To All Members,

Sub : Digital submission of message & user distribution change request

Trading members are allotted user ids across segments depending upon the choice of connectivity scenario. Further, trading members are provided an option to specify the distribution of the messages and user ids for each of the segments at the time of activation of Tap IP subject to the maximum permissible limits as specified below:

Scenario	Message rate per second	Maximum permissible NEAT User Ids
A	40	30 User IDs can be in any combination for CM, F&O and CD segment.
B	100	50 User IDs can be in any combination for CM, F&O and CD segment.
C	200	100 User IDs can be in any combination for CM, F&O and CD segment.
D	400	200 User IDs can be in any combination for CM, F&O and CD segment.

Subsequently, Members also have the option to modify the message distribution between segments subject to not exceeding the overall subscribed message rate.

Exchange has been taking various initiatives to facilitate Trading Members for easy submission of various requests. In continuation of the same and to further augment our initiatives Exchange is pleased to announce a facility for acceptance of message/user distribution change requests through our dedicated electronic member interface 'ENIT' (Trading > User Id Request > Message/User distribution change). The various types of requests available under this new facility are:

a) Message distribution change only
b) User distribution change only
c) Both (message & user distribution change)

The above mentioned type of requests shall be accepted only through ENIT from start of business hours on September 27, 2016.The online status of these applications would be available in ENIT (Trading > User Id Request > Message/ User distribution change MIS). Members are requested to take note of the above and take advantage of the new facility.
