1. Action by the clearing corporation in respect of Futures contracts:

Adjustment of futures contracts available in MPHASIS shall be carried out based on the reference rate of the relevant futures contracts on July 07, 2026 (last cum-dividend date). The reference rate to be reckoned for the purpose of adjustment shall be the daily mark to market settlement price of the relevant futures contract, which shall be reduced by the dividend amount.

Accordingly, all positions in futures contracts with the underlying security as MPHASIS would be marked-to-market on the last cum-dividend date i.e. July 07, 2026, based on the daily settlement price of the respective futures contract. Subsequent to such processing, open positions shall be carried forward at the daily settlement price less Rs.62/- (dividend amount) for the respective futures contract.

From July 08, 2026 (ex-dividend date), daily mark to market settlement of futures contracts with the underlying security as MPHASIS would continue as per normal procedures.

Begin of day margins on July 08, 2026, would be computed for the futures contract with underlying as MPHASIS based on the adjusted carry forward value. Subsequently, intra-day margins would be computed based on the relevant traded prices at the time the intra-day span risk parameter files are generated.
