Circular Ref. No: 42/2020

All Members,

Test Market Environment - Changes in Connectivity for dedicated lease line terminating at landing point

This is in reference to Exchange circular NSE/MSD/42917 dated December 16, 2019 regarding Test Market Environment - Changes in Connectivity for dedicated lease line terminating at landing point.

All existing participants i.e. Empaneled Vendors (EV), Application Service Providers (ASP's), Registered Foreign Independent Software Vendors (FISV's) and Prospective members are requested to note that based on requests from participants, the migration of existing links on 2 Mbps E1 leased line to **4 Mbps / 10 Mbps dedicated leased lines with Ethernet Copper RJ45 handoff technology** has been revised to **September 30, 2020**.

All existing participants are urged to take advantage of the extended timelines and mandatorily migrate their existing links to 4 Mbps / 10 Mbps dedicated leased lines with Ethernet Copper RJ45 handoff technology at the earliest. If migration is not completed by September 30, 2020, then the Exchange shall consider the links as surrendered and disconnect the E1 links without any further notice.
