| Download Ref.No.: NSE/MEM//33210 | Date : September 19, 2016 |
| Circular Ref.No.: 8/2016 | |

To All Members,

**Sub: Discontinuation of TCP based Tick-By-Tick market data broadcast**

The Exchange has been providing Tick-By-Tick (TBT) market data broadcast based on two technologies viz. TCP and Multicast in parallel since 2014 in Cash Equity, Equity Derivatives and Currency Derivatives Segments. Since its introduction, Multicast based TBT has been well received and is being used widely by members. Consequently, the need and demand for TCP- TBT has reached unsustainable levels.

With a view to streamline the technical architecture, the Exchange had decided to discontinue TCP based TBT data broadcast w.e.f**. November 30, 2016** (close of business hours)**.** In this regard:

- Members are requested to surrender their existing TCP-TBT connections, if any before November 30, 2016.
- Surrender of lines / connections can be done on the Exchange interface ENIT at:
  - Non-collocation : Membership > TCP IP Scenario > Surrender
  - Collocation : Membership > Collocation > IP Surrender
- Members can continue to place request for Multicast based TBT leased lines / connections through Exchange interface ENIT at:
  - Non-collocation : Membership > TCP IP Scenario > Activation
  - Collocation : Membership > Collocation > MTBT Activation
- Members using NNF software on TCP-TBT may kindly approach the Exchange for requisite approvals with Multicast Tick by Tick.

Members are requested to kindly take note of the above and make arrangements accordingly.

For and on behalf of
National Stock Exchange of India Limited

Arvind Goyal
Chief Manager
