

NATIONAL STOCK EXCHANGE OF INDIA LIMITED**DEPARTMENT : MEMBER SERVICE**

Download Ref No : NSE/MSD/38195

Date : June 29, 2018

Circular Ref. No : 21/2018

Sub: POP network changes – Process for procurement of new Leased Lines (LL)

To All Members,

This is in continuation of Exchange circular NSE/MSD/37818 dated May 23, 2018 wherein members were requested to opt for a service mode for their existing active leased lines.

Exchange is now pleased to inform that members who intend to procure new LL under the two service modes viz. Managed Service (MS) and Self-Service (SS) can apply for activation via ENIT (path: Membership > TCP IP Scenario > Activation).

Members are requested to note the following for new Leased Lines:

Self Service Mode:

1. Members need to apply via ENIT (path: Membership > TCP IP Scenario > Activation) for receiving NOC in this regard.
2. Members shall have to specify details with respect to the proposed connectivity viz. POP, Service provider, bandwidth, location etc.
3. On approval of the request, members will receive a NOC on the email id specified in the request.
4. The NOC shall be required at the time of commissioning of the link at the specified POP. The Exchange appointed Network Integrator 'Sify Technologies Ltd (Sify)' shall provide the requisite assistance at the time of link commissioning at the POP.
5. Members shall be responsible for procuring their own routers, leased lines etc. as may be required to establish the proposed connectivity. The minimum prescribed requirements in this regard as specified by the Exchange have already been shared in earlier circulars.
6. The applicable configuration parameters for the connectivity like Tap IP, WAN IP, Mux details etc shall be provided on ENIT (path: Membership > TCP IP Scenario > Request Status).
7. Documents have to be submitted as currently applicable for procuring connectivity at data centres.
8. All existing processes as applicable currently for seeking various services on a connectivity (after IP activation on ENIT) viz. user ids, pro enablement, dual locking etc will remain unchanged.

9. All existing process as applicable currently for message category change, shifting, bandwidth change shall remain unchanged.
10. The Exchange shall endeavour to provide the NOC in 2 working days from the date of receipt of the request, subject to fulfilment of all Exchange requirements in this regard.

Managed Service Mode:

1. For new LL under Managed service mode the existing process of activation of connectivity will continue to be applicable.
2. In case members already have the NSE specified router in stock, as applicable under managed service mode (refer circular NSE/MSD/37818 dated May 23, 2018 Annexure 1) for use with the new connectivity; procurement of new router shall not be mandatory while applying for a fresh connectivity. The said router should be under warranty /amc with Sify.
3. Members desirous of procuring a router along with the new connectivity shall have to provide the Purchase Order (Annexure 1) to Sify Technologies Ltd directly. In the purchase order the delivery address (Customer Location) should be where the connectivity is terminating.
4. In case where members have expressed the desire to purchase a router via their application at point 1 above, the applicable Router, ARC etc. charges shall be deducted from the member's exchange dues account.

Members would appreciate that during the transition period, which may last up to October 31, 2018, the priority would be to replace the existing leased lines. We trust that during this period, members shall remain patient and considerate with respect to SLAs for seeking new connectivity.
