- If the TMs/CMs has collected adequate initial (upfront) margins from the client to cover the potential losses over time till pay-in, TMs/CMs need not collect Mark To Market losses (MTM) from the client/TMs. Otherwise, TMs/CMs shall be required to collect MTM from their clients/TMs by T+2 day.
- If pay-in (both funds and securities) is made by T+2 working days, the other margins would be deemed to have been collected

 - If a member uploads a file with incorrect name, such files shall not be picked up by the Clearing Corporation. In case of files uploaded through the extranet the same file shall be renamed as “.failed” in the respective member folder in order to facilitate members to ascertain file upload failure.
 - Zero byte uploaded through the NSCCL –MASS shall not be accepted. In case of zero byte files uploaded through the extranet the same file shall be renamed as “.failed” in the respective member folder.

 - This figure for amount collected (end of day and peak), appended by TMs/CMs/Custodian should not be negative.
 - TMs/CMs/Custodian are required to ensure that no information provided in the file is modified. Any modification shall result in such record being rejected by the Clearing Corporation.

11.3.3 Return files to the members

- A return file shall be generated for all files uploaded by the TMs/CMs/Custodian for client margin reporting with the correct naming convention. TMs/CMs/Custodian can download return file through NSCCL –MASS using the client margin file download menu. - File loaded after the sign off date - TMs/CMs/Custodian shall be permitted to upload client margin reporting file up to T+5 working days. Such files would be rejected with the reason “File is not being processed as file upload date is greater than sign off date”.
- File loaded for future date - If the uploaded file is for December 12, 2019 on December 11, 2019, then the return file would indicate the rejection reason as ‘File is not being processed as file date is greater than system current date’.
- Uploads file for an invalid day - If a TMs/CMs/Custodian is not required to report the client margin file for a day (say Saturday, Sunday, holiday etc.) and still uploads the same, then the return file would be rejected with the message ‘File is not being processed as the TMs/CMs/Custodian code is invalid for the file date’.
- TMs/CMs/Custodian uses non-serial batch number in file name - If the batch number provided by the TMs/CMs/Custodian for a trade date is not in sequence, for example if the member has uploaded two files for the trade date December 12, 2019 with file names C_MRG_TM_12092019_01.CSV and C_MRG_TM_12092019_03.CSV, the second file would be rejected with error message ‘File is not being processed as file batch number is not proper. Last successful batch no for the day was 01’.
- File in wrong format - If the TMs/CMs/Custodian has provided a file which cannot be read by the system for example- non csv file, then return file would be rejected with the message ‘File is not being processed as the file is not in format’.

b) Processed File Records –

- File Naming Convention: C_MRG_TMR_MEMBER CODE__nn.CSV for TMs and C_MRG_CMR_MEMBER CODE__nn.CSV for CMs/Custodian
- After processing of client margin file, each record would have a reason code indicating acceptance/ rejection, as the case may be. The details of reason codes are as follows:

Reason Code	Description
01	Record size does not match for e.g. extra comma in the record
02	Date in record does not match with file date
03	Record is altered i.e. matching record does not exist in MG-13/MG-12 file. Possible error in date/ client code/ margin amount
04	Record pertains to proprietary position for trading member
05	Record pertains to proprietary position for clearing member
06	Margin amount collected is negative or non numeric.

07	Insufficient Margin
08	Sufficient Margin

- For reason codes 01 to 06, the difference amount, would not be indicated in the return file. However, for reason codes 07 and 08, the difference amount would be indicated.
- If the record contains multiple errors for e.g. reason code 01 as well as 06, the reason code which is the lowest in number would appear against the record i.e. reason code 01.

11.3.4 Custodial Transactions

- Only in cases where TMs/CMs/Custodian have provided details of client/TMs/CPs for allocation of EPI shall be considered for exemption of margin reporting
- In case where TMs/CMs/Custodian have made EPI but not provided allocation of EPI for client/TMs/CPs, such EPI shall not be considered while generating end of day client margin reporting files for TMs/CMs/Custodian
- TMs/CMs/Custodian may refer to point 10.16 and 10.17 for detailed provision of providing client level EPI allocation

11.3.6 Sign-off date

The cut off day upto which a TMs/CMs/Custodian may report client margin details to the Clearing Corporation is referred to as the sign off date. It shall be 5 working days after the trade date i.e. TMs/CMs/Custodian shall be allowed to upload client margin reporting file up to T+5 working days

11.3.7 Shortage computation

The margins reported shall be compared in the following manner:

(a) EOD margin obligation of the client/TM/Custodial Participant shall be compared with the respective client/TM/Custodial Participant margin available with the TM/CM at EOD.

AND

(b) Peak margin obligation of the client/TM/Custodial Participant, across the snapshots, shall be compared with respective client/TM/Custodial Participant peak margin available with the TM/CM during the day
