Annexure – 1

Change in Order Number Format

Order no. is a unique identification for an order. As soon as order is received by Exchange, a unique order no. is generated by Exchange and is sent to the Trader with order response. Order no. is a 16-digit numeric field.

Current Format:
At present, the format of Exchange order no. is 'YYYYMMDDXXXXXXXX' where first four digits are current year, next two digits are month, next two digits are current date and rest eight digits are for sequential number.

For example, on 17th December 2014, order having sequence number 12345678 is shown as 2014121712345678.

New Format:

- First 2 digits will contain the stream number
- The next 14 digits will be allotted to the order sequence number.

Note: With the format change, the Order Nos. shall be unique for a day

For example, 1012345678901234, 1112345678901234, 1212345678901234

Only the format of the order number has been changed. No change in structure.
The new change shall be applicable w.e.f. April 09, 2018 after successful completion of mock trading.
