Index Methodology

The Nifty500 LargeMidSmall Equal-Cap Weighted index aims to measure the performance of constituents forming part of the parent index, the Nifty 500 Index, where each segment (large, mid and small) in the index will be assigned equal weights at the time of rebalancing.

- The index has a base date of April 01, 2005 and a base value of 1000.
- Stocks forming part / going to be a part of the Nifty 500 index at the time of review are eligible for inclusion in the index.
- Weight of each stock within each of the three size segments will be based on its free-float market capitalization
- The replacement of stocks in Nifty 500 (if any) is implemented from the last trading day of March and September
- Weightage of segments in equal segment weighted indices are aligned equally at the time of change in the index composition in March and September
- Additionally, weightage of the segments will be aligned equally on a quarterly basis and implemented from the last trading day of March, June, September, and December

Index Governance: A professional team manages all NSE indices. There is a three-tier governance structure comprising the Board of Directors of NSE Indices Limited, the Index Advisory Committee (Equity) and the Index Maintenance Sub-Committee.
