The Corporation's Credit policy is a guiding document for the lending operations of the company. The Credit policy and the processes defined in it, have evolved over the years and the same has been approved by the company's board. The underlying objective of this policy is to provide a framework for efficient and standardized lending process and thereby ensuring customer satisfaction, risk mitigation, and regulatory compliance.

The policy document summarizes the loan products and the processes followed across the loan transaction cycle. The policy document covers the following key aspects of the lending operations:

- I. Product Features
- II. Credit and KYC Documentation
- III. Loan Process
- IV. Post disbursement activities
- V. Grievance Redressal Mechanism

The Credit policy also covers the general terms & conditions and documentation required for each product. Additionally, loan appraisal process, credit norms, guidelines on employed and self-employed appraisal, legal and technical process have also been covered.

#### A. Individual Loans

##### I. Loan Origination

A loan application is sourced through various channels. Based on uploaded digital file, an initial screening of documents and detailed data entry is done on system.

##### II. Loan Appraisal & Approval

###### Credit Appraisal

All the retail loan products seek to address specific requirements of the customers and operate within the norms specified by the regulator. The regulatory guidelines determine the LTV norms, KYC & PMLA requirements etc. While these guidelines are applicable to all the loans, some of the product attributes are distinct basis the term, applicable fees, maximum loan etc. basis the commercial and risk perception of the corporation.

All loans are processed by the Credit Hub/s post initial document fulfillment by channel partners. The appraisal process for determining the loan eligibility involves underwriting of the submitted documents and undertaking various checks to ensure authenticity of the documents, genuineness of the transaction and

compliance with all regulations. The various policy guidelines as issued by NHB on KYC, CKYC, PMLA, LTV norms, Valuation through outsource valuers etc. are adhered to during the appraisal process and the credit processing hubs ensure that all compliances are fulfilled.

Review of the loan application, credit and property documents by the HDFC credit appraiser is supported by the above checks and personal discussion with the applicant/s if required to determine the loan eligibility. The review is based on the assessment of the applicant/s repayment capacity by estimating the income and obligations, savings and investment history, ability to fund the balance cost (i.e. total cost less the loan amount) and banking history. The loan proposal is appraised holistically considering the source of own contribution, end usage of the property being self-use or rental and also assessing the stake of the customer in the transaction.

The loan eligibility of a customer is dependent on the ability to service the loan obligation. This ability to pay is a factor of the quantum & consistency of income of the customer/ co-customer. The source of the income, frequency, and continuity of the income stream is also considered when loan eligibility is determined.

Apart from credit underwriting, there are various checks undertaken during the approval process. The additional checks are:

- PAN Number verification from NSDL website:
- Cross validation of customer information from CKYC Database
- Customer de-dupe Process
- Internal Property De-dupe
- Online check on the Traces and EPFO websites
- Credit Bureau Reports CIBIL Scoring Model
- Residence and employment verification
- Risk Containment Unit (RCU)
- Experian National Hunter

All retail loans are appraised by the HDFC Credit HUB and are approved by a minimum of 2 approvers. The Loan approvers are part of the branch sanctioning committee and are empowered to approve loans. One of the loan approvers should have the approval authority equivalent or higher than the loan amount.

The individual loan approval limits are controlled through the system. The Committee of management has authorized the Chairman and Managing Director to delegate the approval limit of Individual loans.

The appraisal process includes:

1. Identification of risk: This is done through documentation & information acquisition from customer & reviewing various reports like CIBIL & personal discussions. The risk is assessed on factors like age, qualification, stability of employment, number of dependants, income levels and savings & investments history. This determines a customer's inclination to pay.

2. Quantification of risk: This involves extensive evaluation of the customer's current financial condition & capacity to pay. The source of income along with the frequency, consistency & continuity of the income flow is assessed. The existing liabilities of the customer are also taken into account.

3. Hedging of Risk: Once a customer's ability & inclination to pay is determined, the need for any additional security required to hedge the risk further in terms of personal guarantee, fixed deposits or any other alternate

security may be ascertained.

#### Technical Evaluation and Legal Documentation

Applicant is required to pay a minimum 10%-25% of cost of property as his own contribution prior to disbursement of loan.

The technical appraisal process involves collection and compilation of the project related documents and verification of the stage of construction of the project to ascertain the amount that can be disbursed. The activity is carried out under the aegis of a committee, comprising members of legal, technical & marketing teams. Other senior branch staff may also be part of this committee. In case of resale cases, the technical appraisal is for the individual unit. The technical appraisal process also entails visits to the project site by technical appraisers / approved valuers to ascertain the marketability of the project and evaluate the amount that can be disbursed.

The primary security for loans is normally the first mortgage of the property to be financed or the property against which the loan is being availed and/or additional collateral as may be necessary such as additional/interim security in form of Personal Guarantee from a third party, or any other security as may be required. Security of the loan would be security interest on the property being financed and / or any collateral / interim security as may be required by HDFC.

It is ensured that the title to the property is clear, marketable and free from encumbrance.

The required title and other documents pertaining to the individual property being financed are verified to ensure that title is clear and marketable and can be mortgaged to HDFC. There is a standard legal check list based on the nature of transaction.

#### III. Disbursement and Related compliances

Disbursement is subject to Legal and Technical clearance. All original property documents are vetted by internal legal department and panel lawyers. The site visit is conducted by empanelled technical teams which submit the market valuation and site visit reports to HDFC's Technical Department. The technical department cross verifies the site visit reports and evaluates the market value of the property being purchased. If the loan amount being sought is within the prescribed LTV/LCR limits, the disbursement is authorized to be fixed after checking the original documents of title, own contribution proofs, KYC documents fees, etc.

#### IV. Loan Repayment

The loan is to be repaid by way of Equated Monthly Installments (EMI) comprising principal and interest. Interest is calculated by way of monthly rests. Repayment by way of EMI commences from the month following the month in which full disbursement is availed. Pending final disbursement, Pre-EMI or interest on the amount disbursed is payable. In some instance the monthly repayment may comprise of simple interest on the loan and the loan is repaid at the end of the term through a single bullet payment.
