Annexure – 1

Additional features in NEAT SLBM system

The following facility shall be made available for Corporate Manager

1) Reset Password (Branch manager and Dealer)

A new facility is provided to corporate manager to enable and reset password for all the users under his trading firm under Dialogs menu (Ctrl+Alt+T) in NEATSLBM. The Corporate Manager will be able to reset the password of the user, who is disabled on account of entering wrong password. Corporate manager will be able to change the password of only INACTIVE / DISABLED users.

The Corporate Manager will not be allowed to reset his own password through NEATSLBM. To reset the password of Corporate Manager, member is required to send the request through ENIT on the below path:-

Member Portal ->ENIT-NEW-TRADE ->Trade->Password reset / Unlock Corp Mgr Id ->Request for Password Reset/Unlock.

2) Unlock User

A new facility is being provided to the Corporate Manager to send unlocking request to the Exchange through trading system for branch manager and dealer. This facility can be invoked through Dialogs menu (CTRL+SHIFT+U) in NEATSLBM -> Unlock user

Henceforth, requests for password reset/unlock user through fax/e-mail shall not be accepted by the Exchange.

Annexure – 2**Installation procedure for NEATSLBM Version 1.1.3****Precautions:**

- Members are advised to install the new version only after end of live trading of Friday, October 05, 2018.
- Members are advised to take back up of all report files before upgrading the software.
- Members are advised to take back up of client master through client master maintenance.

Installation:

- Installation files shall be available after 17:00 hrs on Friday, October 05, 2018.
- Installation files can be downloaded from NSE EXTRANET path (/slbftp/slbcommon/NEAT 1.1.3)
- Download the setup file „NEATSLBMTWSSetup.exe“ to your hard disc in the root directory (i.e. C:\ or D:\ or E :\).
- Go to the drive where NEATSLBMTWSSetup.exe is copied.
- Double click on the NEATSLBMTWSSetup.exe.
- The files will be extracted with the window pop up „NEAT-SLBM Version 1.1.3 Installer extracting files“.
- It will be followed by „NEAT-SLBM Version 1.1.3 Installer“ pop up window. Installation drive (where application will be installed) will be C: by default.
- The user can change the default installation drive to any other local drives (e.g. D: or E :)
- Click on „Install“ button on this pop up window and follow the installation instructions.
- Message of successful installation will be displayed once the complete application is installed.
- The user can run NEATSLBM TWS application by double clicking on either of the following:
 - NEATSLBM TWS shortcut icon created on the desktop.
 - NEATSLBM TWS entry in the „Programs“ sub-menu of the „Start“ menu.
 - NEATSLBM.exe located in the NeatSLBMDb-TWS directory in the installation drive.

Updating the new version with latest data:

- Download and unzip following files from NSE EXTRANET path slbftp/slbcommon/NTNEAT to your local hard disk drive (C:\):
 1. Participant_slb.gz
 2. security_slb.gz
 3. security.gz
- Unzip the above files

From the log on screen click on the “UPLOAD” button to update the security, participant details

Annexure - 3**Precautions and procedure for reverting to earlier version of NEATSLBM (1.1.2)**

The following Steps has to be followed for reverting to old version

- Download the set up file for old version 'NEATSLBMTWSSetup.exe' from NSE EXTRANET path folder (/slbftp/slbcommon/NEAT 1.1.2) to your hard disc in the root directory (i.e. C:\ or D:\ or E:\). If prompted, choose to overwrite the existing file. Kindly choose the same drive where the proposed new version was installed.
- Go to the drive where NEATSLBMTWSSetup.exe is copied.
- Double click on the NEATSLBMTWSSetup.exe
- The files will be extracted with the window pop up 'NEATSLBM TWS Installer extracting files'.
- It will be followed by 'NEATSLBM Installer' pop up window. Installation drive (where application will be installed) will be C: by default.
- The user can change the default installation drive to any other local drives (e.g. D: or E :)
- Click on 'Install' button on this pop up window and follow the installation instructions.
- Message of successful installation will be displayed once the complete application is installed.
- The user can run NEATSLBM TWS application by double clicking on either of the following:
 - A.NEATSLBM TWS shortcut icon created on the desktop.
 - B.NEATSLBM TWS entry in the 'Programs' sub-menu of the 'Start' menu.
 - C.NEATSLBM.exe located in the NeatSLBMDb-TWS directory in the installation drive.
- From NSE EXTRANET path (/slbftp/slbcommon/NTNEAT) download latest security_slb.gz, security.gz, participant_slb.gz unzip it on your log on drive (**this step is very important to ensure trading on Monday, October 08, 2018**)
- From the log on screen click on the "UPLOAD" button to update the contract, security, participant and portfolio details.
