Proprietary Trading Module on ENIT

User Manual

Procedure for submitting below requests through ENIT

- A. Default Location Activation
- B. Change In Default Location
- C. Pro Enablement
- D. Pro Disablement
- E. Pro Status Modification

Pro trading:

Exchange has provided facility on member portal to handle requests for proprietary account trading applications electronically. Further, it may be noted that digital signature is imperative for accepting the applications through member portal. Hence, it is mandatory that all the applications sent electronically through member portal contain digital signature as allotted by the Exchange to authorized personnel of the trading firm. Trading members may send the application for availing proprietary account trading facility by logging in Member portal.

Members are required to send their request for proprietary enablement, proprietary disablement, pro modification, default location activation and change in default location through the facility on NSE ENIT electronically.

To whom:

To all the members who has the proprietary trading membership.

Software requirements:

- Google Chrome (preferred)
- Internet Explorer 11.0

Access:

- Members should login through the below link to log in into ENIT.
<https://enit.nseindia.com/MemberPortal/>
<https://inspection.nseindia.com/MemberPortal/>
- Member can login through member portal by entering User ID and password.

Salient features:

- Member desirous to activate proprietary trading facility on user ids which are not PRO enabled shall now select from the below options in PRO Enablement form:

- Only PRO option (i.e. upon successful processing of member's request, only PRO orders shall be allowed; CLI orders if entered shall be rejected by Exchange with rejection message "and error code)
- PRO and CLI option (i.e. upon successful processing of member's request, both PRO and CLI orders shall be allowed)
- By default, the Exchange allotted user ids are enabled for "Only CLI" orders. Hence there is no change for members desirous to enter only CLI orders.
- For existing pro enabled user ids:
 - A new form - Pro Status Modification is available in PRO module where request can be raised for PRO status change.
 - Members can track the request status for "Pro Status Modification" request under PRO TRADING ACTIVITY REPORT available on ENIT under PRO trading module along with PRO enablement and PRO disablement request status.
- The existing status of user ids who had sent request through this PRO Trading module, can be viewed in "PRO TRADING STATUS REPORT" on ENIT.
 - All existing user ids which are PRO enabled will have the status displayed as "PRO and CLI".
 - All existing user ids on ENIT module which are successfully processed for PRO disablement request will have the status as "Only CLI"
- The below is the summary of the type of requests which can be submitted through PRO trading module on ENIT:

Facility to change		Exchange end processing		Form to be used to submit the request
From	To	During market hours	Only After market hours
