

National Stock Exchange of India Ltd.

For	User Trading Rights Module
Document Name	User Trading Rights Module on ENIT.pdf
Applicable to	All trading members
Purpose	User Guide on how to apply for user trading rights activation / deactivation for Exchange provided user id

Procedure for submitting below requests through ENIT

Trade > User Trading Rights

- A. Default Location Activation
- B. Change In Default Location
- C. Trading Rights Enablement
- D. Trading Rights Disablement
- E. Trading Rights Modification

User Trading Rights:

Exchange has provided facility on member portal to handle requests for user trading rights applications electronically. Further, it may be noted that digital signature is imperative for accepting the applications through member portal. Hence, it is mandatory that all the applications sent electronically through member portal contain digital signature as allotted by the Exchange to authorized personnel of the trading firm. Trading members may send the application for availing User Trading Rights facility by logging in Member portal.

Members are required to send their request for the below through the facility on NSE ENIT electronically :

- User Trading Rights Enablement
- Trading Rights Disablement
- Trading Rights Modification
- Default Location Activation
- Change in Default Location

To whom:

To all the members who wants to have Trading Rights enabled/disable on User IDs.

Software requirements:

- Google Chrome (preferred)
- Internet Explorer 11.0

Access:

- Members should login through the below link to log in into ENIT.
<https://enit.nseindia.com/MemberPortal/>
<https://inspection.nseindia.com/MemberPortal/>
- Member can login through member portal by entering User ID and password.

Salient features:

- The Current Name for “**PRO Trading**” module is now renamed to “**User Trading Rights**” module.
- Based on the aforesaid circular’s members are requested to align the user trading rights for their existing and new user ids allotted to them based on their BMC category. Member can place such request through the below sub forms accordingly which are renamed as under.

Current Form Name	Current Sub Form Name	New Form Name	New Sub Form Name	Used for
Pro trading Request	Default location activation	Trading Rights Request	Default location activation	To notify details of default location to the Exchange
	Change in Default Location		Change in Default Location	To change their existing default location
	PRO Enablement		Trading Rights Enablement	Applying for user trading rights enablement PRO / CLI/PRO+CLI as per members BMC
	PRO Disablement		Trading Rights Disablement	Applying for user trading rights disablement
	PRO status Modification		Trading Rights Modification	Applying for user trading rights modification to PRO / CLI / PRO + Cli as per members BMC

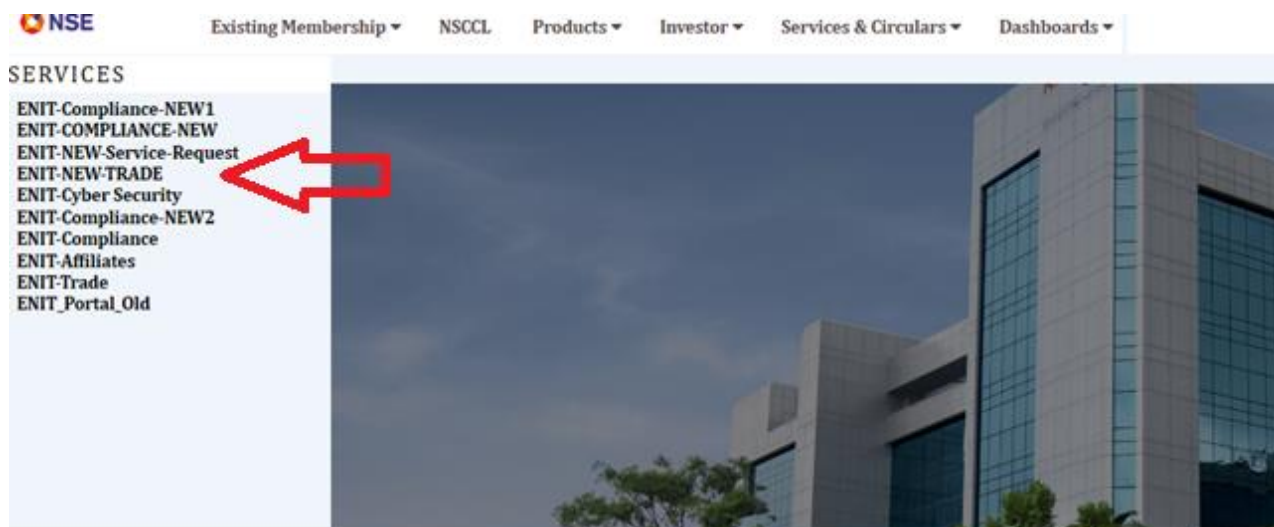

- By default, the Exchange allotted new user ids shall have no trading rights, hence before trading the members desirous to trade on these user ids allotted shall be required to avail trading rights as per his BMC category.

Below is the summary of the type of requests which can be submitted through User Trading Rights module on ENIT:

Category as per Base Minimum Capital Deposit	Facility to change		Exchange end processing		Form to be used to submit the request
	Current Trading Rights	Proposed Trading Rights	During market hours	After market hours

	PRO+ CLI	Only CLI	No	Yes	Trading Rights Modification

- All the other details which are required to be submitted in Pro trading module remains unchanged.
 - Members are requested to carefully read the attached user manual for desktop and mobile application before submitting the request on ENIT. The same is available on the ENIT module as well.
- When user logs in, below screen will be displayed.
- Click on '**ENIT- NEW- TRADE**'

➤ Go to the path: **Trade > User Trading Rights**

User Trading Rights module has below functionalities (as shown in the below image):

- I. Trading Rights Request
- II. Trading Rights Activity Report
- III. Trading Rights Status Report
- IV. Default Location Status Report
- V. Default Location Activity Report

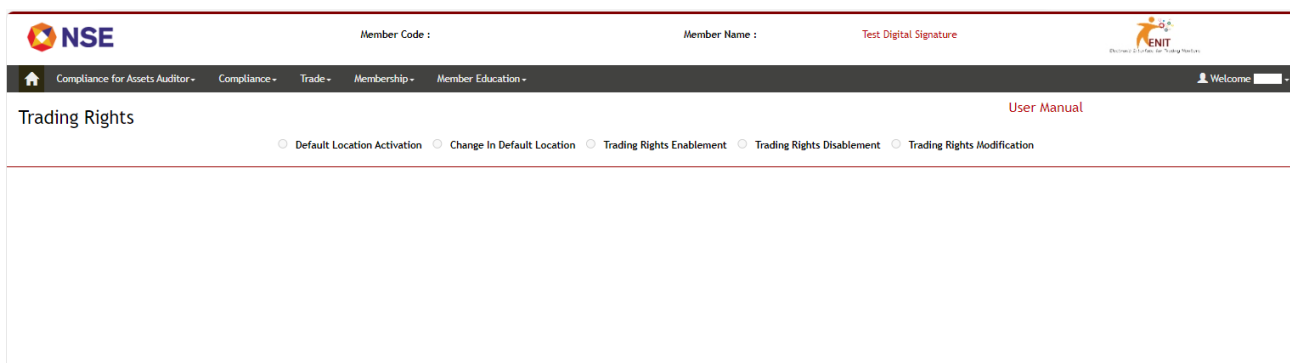

I. Trading Rights Request

➤ Member can place the below requests through this module.

Trade > User Trading Rights > Trading Rights Request

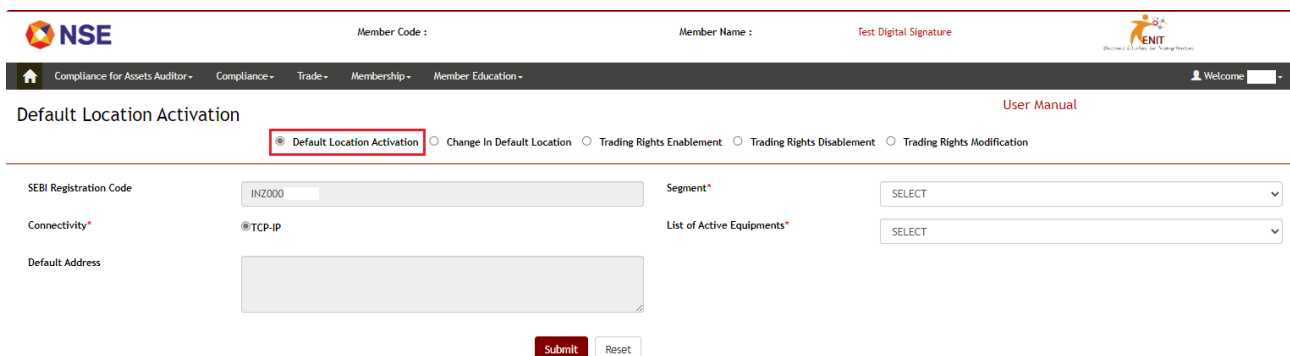

- A. Default Location Activation
- B. Change In Default Location
- C. Trading Rights Enablement
- D. Trading Rights Disablement
- E. Trading Rights Modification

The screenshot shows the NSE Member Portal interface. At the top, there's a header with the NSE logo, Member Code, Member Name, and Test Digital Signature. Below the header is a navigation bar with links: Compliance for Assets Auditor, Compliance, Trade, Membership, and Member Education. The main content area is titled 'Trading Rights' and includes a 'User Manual' link. Below the title, there are five radio buttons: Default Location Activation (selected), Change In Default Location, Trading Rights Enablement, Trading Rights Disablement, and Trading Rights Modification.

A. Default Location Activation

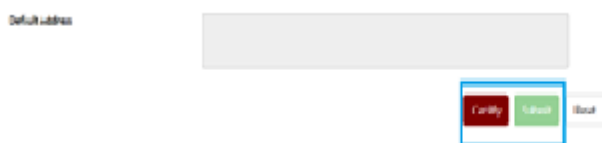

- Members notify details of default location to the Exchange through 'Default Location Request'.
- Member needs to select the button next to 'Default Location Activation' and fill in the necessary details as shown below:

The screenshot shows the 'Default Location Activation' form in the NSE Member Portal. The form has a header with the NSE logo, Member Code, Member Name, and Test Digital Signature. Below the header is a navigation bar with links: Compliance for Assets Auditor, Compliance, Trade, Membership, and Member Education. The main content area is titled 'Default Location Activation' and includes a 'User Manual' link. Below the title, there are five radio buttons: Default Location Activation (selected), Change In Default Location, Trading Rights Enablement, Trading Rights Disablement, and Trading Rights Modification. The form fields include: SEBI Registration Code (INZ000), Segment* (SELECT), Connectivity* (@TCP-IP), List of Active Equipments* (SELECT), and Default Address. There are 'Submit' and 'Reset' buttons at the bottom.

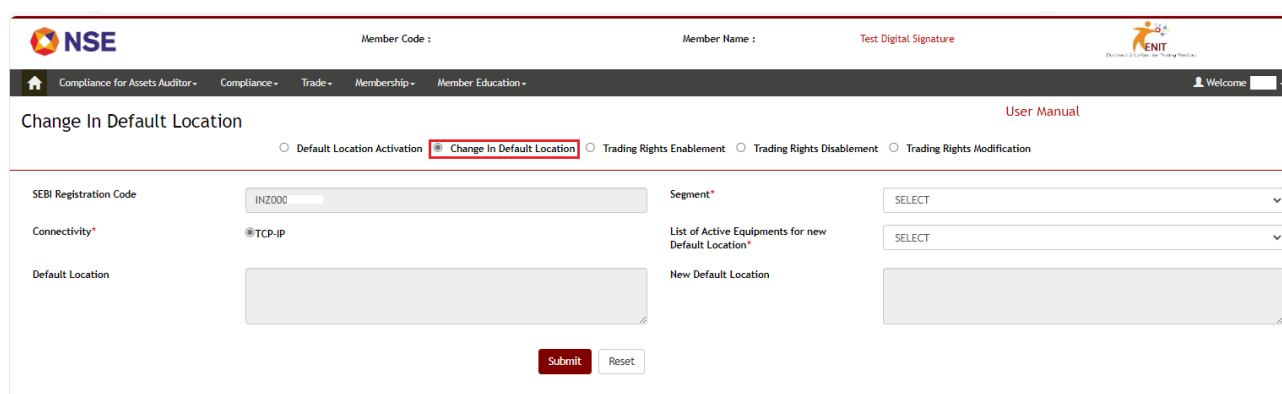

User Details	
SEBI Registration Code	Auto-populated
Segment*	Select from drop down
Connectivity*	Auto-populated
List of Active Equipments*	Select from drop down
Default Location	Auto-populated

- Once the details are filled, member is required to certify the data by clicking on 'Certify' button and then Submit the request to the Exchange by clicking on 'Submit' button as shown in the below image.

B. Change In Default Location

- Members use this option to change their existing default location, if necessary.
- Member needs to select the button next to 'Change In Default Location' and fill in the necessary details as shown below:

User Details	
SEBI Registration Code	Auto-populated
Segment*	Select from drop down
Connectivity*	Auto-populated
List of Active Equipments for new Default Location*	Select from drop down
Default Location	Auto-populated
New Default Location	Auto-populated

- Once the details are filled, member is required to certify the data by clicking on 'Certify' button and then Submit the request to the Exchange by clicking on 'Submit' button as shown in the below image:

II. Trading Rights Activity Report

- Members can view their submitted request status for User trading rights Enablement and Disablement requests through this option.

ENIT Path : Trade > User Trading Trading > Trading Rights Activity Report

The screenshot shows the NSE ENIT web application. The top navigation bar includes the NSE logo, Member Code, Member Name, Test Digital Signature, and a Welcome message. The main menu on the left has options like Compliance for Assets Auditor, Compliance, Trade, Membership, and Member Education. The 'Trade' menu is expanded, showing a list of options including Bulk/Block Reporting, Market Maker, Password Reset/Unlock NEAT User ID, Member Reporting Pre Trade, User Id Request, System Audit, Trade Compliance(Post Trade), User Trading Rights, NNF, NNF Surrender, Cyber Security, Limit Setting, and Incident Report. The 'User Trading Rights' option is further expanded, showing 'Trading Rights Request', 'Trading Rights Activity Report' (highlighted), 'Trading Rights Status Report', 'Default Location Status Report', and 'Default Location Activity Report'.

The screenshot shows the 'TRADING RIGHTS ACTIVITY REPORT' form. The form includes fields for Member Name, Member Code, User ID, Request Type, Reference Number, Segment, Date Of Action From Date, Date Of Action To Date, and Status. There are 'Search' and 'Reset' buttons. Below the form is a table with the following columns: Sr. No., Member Code, Segment, Reference number, Date Of Application, Type of Application, User Id, User Name, Connectivity Type, Primary Connectivity, Secondary Connectivity, Location, Postal Address, Default Location, Status, Status Date, and Remarks. The table is currently empty, displaying 'No records to display'.

III. Trading Rights Status Report

- Pro Trade Status Report has been provided on the ENIT front-end. Members may use this option to view the final trading rights status of their user ids in each segment as on current date.
