Members are required to perform the following:

- **For connecting to Primary/DR site, no changes in NEAT Adapter settings are required. Settings of live session as of Friday, August 21, 2026 in NEAT Adapter shall be retained to connect to all the above sessions of Primary/DR site.**
- Members are requested to note that Exchange shall shift its operation from primary site to DR site during the mock session and it shall be a non-graceful shutdown from the primary site. In case of such event necessary action should be taken at member's end as stated in circular NSE/MSD/48662 dated June 18, 2021 to bring their systems into a consistent state.
- All the outstanding orders shall be purged before the start of trading from BCP site. Members using NNF software should clear the outstanding orders of session 1 in their systems before trading from BCP site.
- Members should note that for Multicast TBT, sequence number will start from '1' once trading starts from BCP site.
- Latencies experienced by Colo Participants will be different on Disaster Recovery/BCP day as compared to a normal trading day.

For other important instructions members may refer to the following:

Annexure 1: Operational instructions for BCP mock trading session.

Annexure 2: Pre-requisites / General guidelines for participating in the Mock environment.

Annexure 3: Important guidelines in case of switchover of trading system to Disaster Recovery (DR) Site.
