017 regarding Two factor Authentication.

In order to enhance the security measures, the current questionnaire based 2FA authentication mechanism shall be replaced with an OTP based 2FA mechanism for login into CIM

As a one-time registration exercise, upon login, members will be presented with a screen to update the official email address and mobile number. These details shall then be used to send an OTP that will be used by the member to login to the application.

Members shall be permitted to update the registered email address and mobile number through the application (please refer the manual attached). In case the member is not able to login into the application member can send a request to Clearing Corporation to update the registered email address and mobile number as per the format specified in the Annexure.

Members are advised to ensure the following

- Please register mobile number and official email address of the user.
- Do not use personal/common mobile numbers and email addresses to avoid any misuse
- OTP shall not be shared with anyone, in any case
- Disable all users that are not active and/or no-longer associated with your organization, to avoid any misuse

The above changes in 2FA shall be implemented w.e.f. **December 26, 2018**.

The above revised OTP based 2FA shall be optional till **January 11, 2019**. During the optional period, users can choose to skip 2FA by clicking on "Skip to Application" tab. However, the members are encouraged to promptly opt for revised 2FA as it shall be mandatory after **January 11, 2019**.

A detailed manual for the above is enclosed

Members are requested to take note of the same
