This document does not constitute an offer to the public generally to subscription for or otherwise acquire the Bonds to be issued by IRFC Ltd. This document is for the exclusive use of the investors to whom it has been specifically addressed and it should not be circulated or distributed to third party(ies). It is not and shall not be deemed to constitute an offer or an invitation to the public in general to subscribe to the Bonds issued by the Issuer. This Bond issue is made strictly on private placement basis. Apart from this Private Placement Memorandum, no offer document or prospectus has been prepared in connection with the offering of this Issue or in relation to Issuer.

This Private Placement Memorandum is not intended to form the basis of evaluation for the prospective subscribers to whom it is addressed and who are willing and eligible to subscribe to the Bonds issued by IRFC Ltd. This Private Placement Memorandum has been prepared to give general information regarding IRFC Ltd. To parties proposing to invest in this issue of Bonds and it does not purport to contain all the information that any such party may require. IRFC Ltd. Believes that the information contained in this Private Placement Memorandum is true and correct as of the date hereof. IRFC Ltd. Does not undertake to update this Private Placement Memorandum to reflect subsequent events and thus prospective subscribers must confirm about the accuracy and relevancy of any information contained herein with IRFC Ltd. However, IRFC Ltd. Reserves its right for providing the information at its absolute discretion. IRFC Ltd. Accepts no responsibility for statements made in any advertisement or another material and anyone placing reliance on any other source of information would be doing so at his own risk and responsibility.

Prospective subscribers must make their own independent evaluation and judgment before making the investment and are believed to be experienced in investing in debt markets and are able to bear the economic risk of investing in Bonds. It is the responsibility of the prospective subscriber to have obtained all consents, approvals or authorizations required by them to make an offer to subscribe for, and purchase the Bonds. It is the responsibility of the prospective subscriber to verify if they have necessary power and competence to apply for the Bonds under the relevant laws and regulations in force. Prospective subscribers should conduct their own investigation, due diligence and analysis before applying for the Bonds. Nothing in this Private Placement Memorandum should be construed as advice or recommendation by the Issuer or by the Arrangers to the Issue to subscribers to the Bonds. The prospective subscribers also acknowledge that the Arrangers to the Issue do not owe the subscribers any duty of care in respect of this private placement offer to subscribe for the Bonds. Prospective subscribers should also consult their own advisors on the implications of application, allotment, sale, holding, ownership and redemption of these Bonds and matters incidental hereto.

This Private Placement Memorandum is not intended for distribution. In pursuance of sub-section (7) of section 42 of The Companies Act, 2013, the Issuer shall not release any public advertisements and shall not utilize any media, marketing or distribution channels or agents to inform the public at large about such an offer, where the term ‘public advertisements’ shall include notices, brochures, pamphlets, circulars, show cards, catalogues, hoardings, placards, posters, insertions in newspapers, pictures, films, or any other print medium, radio, television programme through any electronic medium, mass communications or emails, internet websites including social networking websites, publicity through telephone or mobile etc.

It is meant for the consideration of the person to whom it is addressed and should not be reproduced by the recipient. The securities mentioned herein are being issued on private placement basis and this offer does not constitute a public offer/ invitation.

The Issuer reserves the right to withdraw the private placement of the Bond issue prior to the issue closing date(s) in the event of any unforeseen development adversely affecting the economic and regulatory environment or any other force majeure condition including any change in applicable law. In such an event, the Issuer will refund the application money,

if any, along with interest payable on such application money, if any.

VI. MANAGEMENT'S PERCEPTION OF RISK FACTORS: -

Prospective investors should carefully consider all the information in this Private Placement Memorandum, including the risks and uncertainties described below, before making an investment in the Bonds. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business prospects, results of operations and financial condition. If any of the following or any other risks actually occur, our business prospects, results of operations and financial condition could be adversely affected and the price of, and the value of your investment in the Bonds could decline and you may lose all or part of your redemption amounts and/ or interest amounts.

RISKS RELATING TO OUR BUSINESS AND INDUSTRY

- 1. We derive a significant amount of our revenue from operations from the Indian Railways. A loss of or reduction in business from the Indian Railways, any direct borrowing by the Indian Railways or introduction of any new avenues of funding by the Ministry of Railways, Government of India (the "MoR") could have an adverse effect on our business.***

We are the dedicated market borrowing arm of the Indian Railways. The vast majority of our revenue is generated from leasing Rolling Stock Assets/Project Assets to the Indian Railways. Lease income, interest on loans and pre commencement lease interest income together represented 99.99% and 99.99% of our total revenue from operations in Fiscal 2022 and Fiscal 2021, respectively. Our business and revenues are substantially dependent on the policies of the MoR and operations of the Indian Railways. Any change that might affect the MoR's ability and willingness to meet its contractual obligations under the Standard Lease Agreement entered into with us will have an adverse impact on the financial position of our Company. Further, any shift in the funding pattern of the Indian Railways, such as, reduced demand for Rolling Stock Assets/Project Assets or reliance on internal accruals or preference to other funding arrangements, such as, public private partnerships, will have an adverse impact on our results of operations. Any corporatization or privatization of the Indian Railways allowing the MoR to raise funds directly from banks, NBFCs and other financial institutions will also have an adverse impact on our business, results of operation and financial condition. Therefore, the overall prospects of our business is closely tied to our relationship with the MoR. We do not have any control over the GoI and its related entities, including, the MoR, or its policies and any adverse changes in the policies of the GoI may have an adverse impact on our business, results of operations and financial condition.

- 2. Our business is dependent on the continued growth of the Indian railway sector, which makes us susceptible to GoI initiatives to modernize the railways and other policies. Any slowdown in the growth of Indian Railways will impact our business and results of operations.***

The Indian Railways faces significant competition in the transport sector from other means of transportation such as transport by road, sea and air. While the Indian Railways continuously looks to augment its infrastructure and undertake other necessary improvements to the railway network, competition in freight traffic from the road sector is likely to intensify further, as present projects for upgrading road networks are completed. The Indian Railways' vulnerability to competition from other means of transportation could increase if cross- subsidies between freight and passenger fares remain at the current high levels, particularly when the road network is improving and oil pipelines are being built. Therefore, any slowdown in the growth of the Indian Railways Sector and changes in the policies of, or in the level of direct or indirect support to us provided by, the Government of India in these or other any areas could have a material adverse effect on our business, financial condition and results of operations.

- 3. Our ability to operate efficiently is dependent on our ability to maintain diverse sources of funds at a low cost. Any disruption in our funding sources or any inability to raise funds at a low cost could have a material adverse effect on our business, financial condition and results of operations.***

Our liquidity largely depends on timely access to and costs associated with, raising capital. Our funding requirements historically have been met through various sources including from taxable and tax-free bonds in India, term loans from banks/ financial institutions, external commercial borrowings including bonds and syndicated loans, internal accruals, asset securitization and lease financing. Our finance costs were Rs.101,626.60 million, Rs.112,370.50 million and Rs.140,747.82 in Fiscals 2020, 2021 and 2022. Our Cost of Borrowings was 7.27%, 6.35% and 6.23% in Fiscal 2020, 2021 and 2022 respectively. As we are fundamentally dependent upon funding from the debt markets and commercial, our ability to continue to obtain funds from the debt markets and through commercial borrowings on acceptable terms and our ability to access new sources of funding, markets or investors, is dependent on various factors, such as, our ability to maintain our existing credit ratings, which are based on several factors, many of which are outside our control, including the economic conditions in the Indian economy and liquidity in the domestic and global financial markets. Further, since we are a non-deposit taking NBFC, we have restricted access to funds in comparison to banks and deposit taking NBFCs.

Our ability to operate efficiently is dependent on our ability to maintain a low effective cost of funds. Therefore, timely access to, and the costs associated with, raising capital and our ability to maintain a low effective cost of funds in the future is critical. Our business depends and will continue to depend on our ability to access diversified low-cost funding sources.

If we are unable to obtain adequate financing or financing on terms satisfactory to us and in a timely manner or are unable to access new sources of funding or markets and investors, our ability to grow or support our business and to respond to business challenges could be limited and our business, prospects, financial condition and results of operations would be materially and adversely affected.

4. *In the event the margin on the Rolling Stock Assets/Project Assets leased to the MoR by our Company is not favourable, it may have an adverse impact on our financial condition and results of operation.*

We operate on a cost-plus based model. We receive lease rentals which include the value of the Rolling Stock Assets/Project Assets leased by us to the MoR in the relevant fiscal year, the weighted average cost of incremental borrowing as well as a certain margin, all in accordance with the terms of the Standard Lease Agreement, which we enter with the MoR for leasing of Rolling Stock Assets/Project Assets subsequent to the end of the relevant fiscal year. The margin is determined by the MoR in consultation with us at the end of each Fiscal.

In Fiscal 2022 we were entitled to a margin of 40 bps and 35 bps over the weighted average cost of incremental borrowing for financing Rolling Stock Assets and Project Assets respectively. In Fiscal 2018, the margin for financing Rolling Stock Assets was reduced to 30 bps from 50 bps in Fiscal 2017. There can be no assurance that the margin determined will be favourable for us. Any adverse determination of the margin will also impact our profitability and results of operation including leverage capacity. In the event the margin determined is not favourable, it may also adversely affect our financial condition and results of operation.

5. *Mismatch in the tenor of our leases and borrowings may lead to reinvestment and liquidity risk, which may adversely impact our financial condition and results of operations.*

A majority of our revenues is derived from the Standard Lease Agreements. These agreements with respect to Rolling Stock Assets and Project Assets currently provide for a primary lease period of 15 years, followed by a secondary lease period of another 15 years for Rolling Stock assets and 10 years for Project Assets, unless otherwise revised by mutual consent. We receive lease rentals, which include the value of the Rolling Stock Assets/Project Assets leased by us to the MoR in the relevant fiscal year, the weighted average cost of incremental borrowing as well as a certain margin, within the primary lease period. Typically, the weighted average cost of incremental borrowing factors in any expenses incurred by us with respect to any foreign currency hedging costs and / or losses (and gains, if any) as well as any hedging costs for interest rate fluctuations. Repayments occur half yearly by instalments during the primary lease period. While a majority of our borrowings require us to make bullet repayments, we also have certain borrowings where we are required to make one-time repayments. Such repayment of such borrowings in certain years may give rise to a temporary mismatch. This may potentially give rise to a liquidity risk and interest rate risk when we are required to refinance our loans and other borrowings. If we are unable to refinance our borrowings on favourable terms or reinvest the lease rentals on favourable terms, it could adversely affect our business, financial condition and results of operations.

6. *Any change in the terms of the Standard Lease Agreement entered into by us with the MoR may have an adverse effect on our business, financial position and result of operations.*

We enter into a Standard Lease Agreement with the MoR on an annual basis, subsequent to the end of the relevant fiscal year, in respect of Rolling Stock Assets/Project Assets leased by us to the MoR during the relevant Fiscal. Under the terms of the Standard Lease Agreement, the MoR covenants that in the event we are unable to redeem our bonds on maturity and/ or repay our loans resulting from inadequate cash flows, the MoR is required to make good such shortfall through bullet payments in advance before the maturity dates of such bonds/ term loans. Such payments are required to be adjusted in the subsequent lease rentals payable under the respective Standard Lease Agreement. If such assurance/ undertakings cease to be valid or the MoR fails to comply with the performance of such undertakings or such undertakings are amended or modified or altered or if we waive compliance with any provision of such undertakings, it may result in an event of default thereby accelerating repayment under the various bonds issued by us and we will not have any direct right of action or right of subrogation against the MoR. In addition, the MoR may not provide such assurances/ undertakings in the subsequent Standard Lease Agreements. Further, expenses incurred by us with respect to any foreign currency hedging costs and/ or losses (and gains, if any) as well as any hedging costs for interest rate fluctuations are typically included in the weighted average cost of incremental borrowing, which is determined by the MoR in consultation with us at the end of each Fiscal. However, there can be no assurance that the MoR will allow us to continue to include such hedging costs pertaining to foreign currency and interest rates in the weighted average cost of incremental borrowing under subsequent Standard Lease Agreements and should the MoR decline to include such costs in the weighted average cost of incremental borrowing, it may adversely affect our financial conditions and results of operations.

7. *The Standard Lease Agreement is executed after the end of the Fiscal to which it relates and there can be no assurance that the agreement will be executed each year.*

The Standard Lease Agreement governs the lease rentals for the Rolling Stock Assets/Project Assets payable by the MoR to us and specifies details of the Rolling Stock Assets/Project Assets leased to the MoR by our Company. The lease rentals include the value of the Rolling Stock Assets/Project Assets leased by us to the MoR in the relevant fiscal year, the weighted average cost of incremental borrowing as well as a certain margin, all in accordance with the terms of the Standard Lease Agreement and determined at the end of the relevant fiscal year. The weighted average cost of incremental borrowing and margin are determined by the MoR in consultation with us. The lease rentals are calculated as equal to half yearly payments to be made by the MoR, so as to ensure that our obligation to repay and settle our debts is fully met during primary lease period of 15 years.

The Standard Lease Agreement is executed at the end of Fiscal but comes into effect from the date of commencement of that Fiscal. Lease rentals during any particular year are calculated using the weighted average cost of incremental borrowing and margin relevant to that Fiscal. There can be no assurance that such arrangements will be honoured with respect to our ownership of the Rolling Stock Assets/Project Assets or in relation to the lease rentals in a timely manner or at all. Any failure to execute the Standard Lease Agreement may adversely affect our business, results of operations, prospects and financial condition.

In addition, in relation to funding of Project Assets under Extra Budgetary Resources (Institutional Financing) (“EBR-IF”), MOR vide letter dated 23rd July 2015 had authorized the Company to draw funds from Life Insurance Corporation of India (LIC) in consultation with MOR for funding of Railway Projects in line with finance leasing methodology adopted by Company for funding Railway Projects in past. In addition to funds raised from LIC, the Company has also funded MoR from other borrowings and internal accruals. Pending execution of the Lease Documents, the Company had entered into a Memorandum of Understanding with the Ministry of Railways on 23rd May 2017 containing principal terms of the lease transactions. Subsequently, the MoU between MoR and LIC expired in Fiscal 2020. The Company has now entered into a fresh Memorandum of Understanding with Ministry of Railways on 2nd March 2021 superseding all the earlier MoU's/ arrangement's. Funds raised are being utilized for implementing identified railway projects.

The Lease Agreement(s) between MOR and the Company for Project assets funded under EBR IF 2015-16 & 2016-17 and National Projects 2018-19 & 2019-20 with respect to aforesaid infrastructure assets have been executed. Any failure to execute project agreements for future periods may impact our title to project assets being funded by us under such arrangements and could have an adverse impact on our business, financial condition and results of operation.

8. *Any downgrade in our credit ratings or India's debt rating could increase our finance costs and adversely affect our ability to borrow funds and our business, results of operations, financial condition and cash flows.*

The cost and availability of capital depends in part on our domestic and international credit ratings. Credit ratings reflect the opinions of rating agencies on our financial strength, operating performance, strategic position and ability to meet our obligations. Any downgrade in our credit ratings could cause our lenders to impose additional terms and conditions to any financing or refinancing arrangements that we enter into in the future.

We have been accorded ratings of ‘AAA’ by CRISIL, ‘ICRA (AAA)’ by ICRA and ‘CARE AAA’ by CARE each with respect to our debt programme. International credit rating agencies such as Moody's have rated us Baa3 (Stable) while Fitch, Standard & Poor's and Japan Credit Rating Agency have rated us BBB- ‘Stable’, BBB- (Stable) and BBB+ (Stable). These ratings continue to remain valid till such time these are modified by the respective rating agency. Any downgrade in our credit ratings could increase borrowing costs and adversely affect our business, results of operations, financial condition and cash flows.

Our borrowing costs and our access to the debt capital markets depends significantly on the credit ratings of India. India's sovereign rating is Baa3 with a “Stable” outlook (Moody's), BBB- with a “stable” outlook (S&P), BBB+ with a “stable” outlook (Japan Credit Rating Agency) and BBB- with a “Stable” outlook (Fitch). Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance.

9. *Non-availability of funding from the Life Insurance Corporation of India (“LIC”) matching the requirement of funds by Indian Railways for railway projects under EBR-IF may affect the asset-liability position of our Company.*

We have in the past raised funds from the LIC. The MoR had entered into a MoU dated March 11, 2015 with LIC to avail Rs.15,00,000 million over a period of five years, commencing from Fiscal 2016. LIC cumulatively has disbursed

a sum of Rs.2,05,000 million. Based on this MoU, we entered into a MoU with the MoR dated May 23, 2017 to be the intermediary for the funding from LIC. The MoU provides for a tenor of 30 years for each installment, with capitalization of interest accruing in the first five years and repayment of principal in equal semi-annual installments in 20 years commencing after a moratorium of 10 years. In terms of the MoU executed between our Company and the MoR, the repayment terms by the MoR are to be kept similar to the structure of funding from LIC. Subsequently, the MoU between MoR and LIC expired in Fiscal 2020. This arrangement with the LIC has subsequently ended in Fiscal 2020.

Going forward we may not be able to avail funding from the LIC matching the requirements of the Indian Railways and accordingly, we will be required to arrange funds from other sources to bridge the shortfall which has shorter tenor as compared to the tenor of funding that we have availed from the LIC in the past. Accordingly, unavailability of funding from the LIC matching the requirement of funds by Indian Railways for railway projects under EBR-IF may affect our asset-liability position. Further, we have requested the MoR to maintain the tenor of lease between our Company and the MoR corresponding to the tenor of borrowing for railway projects. In the event of a mismatch between the tenor of the loans to the MoR and that of the bonds issued/ loans raised by our Company for financing railway projects, our results of operations and financial condition may be adversely affected.

10. We are currently exempt from provisioning requirements in respect of deferred tax asset or deferred tax liability, however, there can be no assurance that the MCA will not withdraw the exemption in future.

Pursuant to circular S.O. 529 (E) dated February 5, 2018 and subsequent amendment through circular dated April 2, 2018 (collectively, the “DTL Circulars”) issued by the MCA, a government company which is engaged in the business of infrastructure finance leasing with not less than 75% of its total revenue being generated from business with government companies or other entities owned or controlled by the GoI are exempt from the requirements of provisioning in respect of Ind AS 22 or Ind AS 12 relating to deferred tax asset or deferred tax liability, respectively with effect from April 1, 2017. Subsequently, the MCA vide their communication no. Eoffice F.No.17/32/2017-CL-V dated March 20, 2020, advised our Company to apply paragraph 11 of Ind AS 01, first time adoption of Ind AS read with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors. Accordingly, our Company has during Fiscal 2020 reversed the deferred tax liability of Rs.64,431.40 million by crediting the retained earnings as at April 1, 2017, being the date of transition to Ind AS.

Our profitability may be adversely affected if any of these DTL circulars are withdrawn. Further, there can be no assurance that the MCA will not withdraw the existing exemptions, which may adversely affect our business, net worth, financial condition and results of operations.

11. We are involved in certain legal proceedings, any adverse developments related to which could materially and adversely affect our business, reputation and cashflows.

There are outstanding legal proceedings involving our Company which are incidental to our business and operations. These proceedings are pending at different levels of adjudication before various courts, tribunals and appellate tribunals. We cannot assure you that these proceedings will be decided in our favour or that no further liability will arise out of these proceedings. A summary of the outstanding criminal proceedings, tax proceedings, actions taken by statutory and regulatory authorities and other ‘material’ litigation as per the Materiality Policy, if any, involving our Company is set out below:

The amounts claimed in the abovementioned proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally. If any new developments arise, such as a change in Indian law or rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements that could increase our expenses and current liabilities. Further, such legal proceedings could divert management time and attention and consume financial resources.

12. Our Company is not in compliance with certain provisions of the SEBI Listing Regulations.

As of the date of this PPM, the composition of our Board of Directors is not in compliance with the requirements of the SEBI Listing Regulations. The Board of Directors are:

Sr. No.	Name, Designation and DIN
1.	<p>#Ms. Shelly Verma Designation: Chairman & Managing Director (Addl. Charge), Director Finance and Chief Financial Officer</p> <p><i># She has been entrusted with the additional charge of the post of CMD/IRFC w.e.f. 15/10/2022 in addition to her own, for a period of three months or until further orders, whichever is earlier as per Ministry of Railways, Government of India's order No. 2018/E(O)II/40/19 dated 15th October 2022. Further, as per Ministry of Railways, Government of India's order No. 2018/E(O)II/40/19 dated 16th January, 2023, Ministry has decided that, pending approval of the Competent Authority, she will continue to hold the additional charge of the post of CMD/IRFC, in addition to her own until further orders.</i></p>
2.	<p>Shri Baldeo Purushartha Designation: Part time Government Director</p>
3.	<p>Mr. Bhaskar Choradia Designation: Part-time Government Director</p>
4.	<p>Shri Vallabhbhai Maneklal Patel Designation: Non-Official Independent Director</p>
5.	<p>Smt. Sheela Pandit Designation: Non-Official Independent Director</p>

Mr. Amitabh Banerjee (DIN: 03315975) - He may be divested of the charge of the post of CMD / IRFC w.e.f. 15/10/2022 until further orders, as per Ministry of Railways, Government of India's order No. 2018/E(O)II/40/19 dated 15th October 2022.

Accordingly, the composition of the Board of Directors is not in compliance with the applicable provisions of the SEBI Listing Regulations. Accordingly, in order to be compliant with the applicable corporate governance requirements of the SEBI Listing Regulations, our Company is required to appoint additional independent directors. In this regard, the Company has informed the MoR of the statutory requirement of appointing additional independent directors on its Board of Directors, to ensure compliance with applicable corporate governance norms. Being a CPSE and under the administrative control of the MoR, we are required to follow the procedures and guidelines specified by the MoR from time to time, including in relation to corporate governance. Further, as specifically provided under Article 198 of the Articles of Association of the Company, directors of the Company are appointed by the President of India, acting through the MoR. To that extent, the appointment and selection of the Board of Directors of our Company, is beyond our control.

Pursuant to the exemption letter dated November 27, 2020, our Company was exempted from compliance with the above-mentioned requirements of the SEBI ICDR Regulations and the SEBI Listing Regulations in relation to appointment of Independent Directors, till listing of the Equity Shares. Now our Company will be required to comply with inter alia the above-mentioned requirements of the SEBI Listing Regulations. Further, we may be subject to penalties for non-compliance with any of the aforementioned provisions of the SEBI Listing Regulations and SEBI ICDR Regulations which could have an adverse effect on our reputation, business operations, financial conditions and results of our operations.

13. Our risk management measures may not be fully effective in mitigating our risks in all market environments or against all types of risks, which may adversely affect our business and financial performance.

We are exposed to a variety of risks, including liquidity risk, interest rate risk, credit risk, operational risk and legal risk. The effectiveness of our risk management is limited by the quality and timeliness of available data. Our hedging strategies and other risk management techniques may not be fully effective in mitigating our risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risks are based upon observed historical market behaviour. As a result, these methods may not predict future

risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets or other matters. This information may not in all cases be accurate, complete, current, or properly evaluated. Management of operational, legal or regulatory risk requires, among other things, policies and procedures to properly record and verify a number of transactions and events.

Although we have established policies and procedures, they may not be fully effective to accomplish our objectives. As the company seeks to expand the scope of its operations, it also faces the risk of failing to develop risk management policies and procedures that are designed for such operations in a timely manner or at all. Our future success will also depend, in part, on our ability to respond to evolving NBFC sector standards and practices on a cost-effective and timely basis. The development and implementation of standards and practices entails significant technical and business risks. There can be no assurance that we will successfully adapt to evolving market standards and practices. Any inability to develop and implement effective risk management policies may adversely affect our business, prospects, financial condition and results of operations.

14. Our ability to raise foreign currency borrowings may be constrained by Indian law.

One of the sources of our funds is external commercial borrowings. As of March 31, 2022, we had Rs.6,64,163.01 million in external commercial borrowings denominated in U.S. Dollars and Japanese Yen. Further, our ability to raise foreign currency borrowings is limited to USD 1.5 billion or equivalent upto 31st December 2022 and USD 750 million or equivalent per financial year after 31st December 2022 under the automatic route without the prior approval of the Reserve Bank of India, subject to compliance with parameters and other terms and conditions set out in the external commercial borrowings policy/ framework issued by the Reserve Bank of India. As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required regulatory approvals for borrowings in foreign currencies will be granted to us without onerous conditions, if at all. Limitations on raising foreign debt may have an adverse effect on our business, financial condition and results of operations.

We are subject to the Foreign Exchange Management (Borrowing and Lending) Regulations, 2018 and the Master Direction – External Commercial Borrowings, Trade Credits and Structured Obligations RBI/FED/2018-19/67 FED Master Direction No. 5/2018-19 dated 26 March 2019 (“ECB Guidelines”), including applicable regulations, guidelines and circulars issued by the RBI, which governs all forms of borrowing from non-resident entities other than by the issue of non-convertible debentures in domestic market, affecting our ability to freely raise foreign currency borrowings. For instance, under the ECB Guidelines, we are restricted to borrowing from certain ‘recognised lenders’ that are defined therein. The borrowings that we avail are subject to restrictions such as prescriptions on permissible end uses, minimum maturity period specifications and hedging requirements. We are also subject to caps on the maximum amount we may raise, beyond which we shall be required to obtain the approval of the RBI for any additional borrowings. Such provisions may affect our ability to borrow effectively and on favourable terms.

15. If we are unable to manage our growth effectively, our business and financial results could be adversely affected.

Our business has grown since we began operations in 1986. Our total assets increased by 33.46% from Rs.20,64,382.90 million as of March 31, 2019 to Rs.27,55,041.30 million as of March 31, 2020 and by 38.10% to Rs.38,04,815.23 million as of 31 March 2021 and by an addition of 18% to Rs. 44,89,802.24 million as of 31 March 2022. We intend to continue to grow our business, which could place significant demands on our financial and other internal risk controls. It may also exert pressure on the adequacy of our capitalisation, making management of asset quality increasingly important.

Our ability to sustain and manage growth depends primarily upon our ability to manage key operational issues, such as our ability to raise funds on acceptable terms and at competitive rates which in turn depends on various factors, including the regulatory environment and policy initiatives in India, lack of liquidity in the market, developments in the international markets affecting the Indian economy, investors’ and/ or lenders’ perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition. If we are unable to maintain the quality of our assets, obtain adequate financing or financing on terms satisfactory to us and in a timely manner, our ability to grow or support our business and to respond to business challenges could be limited and our business prospects, financial condition and results of operations would be materially and adversely affected.

Our ability to sustain and manage growth is also affected by factors outside of our control, such as GDP growth, changes in regulatory policies, changes in demand for rolling stock by Ministry of Railways and changes in interest rates. We may not be able to successfully maintain growth rates due to unfavorable changes in any one or more of the aforementioned factors. Our inability to effectively manage any of these operational issues or react to external factors may materially and adversely affect our business, prospects, financial condition, and results of operations.

**16. Post completion of the Initial Public Offering by our Company, our cost of borrowings may go up**

Before IPO, our Company was wholly owned by the GoI which made us eligible for certain benefits, such as, inclusion of offshore issuance of bonds/ notes of USD 500 Million and above in the Morgan Stanley Capital International Emerging Markets Bond Index. Rating agencies factor our strategic importance to the MoR due the ownership by the GoI and business with only the MoR and other entities owned by the MoR which helped us obtain credit rating at par with sovereign ratings from domestic and international credit rating agencies. We believed that these factors enabled our Company to borrow at competitive rates and terms. In terms of the extant SEBI ICDR Regulations, the minimum public shareholding must be 25% within three years of listing. Following completion of the initial public offering by our Company, the cost of borrowings of our Company may be affected due to change in risk perception of the investors and rating agencies and non-inclusion of our bonds in the Morgan Stanley Capital International Emerging Market Bond Index which may affect our results of operations and financial position.

17. Our Company is subject to supervision and regulation by the RBI, as an NBFC-ND-SI and Infrastructure Finance Company and other regulatory authorities and changes in the RBI's regulations and other regulations, and the regulation governing our Company or the industry in which our Company operates could adversely affect our business.

We are registered with the Reserve Bank of India as a NBFC (Systematically Important) and are classified under the category of an "Infrastructure Finance Company" under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, we are regulated principally by the RBI and are subject to the RBI's guidelines on the regulation of the NBFC-ND-SIs, which includes, among other things, matters related to capital adequacy, exposure and other prudential norms. The RBI also regulates the credit flow by banks to NBFC-ND-SIs and provides guidelines to commercial banks with respect to their investment and credit exposure norms for lending to the NBFC-ND-SIs.

Earlier, NBFCs which were government companies in terms of the Companies Act, 2013, were exempt from the prudential norms as prescribed by the RBI for NBFCs. This exemption has since been withdrawn with effect from May 31, 2018. However, the RBI has granted exemption to our Company from asset classification, provisioning and exposure norms to the extent of its exposure to the MoR. Further, we have been granted exemption by the RBI from credit concentration norms to the extent of 100% of our owned funds for our exposure to Railway entities in which the ownership of the State/Central Government is minimum 51%. Accordingly, our Company has been adhering to the prudential norms prescribed by the RBI for NBFC-ND-SI except its exposure to sovereign, i.e. the MoR. Further, we have decided to follow the asset classification and provisioning norms as provided by the RBI for loans/ leases/ advances to entities other than Indian Railways. Further our company is subject to reporting obligations to the RBI.

The RBI's regulation of NBFC-ND-SIs may change in the future which may require us to restructure our activities, incur additional costs or could otherwise adversely affect our business and financial performance. For instance, the RBI has introduced the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016, which are applicable to an NBFC-ND-SI. In order to provide enhanced control, existing rules and regulations have been modified, new rules and regulations have been enacted and reforms have been implemented.

There can be no assurance that the RBI and/ or the GoI will not implement further regulations or policies, including legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls, or otherwise take action, that may have an adverse impact on NBFC-ND-SIs. We cannot assure you that we will continue to remain exempt from capital adequacy and other prudential norms. Any change in the rules applicable to us as an NBFC-ND-SI may adversely affect our business, financial condition and results of operations.

18. Our statutory auditors have made certain emphasis of matters in the audit reports and observations in the report on 'Other Legal and Regulatory Requirements' relating to our historical audited financial statements and their examination report on the Financial Information which may affect our future financial results.

The Statutory Auditors have made certain emphasis of matters in the audit reports for the year ended March 31, 2022. These are in relation to reconciliation and confirmation of the 'amounts payable to or receivable to MOR– Leased Assets'.

There can be no assurance that our statutory auditors will not include such emphasis of matters in the audit reports or such observations in their report on 'Other Legal and Regulatory Requirements' relating to our audited financial statements in the future, or that such emphasis of matters and observations will not affect our financial results in future fiscal periods. Investors should consider these remarks in evaluating our financial condition, results of operations and cash flows.

19. The success of our business operations is dependent on our senior management team and Key Management Personnel as well as our ability to attract, train and retain employees.

As of March 31, 2022, we had 37 permanent employees. The continued success of our business operations is attributable to our senior management team and Key Management Personnel. We believe that the experience of our senior management team has enabled us to experience consistent growth and profitability as well as maintain a robust liquidity and capital position. Our ability to sustain our growth depends upon our ability to attract and retain key personnel, developing managerial experience to address emerging business and operating challenges. Considering the small size of our management team, our ability to identify, recruit and retain our employees is critical.

20. Our business, financial condition and results of operations may be materially adversely affected by global health epidemics, including the recent COVID-19 outbreak, and the continuing effect of the same cannot be predicted.

An outbreak of a novel strain of coronavirus disease 19 (“COVID-19”), was recognised as a pandemic by the World Health Organization, on 11 March 2020. Governments and municipalities across the world instituted measures in an effort to control the spread of COVID-19, including lockdowns, quarantines, shelter-in-place orders, school closings, travel restrictions, and closure of non-essential businesses. By the end of March, the macroeconomic impacts became significant, exhibited by, among other things, a rise in unemployment and market volatility.

The rapid shift to a remote working environment creates inherent productivity, connectivity, and oversight challenges. Governmental restrictions have been inconsistent and it is not clear when a return to worksite locations or travel will be permitted or what restrictions will be in place in those environments. The extent and/ or duration of ongoing workforce restrictions and limitations could impact our ability to comply with various reporting requirements to the regulators in a timely manner, among others. In addition, the changed environment under which we are operating could have an impact on its internal controls over financial reporting as well as its ability to meet a number of its compliance requirements in a timely or quality manner.

On account of COVID-19, the operations of Indian Railways were suspended. The operations were subsequently resumed in a phased manner. The lockdown imposed by the Government of India hampered the activities of the Indian Railways, the development of rolling stock assets and led to delays in development of Project Assets. If the COVID-19 outbreak progresses in ways that continue to disrupt our operations or the operations of the Indian Railways including through lockdowns and limited operations and access to business resources, such disruption may impact the growth rate of the Indian Railways and its consequent demand for funding. Accordingly, this would also materially negatively affect our operating results for Fiscal 2021 and subsequent periods.

With the outbreak of COVID-19, international stock markets began to reflect the uncertainty associated with the slow-down in the global economy. Reduced levels of international travel experienced since the beginning of January, large declines in oil prices and the significant decline in the Dow Jones Industrial Average at the end of February and beginning of March 2020 were largely attributed to the effects of COVID-19. In addition, the widespread lockdowns implemented by various countries since March 2020 had further slowed-down the global economy and disrupted daily operations of most companies. If the spread of COVID-19 continues to limit the level of economic activity globally and in particular in India, this likely would negatively affect our operating results, cash flow and business.

Further, our ability to ensure the safety of its workforce and continuity of operations while conforming with measures implemented by the central and state governments in relation to the health and safety of our employees may result in increased costs. For instance, a number of our employees contracted COVID-19. In the event other employees or members of our management team contract(s) COVID-19, its operations may be adversely affected. Further, in the event any of our employees’ contract COVID-19, we may be required to quarantine our employees and shut down our office, as necessary. Risks arising on account of COVID-19 can also threaten the safe operation of the Issuer’s offices and impact the well-being of our employees.

The ultimate impact of such a pandemic will depend on a number of factors, many of which are outside our control. These factors include the duration, severity and scope of the pandemic, the impact of the pandemic on economic activity in India and globally, the eventual level of infections in India and the impact of any actions taken by governmental bodies or health organisations (whether mandatory or advisory) to combat the spread of the virus.

21. Our inability to maintain Liquidity Coverage Ratio (“LCR”) as prescribed in the ‘Liquidity Management Framework’ issued by the RBI for NBFCs with effect from December 1, 2020 may subject to us penalties thereby adversely affecting our financial performance and business operations.

The RBI has introduced the ‘Liquidity Management Framework’ which inter-alia mandates all the deposit accepting NBFCs irrespective of their asset size and non-deposit accepting systematically important NBFCs with asset size of ₹ 100 billion and above, to maintain a liquidity buffer in the form of LCR representing high liquid assets from December 1, 2020. In terms of RBI notification titled “Liquidity Risk Management Framework for Non-Banking Financial

Companies and Core Investment Companies” dated November 4, 2019, such NBFCs are initially required to maintain a minimum LCR at 50% of the net cash flows over the next 30 calendar days which will then progressively increase to 100% by December 1, 2024. At present IRFC is exempted from applicability of Liquidity Coverage Ratio norms. However, in future if this exemption is withdrawn then we will have to comply with the aforesaid requirements.

22. We may fail to obtain certain regulatory approvals in the ordinary course of our business in a timely manner or at all, or to comply with the terms and conditions of our existing regulatory approvals and licenses which may have a material adverse effect on the continuity of our business and may impede our effective operations in the future.

NBFCs in India are subject to strict regulation and supervision by the RBI. We require certain regulatory approvals, sanctions, licenses, registrations and permissions for operating and expanding our business. In particular, we require approval from RBI for our funding activities and are also required to obtain a loan registration numbers from the RBI in relation to our external commercial borrowings. We may not receive or be able to renew such approvals in the time frames anticipated by us, or at all, which could adversely affect our business. If we do not receive, renew or maintain the regulatory approvals required to operate our business it may have a material adverse effect on the continuity of our business and may impede our effective operations in the future. Further, the approvals that we have obtained stipulate certain conditions requiring our compliance. If we fail to obtain any of these approvals or licences, or renewals thereof, in a timely manner, or at all or fail to comply with the conditions our business may be adversely affected.

In addition to the numerous conditions required for the registration as a NBFC with the RBI, we are required to maintain certain statutory and regulatory approvals for our business. In the future, we will be required to obtain new approvals for any proposed operations. There can be no assurance that the relevant authorities will issue any of such approvals in the timeframe anticipated by us or at all. Failure by us to obtain the required approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

There may be future changes in the regulatory system or in the enforcement of the laws and regulations including policies or regulations or legal interpretations of existing regulations, relating to or affecting interest rates, taxation, or exchange controls, that could have an adverse effect on non-deposit taking NBFCs. In addition, we are required to make various filings with the RBI, the ROC and other relevant authorities pursuant to the provisions of RBI regulations, the Companies Act and other Regulations. If we fail to comply with these requirements, or a regulator claims we have not complied with such requirements, we may be subject to penalties. Moreover, these laws and regulations can be amended, supplemented or changed at any time such that we may be required to restructure our activities and incur additional expenses in complying with such laws and regulations, which could materially and adversely affect our business. In addition, any historical or future failure to comply with the terms and conditions of our existing regulatory or statutory approvals may cause us to lose or become unable to renew such approvals.

23. Post IPO the GoI will continue to retain majority shareholding in the company, which will allow it to exercise significant influence over the company. Further, the GoI could require the company to take actions aimed at serving the public interest, which may not necessarily be profitable or financially feasible.

Post IPO, the GoI controls 86.36% of our paid-up Equity Share capital. Accordingly, the GoI will continue to exercise significant influence over our business policies and affairs and all matters requiring shareholder approval, including the composition of our Board, the adoption of amendments to our Articles of Association, the approval of mergers, strategic acquisitions and joint ventures and the sale of substantially all of our assets, and the policies for dividends, lending, investments and capital expenditures. Further, the President of India may from time-to-time issue directions as he may consider necessary in regard to the exercise and performance of the functions of our Company in matters involving national security or substantial public interest.

As a result of controlling ownership by the GoI, the company is required to adhere to certain restrictions and may not be able to diversify its borrowing portfolio by issuing different instruments without the prior approval of the GoI. There can be no assurance that the GoI will grant us such approvals in the future. The GoI will retain control over the decisions requiring adoption by the company’s shareholders acting by a simple majority. This concentration of ownership may also delay, defer or even prevent a change in its control and may make some transactions more difficult or impossible without the support of the GoI. The interests of the GoI with respect to such matters and the factors that it will take into account when exercising its voting rights may not be consistent with and may conflict with the interests of its other shareholders, including the investors who purchased the Equity Shares in initial public offering.

Pursuant to the company’s Articles of Association, the GoI may, from time to time, issue such directives or instructions as may be considered necessary in regard to the conduct of its business and affairs and may vary and annul any such directive or instruction. The GoI will have the power to elect and remove the Directors and therefore determine the outcome of most proposals for corporate action requiring approval of the Board or the shareholders, including with respect to the payment of dividends. Under the company’s Articles of Association, the GoI may issue directives with respect to the conduct of its business or its affairs or change in control or impose other restrictions.

In addition, the GoI influences the company's operations through various departments and policies. The company's business is dependent, directly and indirectly, on the policies and support of the GoI, in many significant ways, including with respect to the cost of its capital, the financial strength of the MoR, the management and growth of its business and its overall profitability. Additionally, the MoR is also significantly affected by the policies and support of the GoI. In particular, given the importance of the Indian Railways to the Indian economy, the GoI could require the company to take actions aimed at serving the public interest, which may not necessarily be profitable or financially feasible. Any such actions or directives may adversely impact the company's business, financial condition and results of operation.

24. Our indebtedness and the conditions and restrictions imposed by our financing arrangements could restrict our ability to obtain additional financing, raise capital, conduct our business and operations in the manner we desire.

Incurring indebtedness is a core requirement of the nature of our business, and a large outstanding borrowings portfolio could have significant implications on our business and results of operations. We will continue to incur additional indebtedness in the future. As of March 31, 2022, our total borrowings were Rs.3,884,166.18 million. Our indebtedness could have several important consequences, including but not limited to the following:

- a portion of our cash flows may be used towards servicing of our existing debt, which will reduce the availability of our cash flows to fund working capital and other general corporate requirements;
- our ability to obtain additional financing in the future at reasonable terms may be restricted;
- fluctuations in market interest rates may affect the cost of our borrowings, as a portion of our indebtedness is at variable interest rates; and
- there could be a material adverse effect on our business, prospects, results of operations and financial condition if we are unable to service our indebtedness or otherwise comply with financial and other covenants specified in the financing agreements.

Some of the financing arrangements entered into by us include restrictive conditions and covenants that require us to obtain lenders consents and/ or intimate the respective lenders in advance, prior to carrying out certain activities and entering into certain transactions. For instance, we are required to obtain consent from our lenders in an instance where (i) shareholding of the GoI in our Company falls below 51%; (ii) our Company effectuates a change in its capital structure; and (iii) our Company amends its charter documents. In the event that such consents or waivers are not granted to us in a timely manner or at all, and if we do not repay any such loans from lenders from which we have been unable to obtain consents by such time, we would be in breach of the relevant financing covenants.

A failure to observe the covenants under our financing arrangements or failure to obtain necessary consents may lead to the termination of our credit facilities, acceleration of amounts due under such facilities, trigger cross-default provisions and the enforcement of security provided. There can be no assurance that we will be able to persuade our lenders to grant extensions or refrain from exercising such rights which may adversely affect our operations and cash flows. As a result, we may have to dedicate a substantial portion of our cash flows from our operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. Additionally, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing or generate sufficient cash to fund our liquidity requirements. Further, as a result, the MoR may have to infuse equity or additional capital.

In addition, we also have unsecured loans which may be recalled at any time at the option of such lenders. Certain of our secured loans may also permit the lenders to recall the loan on demand. Such recalls on borrowed amounts may be contingent upon happening of an event including events beyond our control and there can be no assurance that we will be able to persuade our lenders to give us extensions or to refrain from exercising such recalls which may adversely affect our operations and cash flows.

In addition, we may need to refinance all or a portion of our debt on or before maturity. We cannot assure you that we will be able to refinance any of our debt on commercially reasonable terms or at all. Occurrence of any of the above contingencies with respect to our indebtedness could materially and adversely affect our business prospects, financial condition and results of operations.

25. The company's loan agreements in respect of certain offshore borrowings contain 'change of control' provisions that trigger mandatory prepayment in the event the shareholding of the GoI in the Company falls below 51%.

The company meets a portion of its annual borrowing target mandated by the MoR through mobilization of funds from offshore markets. The senior unsecured debt facility agreements and Euro Medium Term Note programme documents entered into by the Company contain 'change of control' clauses. The clauses state that in the event the holding of the GoI in the Company falls below 51%, the Company may be required to redeem the debt prior to maturity as a result of

such change in control.

In the event such clauses are triggered, the company may be exposed to refinancing and liquidity risks. Besides, the company has entered into derivative transactions to hedge foreign currency exchange risk and interest rate risk associated with such borrowings which may be required to be wound-up subjecting it to incur additional cost towards unwinding charges that may affect its results of operations and financial position if the company is unable to build in such costs as part of the weighted average cost of incremental borrowing which are included in the lease rentals payable by the MoR.

26. *Fluctuations in the value of the Indian Rupee against other foreign currencies may have a material adverse effect on our cost of borrowings.*

Changes in currency exchange rates influence our results of operations. A significant portion of our borrowings are denominated in currencies other than Indian Rupees, most significantly the U.S. Dollar and Japanese Yen. Significant fluctuations in currency exchange rates between the Indian Rupee and these currencies and inter-se such currencies may increase the cost of our borrowings. Although we selectively enter into hedging transactions to minimize our currency exchange risks and build in such costs in the weighted average cost of incremental borrowing which are included in the lease rentals payable by the MoR, there can be no assurance that such measures will enable us to avoid the effect of any adverse fluctuations in the value of the Indian rupee against the U.S. dollar, Japanese Yen or other relevant foreign currencies. In the event we are unable to build such costs in the weighted average cost of incremental borrowing to the MoR, our financial condition and results of operations may be adversely affected.

27. *No debenture redemption reserve will be created for the Bonds issued under this issue since as per Companies Act 2013 (Share Capital & Debentures) Rules For NBFCs registered with the RBI under Section 45-IA of the RBI (Amendment) Act, 1997, no DRR is required in the case of privately placed debenture.*

According to the Companies (Share Capital and Debentures) Rules, 2014 as amended, for NBFCs registered with the RBI under Section 45-IA of the RBI (Amendment) Act, 1997, no DRR is required in case of privately placed debentures. Therefore, creation of DRR is not envisaged against the Bonds being issued under the terms of this Private Placement Memorandum.

28. *As an NBFC, we may be subject to periodic inspections by the RBI. Non-compliance with observations made by RBI during these inspections could expose us to penalties and restrictions.*

We are subject to periodic inspections by the RBI to verify the correctness or completeness of any statement, information, or particulars furnished to the RBI for the purpose of obtaining any information or particulars which we have failed to furnish on being called upon to do so. In past inspection reports, RBI has, among other things, identified deficiencies in our systems and operations such as the information technology systems being less than adequate for the operations of our company, the company not framed a policy on the fit and proper criteria, CRO is required to develop a risk mitigation framework and risk register, the company did not have any comprehensive Risk Management Policy. we are in the process of resolving all these deficiencies to the satisfaction of the RBI. While, as on the date of this private placement memorandum, the RBI has not made any major observations against us; there can be no assurance that the RBI will not make observations in the future. Imposition of any penalty or adverse findings by the RBI during the ongoing or any future inspections may have an adverse impact on our business prospects, financial condition, and results of operations.

29. *We have experienced negative cash flows in relation to our operating activities and investment activities in recent years/ periods. If we do not generate sufficient cash flows from our operations or experience negative cash flows in the future, our results of operations, liquidity and ability to service our indebtedness and fund our operations would be adversely affected.*

The following table sets forth certain information relating to our cash flows for the periods indicated. We may, in future, experience negative operating cash flows.

	Fiscal

Net cash flow from investment activities	(47.19)	4.23	14.70	13.10
Net cash flow from financing activities	642,663.02	902,020.35	626,968.10	417,494.50
Net cash flow/ (used) during the year	(1506.99)	2958.11	(23.30)	25.80

Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially affect our ability to operate our business and implement our growth plans.

Further, we have substantial debt service obligations and contractual commitments and our lease income, available cash and borrowings may not be adequate to meet our future liquidity needs. We cannot assure you that our businesses will generate sufficient cash flow from operations such that our anticipated revenue growth will be realized or that future borrowings will be available to us under credit facilities in amounts sufficient to enable us to repay our existing indebtedness or fund our other liquidity needs. If we are unable to service our existing debt, our ability to raise debt in the future will be adversely affected which will have a significant adverse effect on our results of operations and financial condition.

30. We have decided to exercise the option under section 115 BAA of the Income Tax Act, 1961 and have not made any provision for tax for the current Fiscal while foregoing allowances such as unutilised and unexpired MAT credits of the earlier years exposing us to higher tax provisions if the provisions of section 115BAA of the Income Tax Act, 1961 are amended.

We have decided to exercise the option permitted under section 115 BAA of the Income Tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated September 20, 2019. In terms of the aforesaid notification, companies exercising the option under section 115 BAA will be subject to reduced corporate tax rate of 22% (effective tax rate 25.17% after surcharge and cess). However, certain exemptions/ deductions will have to be foregone. Since our Company's taxable income under normal assessment is nil, we would not be required to pay any tax on exercising the option to adopt section 115BAA, we would also be outside the ambit of section 115JB of the Income Tax Act, 1961. Till now, the Company was paying Minimum Alternate Tax under the provisions of section 115 JB of the Income Tax Act, 1961. In the event of Company has taxable income under normal assessment in future, we will not be able to avail the foregone MAT credit, leading to higher incidence of tax which may adversely affect the financial performance, results of operations and financial position. Any subsequent change in the extant income tax provisions may enhance our tax liability and adversely affect our financial performance and results of operations.

31. We face competition from financial and other institutions in raising funds from the market and may not be able to raise funds on terms beneficial to us.

We face competition from financial and other institutions aiming to raise funds from the market. The market for raising funds is competitive and our ability to obtain funds on acceptable terms, or at all, will depend on various factors including our ability to maintain our credit ratings. In addition, since we are a non-deposit accepting NBFC, we may have restricted access to funds in comparison to banks and deposit taking NBFCs. Our primary competitors are public sector undertakings, public sector banks, financial institutions and other NBFCs. In the event that the terms and conditions of the debt instruments offered by such institutions are more attractive than those offered by us, we may not be able to raise debt from the market to the extent and on terms and conditions beneficial to us. If we are unable to raise such debt, it would lead to an increase in our cost of borrowings and thus, potentially affect our financial condition and results of operations.

32. We have in this PPM included certain non-GAAP financial measures and certain other selected statistical information related to our operations and financial performance. These non-GAAP measures and statistical information may vary from any standard methodology that is applicable across the financial services industry, and therefore may not be comparable with financial or statistical information of similar nomenclature computed and presented by other financial services companies.

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance have been included in this section and elsewhere in this PPM. We compute and disclose such non-GAAP financial measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance. We have also included in this PPM, financial information, including, AUM, net gearing ratio and Cost of Borrowings that may be different from those followed by other financial services companies. These non-GAAP financial measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other NBFCs and financial services companies.

33. We have certain contingent liabilities and commitments, and any crystallization of our contingent liabilities and commitments may adversely affect our financial condition.

Our Financial Statements disclosed the following contingent liabilities as per Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets:

- As of March 31, 2022, claims against our Company not acknowledged as debts (Claims by bondholders in the consumer/ civil courts) amounted to Rs.4.20 million.
- Claims against our Company not acknowledge as debt – relating to service matter pending in the Supreme Court - amount not ascertainable.
- The procurement/ acquisition of assets leased out by our Company to the Indian Railways is done by MoR. As per the lease agreements entered into between our Company and the MOR, the sales tax/ value added tax liability, if any, on procurement/ acquisition and leasing is recoverable from the MOR.
- Director-General of GST Intelligence (DGGI), Chennai Zonal unit has served a show cause notice dated 16-4-2019 on the company alleging contravention of the provision of sec 67,68 and 70 of the Finance Act, 1994 by the company and as to why service tax of Rs26,537.65 million along with interest and penalty be not demanded from the company. The company has submitted reply against the Show Cause notice stating that there is no contravention of the provision of any of the above-stated section of the Finance Act, 1994. Against the reply given by the company, vide letter dt 21-10-20, Commissioner, CGST, Delhi East, seeking comments given by the DGGI, Chennai Zonal unit and the company filed the counter comments to the department and the company is not liable to pay the tax. However, if any liability arises that would be recoverable from the Ministry of Railways, Government of India.
- The disputed demand of tax including interest thereon for the AY 2015-16 was Rs. 9.48 million. Against the said demand, the Company has filed a rectification application u/s 154. Based on the decisions of the Appellate Authority in similar matters and interpretation of relevant provisions, the Company is confident that the demands will be either deleted or substantially reduced, and accordingly, no provision is considered necessary. However, the said demand of Rs.9.48 million has been adjusted by the department, out of the refund to IRFC for the AY 2016-17.
- The income tax assessment of the Company has been completed up to the AY 2019-20. During the year, an intimation u/s 143(1) for FY 2018-19 was received from the CPC. In the said intimation, TDS credit has been short granted by Rs.1502.46 million despite it appearing in Form 26AS. Further, the book profit has been increased by Rs.1,462.42 million without any reason and a demand of additional tax and interest thereon has been raised. The demand of Rs.2,043.26 million has been adjusted against the refund claimed for AY 2020-21. Against the said demand issued by the CPC u/s 143 (1), an appeal was filed at CIT (A) on 28 January 2022 for consideration of TDS credit and removal of additional demand, and also rectification application u/s 154 was filed on 1 February 2022 for consideration of TDS credit. Pending disposal of the appeal, management is of the view that no provision is required.

In the event that any of these contingent liabilities materialize, the Issuer's business prospects, financial condition and results of operations may be adversely affected.

34. We may not be able to adequately protect our intellectual property rights.

Our ability to compete effectively depends in part upon protection of our intellectual property rights. Currently, we have registered our logo “”, and slogans, “Bhavishya Path Par” and “Future on Track” slogans under class 36 of the Trade Marks Act. Even though we has obtained registration for these trademarks, we may not always be successful in safeguarding the same from infringement or passing off. Additionally, there can be no assurance that we will be able to effectively recover damages for any infringement of our trademarks through legal proceedings. Further, there can be no assurance that we will be able to renew our existing trademark registrations after expiry. To the extent we are unable to effectively protect our intellectual property, our business and goodwill may be adversely affected.

35. Our financial performance may be affected in the event of any delay or default by the MoR relating to the payment of lease rentals and / or other payments that are due to our Company under the terms of the Standard Lease Agreement.

Under the terms of the Standard Lease Agreement, our Company is entitled to receive lease rentals (including the value of the Rolling Stock Assets/Project Assets leased by us to the MoR in the relevant fiscal year) and/ or certain other payments due to our Company as specified under the Standard Lease Agreement. Under the current provisioning norms as specified by RBI, and pursuant to the exemption granted by RBI by way of its letter dated December 21, 2018, our Company is exempt from the provisioning norms to the extent of our direct exposure to the sovereign. Pursuant to the Standard Lease Agreement, the MoR currently pays the semiannual lease rents in advance. The Standard Lease Agreement does not include any provision where our Company can claim any additional amount from the MoR in the event of a delay by the MoR towards its payment obligations. Our business, financial performance and cash flows may be adversely affected in the event of any delay or default by the MoR relating to the payment of lease rentals and/ or other payments under the terms of the Standard Lease Agreement.

- 36. *Liabilities arising due to interpretational differences of provisions of GST law on implementation and execution of contracts for construction of railway projects directly between us and railway contractors would devolve on us. In case we are unable to recover such liabilities from the MoR our business operations and financial condition may be adversely affected.***

Our Company has implemented various provisions of the Central Goods and Services Tax Act, 2017, State Goods and Services Tax Act, 2017 and Integrated Goods and Services Tax Act, 2017. Our company's interpretation of applicable provisions may be different from the interpretation of Revenue Department / GST Department of the Government which may result in increase in tax liabilities and interest and penalties thereon. As per the terms of the Standard Lease Agreement, indirect taxes, duties and cess are recoverable from them. Furthermore, for construction of railway projects funded by us, up till now, the Ministry of Railways was our agent for appointment of contractors, overseeing the construction and progress of projects, payment to contractors and other related activities till the completion and leasing of projects to the Ministry of Railways. We were the undisclosed principal. The construction contracts for projects funded by the Issuer were executed between the Ministry of Railways and the railway contractors. However, with effect from 1 May 2020, our company is the disclosed principal and the Ministry of Railways will act as the agent for all construction contracts for railway projects funded by it. The new contracts would be executed between our Company and railway contractors. The contracts for the existing projects funded by us have been novated in the name of our Company. Our company has also obtained GST registration in certain states where it has funded such projects and are under implementation. On account of being the principal under such contracts, any civil and criminal liability arising out of disputes with contractors would devolve directly on us. Our company would also be liable for interest and penalties, if any, due to non-compliance of applicable GST and income tax laws on payment to railway contractors by the Ministry of Railways out of funds transferred by our company to them.

- 37. *We have entered into certain transactions with related parties in the past and any such transactions or any future related party transactions may potentially involve conflicts of interest, which may adversely affect our business, prospects, financial condition, and results of operation.***

We have entered into certain transactions with related parties, including our Promoter and our Directors, and may continue to do so in future. For the Fiscal 2022, 2021 and 2020, the total amount of such related party transactions was Rs. 44,37,512.21 million, 38,04,873.30 million and Rs.28,64,950.60 million respectively. While we believe that all such transactions are in compliance with applicable laws and are on arms-length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties, or that we will be able to maintain existing terms in cases where the terms are more favourable than if the transaction had been conducted on arm's length basis. It is likely that we will enter into other related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our business prospects, financial condition and results of operations, including because of potential conflicts of interest or otherwise.

- 38. *We have not registered the title documents of office premises and accordingly the title to our office premises may be imperfect.***

We have entered into agreements of sale dated April 11, 2002 and November 21, 2002 in respect of office premises located at NBCC place. As per the terms of the sale agreement we have possession of said office premises. However, execution of sale deed is pending due to necessary permission of Government required to NBCC to execute the sale deed.

- 39. *Insurance obtained by us may not adequately protect us against all losses and could adversely affect our business prospects, financial condition and results of operations.***

Our insurance policies may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. There can, however, be no assurance that the terms of our insurance policies will be adequate to cover any loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that our company will not disclaim coverage as to any future claim. A successful assertion of one or more large claims against our company that exceeds our company's available insurance coverage or changes in our company's insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business prospects, financial condition and results of operations.

- 40. *We utilize the services of certain third parties for our operations. Any deficiency or interruption in their services could adversely affect our business and reputation.***

We engage third party service providers from time to time for services including internal auditing, accounting functions, housekeeping, security and secretarial services. Our ability to control the manner in which services are provided by third party service providers is limited and we may be held liable on account of any deficiency of services on the part

of such service providers. We cannot assure you that we will be successful in continuing to receive uninterrupted and quality services from our third-party service providers. Any disruption or inefficiency in the services provided by our third-party service providers could affect our business and reputation.

41. *Our ability to pay dividends in the future will depend upon future earnings, guidelines issued by the DPE, financial condition, cash flows, working capital requirements and capital expenditures.*

As per the CPSE Capital Restructuring Guidelines, all central public sector enterprises are required to pay a minimum annual dividend of 30.00% of profit after tax or 5.00% of the net-worth, whichever is higher, subject to the maximum dividend permitted under the legal provisions and the conditions mentioned in the aforesaid guidelines. However, an exemption from paying dividends may be granted by the DIPAM in accordance with the CPSE Capital Restructuring Guidelines, upon application to its Administrative Department to those CPSEs fulfilling certain criteria including having a high financial gearing (leverage ratio). Accordingly, whenever required our Company writes to the MoR for seeking exemption from the CPSE Capital Restructuring Guidelines and requesting the MoR to refer this exemption to DIPAM. Similar representations have also been made by our Company to DIPAM.

The amount of future dividend payments, if any, will depend upon a number of factors, including but not limited to our future earnings, guidelines issued by the DPE, financial condition, financial gearing, cash flows, working capital requirements, contractual obligations, applicable Indian legal restrictions and capital expenditures. In addition, our ability to pay dividends may be impacted by a number of factors, including results of operations, financial conditions, contractual restrictions and restrictive covenants under the loan or financing agreements our Company may enter into to finance our fund requirements for our business activities. There can be no assurance that we will be able to pay dividends in the future.

42. *System failures or inadequacy and security breaches in computer systems may adversely affect our business.*

In the course of our business operations, we collect, process, store, use and otherwise have access to a large volume of information. Our computer networks and IT infrastructure may be vulnerable to computer hackers, computer viruses, worms, malicious applications and other security problems resulting from unauthorized access to, or improper use of, such networks and IT infrastructure by our employees, third-party service providers or even independent third parties. In the past, we experienced an instance of a cyber security incident in relation to our website that required us to temporarily take down our website. Although our security systems have anti-virus software, such malicious attacks or malware related disruptions may jeopardize the security of information stored in and transmitted through our IT infrastructure and computer systems. We may therefore be required to incur significant expenses to protect against the threat of such security breaches and/ or to alleviate problems caused by such breaches. Unauthorized access and malware sabotage techniques and systems change frequently and generally are not recognized until launched against a target. We may be unable to anticipate these techniques or implement adequate preventative measures. Even if we anticipate these cyber security incidents, we may not be able to prevent or counteract such attacks or control the impact of such attacks in a timely manner or at all.

Any security breach, data theft, unauthorized access, unauthorized usage, virus or similar breach or disruption could result in loss or disclosure of confidential information, damage to our reputation, litigation, regulatory investigation or other liabilities. Further, we could be adversely affected if additional legislation or amendments to existing regulations are introduced to require changes in our business practices or if such legislation or regulations are interpreted or implemented in ways that adversely affect our business, financial condition and results of operations.

43. *Some of the information disclosed in this PPM is based on information from industry sources and publications which have not been independently verified by us.*

Some of the information disclosed in this PPM is based on information from the Ministry of Railways and certain other industry publications and sources, which have not been verified by us independently. Industry sources and publications generally state that the information contained therein has been obtained from sources considered to be reliable, but their accuracy, adequacy or completeness are not guaranteed and their reliability cannot be assured. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Accordingly, investors should not place undue reliance on, or base their investment decision on this information.

44. *We may not be able to detect money-laundering and other illegal or improper activities fully or on a timely basis, which could expose us to additional liability and harm our business or reputation.*

We are required to comply with applicable anti-money-laundering and anti-terrorism laws and other regulations in India. Although we believe that we have adequate internal policies, processes and controls in place to prevent and detect any anti-money laundering activity, there can be no assurance that we will be able to fully control instances of any potential

or attempted violation by other parties and may accordingly be subject to regulatory actions including imposition of fines and other penalties.

- 45. *We rely on borrowings from institutional investors and such borrowings are subject to exposure norms prescribed by regulatory authorities and the trading in our non-convertible debentures and bonds may be infrequent, limited or sporadic, which may affect our ability to raise debt financing in future.***

We rely on borrowings from institutional investors through issuance of bonds on a private placement basis. The fact that such institutions are subject to single party, group and sectoral exposure limits imposed by the regulatory authorities, our ability to raise funds from these institutions may be limited in future. In addition, our bonds and non-convertible debentures are listed on the debt segment of the BSE and NSE. Trading in our debt securities has been limited and we cannot assure you that the debt securities will be frequently traded on the BSE or NSE or that there would be any market for our debt securities. Further, we cannot predict if and to what extent a secondary market may develop for the debt securities or at what price such debt securities will trade in the secondary market or whether such market will be liquid or illiquid.

EXTERNAL RISK FACTORS

Risks Relating to India and Other External Risk Factors

- 46. *Significant differences exist between Ind AS and other accounting principles, such as US GAAP and IFRS, which may be material to investors' assessments of our Company's financial condition.***

Our financial statements are prepared and presented in conformity with Ind AS. Ind AS differs in certain significant respects from U.S. GAAP and other accounting principles with which prospective investors may be familiar in other countries. If our financial statements were to be prepared in accordance with such other accounting principles or U.S. GAAP, our results of operations, cash flows and financial position may be substantially different. Prospective investors should review the accounting policies applied in the preparation of our financial statements, and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar.

- 47. *Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.***

Our results of operations and financial condition depend significantly on worldwide economic conditions and the health of the Indian economy. Various factors may lead to a slowdown in the Indian or world economy which in turn may adversely impact our business, prospects, financial performance and operations.

We mainly derive revenue from our operations in India and the performance and growth of our business is significantly dependent on the performance of the Indian economy. There have been periods of slowdown in the economic growth of India. Demand for our products may be adversely affected by an economic downturn in domestic, regional and global economies. Economic growth in the countries is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, financial condition and cash flows. Conditions outside India, such as a slowdown or recession in the economic growth of other major countries, especially the United States, and emerging market conditions in Asia also have an impact on the growth of the Indian economy. Additionally, an increase in trade deficit could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our business. A loss of investor confidence in other emerging market economies or any worldwide financial instability may adversely affect the Indian economy, which could materially and adversely affect our business and results of operations and the market price of the Equity Shares. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues.

- 48. *Natural disasters, acts of war, political unrest, epidemics, terrorist attacks or other events which are beyond our control, may cause damage, loss or disruption to our business and have an adverse impact on our business, financial condition, results of operations and growth prospects.***

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel

and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India or countries to who we export our products could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares. A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, for example, have had confirmed cases of diseases such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19 virus. A worsening of the current outbreak of COVID-19 pandemic or future outbreaks of COVID-19 virus or a similar contagious disease could adversely affect the Indian economy and economic activity in the region. As a result, any present or future outbreak of a contagious disease could have a material adverse effect on our business.

49. Financial instability in other countries may cause increased volatility in Indian financial markets.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in global financial markets across the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cashflows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Following the United Kingdom's exit from the European Union ("Brexit"), there remains significant uncertainty around the terms of the UK's future relationship with the European Union and, more generally, as to the impact of Brexit on the general economic conditions in the United Kingdom and the European Union and any consequential impact on global financial markets. For example, Brexit could give rise to increased volatility in foreign exchange rate movements and the value of equity and debt investments.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition and results of operation. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations.

50. Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects, results of operations and, financial condition.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

The Finance Act, 2020 ("Finance Act"), has, amongst others things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax ("DDT"), will not be payable in respect of dividends declared, distributed or paid by a domestic company after 31 March 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident and likely be subject to tax deduction at source. The company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such Dividend.

In addition, we are subject to tax related inquiries and claims. We may be particularly affected by claims from tax authorities on account of income tax assessment, service tax and GST that combines taxes and levies by the central and state governments into one unified rate of interest with effect from July 1, 2017.

For instance, the Finance Act, 2019 stipulates any sale, transfer and issue of securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act, 2019 has also clarified that the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the

consideration amount. These amendments were notified on December 10, 2019 and have come into effect from July 1, 2020. As such, there is no certainty on the impact that the Finance Act, 2019 may have on our company's business and operations.

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and group structure may result in it being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specified terms of any such laws or regulations will be or whether, if at all, any laws or regulations would have an adverse effect on our business.

51. Difficulties faced by other financial institutions or the Indian financial sector generally could cause our business to suffer.

We are exposed to the risks of the Indian financial system. The financial difficulties faced by certain Indian financial institutions could materially adversely affect our business because the commercial soundness of many financial institutions may be closely related as a result of credit, trading, clearing or other relationships. Such "systemic risk", may materially adversely affect financial intermediaries, such as clearing agencies, banks, securities firms and exchanges with which we interact on a daily basis. Any such difficulties or instability of the Indian financial system in general could create an adverse market perception about Indian financial institutions and banks and materially adversely affect our business. For instance, towards the end of 2018, defaults in debt repayments by a large NBFC in India, Infrastructure Leasing & Financial Services Limited, which had a significant shareholding from government-owned institutions, led to heightened investor focus around the health of the broader NBFC sector as well as their sources of liquidity. This has led to some tightening in liquidity available to certain NBFCs and, as a result, it has become more difficult for certain NBFCs to renew loans and raise capital in recent times. If any event of similar nature or magnitude affecting the market sentiment surrounding the sector occurs again in the future, it may result in increased borrowing costs and difficulties in accessing cost-effective debt for us. Our cost of borrowings is sensitive to interest rate fluctuations which exposes us to the risk of reduction in spreads, on account of volatility in interest rates. In addition, our transactions with these financial institutions expose us to various risks in the event of default by a counterparty, which can impact us negatively during periods of market illiquidity.

52. Investors may not be able to enforce a judgment of a foreign court against us.

We are incorporated under the laws of India and all of our Directors and key management personnel reside in India. The majority of our assets, and the assets of certain of our Directors, key management personnel and other senior management, are also located in India. Where investors wish to enforce foreign judgments in India, they may face difficulties in enforcing such judgments. India exercises reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions. In order to be enforceable, a judgment obtained in a jurisdiction which India recognises as a reciprocating territory must meet certain requirements of the Civil Procedure Code, 1908 (the "CPC"). Further, the CPC only permits enforcement of monetary decrees not being in the nature of any amounts payable in respect of taxes or, other charges of a similar nature or in respect of a fine or other penalty. Judgments or decrees from jurisdictions not recognised as a reciprocating territory by India, whether or not predicated solely upon the general laws of the non-reciprocating territory, cannot be enforced or executed in India. Even if a party were to obtain a judgment in such a jurisdiction, it would be required to institute a fresh suit upon the judgment in India and would not be able to enforce such judgment by proceedings in execution. Further, the party which has obtained such judgment must institute the new proceedings within three years of obtaining the judgment. As a result, the investor may be unable to: (i) effect service of process outside of India upon us and such other persons or entities; or (ii) enforce in courts outside of India judgments obtained in such courts against us and such other persons or entities.

It cannot be assured that a court in India would award damages on the same basis as a foreign court if an action is brought in India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if it views the amount of damages awarded as excessive or inconsistent with Indian practice. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI to repatriate any amount recovered pursuant to the execution of such foreign judgment.

53. Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.

The Indian economy has had sustained periods of high inflation in the recent past which has contributed to an increase in interest rates. High fluctuation in inflation rates may make it more difficult for us to accurately estimate or control our costs. Continued high rates of inflation may increase our expenses related to salaries or wages payable to our employees or any other expenses. There can be no assurance that our revenue will increase proportionately corresponding to such inflation. Accordingly, high rates of inflation in India could have an adverse effect on our profitability and, if significant, on our financial condition.

RISKS RELATING TO THE BONDS

54. There is no guarantee that the Bonds issued pursuant to this Issue will be listed on NSE and BSE in a timely manner, or at all.

In accordance with Indian law and practice, permissions for listing and trading of the Bonds issued pursuant to this Issue will not be granted until the relevant stock exchanges as well as SEBI approve of the listing, which will be available only after an updated document is accordingly filed with the relevant authorities at the time of such listing. Approval for listing and trading will require all relevant documents authorizing the issuing of Bonds to be submitted. There could be a failure or delay in listing the Bonds on the NSE and/or BSE. If permission to deal in and for an official quotation of the Bonds is not granted by the Stock Exchanges, the Bonds will remain unlisted.

55. There has been only a limited trading in the Bonds of such nature and the same may not develop in future, therefore the price of the Bonds may be volatile.

There has been only a limited trading in bonds of such nature in the past. Although the Bonds shall be listed on NSE and BSE, there can be no assurance that a public market for these Bonds would be available on a sustained basis. The liquidity and market prices of the Bonds can be expected to vary with changes in market and economic conditions, our financial condition and prospects and other factors that generally influence market price of Bonds. Such fluctuations may significantly affect the liquidity and market price of the Bonds, which may trade at a discount to the price at which the Bonds are being issued.

Further, the price of our Bonds may fluctuate after this Issue due to a wide variety of factors, including:

- Changes in the prevailing interstate;
- Volatility in the Indian and global securities markets;
- Our operational performance, financial results and our ability to expand our business;
- Developments in India's economic liberalization and deregulation policies;
- Changes in India's laws and regulations impacting our business;
- Changes in securities analysts' recommendations or the failure to meet the expectations of securities analysts;
- The entrance of new competitors and their positions in the market; and
- Announcements by our Company of its financial results.

We cannot assure that an active trading market for our Bonds will be sustained after this Issue, or that the price at which our Bonds are initially offered will correspond to the prices at which they will trade in the market subsequent to this issue.

56. Foreign Investors, including Eligible NRIs, FIIs and Eligible QFIs subscribing to the Bonds are subject to risks in connection with (i) exchange control regulations, and, (ii) fluctuations in foreign exchange rates.

The Bonds will be denominated in Indian rupees and the payment of interest and redemption amount shall be made in Indian rupees. Various statutory and regulatory requirements and restrictions apply in connection with the Bonds held by Eligible NRIs, FIIs and Eligible QFIs ("Exchange Control Regulations"). Amounts payable to Eligible NRIs, FIIs and Eligible QFIs holding the Bonds, on redemption of the Bonds and/or the interest paid/payable in connection with such Bonds or the amount payable on enforcement of security would accordingly be subject to prevailing Exchange Control Regulations in case of applicants who have invested on repatriation basis.

Any change in the Exchange Control Regulations may adversely affect the ability of such Eligible NRIs, FIIs and Eligible QFIs to convert such amounts into other currencies, in a timely manner or at all. Further, fluctuations in the exchange rates between the Indian rupee and other currencies could adversely affect the amounts realized by Eligible NRIs, FIIs and Eligible QFIs on redemption or payment of interest on the Bonds by us. Additionally, our Bonds are quoted in Indian rupees in India and Investors may be subject to potential losses arising out of exchange rate risk on the

Indian rupee and risks associated with the conversion of Indian rupee proceeds into foreign currency. Investors are subject to currency fluctuation risk and convertibility risk since the Bonds are quoted in Indian rupees on the Indian stock exchanges on which they are listed. Returns on the Bonds will also be paid in Indian rupees. The volatility of the Indian rupee against the U.S. dollar and other currencies subjects Investors who convert funds into Indian rupees to purchase our bonds to currency fluctuation risks.

57. Investor may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the Bonds.

Our ability to pay interest accrued on the Bonds and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors, including our financial condition, profitability and the general economic conditions in India and the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the Bonds and/or the interest accrued thereon in a timely manner, or at all.

58. Changes in prevailing interest rates may affect the price of the Bonds.

All securities where a fixed rate of interest is offered, such as the Bonds, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e., when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon rate, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the trading price of the Bonds.

59. Any downgrading in our domestic and international credit rating of our Bonds may affect the trading price of our Bonds.

CRISIL Ratings Ltd. ("CRISIL") has accorded "CRISIL AAA/Stable" vide its letter Ref No. RL/INRAFC/292858/LTBP/0522/32679/108854839 dated May 4, 2022, ICRA Ltd. ("ICRA") vide its letter No. ICRA/Indian Railway Finance Corporation Ltd/10052022/1 dated May 10, 2022 has also assigned a credit rating of "[ICRA] AAA" with a Stable Outlook and Credit Analysis & Research Ltd. ("CARE") has accorded "CARE AAA" with a Stable Outlook vide its letter Ref No. CARE/DRO/RL/2022-23/1150 dated May 17, 2022 for the entire borrowing programme of Rs.665,000 million for FY 2022-23.

Further, international rating agencies like Japan Credit Rating Agency Limited has affirmed its BBB+ (Stable Outlook) rating on the long-term senior debts and the Japanese Yen bonds issued by the Company. Standard & Poor's, Moody's and Fitch have assigned BBB- (Stable Outlook), Baa3 (Stable Outlook) and BBB- (Stable Outlook) rating respectively to the foreign currency borrowings of the Company.

These ratings may be suspended, withdrawn or revised at any time. Any revision or downgrading in the credit rating may lower the trading price of the Bonds and may also affect our ability to raise further debt. For the rationale for these ratings by domestic Credit Rating Agencies, refer to the Annexure.

60. Payments made on the Bonds will be subordinate to certain tax and other liabilities as laid down by law.

The Bonds will be subordinate to certain liabilities preferred by law such as to claims of the Government on account of taxes, and certain liabilities incurred in the ordinary course of our transactions. In particular, in the event of bankruptcy, liquidation or winding-up, our assets will be available to pay obligations on the Bonds only after all of the liabilities that rank senior to these Bonds have been paid. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining, after paying the aforesaid senior ranking claims, to pay amounts due on the Bonds. Further, there is no restriction on the amount of debt securities that we may issue that may rank above the Bonds. The issue of any such debt securities may reduce the amount recoverable by Investors in the Bonds on our bankruptcy, winding-up or liquidation.

61. Legal investment considerations may restrict certain investments.

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) the Bonds are legal investments for it, (ii) the Bonds can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of bonds.

62. The Bonds are subject to the risk of change in-law.

The terms and conditions of the Bonds are based on Indian law in effect as of the date of issue of the relevant Bonds. No assurance can be given as to the impact of any possible judicial decision or change to Indian law or administrative practice after the date of issue of the relevant Bonds and any such change could materially and adversely impact the

value of any Bonds affected by it.

- 63. *No debenture redemption reserve will be created for the Bonds issued under this issue since as per Companies (Share Capital & Debentures) Rules, 2014, as amended (“Debentures Rules”), or NBFC’s registered with the RBI under section 45-1A of the RBI (Amendment) Act, 1997, no DRR is required in the case of privately placed debenture.***

According to the Companies (Share Capital and Debentures) Rules, 2014, or NBFCs registered with the RBI under Section 45-1A of the RBI (Amendment) Act, 1997 no DRR is required in Case of privately placed debentures. Therefore, creation of DRR is not envisaged against the Bonds being issued under the terms of this Private Placement Memorandum.

GENERAL RISK

- 64.** Investment in bonds involve a degree of risk and investors should not invest any funds in such securities unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of the issue including the risks involved in it. Specific attention of investors is invited to statement of risk factors contained under the chapter “Management’s perception of Risk Factors” of this private placement memorandum. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the bonds or investor’s decision to purchase such bonds .

VII. BRIEF SUMMARY OF BUSINESS/ ACTIVITIES OF ISSUER AND ITS LINE OF BUSINESS

1. OVERVIEW

The Company was incorporated on December 12, 1986 under the Companies Act as a public limited company and received its certificate for commencement of business on December 23, 1986. The GoI, Ministry of Railways, incorporated the Company as a financial arm of Indian Railways, for the purpose of raising a part of the resources necessary for meeting the developmental needs of the Indian Railways. The company is listed on NSE and BSE w.e.f. January 29, 2021. Our Promoter is the President of India, acting through the MoR which holds 86.36% of the paid-up equity share capital.

The Ministry of Corporate Affairs, through its notification dated October 8, 1993 published in the Official Gazette of India, classified the Company as a Public Financial Institution under Section 4(A) of the Companies Act (now as defined under sub-section 72 of Section 2 of the Companies Act, 2013).

The Company was registered with the RBI under Section 45-IA of RBI Act as a non-banking financial company without accepting public deposits *vide* certificate of registration dated February 16, 1998. The Company was later classified under the category “Infrastructure Finance Company” by the RBI through a fresh certificate of registration dated November 22, 2010.

The Company’s registered and corporate office is situated at Room Nos. 1316 - 1349, 3rd Floor, Hotel The Ashok, Diplomatic Enclave, 50-B, Chanakyapuri, New Delhi – 110021, India.

Due to the Company’s status as a government company, it was exempt from provisions of the RBI Act relating to the maintenance of liquid assets, the creation of reserve funds and prudential norms. However, the exemptions granted to the Govt. NBFC have since been withdrawn from May 31, 2018. Accordingly, the Company is complying with all the prudential norms applicable to NBFC-ND-SI except for its exposure to Sovereign. RBI vide its letter dated December 21, 2018 has granted exemption from Income Recognition and Asset Classification (IRAC) norms, standard asset provisioning and exposure norms to the extent of their direct exposure on the sovereign.

The primary objective of the Company is to act as a financing arm for the Indian Railways. The development of the Company’s business is dependent on the MOR’s strategy concerning the growth of the Indian Railways. (The MOR is responsible for the acquisition of rolling stock and for the improvement, expansion and maintenance of the railway infrastructure. The Company is responsible mainly for raising the finance necessary for the acquisition of rolling stock ordered by the MOR). The Company’s principal business therefore is borrowing funds from the commercial markets to finance the acquisition of new rolling stock which is then leased to the Indian Railways. For the first time during FY 2011-12, the Company was assigned the additional task of financing select capacity enhancement works of Indian Railways including doubling, electrification etc. to the tune of Rs.20,784.90 million. However, for the FY 2012-13, FY 2013-14 and FY 2014-15, no amount was mandated by MOR for funding such capacity enhancement works of Indian Railways.

For the year 2015-16, the Company was assigned the additional task of funding Railway Projects through Institutional Finance from LIC for which MoR and LIC had executed a Memorandum of Understanding (MoU) that had expired on 31st March, 2020 and could not be renewed. In terms of the MoU, LIC had committed to disburse funds to the tune of Rs.0.15 million crore over five-year period from FY 2015-16 to FY 2019-20 for funding of identified Railway Projects but LIC cumulatively has disbursed a sum of Rs.2,05,000 million. By the end of FY 2021-22, the disbursement by the Company for funding of Railway Projects has remained at Rs.1,671,524.10 million. Besides, the Company has funded National Projects to the extent of Rs.75,787.00 million. In addition to this, Company during FY 2020-21 was also given an additional mandate for funding under the head of ‘EBR-Special’ towards the developmental expenditure requirements of MoR for which company had disbursed a sum of Rs.5,16,190million.

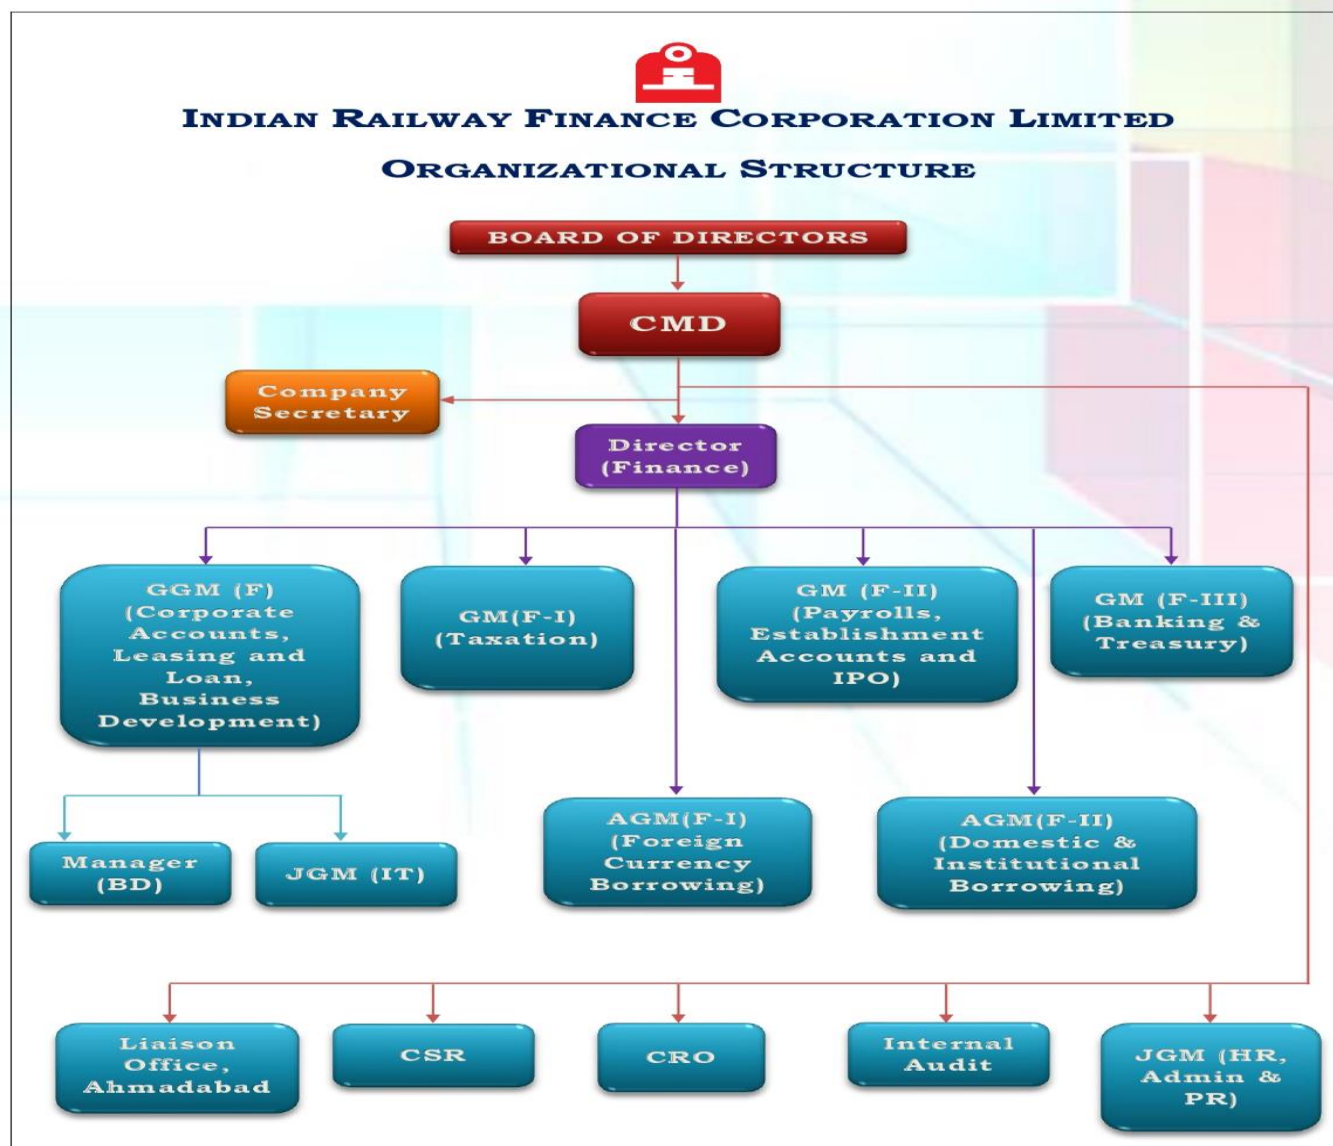

At the beginning of each Fiscal Year, the MOR notifies the Company of its financing requirements which are to be met through market borrowings. The Company then undertakes to provide finance to the Indian Railways subject to market conditions. At the end of each year, a lease agreement is drawn in relation to the rolling stock acquired by the MOR from IRFC funds during the previous year. The Lease is for a period of 30 years comprising primary lease period of 15 years followed by a secondary lease period of another 15 years. Lease rentals represent the Company’s capital recovery plus the cost plus a net interest margin. The full recovery of principal and interest takes place during the primary lease period. The Company charges a margin of 40 bps over its cost of incremental borrowings for FY 2021-22. A part of the funds so raised are also utilized for funding bankable projects (i.e. such projects or proposals that have sufficient collateral, future cash flows and high probability of success) approved by the MOR and which are executed by Rail Vikas Nigam Limited (“RVNL”). Similar to core lease transactions, the interest charged by the Company is on a cost plus margin basis. In addition, the Company has also granted loans to Railway PSUs like

Railtel Corporation of India Limited (“**RailTel**”). To the end of March, 2022, IRFC has funded rolling stock assets worth Rs.2,813,920 million. Further, it has disbursed funds to the tune of Rs.76,980 million to various railway entities.

1. BRIEF HISTORY OF THE ISSUER

Indian Railway Finance Corporation Limited, a Public Financial Institution was incorporated on 12th December, 1986 by the Ministry of Railways, for the purpose of raising the necessary resources for meeting the developmental needs of the Indian Railways (the “Indian Railways”). IRFC began its operations after obtaining the certificate of Commencement of Business on 23rd December, 1986. IRFC was initially set up with an Authorised Capital of Rs.2,000 million which was increased to Rs. 5000 million in 1989-90 and was further enhanced to Rs.10,000 million during the year 2007-08. During the year 2009-10, the Authorised Capital was again increased to Rs.20,000 million. And further to Rs.50,000 million in 2011-12, Rs.150,000 million in 2015-16 and to Rs.250,000 million in 2020-21 so far. Similarly, the paid-up share capital has gone up from Rs.1,000 million in 1986-88 to Rs.1,600 million during 1988-89, Rs.2,320 million in the year 1989-90, Rs.5000 million in the year 2007-08, Rs.8,000 million in 2008-09, Rs.10,910 million in 2009-10, Rs.16020 million in 2010-11, Rs.21,020million in FY 2011-12, Rs.23,520million in FY 2012-13, Rs.33520 million in FY 2013-14, Rs.35,839.60 million in FY 2014-15, Rs.45,264.60 million in FY 2015-16, Rs.65,264.60 million in FY 2016-17, Rs.93,804.60 million in FY 2018-19, Rs.118,804.60 million in FY 2019-20 and Rs.130,685.10 million in FY 2020-21.

The Company is listed on NSE and BSE w.e.f. January 29, 2021. Our Promoter is the President of India, acting through the MoR which holds 86.36% of the paid-up equity share capital. The balance sheet size of IRFC has increased consistently over the years from Rs.33,2831.70 million (as per Indian GAAP) in 2008-09 to Rs.16,14,510.40 million (as per IND-AS) in 2017-18 to Rs.20,64,382.90 million (as per IND-AS) for the year ending March 31, 2019 to Rs. 27,55,041.30 million (as per IND-AS) for the year ending March 31, 2020 and further to Rs. 44,99,802.24 million (as per IND-AS) for the year ending March 31, 2022.

IRFC's registered office is at Room Nos. 1316 – 1349, 3rd Floor, Hotel The Ashok, Diplomatic Enclave, 50-B, Chanakyapuri, New Delhi – 110021 w.e.f. 4th March, 2021. Its registration number with Registrar of Companies, NCT of Delhi & Haryana is 26363.

IRFC is registered as a Non- Banking Finance Company under section 45 IA – with the RBI, previously IRFC was not required to comply with the Reserve Bank of India's regulatory requirements on asset classification, income recognition, provisioning, and prudential exposure norms, which restrict a non-banking finance Company's maximum exposure to a sector or an entity. However, the exemptions granted to the Govt. NBFC have since been withdrawn from May 31, 2018. Accordingly, the Company is complying with all the prudential norms applicable to NBFC-ND-SI except for its exposure to Sovereign. RBI vide its letter dated December 21, 2018 has granted exemption from Income Recognition and Asset Classification (IRAC) norms, standard asset provisioning and exposure norms to the extent of their direct exposure on the sovereign.

IRFC was ranked among top ten central Public Sector Undertakings for its performance during 2001-02, 2002-03, 2003-04 and 2004-05 by the Department of Public Enterprises and has also been given an award by President of India and Prime Minister of India for these years.

Looking at the financials and Balance Sheet strength of the Company among other things, CRISIL, ICRA and CARE have accorded stand-alone rating of “CRISIL AAA/Stable” (pronounced as “CRISIL Triple A with stable outlook”), “[ICRA] AAA” (pronounced as “ICRA triple A”) and “CARE AAA” (pronounced as “triple A”) respectively to IRFC. Standard and Poor's, Moody's and Fitch Ratings the well-known international credit rating agencies have accorded IRFC rating of BBB- (Stable), Baa3 (Stable) and BBB- (Stable) respectively on long term foreign currency rating. Japanese Credit Rating Agency Limited have also assigned rating of BBB + (Stable) to the Company. The ratings assigned by the above International Credit Rating Agencies are at par with the rating assigned to the Government of India.

Since its inception, IRFC has been earning profits every year and has paid dividend of Rs.66,191 million till 31.03.2022.

2. BACKGROUND

Soon after India attained independence in 1947, Five Year Plans were implemented with the intention of establishing planned development in the Indian economy. Under the initial Five Year Plans the Government funded Indian Railways centrally through the Ministry of Finance. In 1986, following a change in Government policy, IRFC was established with the sole purpose of acting as a financial intermediary between the financial market and the Ministry of Railways (MOR) to enable the Ministry of Railways to access funds raised in the market, an activity which the Ministry of Railways could not have entered into itself as under Government policy, the Government departments other than the Ministry of Finance cannot raise money directly in the financial market. IRFC is, therefore, a dedicated funding arm of the MOR, Government of India. It has a monopoly in the business of raising funds for the Ministry of Railways since they rely solely on IRFC for external funding of its rolling stock assets and project assets.

3. OBJECTS AND PRESENT BUSINESS

The primary objective of IRFC is to act as a financing arm for the Indian Railways. The development of IRFC's business is dependent on the Ministry of Railways' strategy concerning the growth of Indian Railways. Its principal business is borrowing from the commercial markets to finance the acquisitions of the rolling stock assets which is then in turn leased to Indian Railways. The Ministry of Railways is responsible for the acquisition of rolling stock assets and for the improvement, expansion and maintenance of the railway rolling stock. IRFC is responsible only for raising the finance necessary for the acquisition of rolling stock assets ordered by the Ministry of Railways. Besides, the Company has been assigned the task of funding Railway Projects through Institutional Finance (EBR-IF) route.

At the beginning of each fiscal year, Ministry of Railways (MOR) notifies IRFC of its financing needs to be met through market borrowings. IRFC then undertakes to provide finance to Indian Railways subject to market conditions. At the end of each year, a lease agreement is drawn up to cover the capital value of the infrastructure assets acquired by MOR during the previous year. Lease rentals represent IRFC's cost plus a margin. Part of the funds so raised shall also be utilized for funding bankable projects approved by MOR and to be executed by RVNL. Debt servicing will be done from revenues generated by MOR from the projects. (As in the core lease transactions, Debt servicing will be on cost plus margin basis.)

4. PROFITABILITY AND NET INTEREST MARGINS AND PERFORMANCE DURING FINANCIAL YEAR 2021-22

Lease income from rolling stock and project assets leased to MOR represents 64.05% of IRFC's total income, the balance comes from interest on loans and deposits and amortization of Gain on Account of Securitisation. This level of revenue concentration is expected to continue, as IRFC is likely to remain focused on financing Indian Railways. Furthermore, the regulatory restrictions on IRFC's investments limit the potential for any significant change in investment income. Profit after tax for FY 2021-22 is 60,898.40 million which has registered an year to year growth of 37.90% from 44,161.30 million in FY 2020-21, 38.35% from Rs.31,921.00 million in FY 2019-20 mainly on account of higher incremental disbursement and lower operating costs.

IRFC clocked a year-to-year revenue growth of 28.71% from Rs.1,57,704.70 million for the year 2020-21 to Rs.2,02,982.68 million for the year 2021-22. The main reasons attributed to the growth in revenue are incremental leasing of rolling stock assets, lease income from project assets and additional funding of Railway Projects. On the other hand, the total expenditure has registered a growth of 25.16% from 1,13,547.30 million in FY 2020-21 due to higher interest outgo on additional borrowings, issue expenses pertaining to fresh borrowings and the expenses on CSR.

The Company has disbursed a sum of Rs.6,06,834 million for 2021-22. The cumulative funding to Railway Sector has crossed Rs.5.04 lakh crore mark. Assets Under Management stood at Rs.4,15,238 crore.

IRFC's cost-plus based lease agreement with Ministry of Railways assures a moderate net interest margin. The margin on the incremental assets leased to MOR for the last three years is as follows: -

Period	Lease pricing (IRR to the Railways)	Average cost of funds to IRFC	Margin
2019-20	7.77%	7.37%	0.40%
2020-21	7.11%	6.71%	0.40%
2021-22	7.02%	6.62%	0.40%

5. NON-PERFORMING LOANS

IRFC had no non-performing loans as at March 31, 2022. There is no precedent of Indian Railways delaying payments to IRFC. All assets leased to India Railways are standard assets. Moreover, as a result of restrictions placed by the Department of Public Sector Enterprises on investments and IRFC's own conservative guidelines, IRFC's investment portfolio is likely to remain limited in size. Therefore, overall prospects for IRFC's asset quality will be even more closely tied to its relationship with Indian Railways.

The normal procedure followed for transfer of securities held in dematerialized form shall be followed for transfer of these Bonds held in electronic form. The seller should give delivery instructions containing details of the buyer's DP account to his depository participant. The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. In the absence of the same, interest will be paid/ redemption will be made to the person, whose name appears in the records of the Depository. In such cases, claims, if any, by the transferee(s) would need to be settled with the transferor(s) and not with the Issuer.

Transfer of Bonds to and from foreign investors, in case they seek to hold the Bonds and are eligible to do so, will be governed by the then prevailing guidelines of RBI. The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. In the absence of the same, interest will be paid/ redemption will be made to the person, whose name appears in the records of the Depository. In such cases, claims, if any, by the transferee(s) would need to be settled with the transferor(s) and not with IRFC Ltd.

21. COMMON FORM OF TRANSFER

The Issuer undertakes that it shall use a common form/ procedure for transfer of Bonds issued under terms of this Private Placement Memorandum or any other guideline in this regard.

22. INTEREST ON APPLICATION MONEY

- a) In case of change in deemed date of allotment and in respect of investors who get allotment in the bond issue, interest on application money shall be paid at the coupon rate applicable for bond series (subject to deduction of income tax under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof, as applicable) from the date of receipt of application money in IRFC's account till one day prior to the date of allotment on the aggregate face value amount of Bonds. The interest on Application Money shall be computed as per "Actual/Actual" day count convention. The payment shall be made only through electronic mode. However, in case of rejection of electronic mode, due to incomplete / in correct detail provided by applicant payment may be made through cheque /demand draft. The cheque /demand draft for interest on application money shall be dispatched by the Issuer within 15 days from the Deemed Date of Allotment by registered post to the sole/ first applicant, at the sole risk of the applicant.
- b) No interest on Application Money will be paid in respect of applications which are rejected due to any reason.

23. INTEREST ON THE BONDS

The Bonds shall carry interest at the Coupon Rate (subject to deduction of income tax under the provisions of the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof, as applicable) from, and including, the Deemed Date of Allotment up to, but excluding the Redemption Date, payable on the "Coupon Payment Dates", on the outstanding principal amount of Bonds till Redemption Date, to the holders of Bonds (the "Holders" and each, a "Holder") as of the relevant record Date. Interest on Bonds will cease from the Redemption Date in all events.

If any Coupon Payment Date falls on a day which is not a working day ('Working Day' on which scheduled commercial banks are open for business in New Delhi), payment of interest will be made on next working day without liability for making payment of interest for the delayed period.

24. COMPUTATION OF INTEREST

Interest for each of the interest periods shall be computed as per Actual/ Actual day count convention on the face value amount of Bonds outstanding at the Coupon Rate rounded off to the nearest Rupee. Where the interest period (start date to end date) includes February 29, interest shall be computed on 366 days-a-year basis, on the face value amount of Bonds outstanding.

25. RECORD DATE

The 'Record Date' for the Bonds shall be 15 days prior to each Coupon Payment Date and Redemption Date. In case of redemption of Bonds, the trading in the Bonds shall remain suspended between the Record Date and the Redemption Date. Interest payment and principal repayment shall be made to the person whose name appears as beneficiary with the Depositories as on Record Date. In the event of the Issuer not receiving any notice of transfer at least 15 days before the respective Coupon Payment Date and at least 15 days prior to the Redemption Date, the transferees for the Bonds shall not have any claim against the Issuer in respect of interest so paid to the registered Bondholders.

26. DEDUCTION OF TAX AT SOURCE

Tax as applicable under the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof will be deducted at source. Tax exemption certificate/ declaration of non-deduction of tax at source, if applicable, on interest on application money should be submitted along with the application form.

Interest payable subsequent to the Deemed Date of Allotment of Bonds will be treated as "Interest on Securities" as per Income Tax Rules. Bondholders desirous of claiming exemption from deduction of income tax at source on the interest payable on Bonds should submit tax exemption certificate/ document, under Section 193 of the Income Tax Act, 1961, if any, at the head office of IRFC Ltd., at least 45 days before the payment becoming due.

FII's will be subject to withholding tax as applicable under section 195 of the Income Tax Act, 1961.

Regarding deduction of tax at source and the requisite declaration forms to be submitted, prospective investors are advised to consult their own tax consultant(s).

27. PUT & CALL OPTION

NOT APPLICABLE.

28. Right to Buyback, Re-purchase and Re-issue

The Issuer will have the right, power and authority, exercisable at its sole and absolute discretion from time to time, to buyback or re-purchase a part or all of its Bonds from the secondary markets or through a tender offer or any other method permitted under applicable law, at any time prior to the Redemption Date, subject to applicable law and in accordance with the applicable guidelines or regulations, if any.

In the event of a part or all of the Issuer's Bonds being bought back or repurchased as aforesaid or redeemed under any circumstances whatsoever, the Issuer shall have, and shall be deemed always to have had, the right, power and authority to re-issue the Bonds, either by re-issuing the same Bonds or by issuing other debentures in their place.

Further the Issuer, in respect of such bought back or re-purchased or re-deemed Bonds shall have the right, power and authority, exercisable either for a part or all of those Bonds, to cancel, keep alive, appoint nominee(s) to hold or re-issue at such price and on such terms and conditions as it may deem fit and as permitted under the SEBI Operational Circular or by applicable laws or regulations.

29. REDEMPTION

The face value of the Bond will be redeemed at par, unless previously redeemed by the issuer, on the expiry of from the deemed date of allotment. The Bond will not carry any obligation, for interest or otherwise, after the date of redemption. The Bonds held in the Dematerialised Form shall be taken as discharged on payment of the redemption amount by IRFC on maturity to the registered Bondholders whose name appear in the Register of Bondholders on the Record date. Such payment will be a legal discharge of the liability of the Issuer towards the Bondholders.

In case if the redemption date falls on a day which is not a Working day ("Working day on which scheduled commercial banks are open for business in New Delhi), then the payment due shall be made on the previous Working Day but without liability for making payment of interest for the intervening period.

30. EVENTS OF DEFAULT & REMEDIES

If the Issuer commits a default in making payment of any installment of interest or repayment of principal amount of the Bonds on the respective due date(s), the same shall constitute an “Event of Default” by the Issuer.

Besides, it would also constitute an “Event of Default” by the Issuer, if the Issuer does not perform or does not comply with one or more of its material obligations in relation to the Bonds issued in pursuance of terms and conditions stated in this Private Placement Memorandum, Trusteeship Agreement and Trust Deed, which in opinion of the Trustees is incapable of remedy.

Manner of voting/ conditions of joining Inter Creditor Agreement shall be mentioned in the Bond Trust Deed which will be executed within time frame prescribed under the Companies Act.

31. ADDITIONAL COVENANTS

In case of delay in listing of the debt securities beyond the specified timelines, the Company shall pay penal interest of at least @ 1 % p.a. over the coupon rate for the period of delay to the investor and shall be permitted to utilise the issue proceeds of its subsequent two privately placed issuances of securities only after receiving final listing approval from Stock Exchanges.

32. SETTLEMENT/ PAYMENT ON REDEMPTION

Payment on redemption will be made by cheque(s)/ interest/ redemption warrant(s)/ demand draft(s)/ credit through direct credit ECS/ NECS/ EFT / RTGS /NEFT in the name of the Bondholder(s) whose name appears on the records of IRFC as on the Record Date. The Issuer’s liability to Bondholder(s) towards all their rights including payment of interest or otherwise shall cease and stand extinguished from the due date of redemption in all events. Further, the Issuer will not be liable to pay interest, income or compensation of any kind from the date of such redemption of the Bonds.

The Bonds shall be taken as discharged on payment of the redemption amount by the Company. Such payment will be a legal discharge of the liability of the Company towards the Bondholders.

The liability of the Company shall stand discharged on posting of redemption warrants by Registered Post and / or remitting the redemption proceeds through ECS/ NECS/ EFT / RTGS /NEFT to the above said Beneficiaries. No claim, damages or penal interest in respect of delayed payment, etc. shall lie upon the Company in the event of non-receipt of the same by the addressee Bondholder.

33. EFFECT OF HOLIDAYS

If any Coupon Payment Date falls on a day that is not a Working day, the payment shall be made by the Issuer on the immediately succeeding Working Day.

If the Redemption Date (also being the last Coupon Payment Date) of the Bonds falls on a day that is not a Working day, the redemption proceeds shall be paid by the Issuer on the immediately preceding Working day along with interest accrued on the Bonds until but excluding the date of such payment.

In the event the Record Date falls on a day which is not a Working day, the immediately succeeding Working Day will be considered as the Record Date.

It is clarified that Interest/redemption with respect to the Bonds shall be made only on the days on which scheduled commercial banks are open for business in New Delhi.

34. LIST OF BENEFICIAL OWNERS

The Issuer shall request the Depository to provide a list of Beneficial Owners as at the end of the Record Date. This shall be the list, which shall be considered for payment of interest or repayment of principal amount, as the case may be.

35. SUCCESSION

In the event of the demise of the sole/first holder of the Bond(s) or the last survivor, in case of joint holders for the time being, the Issuer shall recognize the executor or administrator of the deceased Bondholder, or the holder of succession certificate or other legal representative as having title to the Bond(s). The Issuer shall not be bound to recognize such executor or administrator, unless such executor or administrator obtains probate, wherever it is

necessary, or letter of administration or such holder is the holder of succession certificate or other legal representation, as the case may be, from a Court in India having jurisdiction over the matter. The Issuer may, in its absolute discretion, where it thinks fit, dispense with production of probate or letter of administration or succession certificate or other legal representation, in order to recognize such holder as being entitled to the Bond(s) standing in the name of the deceased Bondholder on production of sufficient documentary proof or indemnity.

Where a non-resident Indian becomes entitled to the Bond by way of succession, the following steps have to be complied:

Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the Bond was acquired by the NRI as part of the legacy left by the deceased holder.

Proof that the NRI is an Indian National or is of Indian origin. Such holding by the NRI will be on a non-repatriation basis.

In order to be able to bid under the BSE Bond - EBP Platform / NSE Bond - EBP Platform, eligible Investors must have provided the requisite documents (including but not limited to know your customer) in accordance with the Operational Guidelines or applicable law or as requested by the Issuer. The Issuer is entitled at any time to require an eligible Investor to provide any know your customer or other documents as may be required to be maintained by it or delivered to a third party by it in accordance with applicable laws.

39. HOW TO APPLY

This being a private placement Issue, the eligible investors who have been addressed through this communication directly only are eligible to apply. Applications for the Bonds must be in the prescribed form and completed in BLOCK LETTERS in English and as per the instructions contained therein.

All eligible Investors should refer the operating guidelines for issuance of debt securities on private placement basis through an electronic book mechanism as available on the website of BSE / NSE. Investors will also have to complete the mandatory know your customer verification process. Investors should refer to the BSE EBP Guidelines / NSE EBP Guidelines in this respect.

The Issue details shall be entered on the BSE Bond - EBP Platform / NSE Bond - EBP Platform by the Issuer at least 2 (two) Business Days prior to the Issue opening date, in accordance with the Operational Guidelines.

The Issue will be open for bidding for the duration of the bidding window that would be communicated through the Issuer's bidding announcement on the BSE Bond EPB - Platform / NSE Bond – EBP Platform, at least 1 (one) Business Day before the start of the Issue opening date.

Some of the key guidelines in terms of the current Operational Guidelines on issuance of securities on private placement basis through an EBP mechanism are as follows:

(i) Bidding Process

- a) The bidding process on the BSE Bond - EPB Platform / NSE Bond - EBP Platform shall be on an anonymous order driven system.
- b) Bid shall be made by way of entering bid in: (A) Price; or (B) Coupon (in %), up to four decimal places; or (C) Spread in basis points (bps). Further, the bid amount shall be specified in Indian Rupees.
- c) The bidding process, in cases where the coupon / spread is discovered during bidding, shall be based on the following: the face value remaining constant, bids / quotes shall be placed by the Eligible Investors in terms of coupon / spread.

(ii) Modification of Bid

Investors may note that modification of bid is allowed during the bidding period / window. However, in the last 10 (ten) minutes of the bidding period / window, revision of bid is only allowed for improvement of coupon or yield and upward revision of the bid amount placed by the Investor.

(iii) Cancellation of Bid

Investors may note that cancellation of bid is allowed during the bidding period / window. However, in the last 10 (ten) minutes of the bidding period or window, no cancellation of bids is permitted.

(iv) Multiple Bids

Investors may note that multiple bids are permitted. Multiple bids by the Arranger to the Issue are permitted as long as each bid is on behalf of different Investors/ same Investors. Arranger to the Issue can put multiple bids for same Investor provided the total of all bids entered is not equal to or more than 5% (five per cent) of the Base Issue Size or Rs.100,00,00,000 (Rupees Hundred Crore), whichever is lower.

(v) Offer or Issue of executed Private Placement Memorandum to successful eligible Investors

The signed copy of the Private Placement Memorandum along with the Application Form will be issued to the successful eligible Investors, who are required to complete and submit the Application Form to the Issuer in order to accept the offer of the Bonds.

However, Investors should refer to the Operational Guidelines as prevailing on the date of the bid.

Bids by the Arranger

The Arrangers as mapped on BSE Bond EPB - Platform / NSE Bond – EBP Platform by the Issuer are allowed to bid on a proprietary, client and consolidated basis. At the time of bidding, the Arranger is required to disclose the following details to the BSE Bond EPB - Platform / NSE Bond – EBP Platform:

- (i) Whether the bid is proprietary bid or is being entered on behalf of an eligible Investor or is a consolidated bid, i.e., an aggregate bid consisting of proprietary bid and bid(s) on behalf of eligible Investors.
- (ii) For consolidated bids, the Arranger shall disclose breakup between proprietary bid and bid(s) made on behalf of Eligible Investors.
- (iii) For bids entered on behalf of eligible Investors, the Arranger shall disclose the following:
 - (a) Names of such eligible Investors;
 - (b) Category of the eligible Investors; and
 - (c) Quantum of bid of each eligible Investor.

Provided that the Arranger shall not be allowed to bid on behalf of any Eligible Investor if the bid amount exceeds 5% (five per cent.) of the Base Issue Size or Rs.100,00,00,000 (Rupees Hundred crore), whichever is lower (or

such revised limits as may be specified in the Operational Guidelines from time to time).

Withdrawal of Issue

The Issuer reserves the right to withdraw the Issue prior to the Issue closing date, at its discretion, and including but not limited to the event of any unforeseen development adversely affecting the economic and regulatory environment or any other force majeure condition including any change in applicable law, due to pandemic, epidemic, etc., pursuant to the conditions set out under the Operational Guidelines. A withdrawal from the issue proceeds shall imply withdrawal of the total issue including Anchor Portion.

Further, the Issuer shall be permitted to withdraw from the Issue process on the following events:

- (i) The Issuer is unable to receive the bids upto the Base Issue Size; or
- (ii) A bidder has defaulted on payment towards the Allotment, within stipulated timeframe, due to which the Issuer is unable to fulfill the Base Issue Size; or
- (iii) The cut-off yield in the Issue is higher than the estimated cut-off yield disclosed to the EBP, where the Base Issue Size is fully subscribed.

If the Issuer has withdrawn the Issue pursuant to point (iii), where the cut-off yield of the Issue is higher than the estimated cut-off yield disclosed to the BSE Bond EBP - Platform / NSE Bond –EBP Platform, the estimated cut off yield shall be mandatorily disclosed by the BSE Bond EBP - Platform / NSE Bond – EBP Platform to the eligible Investors. The expression ‘estimated cut off yield’ means yield so estimated by the Issuer, prior to opening of issue on the BSE Bond EBP - Platform / NSE Bond – EBP Platform. The disclosure of estimated cut off yield by the BSE Bond EBP - Platform / NSE Bond – EBP Platform to the eligible Investors, pursuant to closure of the Issue, shall be at the discretion of the Issuer. Provided that the Issuer shall accept or withdraw the Issue on the BSE Bond EBP - Platform / NSE Bond – EBP Platform within 1 (one) hour of the closing of the bidding window, and not later than 6 (six) pm on the Issue closing date.

However, Eligible Investors should refer to the Operational Guidelines prevailing on the date of the bid.

Determination of Coupon

The Coupon will be decided based on bids received on the BSE Bond EBP - Platform / NSE Bond – EBP Platform.

Right to Accept or Reject Applications

The Issuer reserves its full, unqualified and absolute right to accept or reject the application, in part or in full, without assigning any reason thereof. The rejected Applicant will be intimated along with the refund warrant, if applicable. No interest on Application money will be paid on rejected Applications. The Application Form that is not complete in all respects is liable to be rejected and would not be paid any interest on the Application money. For further instructions regarding the application for the Bonds, eligible Investors are requested to read the instructions provided in the Application Form.

Application would be liable to be rejected on one or more technical grounds, including but not restricted to:

- (i) Number of Bonds applied for is less than the minimum application size; and

Basis of Allocation

Allocation shall be made as approved by the Issuer in accordance with applicable SEBI regulations, Operational Guidelines, and applicable laws. Post completion of bidding process, the Issuer will upload the provisional allocation on the BSE Bond EBP - Platform / NSE Bond – EBP Platform. Post receipt of details of the successful Eligible Investors, the Issuer will upload the final allocation file on the BSE Bond EBP - Platform / NSE Bond –EBP Platform. At its sole discretion, the Issuer shall decide the amount of over subscription to be retained over and above the Base Issue Size.

The allotment of valid applications received on the closing day shall be done in the following manner:

- (a) allotment would be done first on “yield priority” basis;
- (b) where two or more bids are at the same yield, then the allotment shall be done on “time-priority” basis;
- (c) where two or more bids have the same yield and time, then allotment shall be done on “pro-rata” basis.

Applications by Successful Investors

Original Application Forms complete in all respects must be submitted to the corporate office of Issuer before the last date indicated in the Issue time-table or such extended time as decided by the Issuer accompanied by details of remittance of the Application money. The Application Form will constitute the acceptance required under Section 42 of the Companies Act and the PAS Rules. Successful Investors should ensure to do the funds pay-in from their same bank account which is updated by them in the BSE Bond - EBP Platform / NSE Bond – EBP Platform while placing the bids. In case of mismatch in the bank account details between BSE Bond – EBP Platform / NSE Bond – EBP Platform and the bank account from which payment is done by the successful investor, the payment would be returned back. Payment should be made by the deadline specified by the BSE/NSE. Successful bidders should do the funds pay-in to the bank accounts of the clearing corporation of the relevant Exchanges (“**Designated Bank Account**”).

Upon final allocation by the Issuer, and confirmation by the Issuer to go ahead with the Allotment, the Issuer or the Registrar on behalf of the Issue shall instruct the Depositories on the pay-in date, and the Depositories shall accordingly credit the allocated Bonds to the demat account of the successful Investor(s). Upon instructions of the Registrar or the Issuer, the Depositories shall confirm to the clearing corporation of the relevant Exchanges that the Bonds have been transferred to the demat account(s) of the successful Investor(s). Upon confirmation from the Depository, the clearing corporation of the relevant Exchanges shall transfer funds to the Designated Bank Account of the Issuer.

Successful bidders must do the funds pay-in to the Designated Bank Account up to 10:30 am on the pay-in date (“**Pay-in Time**”). Successful bidders should ensure to do the funds pay-in from their same bank account which is updated by them in the BSE Bond - EBP Platform / NSE Bond – EBP Platform while placing the bids. In case of mismatch in the bank account details between BSE Bond – EBP Platform / NSE Bond – EBP Platform and the bank account from which payment is done by the successful bidder, the payment would be returned back. Provided that, in case of bids made by the Arranger on behalf of eligible Investors, funds pay-in shall be made from the bank account of such eligible Investors. Cheque(s), demand draft(s), money orders, postal orders will not be accepted. The Issuer assumes no responsibility for any applications lost in mail.

Note: In case of failure of any successful Investor to complete the funds pay-in by the Pay-in Time or the funds are not received in the Designated Bank Account of the clearing corporation of the relevant Exchanges by the Pay in Time for any reason whatsoever, the bid will liable to be rejected and the Issuer and/or the Arranger shall not be liable to the successful Investor.

Post-Allocation Disclosures by the EBP

Upon final allocation by the Issuer, the Issuer shall disclose the Issue Size, coupon rate, ISIN, number of successful bidders, category of the successful bidder(s), etc. The EBP shall upload such data, as provided by the Issuer, on its website to make it available to the public.

Events of Default (including manner of voting/conditions of joining Inter Creditor Agreements)

Subject to the terms of the Debenture Trust Deed, the Debenture Trustee, at its discretion may, or if so requested in writing by the holders of at least three-fourths of the outstanding amount of the Debentures or with the sanction of a special resolution, passed at a meeting of the Debenture Holders, (subject to being indemnified and/or secured by the Debenture Holders to its satisfaction), give notice to our Issuer specifying that the Debentures and/or any particular options of Debentures, in whole but not in part are and have become due and repayable on such date as may be specified in such notice inter alia if any of the events listed below occurs. The description below is indicative and a complete list of events of default including cross defaults, if any, and its consequences will be specified in the Debenture Trust Deed:

Consequences of Event(s) of Default

In accordance with the circular (SEBI/HO/MIRSD/CRADT/CIR/P/2020/203) dated October 13, 2020 issued by SEBI on “Standardisation of procedure to be followed by Debenture Trustee(s) in case of ‘Default’ by Issuers of listed debt securities”, post the occurrence of a “default”, the consent of the bondholders for entering into an inter-creditor agreement (the “ICA”) shall be sought by the trustee after providing a notice to the investors in the manner stipulated under applicable law. Further, the meeting of the Bondholders shall be held within the period stipulated under applicable law. In case(s) where majority of investors express their consent to enter into the ICA, the trustee shall enter into the ICA on behalf of the investors upon compliance with the conditions as stipulated in the above-mentioned circular. In case consents are not received for signing the ICA, the trustee shall take further action, if any, as per the decision taken in the meeting of the investors. The consent of the majority of investors shall mean the approval of not less than 75% of the investors by value of the outstanding debt and 60% of the investors by number at the ISIN level.

Regulation 51 read with the Explanation to Clause A (11) in Part B of Schedule III of the SEBI Listing Regulations, defines ‘default’ as non-payment of interest or principal amount in full on the pre-agreed date which shall be recognized at the first instance of delay in the servicing of any interest or principal on debt.

It is hereby confirmed, in case of an occurrence of a “default”, the Trustee shall abide and comply with the procedures mentioned in the above- mentioned circular (SEBI/HO/MIRSD/CRADT/CIR/P/2020/203) dated October 13, 2020 issued by SEBI.

Roles and Responsibilities of the Trustee -As per Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, as amended from time to time and Debenture Trust Deed and as specified in the Transaction Documents the Debt securities shall be considered as unsecured. It is the duty of the Debenture Trustee to monitor as per SEBI circular dated November 12th 2020.

XIV STOCK EXCHANGES WHERE BONDS ARE PROPOSED TO BE LISTED

The unsecured, redeemable, non-convertible, non-cumulative bonds in the nature of debentures (“Bonds”) Series 170 are proposed to be listed on the wholesale debt market segments of the NSE and BSE. The Issuer shall obtain the in-principle approval of NSE and BSE for listing of the Bonds. The Issuer shall make an application to the NSE and BSE to list the Bonds to be issued and allotted under this Private Placement Memorandum and complete all the formalities relating to listing of the Bonds within stipulated time (as per applicable law) from the date of closure of the Issue. If the permission to list and trade the Bonds is not granted by the stock exchanges, the Issuer shall forthwith repay, without interest, all such moneys received from the Applicant in pursuance of this Private Placement Memorandum and Section 42 of the Companies Act, 2013. If default is made, the Issuer and every officer in default will liable to fine as prescribed in Section 42 of the Companies Act, 2013.

XV MATERIAL CONTRACTS & AGREEMENTS INVOLVING FINANCIAL OBLIGATIONS OF THE ISSUER

By very nature of its business, the Issuer is involved in a large number of transactions involving financial obligations and therefore it may not be possible to furnish details of all material contracts and agreements involving financial obligations of the Issuer. However, Copies of the below mentioned contracts and agreements may be inspected at the Corporate Office of the Issuer between 10.00 a.m. and 2.00 p.m. on any working day until the issue closing date.

2. Refer **Annexure 1** for details of rated facilities.
3. The rationale for the rating will be communicated to you separately. A write-up (press release) on the above rating is proposed to be issued to the press shortly, a draft of which is enclosed for your perusal as **Annexure 2**. We request you to peruse the annexed document and offer your comments if any. We are doing this as a matter of courtesy to our clients and with a view to ensure that no factual inaccuracies have inadvertently crept in. Kindly revert as early as possible. In any case, if we do not hear from you by 27 February 2023, we will proceed on the basis that you have no any comments to offer.
4. CARE Ratings Ltd. reserves the right to undertake a surveillance/review of the rating from time to time, based on circumstances warranting such review, subject to at least one such review/surveillance every year.
5. CARE Ratings Ltd. reserves the right to revise/reaffirm/withdraw the rating assigned as also revise the outlook, as a result of periodic review/surveillance, based on any event or information which in the opinion of CARE Ratings Ltd. warrants such an action. In the event of failure on the part of the entity to furnish such information, material or clarifications as may be required by CARE Ratings Ltd. so as to enable it to carry out continuous monitoring of the rating of the bank facilities, CARE Ratings Ltd. shall carry out the review on the basis of best available information throughout the life time of such bank facilities. In such cases the credit rating symbol shall be accompanied by "ISSUER NOT COOPERATING". CARE Ratings Ltd. shall also be entitled to publicize/disseminate all the aforementioned rating actions in any manner considered appropriate by it, without reference to you.
6. Our ratings do not take into account the sovereign risk, if any, attached to the foreign currency loans, and the ratings are applicable only to the rupee equivalent of these loans.
7. Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
8. Users of this rating may kindly refer our website www.careedge.in for latest update on the outstanding rating.
9. CARE Ratings Ltd. ratings are **not** recommendations to sanction, renew, disburse or recall the concerned bank facilities.

If you need any clarification, you are welcome to approach us in this regard.

Thanking you,

Yours faithfully,

Detailed Rationale & Key Rating Drivers

The rating reaffirmation for the various bank facilities/ market instruments of Indian Railway Finance Corporation Limited (IRFC) continues to factor in the majority ownership by Government of India (GoI) and IRFC's strategic role as a dedicated financing arm of Indian Railways (IR), responsible for arranging funds for meeting planned outlay of IR. The company's principal business is to borrow funds from the commercial markets to finance the acquisition of new rolling stock and construction of developmental projects or infrastructure for IR.

The ratings also factor in IRFC's strong financial fundamentals with consistently profitable operations, strong asset quality with history of nil non-performing assets (NPAs), comfortable capitalization profile and adequate liquidity position. Additionally, the ratings also draw comfort from demonstrated government support as evident via regular and periodic equity infusions and favorable lease agreements that protect IRFC against any exchange rate volatility, interest rate fluctuations and liquidity risk by transferring of risks to Ministry of Railways (MoR). Going forward, the continued sovereign ownership and support from GoI in maintaining comfortable capital structure and asset quality will remain key rating sensitivities.

Rating Sensitivities

Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade

- Any material changes in government support and/or strategic role played by IRFC in supporting Indian Railways or reduction in GoI's shareholding below 51%
- Significant deterioration in IRFC's standalone credit profile including its profitability and asset quality profile

Detailed description of the key rating drivers

Key Rating Strengths

Majority GoI ownership marked with demonstrated government support and strong integration with parent

Majority owned by GoI, IRFC is a Schedule 'A' Public Sector Enterprise under the administrative control of MoR. In line with the divestment objective of GoI, IRFC came up with its IPO in January 2021 and raised equity of Rs.4,633.38 crore which included fresh equity raise of Rs.3,088.92 crore and offer for sale of shares by GoI amounting to Rs.1,544.46 crore. Through IPO, GoI divested 5% of its shareholding, and as a result, the overall shareholding of GoI came down to 86.36% as on June 30, 2021 from 100% till December 31, 2020, and continues to be so as on March 31, 2022.

The company has a demonstrated history of receiving timely and regular parent support in the form of regular capital infusions and CARE expects IRFC to maintain comfortable capital structure and overall gearing remaining around ten times going forward.

Additionally, the favorable lease agreement with MoR protects IRFC against any exchange rate volatility, interest rate fluctuations and liquidity risk. CARE Ratings believes that given the position of IRFC as a dedicated financing arm of IR, IRFC will continue to be strategically important for IR. Also, with majority government ownership, timely support from GoI is expected to be forthcoming and any material change in the ownership of and/or support to IRFC will remain a key rating monitorable.

Strategic role in providing financial assistance to meet planned outlay of Indian Railways

IRFC is an arranger of finance for MoR and raises money from the market to part-finance the planned outlay of IR. The MoR is responsible for acquisition of rolling stock, improvement, expansion and maintenance of the railway infrastructure, while IRFC is responsible for mobilizing resources necessary for the acquisition of rolling stock ordered by the MoR. The resources thus raised are used for part-funding for creation of assets (through lease financing) for IR. At the beginning of each fiscal year, the MoR notifies IRFC of its financing requirements that are to be met through market borrowings. At the end of each year, a finance lease agreement is drawn in relation to the rolling stock acquired by the MoR from IRFC funds during the previous year. The lease is for a period of 30 years comprising primary lease period of 15 years followed by a secondary lease period of another 15 years. Lease rentals comprise IRFC's capital recovery, cost plus a net interest margin, which are covered under the primary lease period. Over the last few years, IRFC has provided funding for various railway infrastructure asset projects such as electrification, doubling of railway line, etc. The company's resources have been predominantly used for the acquisition of rolling stock assets, financing of railway infrastructure assets and meeting other developmental needs of IR.

IRFC maintains a dominant share in MoR's increasing requirement for rolling stock on the strength of its ability to mobilize funds at competitive rates. IRFC, under the directives of MoR, also extends loans to other entities of MoR, viz., Rail Vikas Nigam Ltd. (RVNL) and IRCON International Limited (IRCON, rated CARE AAA; Stable). As on December 31, 2021, 47% of the loans and advances were towards lease receivables from MoR, 51% were advances against lease of railway infrastructure assets and advance against National Project, and remaining 2% as loans provided to IRCON, RVNL and other advances. As on December 31, 2021, about 97% of IRFC's revenue is from lease and remaining 3% is from income from loans and advances and investment income.

Strong asset quality on account of entire exposure to MoR/MoR-owned entities

As a non-banking finance company (NBFC) with majority ownership by GoI, IRFC does not have to comply with Reserve Bank of India's (RBI) regulatory requirements on asset classification, liquidity coverage ratio, provisioning, and prudential exposure norms to the extent of its exposure to MoR, which restricts a NBFC's maximum exposure to a sector or an entity. On account of the entire exposure of IRFC to MoR/MoR-owned entities which are controlled by GoI, the recovery risk is largely mitigated. As a result, IRFC continues to have strong asset quality with a history of nil non-performing assets (NPAs).

Healthy capitalization profile

The capitalization profile of IRFC (given zero percent risk weight is assigned to MoR's exposure) remains strong marked with overall CAR at 466% as on December 31, 2021, improving from 420% as on Mar-21. The capitalization metrics are also supported by tangible net worth of Rs.39,505 crore as on December 31, 2021, up from Rs.35,913 crore as on March 31, 2021, on account of sequential positive internal accruals. The overall gearing of IRFC stood at 9.3 times as on December 31, 2021, up marginally from 9.0 times as on March 31, 2021.

Diversified borrowings profile

End December 31, 2021, total borrowings of IRFC stood at Rs.3,69,102 crore, up from Rs.3,23,111 crore as on March 31, 2021, with funds availed from various lender categories such as banks, other financial institutions and foreign institutional investors. As on December 31, 2021, borrowings from domestic bonds market formed 46% of the total borrowings, followed by rupee term loan from banks forming another 31%, about 15% in the form of foreign/external commercial borrowings (ECM), 5% through NSSF and the remaining 3% in the form of commercial paper.

Key Rating Weaknesses

Moderate profitability metrics

IRFC operates on a cost-plus based model, and as per the lease agreement with MoR, the lease rentals are calculated as equal to half yearly payments to be made by the MoR based on weighted average cost of incremental borrowing during the relevant year together with a reasonable markup mutually agreed between the MoR and IRFC. IRFC has moderate financial profile marked by modest revenue growth, controlled borrowing costs, marginal credit costs and overall profitability protected under lease agreement with MoR. For 9MFY22 (refers to the period April 1 to December 31), total income of IRFC grew by 27% Y-o-Y to Rs.14,369 crore as against Rs.11,316 crore in 9MFY21, driven by 95% Y-o-Y rise in interest income from pre-commencement lease, interest income on loans and others to Rs.5,382 crore (Rs.3,944 crore in FY21). End nine months December 31, 2021, profit after tax (PAT) of IRFC increased by 57% Y-o-Y to Rs.4,597 crore (primarily because of a lower base in 9MFY21). As a result, IRFC's net interest margin (NIM) and return on total assets (ROTA) improved marginally, albeit moderate, to 1.53% and 1.51% (reported 1.45%, annualized), respectively in 9MFY22 vs. 1.39% and 1.35%, respectively, as on March 31, 2021. Operating expenses/ATA ratio remained low at 0.11% due to its wholesale lending model while credit costs remained negligible with nil NPA and IRFC being exempted from providing standard provisions against its exposure to IR.

High concentration risk

The loan book of IRFC is highly concentrated as the entire exposure is to MoR or MoR-related entities. As on December 31, 2021, 47% of the loans and advances was towards lease receivable from MoR, 51% was towards advance against lease of railway infrastructure assets and advance against National Project and remaining 2% of loans was provided to IRCON and RVNL and other advances. Also, the development of IRFC's business is dependent on the Ministry of Railways' strategy concerning the growth of Indian Railways. However, IRFC is exempted from RBI's credit concentration norms.

Liquidity Position: Adequate

Liquidity profile of IRFC remains comfortable on the back of GoI ownership and support from GoI in the form of regular equity infusions and favourable lease agreement wherein IRFC can get advance lease rentals from MoR if need arises. Due to IRFC's status as a government company, it is exempted from RBI's guidelines regarding applicability of liquidity coverage ratio for NBFCs.

Analytical approach: Standalone along with factoring in majority ownership by Government of India.

About the Company

Indian Railway Finance Corporation (IRFC), a GoI undertaking under the purview of Ministry of Railways (MoR) is a financing arm of Ministry of Railways. It is also registered as Systemically Important Non-Deposit taking Non-Banking Financial Company (NBFC – ND-SI) and Infrastructure Finance Company (NBFC- IFC) with Reserve Bank of India (RBI). The company is a notified Public Financial Institution (PFI) under the Companies Act. IRFC's principal business is to borrow funds from the financial markets to finance the acquisition / creation of assets which are then leased out to the Indian Railways. The funds are utilized for acquiring rolling stock assets and also building up infrastructure, constituting significant part of annual capital expenditure of Indian Railways. Besides, the company has been assigned the task of funding Railway Projects through Institutional Finance (EBR-IF) route. A significant portion of IRFC's revenue is generated from the leasing of rolling stock assets, comprising locomotives, passenger coaches and freight wagons, to the Indian Railways.

IRFC operates on a cost-plus-based model, and as per the agreement, the lease rentals are calculated as equal to half yearly payments to be made by the MoR based on weighted average cost of incremental borrowing during the relevant year together with a reasonable markup mutually agreed between the MoR and IRFC. While economic ownership of assets vests with MoR, IRFC retains the legal title of the asset. MoR pays lease rentals to IRFC which are sufficient to meet the debt obligations of IRFC. Apart from leasing assets to IR, IRFC under the directives of MoR also extends loans to other entities of MoR, viz., Rail Vikas Nigam Ltd. (RVNL), etc. The responsibility of debt servicing lies with MoR as debt servicing is done from revenues generated by MoR from these projects.

About CARE Ratings Limited:

Established in 1993, CARE Ratings Ltd. is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India (SEBI), it has also been acknowledged as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). With an equitable position in the Indian capital market, CARE Ratings Limited provides a wide array of credit rating services that help corporates to raise capital and enable investors to make informed decisions backed by knowledge and assessment provided by the company.

With an established track record of rating companies over almost three decades, we follow a robust and transparent rating process that leverages our domain and analytical expertise backed by the methodologies congruent with the international best practices. CARE Ratings Limited has had a pivotal role to play in developing bank debt and capital market instruments including CPs, corporate bonds and debentures, and structured credit.

Disclaimer

The ratings issued by CARE Ratings Limited are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings Limited has based its ratings/outlooks based on information obtained from reliable and credible sources. CARE Ratings Limited does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings Limited have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings Limited or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE Ratings Limited is, inter-alia, based on the capital deployed by the partners/proprietor and the current financial strength of the firm. The rating/outlook may undergo a change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE Ratings Limited is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE Ratings Limited's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.

Detailed Rationale

CRISIL Ratings has assigned its '**CRISIL AAA/Stable**' rating to the Rs 66500 crore long-term borrowing programme of Indian Railway Finance Corporation Limited (IRFC). Ratings on existing debt instruments has been reaffirmed at 'CRISIL AAA/Stable/CRISIL A1+'.

CRISIL Ratings has also withdrawn its rating on Bonds of Rs 12,067 crore (See Annexure 'Details of Rating Withdrawn' for details) in line with its withdrawal policy. CRISIL Ratings has received independent verification that these instruments are fully redeemed.

The ratings reflect IRFC's strategic importance to its parent, the GoI, because of the company's status as the financing arm of Indian Railways (IR). The ratings also factor in IRFC's strong capitalisation and asset quality and adequate resource profile. These rating strengths are partially offset by IRFC's average earnings profile.

Analytical Approach

For arriving at the ratings, CRISIL Ratings has considered the standalone business and financial risk profiles of IRFC, and has factored in support from GoI. This is given the majority ownership of IRFC by GoI, and the significant role it plays in supporting the expansion of the Indian Railways as the dedicated financing arm.

Key Rating Drivers & Detailed Description

Strengths:

Strategic importance to and support from GoI

IRFC, IR's financing arm, functions under the Ministry of Railways (MoR) and constitutes a crucial part of India's infrastructure. Hence, IRFC derives substantial business and financial support from GoI. The support is reflected in IRFC's majority ownership (86.36%) by GoI. Moreover, IRFC has a close working relationship with IR and has MoR's officials as directors on its board.

Favourable lease agreements between IRFC and IR protect the former's net interest margin, as interest and foreign exchange risks on its borrowings are transferred to IR. IRFC also plans to diversify its business profile by lending outside IR; however, this will form a small part of the total portfolio and advances will be to entities having linkages with IR.

Strong capitalisation and asset quality

Capitalisation is strong, marked by continued support from the GoI. As on December 31, 2021, networth was Rs 39,505 crore and capital adequacy ratio was 466.34%. GoI has been infusing equity capital at regular intervals to support the capital structure (Rs 2854 crore and Rs 2500 crore infused in fiscal 2019 and fiscal 2020, respectively). Further, Rs 3,088.92 crore were raised via IPO in fiscal 2021. Gearing stood at 9.34 times as on December 31, 2021 (9.00 times as on March 31, 2021), and may remain around 10 times on a steady state basis.

Asset quality is strong, with zero non-performing assets as on date, as IRFC mainly lends to IR, which is a sovereign entity.

Adequate resource profile

Ability to raise long-term funds at competitive rates is underpinned by IRFC's access to a diversified pool of wholesale investors, including banks, mutual funds, pension and gratuity funds, insurance companies, as well as external commercial borrowings (ECBs). The weighted average cost of borrowing was around 6.38% (annualized) for six months ended September 30, 2021 (6.35% for fiscal 2021) and compares well with that of its peers.

Weakness:

Average Earnings Profile

Earnings profile remains average as IRFC is a funding vehicle, and enhancing profitability is not the primary objective. The margin remains stable, by way of a mark-up over the borrowing cost. CRISIL Ratings, therefore, believes that IRFC will continue to generate adequate return on its assets of 1.51% (annualized) for nine months ended December 31, 2021 (1.35% in fiscal 2021).

Liquidity: Superior

IRFC had total borrowings of Rs 369102 crore as on December 31, 2021. Total debt maturing over next three months till June 30, 2022 is Rs 15,811 crore. Against this, IRFC had cash balance of Rs 13 crore and unutilised bank lines of Rs 12,418 crore as on March 31, 2022.

Outlook: Stable

CRISIL Ratings believes IRFC will continue to derive business and financial support from the GoI because of its strategic role in channelling finance to IR. Support from GoI should help IRFC maintain a strong credit risk profile.

Rating Sensitivity Factors

Downward Factors

- Reduction in the shareholding by Gol below 51%, leading to diminution in expected support to IRFC.
- Significant deterioration of asset quality leading to subsequent pressure on profitability and capitalization.

About the Company

IRFC was set up as a dedicated funding arm of MoR, specifically to raise resources from the capital market to finance rolling stock (wagons and coaches). IRFC leases rolling stock to IR and collects lease rentals from IR in advance, at half-yearly intervals. An annual lease agreement, structured to ensure that IRFC's expenses (mainly cost of borrowing) are covered, backs this arrangement and allows IRFC to earn adequate margin.

For fiscal 2021, IRFC reported profit after tax (PAT) of Rs 4416 crore on total income (net of interest expenditure) of Rs 4534 crore, as against Rs 3192 crore and Rs 3258 crore, respectively, for the previous fiscal.

For nine months ended December 31, 20210, IRFC reported profit after tax (PAT) of Rs 4597 crore on total income (net of interest expenditure) of Rs 4647 crore, as against Rs 2934 crore and Rs 2997 crore, respectively, for the corresponding period previous fiscal.

About CRISIL Ratings Limited (A subsidiary of CRISIL Limited)

CRISIL Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

CRISIL Ratings Limited ('CRISIL Ratings') is a wholly-owned subsidiary of CRISIL Limited ('CRISIL'). CRISIL Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").

Rationale

The ratings for Indian Railway Finance Corporation (IRFC) Ltd factor in its sovereign ownership (86.36% held by the Government of India (GoI) as on March 31, 2022) and its strategic importance to the Ministry of Railways (MoR). IRFC was set up as the sole agency for funding the MoR's extra budgetary requirement, the other source being Government budgetary funds. With the MoR being the sole counterparty to IRFC on its own and through other public sector undertakings (Irrcon International Limited (IRCON) and Rail Vikas Nigam Limited (RVNL)) under its direct purview, IRFC's loan book has maintained favourable asset quality indicators and a low credit risk profile. The company enjoys good financial flexibility by virtue of its sovereign ownership. The ratings also factor in IRFC's adequate capitalisation in relation to its risk profile, supported by regular equity infusions by the GoI, and its adequate liquidity profile supported by the long tenure of its borrowings and its moderate earnings profile.

Nevertheless, given the planned capital expenditure by the MoR, IRFC would continue to increase its borrowings and would need regular capital support to maintain a prudent capitalisation profile. This could lead to further dilution in the GoI's stake in IRFC, though ICRA expects the GoI to maintain a majority stake in the company and IRFC to remain strategically important to the MoR. By virtue of its mandate, IRFC has high credit concentration with its business growth highly dependent on the MoR's expansion plans for the Indian Railways. ICRA expects IRFC to maintain a dominant share in the MoR's increasing requirement for funding rolling stock, given its quasi-sovereign franchise and demonstrated ability to mobilise funds at competitive rates.

Key rating drivers and their description

Credit strengths

Sovereign ownership and strategic importance to GoI – GoI has a majority shareholding (86.36%) in IRFC. Its primary activity is to mobilise funds on behalf of the Indian Railways for procuring locomotives, passenger coaches and wagons as well as funding of railway projects. The Union Budget for FY2023 has allocated Rs. 1,01,500 crore to be raised through Extra Budgetary Resources (EBR) for the Indian Railways. IRFC has been given the mandate of raising Rs. 66,500 crore, which forms 66% of the total EBR budgeted to be raised by the MoR. ICRA expects IRFC to maintain a dominant share in the MoR's increasing funding requirements, given its proven ability to mobilise funds at competitive rates, which is supported by its quasi-sovereign franchise. Consequently, ICRA expects IRFC to remain strategically important to the MoR going forward as well.

Superior asset quality – With sovereign accounting for 98% of IRFC’s exposure, it continues to maintain superior asset quality with Nil gross non-performing advances (NPAs) as on December 31, 2021. ICRA notes that the Board of Directors have approved amendments in its Article of Association to allow lending to other infrastructure-related sectors subject to the approval of Administrative Ministry and Shareholders special resolution, though lending to other sectors would take time to build up. ICRA expects the company to maintain similar asset quality indicators, going forward as well, as a large part of the exposure will remain towards the MoR.

Strong financial flexibility and liquidity support – Given its quasi-sovereign status, IRFC has been able to raise funds from domestic and international markets at competitive rates. It also has the approval of the GoI to issue low-cost capital gains bonds under section 54EC, which further supports the competitive cost of funds. As on December 31, 2021, about 46% of the company’s borrowings were through a combination of long-term domestic tax-free and taxable bonds, 31% from banks, ~15% from external commercial borrowings including foreign currency market borrowings and foreign currency loans, 5% from National Small Savings Funds and the balance (3%) through short-term borrowings. Also, as the entire cost of funds passes through to the MoR as per the Standard Lease Agreement, the company’s earnings profile is insulated from any adverse movement in the interest rates and exchange rates through variation clauses.

Adequate capitalisation levels – IRFC reported a healthy CRAR of 466% and a net worth of Rs. 39,505 crore as on December 31, 2021, supported by the zero per cent risk weight associated with the MoR’s exposures as well as its stable internal capital generation. The reported gearing remained moderately high at 9.9 times as on December 31, 2021 (after including Rs. 22,200 crore of “other financial liabilities” in the borrowings, without which the gearing is 9.3 times). ICRA notes that although the management had a stated intention earlier of maintaining the long-term leverage below 10 times, the same can exceed 10 times in the medium term given the GoI’s plan for capital expenditure and the subsequent demand to be placed on IRFC. The company had raised Rs. 3,088.92 crore through an initial public offering (IPO) in January 2021 and had received an equity infusion of ~Rs. 2,500 crore from the GoI in March 2020, which supported its capital structure. Nevertheless, given the long-term nature of its assets and the expected growth from the GoI’s plan for capital expenditure, it would be imperative for IRFC to raise capital to maintain prudent capitalisation going forward.

Credit challenges

High concentration risk – By virtue of its mandate, IRFC faces credit concentration risk due to its exposure (100%) to the MoR or its controlled entities. The company is highly dependent on the MoR’s expansion plans for growth. However, it is exempted from the Reserve Bank of India’s (RBI) credit concentration norms to the extent of its exposure to the MoR. Apart from the leased assets to the MoR (98% of the portfolio as on December 31, 2021), the company has provided loans (2%) to MoR-owned entities – RVNL and IRTC – which undertake the construction of new railway lines, highways, bridges and port connectivity. These entities have a supportive memorandum of understanding (MoU) with the MoR for the repayment of their borrowings, which is likely to ensure their debt servicing to IRFC.

Moderate profitability indicators – IRFC operates on a fixed lending spread model, whereby it on-lends to the MoR at a fixed margin (~30-50 bps) over its weighted average cost of borrowing plus all other costs incidental to borrowing. This margin is in accordance with the terms of the Standard Lease Agreement signed by the company with the MoR at the end of every fiscal and was 40 bps for rolling stock and 35 bps for project assets in FY2022. Though the fixed lending spread model limits the profitability to an extent, the company’s low operating expenses owing to the wholesale nature of the business as well as the negligible credit costs due to the superior asset quality indicators provide support to the profitability profile.

IRFC has exercised the option permitted under Section 115BAA of the Income-tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated September 20, 2019. Since the company’s taxable income under normal assessment is nil, it would not be required to pay any tax on exercising this option. IRFC would also be outside the scope of Section 115JB of the Income-tax Act, 1961 and would accordingly not be required to pay the minimum alternate tax with effect from FY2020. This, in turn, has resulted in improved profitability indicators with the return on assets (RoA) and return on equity (RoE) increasing to 1.5% and 16.3%, respectively, in 9M FY2022 from 1.3% and 13.34%, respectively, in FY2021. ICRA expects the profitability indicators to remain stable going forward as well.

Liquidity position: Adequate

As on March 31, 2022, IRFC had positive cumulative mismatches across all buckets after adjusting for loan disbursements as per past trends. In addition, given its sovereign ownership, IRFC enjoys strong financial flexibility with access to funding from diverse sources, which could be tapped to plug temporary mismatches arising out of debt repayments occurring throughout the year while lease rentals are received twice a year. IRFC had ~Rs. 13 crore of unencumbered cash and cash equivalents as on March 31, 2022 and sanctioned but unutilised lines of Rs. 8,968 crore compared with debt repayment of Rs. 22,657 crore during April-September 2022. IRFC also has the option to seek advance lease rentals from the MoR, if needed, embedded in the Standard Lease Agreement with the MoR. However, this option has not been exercised by IRFC since inception, which provides further comfort regarding its repayment track record and liquidity management.

Rating sensitivities

Positive factors – Not applicable

Negative factors – A significant dilution in the Gol's stake or a decline in the strategic importance of IRFC as the sole arranger of lease finance for the MoR may warrant a change in its credit ratings.

About the company

Indian Railway Finance Corporation Ltd was incorporated by the Government of India, Ministry of Railways (MoR) in 1986 as a financing arm of the Indian Railways for the purpose of raising necessary resources for meeting the developmental needs of the Indian Railways. The company's principal business is to borrow funds from financial markets to finance the acquisition/creation of assets, which are then leased out to the Indian Railways as a finance lease. IRFC is a Schedule 'A' Public Sector Enterprise under the administrative control of the MoR, the Gol. It is also registered as a systemically important non-deposit taking non-banking financial company (NBFC-ND-SI) and an infrastructure finance company (NBFC-IFC) with the RBI.

Apart from providing finance to the MoR, IRFC provides loans to RVNL, an entity wholly owned by the MoR, and IRCON, a public sector undertaking in which the Gol has a majority stake (73.18% as on March 31, 2022).

As on December 31, 2021, IRFC's assets under management (AUM) stood at Rs. 4,02,301 crore with 98% comprising receivables from the MoR. In 9M FY2022, IRFC reported a net profit (profit after tax; PAT) of Rs. 4,597 crore on an asset base of Rs. 4,31,405 crore as on December 31, 2021. In FY2021, IRFC reported a PAT of Rs. 4,416 crore and an AUM of Rs. 3,60,079 crore on an asset base of Rs. 3,78,733 crore as on March 31, 2021 compared to a PAT of Rs. 3,192 crore and an AUM of Rs. 2,66,137 crore on an asset base of Rs. 2,75,534 crore as on March 31, 2020.

The Complexity Indicator refers to the ease with which the returns associated with the rated instrument could be estimated. It does not indicate the risk related to the timely payments on the instrument, which is rather indicated by the instrument's credit rating. It also does not indicate the complexity associated with analysing an entity's financial, business, industry risks or

complexity related to the structural, transactional, or legal aspects. Details on the complexity levels of the instruments are available on ICRA's website: www.icra.in

INDEPENDENT AUDITOR'S LIMITED REVIEW REPORT ON UNAUDITED STANDALONE FINANCIAL RESULTS FOR THE QUARTER AND NINE MONTH PERIOD ENDED 31st DECEMBER 2022

The Board of Directors,
Indian Railway Finance Corporation Limited,
Room No.1316-1339, 3rd Floor,
The Ashok, Diplomatic Enclave,
50-B, Chanakyapuri, New Delhi 110021

1. We have reviewed the accompanying statement of un-audited financial results of Indian Railway Finance Corporation Limited ("the company") for the quarter and nine month period ended 31st December 2022 together with the notes thereon ("the statement"), being submitted by the Company pursuant to the requirement of regulation 33 & 52 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 as amended ("the Listing Regulations").
2. This statement, which is the responsibility of the Company's management and approved by the Board of Directors in its meeting held on 13th February 2023, has been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to issue a report on the financial statement based on our review.
3. We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provide less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results, prepared in accordance with the recognition and measurement principles laid down in the applicable Indian Accounting Standards specified under Section 133 of Companies Act 2013 as amended read with relevant rules issued thereunder and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Clause 52 of the Listing regulations including the manner in which it is to be disclosed, or that it contains any material misstatement or that it has been prepared in accordance with relevant prudential norms issued by the

Reserve Bank of India in respect of income recognition, asset classification, provisioning and other related matters to the extent applicable.

5. The Company has made provision of CSR expenses on prorated basis for the nine month period ending 31st December 2022.

Our conclusion on the Statement is not modified in respect of above matter.

Sub: Outcome of Meeting of the Board of Directors held on Thursday, 10th November 2022

Sir/ Madam,

This is to inform that pursuant to the applicable provisions of SEBI (LODR) Regulations, 2015, the Board of Directors of the Company at its meeting held on **Thursday, 10th November 2022** inter alia, considered and approved the following:

1. Approval of the Un-audited Financial Results for the quarter and half year ended 30th September 2022

Pursuant to Regulation 33 of SEBI (LODR) Regulations, 2015, as amended from time to time, this is to inform that Board of Directors considered and approved the Un-audited Financial Results of the Company and other financial statements namely Cash Flow Statement for the quarter and half year ended 30th September 2022 and Balance Sheet as on that date along with Statutory Auditor's Limited Review Report thereon. The Un-audited financial results have been reviewed by the Audit Committee and approved & taken on record by the Board of Directors of the company in their respective meetings held on 10th November 2022.

The disclosure of related party transaction in terms of Regulation 23(9) of SEBI (LODR) Regulations, 2015 is enclosed herewith. Further, disclosure in accordance with Regulation 52(4) & 54 of SEBI (LODR) Regulations, 2015 and the impact of COVID-19 pandemic on the Company in terms of SEBI circular dated May 20, 2020 is mentioned in the said financial results.

2. Declaration of Interim Dividend

Pursuant to Regulation 30 and 43 of the SEBI (LODR) Regulations, 2015, as amended from time to time this is to inform that the Board of Directors have declared an Interim Dividend of Rs. 0.80/- per equity share of Rs 10/- each.

Further, as informed vide letter dated 4th November 2022, the "Record date" for determining eligibility of shareholders for payment of the said interim Dividend, as declared by the Board is Friday, 18th November 2022.

The dividend will be paid in the account of the shareholder(s) or the dividend warrant(s) in respect thereof will be dispatched within thirty (30) days from the date of declaration. Shareholder(s) are kindly requested to update/ submit details for TDS on dividend to Registrar and Transfer Agent of the Company at irfc@beetalfinancial.com on or before Friday, 18th November 2022.

No communication on the tax determination/deduction of tax at lower rates shall be entertained after Friday, 18th November 2022. It is further informed that in case tax on dividend is deducted at a higher rate in the absence of requisite details/ documents, refund of the excess tax paid may still be claimed by shareholders at the time of filing of income tax return. However, no claim shall lie against the Company for such taxes deducted. Further, shareholders will be able to see the credit of TDS in Form 26AS, which can be downloaded from their e-filing account at Income Tax portal.

The meeting commenced at 5:30 P.M. and concluded at 6:40 P.M. This is submitted for your information and record.

Thanking You,

- Estimation of uncertainty relating to the Global Health Pandemic COVID-19

The outbreak of coronavirus (COVID -19) pandemic globally and in India is causing disturbance and slowdown of economic activity. The Company has adopted measures to curb the spread of infection in order to protect the health of its employees and ensure business continuity with minimal disruption.

The Company has evaluated the impact of this pandemic on its business operations and based on its review and current indicators of future economic conditions, there is no significant impact on its financial results. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration and accordingly the impact may be different from that estimated as at the date of approval of these financial results. The Company will continue monitoring any material changes to future economic conditions.

INDEPENDENT AUDITOR'S LIMITED REVIEW REPORT ON UNAUDITED STANDALONE FINANCIAL RESULTS FOR THE QUARTER AND HALF YEAR ENDED 30TH SEPTEMBER 2022

The Board of Directors,
Indian Railway Finance Corporation Limited,
Room No.1316-1339, 3rd Floor,
The Ashok, Diplomatic Enclave,
50-B, Chanakyapuri, New Delhi 110021

1. We have reviewed the accompanying statement of un-audited financial results of Indian Railway Finance Corporation Limited ("the company") for the quarter and half year ended 30th Sept, 2022 together with the notes thereon ("the statement"), being submitted by the Company pursuant to the requirement of regulation 33 & 52 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 as amended ("the Listing Regulations").
2. This statement, which is the responsibility of the Company's management and approved by the Board of Directors in its meeting held on 10th Nov, 2022, has been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "*Interim Financial Reporting*" ("*Ind AS 34*"), prescribed under section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to issue a report on the financial statement based on our review.
3. We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provide less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results, prepared in accordance with the recognition and measurement principles laid down in the applicable Indian Accounting Standards specified under Section 133 of Companies Act 133 as amended read with relevant rules issued thereunder and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Clause 52 of the Listing regulations including the manner in which it is to be disclosed, or that it contains any material misstatement or that it has been prepared in accordance with relevant prudential norms issued by the Reserve Bank of

India in respect of income recognition, asset classification, provisioning and other related matters to the extent applicable.

5. The Company has made provision of CSR expenses on prorate basis for the half year ending September 30, 2022.

Our conclusion on the Statement is not modified in respect of above matter.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Indian Railway Finance Corporation Limited

CIN U65910DL1986GOI026363

Statement of significant accounting policies

1. Background

Indian Railway Finance Corporation Ltd., referred to as “the Company” or “IRFC” was incorporated by the Government of India, Ministry of Railways, as a financing arm of Indian Railways, for the purpose of raising the necessary resources for meeting the developmental needs of Indian Railways. The Company’s principal business is to borrow funds from the financial markets to finance the acquisition / creation of assets which are then leased out to the Indian Railways as finance lease. IRFC is a Schedule ‘A’ Public Sector Enterprise under the administrative control of the Ministry of Railways, Govt. of India. It is also registered as Systemically Important Non-Deposit taking Non Banking Financial Company (NBFC – ND-SI) and Infrastructure Finance Company (NBFC- IFC) with Reserve Bank of India (RBI). The President of India along with his nominees holds 86.36% of the equity share capital.

The registered address and principal place of business of the Company is Room Nos. 1316 - 1349, 3rd Floor, Hotel The Ashok Diplomatic Enclave, 50-B, Chanakyapuri New Delhi -110021.

2. Significant Accounting Policies

A summary of the significant accounting policies adopted in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

2.1 Statement of Compliance

The financial statements have been prepared on going concern basis following accrual system of accounting in accordance with the Indian Accounting Standards (‘Ind AS’) notified under the Companies (Indian Accounting Standards) Rules 2015 and subsequent amendments thereto, read with Section 133 of the Companies Act, 2013 and other Accounting principles generally accepted in India.

2.2 Basis for preparation of financial statements

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Unless otherwise stated, all amounts are stated in Millions of Rupees.

Historical cost is the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire assets at the time of their acquisition or the amount of proceeds received in exchange for the obligation, or at the amounts of cash or cash equivalents expected to be paid to satisfy the liability in the normal course of business.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. Fair value for measurement and/or disclosure purpose in these financial statements is determined on such basis except for, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value.

In addition, for financial reporting purposes fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs for the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

- Level 1 -Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 -Inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3- inputs are unobservable inputs for the asset or liability.

2.3 Use of estimates

The preparation of financial statements requires management to make judgments, estimates and assumptions that may impact the application of accounting policies and the reported value of assets, liabilities, income, expenses and related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date. The estimates and management's judgments are based on previous experience & other factors considered reasonable and prudent in the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In order to enhance understanding of the financial statements, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is as under:

a) Formulation of accounting policies

The accounting policies are formulated in a manner that results in financial statements containing relevant and reliable information about the transactions, other events and conditions to which they apply. Those policies need not be applied when the effect of applying them is immaterial.

b) Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

c) Provisions and contingencies

IRFC SIGNIFICANT ACCOUNTING POLICIES

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37 'Provisions, contingent liabilities and contingent assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

d) Income taxes

Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/ recovered for uncertain tax positions.

2.4 Revenue

Company's revenues arise from lease income, dividend income, interest on lease advance, loans, deposits and investments. Revenue from other income comprise miscellaneous income etc.

Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Finance lease income in respect of finance leases is allocated to the accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease. (Also see accounting policy on leases at 2.14).

Interest income from financial assets is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Pre-commencement lease-interest income is determined based on the MOU entered with Ministry of Railways and when it is probable that the economic benefits will flow to the Company and the amount can be determined reliably.

Dividend income is recognized in profit or loss only when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

2.5 Foreign Currency Transaction

Functional and presentation currency

Items included in the financial statements of entity are measured using currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is entity's functional and presentation currency.

Transactions and Balances

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item.

2.6 Employee Benefits

Defined contribution plan

A Defined contribution plan is a post-employment benefit plan under which the company pays fixed contributions in respect of the employees into an independent fund administered by the government/ pension fund manager and will have no legal or constructive obligation to pay further amounts after its payment of the fixed contribution. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in statement of profit and loss in the period during which services are rendered by employees.

The company has a defined contribution plan which includes pension scheme and provident fund scheme. Company's contribution towards provident fund and pension scheme for the year are recognised as an expense and charged to the statement of profit and loss.

Defined benefit plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The company's liability towards gratuity and post-retirement benefits such as medical benefits are in the nature of defined benefits plans.

The company's net obligation in respect of defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of reporting period. Actuarial gain/loss on re-measurement of gratuity and other post-employment defined plans are recognised in other comprehensive income (OCI). Past service cost is recognised in the statement of Profit and Loss account in the period of a plan amendment.

Other long-term employee benefits

The company's obligation towards leave encashment and employee family benefit scheme are in the nature of other long term employee benefits. Liability in respect of compensated absences becoming due or expected to be availed more than one year after the balance sheet date and employee family benefit scheme are estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Short-term employee benefits

Short term employee benefits such as salaries and wages are recognised on undiscounted basis in the statement of Profit and Loss account, on the basis of the amount paid or payable for the period during which services are rendered by the employee.

2.7 Taxation

Tax expense comprises Current Tax and Deferred Tax.

Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax is recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current tax is also recognised in other comprehensive income or directly in equity respectively.

The Company is exercising the irrevocable option as permitted by section 115BAA of the Income – tax Act, 1961 whereby by foregoing certain exemptions, deductions and allowances, the tax rate applicable to the Company is lower than the normal tax rate that would have been otherwise applicable to the Company. Henceforth, minimum alternate tax provisions of section 115JB of the Income – tax Act, 1961 are not applicable to the Company.

Deferred Tax

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Company does not recognize deferred tax asset or deferred tax liability because as per Gazette Notification no. S.O. 529(E) dated 5th February 2018 as amended by notification no. S.O. 1465 dated 2

IRFC SIGNIFICANT ACCOUNTING POLICIES

April 2018 issued by Ministry of Corporate Affairs, Government of India, read with their communication no. Eoffice F.No.17/32/2017 – CL – V dated 20th March 2020, the provisions of Indian Accounting Standards 12 relating to Deferred Tax Assets (DTA) or Deferred Tax Liability (DTL) does not apply to the Company.

2.8 Property, Plant and Equipment (PPE)

An item of property, plant and equipment is recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Items of property, plant and equipment are initially recognized at cost. Subsequent measurement is done at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipment have different useful lives, they are recognized separately.

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

De-recognition

Property, plant and equipment is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on de-recognition of an item of property, plant and equipment are determined by comparing the proceeds from disposal, if any, with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

Depreciation

Depreciation on property, plant and equipment has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

2.9 Intangible assets

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets that are acquired by the Company, which have finite useful lives, are recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated

IRFC SIGNIFICANT ACCOUNTING POLICIES

impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

De-recognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains & losses on de-recognition of an item of intangible assets are determined by comparing the proceeds from disposal, if any, with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Amortization

Software is amortized over 5 years on straight-line method.

2.10 Borrowing costs

Borrowing costs consist of interest expense calculated using the effective interest method as described in Ind AS 109 'Financial Instruments' and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs that are directly attributable to the acquisition, construction/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which necessarily take substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of all borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete.

All other borrowing costs are recognized as an expense in the year in which they are incurred.

2.11 Cash and cash equivalents

IRFC SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.12 Provisions, contingent liabilities and contingent assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance costs.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

2.13 Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

IRFC SIGNIFICANT ACCOUNTING POLICIES

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.14 Leases

At inception of a contract, the Company assesses whether the contract is, or contains a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessor

The Company classifies each of its leases as either an operating lease or a finance lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. The depreciation policy for depreciable underlying assets subject to operating leases is consistent with the Company's normal depreciation policy for similar assets.

Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is

IRFC SIGNIFICANT ACCOUNTING POLICIES

allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Company as a lessee

At the contract commencement date, the Company recognizes right – of – use asset and a lease liability. A right – of – use asset is an asset that represents a lessee's right to use an underlying asset for the lease term. The Company has elected not to apply the aforesaid requirements to short term leases (leases which at the commencement date has a lease term of 12 months or less) and leases for which the underlying asset is of low value as described in paragraphs B3 – B9 of Ind AS 116.

A right of use asset is initially measured at cost and subsequently applies the cost mode ie less any accumulated depreciation and any accumulated impairment losses and adjusted for any remeasurement of lease liability. Ind AS 16, Property, Plant and Equipment is applied in depreciating the right – of – use asset.

A lease liability is initially measured at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the Company's incremental borrowing rate is used. Subsequently, the carrying amount of the lease liability is increased to reflect interest on lease liability; reduced to reflect the lease payments; and remeasured to reflect any reassessment or lease modifications or to reflect revised in – substance fixed lease payments.

2.15 Securitisation of Finance Lease Receivable

Lease Receivables securitised out to Special Purpose Vehicle in a securitisation transactions are de-recognised in the balance sheet when they are transferred and consideration has been received by the Company.

The resultant gain/loss arising on securitization is recognised in the Statement of Profit & Loss in the year in which transaction takes place.

Lease Receivables assigned through direct assignment route are de-recognised in the balance sheet when they are transferred and consideration has been received by the Company. Profit or loss resulting from such assignment is accounted for in the year of transaction.

2.16 Leasing of Railway Infrastructure Assets

In terms of Indian Accounting Standard 116, the inception of lease takes place at the earlier of the date of the lease agreement and the date of a commitment by the parties to the principal provisions of the lease.

The commencement of the lease term is the date from which the lessee is entitled to exercise its right to use the leased asset. It is the date of initial recognition of the lease.

IRFC SIGNIFICANT ACCOUNTING POLICIES

As such, in respect of Railway Infrastructure Assets, which are under construction and where the Memorandum of Understanding / terms containing the principal provisions of the lease are in effect with the Lessee, pending execution of the lease agreement, the transactions relating to the lease are:

- (a) presented as "Advance against Railway Infrastructure Assets to be leased"; and thereafter
- (b) transferred to "Project Infrastructure Assets under Finance Lease Arrangement" on receipt of utilization report from the lessee; and thereafter
- (c) transferred to lease receivable as per Ind AS 116 on execution of lease agreement.

2.17 Dividends

Dividends and interim dividends payable to the Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

2.18 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

2.19 Earnings per share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

2.20 Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of cash flows'.

2.21 Operating Segments

The Managing Director (MD) of the Company has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108, "Operating Segments".

The Company has identified 'Leasing and Finance' as its sole reporting segment.

IRFC SIGNIFICANT ACCOUNTING POLICIES

2.22 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.22.1. Financial Assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset.

Subsequent measurement

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at Fair value through Other Comprehensive Income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange

IRFC SIGNIFICANT ACCOUNTING POLICIES

gain or loss in the profit and loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to profit and loss.

Debt instrument at Fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to classify a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in entities other than subsidiaries and joint venture companies are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable. The Company has decided to classify its investments into equity shares of IRCON International Limited through FVTOCI.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- (a) Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, debt securities, deposits and bank balance.
- (b) Financial assets that are debt instruments and are measured as at FVTOCI.
- (c) Lease receivables under Ind AS 116.
- (d) Loan commitments which are not measured as at FVTPL.
- (e) Financial guarantee contracts which are not measured as at FVTPL.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

2.22.2. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to borrowings, trade payables and other contractual liabilities.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risks are recognized in OCI. These gains/losses are not subsequently transferred to profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit and loss.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Derivative financial instruments

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts, cross currency swaps and interest rate swaps to hedge its foreign currency risks and interest rate risks of foreign currency loans. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken to statement of profit and loss. Where the derivative is designated as a hedging instrument, the accounting for subsequent changes in fair value depends on the nature of item being hedged and the type of hedge relationship designated. Where the difference is a pass through the lessee, the amount is received/reimbursed to the lessee.

IRFC SIGNIFICANT ACCOUNTING POLICIES

2.23 Standards issued but not yet effective:

The Ministry of Corporate Affairs has vide notification dated 23 March 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amends certain accounting standards, and are effective 1 April 2022. Below is a summary of such amendments:

1. Ind AS 16 Property, Plant and Equipment
Proceeds before intended use of property, plant, and equipment.
The amendment clarifies that an entity shall deduct from the cost of an item of property, plant, and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use (for example, the proceeds from selling samples produced when testing a machine to see if it is functioning properly).
2. Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets
Onerous Contracts – Cost of fulfilling a contract.
The amendment explains that the cost of fulfilling a contract comprises: the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts.
3. Ind AS 103 Business combinations
References to the conceptual framework.
The amendment adds a new exception in Ind AS 103 for liabilities and contingent liabilities.
4. Ind AS 109 Financial Instruments
Fees included in the 10% test for de-recognition of financial liabilities.
The amendment clarifies which fees an entity includes when it applies the '10%' test in assessing whether to derecognise a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf.
5. Ind AS 101 First time adoption
Subsidiary as a first-time adopter.
Simplifies the application of Ind AS 101 by a subsidiary that becomes a first-time adopter after its parent in relation to the measurement of cumulative translation differences.
6. Ind AS 41 Agriculture
Taxation in fair value measurements.
The amendment removes the requirement in Ind AS 41 for entities to exclude cash flows for taxation when measuring fair value. This aligns the fair value measurement in Ind AS 41 with the requirements of Ind AS 113, Fair Value Measurement.

These amendments have either no applicability to the Company or if applicable, the impact is either immaterial or presently being ascertained.

a. Claims against the Company not acknowledged as debt – Claims by bondholders in the consumer / civil courts	0.23	4.22	4.22

b. Claims against the Company not acknowledge as debt – relating to service matter pending in Hon'ble Supreme Court - amount not ascertainable.

c. The procurement/acquisition of assets leased out by the Company to the Indian Railways is done by Ministry of Railways (MOR), Government of India. As per the lease agreements entered into between the Company and MOR, the Sales Tax/ VAT liability, if any, on procurement/acquisition and leasing is recoverable from MOR. Since, there is no sales tax/ VAT demand and the amount is unascertainable, no provision is considered necessary.

d. Director-General of GST Intelligence (DGGI), Chennai Zonal unit has served a show cause notice dated 16-4-2019 on the company alleging contravention of the provision of sec 67,68 and 70 of the Finance Act, 1994 by the company and as to why service tax of Rs26,537.65 million along with interest and penalty be not demanded from the company. The company has submitted reply against the Show Cause notice stating that there is no contravention of the provision of any of the above-stated section of the Finance Act, 1994. Against the reply given by the company, vide letter dt 21-10-20, Commissioner, CGST, Delhi East, seeking comments given by the DGGI, Chennai Zonal unit and the company filed the counter comments to the department and the company is not liable to pay the tax. However, if any liability arises that would be recoverable from the Ministry of Railways, Government of India. "

e. The disputed demand of tax including interest thereon for the AY 2015-16 was Rs. 9.48 million. Against the said demand, the Company has filed a rectification application u/s 154. Based on the decisions of the Appellate Authority in similar matters and interpretation of relevant provisions, the Company is confident that the demands will be either deleted or substantially reduced, and accordingly, no provision is considered necessary. However, the said demand of Rs.9.48 million has been adjusted by the department, out of the refund to IRFC for the AY 2016-17.

f. The income tax assessment of the Company has been completed up to the AY 2019-20. During the year, an intimation u/s 143(1) for FY 2018-19 was received from the CPC . In the said intimation, TDS credit has been short granted by Rs.1502.46 million despite it appearing in Form 26AS. Further, the book profit has been increased by Rs.1,462.42 million without any reason and a demand of additional tax and interest thereon has been raised. The demand of Rs.2,043.26 million has been adjusted against the refund claimed for AY 2020-21.

Against the said demand issued by the CPC u/s 143 (1), an appeal was filed at CIT (A) on 28 January 2022 for consideration of TDS credit and removal of additional demand, and also rectification application u/s 154 was filed on 1 February 2022 for consideration of TDS credit. Pending disposal of the appeal, management is of the view that no provision is required.

Ratings

Indian Railways has always been instrumental in driving economic growth, social progress and national integration by bringing people and places closer. At IRFC, we have played a strategic role in the expansion of Indian Railways network, funding the capital expenditure at competitive rates.

Our funding sources continue to be diversified, with the cost of borrowing among the lowest in the industry, supported by high long-term credit ratings by esteemed national and international credit rating agencies. Over the years, we have evolved a sustainable business model, characterised by low-risk, low-cost and high operational efficiency.

Our commitment is to channelise our resources prudently for the development of the railway sector over the long term. Despite pandemic-induced challenges in the operating environment, we have been able to achieve high performance benchmarks in FY 2021-22 in almost all aspects of our business, with surging net worth & profitability.

Our exciting journey continues with unwavering focus on resourcefulness, commitment and sustainability.

Chairman's message

We have consistently exhibited robust financial performance on the back of raising funds at competitive rates. This has helped us to keep our cost of borrowings low. Strategic relationship with the Ministry of Railways enables us to maintain a low risk profile.

Dear Shareholders,

Financial Year 2021-22 had remained one of the most challenging years since the inception of Company on account of the impact of the Covid, Ukraine war, inflation concerns, resurging cases of Covid in China and fragile recovery of economy from the impact of Covid. Even though the financial sector remained under tremendous stress due to pandemic situation and volatility in the market arising from global macro issues, the Company continued to exhibit excellent performance which was primarily attributed to its strategic relationship with MOR, strong financials and its dedicated workforce. I want to express my gratitude

to the frontline workers who have worked dedicatedly for our wellbeing and also offer condolences to all those who lost their loved ones.

Economic Overview

When the world was on the cusp of returning to normalcy post the third wave of the pandemic, the escalation of the geopolitical crisis, hit the world economy hard. The consequential spike in commodity prices impacted growth prospects by pushing up the already high inflation.

However, even in this backdrop, there are enough reasons to be optimistic. Notwithstanding the challenges, India's strong economic fundamentals are helping the country overcome the long-term impact of the crisis. India's GDP has grown by 8.7% in FY 2022 after contracting 6.6% during the previous fiscal.

Indian Railways Sector

The Indian Railways has demonstrated exemplary performance over the last two years despite operational challenges. It has been able to provide a cost effective and hassle-free mode of transportation for millions of people while ensuring continuous movement of goods across the country.

The Government of India's commitment to strengthen the country's railway infrastructure is reflected through various initiatives undertaken to boost the sector such as a 16.9% increase in allocation

in the Union Budget 2022-23 to the tune of ₹ 1,40,367.13 crore. Additionally, the development of 400 new 'Vande Bharat' trains and 100 freight terminals over the next three years under the PM Gati Shakti project will provide the much needed impetus to the sector. With the sector experiencing dynamic growth with world-class advancements in both freight and passenger transportation, it is poised to emerge as an engine of economic growth of the country.

In the changing infrastructure landscape of the country, the Indian Railways in particular, we, at IRFC are determined to contribute to India's resolve in developing and expanding the infrastructure sector with a special focus on the Railways. To substantiate this, I would also like to make mention about our funding target of ₹ 66,500 crore in FY 2022- 23 from the Ministry of Railways which will be mobilised from domestic as well as overseas financial market.

Operational Highlights

We have consistently exhibited robust financial performance on the back of raising funds at competitive rates. This has helped us keep our cost of borrowings low. Strategic relationship with the Ministry of Railways enables us to maintain a low risk profile. The FY2021-22 has been another year of strong financials. The total disbursement for FY 2021-22 was ₹ 60,683.41 Crores comprising of ₹ 28,100 Crore for funding of Rolling Stock, ₹ 31,883.41 Crore for financing of Railway

The weighted average cost of the pool of borrowings made by Company during the year 2021-22 worked out to 6.42% (semi-annual) as against 6.51% (semi-Annual) during the previous year 2020-21.

Revenue from operations of Company has increased by ₹ 45,280.47 million from ₹ 1,57,702.21 million in 2020-21 to

₹ 2,02,982.68 million in 2021-22, showing a growth of 28.71 %. Profit before Tax (PBT) of Company for the year ended 31st March 2022 was ₹ 60,901.55 million as compared to ₹ 44,161.31 million for the previous year, registering a growth of 37.91%.

During the year, the Company constantly diversified its borrowing portfolio to meet the target of borrowings mandated by MoR at the most competitive rates and terms. In its endeavor towards diversification of borrowing portfolio, Company raised funds to the extent of USD 500 Million through Green Bonds at a fixed coupon of 3.57% semi-annual rate. Company also raised JPY loan equivalent to USD 1.10 bn/INR 8,274.23 Cr comprising of two tranches of USD 700 mn and USD 400 mn having tenor of 10 years and 7 years respectively through Green Loan (Offshore loan).

Your Company based on its performance vis-à-vis the targets set out in the MOU for the year 2020-21, was awarded 'Excellent' rating from the Department of Public Enterprises.

The Company continued to maintain high level of employee productivity and efficiency as reflected in its low overhead to turnover ratio of less than 0.13%.

As on 31st March 2022, 86.36% of the paid-up equity share capital of the Company comprising of 11,28,64,37,000 Equity Shares of ₹ 10/- each were held by President of India acting through administrative ministry i.e., Ministry of Railways (MoR). The balance 13.64% of paid-up equity share capital was held by public. Based on market capitalization of Company, it is in the list of top 500 listed companies as on 31st March 2022.

Company had declared the Interim Dividend @ 7.70% i.e., ₹ 0.77/- per equity share having face value of ₹ 10/- each for F.Y. 2021-22 and has also recommended a Final Dividend @ 6.30% i.e., ₹ 0.63/- per equity share, subject to approval of the shareholders at the ensuing Annual General Meeting, thus the total dividend for the financial year 2021-22 would amount to ₹ 1.40/- per equity share of ₹ 10/- each.

Company considers good corporate governance practices a sine qua non for sustainable business that aims at generating long term value for its shareholders and all other stakeholders. Accordingly, it has been laying increasing emphasis upon development of best corporate governance practices amongst Central Public Sector Enterprises (CPSEs). Pursuant to the DPE Guidelines on Corporate Governance, quarterly compliance report is being submitted to the Ministry of Railways, through DPE, within the stipulated time. Further, the Report containing Annual Score (consolidated score of four quarters) was also submitted to DPE within the prescribed timeline.

During the financial year 2021-22, the Company was required to spend under Corporate Social Responsibility (CSR) ₹ 70.06 crore, against which, the Company has disbursed a sum of ₹ 45.02 crore, including, ₹ 38.91 crore contribution to PM CARES Fund, ₹ 3 crore to Clean Ganga Fund, ₹ 2 crore to Swachh Bharat Kosh, ₹ 99.96 lakh contribution towards Armed Forces Flag Day Fund (AFFDF), ₹ 0.1128 crore towards ongoing project of skill training of 500 persons with disabilities

Your Company has also become the first Central Public Sector Enterprise (CPSE) to list USD 500 million green offshore bonds exclusively at NSE-IFSC and India INX in the GIFT City, Gandhinagar.

and the balance amount of ₹ 25.04 crore would be disbursed on receipt of bills/claims from the implementing agencies in future.

I am pleased to report that your Company has been ranked 96th in Fortune India 500 list of companies based on financials of fiscal 2020-21. Your Company has also become the first Central Public Sector Enterprise (CPSE) to list our USD 500 million green offshore bonds exclusively at NSE-IFSC and India INX in the GIFT City, Gandhinagar.

Road Ahead

For the year 2022-23, the annual funding target for IRFC has been fixed at ₹ 66,500 crore which includes ₹ 31,000 crore for funding of Rolling Stock assets and funding of Railway projects to the extent of ₹ 35,500 crore.

As to move towards the new fiscal, in addition to funding the Indian railways, Company is looking forward to diversify into non-railway projects with a backward or a forward linkage with the Indian Railways. For this, Company is broadening its mandate and boosting capacity. Additionally, Company is also looking forward to add the World Bank, New Development Bank, National Bank for Financing Infrastructure and Development (NBFID) and a number of other European banks to Company's list of borrowers.

With India's transforming railway landscape and evolving infrastructure, I consider ourselves to be fortunate that Company is well positioned to seize the emerging opportunities. I am confident that Company will be able to achieve strategic goals while delivering sustained and compelling results in the future.

**Company has posted

About us

Indian Railway Finance Corporation (NBFC-ND-IFC by RBI) is a schedule-'A' Miniratna CPSE under the administrative control of Ministry of Railways (MoR)

Since inception in 1986, IRFC has been mobilising funds from domestic and international markets for Indian Railways. IRFC is continually broadening its borrowing portfolio in order to appropriately support Indian Railways' year after year.

With more than 3 decades of experience, IRFC has made a huge contribution in the development and growth of Indian Railways and Railway entities including Rail Vikas Nigam Limited (RVNL) and IRCON.

VISION

To be the pivotal and premier Financial Services Company for the development of Rail Transport Sector while maintaining its symbiotic relationship with the Ministry of Railways.

MISSION

To make IRFC one of the leading Financial Service Companies in the country, for raising funds from the capital market at competitive cost for augmenting railway plan finances, duly ensuring that the Corporation makes optimum profits from its operations.

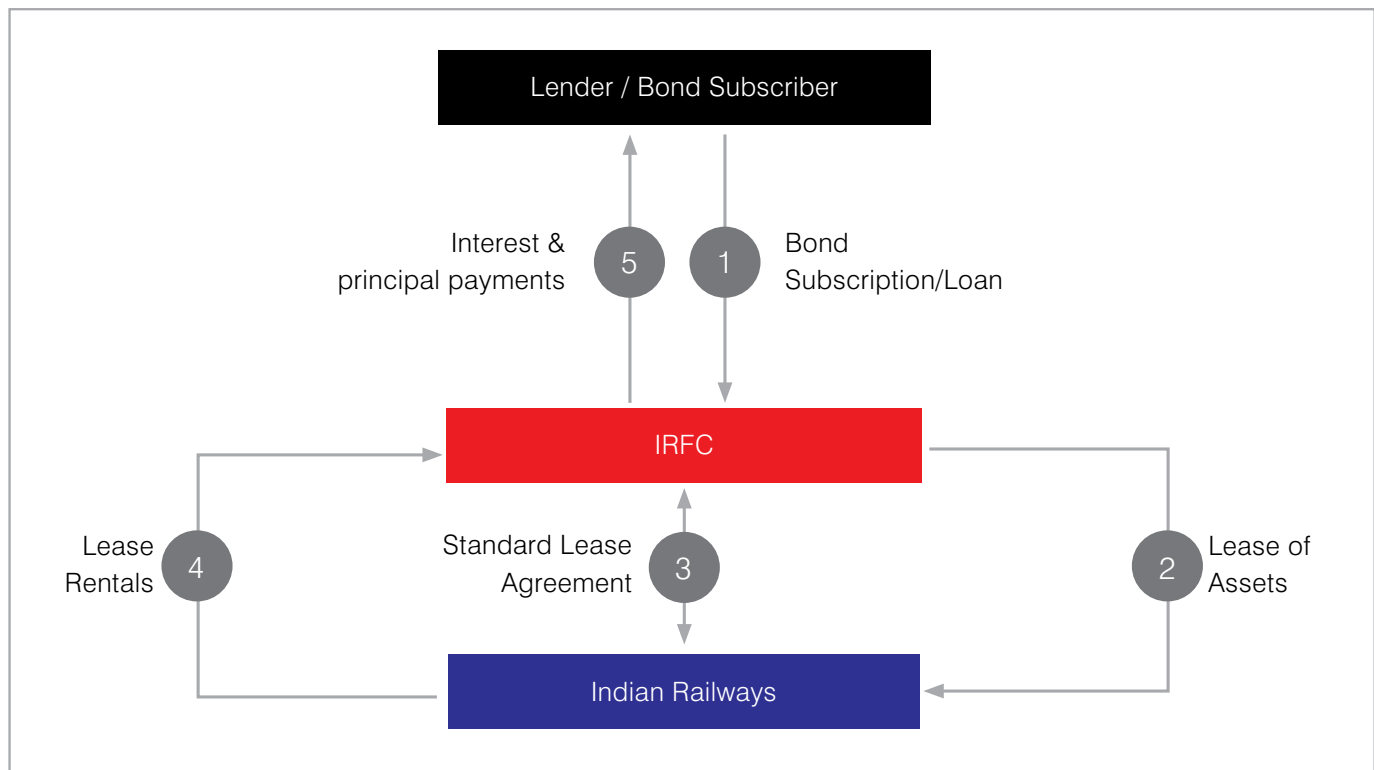

Business overview

IRFC a statutory body under the Ministry of Railways plays a significant role in funding the Indian Railways -"the national operator of railway system". Our main business is to finance the acquisition of rolling stock assets, leasing of railway infrastructure assets, and lending to other entities under the MoR.

Our Leasing Operations

IRFC uses a leasing approach to fund Indian Railways' Rolling stock and project assets. The normal lease term is 30 years, with a primary component of 15 years and a secondary component of 15 years. During the primary lease period, the principal component and interest are recovered as part of the lease. Secondary lease period assets are normally transferred to the MoR for a nominal sum at the conclusion of the lease. We have a cost-plus leasing agreement with the Ministry of Railways, which ensures consistent growth in our income and profitability. MoR pays half-yearly lease rentals in advance, which include both principal repayment and interest.

Financing of Rolling Stock/ Project Assets

Our Lending Operations

We lend funds to MoR and other Railway Entities in order to fuel their growth plan. We have provided loans to Rail Vikas Nigam Limited (RVNL) and IRCON.

Our Borrowing Operations

We raise funds through various sources at lowest feasible market rate. Our source of funds include taxable and tax-free bonds issuances, term loans from banks and financial institutions, commercial papers, external commercial borrowings and asset securitization. Due to our strong credit ratings, we get funds at significantly low cost.

Strategic priorities

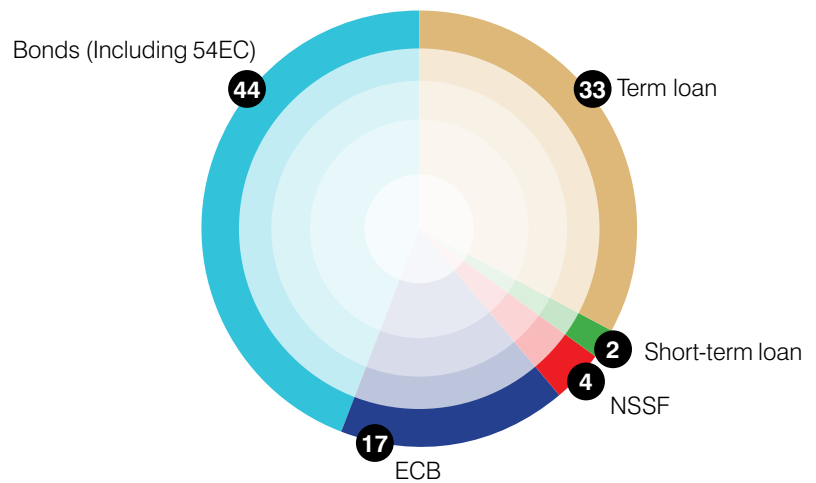

Maintaining competitive cost of borrowings

At IRFC, we focus on getting borrowings at minimum cost which in turn enables us to provide funds to Indian Railways at competitive rate. We raise funds from various sources including term loans and bonds from domestic and international market. We raise funds at low cost as we have strong credit ratings and strategic relationship with the MoR.

Prudent financial management

Our robust business model and optimum funding mix enables us to maintain healthy balance sheet and liquidity position. Additionally, our cost plus strategic approach enables us to register sustained growth in income year on year and maintain profitability.

Borrowing mix as on 31st March, 2022 (%)

Diversifying Borrowing Portfolio

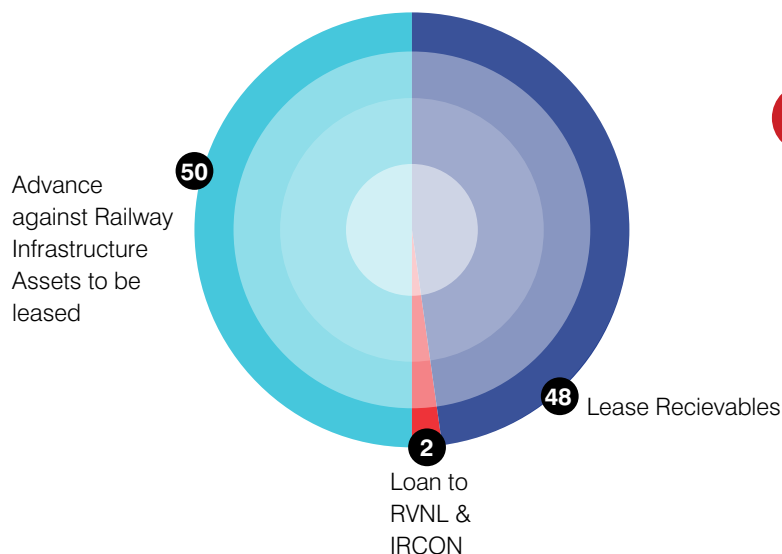

Since inception, we have focused on diversifying our borrowing portfolio by including different financial instruments at cost competitive rates and pioneering newer markets and investors. Different financial instruments such as green bonds / loans forms a part of our borrowing portfolio. We are also eyeing on opportunities on getting funds from sovereign wealth funds and pension funds as well as multilateral agencies such as the World Bank and the Asian Development Bank. Diverse source of funding and issuance of varied financial instrument enable us to raise and offer funds at lowest possible cost.

Asset-liability management

We have formed an asset-liability management framework that enable us to minimise the risks associated with liquidity and interest rate. We undertake periodic analysis of long-term liquidity profile of assets, liabilities, receipts and debt-service obligations. This enables us to take timely decision regarding the time, volume and maturity profile of borrowings and a creation of a mix of assets and liabilities in terms of tenure and interest rate (fixed or floating). We also emphasis on maintaining a sharp focus on locating funding sources with long term repayment schedules and matching them with the lease terms of Rolling Stock Assets and Project Assets that we fund.

NOTES: -

1. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 ("the Act") setting out material facts concerning the business under Item Nos. 4 & 5 of the accompanying Notice, is annexed hereto.
2. Pursuant to Circular Nos. 14/2020, 17/2020, 20/2020, 02/2021, 19/2021, 21/2021 dated 8th April 2020, 13th April 2020, 5th May, 2020, 13th January, 2021, 8th December, 2021 and 14th December, 2021 followed by Circular No. 2/2022 dated 5th May, 2022 issued by the Ministry of Corporate Affairs (hereinafter collectively referred to as "MCA Circulars") and Securities and Exchange Board of India ("SEBI") vide its circular no. SEBI/HO/CFD/CMD2/CIR/P/2022/62 dated May 13, 2022 in relation to "Relaxation from compliance with certain provisions of the SEBI (Listing Obligations permitted the holding of the Annual General Meeting ("AGM") through VC / OAVM, without the physical presence of the Members at a common venue. In compliance with the MCA Circulars and SEBI Circulars the 35th AGM of the Company is being conducted through VC/OAVM Facility, without physical presence of members at a common venue. Hence, Members can attend and participate in the ensuing AGM through VC/OAVM. The deemed venue for the 35th AGM shall be the Registered Office of the Company.
3. Pursuant to the provisions of the Companies Act, 2013 ("Act") a member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his / her behalf and the proxy need not be a Member of the Company. Since the 35th AGM is being held pursuant to the MCA Circulars and SEBI Circulars through VC / OAVM, physical attendance of Members has been dispensed with.

Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM and hence the Proxy Form, Attendance Slip and route map of the AGM are not annexed to this Notice. However, in pursuance of Section 112 and Section 113 of the Act, representatives of the Members such as the President of India or the Governor of a State or body corporate may be appointed for the purpose of casting vote through remote e-Voting prior to the AGM, participation in the 35th AGM through VC/OAVM Facility and for electronic voting during the AGM.

4. Attendance of the Members participating in the 35th AGM through VC/OAVM Facility shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
5. In line with the MCA Circulars and SEBI Circular referred above, the Notice of the 35th AGM along with Annual Report is being sent by e-mail to all members, whose e-mail IDs are registered with the Company. However, the Shareholders of the Company may request physical copy of the Notice and Annual Report from the Company by sending a request at

investors@irfc.co.in, in case they wish to obtain the same. The said documents are available on the website of the Company at <https://irfc.co.in/> and on the website of National Stock Exchange of India Limited at www.nseindia.com and BSE Limited at www.bseindia.com and also on the website of Central Depository Securities Limited ("CDSL") at www.evotingindia.com.

The Company had published advertisements in newspapers to encourage shareholders, holding shares in physical and electronic form, to register/update their email IDs for receiving the Annual Report for the financial year 2021-22.

Those shareholders who have still not been able to update their e-mail IDs, may follow the below process for registration of e-mail IDs with the Company:

- In case shares are held in Demat mode, please send an e-mail to irfc@beetalfinancial.com or investors@irfc.co.in quoting DP ID Client ID (16-digit DP ID + Client ID or 16-digit beneficiary ID), Name of holder(s), scanned copy of client master list/demat account statement, PAN Card and Aadhaar Card.
 - In case shares are held in physical mode, please send an e-mail to irfc@beetalfinancial.com or investors@irfc.co.in quoting Folio No., Name, scanned copy of Share certificate (front & back), PAN Card and Aadhaar Card.
6. All Members of the Company including Institutional/ Corporate Investors are encouraged to attend the AGM and vote on items to be transacted at the AGM. All Institutional / Corporate shareholders (i.e., other than individuals, HUF, NRI, etc.) are requested to send a certified copy of the Board or governing body resolution / authorization letter authorizing their representative to attend the AGM through VC / OAVM on their behalf and to vote through remote e-Voting. The said resolution/ authorization shall be sent to the Scrutinizer through e-mail at csdelhi84@gmail.com with a copy marked to helpdesk.evoting@cdslindia.com.
 7. The Company has fixed **Friday, 16th September, 2022** as the Cut-off date for determining the eligibility to vote in respect of items of business to be transacted at the 35th AGM.

Any person holding shares in physical form and non-individual shareholders who acquires shares of the Company and becomes a Member of the Company after sending of the Notice and is holding shares as on the cut-off date, may obtain the login ID and password by sending a request at helpdesk.evoting@cdslindia.com. However, if he / she is already registered with CDSL for remote e-voting, then he / she can use his / her existing user ID and password for casting the vote. Any shareholder who disposes off his

shareholding such that he/she is not a member as on the cut-off date should treat this Notice for information purposes only.

The voting rights of Members shall be in proportion to their shares in the paid-up equity share capital of the Company as on the cut-off date.

8. The Register of Members and Share Transfer Books of the Company will remain closed from **Monday, 19th September, 2022 to Thursday, 22nd September, 2022** (both days inclusive).
9. M/s Akhil Rohatgi & Company, Company Secretaries, New Delhi has been appointed as the Scrutinizer to scrutinize the votes cast through e-voting by the shareholders in respect of items of business to be transacted at the 35th AGM, in a fair and transparent manner.

voting thereafter.

Members may join the 35th AGM through VC/OAVM, which shall be kept open for the Members from Friday, 23rd September, 2022 i.e., 15 minutes before the scheduled start time and the Company may close the window for joining the VC/OAVM facility 15 minutes after the scheduled start time on date of AGM.

Please refer to detailed instructions for remote e-voting, attending the 35th AGM through VC/OAVM and electronic voting during the AGM as mentioned in point No 27. of Notes. The facility of participation at AGM through VC/OAVM will be made available for 1000 members on first come first serve basis.

12. In pursuance of Article 114 of the Articles of Association of the Company read with Section 123 of the Companies Act, 2013 and Companies (Declaration and Payment of Dividend) Rules, 2014, as amended from time to time, Board of Directors, in their meeting held on 01st November 2021, had declared the Interim Dividend @ 7.7% i.e., ₹ 0.77/- per equity share having face value of ₹ 10/- each for F.Y. 2021-22, which was paid on 23rd November 2021. Members who have not received/encashed their dividend warrants within its validity period may write to the Company at its Registered Office or to the R&TA of the Company, for revalidating the warrants or payment in lieu of such warrants in the form of demand draft or direct credit to bank by furnishing documents to RTA Agent at their email id: irfc@beetalfinancial.com.

Further, the final dividend, as recommended by the Board of Directors, if approved at the AGM, payment of such dividend, subject to deduction of tax at source, will be made within 30 days of the AGM as under:

- i. Beneficial Owners in respect of shares held in dematerialized form as per the data as may be made available by the National Securities Depository Limited ("NSDL") and the Central Depository Services (India) Limited ("CDSL"), collectively "Depositories", as at the end of business hours on **Friday, 16th September, 2022**.
- ii. Members in respect of shares held in physical form (after giving effect to valid transmission or transposition requests lodged with the Company, if any) as at the end of business hours on **Friday, 16th September, 2022**.

Pursuant to Finance Act, 2020, dividend income will be taxable in the hands of the shareholders w.e.f. April 1, 2020, and the Company will be required to deduct tax at source ("TDS") from dividend paid to the Members at prescribed rates in the Income Tax Act, 1961 ("the IT Act"). In order to enable compliance with TDS requirements in respect of dividends declared by the Company in future, members are requested to submit Form 15G/15H on annual basis and update details about their Residential Status, PAN, Category

as per the IT Act with their Depository Participants or in case of shares held in physical form, with the Company / R&TA, so that tax at source, if any as per applicable rates and residential status, may be deducted in respect of dividend payments made by the Company in future. Shareholders are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

Non-resident shareholders [including Foreign Institutional Investors (FIIs) / Foreign Portfolio Investors (FPIs)] can avail beneficial rates under tax treaty between India and their country of tax residence, subject to providing necessary documents i.e. No Permanent Establishment and Beneficial Ownership Declaration, Tax Residency Certificate, Form 10F, any other document which may be required to avail the tax treaty benefits.

13. The Securities and Exchange Board of India has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form who have not done so are requested to submit the PAN to their Depository Participant with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to RTA.
14. As directed by SEBI, Members are requested to:
 - I. Intimate to the DP, changes if any, in their registered addresses and/or changes in their bank account details, if the shares are held in dematerialized form.
 - II. Intimate to the Company's RTA, changes if any, in their registered addresses, in their bank account details, if the shares are held in physical form (share certificates).
 - III. Consolidate their holdings into one folio in case they hold Shares under multiple folios in the identical order of names.
15. As SEBI has made usage of electronic payment modes for making cash payments to the investors mandatory, therefore members are advised to submit their National Electronic Clearing System (NECS)/National Electronic Fund Transfer (NEFT)/ Direct Credit mandates or changes therein, to enable the Company to make payment of dividend by means of NECS/ NEFT/ Direct Credit/Warrants. Shareholders holding shares in physical form may send the NECS/NEFT/ Direct Credit to R&TA at the address i.e., M/s. Beetal Financial & Computer Services (P) Ltd. Beetal House, 3rd Floor, 99 Madangir, Behind local Shopping Centre, Near Dada Harsukhdas Mandir, New Delhi- 110062 and to their email id: irfc@beetalfinancial.com. Shareholders holding shares in electronic form may send the NECS/NEFT/Direct Credit Mandate Form directly to their Depository Participant (DP). Those who have already furnished the NECS/NEFT/ Direct Credit Mandate Form to the Company / R&TA / DP with complete details need not send it again.
16. Members who have not received/encashed their dividend warrants within its validity period may write to the Company at its Registered Office or to the R&TA of the Company, for revalidating the warrants or payment in lieu of such warrants in the form of demand draft or direct credit to bank by furnishing documents to RTA Agent at their email id irfc@beetalfinancial.com.
17. Members are requested to note that, dividends if not encashed for a consecutive period of seven (7) years from the date of transfer to Unpaid Dividend Account of the Company, are liable to be transferred to the Investor Education and Protection Fund ("IEPF"). The shares in respect of such unclaimed dividends are also liable to be transferred to the demat account of the IEPF Authority. In view of this, Members are requested to claim their dividends from the Company, within the stipulated timeline.
18. Pursuant to Regulation 36(3) of the SEBI Listing Regulations and Secretarial Standard on General Meeting (SS-2) issued by the Institute of Company Secretaries of India, the brief resume of Ms. Shelly Verma (DIN: 07935630), Director Finance retiring by rotation and seeking re-appointment under aforesaid Item No. 3; and Shri Vallabhbhai Maneklal Patel (DIN: 07713055) & Smt. Sheela Pandit (DIN: 09403193) Non-official/Independent Director seeking appointment under Item No. 4 & 5 respectively, in accordance with applicable provisions of the Articles of Association of the Company, is annexed hereto and forms part of this Notice.
19. Pursuant to Section 143(5) of the Act, the Auditors of a Government Company shall be appointed or re-appointed by the Comptroller and Auditor General of India (C&AG) and in terms of Sub-section (1) of Section 142 of the Act, their remuneration has to be fixed by the Company in the meeting or in such manner as the Company in General Meeting may determine. The Members of your Company in its 33rd meeting held on 30th September, 2020 had authorised the Board of Directors to fix remuneration of Statutory Auditors. Accordingly, the Board of Directors fix the remuneration of the Statutory Auditors every year.
20. SEBI encourages all shareholders to hold their shares in dematerialized form as this eliminates the possibility of damage/loss of physical share certificate(s) & cases of forgery and facilitates the ease and convenience of paperless trading of shares.

Further, no stamp duty is payable on transfer of shares held in Demat form. It is also pertinent to mention that as per Regulation 40 of SEBI Listing Regulations, as amended, request for effecting transfer, transmission and transposition of securities shall not be processed unless the securities are held in the dematerialized form with a depository. Accordingly, we request you to convert your shareholdings from physical form to demat form at the earliest, in existing demat account or new demat account to be opened with

any Depository Participant (DP). Accordingly, Members are requested to make service requests by submitting a duly filled and signed Form ISR – 4 introduced by SEBI.

21. SEBI vide its Circular dated 3rd November, 2021, has reiterated that it is mandatory for all holders of physical securities to furnish their PAN as well as KYC to the RTA (Registrar and Share Transfer Agent) of the Company in respect of all concerned Folios and the Folios wherein even any one of the PAN, Address with PIN Code, Email address, Mobile Number, Bank Account details, Specimen Signature and Nomination by holders of physical securities are not available on or after April 01, 2023, shall be frozen by the RTA. SEBI has introduced Form ISR-1 alongwith other relevant forms to lodge any request for registering PAN, KYC details or any change/ updation thereof.

In terms of the aforesaid SEBI Circular, effective from 1st January 2022, any service requests concerning transmission, transposition, sub-division, consolidation of shares or any other related matter or complaints received from the member, are not processed by RTA till the aforesaid details/ documents are provided to RTA.

22. Members who hold shares in electronic mode are requested to send all correspondence concerning transmission, transposition, sub-division, consolidation of shares or any other related matter and/or change in address or bank account, to their respective Depository Participants.
23. In case of joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote during the AGM.

The Interim Dividend declared for the financial year 2020-21 would be due for transfer to IEPF on 14th April, 2028 and Interim Dividend declared for the financial year 2021-22 would be due for transfer to IEPF on 05th January, 2029. Members, who have not claimed the Unpaid Interim Dividend so far, are requested to make their claim to the Company's Registrar & Transfer Agents (R & T Agents).

Pursuant to the provisions of the Companies Act, 2013 and Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, the requisite details of unpaid and unclaimed amounts lying with the Company has been uploaded on Company's website (<https://irfc.co.in/>).

Members may please note that in the event of transfer of such shares and the unclaimed dividends to IEPF, members are entitled to claim the same from IEPF authorities by submitting an online application in the prescribed Form IEPF-5 available on the website www.iepf.gov.in and sending a physical copy of the same duly signed to the Company along with the requisite documents enumerated in the Form IEPF- 5.

24. Members desirous of making a nomination in respect of their shareholding in the Company, as permitted under Section 72 of the Companies Act, 2013, are requested to write to the R&TA of the Company at irfc@beetalfinancial.com in Form SH-13 as prescribed in the Companies (Share Capital and Debentures) Rules, 2014. In case of shares held in dematerialized form, the nomination form has to be lodged directly with the respective DP.
25. The Register of Directors and Key Managerial Personnel (KMP) and their shareholding maintained under Section 170 of the Companies Act, 2013, Register of contracts and arrangements in which Directors are interested maintained under Section 189 of the Companies Act, 2013 and all other documents referred to in the Notice, will be available for inspection through electronic mode, without any fee, by the members from the date of circulation of this Notice, up to the date of AGM i.e., Friday, 23rd September, 2022. Members desiring for inspection of said documents are requested to send an e-mail to the Company at investors@irfc.co.in.
26. Members desirous of getting any information on any item(s) of business of this meeting are requested to send an e-mail mentioning their name, demat account number/folio number, email id, mobile number to investors@irfc.co.in at least seven days prior to the date of the AGM and the same will be replied by the Company suitably.
27. The Instructions for remote e-voting, attending the 35th AGM through VC/OAVM and electronic voting during the AGM are as under:

(A) THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING AND E-VOTING DURING AGM AND JOINING MEETING THROUGH VC/OAVM ARE AS UNDER:

- i. The voting period begins on Tuesday, 20th September, 2022 at 9:00 AM (IST) and ends on Thursday, 22nd September, 2022 at 5:00 PM (IST). During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- ii. The Members who have cast their vote by remote e-Voting prior to the AGM may attend / participate in the AGM through VC / OAVM but shall not be entitled to cast their vote on such resolution again.
- iii. Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to

its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/**

websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- iv. In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their Demat Accounts with Depository Participants or Direct registration with Depositories. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to abovesaid SEBI Circular, Login method for e-Voting and joining virtual meetings for Individual shareholders holding securities in Demat mode is given below:

2. Dividend & Reserves

2.1 Dividend

Your Company seeks to strike a judicious balance between the return to the shareholders and retaining a reasonable portion of the profit to maintain a healthy financial leverage with a view to supporting and sustaining future borrowings and growth.

Board of Directors, in their meeting held on 01st November 2021, had declared the Interim Dividend @ 7.7% i.e., ₹ 0.77/- per equity share having face value of ₹ 10/- each for F.Y. 2021- 22, which was paid on 23rd November 2021.

Further, the Board of Directors in its meeting held on 20th May 2022 has also recommended a Final Dividend @ 6.3% i.e., ₹ 0.63/- per equity share having face value of ₹ 10/- each, which is subject to approval of the shareholders at the ensuing Annual General Meeting. If approved, the total dividend for the financial year 2021-22 would amount to ₹ 1.4/- per equity share of ₹ 10/- each. The total dividend pay-out for the financial year 2021-22, including the proposed Final Dividend, would amount to ₹ 1,829.60 crore.

As per regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the Listing Regulations), the top 500 listed companies shall formulate a Dividend Distribution Policy. Accordingly, the policy was adopted to set out the parameters and circumstances that will be taken into account by the Board in determining the distribution of dividend to its shareholders and/or retained profits earned by the Company. The policy is also available on the Company's website <https://irfc.co.in/wp-content/uploads/2022/05/Dividend-Distribution-Policy.pdf>

The unclaimed interim dividend amount for the FY 2020-21 as on 31st March 2022 was ₹ 5.92 million and unclaimed interim dividend amount for the FY 2021-22 as on 31st March 2022 was ₹ 4.04 million.

Further, Members are requested to note that, dividends if not encashed for a consecutive period of seven (7) years from the date of transfer to Unpaid Dividend Account of the Company, are liable to be transferred to the Investor Education and Protection Fund ("IEPF"). The shares in respect of such unclaimed dividends are also liable to be transferred to the demat account of the IEPF Authority. In view of this, Members are requested to claim their dividends from the Company, within the stipulated timeline.

Details of Unpaid/Unclaimed Dividend is available on Company's website at <https://irfc.co.in/investors-2/>

8. RBI Prudential Norms

Your Company is registered as a Systemically Important Non-Deposit Taking Non-Banking Finance Company with the Reserve Bank of India. Being a Government NBFC, your Company was exempted from the prudential norms prescribed by Reserve Bank of India for NBFC-ND-SI, as contained in the Master Directions issued vide Notification No. DNBR.008/CGM(CDS)-2015, dated 27th March, 2015.

However, the exemption was withdrawn by Reserve Bank of India from 31st May, 2018. However, the Company has obtained exemption from Reserve Bank of India from the asset classification, income recognition, credit concentration and provisioning norms on the direct exposure to Ministry of Railways, Govt. of India vide RBI letter dated 21st December, 2018. The Company has also obtained relaxation in respect of lending limit applicable to Railway CPSEs from 20% of its owned funds to 100% of its owned funds. As such, the Company has complied with the applicable prudential norms.

Liquidity Coverage Ratio (LCR) Exemption:

RBI vide circular dated 4.11.2019 issued the guidelines covering liquidity risk management for NBFCs, wherein RBI introduced Liquidity Coverage Ratio (LCR) applicable on all non- deposits taking NBFCs with asset size of more than ₹ 5,000 crore. The guidelines aim to maintain a liquidity buffer in terms of LCR by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for next 30 days. As per the guideline, LCR is represented by stock of High- Quality Liquid Assets (HQLA) divided by Total Net Cash Outflows (stressed outflow less stressed inflows) over the next 30 calendar days. HQLAs are defined by RBI as the liquid assets that can be readily sold or immediately convertible into cash at little / no loss of value or can be used as collateral to obtain funds in stress situations.

The company has got an exemption from RBI from applicability of Liquidity Coverage Ratio (LCR) norms.

9. Lease Arrangement with the Ministry of Railways (2021-22)

ANNEXURE – I

Management Discussion and Analysis

Indian Economic Overview

In a globally uncertain climate, India has remained consistent in its recovery owing to macro factors that have shielded the economy from global pressures. According to the National Statistical Office's second advance estimates, the Indian economy has grown at an annual rate of 8.9% in FY22 (NSO), compared to a contraction of 6.6% in 2020-21.¹

Inflation experienced a steady increase in the second half of 2021-22, consumer price inflation (CPI) surpassed the top band of the Reserve Bank of India's (RBI) comfort zone rising to 6% in January 2022 and 6.1% in February.¹ Inflation in wholesale prices reached a decadal high of 12.96 percent. High food and energy prices, geopolitical crises, Covid lockdowns, and supply chain disruptions all contribute to escalating inflation.

The agricultural sector experienced the least impact of the disruptions caused by the pandemic. It has grown by 3.9% in FY22. The manufacturing sector growth is pegged at 12.5% in FY22 after contracting by 7.2% in FY21.

During the pandemic, the services industry, particularly those that need extensive contact, has been hit the worst. After decreasing by 8.4% in 2020-21, the industry is expected to increase at an annual pace of 8.2%. Travel, trade, and hotels have yet to return to pre-pandemic levels, whereas finance, real estate, and government administration have already surpassed pre-pandemic levels.

Outlook

India experienced repeated COVID infections during the year under review, resulting in massive loss of life and livelihood. Growing vaccination coverage, RBI's stable and accommodating monetary policy, and the Government of India's fiscal support all helped to mitigate the impact to a large extent.

Real GDP of India is expected to grow at 7.2% in 2022-23. CPI inflation is projected at 6.7% in 2022-23. The sharp spike in inflation projection is mainly due to the economic disruptions caused by the geopolitical tensions.²

Industry Scenario

Indian Railways Industry³

Indian Railways with its 4th largest network in the world, carries an unmatched multitude of passengers and cargo from one part of the country to the other without ever stopping. Now, Indian Railways is moving forward with a vision to become a more efficient system, to be able to keep pace with the growth and compliment the economic development of the nation.

Indian Railways has reformed to adopt technology, fast tracked creation of infrastructure and enabled a faster and enhanced freight movement to meet the aspirations of the people of India. Over and above, the top-most focus continues to be on safety of trains and passengers. IR is targeting to achieve 5 MT+ per day freight loading along with running of the passenger trains.

IR aims to create a world class infrastructure at a sustainable cost, built with the latest technologies. Apart from infrastructure, induction of better and technology efficient rolling stock will continue with the same momentum. In keeping with the Prime Minister's vision of 'Make in India' major systems of the train have been designed and built in India. In addition to two Vande Bharat trains running between New Delhi-Varanasi and New Delhi-Katra, further, 75 Vande Bharat trains have been planned to be run by August, 2023. IR is also planning to acquire/ manufacture 400 new generation energy efficient Vande Bharat trains with better energy efficiency and passenger riding experience.

Indian Railways surpassed all the previous records and achieved the highest ever loading of 1418.1 MT in 2021-22, despite COVID setback in first quarter. Month by month there was incremental traffic loading, which resulted in 15% higher loading over previous year. This momentum is still continuing and IR has achieved the highest ever loadings in respective month for successive 19 months, reaching the highest ever loading for any month in March, 2022 at 139.2 MT.

In order to boost investment from industry in development of additional terminals for handling rail cargos, a new 'Gati Shakti Multi-Modal Cargo Terminal (GCT)' policy was launched on 15 December, 2021. It has been targeted to set up 100GCTs within the next three financial years i.e. 2022-23, 2023-24 and 2024-25.

To strengthen export services, export container trains with transit assurance were notified and started from 15 August, 2021 which are running as Freight Express¹ trains including via DFCCIL line.

Post COVID, passenger trains have been gradually restored and the number of passengers have reached to the previous COVID level. In 2021-22, IR carried 3,542.76 million passengers and as a result the Originating Passenger Revenue in passenger segment also increased to Rs. 39,104.41 cr as compared to 15,248.62 cr in 2020-21. Modern trains are being expanded all over the network. As a part of Swachh Bharat Mission, fitment of bio-toilets on all Mainline passenger coaching stock has been completed.

Indian Railways has been consistently trying to improve the illumination levels at various stations. Illumination levels have been improved at 1327 stations. Free Wi-Fi at 6100 stations and 853 stations have been provided with CCTV based Surveillance System over IR.

In order to further the mission and mandate of Digital India, Indian Railways is proliferating Point of Sale (POS) machines across various customer facing domains and more than 14,000 POS machines are being utilised for accepting digital payments over Indian Railways.

IR has focused on capacity expansion, faster execution of projects, adoption of modern project monitoring systems and process reforms, to create an infrastructure which starts giving return immediately upon commissioning. Also, under the National Infrastructure Pipeline (NIP), the allocation to IR primarily being used for building capacity on the network, to cater to the growing demand for rail transportation. Railway share in NIP is about Rs. 13 lakh cr which is about 12% of the total NIP- 684 Railway projects costing 17.0 lakh cr are part of NIP.

Indian Railways is focused towards achieving new heights in the year 2022-23. Freight loading target is kept at 1700 MT. Total receipts of IR are kept at Rs. 2,40,000 cr at a CAGR of around 11.5% over 2019-20.

Company Overview

Indian Railway Finance Corporation (IRFC) was set up on 12th December 1986 as the dedicated funding arm of the Indian

Railways for mobilizing funds from domestic as well as overseas Capital Markets. IRFC is a Miniratna I and Schedule 'A' Public Sector Enterprise under the administrative control of the Ministry of Railways, Govt. of India. It is also registered as Systemically Important Non-Deposit taking Non-Banking Financial Company (NBFC – ND-SI) and Infrastructure Finance Company (NBFC- IFC) with Reserve Bank of India (RBI). IRFC has played a significant role in its more than 35 years of existence in supporting the expansion of the Indian Railways and related entities by financing a significant proportion of its annual plan outlay.

The main objective of the company is to meet the predominant portion of 'Extra Budgetary Resources' (EBR) requirement of the Indian Railways through market borrowings at the most competitive rates and terms. Its aim is to be one of the leading Financial Service Companies in the country, for raising funds from the capital market at competitive cost for augmenting railway plan finances, duly ensuring that the Corporation makes optimum profits from its operations. The Company's principal business therefore is to borrow funds from the financial markets to finance the acquisition / creation of assets which are then leased out to the Indian Railways. IRFC's constant endeavour has been to diversify its borrowing portfolio in terms of instruments, markets and investors which has led to the Company meeting the targeted borrowings year after year, through issue of both taxable and tax-free bonds, term loan from banks/financial institutions besides offshore borrowings, at competitive market rate.

Human Resources

Company understands that Human Capital is essential. At IRFC we believe in a strong value system and best practices to enhance and improve our capabilities and achieve our organizational objectives.

The total disbursement for FY 2021-22 was ₹ 60,683.41 Crores comprising of ₹ 28,100 Crore for funding of Rolling Stock, ₹ 31,883.41 Crore for financing of Railway Projects under EBR-IF and ₹ 700 Crores to meet the debt financing requirements of RVNL. The cumulative funding to Railway Sector has crossed ₹ 5.04 lakh crore mark.

Borrowings during the year include Taxable Bonds worth ₹ 19,847.90 crore (Previous year ₹ 27,727.70 crore), External Commercial Borrowings (ECB) of ₹ 12,004.17 crore (previous year ₹ 29,586.95 Crore) at exchange rate prevailing on the draw

down date, Rupee Term Loans of ₹ 42,900 crore (previous year ₹ 52,401.75 Crore) and 54EC bonds of ₹ 1,161.01 crore (previous year ₹ 842.60 crore). The weighted average cost of the pool of borrowings made by Company during the year 2021-22 worked out to 6.42% (semi-annual) as against 6.51% (semi-Annual) during the previous year 2020-21.

The Company was able to achieve this feat through constant monitoring of the markets, proper timing of its borrowings and appropriate selection of instruments.

During the year, the Company constantly diversified its borrowing portfolio to meet the target of borrowings mandated by MoR at the most competitive rates and terms. In its endeavor towards diversification of its borrowing portfolio following transactions in regard to the ECB borrowings were undertaken:-

- Green Bonds: Funds to the extent of USD 500 Million, at a fixed coupon of 3.57% per annum payable semiannually. ₹ 3,729.935 Cr under IRFC's USD 7 bn GMTN programme. IRFC has become the first CPSE in the country to list its offshore bonds exclusively at stock exchanges established in the GIFT City, Gandhinagar.
- Green Loan (Offshore loan): In regard to offshore loan, IRFC raised Green / JPY loan equivalent to USD 1.10 bn/ INR 8,274.23 Cr comprising of two tranches of USD 700 mn and USD 400 mn having tenor of 10 years and 7 years respectively.

Company had received approval of Ministry of Finance for issue of 54EC Capital Gain Bonds in October 2017, since then, Company is making all endeavors to increase its market share in 54EC Bond market. In 2021-22, Company mobilized around ₹ 1,161.01 crore through 54EC Bond.

Revenue from operations of Company has increased by ₹ 4,528.05 crore from ₹ 15,770.22 crore in 2020-21 to ₹ 20,298.27 crore in 2021-22, showing a growth of 28.71%.

Profit before Tax (PBT) of Company for the year ended 31st March 2022 was ₹ 6,090.16 crore as compared to ₹ 4,416.13 crore for the previous year, registering a growth of 37.91%.

Company has not made any provision for tax in its books pursuant to its decision to exercise the option of lower tax rate permitted u/s 115BAA of the Income Tax Act, 1961, as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated 20th September, 2019. The Company's taxable income was nil and it did not have to pay Minimum Alternate Tax (MAT) with reference to its Book Profit. MAT payable u/s 115 JB was outside the ambit of the Section 115 BAA. Thus, on adoption of Section 115 BAA of the Income Tax Act, 1961, the Company was outside the scope and applicability of MAT provisions and there was a zero-tax liability in the financial year 2021-22.

Profit After Tax for the year ending 31st March 2022 was ₹ 6,089.84 crore as compared to ₹ 4,416.13 crore for the previous year, registering a healthy growth of 37.90%.

Management Outlook

Your Directors take pleasure in sharing with you their perception that business of the Company stands on a sound platform and is running well. The robust business model involving strong and mutually beneficial relationship with MoR has become its unique forte. The business of the Company with the Ministry has grown considerably. The cumulative funding to Railway Sector has crossed ₹ 5.04 lakh crore mark. Assets Under Management at the end of financial year ended 31st March, 2022 are ₹ 4,15,237.68 crores.

Being the dedicated market borrowing arm of the Ministry of Railways, your Company constantly strives to raise funds from the financial market at the most competitive rates and terms.

India needs to spend about USD 1.4 Tn under National Infrastructure Pipeline (NIP) by FY25 to reach the target GDP of USD 5 Tn. Accordingly, spending on infrastructure has been one of the focus areas of the Government of India in the recent past. National master plan under PM Gatishakti lays the foundation of the overall infrastructure in the country and provides an

integrated and holistic path to the economy. The ₹ 100 trillion project is aimed at easier inter-connectivity between road, rail, air and waterways to reduce travel time and enhance industrial productivity. IRFC being premier financial Institution having NIL NPA and ability to mobilize large quantum of fund at competitive rate in short duration both from domestic and offshore market and continue to support India's infra sector in a big way which will provide adequate push to spur Economic development and Growth of the Indian Economy.

Indian Railways is working on a mission mode to become the largest Green Railways in the world, and is moving to become a 'net zero emitter' before 2030. It is planning to do so through investing in massive electrification, development of freight corridors, energy-efficient and carbon friendly technologies, harness potential of Solar energy etc. to reduce its carbon footprint. In FY 2021-22, IRFC has raised \$ 1.6 Billion under Green Financing Framework from off-shore market. In the past also, IRFC has raised resources from off-shore market through issuance of Green Bonds. Accordingly, IRFC will continue to help MoR to support Governments commitments such as Paris Agreement on Climate Change and UN Sustainable Development Goals, via raising of resources under green framework.

Risk Management

Effective risk management is central to ensuring a robust and healthy finance for the Company. While in risk management, credit risk is accorded high priority amongst various risk mitigation efforts of a business, this is virtually non-existent in the case of Company, in as much as, an overwhelming segment of its assets is in the form of lease receivables from the Ministry of Railways, carrying low risk. The Company's selective forays into other areas in the form of loans to Rail Vikas Nigam Limited and IRCON International Limited are suitably ringfenced, as the same has either the cash flows originating from the Ministry of Railways or there is a repayment assurance by Ministry of Railways.

Ordinarily, a company carrying out its business with predominantly single client, might be viewed as being faced with a business risk. However, in the case of Company, the single client is the owner, who also happens to be the sovereign itself. Funding provided by IRFC has been at a competitive cost which is considered attractive by the Ministry. With strong indications of an even larger role being expected by the Ministry from IRFC in its efforts at augmenting rail infrastructure in the country, directors consider the Company is comfortably placed in the matter of Business Risk.

Given the carefully drafted provisions in the Lease Agreement signed by IRFC with MoR every year, there is a very good matching of the interest rate sensitivity profile of its assets and liabilities. In the circumstances, exposure of the Company to Interest Rate Risk is low.

The cash flows of Company are highly predictable, shielding it largely against liquidity related issues even in a volatile market. Besides, with the quality of credit, Company commanding a high level of reputation amongst investors, both domestic and international. The Risk Management Committee and Asset Liability Management Committee (ALCO) actively monitors the Liquidity Risk. The Liquidity Risk in the case of IRFC is perceived at a low level.

Although the foreign exchange fluctuation risk is pass through to MoR, still Company has consistently been adopting prudent, efficient and cost-effective risk management strategies to cover Exchange Rate Variation risk on its overseas borrowings. The Company strives to eliminate at opportune time the exchange rate variation risk in respect of principal repayments. Timing is important in such hedging transactions. The Company recognizes the fact that contracting a hedge at a time subsequent to the drawdown does not expose it to any undue risk because of longer maturities. The Risk Management Committee regularly monitors the Foreign Exchange Exposure. In accordance with the policy, the Company has hedged part of its foreign currency exposure thereby mitigating the exchange rate fluctuation risk to that extent.

Some of the outstanding foreign currency borrowings of the Company with tenor longer than five years are either having bullet repayment or amortised repayment in half-yearly instalments. As a result of amortized repayments, the risk gets significantly mitigated by virtue of repayments taking place progressively at different points of time. Keeping in view the volatility in the foreign exchange markets, the Company has been taking recourse to selective hedging of the ECBs outstanding both on principal and interest amount. With a view to effectively supplementing its in-house expertise on the matter, Company usually resorts to external expert advice from reputed professional consultants, while taking hedging decisions.

In compliance with the RBI Guidelines, Board-approved Risk Management Policy is in place. The Company also has constituted Risk Management Committee which comprises Chairman & Managing Director, Director Finance and Independent Director. Further, as per the extant RBI circular number RBI/2018-19/184 DNBR (PD) CC. No. 099/03.10.001/2018-19 dated 16-05-2019 regarding appointment of a Chief Risk officer (CRO) by all the NBFC s has been complied with and a CRO has been appointed with effect from 1st July, 2021.

The proceedings of meetings of the Risk Management Committee were regularly placed in the meetings the Board of Directors.

The Company has also constituted a sub-committee of Risk Management Committee namely Forex Risk Management Committee to assess and mitigate the foreign exchange fluctuation risk and interest rate risk in External Commercial Borrowings. Minutes of the meetings of the Sub-committee along with the action taken are placed before the Risk Management Committee.

For effective monitoring, control and mitigation of financial risk arising due to mismatch in the Asset Liability position, the Company has formed an Asset Liability Management Committee (ALCO) comprising Chairman & Managing Director, Director (Finance) and Senior Level Officers. The ALCO generates various reports as prescribed by RBI for monitoring the liquidity and interest rate risks and place the same before the Risk Management Committee from time to time.

The Company has also constituted a sub-committee of Risk Management Committee namely IT and Operational Risk Management Committee to assess and mitigate operational and IT risks for the corporation. Minutes of the meetings of the Sub-committee along with the action taken are placed before the Risk Management Committee.

Internal Controls and its advocacy

The Company has in place, adequate internal control systems commensurate with the nature and volume of its business. Efficient maintenance of accounts is facilitated by the executives and employees of the Company. Thereafter, the same is audited periodically by the Internal Auditors. The function of Internal Audit has been assigned to a reputed firm of Chartered Accountants. The scope of internal audit is well defined and is very exhaustive to take care of all crucial functions and business of the Company. Based on their report, steps are taken at regular intervals to further strengthen the existing systems and procedures. Their significant observations are discussed in the Audit Committee Meetings regularly. The Statutory Auditors of the Company are appointed by Comptroller and Auditor General (C&AG) of India, and the appointment is rotated periodically. Besides, the accounts of the Company are subject to supplementary audit by the office of C&AG, as required under the Companies Act. The C&AG also conducts propriety audit of the Company. The Company has implemented Accounts Manual and Internal Audit Manual from financial year 2016-17. The Company has also implemented Manual for Procurement of Goods, Services and Works and HR Manual. The Company has also implemented a policy for temporary placement of surplus funds with the Banks in order to strengthen its cash management system.

RBI vide its notification dated Feb 3, 2021 has mandated Risk-Based Internal Audit (RBIA) framework for the specified entities including all non-deposit taking NBFCs with asset size of ₹ 5,000 crore and above and this framework was to be implemented by March 31, 2022. The RBIA policy has been formulated and approved by the Board of Directors.

Besides, as mandated under Companies Act, 2013, the Statutory Auditors have certified as part of their Audit Report, the effectiveness of Internal Financial Control over financial reporting.

ANNEXURE – II

Report on Corporate Governance

This report is prepared in accordance with the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 the Companies Act, 2013 and Guidelines on Corporate Governance issued by Department of Public Enterprises (DPE), Ministry of Heavy Industries and Public Enterprises, Government of India. The Report contains details of Corporate Governance systems and processes at Indian Railway Finance Corporation Limited (IRFC).

Corporate Governance is the application of best management practices, compliance of laws & adherence of ethical standards to achieve the Company's objective of enhancing stakeholders' value and discharge of social responsibility.

IRFC is in compliance with relevant provisions contained in the SEBI (LODR) Regulations, 2015 and Guidelines on Corporate Governance for Central Public Sector Enterprises (hereinafter referred to as Government Guidelines), issued by Department of Public Enterprises, Ministry of Heavy Industries and Public Enterprises, Government of India. The Company is also complying with the Circular, to the extent applicable, dated 1st July, 2015 issued by Reserve Bank of India under their Master Circular – "Non-Banking Financial Companies – Corporate Governance (Reserve Bank) Directions, 2015". In this connection, relevant details are furnished below: -

1. Company's Philosophy on the Code of Governance

Corporate Governance is about maintaining valuable relationship and trust with all stakeholders with the commitment to maximise their value. Our commitment towards following good Corporate Governance practices is based upon transparency, fairness, conscience, teamwork, professionalism and accountability. This paves the way for following the best standards and building confidence among our stakeholders, which is necessary to achieve our objectives.

Company looks upon Corporate Governance as an enterprise-wide endeavour targeted at value creation in the form of striking optimum balance between the profit it earns for its Shareholders and the spread it charges from Ministry of Railways on the cost of funds transferred to them. This is sought to be achieved by conducting the business in a professional manner, using a combination of delegation and accountability amongst key executives in the Company; focussed attention and transparency in operations of the Company; skill upgrades through need-based training, etc.;

and high level of investor / lender satisfaction through timely debt servicing and grievance settlement.

To foster best Corporate Governance practices, the Company has formulated a "Code of Business Conduct and Ethics for its Board Members and Senior Management" which seeks to bring high level of ethics and transparency in managing its business affairs. The same has also been hosted on the website of the Company (<https://irfc.co.in/>).

2. Board of Directors

The Board of Directors of IRFC comprises of eminent persons having requisite qualifications, experience and expertise, to manage the business of the Company in an efficient and effective manner. The Board oversees fulfilment of corporate objectives by providing leadership and guidance.

IRFC is a Government Company within the meaning of Section 2 (45) of the Companies Act, 2013 as the President of India acting through its administrative Ministry i.e. Ministry of Railway's (MoR) which holds 86.36% of the total paid-up share capital of the Company as on March 31, 2022 and as per Articles of Association of the Company, the power to appoint Directors vests with the President of India. Further, in terms of Articles of Association of the Company, the number of Directors of the Company shall not be less than three and not more than fifteen.

2.1 Composition of the Board

SEBI (LODR) Regulations, 2015, stipulates that the Composition of Board of Directors of the company shall have an optimum combination of executive and non-executive directors with at least one-woman director and not less than fifty percent of the Board of Directors comprising of non-executive directors.

As at the end of financial year 31st March, 2022, there are 6 (Six) Directors on the Board of the Company. Besides Chairman & Managing Director and Director Finance, Two Non-Official/ Independent Director(s) and Two Government Nominee Director(s), are also in position. As provided in the Articles of Association of IRFC, the appointment of Directors and payment of their remuneration are determined by the President of India.

None of the Directors of the Company is related to each other and are independent of the Management.

The number of independent directors during the financial year 2021-22 were insufficient as compared to the number of independent directors required to be on the Board as per SEBI (LODR) Regulations, 2015, as the power to appoint the Directors on the Board as per Articles of Association of the Company vests with the

President of India acting through Administrative Ministry i.e. Ministry of Railways (MoR). Thus the Company from time to time has requested Ministry of Railways (MOR) to appoint requisite number of Independent Directors on the Board of the Company in order to comply with SEBI (LODR), Regulations 2015 and DPE Guidelines.

ANNEXURE – IV**Annual Report on CSR activities for the year 2021-22****1. Brief outline on CSR Policy of the Company**

IRFC strive to remain a responsible corporate entity aware of its responsibilities to all the stakeholders as a part of its Corporate Social Responsibility and Sustainability Policy (CSR & Sustainability Policy). It also supports Sustainable Development programmes of the Government to save the mother earth and for healthy living of future generations of mankind. It also contributes towards inclusive growth and equitable development in the society, through empowerment of the marginalized underprivileged sections.

The IRFC has formulated its CSR Policy in compliance with all applicable laws, rules and regulations and guidelines issued by Department of Public Enterprises (DPE). While selecting the CSR Activities under the CSR schemes of the Company, the IRFC follows its Board approved policy and comply with the provisions of the Companies Act 2013, CSR Rules made thereunder. The Policy has also prescribed the format for submitting the CSR proposals to the company for its consideration. GM Committee has been constituted for the evaluation of the received proposals in terms of the CSR Policy and the applicable laws. GM Committee scrutinizes the proposals, place the shortlisted proposals before the CSR Committee for its recommendation to Board and approved by the Board of Directors based on the CSR committee recommendation.

IRFC executes MoUs with the Implementing agencies for the implementation of the CSR Projects and finalize the terms as approved by the Board. Implementing agencies are bound to submit the periodic reports, and the project completion report on completion of the project. The implementing agencies are also asked to submit the impact assessment report if required.

Considering the lean manpower, the Company endeavor to take up short term Sustainability CSR activities which can be completed within a Financial Year. Wherever possible, it also contributes to large projects by sharing a part of pool of resources with other Railway PSUs / Central PSUs for greater environmental social and economic impact subject to Rules and Regulations of the Companies Act, 2013 and other applicable statutes, guidelines, if any.

- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') viz.;
 - (a) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
 - (b) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (c) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (d) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009; [Not applicable on the Company during the audit period]
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Shares Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client; The Company was not engaged in the activities relating to Registrar to a Issue and was also not acting as Share Transfer Agent, Hence the aforesaid Regulations were not applicable to the Company during the audit period;
 - (g) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014; [Not applicable on the Company during the audit period];
 - (h) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; [Not applicable on the Company during the audit period];
 - (i) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; [Not applicable on the Company during the audit period]
- (vi) Other labour, environment and specific applicable Acts / Laws to the Company for which Secretarial Audit was conducted as an overview audit and was generally based/ relied upon the

documents provided to us and Management Confirmation Certificate provided by the Management of the Company & other audit report and certificates given by other professionals, the company has complied with the following Acts / Laws applicable to the Company during the audit period:

- a) Reserve Bank of India Act read with Non-Banking Financial Companies (Reserve Bank) Directions 2016 issued by Reserve Bank of India as amended till date;
- b) The DPE Guidelines (to the extent as applicable);
- c) Labour and Social Security Laws (to the extent as applicable);
- d) Indian Stamp Act 1899;
- e) Right to Information Act 2005.

We have also examined compliance with the applicable clauses of the following:

- i) Secretarial Standards issued by the Institute of Company Secretaries of India;
- ii) Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015 in respect of listing of Shares & Bonds with BSE Ltd and National Stock Exchange of India Limited.

We have not examined the applicable financial laws, like direct and indirect tax laws, since the same have been subject to review by statutory financial audit and other designated professionals.

We report that during the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. as mentioned above subject to the following observation:

- i) *The number of Independent Directors on the Board was less than half of the total strength of Board as required under SEBI (LODR) Regulations, 2015 and the DPE guidelines for which company has regularly written to its administrative ministry i.e., Ministry of Railways for appointment of appropriate number of Independent Directors on the board.*
- ii) *The Company has not complied with the provision of regulation 17, 18, 19, 20, 21 & 23 as required under the SEBI (LODR) Regulations, 2015 regarding composition of Board including failure to appoint Independent Women Director and quorum of meetings, Composition of Audit Committee, Composition of Nomination and Remuneration Committee, Composition of Stakeholder Relationship Committee, Composition of Risk Management Committee and disclosure of Related Party Transactions.*

The Company has explained that:

- a. During the year 2021-22 the composition of Board including failure to appoint Independent woman director and quorum of meetings was not in compliance as per SEBI (LODR) Regulations, 2015 due to non-availability of requisite number of Independent Directors. Company / IRFC being a Government Company, the power to appoint Directors vests with the President of India through administrative ministry i.e., Ministry of Railways (MoR) and Company has no control in the appointment of Directors on its Board. The Company has been requesting and following up with its administrative ministry i.e., Ministry of Railways (MoR) for appointment of requisite number of independent Directors on its Board.
- b. During the year 2021-22 the composition of Audit Committee and Nomination and Remuneration Committee was not in compliance as per SEBI (LODR) Regulations, 2015 till 23rd November 2021 due to non-availability of requisite number of independent directors. Further, the Stakeholders & Relationship Committee and Risk Management Committee was also not in compliance from 20th July 2021 to 23rd November 2021 as per SEBI (LODR) Regulations, 2015 due to non-availability of requisite number of independent directors. Further, two (2) Independent Directors (including one women independent director) were appointed by the Ministry of Railways (MoR) on 9th November, 2021 for a period of three years and the same has been duly intimated to the stock exchanges and accordingly the committees of Board were reconstituted w.e.f 24th November, 2021.
- c. Company has made the necessary disclosure for the year ended 31st March 2021 in notes to accounts on page Nos. 189 & 190 in the Annual Report of the Company and submitted to the exchanges. Further, disclosure for the half year ended 30th September, 2021 has been submitted by the listed entity on 14th January, 2022 to the stock exchanges. Company has requested to stock exchanges to consider the submission of disclosure of Related Party Transactions as on the date of filing of financial results.

We further report that:

- 1) Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors but the company did not have requisite number of Independent Director on the Board during the period under review as stated above. The changes, if any, in the composition of the Board that took place during the period under review were carried out in compliance with the provisions of the Act.

- 2) Adequate notice is given to all Directors to schedule the Board and Committee Meetings as per the statutory provisions, and agenda and detailed notes on agenda which were sent at shorter notice were taken up after obtaining the requisite permission of the Chairman and with the consent of the majority of the Directors / Committee Members present in the meeting respectively in compliance of clause 1.3.7 of the Secretarial Standard -1 of ICSI and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
- 3) All decisions at Board and/or Committee meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or respective Committee of the Board, as the case may be.
- 4) The Company has obtained requisite approval, permission, confirmation from Registrar of Companies, NCT of Delhi & Haryana, Securities & Exchange Board of India, BSE Limited, National Stock Exchange of India Limited, Debenture Trustee and other regulated bodies in respect of various private placement of Secured, Redeemable, Non-Convertible, Taxable Bonds & Capital Gain Bonds in the nature of Debentures and has duly complied with the applicable provisions of the laws, rules and guidelines.

- 5) There was no prosecution initiated and no fines or penalties were imposed during the year under review under the Companies Act 2013, Depositories Act and Rules, Regulations and Guidelines framed under these Acts against / on the Company, its Directors and Officers.
- 6) The Directors have complied with the disclosure requirements in respect of their eligibility of appointment, their being independent and compliance with the Code of Business Conduct & Ethics for Directors and Management Personnel.

We further report that based on the information received and records maintained there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with other applicable laws, rules, regulations and guidelines.

We further report that during the audit period, there were no instances of:

- a) Public / Right / Preferential Issue of Shares / Sweat Equity;
- b) Buy-back of Securities;
- c) Merger / Amalgamation / Reconstruction etc. and
- d) Foreign Technical Collaborations.

We have examined the compliance of conditions of Corporate Governance by Indian Railway Finance Corporation Limited (IRFC/ Company) for the year ended March 31, 2022, as stipulated in the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations-2015") and Guidelines on Corporate Governance for Central Public Sector Enterprises, 2010 issued by Department of Public Enterprise (DPE Guidelines).

The compliance of conditions of Corporate Governance is the responsibility of the management of the Company. Our examination has been limited to review of procedures and implementations thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance as stipulated in the said clause and guidelines. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the Securities and Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015 and DPE Guidelines, except provision of regulation 17, 18, 19, 20, 21 & 23(9) as required under the SEBI (LODR) Regulations, 2015 and DPE Guidelines regarding composition of Board including failure to appoint Independent woman director and quorum of meetings, Composition of Audit Committee, Composition of Nomination and remuneration committee, Composition of Stakeholder Relationship Committee, Composition of Risk Management Committee and disclosure of Related Party Transactions.

Company has explained that IRFC / Company being a Government Company, all the Directors are appointed by President of India, acting through administrative ministry, i.e., Ministry of Railways and this is beyond the control of the Company. Further, Company has made necessary disclosures to stock exchanges and requested to consider the disclosure of related party transaction as on the date of submission of financial results.

We further state that such compliance certificate is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Indian Railway Finance Corporation Limited

Notes to Financial Statements

for the year ended 31 March 2022

(All amounts in millions of INR, unless stated otherwise)

Statement of significant accounting policies

1. Background

Indian Railway Finance Corporation Ltd., referred to as "the Company" or "IRFC" was incorporated by the Government of India, Ministry of Railways, as a financing arm of Indian Railways, for the purpose of raising the necessary resources for meeting the developmental needs of Indian Railways. The Company's principal business is to borrow funds from the financial markets to finance the acquisition / creation of assets which are then leased out to the Indian Railways as finance lease. IRFC is a Schedule 'A' Public Sector Enterprise under the administrative control of the Ministry of Railways, Govt. of India. It is also registered as Systemically Important Non-Deposit taking Non Banking Financial Company (NBFC – ND-SI) and Infrastructure Finance Company (NBFC- IFC) with Reserve Bank of India (RBI). The President of India along with his nominees holds 86.36% of the equity share capital.

The registered address and principal place of business of the Company is Room Nos. 1316 - 1349, 3rd Floor, Hotel The Ashok Diplomatic Enclave, 50-B, Chanakyapuri New Delhi -110021.

2. Significant Accounting Policies

A summary of the significant accounting policies adopted in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

2.1 Statement of Compliance

The financial statements have been prepared on going concern basis following accrual system of accounting in accordance with the Indian Accounting Standards ('Ind AS') notified under the Companies (Indian Accounting Standards) Rules 2015 and subsequent amendments thereto, read with Section 133 of the Companies Act, 2013 and other Accounting principles generally accepted in India.

2.2 Basis for preparation of financial statements

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting

policies below. Unless otherwise stated, all amounts are stated in Millions of Rupees.

Historical cost is the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire assets at the time of their acquisition or the amount of proceeds received in exchange for the obligation, or at the amounts of cash or cash equivalents expected to be paid to satisfy the liability in the normal course of business.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. Fair value for measurement and/or disclosure purpose in these financial statements is determined on such basis except for, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value.

In addition, for financial reporting purposes fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs for the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

- Level 1 -Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 -Inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3- inputs are unobservable inputs for the asset or liability.

2.3 Use of estimates

The preparation of financial statements requires management to make judgments, estimates and assumptions that may impact the application of accounting policies and the reported value of assets, liabilities, income, expenses and related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date. The estimates and management's judgments are based

Notes to Financial Statements

for the year ended 31 March 2022

(All amounts in millions of INR, unless stated otherwise)

on previous experience & other factors considered reasonable and prudent in the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In order to enhance understanding of the financial statements, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is as under:

a) Formulation of accounting policies

The accounting policies are formulated in a manner that results in financial statements containing relevant and reliable information about the transactions, other events and conditions to which they apply. Those policies need not be applied when the effect of applying them is immaterial.

b) Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

c) Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37 'Provisions, contingent liabilities and contingent assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

d) Income taxes

Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/ recovered for uncertain tax positions.

2.4 Revenue

Company's revenues arise from lease income, dividend income, interest on lease advance, loans, deposits and investments. Revenue from other income comprise miscellaneous income etc.

Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Finance lease income in respect of finance leases is allocated to the accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease. (Also see accounting policy on leases at 2.14).

Interest income from financial assets is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Pre-commencement lease-interest income is determined based on the MOU entered with Ministry of Railways and when it is probable that the economic benefits will flow to the Company and the amount can be determined reliably.

Dividend income is recognized in profit or loss only when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

2.5 Foreign Currency Transaction

Functional and presentation currency

Items included in the financial statements of entity are measured using currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is entity's functional and presentation currency.

Notes to Financial Statements

for the year ended 31 March 2022

(All amounts in millions of INR, unless stated otherwise)

Transactions and Balances

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item.

2.6 Employee Benefits

Defined contribution plan

A Defined contribution plan is a post-employment benefit plan under which the company pays fixed contributions in respect of the employees into an independent fund administrated by the government/ pension fund manager and will have no legal or constructive obligation to pay further amounts after its payment of the fixed contribution. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in statement of profit and loss in the period during which services are rendered by employees.

The company has a defined contribution plan which includes pension scheme and provident fund scheme. Company's contribution towards provident fund and pension scheme for the year are recognised as an expense and charged to the statement of profit and loss.

Defined benefit plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The company's liability towards gratuity and post-retirement benefits such as medical benefits are in the nature of defined benefits plans.

The company's net obligation in respect of defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of reporting period. Actuarial gain/loss on re-measurement of gratuity and other post-employment defined plans are recognised in other comprehensive income (OCI). Past service cost is recognised in the statement of Profit and Loss account in the period of a plan amendment.

Other long-term employee benefits

The company's obligation towards leave encashment and employee family benefit scheme are in the nature of other long term employee benefits. Liability in respect of compensated absences becoming due or expected to be availed more than one year after the balance sheet date and employee family benefit scheme are estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

Short-term employee benefits

Short term employee benefits such as salaries and wages are recognised on undiscounted basis in the statement of Profit and Loss account, on the basis of the amount paid or payable for the period during which services are rendered by the employee.

2.7 Taxation

Tax expense comprises Current Tax and Deferred Tax.

Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax is recognised in profit or loss, except when they relate to items that are recognised in other

Notes to Financial Statements

for the year ended 31 March 2022

(All amounts in millions of INR, unless stated otherwise)

comprehensive income or directly in equity, in which case, the current tax is also recognised in other comprehensive income or directly in equity respectively.

The Company is exercising the irrevocable option as permitted by section 115BAA of the Income – tax Act, 1961 whereby by foregoing certain exemptions, deductions and allowances, the tax rate applicable to the Company is lower than the normal tax rate that would have been otherwise applicable to the Company. Henceforth, minimum alternate tax provisions of section 115JB of the Income – tax Act, 1961 are not applicable to the Company.

Deferred Tax

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Company does not recognize deferred tax asset or deferred tax liability because as per Gazette Notification no. S.O. 529(E) dated 5th February 2018 as amended by notification no. S.O. 1465 dated 2 April 2018 issued by Ministry of Corporate Affairs, Government of India, read with their communication no. Eoffice F.No.17/32/2017 – CL – V dated 20th March 2020, the provisions of Indian Accounting Standards 12 relating to Deferred Tax Assets (DTA) or Deferred Tax Liability (DTL) does not apply to the Company.

2.8 Property, Plant and Equipment (PPE)

An item of property, plant and equipment is recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Items of property, plant and equipment are initially recognized at cost. Subsequent measurement is done at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipment have different useful lives, they are recognized separately.

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

De-recognition

Property, plant and equipment is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on de-recognition of an item of property, plant and equipment are determined by comparing the proceeds from disposal, if any, with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

Depreciation

Depreciation on property, plant and equipment has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

2.9 Intangible assets

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets that are acquired by the Company, which have finite useful lives, are recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Notes to Financial Statements

for the year ended 31 March 2022

(All amounts in millions of INR, unless stated otherwise)

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

De-recognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains & losses on de-recognition of an item of intangible assets are determined by comparing the proceeds from disposal, if any, with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Amortization

Software is amortized over 5 years on straight-line method.

2.10 Borrowing costs

Borrowing costs consist of interest expense calculated using the effective interest method as described in Ind AS 109 'Financial Instruments' and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs that are directly attributable to the acquisition, construction/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which necessarily take substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of all borrowing that are outstanding during the period and used for the acquisition, construction/ exploration or erection of the qualifying asset.

Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete.

All other borrowing costs are recognized as an expense in the year in which they are incurred.

2.11 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.12 Provisions, contingent liabilities and contingent assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance costs.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent

Notes to Financial Statements

for the year ended 31 March 2022

(All amounts in millions of INR, unless stated otherwise)

liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

2.13 Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An

impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.14 Leases

At inception of a contract, the Company assesses whether the contract is, or contains a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessor

The Company classifies each of its leases as either an operating lease or a finance lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. The depreciation policy for depreciable underlying assets subject to operating leases is consistent with the Company's normal depreciation policy for similar assets.

Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Company as a lessee

At the contract commencement date, the Company recognizes right – of – use asset and a lease liability.

Notes to Financial Statements

for the year ended 31 March 2022

(All amounts in millions of INR, unless stated otherwise)

A right – of – use asset is an asset that represents a lessee's right to use an underlying asset for the lease term. The Company has elected not to apply the aforesaid requirements to short term leases (leases which at the commencement date has a lease term of 12 months or less) and leases for which the underlying asset is of low value as described in paragraphs B3 – B9 of Ind AS 116.

A right of use asset is initially measured at cost and subsequently applies the cost mode ie less any accumulated depreciation and any accumulated impairment losses and adjusted for any remeasurement of lease liability. Ind AS 16, Property, Plant and Equipment is applied in depreciating the right – of – use asset.

A lease liability is initially measured at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the Company's incremental borrowing rate is used. Subsequently, the carrying amount of the lease liability is increased to reflect interest on lease liability; reduced to reflect the lease payments; and remeasured to reflect any reassessment or lease modifications or to reflect revised in – substance fixed lease payments.

2.15 Securitisation of Finance Lease Receivable

Lease Receivables securitised out to Special Purpose Vehicle in a securitisation transactions are de-recognised in the balance sheet when they are transferred and consideration has been received by the Company.

The resultant gain/loss arising on securitization is recognised in the Statement of Profit & Loss in the year in which transaction takes place.

Lease Receivables assigned through direct assignment route are de-recognised in the balance sheet when they are transferred and consideration has been received by the Company. Profit or loss resulting from such assignment is accounted for in the year of transaction.

2.16 Leasing of Railway Infrastructure Assets

In terms of Indian Accounting Standard 116, the inception of lease takes place at the earlier of the date of the lease agreement and the date of a commitment by the parties to the principal provisions of the lease.

The commencement of the lease term is the date from which the lessee is entitled to exercise its right to use the leased asset. It is the date of initial recognition of the lease.

As such, in respect of Railway Infrastructure Assets, which are under construction and where the Memorandum of Understanding / terms containing the principal provisions of the lease are in effect with the Lessee, pending execution of the lease agreement, the transactions relating to the lease are:

- (a) presented as "Advance against Railway Infrastructure Assets to be leased"; and thereafter
- (b) transferred to "Project Infrastructure Assets under Finance Lease Arrangement" on receipt of utilization report from the lessee; and thereafter
- (c) transferred to lease receivable as per Ind AS 116 on execution of lease agreement.

2.17 Dividends

Dividends and interim dividends payable to the Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

2.18 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

2.19 Earnings per share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

2.20 Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of cash flows'.

2.21 Operating Segments

The Managing Director (MD) of the Company has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108, "Operating Segments".

The Company has identified 'Leasing and Finance' as its sole reporting segment.

2.22 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.22.1. Financial Assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset.

Subsequent measurement

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising

from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at Fair value through Other Comprehensive Income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the profit and loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to profit and loss.

Debt instrument at Fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to classify a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in entities other than subsidiaries and joint venture companies are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable. The Company has decided

Notes to Financial Statements

for the year ended 31 March 2022

(All amounts in millions of INR, unless stated otherwise)

to classify its investments into equity shares of IRCON International Limited through FVTOCI.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- (a) Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, debt securities, deposits and bank balance.
- (b) Financial assets that are debt instruments and are measured as at FVTOCI.
- (c) Lease receivables under Ind AS 116.
- (d) Loan commitments which are not measured as at FVTPL.

- (e) Financial guarantee contracts which are not measured as at FVTPL.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

2.22.2. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to borrowings, trade payables and other contractual liabilities.

Notes to Financial Statements

for the year ended 31 March 2022

(All amounts in millions of INR, unless stated otherwise)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risks are recognized in OCI. These gains/losses are not subsequently transferred to profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit and loss.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Derivative financial instruments

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts, cross currency swaps and interest rate swaps to hedge its foreign currency risks and interest rate risks of foreign currency loans. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken to statement of profit and loss. Where the derivative is designated as a hedging instrument, the accounting for subsequent changes in fair value depends on the nature of item being hedged and the type of hedge relationship designated. Where the difference is a pass through the lessee, the amount is received/ reimbursed to the lessee.

2.23 Standards issued but not yet effective:

The Ministry of Corporate Affairs has vide notification dated 23 March 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amends certain accounting standards, and are effective 1 April 2022. Below is a summary of such amendments:

1. Ind AS 16 Property, Plant and Equipment

Proceeds before intended use of property, plant, and equipment.

The amendment clarifies that an entity shall deduct from the cost of an item of property, plant, and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use (for example, the proceeds from selling samples produced when testing a machine to see if it is functioning properly).

Notes to Financial Statements

(All amounts in millions of INR, unless stated otherwise)

2. Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets

Onerous Contracts – Cost of fulfilling a contract.

The amendment explains that the cost of fulfilling a contract comprises: the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts.

3. Ind AS 103 Business combinations

References to the conceptual framework.

The amendment adds a new exception in Ind AS 103 for liabilities and contingent liabilities.

4. Ind AS 109 Financial Instruments

Fees included in the 10% test for de-recognition of financial liabilities.

The amendment clarifies which fees an entity includes when it applies the '10%' test in assessing whether to derecognise a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees

paid or received by either the entity or the lender on the other's behalf.

5. Ind AS 101 First time adoption

Subsidiary as a first-time adopter.

Simplifies the application of Ind AS 101 by a subsidiary that becomes a first-time adopter after its parent in relation to the measurement of cumulative translation differences.

6. Ind AS 41 Agriculture

Taxation in fair value measurements.

The amendment removes the requirement in Ind AS 41 for entities to exclude cash flows for taxation when measuring fair value. This aligns the fair value measurement in Ind AS 41 with the requirements of Ind AS 113, Fair Value Measurement.

These amendments have either no applicability to the Company or if applicable, the impact is either immaterial or presently being ascertained.

- b. Claims against the Company not acknowledge as debt – relating to service matter pending in Hon'ble Supreme Court - amount not ascertainable.
- c. The procurement/acquisition of assets leased out by the Company to the Indian Railways is done by Ministry of Railways (MOR), Government of India. As per the lease agreements entered into between the Company and MOR, the Sales Tax/ VAT liability, if any, on procurement/acquisition and leasing is recoverable from MOR. Since, there is no sales tax/ VAT demand and the amount is unascertainable, no provision is considered necessary.
- d. Director-General of GST Intelligence (DGGI), Chennai Zonal unit has served a show cause notice dated 16-4-2019 on the company alleging contravention of the provision of sec 67,68 and 70 of the Finance Act, 1994 by the company and as to why service tax of Rs26,537.65 million along with interest and penalty be not demanded from the company. The company has submitted reply against the Show Cause notice stating that there is no contravention of the provision of any of the above-stated section of the Finance Act, 1994. Against the reply given by the company, vide letter dt 21-10-20, Commissioner, CGST, Delhi East, seeking comments given by the DGGI, Chennai Zonal unit and the company filed the counter comments to the department and the company is not liable to pay the tax. However, if any liability arises that would be recoverable from the Ministry of Railways, Government of India.
- e. The disputed demand of tax including interest thereon for the AY 2015-16 was Rs. 9.48 million. Against the said demand, the Company has filed a rectification application u/s 154. Based on the decisions of the Appellate Authority in similar matters and interpretation of relevant provisions, the Company is confident that the demands will be either deleted or substantially reduced, and accordingly, no provision is considered necessary. However, the said demand of Rs.9.48 million has been adjusted by the department, out of the refund to IRFC for the AY 2016-17.

M) These plans typically expose the Company to Actuarial Risks such as Investment Risk, Liquidity Risk, Market Risk and Legislative Risk

Actuarial Riskw	<p>It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:</p> <p>Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.</p> <p>Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cash flow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.</p> <p>Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.</p>
Investment Risk	For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.
Liquidity Risk	Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cash flows.
Market Risk	Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.
Legislative Risk	Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

- Impact due to decrease of 0.50 %	4.45	3.85
c) Impact of the change in withdrawal rate		
- Impact due to increase of 0.50 %	4.55	3.94
- Impact due to decrease of 0.50 %	4.55	3.94

Sensitivities due to mortality and withdrawals are not material and hence impact of change not calculated.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.

L) These plans typically expose the Company to actuarial risks such as Investment Risk, Liquidity Risk and Market Risk.

Actuarial Risk	<p>It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:</p> <p>Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.</p> <p>Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Employees' Family Benefit Scheme will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cash flow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.</p> <p>Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Employees' Family Benefit Scheme will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.</p>
Investment Risk	<p>For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.</p>
Liquidity Risk	<p>Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cash flows.</p>

Market Risk	Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.
Legislative Risk	Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

38.2.2: Fair value measurements

Fair value hierarchy

The Fair value hierarchy reflects the significance of the input used in making the measurements and hence the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices in markets that are not active) or indirectly (i.e. quoted prices for similar assets or liabilities);

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of 31 March 2022:

Particular	As at 31 March 2022	Fair Value measurement at end of the reporting period/ year using

Valuation technique used to determine fair value

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used to estimate the fair values:

The Company holds nominal Equity (less than 0.26%) in IRCON International Limited. The equity shares of IRCON International Limited were listed on National Stock Exchange (NSE) with effect from 28 September 2018. The Company had elected to classify its investment in IRCON International Limited as fair value through other comprehensive income(OCI). The fair value as on 31 March 2022, 31 March 2021 has been measured as per the quoted on National Stock Exchange (Level 1 Input).

Dividend received

Particulars	For the Year ended 31 March 2022	For the Year ended 31 March 2021
Dividend received (IRCON International Limited)	9.96	2.51

Fair value of financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required):

The directors consider that the carrying amounts of financial assets and financial liabilities recognised in the financial statements approximate their fair values.

38.3 Financial risk management

The Company's activities expose it to a variety of financial risks which includes market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Company's focus is to ensure liquidity which is sufficient to meet the Company's operational requirements. The Company monitors and manages key financial risks so as to minimise potential adverse effects on its financial Performance. The Company has a risk management policy which covers the risks associated with the financial assets and liabilities. The details for managing each of these risks are summarised ahead.

38.4: Market risk

"Market risk is the risk that the expected cash flows or fair value of a financial instrument could change owing to changes in market prices. The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

Company use derivative instruments to manage market risk against the volatility in foreign exchange rates and interest rates in order to minimize their impact on its results and financial position. Company policy is not to utilize any derivative financial instruments for trading or speculative purposes.

(All amounts in millions of INR, unless stated otherwise)

38.5: Foreign currency risk management

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

Particulars	Liabilities		Assets	
	As at 31 March 2022	As at 31 March 2021	As at 31 March 2022	As at 31 March 2021
Secured foreign currency term loan	16,645.27	16,350.64	-	-
Unsecured bonds from overseas capital market	2,47,258.14	2,03,025.44	-	-
Unsecured foreign currency term loans	4,00,259.60	3,18,540.22	-	-
Total	6,64,163.01	5,37,916.30	-	-

Foreign currency sensitivity analysis

The following table details the company's sensitivity to a 10% increase and decrease in the INR against the relevant outstanding foreign currency denominated monetary items. 10% sensitivity indicates management's assessment of the reasonable possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. A positive number below indicates an increase in profit or equity where Rupee appreciates 10% against the relevant currency. A negative number below indicates a decrease in profit or equity where the Rupee depreciates 10% against the relevant currency.

Particulars	As at 31 March 2022		As at 31 March 2021	
	INR strengthens by 10%	INR weakens by 10%	INR strengthens by 10%	INR weakens by 10%
Profit or (loss)	66,416.30	(66,416.30)	53,791.63	(53,791.63)

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

38.6: Interest rate risk management

The Company is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings. Company use financial instruments to manage its exposure to changing interest rates and to adjust its mix of fixed and floating interest rate debt on long-term debt.

The Company's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

Notes to Financial Statements

for the year ended 31 March 2022

(All amounts in millions of INR, unless stated otherwise)

If interest rates had been 50 basis points higher/ lower and all other variables were held constant, the Company's:

- i) Profit for the year ended 31 March 2022 would decrease/increase by Rs. 9318.74 millions (31 March 2021: decrease/increase Rs. 8,346.63 millions). This is mainly attributable to the Company's exposure to interest rates on its variable rate debt securities;
- ii) Profit for the year ended 31 March 2022 would decrease/increase by Rs. 8469.44 millions (31 March 2021: decrease/increase Rs. 5,590.55 millions). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

Interest Rate Benchmark Reform:

Following the request received by the Financial Stability Board from the G20, a fundamental review and reform of the major interest rate benchmarks is underway across the world's largest financial market. This reform was not contemplated when Ind AS 107 & Ind AS 109 were notified and consequently the Ministry of Corporate Affairs, Government of India has notified a set of temporary exceptions from applying specific hedge accounting requirements to provide clarifications on how the standard should be applied in these circumstances.

Following are the temporary exceptions provided from applying specific hedge accounting requirements:

- (i) For assessing highly probable requirement for cash flow hedges: For the purpose of determining whether a forecast transaction (or a component thereof) is highly probable, an entity shall assume that the interest rate benchmark on which the hedged cash flows (contractually or non-contractually specified) are based is not altered as a result of interest rate benchmark reform.
- (ii) Reclassifying the amount accumulated in the cash flow hedge reserve: For the purpose of determining whether the hedged future cash flows are expected to occur, an entity shall assume that the interest rate benchmark on which the hedged cash flows (contractually or non-contractually specified) are based is not altered as a result of interest rate benchmark reform.
- (iii) Assessing the economic relationship between the hedged item and the hedging instrument: An entity shall assume that the interest rate benchmark on which the hedged cash flows and/or the hedged risk (contractually or non-contractually specified) are based, or the interest rate benchmark on which the cash flows of the hedging instrument are based, is not altered as a result of interest rate benchmark reform.
- (iv) Designating a component of an item as a hedged item: Subject to certain exemptions, for a hedge of a non-contractually specified benchmark component of interest rate risk, an entity shall apply the requirement – that the risk component shall be separately identifiable – only at the inception of the hedging relationship.

Under these temporary exceptions, interbank offered rates (IBORs) are assumed to continue unaltered for the purposes of hedge accounting until such time as the uncertainty is resolved. The application of this set of temporary exceptions is mandatory for accounting periods starting on after 1st April 2020. Significant judgements will be required in determining when uncertainty is expected to be resolved and therefore when the temporary exceptions will cease to apply. However, as at 31st March 2022, the uncertainty continued to exist and so the temporary exceptions apply to the Company's hedge accounting relationships that reference benchmarks subject to reform or replacement.

The Company has cash flow and fair value hedge accounting relationships that are exposed to different IBORs, predominantly US dollar Libor and JPY Libor. The existing derivatives and some of the loans, bonds and other financial instruments designated in relationships referencing these benchmarks will transition to new risk – free rates (RFRs) in different ways and at different types. External progress on the transition to RFRs is being monitored, with the objective of ensuring a smooth transition for the Company's hedge accounting relationship. The specific issues arising will vary with the details of each hedging relationship, but may arise due to the transition of existing products included in the designation, a change in expected volumes of products to be issued, a change in contractual terms of new products issued, or a combination of these factors. Some hedges may need to be de-designated and new relationships entered into, while others may survive the market – wide benchmark reforms.

The hedge accounting relationships that are affected by the adoption of the temporary exceptions are presented in the balance sheet in note 5, 'Derivatives Financial Instruments'.

38.7: Other price risks

The Company has a small amount of investment in equity instruments, price risk of which is not considered material.

38.8: Credit risk management

Credit risk arises from the possibility that the counterparty will default on its contractual obligations resulting in financial loss to the company. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable.

The Company consider the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is significant increase in credit risk, it considers reasonable and supportive forward looking information such as:

- (i) Actual or expected significant adverse change in business.
- (ii) Actual or expected significant changes in the operating results of the counterparty.
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligation.
- (iv) Significant increase in credit risk and other financial instruments of the same counterparty.
- (v) Significant changes in the value of collateral supporting the obligation or in the quality of third party guarantees or credit enhancements.

Credit risk is managed through approvals, establishing credit limits, continuous monitoring of creditworthiness of customers to which the company grants credit terms in the normal course of business. The company also assesses the financial reliability of customers taking into account the financial condition, current economic trends and historical bad debts and ageing of accounts receivables.

The Company's major exposure is from lease receivables from Ministry of Railways, Government of India and loans to Rail Vikas Nigam Limited and IRCON International Limited which are under the control of Ministry of Railways. There is no credit risk on lease receivables being due from sovereign. With respect to loan given to Rail Vikas Nigam Limited and IRCON International Limited, the company consider the Reserve Bank of India directions in terms of its circular no. RBI/2017-18/181_DNBR (PD) CC. No. 092/03.10.001/2017-18 dated 31-May-2018 read with letter no. DNRB (PD). CO.No.1271/03.10.001/2018-19 dated 21-December-2018, to be adequate compliance with the impairment norms as per Ind AS 109, Financial Instruments, as IRCON International Limited and Rail Vikas Nigam Limited, both, are under Ministry of Railways, Government of India and the Company do not expect any concern in the repayment of aforesaid loans.

38.9: Liquidity risk management

Liquidity risk is defined as the potential risk that the Company cannot meet the cash obligations as they become due.

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the company's short, medium, and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves and banking facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. Besides, there is a provision in the lease agreements with the Ministry of Railways (MOR) whereby MOR undertakes to provide lease rentals in advance (to be adjusted from future payments) in case the Company doesn't have adequate liquidity to meet its debt service obligations.

Liquidity and interest risk tables

The following tables detail the company's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the company may be required to pay.

38.10: Derivative financial instruments

The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The objective of hedges is to minimize the volatility of INR cash flows of highly probable forecast transaction.

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

Note 41: Other Disclosures

- (a) Lease rental is charged on the assets leased from the first day of the month in which the Rolling Stock assets have been identified and placed on line as per the Standard Lease Agreements executed between the Company and MOR from year to year.
- (b) Ministry of Railways (MOR) charges interest on the value of the assets identified prior to the payments made by the Company, from the first day of the month in which the assets have been identified and placed on line to the first day of the month in which the money is paid to the MOR. However, no interest is charged from the MOR on the amount paid by the company prior to identification of Rolling stock by them.
- (c)
 - (i) Interest rate variation on the floating rate linked rupee borrowings and interest rate and exchange rate variations on interest payments in the case of foreign currency borrowings are adjusted against the lease income/ pre-commencement lease income in terms of the variation clauses in the lease agreements for Rolling Stock/ memorandum of understanding (MoU) for funding of Infrastructure assets executed with the Ministry of Railways. During the year ended 31 March 2022, such differential has resulted in an amount of Rs. 1,453.75 millions refundable by the Company (31 March 2021: Rs. 1198.93 millions accruing to the Company) which has been accounted for in the lease income/pre-commencement lease income.
 - (ii) In respect of foreign currency borrowings, which have not been hedged, variation clause have been incorporated in the lease agreements specifying notional hedging cost adopted for working out the cost of funds on the leases executed with MOR. Hedging cost in respect of these foreign currency borrowings is compared with the amount recovered by the company on such account on notional cost basis and accordingly, the same is adjusted against the lease income. During the year ended 31 March 2022 in respect of these foreign currency borrowings, the Company has recovered a sum of Rs. 14,117.53 millions (31 March 2021: Rs.5,254.72 millions) on this account from MOR against a sum of Rs. NIL millions (31 March 2021 :Rs. NIL millions) incurred towards hedging cost and the balance amount of Rs. 14,117.53 millions (31 March 2021: Rs. 5,254.72 millions) is refundable from MOR.
- (d) For computing the Lease Rental in respect of the rolling stock assets acquired and leased to the Ministry of Railways amounting to Rs. 2,74,839.73 millions during the year ended 31st March 2022 (Previous year ended 31 March 2021: Rs. 2,85,610.85 millions), the Lease Rental Rate and the Internal Rate of Return have been worked out with reference to the average cost of incremental borrowings made during the current year plus the margin equivalent to the margin as decided for the financial year 2021-22. The lease agreement in respect of these assets will be executed in due course of time.

Note 42:

- (a) (i) The Reserve Bank of India has issued Master Direction – Non- Banking Financial Company- Systemically Important Non Deposit Taking Company and Deposit Taking Company (Reserve Bank) Directions, 2016 vide notification DNBR. PD.008/03.10.119/2016-17 dated 1st September 2016 as amended from time to time have become mandatory with effect from 31 May 2018. The Reserve Bank of India has granted exemption to the Company in respect of classification of asset, provisioning norms and credit concentration norms to the extent of direct exposure to sovereign.
- (a) (ii) Till the financial year 2017-18, the Company, being a government NBFC, was exempt from creation and maintenance of Reserve Fund as specified u/s 45-IC of Reserve Bank of India Act, 1934. However, the said exemption has been withdrawn by the Reserve Bank of India (RBI) vide Notification No. DNBR (PD) CC.NO.092/0310.001/2017-18 dated 31st May 2018. Accordingly, the Company is now creating the Reserve Fund as required u/s 45IC of RBI Act, 1934, wherein at least 20% of net profit every year will be transferred before the declaration of dividend. No appropriation is allowed to be made from the reserve fund except for the purpose as may be specified by the Bank from time to time and further, any such appropriation is also required to be reported to the Bank within 21 days from the date of such withdrawal.

The Company created a reserve of Rs.12179.67 millions as on 31st March 2022 (Rs. 8832.26 in 31 March 2021) u/s 45IC.

Note 43:

- i The Finance Act, 2001 provides for levy of service tax on the finance and interest charges recovered through lease rental instalments on the Financial Leases entered on or after 16-07-2001. The Central Government vide Order No.1/1/2003-ST dated 30 April 2003 and subsequent clarification dated 15-12-2006 issued by Ministry of Finance has exempted the Lease Agreements entered between the Company and Ministry of Railways from levy of Service Tax thereon u/s 93(2) of Finance Act, 1994.
- ii The GST Council in their meeting held on 19 May 2017 has exempted the services of leasing of assets (rolling stock assets including wagons, coaches, locos) by Indian Railways Finance Corporation to Indian Railways from the levy of Goods & Service Tax (GST), Notification No. 12/2017 (Heading 9973) which has been made applicable with effect from 1 July 2017. Vide notification no. 07/2021 dated 30.09.2021 issued by Ministry of Finance, the said GST exemption on leasing of rolling stock by Indian Railways Finance Corporation to Indian Railways is withdrawn w.e.f. 1 October 2021.
- iii. The Company had deposited a sum of Rs.14,664.47 million towards GST under reverse charge mechanism for funds transferred to MoR for making payments on behalf of Company to contractors for construction of projects for the period from November 2017 to June 2018. As opined by the tax consultant, the above transaction did not involve any supply from MoR to the Company and accordingly, no GST under RCM was payable by the Company and hence, refund applications were filed with the GST department for the refund of the said deposit of Rs 14,664.47 millions. However, vide orders dated 22 September 2020 and 30 September 2020, the said refund applications have been rejected by the additional commissioner (Department of Trade and Taxes), GNCT of Delhi. The Company has filed 6 appeals before first appellate authority through its attorney, New Delhi against the rejection of refund orders on 24 December 2020 and 29 December 2020.

In the ultimate event of non-admissibility of refund claims by the GST department, the amount would be adjusted by the Company against the GST liability on lease rentals from infrastructure assets to be leased to MoR or other GST liability in future.

- (a) The Company discharges its obligation towards payment of interest and redemption of bonds, for which warrants are issued, by depositing the respective amounts in the designated bank accounts. Reconciliation of such accounts is an ongoing process and has been completed upto 31 March 2022. The Company does not foresee any additional liability on this account. The total balance held in such specified bank accounts as on 31 March 2022 is Rs. 117.62 millions (31 March 2021: Rs. 86.90 millions).
- (b) The Company is required to transfer any amount remaining unclaimed and unpaid in such interest and redemption accounts after completion of 7 years to Investor Education Protection Fund (IEPF) administered by the Ministry of Corporate Affairs, Government of India. During the year ended 31 March 2022, a sum of Rs.5.30 millions was deposited in IEPF (31 March 2021: Rs. 0.15 million)

Note 48:

The Company, in the earlier years, had executed Asset Securitisation Transactions by securitising an identified portion of future lease rentals originating on its assets leased to Ministry of Railways. As part of the securitisation transaction, future lease rentals were transferred to a bankruptcy remote Special Purpose Vehicle (SPV) which, in turn, issued Pass Through Certificates (PTCs) to the investors. The lease receivables, accordingly, were derecognised in the books of account of the company.

In terms of the Reserve Bank of India (RBI) Guidelines on Minimum Retention Requirement issued by the Reserve Bank of India as applicable to the Non-Banking Finance Companies, the company being the originator, had opted to retain a minimum of 5% of the book value of the receivables being securitised. Accordingly, the Company had invested Rs. 169.77 millions in the Pass Through Certificates (PTCs) issued by the 'Special Purpose Vehicle' towards Minimum Retention Requirement. Out of the amount invested in Pass Through Certificates (PTCs), Rs. 166.84 millions have matured till 31 March 2022 (31 March 2021: Rs. 157.63 millions) leaving a balance of Rs. 2.93 millions (31 March 2021: 12.14 millions). Details of the amount invested in Pass Through Certificates (PTCs) and outstanding as on 31st March 2022 is as follows:

C) Risk Exposure in Derivatives (currency and interest rate derivatives)

Qualitative disclosure

The Company enters into derivatives for the purpose of hedging and not for trading/speculation purposes.

The Company has framed a risk management policy duly approved by the board in respect of its External Commercial Borrowings (ECBs). A risk management committee comprising the Managing Director and Director Finance has been formed to monitor, analyse and control the currency and interest rate risk in respect of ECBs.

The Company avails various derivative products like currency forwards, Cross Currency swap, Interest rate swap etc. for hedging the risks associated with its ECBs.

- (d) Other than currency forward contracts, the Company also resorts to interest rate derivatives like Cross Currency Interest Rate Swap and Interest Rate Swap for hedging the interest rate risk associated with its external commercial borrowings.

The Company recognizes these derivatives in its Financial Statements at their Fair Values. Further, in view of the fact that these derivatives are Over the Counter (OTC) contracts customized to match the residual tenor and value of the underlying liability, the Company relies on the valuations done by the counter parties to the derivative transactions using the theoretical valuation models.

Since the total impairment allowances under Ind AS 109 is equal to the total provisioning required under IRACP (including standard asset provisioning) as at 31 March 2022, no amount is required to be transferred to 'Impairment Reserve'. The gross carrying amount of asset as per Ind AS 109 and Loss allowances (Provisions) thereon includes interest accrual on net carrying value of stage - 3 assets as permitted under Ind AS 109. While, the provisions required as per IRACP norms does not include any such interest as interest accrual on NPAs is not permitted under IRACP norms.

The balance in the 'Impairment Reserve' (as and when created) shall not be reckoned for regulatory capital. Further, no withdrawals shall be permitted from this reserve without prior permission from the Department of Supervision, RBI.

(ii) In terms of recommendations as per above referred notification, the Company has adopted the same definition of default for accounting purposes as guided by the definition used for regulatory purposes.

As at 31 March 2022, there are no loan accounts that are past due beyond 90 days but not treated as impaired.

Independent Auditor's Report

To
The Members,
Indian Railways Finance Corporation Limited,

Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the standalone financial statements of Indian Railway Finance Corporation Limited ("the Company"), which comprise the balance sheet as at 31st March, 2022 and the statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity, and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2022 and the profit and total comprehensive income, changes in equity, and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our Audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with

the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there-under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

EMPHASIS OF MATTERS

We draw attention towards:

1. Reconciliation & Balance confirmation from Ministry of Railway (MoR) have been done for the FY- 2016-17, 2017-18 & 2018-19 for lease rental receivable. Reconciliation & Balance confirmation from MoR for the FY-2019-20, 2020-21 and 2021-22 are yet to be completed. Please Refer to Note-6 & 33.
2. In respect of Advance against Project Assets, Utilization Certificates have been received from time-to-time from the Ministry of Railway (MoR). Please refer to Note-46.

We have determined the matters described below to be the Key Audit Matters to be communicated:-

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of financial statements of the audit period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

S.No.	Key Audit Matters	Auditor's Response
1.	The government has introduced new section 115BAA by the Taxation Law (Amendment) Ordinance, 2019 w.e.f F.Y. 2019-20, which provides an option to opt for a income tax rate of 22%, Surcharge 10% & Health and Education Cess at 4% by any domestic company. By opting this total effective tax rate will be at 25.17% (under normal provision of income tax) as against earlier effective tax rate of 34.95% (under normal provision of income tax). However, the earlier effective tax rate under MAT was 21.55% which was applicable on the company.	After adoption of Section 115BAA, the taxable income under the normal provision income tax may become NIL. Further after adoption of section 115BAA, the company will be outside the scope and applicability of MAT Provision under section 115JB of Income Tax Act, 1961. Hence, no tax liability may be there for the F.Y 2021-22 on the company. Hence, no tax provision has been created for the year ended 31.03.2022.
2.	Compliance in respect of SEBI (LODR) regulation 2015	The number of independent directors on the board was less than half of the total strength of the Board as required under SEBI (LODR) regulation, 2015 and the DPE guidelines.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonable knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the

audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements:

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure “B” to the Independent Auditor’s Report

(Referred to in Para 2(g) under the heading 'Report on other Legal and Regulatory Requirements' of our report of even date to The Members of Indian Railway Finance Corporation Limited on the standalone financial statements for the year ended 31st March , 2022)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Indian Railway Finance Corporation Limited (“the company”) as of 31 March, 2022 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls:

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility:

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note, to the extent applicable to an Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial

controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedure selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting:

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company’s internal financial control over financial reporting includes those policies and procedures that :

Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion:

In our opinion, to the best of our information and according to explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential

components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India except the following area where the internal control system required to be improved :

Amount payable to or receivable from Ministry of Railways in respect of Liabilities and Assets against transactions of Financial Statement are subject to reconciliation and confirmation by the Ministry of Railways (MoR). Please refer to Financial Note-6, Disclosure Note- 33 & 46.

described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there-under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

EMPHASIS OF MATTERS

We draw attention towards:

1. Reconciliation & Balance confirmation from Ministry of Railway (MoR) have been done for the FY- 2016-17, 2017-18 & 2018-19 for lease rental receivable. Reconciliation & Balance confirmation from MoR for the FY-2019-20, 2020-21 and 2021-22 are yet to be completed. Please Refer to Note-6 & 33.
2. In respect of Advance against Project Assets, Utilization Certificates have been received from time-to-time from the Ministry of Railway (MoR). Please refer to Note-46.

We have determined the matters described below to be the Key Audit Matters to be communicated: -

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of financial statements of the audit period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

S.No.	Key Audit Matters	Auditor's Response
1.	The government has introduced new section 115BAA by the Taxation Law (Amendment) Ordinance, 2019 w.e.f F.Y. 2019-20, which provides an option to opt for a income tax rate of 22%, Surcharge 10% & Health and Education Cess at 4% by any domestic company. By opting this total effective tax rate will be at 25.17% (under normal provision of income tax) as against earlier effective tax rate of 34.95% (under normal provision of income tax). However, the earlier effective tax rate under MAT was 21.55% which was applicable on the company.	After adoption of Section 115BAA, the taxable income under the normal provision income tax may become NIL. Further after adoption of section 115BAA, the company will be outside the scope and applicability of MAT Provision under section 115JB of Income Tax Act, 1961. Hence, no tax liability may be there for the F.Y 2021-22 on the company. Hence, no tax provision has been created for the year ended 31.03.2022.
2.	Compliance in respect of SEBI (LODR) regulation 2015	The number of independent directors on the board was less than half of the total strength of the Board as required under SEBI (LODR) regulation, 2015 and the DPE guidelines.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate

to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonable knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements:

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the **"Annexure A"**, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure “B” to The Independent Auditor’s Report

(Referred to in Para 2(g) under the heading 'Report on other Legal and Regulatory Requirements' of our report of even date to The Members of Indian Railway Finance Corporation Limited on the standalone financial statements for the year ended 31st March, 2022)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Indian Railway Finance Corporation Limited (“the company”) as of 31 March, 2022 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls:

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility:

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note, to the extent applicable to an Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial

controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedure selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting:

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company’s internal financial control over financial reporting includes those policies and procedures that:

Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion:

In our opinion, to the best of our information and according to explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential

components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India except the following area where the internal control system required to be improved :

Amount payable to or receivable from Ministry of Railways in respect of Liabilities and Assets against transactions of Financial Statement are subject to reconciliation and confirmation by the Ministry of Railways (MoR). Please refer to Financial Note-6, Disclosure Note- 33 & 46.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143 (6) (b) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF INDIAN RAILWAY FINANCE CORPORATION LIMITED FOR THE YEAR ENDED 31 MARCH 2022

The preparation of financial statements of Indian Railway Finance Corporation Limited for the year ended 31 March 2022 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the Company. The Statutory Auditor appointed by the Comptroller and Auditor General of India under Section 139 (5) of the Act is responsible for expressing opinion on the financial statements under Section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under Section 143 (10) of the Act. This is stated to have been done by them vide their Revised Audit Report dated 12 July 2022, which supersedes their earlier Audit Report dated 20 May 2022.

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the financial statements of Indian Railway Finance Corporation Limited for the year ended 31 March 2022 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the Statutory Auditors and is limited primarily to inquiries of the Statutory Auditors and company personnel and a selective examination of some of the accounting records. The Audit Report has been revised by the statutory auditor to give effect to some of my audit observations raised during supplementary audit.

In addition, I would like to highlight the following significant matters under Section 143(6)(b) of the Act which have come to my attention and which in my view are necessary for enabling a better understanding of the financial statements and the related audit report.

A. Comments on Financial Position

Assets

Financial Assets

i. Receivables – Note 6

Lease Receivables – Rs. 2,006,924.99 million

Loans – Note 7 Rs. 68,248.05 million

The above 'Lease Receivables' represents the amount receivable from Ministry of Railway towards financing Rolling Stock and Other Railways Projects. The disclosure of the above as 'Receivables' instead of 'Loans' (Note 7) was in violation of Schedules III (Division III) of the Companies Act, 2013.

This had resulted in overstatement of 'Receivables' by Rs. 2,006,924.99 million and also understatement of 'Loans' by the same amount.

ii. Receivables (Note 6) – Lease Receivables Rs. 2,006,924.99 million

The above includes Rs. 208,987.22 million being the amount depicted as 'Lease Receivables' from Ministry of Railways (MoR) for the railway projects funded for creating infrastructure projects (Rs.151,612.02 million for EBR-IF and Rs. 57,375.20 million for National Projects).

As per Para 9 of Ind AS 116, 'a contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

The company has entered (March, 2022) into lease agreement for the above 'Lease Receivables, with MoR. However, specific railway asset(s) created with the funds provided by IRFC cannot be identified from the list of projects given in the agreement. As such the same cannot be classified as 'lease' in terms of the Para 9 of Ind AS 116.

Further, the Company can only finance Railway Assets through lease finance as per its Memorandum of Association. As such, the above cannot be termed as 'Loan'.

This has resulted into overstatement of Lease Receivables by Rs. 208,987.22 million.

iii. Other Non- Financial Assets (Note 13) – Rs. 164,940.28 million

Other Equity (Note 22) Rs. 279,278.34 million

The above amount of Other Non-Financial Assets includes Rs. 111.05 million being the amount shown as recoverable from Department of Investment and Public Asset Management (DIPAM) towards share issue expenses. However, DIPAM has not confirmed the amount.

This has resulted into overstatement of Other Non – Financial Assets by Rs. 111.05 million and corresponding overstatement of Other Equity, to the same extent.

Assets Financial Assets i. Receivables – Note 6 Lease Receivables – Rs. 2,006,924.99 million Loans – Note 7 Rs. 68,248.05 million <p>The above 'Lease Receivables' represents the amount receivable from Ministry of Railway towards financing Rolling Stock and Other Railways Projects. The disclosure of the above as 'Receivables' instead of 'Loans' (Note 7) was in violation of Schedules III (Division III) of the Companies Act, 2013.</p> <p>This had resulted in overstatement of 'Receivables' by Rs. 2,006,924.99 million and also understatement of 'Loans' by the same amount.</p>	<p>Para 67 of Ind AS 116 "Leases", states that, 'At the commencement date, a lessor shall recognize assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease'</p> <p>Considering the nature of IRFC business and proportion of lease receivables (98%) in comparison to loan given to other railway entities (2%), the disclosure of amount lease receivable as separate line item on the face of Balance sheet facilitates the better readability and understanding for the user of financial statement. Hence, there is no overstatement of 'Receivables' by Rs. 2,006,924.99 million and also understatement of 'Loans'.</p> <p>However as suggested by CAG, Company will review the existing classification for disclosure in financial statements of 2022-23.</p>
ii. As such, the above cannot be termed as 'Loan'.</p> <p>This has resulted into overstatement of Lease Receivables by Rs. 208,987.22 million.</p>	<p>The management is of the opinion that, Schedule I of lease agreement which has been executed by IRFC with MoR for the Project Assets (EBR-IF 2015-16 & National Projects 2018-19), clearly provides the details of the 'Railway Projects' which have been leased to the MoR and vide this agreement right of control of use of Railway Projects has been given to MOR. Further, IRFC does not have any substitution right over these assets as envisaged by Ind AS 116 for it to be an Identified Asset.</p> <p>Hence, Railway Projects which are funded by IRFC are the identified assets as per Ind-AS 116 and there is no overstatement of Lease Receivables by Rs. 208,987.22 million.</p> <p>However, for the purpose of redressal of CAG's concern, the Company has approached MOR for seeking further specific details of the Railway Projects as enlisted in the agreement. Response of MOR is awaited.</p>
iii. Other Non- Financial Assets (Note 13) – Rs. 164,940.28 million Other Equity (Note 22) Rs. 279,278.34 million <p>The above amount of Other Non-Financial Assets includes Rs. 111.05 million being the amount shown as recoverable from Department of Investment and Public Asset Management (DIPAM) towards share issue expenses. However, DIPAM has not confirmed the amount.</p> <p>This has resulted into overstatement of other Non-Financial Assets by Rs. 111.05 million and corresponding overstatement of Other Equity, to the same extent.</p>	<p>As per the email dated 22nd Feb 2021 DIPAM have given in principle approval to IRFC that the overall issue expenses will be shared between IRFC and DIPAM as per the extant guidelines in the ratio of 10:5 (as per the ratio of Fresh Issue and OFS).</p> <p>Presently, we are in the process of settling expenses with Lead Managers and after finalisation of total expenses, DIPAM will reimburse its share of expenses.</p> <p>Accordingly, the management is of the opinion that there is no overstatement of other Non-Financial Assets by Rs. 111.05 million and Other Equity.</p>

Forward looking statement

Some information in this report may contain forward-looking statements. We have based these forward looking statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by forward looking words such as “believe,” “plan,” “anticipate,” “continue,” “estimate,” “expect,” “may,” “will” or other similar words. A forward-looking statement may include a statement of the assumptions or basis underlying the forward-looking statement. We have chosen these assumptions or basis in good faith, and we believe that they are reasonable in all material respects. However, we caution you that forward looking statements and assumed facts or bases almost always vary from actual results, and the differences between the results implied by the forward looking statements and assumed facts or bases and actual results can be material, depending on the circumstances.

Our dedicated approach to support the expansion and modernisation of Indian Railways keeps us perfectly poised to realise the dreams of tomorrow. Over the years, we have constantly diversified the borrowing portfolio and taken necessary steps to emerge as a reliable and efficient financial services provider.

Our thrust on mobilising resources and exploring innovative and diverse instruments for raising funds, demonstrates our ability to consistently keep the cost of borrowing low. With a sharp focus on operational efficiency, we have improved financial performances and have recorded remarkable growth. Today, we remain poised for tomorrow – contributing effectively to the vision of making India ‘Atmanirbhar’.

CHAIRMAN'S MESSAGE

Dear Shareholders,

The past financial year will be remembered for many decades to come as one, that has severely affected humankind and changed our way of life. I extend my sincerest condolences to those who have lost their loved ones. Over the course of the last fiscal, Indian Railway Finance Corporation Limited (IRFC) too has faced a challenging business environment. Owing to the rapid outbreak of COVID-19 in FY20 and the subsequent second wave witnessed in FY21, economic volatility continued. Amidst difficulties, our people have demonstrated tremendous strength of character and I am extremely proud of their resilience, dedication and perseverance. We will, therefore, look back at the year not so much for the challenges they posed but, for the measures and solutions we have adopted to cope with them.

Economic Overview

The Indian economy has undergone a period of uncertainty during the year under review, mostly on account of the devastating Covid-19 pandemic. This has resulted in an economic contraction of 7.3% in FY21. As lockdowns and social distancing protocols continue to be implemented worldwide, business operations were negatively impacted and a steep decline in manufacturing output was noticed across industries. To offset the damage, governments and central banks have extended their support in the form of supportive monetary policies and fiscal measures that helped to stimulate recovery and provided much needed liquidity protection for businesses.

The Indian government along with the Reserve Bank of India announced a stimulus package to revive the economy towards the beginning of financial year 2021. It included measures such as:

- Production Linked Incentive (PLI) scheme, worth up to ₹ 1.46 lakh crore for 10 key sectors, in a bid to boost India's manufacturing capabilities and enhance exports
- Emergency Credit Line Guarantee Scheme (ECLGS) to provide liquidity support to 26 stressed sectors by providing collateral free and 100% guaranteed loans
- Reduction in repo rates
- Monetary help through direct account transfers to economically weaker sections.

These initiatives have helped to propagate modest economic growth in FY 2020-21, supporting a recovery after the pandemic.

Operational Highlights

IRFC reported a stellar performance during the year under review, with all-time high revenue and profits. The net profit for FY21 stood at ₹ 4,416.13 crore, an increase of 38.34% against ₹ 3,192.09 crore in the last fiscal. The total revenue from operations grew by 17.51%, year-on-year, amounting to ₹ 15,770.47 crore against ₹ 13,421.01 crore in the last fiscal year. Company declared interim dividend of ₹ 1,372.19 crore which works out to 31.07% of PAT for FY 2020-21.

Company's long-term domestic borrowing programme was awarded the highest credit rating of "CRISIL AAA/Stable", "[ICRA] AAA (Stable)" and "CARE AAA [Triple A]" by CRISIL,

The company continues to raise funds at the most competitive rates, both from domestic as well as overseas financial markets and has helped to keep the cost of borrowing low

ICRA and CARE, respectively. Three international credit rating agencies – Standard & Poor's, Fitch and Moody's – have awarded "BBB- with Stable Outlook", "BBB- with Negative Outlook" and "Baa3 with Negative Outlook" ratings, respectively.

IRFC has recorded a phenomenal 51% growth in annual disbursements, which increased from ₹ 70,471.96 crore in FY 20 to ₹ 1,04,369 crore in FY 21. The AUM for FY 21 stands at ₹ 3,60,079 crore, registering a year-on-year growth of 35.29%. The capital adequacy ratio of IRFC continues to remain strong at 420.46% in FY21. The total Capital Outlay (Capital Expenditure) of MoR for the year 2020-21 was ₹1,55,161 crore out of which IRFC's disbursement against the same was significant at ₹ 1,04,369 crore, which constitutes 67.43% of total capital outlay for the year 2020-21.

As a responsible corporate citizen, your Company attaches high importance to activities related to Corporate Social Responsibility (CSR) and has strictly adhered to the relevant provisions of the Companies Act, 2013 in this regard. CSR Budget for the year 2020-21 was pegged at ₹61.23 crore, against which, the Company approved total 6 projects with total outlay of ₹61.28 crore, against which, the Company has disbursed a sum of ₹41.51 crore. A total sum of ₹30 crore has been contributed to PM CARES Fund.

Equity shares got listed on 29th January, 2021 on BSE Limited and National Stock Exchange of India Limited. Initial Public Offerings (IPO) got an encouraging response from investors and was oversubscribed 3.8 times by QIB, 2.7 times by Non

Institutional Investors and 3.7 times by Retail Investors leading to overall subscription of 3.5 times the issue size. It is the first time that a Public Sector Enterprise has provided allocation to anchor investors in an issue. Based on current market capitalisation of Company, it is in the list of top 500 listed companies as on 31st March 2021.

The company continues to raise funds at the most competitive rates, both from domestic as well as overseas financial markets and has helped to keep the cost of borrowing low.

Indian Railways Sector

The Indian Railways is a departmental undertaking of the Government of India, which owns and operates most of India's rail transport. The Indian Railways has the fourth largest railway system in the world, after the US, Russia and China. Recently, private participation in rail projects is being encouraged and the government has approved 'participative models for rail-connectivity and capacity augmented project's, allowing private ownership of certain segments of railways. The government has announced two key initiatives—operation of passenger trains by private players and redevelopment of railway stations across the country. According to Indian Railways, these projects have the potential of attracting investments worth over US\$ 7.5 billion in the next five years.

To boost rail infrastructure and make the Indian Railways network future ready, Indian Railways has identified 56 projects across the country, in various zones, to be completed by FY 21 and FY 22. Under the Union Budget 2021-22, the government allocated

₹ 1,10,054.64 crore to the Ministry of Railways. Indian manufacturers, under the 'Atmanirbhar Bharat' initiative, are being urged to build capacities to support the development of the country's first high-speed rail corridor connecting Ahmedabad and Mumbai. As part of the National Rail Plan 2030, Indian Railways is expected to create a future-ready railway system by 2030 to bring down logistics cost and as per Vision 2024 part of National Rail Plan 2030, ensure 100% electrification of broad gauge rail routes by 2024.

I believe that the IRFC team will be sufficiently prepared to tackle any upcoming challenges and continue to adequately support the Indian Railways in its future endeavours. The ingenuity and expertise showcased by our team of highly talented individuals gives me immense confidence to be extremely optimistic about our future.

I would like to express my appreciation to our employees for an unmatched display of courage and dedication during these tough times. Going beyond short-term uncertainties, we remain focused on capitalising upcoming opportunities and are poised to benefit from the market recovery witnessed lately. I would like to extend my sincere gratitude to our customers, shareholders, suppliers, employees, lending institutions and the Government of India for their unabated trust, support and faith in our abilities.

Regards,

OUR JOURNEY SO FAR

Incorporated on 12th December, 1986, as a public limited company, the Indian Railway Finance Corporation is registered with the RBI as a systematically important NBFC-ND-IFC.

Over the past 35 years, we have achieved numerous milestones and efficiently fulfilled corporate governance norms.

Let us take a look at the company's milestones and key events before the initial public offering in January, 2021.

FOCUSED APPROACH ASTOUNDING STRENGTHS

IRFC has consistently supported efforts to modernise and expand the operations of Indian Railways. We are consistently scaling up our capabilities to play a pivotal role in the growth of railways in India. Over the years, we have relied on our inherent strengths to enhance value for our stakeholders

Strategically financing growth of Indian Railways

We were incorporated as the dedicated market borrowing arm of the Indian Railways and have played a strategic role in financing the operations of Indian Railways. We believe, the extensive expansion plans of Indian Railways will involve significant financing, and we are poised to meet its requirements.

₹ 7,34,588.61 Million
Worth of Project Assets
Financed FY 2020-21

Our financial activities are determined annually by the Ministry of Railways (MoR), in accordance with the planned capital outlay of the Union Budget of India for Indian Railways. We utilise various sources including taxable and tax-free bonds issuances, capital gain bonds term loans from banks/financial institutions, external commercial borrowings, internal accruals, asset securitization and lease financing to fulfil the funding needs. Some of these funds are also utilized for debt financing of other Railway PSU Entities.

Competitive cost of incremental borrowing

6.51%
Cost of incremental Borrowing
FY 2020-21

₹ 10,43,689.64 Million
Amount Raised FY 2020-21

Our funding requirements are met through various sources, wherein we fund acquisition of Rolling Stock Assets and Project Assets through market borrowings of various maturities and currencies. Our innate ability to source external commercial borrowings in the form of syndicated foreign currency term loans, issuance of bonds/ notes in offshore markets at competitive rates supplement the funds available from domestic sources. Based on our strong credit rating, diversified sources of funding and strategic relationship with the MoR, we strive to keep the cost of borrowing competitive.

The benefit of equity infusion, from time-to-time, by the Government of India, has greatly helped us to achieve sustainable growth. The company also raises funds from investors comprising banks and financial institutions, pension funds, provident fund trusts, insurance companies, sovereign funds, corporates, the public (including high net worth individuals, retail investors and non-resident investors), trusts and mutual funds.

IRFC has displayed constant growth in core metrics of funding and profitability. The cost-plus based Standard Lease Agreement with the MoR enables the company to maintain margins over the weighted average cost of incremental borrowing, determined by the MoR, in consultation with IRFC, at the end of each fiscal. Typically, the weighted average cost of incremental borrowing factors in expenses incurred by us, with respect to foreign currency hedging and/ or losses (and gains, if any) as well as any hedging costs for interest rate fluctuations. Simultaneously, we follow the cost-plus pricing model for financing other Railway PSU entities, which typically provides a relatively higher margin. In addition, we believe our low overhead and administrative costs and high operational efficiency has resulted in increased profitability.

Strong asset-liability management

IRFC manages cash flows through an active asset-liability management strategy. It helps to minimise asset-liability mismatches. The long-term borrowings are aligned to the prolonged tenure of the assets funded by IRFC. It not only helps to manage liquidity, but also meets the growing demands of Indian Railways. To ensure adequate funding reserves, the company maintains enough funds to meet operational and statutory requirements.

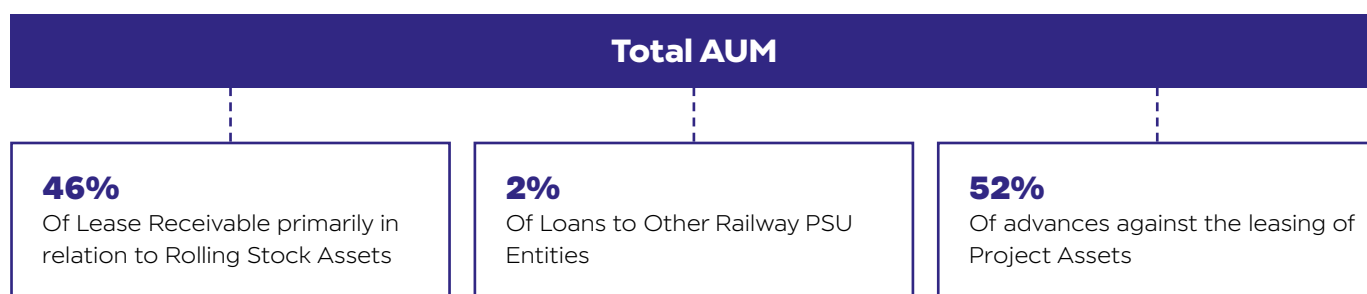

Further, if the company fails to procure sufficient funds for redeeming bonds or repaying term loans due to inadequate cash flow, under the Standard Lease Agreement, the MoR must provide for such shortfall through bullet payments, prior to the maturity of bonds or term loans. Such payments are adjusted in the subsequent lease rentals payable under respective Standard Lease Agreements.

Experienced senior management and committed team

Our in-depth knowledge and the experience of our senior management has enabled us to ensure consistency of our business plans by streamlining operational procedures. It is the strength of our management and the perseverance of our people that has allowed us to sustain business growth over the years.

Our senior management and executive team is qualified to efficiently handle the nuances of corporate lending and structured finance and law, due to their extensive working experience in renowned government agencies, leading commercial banks and financial institutions.

Low Risk Business Model

The unique relationship that IRFC maintains with the MoR enables the company to keep a low risk profile. Normally, any foreign currency expenses incurred by the company along with any hedging costs for interest rate fluctuations are combined with the weighted average cost of incremental borrowing. This enables IRFC to secure its margin, over the life of the lease. Risks related to damage of Rolling Stock Assets as a result of natural calamities and accidents are indemnified by the MoR.

Although, historically, IRFC has never resorted to this type of funding from the MoR, the liquidity risk is minimised because the MoR covers shortage of funds required for the redemption of bonds issued on maturity or for repaying term loan facilities. The MoR has never defaulted in its payment obligations under the Standard Lease Agreement. In addition, lease payments to IRFC is covered by the annual railway budget proposed by the Union Budget of India and is paid to IRFC semi-annually in advance.

In order to minimise interest rate and foreign currency exchange risks, IRFC enters into hedging arrangements to mitigate interest rate risks and foreign currency exposure, particularly arising from the external commercial borrowings. The cost of hedging is typically included in the weighted average cost of incremental borrowing, included in the lease rentals payable by the MoR.

OUR BUSINESS STRATEGIES

At IRFC, we endeavour to keep the cost of funding low, to support viable and sustainable operations. We have consistently contributed to the growth of Indian Railways, with a focus on further expanding the scope of operations and the volume of funding

Some of our principal business strategies include:

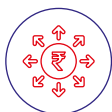

Diversification of borrowing portfolio

Through public issues of tax-free bonds and private placements of tax-free and taxable bonds with innovative structures, securitized receivables from the MoR and external commercial borrowings including syndicated loans, bonds and notes, we have diversified our portfolio.

We also continue to diversify our borrowing portfolio through a range of financing instruments and by identifying new markets and investors through the issuance of 'green bonds' and 'medium term notes'.

As part of our diversification strategy, we continue to explore additional funding options at cost effective rates, including Indian Rupee denominated

bonds issued in international markets. We also secure funding from sovereign wealth funds and pension funds as well as multilateral agencies such as the World Bank and the Asian Development Bank. We believe, a diversified borrowing portfolio enables us to raise more funds at lower costs.

Broadening our financing portfolio

As our primary function is to source funds for the Ministry of Railways (MoR), we continue to focus on funding the Rolling Stock Assets requirement of Indian Railways. We are also widening our portfolio and expanding our lending activities. We are mainly targeting projects that are relevant for the decongestion and expansion of the existing railway network. It also includes assets undertaken by other MoR entities to enhance the infrastructure of Indian Railways.

We aim to leverage our position as the primary financing partner of the MoR to provide monetary resources for joint ventures with state governments and other public sector undertakings, engaged in the development of railway infrastructure across India.

We intend to:

- address various financing requirements of entities under the MoR, including extension of guarantees and providing short term borrowings
- meet funding requirements of Indian Railways and ensure financing for implementation of railway projects
- diversify our financing portfolio to include forward and backward linkages to the railways sector

Continued focus on asset-liability management

Our robust ALM framework ensures a continuous monitoring of risks related to liquidity and interest rates. The same is done through a periodic analysis of long-term liquidity profile of assets, liabilities, receipts and debt-service obligations. Such structured analysis on a periodic basis in various time buckets is used for a holistic decision making regarding the time, volume and maturity profile of borrowings and a creation of a mix of assets and liabilities in terms of tenure and in terms of fixed or floating interest rate.

Measures to improve asset-liability management:

- Traditional Asset and Liability gap analysis
- Interest-rate sensitive gap statement
- Projection of debt-service obligations
- Taking into account Interest Rate Forecasts and Spreads
- Reviewing Internal cost of funds

- Assessing projected funding need of the MoR
- Processing projected loan disbursements
- Analysing liquidity position and funding strategies

We also continue to maintain a sharp focus on locating funding sources with long term repayment schedules and matching them with the lease terms of Rolling Stock Assets and Project Assets that we fund.

Advisory-Consultancy services and syndication activities venture

Our company has significant industry experience in fundraising and financing activities for the Indian Railways. We believe, it can be utilised for providing financial structuring advisory and consultancy services.

We can also help other entities related to Indian Railways with the following:

- Offer funding assistance

- Lend strategic advice for long term access to capital, acquisition finance and equity Capital
- Leverage our experience as an NBFC and infrastructure finance company to provide customised financing solutions

As a primary source of funding for the MoR, IRFC has the capability to venture into syndication activities. Railways,

being a capital intensive industry, we intend to foray into Loan Syndication. As a syndicate lender, we are often required to meet the large scale financing requirements of railways projects. With our deep domain knowledge and elaborate financing experience, we are confident of being a syndicate arranger for the Indian Railways & other related entities.

OUR FUNCTIONS

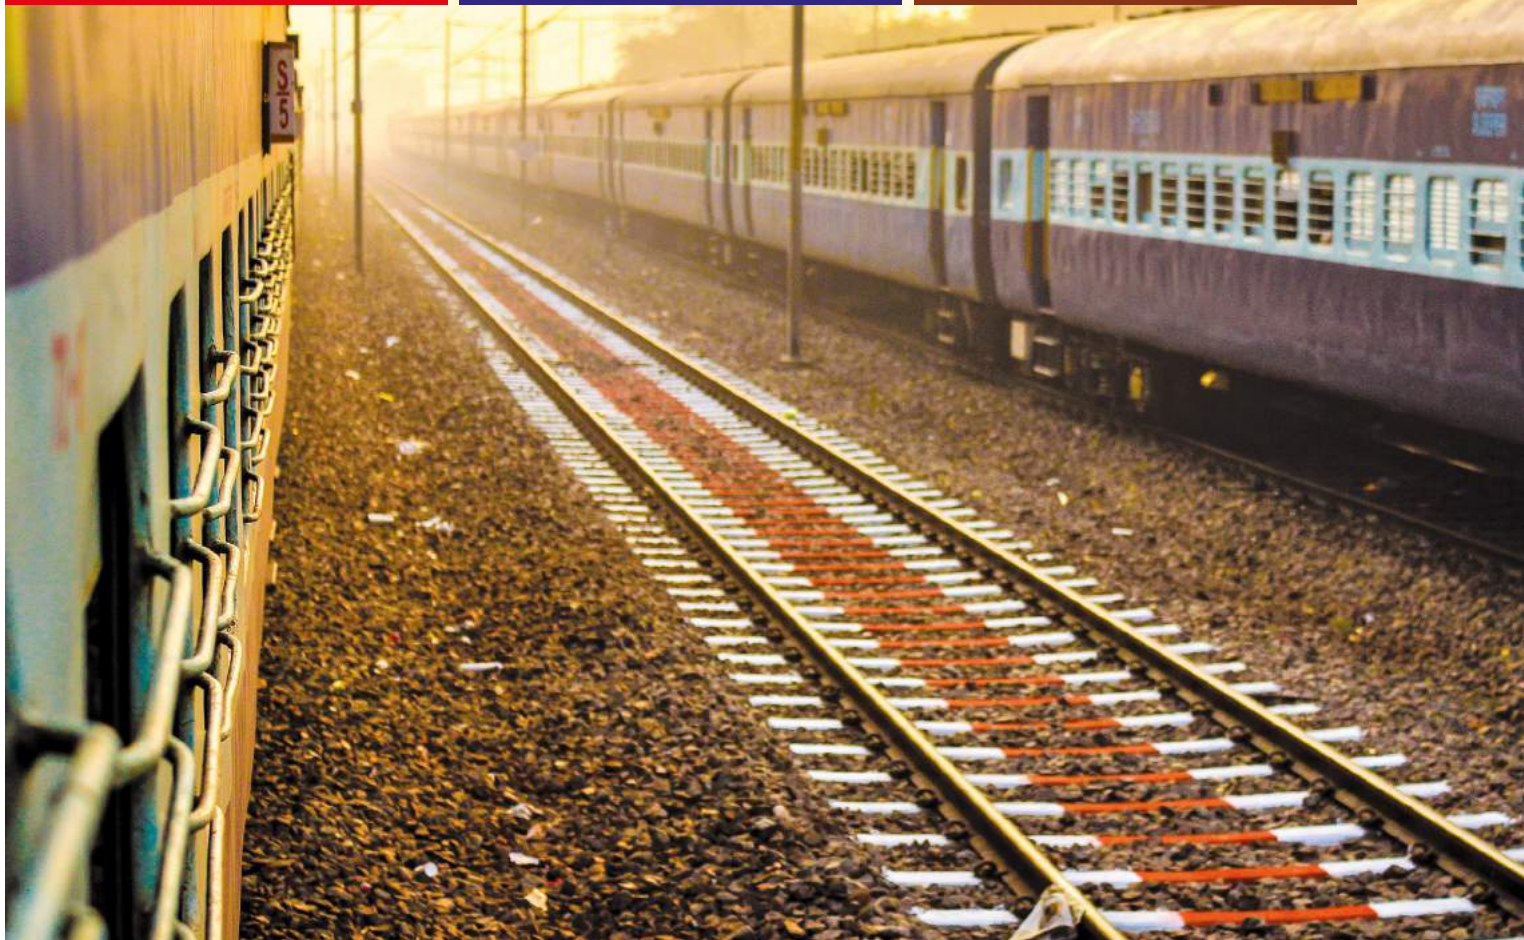

IRFC is the dedicated market borrowing arm of the Indian Railways. Our primary business is financial leasing of rolling stock assets, which includes both powered and unpowered vehicles, for example locomotives, coaches, wagons, trucks, flats, electric multiple units, containers, cranes, trollies of all kinds and other items of rolling stock components, leasing of railway infrastructure assets and national projects of the Government of India and lending to other entities under the Ministry of Railways, Government of India (MoR)

Accordingly our functions broadly covers following:-

**Leasing
Operations**

**Lending
Operations**

**Borrowing
Operations**

LEASING OPERATIONS

IRFC follows a leasing model to finance the rolling stock assets and project assets of Indian Railways.

Financing of Rolling Stock Assets

The lease period is typically for 30 years, comprising a primary period of 15 years followed by a secondary period of 15 years. As part of the lease, recovery of the principal component and interest is effected during the primary lease period and at the end of the lease, assets are transferred to the MoR at a nominal price.

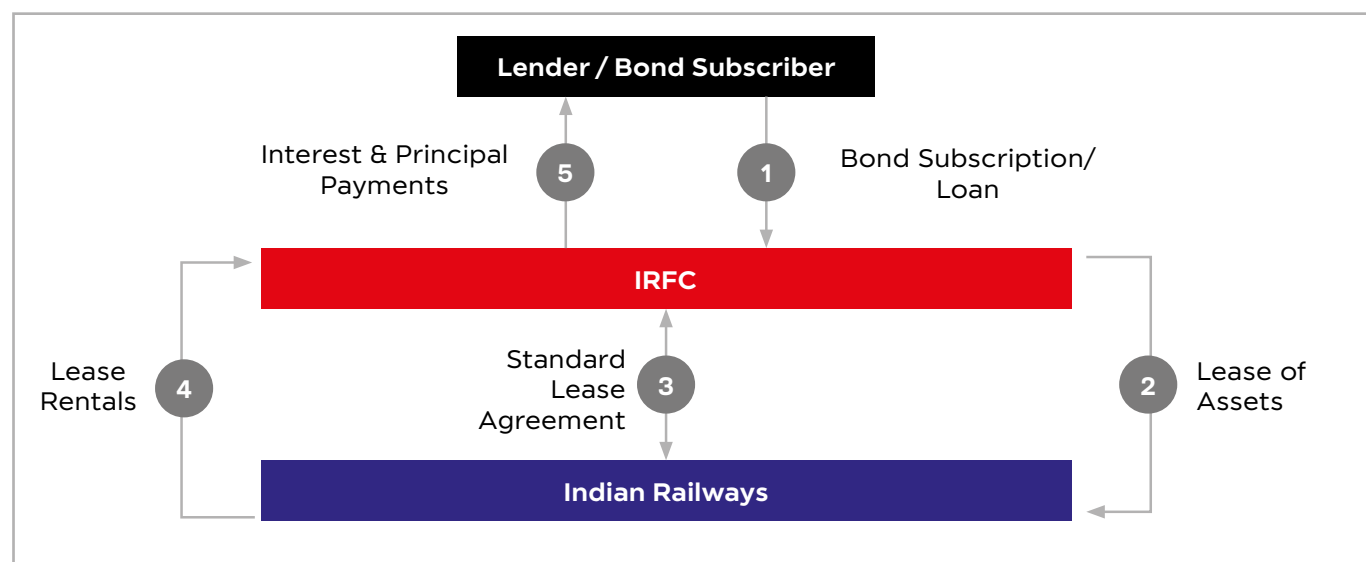

The Company adopts cost plus lease arrangement with the Ministry of Railways which ensures a net interest margin for IRFC. The MoR pays lease rentals to the Company on half yearly

basis and the lease pricing comprises both principal repayment and interest payment.

Standard Lease Agreement: Every year, IRFC enters into a Standard Lease Agreement with MoR. Lease rentals include the value of the Rolling Stock Assets leased by IRFC to the MoR in the relevant fiscal year, the weighted average cost of incremental borrowing as well as a certain margin, all in accordance with the terms of the Standard Lease Agreement.

Advance Lease Rentals: In case of difficulties experienced by IRFC in debt servicing, arrangement is in place to pay lease rentals in advance by MoR. IRFC has have never availed such a facility from the MoR till date.

Margin: In FY21, IRFC was entitled to a margin of 40 bps over weighted average cost of incremental borrowing.

FINANCING OF PROJECT ASSETS

Standard Lease Agreement: IRFC has entered into a MoU and Development Agency Agreement for financing of Project Assets with MoR. However, IRFC is yet to execute the Lease Agreements with the MoR.

Margin: In FY21, IRFC was entitled to a margin of 35 bps over weighted average cost of incremental borrowing.

LENDING OPERATIONS

IRFC also has presence in lending activities and have provided funds to various companies in Railway sector like Rail Vikas Nigam Limited (RVNL), Konkan Railway Corporation Limited, Rail Land Development Authority, Railtel Corporation of India and Pipavav Railway Corporation Limited.

Asset Under Management (AuM) Growth

IRFC has witnessed a sturdy 32.6% CAGR in AUM during FY2019-21, led by a healthy capital outlay of ₹ 3.8 tn by the Indian Railways. Historically, 30-40% of railway infrastructure capital outlay is being funded via the IRFC route.

In order to enable compliance with TDS requirements in respect of dividends declared by the Company in future, members are requested to submit Form 15G/15H on annual basis and update details about their Residential Status, PAN, Category as per the IT Act with their Depository Participants or in case of shares held in physical form, with the Company / R&TA, so that tax at source, if any as per applicable rates and residential status, may be deducted in respect of dividend payments made by the Company in future. Shareholders are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

Non-resident shareholders [including Foreign Institutional Investors (FIIs) / Foreign Portfolio Investors (FPIs)] can avail beneficial rates under tax treaty between India and their country of tax residence, subject to providing necessary documents i.e. No Permanent Establishment and Beneficial Ownership Declaration, Tax Residency Certificate, Form 10F, any other document which may be required to avail the tax treaty benefits.

13. The Securities and Exchange Board of India has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form who have not done so are requested to submit the PAN to their Depository Participant with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to RTA.
14. As directed by SEBI, Members are requested to:
 - i) Intimate to the DP, changes if any, in their registered addresses and/or changes in their bank account details, if the shares are held in dematerialized form.
 - ii) Intimate to the Company's RTA, changes if any, in their registered addresses, in their bank account details, if the shares are held in physical form (share certificates).
 - iii) Consolidate their holdings into one folio in case they hold Shares under multiple folios in the identical order of names.
15. Brief Resume of the Director seeking re-appointment as required under Regulation 36(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Secretarial Standard on General Meetings issued by the Institute of Company Secretaries of India is annexed hereto and forms part of Notice.
16. Pursuant to Section 143(5) of the Act, the Auditors of a Government Company shall be appointed or re-appointed by the Comptroller and Auditor General of India (C&AG) and in terms of Sub-section (1) of Section 142 of the Act, their remuneration has to be fixed by the Company in the meeting or in such manner as the Company in General Meeting may determine. The Members of your Company in its 33rd meeting held on 30th September, 2020 had authorised the Board of Directors to fix remuneration of Statutory Auditors. Accordingly, the Board of Directors fix the remuneration of the Statutory Auditors every year.
17. SEBI encourages all shareholders to hold their shares in dematerialized form as this eliminates the possibility of damage/loss of physical share certificate(s) & cases of forgery and facilitates the ease and convenience of paperless trading of shares.

Further, no stamp duty is payable on transfer of shares

held in Demat form. It is also pertinent to mention that with effect from April 1, 2019, SEBI has prescribed that requests for effecting transfer of securities (except transmission or transposition cases) shall not be processed unless the securities are held in the dematerialized form with a depository. Accordingly, we request you to convert your shareholdings from physical form to demat form at the earliest, in existing demat account or new demat account to be opened with any Depository Participant (DP).

18. Members who hold shares in physical form are requested to send all correspondence concerning transmission, transposition, sub-division, consolidation of shares or any other related matter and/or change in address or bank account, to R&TA of the Company and in case of shares held in electronic mode, to their respective Depository Participants.
19. In case of joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote during the AGM.
20. As SEBI has made usage of electronic payment modes for making cash payments to the investors mandatory, therefore members are advised to submit their National Electronic Clearing System (NECS)/ National Electronic Fund Transfer (NEFT)/ Direct Credit mandates or changes therein, to enable the Company to make payment of dividend by means of NECS/ NEFT/ Direct Credit/Warrants. Shareholders holding shares in physical form may send the NECS/NEFT/ Direct Credit to R&TA at the address i.e., M/s. Beetal Financial & Computer Services (P) Ltd. Beetal House, 3rd Floor, 99 Madangir, Behind local Shopping Centre, Near Dada Harsukhdas Mandir, New Delhi- 110062 and to their email id irfc@beetalfinancial.com. Shareholders holding shares in electronic form may send the NECS/NEFT/Direct Credit Mandate Form directly to their Depository Participant (DP). Those who have already furnished the NECS/NEFT/ Direct Credit Mandate Form to the Company / R&TA / DP with complete details need not send it again.
21. Members who have not received/encashed their dividend warrants within its validity period may write to the Company at its Registered Office or to the R&TA of the Company, for revalidating the warrants or payment in lieu of such warrants in the form of demand draft or direct credit to bank by furnishing documents to RTA Agent at their email id irfc@beetalfinancial.com.
22. Members are requested to note that, dividends if not encashed for a consecutive period of 7 years from the date of transfer to Unpaid Dividend Account of the Company, are liable to be transferred to the Investor Education and Protection Fund ("IEPF"). The shares in respect of such unclaimed dividends are also liable to be transferred to the demat account of the IEPF

Authority. In view of this, Members are requested to claim their dividends from the Company, within the stipulated timeline.

The Interim Dividend declared for the financial year 2020-21 would be due for transfer to IEPF on 14th April, 2028. Members, who have not claimed the Unpaid Interim Dividend so far, are requested to make their claim to the Company's Registrar & Transfer Agents (R & T Agents).

Pursuant to the provisions of the Companies Act, 2013 and Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, the requisite details of unpaid and unclaimed amounts lying with the Company has been uploaded on Company's website (www.irfc.nic.in).

Members may please note that in the event of transfer of such shares and the unclaimed dividends to IEPF, members are entitled to claim the same from IEPF authorities by submitting an online application in the prescribed Form IEPF-5 available on the website www.iepf.gov.in and sending a physical copy of the same duly signed to the Company along with the requisite documents enumerated in the Form IEPF- 5.

23. Members desirous of making a nomination in respect of their shareholding in the Company, as permitted under Section 72 of the Companies Act, 2013, are requested to write to the R&TA of the Company at irfc@beetalfinancial.com in Form SH-13 as prescribed in the Companies (Share Capital and Debentures) Rules, 2014. In case of shares held in dematerialized form, the nomination form has to be lodged directly with the respective DP.

24. The Register of Directors and Key Managerial Personnel (KMP) and their shareholding maintained under Section 170 of the Companies Act, 2013, Register of contracts and arrangements in which Directors are interested maintained under Section 189 of the Companies Act, 2013 and all other documents referred to in the Notice, will be available for inspection through electronic mode, without any fee, by the members from the date of circulation of this Notice, up to the date of AGM i.e., 29th September, 2021. Members desiring for inspection of said documents are requested to send an e-mail to the Company at investors@irfc.nic.in.

25. Members desirous of getting any information on any item(s) of business of this meeting are requested to send an e-mail mentioning their name, demat account number/folio number, email id, mobile number to investors@irfc.nic.in at least seven days prior to the date of the AGM and the same will be replied by the Company suitably.

26. The Instructions for remote e-voting, attending the 34th AGM through VC/OAVM and electronic voting during the AGM are as under:

(A) THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING AND E-VOTING DURING AGM AND JOINING MEETING THROUGH VC/OAVM ARE AS UNDER:

- (i) The voting period begins on 26th September, 2021 at 9:00 AM (IST) and ends on 28th September, 2021 at 5:00 PM (IST). During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) The Members who have cast their vote by remote e-Voting prior to the AGM may attend / participate in the AGM through VC / OAVM but shall not be entitled to cast their vote on such resolution again.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Annexure to the Notice

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item No. 4

As per Section 180(1)(c) of the Companies Act, 2013 read with the Companies (Management and Administration) Rules, 2014, the Board of Directors of the Company shall, with the consent of the Company by passing a Special Resolution, borrow moneys, which together with the moneys already borrowed by the Company, is in excess of the paid-up capital and free reserves of the Company.

In this regard, the Members of the Company, by passing Special Resolution in the 32nd Annual General Meeting (AGM) held on 26th September, 2019 had granted powers to the Board of Directors of the Company to borrow moneys upto a total amount of ₹ 4,00,000 crore (Rupees Four Lakh crore).

The net amount of borrowings of the Company as on 31st March, 2021 was ₹ 3,23,110.68 crore and a sum of ₹1,00,000 crore is likely to be borrowed till the first half of the year 2022-23, from the market by way of issue of bonds to investors and availing long term loans from banks and financial institutions, foreign currency borrowings etc.

The current outstanding borrowings together with projected borrowings till the first half of the year 2022-23 is likely to exceed the overall borrowing limit approved by the members. Therefore, the consent of the Members is sought under Section 180(1)(c) of the Companies Act, 2013, for increasing the borrowing limit from ₹ 4,00,000 crore to ₹ 8,00,000 crore, to cover the further requirement of borrowings.

The Memorandum and Articles of Association and all related documents shall be available for inspection through electronic mode, from date of circulation of this Notice upto the date of AGM.

Board of Directors of the Company in its Meeting held on 29th June, 2021 approved the above proposal and recommended the passing of the proposed Resolution as contained in the Notice, by Members of the Company.

In view of the above, you are requested to grant your consent to the Special Resolution as set out at Item No. 4 of this Notice.

The Directors or Key Managerial Personnel or their relatives do not have any concern or interest, financial or otherwise, in passing of the said Resolution, except to the extent of their shareholding in the Company.

Item No. 5

In terms of the provisions of Section 180(1)(a) read with Section 110 of the Companies Act, 2013 and Rules made thereunder, a company cannot sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking or undertakings of the company without the consent of the Shareholders of the Company by way of a Special Resolution through Postal Ballot.

However, in terms of MCA Notification dated February 9, 2018, any item of business required to be transacted by means of postal ballot, may be transacted at a general meeting by a company which is required to provide the facility to members to vote by electronic means.

In terms of the provisions of Companies Act, 2013 and SEBI (LODR) Regulations, 2015, IRFC is providing the facility to its members to enable them to vote on resolutions at the general meeting, by electronic means. Accordingly, the Special Resolution to increase in ceiling for creation of charge in terms of Section 180(1)(a) of the Companies Act, 2013, is proposed to be passed in this AGM.

The borrowing targets of the Company have increased substantially and in order to meet the growing fund requirements of the Company, additional funds are required to be raised by creation of security on the immovable/movable properties of the Company.

Therefore, it is proposed to authorize the Board of Directors of the Company to mortgage/create charge on immovable and/or movable properties of the Company, both present and future, towards security for total amount borrowed and outstanding at any point of time shall not exceed a sum of ₹ 8,00,000 crore (Rupees Eight Lakh Crore only) as per the requirements of Section 180(1)(a) of the Companies Act, 2013, Rules made there under and any other statutory and procedural formalities to be complied with in this regard.

The Memorandum and Articles of Association and all related documents shall be available for inspection through electronic mode, from date of circulation of this Notice upto the date of AGM.

Board of Directors of the Company in its Meeting held on 29th June, 2021 approved the above proposal and recommended the passing of the proposed Resolution as contained in the Notice, by Members of the Company.

In view of the above, you are requested to grant your consent to the Special Resolution as set out at Item No. 5 of this Notice.

The Directors or Key Managerial Personnel or their relatives do not have any concern or interest, financial or otherwise, in passing of the said Resolution, except to the extent of their shareholding in the Company.

Revenue from operations of your Company has increased by ₹ 23,494.55 million from ₹ 1,34,210.17 million in 2019-20 to ₹ 1,57,704.72 million in 2020-21, showing a growth of 17.51%.

Profit before Tax (PBT) of your Company for the year ending 31st March 2021 was ₹ 44,161.31 million as compared to ₹ 31,920.96 million for the previous year, registering a growth of 38.34%.

Profit after Tax (PAT) for the year ending 31st March, 2021 was ₹ 44,161.31 million which is the same as that of Profit Before Tax (PBT), as the Company has not made any provision for tax in its books pursuant to its decision to exercise the option of lower tax rate permitted u/s 115BAA of the Income Tax Act, 1961, as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated 20th September, 2019. The Company's taxable

income was nil and it did not have to pay Minimum Alternate Tax (MAT) with reference to its Book Profit. MAT payable u/s 115 JB was outside the ambit of the Section 115 BAA. Thus, on adoption of Section 115 BAA of the Income Tax Act, 1961, the Company was outside the scope and applicability of MAT provisions and there was a zero-tax liability in the financial year 2020-21. Profit After Tax for the year ending 31st March, 2021 was ₹ 44,161.31 million as compared to ₹ 31,920.96 million for the previous year, up by an impressive 38.34%. This has enabled the Company to augment its net worth.

2. Dividend

Your Company seeks to strike a judicious balance between the return to the shareholders and retaining a reasonable portion of the profit to maintain a healthy

financial leverage with a view to supporting and sustaining future borrowings and growth.

It was decided that interim dividend of ₹13,721.93 Mn paid for FY 2020-21 which works out to 31.07% of PAT for FY 2020-21, shall be the full and final dividend for FY 2020-21. Details of Unpaid Interim Dividend 2020-21 is available at <https://irfc.nic.in/wp-content/uploads/2021/07/Interim-Dividend-2020-21.pdf>

As per regulation 43A of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 (the Listing Regulations), the top 500 listed companies shall formulate a Dividend Distribution Policy. Accordingly, the policy was adopted to set out the parameters and circumstances that will be taken into account by the Board in determining the distribution of dividend to its shareholders and/or retained profits earned by the Company. The policy is also available on the Company's website: <https://irfc.nic.in/wp-content/uploads/2020/06/Dividend-Distribution-Policy>.

3. Reserves

As per Section 45 – IC of the RBI Act, 1934, all NBFCs are required to create a Reserve equivalent to 20% of the net profit before payment of dividend. RBI granted exemption to Government NBFCs from compliance of provisions of Section 45 – IC of the RBI Act, 1934. However, the exemption has been withdrawn by RBI w.e.f. 31st May, 2018. Accordingly, 20% of the net profit of the Company amounting to ₹ 8,832.22 Mn has been transferred to Reserve Fund u/s Section 45 – IC of RBI Act, 1934.

Out of the remaining amount of profit, the sum of ₹ 14,980.12 Mn has been kept in Retained Earnings after meeting a sum of ₹ 5,000 Mn towards final dividend for FY 2019-20 and ₹ 13,721.93 Mn Interim & Final Dividend for the FY 2020-21.

4. Share Capital

The Company also got its short-term borrowing programme rated, obtaining the highest rating of "CRISIL A1+", "[ICRA] A1+", and "CARE A1+ [A One Plus]" by CRISIL, ICRA and CARE.

International: During the financial year 2020-21, three international credit rating agencies – Standard & Poor's, Fitch and Moody's – have awarded "BBB- with Stable Outlook", "BBB- with Negative Outlook" and "Baa3 with Negative Outlook" ratings respectively to your Company. Besides, the Company obtained an issuer specific credit rating of "BBB+ with Stable Outlook" from Japanese Credit Rating Agency. Each of the four credit ratings is equivalent to India's sovereign rating and is of investment grade.

5.2. Memorandum of Understanding (MOU) with Ministry of Railways, Government of India

The Company enters into Memorandum of Understanding (MoU) with Ministry of Railways (MoR) every year wherein Company is evaluated on various financial and non-financial parameters. MoU rating for the year 2019-20 is yet to be declared by the Department of Public Enterprises (DPE). Based on its performance, the Company has

been rated 'Excellent' by the Department of Public Enterprises (DPE) with a score of 91.82 (Excellent) for the year 2018-19.

6. Market Borrowings during 2020-21

The Company was initially assigned a borrowing target of ₹ 58,000 Crore including funding of Rolling stock to the extent of ₹ 29,300 Crore, financing of Railway Projects under EBR-IF to the tune of ₹ 28,000 Crore and meeting the debt financing requirements of RVNL amounting to ₹ 700 crore. During the last quarter of the financial year 2020-21, the target was revised and ₹ 1,04,369.00 crore including ₹ 29,480.56 crore towards Rolling Stock, ₹ 21,839.68 crore towards EBR-IF, ₹ 51,619.07 Cr towards project assets under EBR-S and ₹ 1,429.69 crore towards debt financing requirement of RVNL were disbursed respectively. This was the highest ever borrowing target for any financial year in the history of the Company and was an increase of 48.45% over the previous year's target of ₹ 70,471.96 crore. The cumulative funding to Railway Sector has crossed ₹ 4.44 lakh crore mark.

The total Capital Outlay (Capital Expenditure) of MoR for the year 2020-21 was ₹1,55,161 crore out of which IRFC's disbursement against the same was significant at ₹1,04,369.00 crore which constitutes 67.43% of total capital outlay for the year 2020-21.

Borrowings during the year include Taxable Bonds worth ₹ 21,537.70 crore (Previous year ₹30,046.83 crore including LIC Bonds ₹4300 crore), External Commercial Borrowings (ECB) of ₹ 29,586.95 crore (previous year ₹13,783.85 Crore) at exchange rate prevailing on the draw down date, Rupee Term Loans of ₹ 52,401.75 crore (previous year ₹25,789.00 Crore) and 54EC bonds of ₹842.60 crore (previous year ₹852.28 crore). The weighted average cost of the pool of borrowings made by Company during the year 2020-21 worked out to 6.51% (semi-annual) as against 7.36% (semi-Annual) during the previous year 2019-20.

The Company was able to achieve this feat through constant monitoring of the markets, proper timing of its borrowings and appropriate selection of instruments.

During the year, the Company constantly diversified its borrowing portfolio to meet the target of borrowings mandated by MoR at the most competitive rates and terms. In its endeavor towards further diversification of its borrowing portfolio, the Company upsized its USD 2 bn GMTN programme to USD 4 bn GMTN programme. The 144A/Reg S bonds under the USD 4 bn GMTN Programme were issued with the principal size of USD 750 mn at a coupon rate of 2.80%, priced lower

than the secondary yield curve prevalent at that point of time.

Company also raised USD 3 bn through Syndicated Foreign currency denominated USD loan from SBI, Hong Kong. The drawal comprised two loans of USD 1 bn for a tenor of 10 years on unsecured basis and USD 2 bn for a tenor of 7 years on partially secured basis. Both the loans were linked to 6-month USD Libor and have since been drawn in three tranches of USD 1 bn each. Further, Company also raised JPY equivalent to USD 325 Mn through Syndicated JPY Loan from SMBC. The loan was linked to 6-month JPY Libor and has since been drawn. In effect, the total ECB borrowings for FY 21 logged a total sum of USD 4.075 Bn during the FY 2020- 21.

Company had received approval of Ministry of Finance for issue of 54EC Capital Gain Bonds in October 2017, since then, Company is making all endeavors to increase its market share in 54EC Bond market. In 2020-21, Company mobilized around ₹842.60 crore through 54EC Bond.

7. Redemption of Bonds / Repayment of Loans

During the year, the Company repaid Bonds amounting to ₹ 10,263.91 crore (including call option exercised for ₹ 3,000 crore) and External Commercial Borrowings (ECB) of ₹ 22.51 crore. The Company also redeemed long term loans from Banks of ₹ 3,625 crore and Commercial Paper with face value of ₹ 6,425 crore during the year.

The Company continues to maintain its impeccable track record of servicing its debt in time and there has not been a single instance of default during the year.

8. Internal Financial Control Systems & their adequacy

The details are given in Management Discussion and Analysis.

9. RBI Prudential Norms

Your Company is registered as a Systemically Important Non-Deposit Taking Non- Banking Finance Company with the Reserve Bank of India. Being a Government NBFC, your Company was exempted from the prudential norms prescribed by Reserve Bank of India for NBFC-ND-SI, as contained in the Master Directions issued vide Notification No. DNBR.008/CGM(CDS)-2015, dated 27th March, 2015. However, the exemption was withdrawn by Reserve Bank of India from 31st May, 2018. As such, the Company has complied with the applicable prudential norms.

The Company has obtained exemption from Reserve Bank of India from the asset classification, income recognition, credit concentration and provisioning norms on the direct exposure to Ministry of Railways, Govt. of India. The Company has also obtained relaxation in respect of lending limit applicable to Railway CPSEs from 20% of its owned funds to 100% of its owned funds.

Liquidity Coverage Ratio (LCR) Exemption:

RBI vide circular dated 4.11.2019 issued the guidelines covering liquidity risk management for NBFCs, wherein RBI introduced Liquidity Coverage Ratio (LCR) applicable on all non-deposits taking NBFCs with asset size of more than ₹ 5,000 crore. The guidelines aim to maintain a liquidity buffer in terms of LCR by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for next 30 days. As per the guideline, LCR is represented by stock of High-Quality Liquid Assets (HQLA) divided by Total Net Cash Outflows (stressed outflow less stressed inflows) over the next 30 calendar days. HQLAs are defined by RBI as the liquid assets that can be readily sold or immediately convertible into cash at little / no loss of value or can be used as collateral to obtain funds in stress situations.

The company has got an exemption from RBI from applicability of Liquidity Coverage Ratio (LCR) norms.

10. Lease Arrangement with the Ministry of Railways (2020-21)

As you are aware, the financial relationship of the Company with the Ministry of Railways is based on a Financial Lease arrangement which is regulated by a standard lease agreement. In respect of the incremental rolling stock assets acquired during 2020-21 through IRFC funding, lease rentals have been fixed at ₹ 52.8672 per thousand per half year (PTPH) over a primary lease tenor of 15 years. The cost (IRR) to Ministry of Railways is 7.11% p.a. payable semi-annually as compared to 7.77% last year, down by 66 bps. Viewed in the context of significant increase in the annual borrowing target by 47% as compared to last year and huge uncertainty prevailing in the market caused by COVID-19 pandemic during the FY 2020-21, the pricing is considered very attractive for the Ministry.

11. Resource Mobilisation for 2021-22

For the year 2021-22, the annual borrowing target for IRFC has been fixed at ₹ 65,258 crore which includes ₹ 30,300 crore for funding of Rolling Stock assets and funding of Railway projects to the extent of ₹ 34,258

crore. A target of ₹ 700 crore for meeting the debt funding requirements of RVNL has also been given.

The Company is confident of meeting the challenge and hopeful to raise the required amount during the year through a judicious mix of Bonds, Loans and External Commercial Borrowings, etc., at the most competitive rates and terms.

13. Impact of Global Health Pandemic COVID-19

The outbreak of Coronavirus (COVID-19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. The Company has adopted measures to curb the spread of infection in order to protect the health of employees and ensure business continuity with minimal disruption.

The Company has evaluated impact of this pandemic on its business operations and based on its review and current indicators of future economic conditions, there is no significant impact on its financial results. However, the impact assessment of COVID-19 is a continuing process, given the uncertainties associated with its nature and duration and accordingly, the impact may be different from that estimated as at the date of approval of these financial statements. The Company will continue monitoring any material change to future economic conditions.

14. Report on Corporate Governance

The Government considers good corporate governance practices a *sine qua non* for sustainable business that aims at generating long term value for its shareholders and all other stakeholders. Accordingly, it has been laying increasing emphasis upon development of best corporate governance practices amongst Central Public Sector Enterprises (CPSEs). In pursuance of this philosophy, your Company continues to comply with the 'Guidelines on Corporate Governance for Central Public Sector Enterprises' issued by Government of India, Department of Public Enterprises (DPE) in May, 2010. A few items in those Guidelines, which your Company is not in a position to adopt mainly because they do not apply to it, have been outlined, together with reasons for non-compliance thereof, in the Report on Corporate Governance. Your Company's Equity as well as Non-Convertible Debt Securities are listed on the stock exchanges and Company has complied with Securities

and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. As on 31st March, 2021, the Board of Directors is comprised of five Directors, with two Executive Directors, Two Non-Executive Directors (Govt. Nominees) and one Independent Director. The Company is not having the prescribed number of Independent Directors in compliance of the Regulations 17 (1) (a) of SEBI (LODR) Regulations 2015, specifying the composition of Board of Directors. Also, due to the absence of Independent Director(s), the composition of Audit Committee, Nomination and Remuneration Committee are also not in consonance with the Regulation 18 & 19 of SEBI (LODR) Regulations 2015. The power to appoint Directors vests with Government of India through Ministry of Railways (MoR) and Company has no role to play in it. Management Discussion and Analysis

Introduction to the Indian Economy

The outbreak of covid-19 pandemic has caused severe disruption across the globe. This also resulted in contraction of India's GDP growth rate to 7.3% in FY21¹. Government consumption and net exports have cushioned the growth from diving further down. GDP at Constant (2011-12) Prices in Q4 of 2020-21 is estimated at ₹ 38.96 lakh crore, as against ₹ 38.33 lakh crore in Q4 of 2019-20, showing a growth of 1.6 percent².

India has been witnessing a 'V-shaped' recovery since June 2020 with the gradual easing of restrictions on economic activities³. India's mobility and pandemic trends aligned and improved concomitantly. Indicators like E-way bills, rail freight, GST collections and power consumption not only reached pre-pandemic levels but also surpassed previous year levels. Manufacturing rebounded and industrial value started to normalize.

For the Indian economy, private consumption and investment are the two biggest engines for growth. The discretionary spending on non-essential goods has declined drastically due to rising unemployment and fears of future job losses. While currently supply-side constraints are slowly easing, a potential surge in the COVID-19 pandemic would disrupt supply chains, and inhibit productivity, which in turn affect the pace at which industrial production and investment return to normal. The Government has announced two stimulus packages amounting to 10% of the GDP, to reduce the impact of the pandemic on the economy.

The path to recovery will depend on how long the pandemic lasts and how quickly the vaccine can be made available to a population of 1.3 billion people⁴. Even if the health crisis is managed by mid-2021, the economic recovery may be slow and uneven with adverse consequences on output, employment, and financial stability. Both private consumption and investment demand may take a long time to recover.

Industry Overview

The Indian Railways is a departmental undertaking of the Government of India (GoI), which owns and operates India's rail transport, through the Ministry of Railways (MoR). The Indian Railways is the largest rail network in Asia and the world's second-largest under one management, running approximately 13,169 passenger trains and 8,479 freight trains every day to transport approximately 22.15 million passengers and 3 million tonnes (MT) of freight per day in FY20⁵. In FY20 the total running track kilometres was 99,235 kilometres. The Indian Railways employs 1.25 million people¹. The Indian Railways has deployed 12,729 locomotives, 70,236 passenger service vehicles, 2,93,077 wagons and 6,372 other coaching vehicles as of March 31, 2020¹. There were 7,321 and 7,325 railway stations in India as of FY19 and FY20, respectively¹.

The internal revenue of the Indian Railways is earned primarily from passenger and freight traffic. In FY20, the Indian Railways earned approximately ₹ 1,115 billion from freight traffic excluding demurrage/wharfage. The number of originating passengers on Indian Railways decreased in FY20 to 8,086 million from 8,439 million in FY19¹. Further, the passenger earnings also decreased by 0.78% or by ₹ 397.56 crore in FY20. The Indian Railways has constantly expanded its network, developed, and grown across various parameters including freight and passenger revenues as detailed below:

Freight Volumes

Freight is the major revenue-earning segment for the Indian Railways, it utilises one-third of its capacity and generates two-thirds of Indian Railway's revenues. Approximately 30% of total freight traffic (in terms of tonne kilometres) of India moves on rail. Nine commodities including coal, iron, steel, iron ore, food grains, fertilizers and petroleum products primarily support freight business for the Indian Railways.

The Indian Railways has always played a key role in India's social and economic development as it is a cheap and affordable means of transportation for millions of passengers. The Indian Railways plays a significant role in various industries, including agriculture and as a carrier of bulk freight, such as ores and minerals, iron and steel, cement, mineral oils, food grains and fertilizers, and containerized cargo. Most of the freight revenue in the Indian Railways is generated from the transportation of coal, cement, iron ore and food-grains, which accounted for 48.83%, 7.84%, 9.84% and 5.52%, respectively, of the total earnings from bulk commodities

Passenger Traffic

Passenger trains utilise two-thirds of capacity, however, generate only one-third of revenues for the Indian Railways. The table below sets out details of passengers originated and passenger earnings in the periods indicated:

* Provisional Figures

Train travel remains the preferred means for long-distance travel for a majority of Indians and with urbanisation, improving income standards and increasing population, passenger traffic is expected to grow further, which will entail major investments and capital outlay. The Indian Railways is planning certain reforms for passenger convenience such as, amongst others, refurbishment of coaches with amenities such as WiFi, vending machines and auto doors.

Capital Investments in Railways

Indian Railways has now highest ever Capex plan of ₹ 2,15,058 crores for 2021-22 with ₹ 7,500 crores from internal resources, ₹ 1,00,258 crores from extra budgetary resources and ₹ 1,07,300 crores for capital expenditure allocation⁷. The Union budget has allocated outlay of ₹ 1,10,055 crore for the Indian Railways, out of which ₹ 1,07,300 crore will be utilized for capital expenditure for 2021-22 to expand rail infrastructure in India³.

With this increase in Capex, Indian Railways will have a major role in driving the Indian economy. The thrust of Annual Plan 2021-22 is on infrastructure development, development of terminal facilities, augmentation of speed of trains, signaling systems, improvement of passengers/users' amenities, safety works of road over/under bridges

in FY20. The Indian Railways goods earnings decreased from approximately ₹ 1,226 billion in FY19 to approximately ₹ 1,115 billion in FY20.

The MoR implemented several policies in FY18 in order to improve freight traffic such as: (i) liberalising automatic freight rebate scheme in empty flow directions (routes with low freight traffic), (ii) entering into long term tariff contracts with key freight customers, and (iii) introducing double stack dwarf containers as a new delivery model to increase load-ability of trains and attract new traffic under wire.

etc. The following plan heads have been allotted highest ever outlays in BE 2021-22:

(₹ in Cr.)

Particulars	BE 2020-21	BE 2021-22	Increase over BE 2020-21
New Lines	26,971	40,932	52%

Traffic Facilities	2,058	5,263	156%
ROB/RUBs	6,204	7,122	15%

Last Financial year Indian Railways faced innumerable Covid related challenges. Passenger services had to be stopped to prevent the spread of the virus. It, however, kept the national supply chain running and moved great many number of migrants in the most adverse conditions.

The railways will also monetize dedicated freight corridor (DFC) assets for operations and maintenance. The western and eastern DFCs are expected to be commissioned by June 2022. The 263.7 km Sonnagar-Gomoh stretch of the eastern DFC will be taken up in 2021-22 under the public private partnership (PPP) model. The Gomoh-Dankuni section of 274.3 km will also be taken up soon³. The future DFC projects will also be undertaken such as the east coast corridor from Kharagpur to Vijayawada, the east-west corridor from Bhusaval to Kharagpur to Dankuni, and the north-south corridor from Itarsi to Vijayawada.

⁷<https://pib.gov.in/Pressreleaseshare.aspx?PRID=1694109>

Indian Railways has prepared a National Rail Plan (NRP) for India-2030. This will be for a future ready Railways, wherein infrastructure will be created by 2030, which shall be able to cater to the demand till 2050. NRP which identifies demand and required capacity augmentation needed till 2030 also lays focus on retrieving the modal share for Indian Railways to the level of 45% by 2050 with ultimate aim to reduce logistic cost of the economy.

Considering Passenger Convenience and Safety, the budget has also proposed Introduction of the aesthetically designed Vista Dome LHB coach on tourist routes to give a better travel experience to passengers and provision of indigenously developed automatic train protection on High density network and highly utilized network routes of Indian railways. This system minimized the possibility of train collision due to human error.

Foreign Direct Investment

The Government of India has permitted 100% Foreign Direct Investment (FDI) on automatic route in the following activities/areas of railway infrastructure:

- Suburban corridor projects through Public Private Partnership;
- High speed train projects;
- Dedicated freight lines;
- Rolling stock including train sets, and locomotives or coaches manufacturing and maintenance facilities;
- Railway Electrification;
- Signalling systems;
- Freight terminals;
- Passenger terminals;
- Infrastructure in industrial park pertaining to railway lines or sidings including electrified railway lines and connectivities to main railway line; and
- Mass Rapid Transport Systems.

The cumulative FDI equity inflow in the Railway related components industry is USD 1,227.24 mn during the period April 2000 to March 2021⁸.

Company Overview

Indian Railway Finance Corporation (IRFC) was set up on 12th December, 1986 as the dedicated financing arm of the Indian Railways for mobilizing funds from domestic as well

as overseas Capital Markets. IRFC is a Schedule 'A' Public Sector Enterprise under the administrative control of the Ministry of Railways, Govt. of India. It is also registered as Systemically Important Non-Deposit taking Non-Banking Financial Company (NBFC - ND-SI) and Infrastructure Finance Company (NBFC- IFC) with Reserve Bank of India (RBI). IRFC has played a significant role in its more than 30 years of existence in supporting the expansion of the Indian Railways and related entities by financing a significant proportion of its annual plan outlay.

The main objective of the company is to meet the predominant portion of 'Extra Budgetary Resources' (EBR) requirement of the Indian Railways through market borrowings at the most competitive rates and terms. Its aim is to be one of the leading Financial Service Companies in the country, for raising funds from the capital market at competitive cost for augmenting railway plan finances, duly ensuring that the Corporation makes optimum profits from its operations. The Company's principal business therefore is to borrow funds from the financial markets to finance the acquisition / creation of assets which are then leased out to the Indian Railways. IRFC's constant endeavor has been to diversify its borrowing portfolio in terms of instruments, markets and investors which has led to the Company meeting the targeted borrowings year after year, through issue of both taxable and tax-free bonds, term loan from banks/financial institutions besides off shore borrowings, at competitive market rate.

Human Resources

Performance level of your Company has been consistently high despite the fact that it consciously maintains a very lean workforce reflected in its low overhead to turnover ratio of around 0.11%.

In order to further strengthen the Organization Structure for coping with the additional workload due to manifold increase in the annual borrowing target mandated by MoR and significant increase in compliance requirements in the aftermath of implementation of the Companies Act, 2013, SEBI (LODR) Guidelines, migration to IND-AS and introduction of GST, the Company got a study conducted by the Management Development Institute (MDI). Company is increasing the employee strength suitably in a phased manner to meet the new challenges.

High levels of efficiency exhibited by the Company's dedicated workforce would not have been possible but for the Company laying deep emphasis on upgrading skills of its employees and keeping them abreast of latest developments and industry practices. The Company is committed to enhancing the professional expertise of all its

employees. As a matter of general practice, the Company relies on training programmes involving assessment of training needs and providing necessary inputs to Company personnel, including through customised training programmes.

The Directors are also imparted training on a need-based manner. Shri Chetan Venugopal, Independent Director, attended Online Workshop on 'Board Governance for Chairman, Directors, Independent Directors and KMPs on 05th December, 2020. The main focus of the training was to make the Directors aware of the best corporate governance practices.

While selecting the training programme, the Company lays emphasis on development of skill and knowledge of its executives in the new vistas of Finance and Information Technology, besides developing the leadership and managerial skills for the future.

Operational Highlights

Company was given a highest ever target of ₹ 1,04,369.00 crore to meet the funding requirement of Indian Railways for acquisition of Rolling Stock, for projects and EBR - IF, for projects under EBR (Special) and for financing requirement of RVNL. Company successfully met the aforesaid targets by transferring the required amount of funds. The annual disbursement had registered an impressive year-to-year growth of 48.45%. The cumulative funding to Railway Sector had crossed ₹ 4.44 lakh crore mark. The total Capital Outlay (Capital Expenditure) of MoR for the year 2020-21 was ₹ 2,40,840 crore out of which IRFC's disbursement against the same was significant at ₹ 1,04,369.00 crore which constitutes 43.44% of total capital outlay for the year 2020-21.

The weighted average cost and tenor of the pool of borrowings made by Company during the year 2020-21 remained at 6.51% (semi-annual) as against 7.36% (semi Annual) during the previous year 2019-20.

Company has upsized GMTN programme of USD 2 bn into a USD 4 bn GMTN programme. Company raised USD 3 bn through Syndicated Foreign currency denominated USD loan from SBI, Hong Kong. The drawl comprised of two

loans of USD 1 bn for a tenor of 10 years and USD 2 bn for a tenor of 7 years. Both the loans were linked to 6 months USD Libor and have since been drawn in three tranches of USD 1 bn each. Further, Company also raised JPY equivalent to USD 325 mn through Syndicated JPY Loan from SMBC. The loan was linked to 6 months JPY Libor and had since been drawn. In effect the total ECB borrowings for FY 21 were pegged at USD 4.075 bn during the FY 2020- 21. Also, Company had received approval of Ministry of Finance for issue of 54EC Capital Gain Bonds in October 2017, since then Company is making all endeavors to increase its market share in 54EC Bond market. In 2020-21 Company mobilized around ₹ 842.60 crore through 54EC Bond.

Revenue from operations of your Company has increased by ₹ 23,494.32 Million from ₹ 1,34,210.17 million in 2019-20 to ₹ 1,57,704.49 million in 2020-21, showing a growth of 17.51%. Profit before Tax (PBT) of your Company for the year ending 31st March 2021 was ₹ 44,161.08 million as compared to ₹ 31,920.96 Mn for the previous year, registering a growth of 38.34%. due to increase in volume of business of Company.

Profit after Tax (PAT) for the year ending 31st March, 2021 was ₹ 44,161.08 Mn which is the same as that of Profit Before Tax (PBT), as the Company has not made any provision for tax in its books pursuant to its decision to exercise the option of lower tax rate permitted u/s 115BAA of the Income Tax Act, 1961, as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated 20th September, 2019. The Company's taxable income was nil and it did not have to pay Minimum Alternate Tax (MAT) with reference to its Book Profit as MAT payable u/s 115 JB was outside the ambit of the Section 115 BAA and on adoption of Section 115 BAA of the Income Tax Act, 1961, the Company was outside the scope and applicability of MAT provisions.

Profit After Tax for the year ending 31st March, 2021 was ₹ 44,161.08 Mn as compared to ₹ 31,920.96 Mn for the previous year, up by an impressive 38.34%. This has enabled the Company to augment its net worth.

Management Outlook

Your Directors take pleasure in sharing with you their perception that business of the Company stands on a sound platform and is running well. The robust business model involving strong and mutually beneficial relationship with MoR has become its unique forte. The business of the Company with the Ministry has grown considerably during the last ten years. From an annual target of ₹ 2,957 crore in 2004-05, the final borrowing target assigned for the year 2019-20 was at ₹ 1,04,369.00 crore. Annual borrowing target has increased with a CAGR of 24.96% over the last sixteen years.

Being the dedicated market borrowing arm of the Ministry of Railways, your Company constantly strives to raise funds from the financial market at the most competitive rates and terms. The interest rate remained benign during the major part of the year due to accommodative stance of the Central Bank. During the MPC meeting held in May the rates were cut by 40 bps taking the repo rate at 4.00% and the reverse repo rate at 3.35% with the above rates persisting throughout the FY 2020. However, during the later part of the year, the market improved with better investor confidence due to the vaccination programme for Covid-19 being initiated across the globe. In spite of the fact that your Company was mandated a mammoth final borrowing target in excess of ₹ 1,00,000 Crore and upward revision in the mandate from the original target of ₹ 58,000 Crore was communicated to the Company only towards the end of the financial year, the Company managed its borrowing programme meticulously in an adverse macroeconomic environment which helped in keeping its unflinching commitment of making funds available to the Railways at the most competitive pricing.

In the Annual Report of Financial Year 2015-16, it was reported that MoR had tied up a loan of ₹ 1,50,000 crore

with Life Insurance Corporation of India (LIC), to be drawn in tranches over a period of five years for their project funding requirement. It was also reported that IRFC had been entrusted with the job of borrowing the funds from LIC on MoR's behalf.

Under the arrangement, amount totaling to only ₹ 20,500 crore, could be drawn from LIC from 2015-16 to 2019-20 due to its exposure limit constraint as per IRDAI Guidelines.

In the Union Budget for the year 2017-18, the Government had announced listing of shares of your Company on bourses. The Company has successfully achieved the listing target set by the GOI and as a result the shares of your Company were listed on the stock exchange with effect from 29th Jan, 2021. The IPO of your Company had achieved phenomenal response with the issue being oversubscribed to the tune of 3.5 times.

Risk Management

Effective risk management is central to ensuring a robust and healthy finance for the Company. While in risk management, credit risk is accorded high priority amongst various risk mitigation efforts of a business, this is virtually non-existent in the case of your Company, in as much as, an overwhelming segment of its assets is in the form of lease receivables from the Ministry of Railways, carrying zero risk. The Company's selective forays into other areas in the form of loans to Rail Vikas Nigam Limited and IRCON International Limited are suitably ringfenced, as the same has either the cash flows originating from the Ministry of Railways or there is a repayment assurance by Ministry of Railways.

Ordinarily, a company carrying out its business with predominantly single client, might be viewed as being faced with a business risk. However, in the case of your Company, the single client is the owner, who also happens to be the sovereign itself. By virtue of consistently funding about 25% to 45% of plan outlay of the Ministry of Railways, IRFC commands a position of strategic importance for the Ministry. Funding provided by IRFC has been at a competitive cost which is considered attractive by the Ministry. With strong indications of an even larger role being expected by the Ministry from IRFC in its efforts at augmenting rail infrastructure in the country, your Directors consider the Company is comfortably placed in the matter of Business Risk.

Given the carefully drafted provisions in the Lease Agreement signed by IRFC with MoR every year, there is a very good matching of the interest rate sensitivity profile of its assets and liabilities. In the circumstances, exposure of the Company to Interest Rate Risk is negligible. Further, for the Railway Projects financed through Institutional Finance, it is proposed to adopt the lease structure akin to the structure of borrowing which will minimise the liquidity and interest rate risk.

The cash flows of your Company are highly predictable, shielding it largely against liquidity related issues even in a volatile market. Besides, with the quality of credit, Company commanding a high level of respect amongst investors, both domestic and international, the Liquidity Risk in the case of IRFC is perceived at a very low level.

Although the foreign exchange fluctuation risk is passed through to MoR, still your Company has consistently been adopting prudent, efficient and cost-effective risk management strategies to safeguard its operations against Exchange Rate Variation risk on its overseas borrowings. The Company strives to eliminate at opportune time the exchange rate variation risk in respect of principal repayments. Timing is important in such hedging transactions. The Company recognizes the fact that contracting a hedge at a time subsequent to the drawdown does not expose it to any undue risk because of longer maturities. The Risk Management Committee regularly monitors the Foreign Exchange Exposure. In accordance with the policy, the Company has hedged part of its foreign currency exposure thereby mitigating the exchange rate fluctuation risk to that extent.

Some of the outstanding foreign currency borrowings of the Company with tenor longer than five years are either having bullet repayment or amortised repayment in half-yearly instalments. As a result of amortized repayments, the risk gets significantly mitigated by virtue of repayments taking place progressively at different points of time. Keeping in view the volatility in the foreign exchange markets, the Company has been taking recourse to selective hedging of the ECBs outstanding both on principal and interest amount. With a view to effectively supplementing its in-house expertise on the matter, your Company usually resorts to external expert advice from reputed professional consultants, while taking hedging decisions.

Reserve Bank of India (RBI) has made it mandatory for all the Banks offering derivative products to ensure that all their clients who have business dealings must obtain certification regarding adoption of Risk Management Policy duly approved by their Board of Directors. In compliance with the RBI Guidelines, Board-approved Risk Management Policy is in place. The Company also has constituted Risk Management Committee which comprises Chairman & Managing Director, Director Finance and Independent Director. Further, as per the extant RBI circular number RBI/2018-19/184 DNBR (PD) CC. No. 099/03.10.001/2018-19 dated 16-05-2019 regarding appointment of a Chief Risk officer(CRO) by all the NBFCs has been complied with and a CRO has been appointed with effect from 1st July, 2021.

The proceedings of meetings of the Risk Management Committee were regularly placed in the meetings of the Board of Directors.

The Company has constituted a sub-committee of Risk Management Committee namely Forex Risk Management Committee to assess and mitigate the foreign exchange fluctuation risk and interest rate risk in External Commercial Borrowings. Minutes of the meetings of the Sub-committee along with the action taken are placed before the Risk Management Committee.

For effective monitoring, control and mitigation of financial risk arising due to mismatch in the Asset Liability position, the Company has formed an Asset Liability Management Committee (ALCO) comprising Chairman & Managing Director, Director (Finance) and Senior Level Officers. The ALCO generates various reports as prescribed by RBI for monitoring the liquidity and interest rate risks and place the same before the Risk Management Committee from time to time.

Internal Controls and its advocacy

The Company has in place, adequate internal control systems commensurate with the nature and volume of its business. Efficient maintenance of accounts is facilitated by the executives and employees of the Company. Thereafter, the same is audited periodically by the Internal Auditors. The function of Internal Audit has been assigned to a reputed firm of Chartered Accountants. The scope of internal audit is well defined and is very exhaustive to take care of all crucial functions and business of the Company. Based on their report, steps are taken at regular intervals to further strengthen the existing systems and procedures. Their significant observations are discussed in the Audit Committee Meetings regularly. The Statutory Auditors of the Company are appointed by Comptroller and Auditor General (C&AG) of India, and the appointment is rotated periodically. Besides, the accounts of the Company are subject to supplementary audit by the office of C&AG, as required under the Companies Act. The C&AG also conducts propriety audit of the Company. Report on Corporate Governance

This report is prepared in accordance with the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations), the Companies Act, 2013 and Guidelines on Corporate Governance issued by Department of Public Enterprises (DPE), Ministry of Heavy Industries and Public Enterprises, Government of India. The Report contains details of Corporate Governance systems and processes at Indian Railway Finance Corporation Limited (IRFC).

Indian Railway Finance Corporation Limited (IRFC), got listed on 29th January, 2021 and has established a sound framework of Corporate Governance. Corporate Governance is the application of best management practices, compliance of laws & adherence of ethical standards to achieve the Company's objective of enhancing stakeholders' value and discharge of social responsibility.

IRFC is in compliance with relevant provisions contained in the Guidelines on Corporate Governance for Central Public Sector Enterprises (hereinafter referred to as Government Guidelines), issued by Department of Public Enterprises, Ministry of Heavy Industries and Public Enterprises, Government of India. The Company is also complying with the Circular, to the extent applicable, dated 1st July, 2015 issued by Reserve Bank of India under their Master Circular - "Non-Banking Financial Companies - Corporate Governance (Reserve Bank) Directions, 2015". In this connection, relevant details are furnished below: -

1. Company's Philosophy on the Code of Governance

Corporate Governance is about maintaining valuable relationship and trust with all stakeholders with the commitment to maximise their value. Our commitment towards following good Corporate Governance practices is based upon transparency, fairness, conscience, teamwork, professionalism and accountability. This paves the way for following the best standards and building confidence among our stakeholders, which is necessary to achieve our objectives.

The Company looks upon Corporate Governance as an enterprise-wide endeavour targeted at value creation in the form of striking optimum balance between the profit it earns for its Shareholders and the spread it charges from Ministry of Railways on the cost of funds

transferred to them. This is sought to be achieved by conducting the business in a professional manner, using a combination of delegation and accountability amongst key executives in the Company; focussed attention and transparency in operations of the Company; skill upgrades through need-based training, etc.; and high level of investor / lender satisfaction through timely debt servicing and grievance settlement.

To foster best Corporate Governance practices, the Company has formulated a "Code of Business Conduct and Ethics for its Board Members and Senior Management" in June, 2008, which seeks to bring high level of ethics and transparency in managing its business affairs. The same has also been hosted on the website of the Company (www.irfc.nic.in).

2. Board of Directors

IRFC is a Government Company within the meaning of Section 2 (45) of the Companies Act, 2013 as the President of India as on March 31, 2021 holds 86.36% of the total paid-up share capital of the Company and as per Articles of Association of the Company, the power to appoint Directors vests in the President of India. Further, in terms of Articles of Association of the Company, the number of Directors of the Company shall not be less than three and not more than fifteen.

2.1 Composition of the Board

SEBI LODR, stipulates that the Board of Directors of the company shall have an optimum combination of executive and non-executive directors with at least one-woman director and not less than fifty percent of the Board of Directors comprising of non-executive directors.

As at the end of financial year, there are 5 (Five) Directors on the Board of the Company. Besides Chairman & Managing Director and Director Finance, One Independent Director(s), Two Government Nominee Director(s), are also in position. As provided in the Articles of Association of IRFC, the appointment of Directors and payment of their remuneration are determined by the President of India.

None of the Directors of the Company is related to each other and independent of the Management.

The number of independent directors during the financial year 2020-21 were insufficient as compared to the number of independent directors required to be on the Board under SEBI LODR, as the power to appoint the Directors on the Board as per Articles of Association of the Company vests with the President of India acting through

Administrative Ministry i.e. Ministry of Railways. Thus the Company from time to time has requested Ministry of Railways to appoint requisite number of independent directors on the Board in order to comply with SEBI (LODR), Regulations 2015 and DPE Guidelines.

Notes to Financial Statements

for the year ended 31 March 2021
(All amounts in millions of INR, unless stated otherwise)

Statement of significant accounting policies

1. Background

Indian Railway Finance Corporation Ltd., referred to as “the Company” or “IRFC” was incorporated by the Government of India, Ministry of Railways, as a financing arm of Indian Railways, for the purpose of raising the necessary resources for meeting the developmental needs of Indian Railways. The Company’s principal business is to borrow funds from the financial markets to finance the acquisition / creation of assets which are then leased out to the Indian Railways as finance lease. IRFC is a Schedule ‘A’ Public Sector Enterprise under the administrative control of the Ministry of Railways, Govt. of India. It is also registered as Systemically Important Non-Deposit taking Non Banking Financial Company (NBFC – ND-SI) and Infrastructure Finance Company (NBFC- IFC) with Reserve Bank of India (RBI). The President of India along with his nominees holds 100% of the equity share capital.

The registered address and principal place of business of the Company is Room Nos. 1316 - 1349, 3rd Floor, Hotel The Ashok Diplomatic Enclave, 50-B, Chanakyapuri New Delhi -110021.

2. Significant Accounting Policies

A summary of the significant accounting policies adopted in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

2.1 Statement of Compliance

The financial statements have been prepared on going concern basis following accrual system of accounting in accordance with the Indian Accounting Standards (‘Ind AS’) notified under the Companies (Indian Accounting Standards) Rules 2015 and subsequent amendments thereto, read with Section 133 of the Companies Act, 2013 and other Accounting principles generally accepted in India.

2.2 Basis for preparation of financial statements

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Unless otherwise stated, all amounts are stated in Millions of Rupees.

Historical cost is the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire assets at the time of their acquisition or the amount of proceeds received in exchange for the obligation, or at the amounts of cash or cash equivalents expected to be paid to satisfy the liability in the normal course of business.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. Fair value for measurement and/or disclosure purpose in these financial statements is determined on such basis except for, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value.

In addition, for financial reporting purposes fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs for the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 - Inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 - inputs are unobservable inputs for the asset or liability.

2.3 Use of estimates

The preparation of financial statements requires management to make judgments, estimates and assumptions that may impact the application of accounting policies and the reported value of assets, liabilities, income, expenses and related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date. The estimates and management’s judgments are based on previous experience & other factors considered reasonable and prudent

Notes to Financial Statements for the year ended 31 March 2021

(All amounts in millions of INR, unless stated otherwise)

in the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In order to enhance understanding of the financial statements, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is as under:

a) Formulation of accounting policies

The accounting policies are formulated in a manner that results in financial statements containing relevant and reliable information about the transactions, other events and conditions to which they apply. Those policies need not be applied when the effect of applying them is immaterial.

b) Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

c) Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37 'Provisions, contingent liabilities and contingent assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

d) Income taxes

Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

2.4 Revenue

Company's revenues arise from lease income, dividend income, interest on lease advance, loans, deposits and investments. Revenue from other income comprise miscellaneous income etc.

Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Finance lease income in respect of finance leases is allocated to the accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease. (Also see accounting policy on leases at 2.14).

Interest income from financial assets is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Pre-commencement lease-interest income is determined based on the MOU entered with Ministry of Railways and when it is probable that the economic benefits will flow to the Company and the amount can be determined reliably.

Dividend income is recognized in profit or loss only when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

2.5 Foreign Currency Transaction

Functional and presentation currency

Items included in the financial statements of entity are measured using currency of the primary economic environment in which the entity

Notes to Financial Statements

for the year ended 31 March 2021

(All amounts in millions of INR, unless stated otherwise)

operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is entity's functional and presentation currency.

Transactions and Balances

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item.

2.6 Employee Benefits

Defined contribution plan

A defined contribution plan is a plan under which the Company pays fixed contributions into an independent fund administered by the government/Company administrated Trust. The Company has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution.

Defined benefit plan

The defined benefit plans sponsored by the Company define the amount of the benefit that an employee will receive on completion of services by reference to length of service and last drawn salary. Gratuity is in the nature of a defined benefit plan. The liability recognised in the financial statements in respect of the plan is the present value of the defined benefit obligation net of fair value of plan assets at the reporting

date, together with adjustments for unrecognised actuarial gains or losses and past service costs. The defined benefit obligation is calculated at the reporting date by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to the statement of Other Comprehensive Income in the period in which such gains or losses are determined.

Other long-term employee benefits

Liability in respect of compensated absences becoming due or expected to be availed more than one-year after the balance sheet date is estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

2.7 Taxation

Tax expense comprises Current Tax and Deferred Tax.

Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax is recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current tax is also recognised in

Notes to Financial Statements for the year ended 31 March 2021

(All amounts in millions of INR, unless stated otherwise)

other comprehensive income or directly in equity respectively.

The Company is exercising the irrevocable option as permitted by section 115BAA of the Income – tax Act, 1961 whereby by foregoing certain exemptions, deductions and allowances, the tax rate applicable to the Company is lower than the normal tax rate that would have been otherwise applicable to the Company. Henceforth, minimum alternate tax provisions of section 115JB of the Income – tax Act, 1961 are not applicable to the Company.

Deferred Tax

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Company does not recognize deferred tax asset or deferred tax liability because as per Gazette Notification no. S.O. 529(E) dated 5th February 2018 as amended by notification no. S.O. 1465 dated 2 April 2018 issued by Ministry of Corporate Affairs, Government of India, read with their communication no. Eoffice F.No.17/32/2017 – CL – V dated 20th March 2020, the provisions of Indian Accounting Standards 12 relating to Deferred Tax Assets (DTA) or Deferred Tax Liability (DTL) does not apply to the Company.

2.8 Property, Plant and Equipment (PPE)

An item of property, plant and equipment is recognized as an asset if and only if it is probable

that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Items of property, plant and equipment are initially recognized at cost. Subsequent measurement is done at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipment have different useful lives, they are recognized separately.

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

De-recognition

Property, plant and equipment is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on de-recognition of an item of property, plant and equipment are determined by comparing the proceeds from disposal, if any, with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

Depreciation

Depreciation on property, plant and equipment has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

2.9 Intangible assets

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets that are acquired by the Company, which have finite useful lives, are recognized at cost. Subsequent measurement is

Notes to Financial Statements

for the year ended 31 March 2021

(All amounts in millions of INR, unless stated otherwise)

done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

De-recognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains & losses on de-recognition of an item of intangible assets are determined by comparing the proceeds from disposal, if any, with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Amortization

Software is amortized over 5 years on straight-line method.

2.10 Borrowing costs

Borrowing costs consist of interest expense calculated using the effective interest method as described in Ind AS 109 'Financial Instruments' and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs that are directly attributable to the acquisition, construction/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which necessarily take substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of all borrowing that are outstanding during the

period and used for the acquisition, construction/ exploration or erection of the qualifying asset.

Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete.

All other borrowing costs are recognized as an expense in the year in which they are incurred.

2.11 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.12 Provisions, contingent liabilities and contingent assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance costs.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Notes to Financial Statements for the year ended 31 March 2021

(All amounts in millions of INR, unless stated otherwise)

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

2.13 Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.14 Leases

At inception of a contract, the Company assesses whether the contract is, or contains a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessor

The Company classifies each of its leases as either an operating lease or a finance lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. The depreciation policy for depreciable underlying assets subject to operating leases is consistent with the Company's normal depreciation policy for similar assets.

Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance

leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Company as a lessee

At the contract commencement date, the Company recognizes right – of – use asset and a lease liability. A right – of – use asset is an asset that represents a lessee's right to use an underlying asset for the lease term. The Company has elected not to apply the aforesaid requirements to short term leases (leases which at the commencement date has a lease term of 12 months or less) and leases for which the underlying asset is of low value as described in paragraphs B3 – B9 of Ind AS 116.

A right of use asset is initially measured at cost and subsequently applies the cost mode ie less any accumulated depreciation and any accumulated impairment losses and adjusted for any remeasurement of lease liability. Ind AS 16, Property, Plant and Equipment is applied in depreciating the right – of – use asset.

A lease liability is initially measured at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the Company's incremental borrowing rate is used. Subsequently, the carrying amount of the lease liability is increased to reflect interest on lease liability; reduced to reflect the lease payments; and remeasured to reflect any reassessment or lease modifications or to reflect revised in – substance fixed lease payments.

2.15 Securitisation of Finance Lease Receivable

Lease Receivables securitised out to Special Purpose Vehicle in a securitisation transactions are de-recognised in the balance sheet when they are transferred and consideration has been received by the Company.

The resultant gain/loss arising on securitization is recognised in the Statement of Profit & Loss in the year in which transaction takes place.

Lease Receivables assigned through direct assignment route are de-recognised in the balance sheet when they are transferred and consideration has been received by the Company. Profit or loss resulting from such assignment is accounted for in the year of transaction.

2.16 Leasing of Railway Infrastructure Assets

In terms of Indian Accounting Standard 116, the inception of lease takes place at the earlier of the date of the lease agreement and the date of a commitment by the parties to the principal provisions of the lease.

The commencement of the lease term is the date from which the lessee is entitled to exercise its right to use the leased asset. It is the date of initial recognition of the lease.

As such, in respect of Railway Infrastructure Assets, which are under construction and where the Memorandum of Understanding / terms containing the principal provisions of the lease are in effect with the Lessee, pending execution of the lease agreement, the transactions relating to the lease are:

- (a) presented as "Advance against Railway Infrastructure Assets to be leased"; and thereafter
- (b) transferred to "Project Infrastructure Assets under Finance Lease Arrangement" on receipt of utilization report from the lessee; and thereafter
- (c) transferred to lease receivable as per Ind AS 116 on execution of lease agreement.

2.17 Dividends

Dividends and interim dividends payable to the Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

2.18 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening

balances of assets, liabilities and equity for the earliest period presented, are restated.

2.19 Earnings per share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

2.20 Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of cash flows'.

2.21 Operating Segments

The Managing Director (MD) of the Company has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108, "Operating Segments".

The Company has identified 'Leasing and Finance' as its sole reporting segment.

2.22 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.22.1. Financial Assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset.

Subsequent measurement

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at Fair value through Other Comprehensive Income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the profit and loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to profit and loss.

Notes to Financial Statements

for the year ended 31 March 2021

(All amounts in millions of INR, unless stated otherwise)

Debt instrument at Fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to classify a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in entities other than subsidiaries and joint venture companies are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable. The Company has decided to classify its investments into equity shares of IRCON International Limited through FVTOCI.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, debt securities, deposits and bank balance.
- Financial assets that are debt instruments and are measured as at FVTOCI.
- Lease receivables under Ind AS 116.
- Loan commitments which are not measured as at FVTPL.
- Financial guarantee contracts which are not measured as at FVTPL.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

2.22.2. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to borrowings, trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are

not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risks are recognized in OCI. These gains/losses are not subsequently transferred to profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit and loss.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Derivative financial instruments

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts, cross currency swaps and interest rate swaps to hedge its foreign currency risks and interest rate risks of foreign currency loans. Such derivative

Notes to Financial Statements

financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken to statement of profit and loss. Where the derivative is designated as a hedging instrument, the accounting for subsequent changes in fair value depends on the nature of item being hedged and the type of hedge relationship designated. Where the difference is a pass through the lessee, the amount is received/reimbursed to the lessee.

2.23 New amended standards:

In July 2020, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) Amendment Rules, 2020, notifying certain amendments, as summarized below, to various Ind AS standards. The amendments are effective from accounting periods beginning from 1st April 2020.

Amendments to Ind AS 1, Presentation of Financial Statements and Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors

Ind AS 1 defined the term 'material, as under:

'Omissions or misstatements of items are material if they could, individually or collectively, influence the economic decisions that users make on the basis of financial statements'.

The amendment refines the definition of 'material' which is now as follows:

'Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general – purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity'.

Consequential amendments have been made to the following standards due to revised definition of material:

Ind AS	Title	Description
10	Events after the Reporting Period	Modification in paragraph 21 relating to disclosures of non – adjusting events after the reporting period.
34	Interim Financial Reporting	Modification of paragraph 24 whereby reference of definition of material as given in Ind AS 1 & Ind AS 8 has been removed.
37	Provisions, Contingent Liabilities and Contingent Assets	Modification in paragraph 75 relating to re-structuring plan after the reporting period.

This amendment has not affected these financial statements.

Amendments to Ind AS 103, Business Combinations

Currently Ind AS 103 defines business as 'an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing a return in the form of dividends, lower costs or other economic benefits directly to investors or other owners, members or participants'.

The amendment revises the definition as under:

'Business is an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing goods or services to customers, generating investment income (such as dividends or interest) or generating other income from ordinary activities'.

The amendments also:

- Introduces an optional concentration test to permit a simplified assessment of whether an acquired set of activities and assets is a business or asset acquisition;

Provides additional guidance on how to assess whether an acquired process is substantive, if the acquired set of activities and assets does not have outputs and if it does have outputs.

Notes to Financial Statements for the year ended 31 March 2021

(All amounts in millions of INR, unless stated otherwise)

The amendment is not applicable to the Company.

Amendments to Ind AS 116:

A practical expedient is inserted which permits lessees not to account for Covid – 19 related rent concessions as a lease modification. As the Company has not availed any Covid 19 related rent concessions, the practical expedient has no applicability on the Company's financial statements.

Amendments to Ind AS 107, Financial Instruments : Disclosures

Amendments to Ind AS 109, Financial Instruments

The amendments addresses the issues arising from the replacement of existing IBOR based interest rate benchmarks with alternative nearly risk – free interest rates (RFRs) in the context of hedge accounting. These amendments allow hedging relationships affected by the IBOR reform to be accounted for as continuing hedges.

The amendments provide relief on key areas of hedge accounting most notably the hedge effectiveness and the ability to identify LIBR based cash flows for the purpose of designation (re – designation) during the period of the Reform. Additional disclosures are shown in Note No. 38.6.

2.24 Standards issued but not yet effective:

The Ministry of Corporate Affairs (MCA) vide Notification dated 18 June 2021 has issued new Companies (Indian Accounting Standard) Amendment Rules, 2021 in consultation with the National Financial Reporting Authority (NFRA).

The notification states that these rules shall be applicable with immediate effect from the date of the notification. This means that the amendments are effective for the financial year ended 31 March 2022 onwards.

The amendments are intended to keep the Ind ASs aligned with the amendments made in International Financial Reporting Standards. While, largely, the amendments are clarificatory or editorial in nature, there are significant amendments relating to the extension of COVID 19 related to practical expedient under Ind AS 116

for lease concessions and practical expedient due to the interbank offered rate (IBOR) interest rates for financial instruments.

The amendments to Ind ASs are in terms of insertion of certain paragraphs, substituting the definition of certain terms used in the standard along with aligning the bare text of Standards with Conceptual Framework of Financial reporting under Ind ASs.

Major amendments notified in the Companies (Ind AS) Amendment Rules, 2021 are provided below:-

- a) **Ind AS 116: Leases** – The amendments extend the benefits of the COVID 19 related rent concession that were introduced last year (which allowed lessees to recognize COVID 19 related rent concessions as income rather than as lease modification) from 30 June 2021 to 30 June 2022.
- b) **Ind AS 109: Financial Instruments** – The amendment provides a practical expedient for assessment of contractual cash flow test, which is one of the criteria for being eligible to measure a financial asset at amortized cost, for the changes in the financial assets that may arise as a result of Interest Rate Benchmark Reform along. An additional temporary exception from applying hedge accounting is also added for Interest Rate Benchmark Reform.
- c) **Ind AS 101: Presentation of Financial Statements** – The amendment substitutes the item (d) mentioned in paragraph B1 as 'Classification and measurement of financial instruments'. The term 'financial asset' has been replaced with 'financial instruments'.
- d) **Ind AS 102: Share-Based Payment** – The amendments to this standard are made in reference to the Conceptual Framework of Financial Reporting under Ind AS in terms of defining the term 'Equity Instrument' which shall be applicable for the annual reporting periods beginning on or after 1 April 2021.
- e) **Ind AS 103: Business Combinations** – The amendment substitutes the definition of 'assets' and 'liabilities' in accordance with the definition given in the framework for the Preparation and Presentation of Financial Statements

Notes to Financial Statements

for the year ended 31 March 2021

(All amounts in millions of INR, unless stated otherwise)

in accordance with Ind AS for qualifying the recognition criteria as per acquisition method.

- f) Ind AS 104: Insurance Contracts – The amendment covers the insertion of certain paragraphs in the standard in order to maintain consistency with IFRS 4 and also incorporates the guidance on accounting treatment for amendments due to Interest Rate Benchmark Reform.
- g) Ind AS 105: Non-current assets held for sale and discontinued operations – The amendment substitutes the definition of “fair value less costs to sell” with “fair value less costs of disposal”
- h) Ind AS 106: Exploration for and evaluation of mineral resources – The amendment has been made in reference to the Conceptual Framework for Financial Reporting under Indian Accounting Standards in respect of expenditures that shall not be recognized as exploration and evaluation assets.
- i) Ind AS 107: Financial Instruments: Recognition, Presentation and Disclosure – The amendment clarifies the certain additional disclosures to be made on account of Interest Rate Benchmark Reform like
 - a. the nature and extent of risks to which the entity is exposed arising from financial instruments subject to interest rate benchmark reform;
 - b. the entity’s progress in completing the transition to alternative benchmark rates, and how the entity is managing the transition.
- j) Ind AS: 111 Joint Arrangements – In order to maintain consistency with the amendments made in Ind AS 103, respective changes have been made in Ind AS 111.
- k) Ind AS 114: Regulatory Deferral Accounts – The amendment clarifies that an entity may only change its accounting policies for the recognition, measurement, and impairment & derecognition of regulatory deferral account balances if the change makes the financial statements more relevant to the economic decision-making needs of users and no less reliable.
- l) Ind AS 115: Revenue from Contracts with Customers – Certain amendments have been made in order to maintain consistency with number of paragraphs of IFRS 15.
- m) Ind AS 8: Accounting Policies, Changes in Accounting Estimates and Errors – In order to maintain consistency with the amendments made in Ind AS 114 and to substitute the word ‘Framework’ with the ‘Conceptual Framework of Financial Reporting in Ind AS’, respective changes have been made in the standard.
- n) Ind AS 16: Property, Plant and Equipment –The amendment has been made by substituting the words “Recoverable amount is the higher of an asset’s fair value less costs to sell and its value in use” with “Recoverable amount is the higher of an asset’s fair value less costs of disposal and its value in use”.
- o) Ind AS 34: Interim Financial Reporting –The amendments to this standard are made in reference to the conceptual framework of Financial Reporting in Ind AS.
- p) Ind AS 37: Provisions, Contingent Liabilities and Contingent Assets – The amendment substitutes the definition of the term ‘Liability’ as provided in the Conceptual Framework for Financial Reporting under Indian Accounting Standards.
- q) Ind AS 38: Intangible Assets – The amendment substitutes the definition of the term ‘Asset’ as provided in the Conceptual Framework for Financial Reporting under Indian Accounting Standards.

These amendments have either no applicability to the Company or if applicable, the impact is either immaterial or presently being ascertained.

K) Sensitivity analysis of the defined benefit obligation

Below is the sensitivity analysis determined for significant actuarial assumptions for the determination of defined benefit obligations and based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period while holding all other assumptions constant.

Particulars	As at 31 March 2021	As at 31 March 2020
a) Impact of the change in discount rate		
- Impact due to increase of 0.50 %	12.75	9.86
- Impact due to decrease of 0.50 %	13.78	10.67
b) Impact of the change in salary increase		
- Impact due to increase of 0.50 %	13.53	10.51
- Impact due to decrease of 0.50 %	13.04	10.07

Sensitivities due to mortality and withdrawals are not material and hence impact of change not calculated.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.

L) The employer's best estimate of contribution expected to be paid during the next year:

Particulars	As at 31 March 2021	As at 31 March 2020
Expected contribution of the next year	1.29	0.79

M) These plans typically expose the Company to Actuarial Risks such as Investment Risk, Liquidity Risk, Market Risk and Legislative Risk.

Actuarial Risk	<p>It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:</p> <p>Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.</p> <p>Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.</p> <p>Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.</p>
Investment Risk	For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.
Liquidity Risk	Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cashflows.
Market Risk	Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.
Legislative Risk	Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

37.3 Actuarial Assumptions for unfunded Post Retirement Medical Benefits:

Particulars	As at 31 March 2021	As at 31 March 2020
Compensated absences		
Discount rate	6.55% p.a	6.55% p.a
Future salary increase	N/A	N/A
Medical inflation Rate	8.90%p.a	8.90%p.a
Retirement age	60 years	60 years
Mortality table	100% of IALM (2012-14)	100% of IALM (2012-14)

Notes to Financial Statements

for the year ended 31 March 2021
(All amounts in millions of INR, unless stated otherwise)

These plans typically expose the Company to Actuarial risks such as Investment Risk, Liquidity Risk and Market Risk.

Actuarial Risk	It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons: Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected. Variability in morbidity rates: If actual morbidity rates are higher than assumed morbidity rate assumption than the Post Retirement Medical Benefits will be paid earlier than expected. Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Post Retirement Medical Benefits will not be paid earlier than expected. This will lead to an actuarial gain in the year of such experience.
Investment Risk	For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.
Liquidity Risk	Employees with high treatment costs and long durations of treatments, accumulate significant level of benefits. Such benefits can lead to strain on the cashflows.
Market Risk	Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

38.2.2: Fair value measurements

Fair value hierarchy

The fair value hierarchy reflects the significance of the inputs used in making the measurements and has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices in markets that are not active) or indirectly (i.e. quoted prices for similar assets or liabilities);

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of 31 March 2021:

Valuation technique used to determine fair value

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used to estimate the fair values:

The Company holds nominal Equity (less than 0.26%) in IRCON International Limited. The equity shares of IRCON International Limited were listed on National Stock Exchange (NSE) with effect from 28 September 2018. The Company had elected to classify its investment in IRCON International Limited as fair value through other comprehensive income(OCI). The fair value as on 31 March 2021, 31 March 2020, 1st April 2019 has been measured as per the quoted on National Stock Exchange (Level 1 Input).

Fair value of financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

The directors consider that the carrying amounts of financial assets and financial liabilities recognised in the financial statements approximate to their fair values.

38.3 Financial risk management

The Company's activities expose it to a variety of financial risks which includes market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Company's focus is to ensure liquidity which is sufficient to meet the Company's operational requirements. The Company monitors and manages key financial risks so as to minimise potential adverse effects on its financial Performance. The Company has a risk management policy which covers the risks associated with the financial assets and liabilities. The details for managing each of these risks are summarised ahead.

38.4: Market risk

Market risk is the risk that the expected cash flows or fair value of a financial instrument could change owing to changes in market prices. The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

Company use derivative instruments to manage market risk against the volatility in foreign exchange rates and interest rates in order to minimize their impact on its results and financial position. Company policy is not to utilize any derivative financial instruments for trading or speculative purposes.

38.5: Foreign currency risk management

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise.

Notes to Financial Statements for the year ended 31 March 2021

(All amounts in millions of INR, unless stated otherwise)

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

Foreign currency sensitivity analysis

The following table details the company's sensitivity to a 10% increase and decrease in the INR against the relevant outstanding foreign currency denominated monetary items. 10% sensitivity indicates management's assessment of the reasonable possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. A positive number below indicates an increase in profit or equity where Rupee appreciates 10% against the relevant currency. A negative number below indicates a decrease in profit or equity where the Rupee depreciates 10% against the relevant currency.

Particulars	As at 31 March 2021		As at 31 March 2020		As at 1 April 2019	
	INR strengthens by 10%	INR weakens by 10%	INR strengthens by 10%	INR weakens by 10%	INR strengthens by 10%	INR weakens by 10%
Profit or (loss)	53,791.63	(53,791.63)	24,866.48	(24,866.48)	9,581.50	(9,581.50)

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

38.6: Interest rate risk management

The Company is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings. Company use financial instruments to manage its exposure to changing interest rates and to adjust its mix of fixed and floating interest rate debt on long-term borrowing.

The Company's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/ lower and all other variables were held constant, the Company's:

- Profit for the year ended 31 March 2021 would decrease/increase by ₹ 8,346.63 millions (31 March 2020: decrease/increase ₹ 6,972.21 millions). This is mainly attributable to the Company's exposure to interest rates on its variable rate debt securities;

Notes to Financial Statements

for the year ended 31 March 2021
(All amounts in millions of INR, unless stated otherwise)

- ii) Profit for the year ended 31 March 2021 would decrease/increase by ₹5,590.55 million (31 March 2020: decrease/increase ₹3,253.53 millions). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

Interest Rate Benchmark Reform:

Following the request received by the Financial Stability Board from the G20, a fundamental review and reform of the major interest rate benchmarks is underway across the world's largest financial market. This reform was not contemplated when Ind AS 107 & Ind AS 109 were notified and consequently the Ministry of Corporate Affairs, Government of India has notified a set of temporary exceptions from applying specific hedge accounting requirements to provide clarifications on how the standard should be applied in these circumstances.

Following are the temporary exceptions provided from applying specific hedge accounting requirements:

- (i) For assessing highly probable requirement for cash flow hedges: For the purpose of determining whether a forecast transaction (or a component thereof) is highly probable, an entity shall assume that the interest rate benchmark on which the hedged cash flows (contractually or non-contractually specified) are based is not altered as a result of interest rate benchmark reform.
- (ii) Reclassifying the amount accumulated in the cash flow hedge reserve: For the purpose of determining whether the hedged future cash flows are expected to occur, an entity shall assume that the interest rate benchmark on which the hedged cash flows (contractually or non-contractually specified) are based is not altered as a result of interest rate benchmark reform.
- (iii) Assessing the economic relationship between the hedged item and the hedging instrument: An entity shall assume that the interest rate benchmark on which the hedged cash flows and/or the hedged risk (contractually or non-contractually specified) are based, or the interest rate benchmark on which the cash flows of the hedging instrument are based, is not altered as a result of interest rate benchmark reform.
- (iv) Designating a component of an item as a hedged item: Subject to certain exemptions, for a hedge of a non-contractually specified benchmark component of interest rate risk, an entity shall apply the requirement – that the risk component shall be separately identifiable – only at the inception of the hedging relationship.

Under these temporary exceptions, interbank offered rates (IBORs) are assumed to continue unaltered for the purposes of hedge accounting until such time as the uncertainty is resolved. The application of this set of temporary exceptions is mandatory for accounting periods starting on or after 1st April 2020. Significant judgements will be required in determining when uncertainty is expected to be resolved and therefore when the temporary exceptions will cease to apply. However, as at 30th September 2020, the uncertainty continued to exist and so the temporary exceptions apply to the Company's hedge accounting relationships that reference benchmarks subject to reform or replacement.

The Company has cash flow and fair value hedge accounting relationships that are exposed to different IBORs, predominantly US dollar LIBOR and JPY LIBOR. The existing derivatives and some of the loans, bonds and other financial instruments designated in relationships referencing these benchmarks will transition to new risk – free rates (RFRs) in different ways and at different types. External progress on the transition to RFRs is being monitored, with the objective of ensuring a smooth transition for the Company's hedge accounting relationship. The specific issues arising will vary with the details of each hedging relationship, but may arise due to the transition of existing products included in the designation, a change in expected volumes of products to be issued, a change in contractual terms of new products issued, or a combination of these factors. Some hedges may need to be de-designated and new relationships entered into, while others may survive the market – wide benchmark reforms.

The hedge accounting relationships that are affected by the adoption of the temporary exceptions are presented in the balance sheet in note 5, 'Derivatives Financial Instruments'.

38.7: Other price risks

The Company has a small amount of investment in equity instruments, price risk of which is not considered material.

38.8: Credit risk management

Credit risk arises from the possibility that the counterparty will default on its contractual obligations resulting in financial loss to the company. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable.

The Company considers the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is significant increase in credit risk, it considers reasonable and supportive forward looking information such as:

- (i) Actual or expected significant adverse change in business.
- (ii) Actual or expected significant changes in the operating results of the counterparty.
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligation.
- (iv) Significant increase in credit risk and other financial instruments of the same counterparty.
- (v) Significant changes in the value of collateral supporting the obligation or in the quality of third party guarantees or credit enhancements.

Credit risk is managed through approvals, establishing credit limits, continuous monitoring of creditworthiness of customers to which the company grants credit terms in the normal course of business. The company also assesses the financial reliability of customers taking into account the financial condition, current economic trends and historical bad debts and ageing of accounts receivables.

The Company's major exposure is from lease receivables from Ministry of Railways, Government of India and loans to Rail Vikas Nigam Limited and IRCON International Limited which are under the control of Ministry of Railways. There is no credit risk on lease receivables being due from sovereign. With respect to loan given to Rail Vikas Nigam Limited and IRCON International Limited, the company considers the Reserve Bank of India directions in terms of its circular no. RBI/2017-18/181_DNBR (PD) CC. No. 092/03.10.001/2017-18 dated 31-May-2018 read with letter no. DNRB (PD). CO.No.1271/03.10.001/2018-19 dated 21-December-2018, to be adequately compliant with the impairment norms as per Ind AS 109, Financial Instruments, as IRCON International Limited and Rail Vikas Nigam Limited, both, are under Ministry of Railways, Government of India and the Company does not expect any concern in the repayment of aforesaid loans.

38.9: Liquidity risk management

Liquidity risk is defined as the potential risk that the Company cannot meet the cash obligations as they become due.

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the company's short, medium, and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves and banking facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. Besides, there is a provision in the lease agreements with the Ministry of Railways (MOR) whereby MOR undertakes to provide lease rentals in advance (to be adjusted from future payments) in case the Company doesn't have adequate liquidity to meet its debt service obligations.

Liquidity and interest risk tables

The following tables detail the company's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the company may be required to pay.

38.10: Derivative financial instruments

The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The objective of hedges is to minimize the volatility of INR cash flows of highly probable forecast transaction.

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

Note 41: Other Disclosures

- (a) Lease rental is charged on the assets leased from the first day of the month in which the Rolling Stock assets have been identified and placed on line as per the Standard Lease Agreements executed between the Company and MOR from year to year.
- (b) Ministry of Railways (MOR) charges interest on the value of the assets identified prior to the payments made by the Company, from the first day of the month in which the assets have been identified and placed on line to the first day of the month in which the money is paid to the MOR. However, no interest is charged from the MOR on the amount paid by the company prior to identification of Rolling stock by them.
- (c) (i) Interest rate variation on the floating rate linked rupee borrowings and interest rate and exchange rate variations on interest payments in the case of foreign currency borrowings are adjusted against the lease income/ pre-commencement lease income in terms of the variation clauses in the lease agreements for Rolling Stock/ memorandum of understanding (MoU) for funding of Infrastructure assets executed with the Ministry of Railways. During the year ended 31 March 2021, such differential has resulted in an amount of ₹1,198.93 millions refundable by the Company (31 March 2020: ₹583.35 millions, 1 April 2019: ₹707.98 millions accruing to the Company) which has been accounted for in the lease income/pre-commencement lease income.
- (ii) In respect of foreign currency borrowings, which have not been hedged, variation clause have been incorporated in the lease agreements specifying notional hedging cost adopted for working out the cost of funds on the leases executed with MOR. Hedging cost in respect of these foreign currency borrowings is compared with the amount recovered by the company on such account on notional cost basis and accordingly, the same is adjusted against the lease income. During the year ended 31 March 2021 in respect of these foreign currency borrowings, the Company has recovered a sum of ₹5,254.72 millions (31 March 2020: ₹4344.84 millions, 1 April 2019: ₹2,269.78 millions) on this account from MOR against a sum of ₹NIL millions (31 March 2020 : ₹NIL millions, 1 April 2019: ₹1,732.43 millions) incurred towards hedging cost and the balance amount of ₹5,254.72 millions (31 March 2020: ₹4344.84 millions, 1 April 2019: ₹537.35 millions) is refundable to MOR.
- (d) For computing the Lease Rental in respect of the rolling stock assets acquired and leased to the Ministry of Railways amounting to ₹2,85,610.85 millions during the year ended 31st March 2021 (Previous year ended 31 March 2020: ₹3,35,441.09 millions, 1 April 2019: ₹2,40,550.85 millions), the Lease Rental Rate and the Internal Rate of Return have been worked out with reference to the average cost of incremental borrowings made during the current year plus the margin equivalent to the previous year. The lease agreement in respect of these assets will be executed at the year end based on the lease rentals and IRR with reference to average cost of annual incremental borrowings during the year plus margin decided at that time. Any variation in the lease rental rate or the internal rate of return for the year will be accordingly adjusted at the year end.
- (e) The Leases executed for Rolling Stock in the year 1990-91, 1989-90 ,1988-89 & 1987-88 for ₹11,700.35 millions, ₹10,725.60 millions, ₹8607.27 millions & ₹7,703.27 millions have expired on 31 March 2021, 31 March 2020, 31 March 2019 & 31 March 2018 respectively. During the primary and secondary lease periods full value of assets (including interest) has been recovered from the lessee (MOR). These assets have outlived their useful economic life. Formalities for the transfer of these assets to MOR are under progress and necessary adjustments in the accounts if required, will be carried out on transfer of Rolling Stock to MOR.

- (ii) Till the financial year 2017-18, the Company, being a government NBFC, was exempt from creation and maintenance of Reserve Fund as specified u/s 45-IC of Reserve Bank of India Act, 1934. However, the said exemption has been withdrawn by the Reserve Bank of India (RBI) vide Notification No. DNBR (PD) CC.NO.092/0310.001/2017-18 dated 31st May 2018. Accordingly, the Company is now creating the Reserve Fund as required u/s 45IC of RBI Act, 1934, wherein at least 20% of net profit every year will be transferred before the declaration of dividend. No appropriation is allowed to be made from the reserve fund except for the purpose as may be specified by the Bank from time to time and further, any such appropriation is also required to be reported to the Bank within 21 days from the date of such withdrawal. The Company created a reserve of ₹ 8,832.26 millions for the year ended 31st March 2021 u/s 45IC.
- (b) In terms of the Ministry of Corporate Affairs circular dated 18th April 2002, the Company, being a Non-Banking Finance Company registered with RBI, is required to create Bond Redemption Reserve equivalent to 50% of the value of the bonds raised through Public issue by the redemption date of such Bonds. Subsequently, the requirement for creation of Bond Redemption Reserve in case of Public Issue of bonds by Non-Banking Finance Company registered with RBI was brought down to 25% by MCA vide their circular dated 11th February 2013. Further, the Companies (Share Capital and Debentures) Rules, 2014 dated 3rd April 2014 also mandates the Non- Banking Finance Companies registered with RBI to create Bond Redemption Reserve equivalent to 25% of the value of the Bonds raised through public issue by the redemption dates of such bonds. Accordingly, the Company was required to transfer 50% of the value of the bonds raised through public issue during FY 2011-12 and 25% of the value of Bonds raised through Public Issue during 2012-13, FY 2013-14 and FY 2015-16 to Bond Redemption Reserve by the redemption dates of such Bonds. The Company has raised ₹ 2,48,816.74 millions through public issue of bonds in FY 2011-12, FY 2012-13, FY 2013-14 and FY 2015-16. The average residual maturity of the above mentioned bonds is more than 7 years as on 31st March 2019. The Company had transferred an amount of ₹ 57,145.59 millions to the Bond Redemption Reserve till the end of F.Y. 2018-19.

The Ministry of Corporate Affairs has notified the Companies (Share Capital and Debentures) Amendments Rules, 2019 on 16th August, 2019 which exempts NBFC listed companies registered with Reserve Bank of India u/s 45-IA of the RBI Act, 1934 from creation of Debenture Redemption reserve. Accordingly, the balance outstanding against Bond Redemption Reserve as on 31st March 2019 amounting to ₹ 57,145.59 million has been transferred to retained earnings.

- (c) The Comptroller & Auditor General of India (C&AG) during the course of their supplementary review of accounts for the Financial year 2018-19 had made an observation that the 'Advance against the Railway infrastructure Assets to be leased.' should have been classified under other non financial assets. Based on the reply furnished by the Company, the C&AG had decided to drop the observation. However, as agreed, during the course of discussion with the C&AG, it was decided to refer the aforesaid matter to the Expert Advisory Committee(EAC) of the Institute of Chartered Accountants of India(ICAI) for an expert opinion. The EAC, ICAI has since furnished its opinion and upheld the accounting classification of 'Advance against the Railway infrastructure Assets to be leased.' as other financial assets currently being shown by the Company in the financial statements

Note 43:

- i The Finance Act, 2001 provides for levy of service tax on the finance and interest charges recovered through lease rental installments on the Financial Leases entered on or after 16 July 2001. The Central Government vide Order No.1/1/2003-ST dated 30 April 2003 and subsequent clarification dated 15 December 2006 issued by Ministry of Finance has exempted the Lease Agreements entered between the Company and Ministry of Railways from levy of Service Tax thereon u/s 93(2) of Finance Act, 1994.
- ii The GST Council in their meeting held on 19 May, 2017 has exempted the services of leasing of assets (rolling stock assets including wagons, coaches, locos) by Indian Railways Finance Corporation to Indian Railways from the levy of Goods & Service Tax (GST), Notification No. 12/2017 (Heading 9973) which has been made applicable with effect from 1 July 2017.

Notes to Financial Statements

- iii. The Company had deposited a sum of ₹ 14,664.47 million towards GST under reverse charge mechanism for funds transferred to MoR for making payments on behalf of Company to contractors for construction of projects for the period November 2017 to June 2018. As opined by the tax consultant, the above transaction did not involve any supply from MoR to the company and accordingly, no GST under RCM was payable by the Company and hence, refund applications were filed with the GST department for the refund of said deposit of ₹ 14,664.47 millions. However, vide orders dated 22 September 2020 and 30 September 2020, the said refund applications have been rejected by the additional commissioner (Department of Trade and Taxes), GNCT of Delhi. The Company has filed 6 appeals before first appellate authority through its attorney, New Delhi against the rejection of refund orders on 24 December 2020 and 29 December 2020.

In the ultimate event of non-admissibility of refund claims by the GST department, the amount would be adjusted by the Company against the GST liability on lease rentals from infrastructure assets to be lease to MoR or other GST liability in future.

Further, an amount of ₹ 6,32,384.00 million was transferred to MoR between July 2018 and March 2021 for making payments on behalf of Company to the contractors for construction of projects. GST under RCM of ₹ 75,886.08 million thereon has not been deposited as the funds transfer does not involve any supply from MOR as per the opinion of GST consultant.

Note 44:

Increase/(Decrease) in liability due to exchange rate variation on foreign currency loans for purchase of leased assets/creation of Infrastructure assets amounting to (₹ 3,009.70 millions) (31 March 2020 : ₹ 16,784.85 million, 1 April, 2019: ₹ 2,670.04 millions) has not been charged to the Statement of Profit and Loss as the same is recoverable from the Ministry of Railways (lessee) separately as per lease agreements in respect of rolling stock assets/memorandum of understanding (MoU) for funding of Infrastructure assets to be leased. The notional hedging cost on external commercial borrowings inbuilt into the Lease Rentals amounting to ₹ 8,145.93 millions (31 March 2020 : ₹ 4,344.84 millions, 1 April 2019: ₹ 537.35 millions) is refundable to Ministry of Railways for the year ended 31 March 2021 (Ref of Note 41 C (ii)). Further, a sum of ₹ 106.82 Millions (31 March 2020 : ₹ 92.86 million, 1 April 2019: ₹ 2,664.02 million) has been recovered towards crystallised exchange rate variation on foreign currency loans repaid during the year ended 31st March 2021. The amount recoverable from MoR on account of exchange rate variation net of notional hedging cost and crystallised exchange rate variation is ₹ 5,796.59 million (31 March 2020: ₹ 17,059.04 million, 1st April 2019: ₹ 4,711.88 million).

Effective portion of (loss)/gain on account of decrease/increase in the fair value of the derivative assets (hedging instruments) amounting to ₹ 1,273.27 million (March, 2021),(₹ (1441.83) million) (March 2020), ((₹ 501.57) millions) (April 2019) classified as cash flow hedges has not been recognised in the other comprehensive income as the same is recoverable/refundable to the MOR (Lessee) since the derivatives have been contracted to hedge the financial risk of MOR (Lessee).

Note 45:

The Ministry of Railways (MOR) vide letter dated 23 July 2015 had authorized the Company to draw funds from Life Insurance Corporation of India (LIC) in consultation with MOR for funding of Railway Projects in line with finance leasing methodology adopted by Company for funding Railway Projects in past. In addition to funds raised from LIC, the Company has also funded MoR from other borrowings and internal accruals. Pending execution of the Lease Documents, the Company had entered into a Memorandum of Understanding with the Ministry of Railways on 23 May 2017 containing principal terms of the lease transactions. The Company has now entered a fresh Memorandum of Understanding with Ministry of Railways on 2 March 2021 superseding all earlier MoU/arrangement.

The total sum of ₹ 11,54,949.70 millions disbursed to MOR till the end of 31 March 2021 (31 March 2020 : ₹ 9,36,552.90 millions, 1 April 2019 : ₹ 5,97,152.90 million) is recognised as 'Advance against Railway Infrastructure Assets to be Leased'.

Note 46:

- Office building including parking area has been capitalised from the date of taking possession. However, the sale/transfer deed is still pending for execution in favour of the Company. Stamp duty payable on the registration of office building works out to about ₹9.15 millions(as certified by approved valuer) (31 March 2020: ₹9.15 millions, 1 April 2019: ₹9.15 millions), which will be accounted for on registration.
- An amount of ₹72.45 millions on account of the benefit accruing due to reduction in the interest rate pertaining to the financial year 2017-18 has been passed on to MOR during the year ended on 31st March 2020, by way of reduction of equivalent amount from the Lease Income instead of recognising the same as a prior period item. The amount involved is not considered material in terms of the extant policy of the Company and accordingly, the effect of the same has been considered in the current reporting period.
- The Company has made a provision of ₹118.80 millions in the financial statements for the year ended on 31st March 2020 towards the stamp duty on account of increase in the Equity Capital infused by MOR from time to time in the earlier years. The aforesaid stamp duty has been computed at the basic rate. The Company is in the process of getting the stamp duty adjudicated by the Collector of Stamps. The actual liability will be known upon receipt of adjudication order and differential amount, if any, will be provided for and paid in the year of adjudication.
- The Company leases rolling stock to MOR under a finance lease model. In the recent past the Company has also entered into an arrangement with MOR whereby leasing of Railway Infrastructure asset is undertaken again under a finance lease model (for details refer note 45). In addition to transactions with MoR related to receipt of lease rentals, advance or reimbursements for acquisition of rolling stock & project infrastructure assets, amounts are payable to / receivable from MOR on account of exchange and MCLR variations. These amounts are settled on periodic basis through finance lease rentals adjustments. The aforesaid transactions are based on memorandum of understanding, lease agreements and other formal communications with the MOR. The Company in this financial year undertook a reconciliation of these transactions that required adjustments in the financial statements (refer note 9) which were made in accordance with applicable Ind AS. However, the reconciliation exercise could not be concluded due to massive disruptions caused by Covid 19 pandemic in the form of extended lockdowns when offices were closed and key staff members responsible for the reconciliation got effected by Covid 19 virus and suffered, severe post Covid 19 complications & unfortunately despite best efforts could not conclude the reconciliation. The Company expects to conclude the exercise within the current financial year. The Company also expects no material adjustments in the financial statements on conclusion of the reconciliation.

* IRFC has opted for taxation under section 115BAA of the Income – tax Act, 1961 for financial year 2019 – 20 & onwards. Hence, the provisions of minimum alternate tax under section 115JB of the Income – tax Act, 1961 are no longer applicable to the Company.

(f) Estimation of uncertainty relating to the Global Health Pandemic COVID-19

The outbreak of Coronavirus (COVID -19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. The Company has adopted measures to curb the spread of infection in order to protect the health of our employees and ensure business continuity with minimal disruption.

The Company has evaluated impact of this pandemic on its business operations and based on its review and current indicators of future economic conditions, there is no significant Impact on its financial results. However, the impact assessment of COVID 19 is a continuing process given the uncertainties associated with its nature and duration and accordingly the impact may be different from that estimated as at the date of approval of these financial statements. The Company will continue monitoring any material changes to future economic conditions.

Note 47:

- The Company discharges its obligation towards payment of interest and redemption of bonds, for which warrants are issued, by depositing the respective amounts in the designated bank accounts. Reconciliation of such accounts is an ongoing process and has been completed upto 31 March 2021. The Company does not foresee any additional liability on this account. The total balance held in such specified bank accounts as on 31 March 2021 is ₹ 86.90 millions (31 March 2020: ₹ 96.82 millions, 1 April, 2019: ₹ 80.91 millions).
- The Company is required to transfer any amount remaining unclaimed and unpaid in such interest and redemption accounts after completion of 7 years to Investor Education Protection Fund (IEPF) administered by the Ministry of Corporate Affairs, Government of India. During the year ended 31 March 2021, a sum of ₹ 0.15 millions was deposited in IEPF (31 March 2020: ₹ NIL million, 1 April, 2019: ₹ 0.07 millions.)

Note 48:

The Company, in the earlier years, had executed Asset Securitisation Transactions by securitising an identified portion of future lease rentals originating on its assets leased to Ministry of Railways. As part of the securitisation transaction, future lease rentals were transferred to a bankruptcy remote Special Purpose Vehicle (SPV) which, in turn, issued Pass Through Certificates (PTCs) to the investors. The lease receivables, accordingly, were derecognised in the books of account of the company.

In terms of the Reserve Bank of India (RBI) Guidelines on Minimum Retention Requirement issued by the Reserve Bank of India as applicable to the Non-Banking Finance Companies, the company being the originator, had opted to retain a minimum of 5% of the book value of the receivables being securitised. Accordingly, the Company had invested ₹ 169.77 millions in the Pass Through Certificates (PTCs) issued by the 'Special Purpose Vehicle' towards Minimum Retention Requirement. Out of the amount invested in Pass Through Certificates (PTCs), ₹ 157.63 millions have matured till 31

54.2.3. Derivative Instruments

The Company judiciously contracts financial derivative instruments in order to hedge currency and / or interest rate risk. All derivative transactions contracted by the Company are in the nature of hedging instruments with a defined underlying liability. The Company does not deploy any financial derivative for speculative or trading purposes.

(a) The Company uses foreign currency forward contracts to hedge its risk associated with foreign currency fluctuations in respect its External Commercial Borrowings.

- (d) Other than currency forward contracts, the Company also resorts to interest rate derivatives like Cross Currency Interest Rate Swap and Interest Rate Swap for hedging the interest rate risk associated with its external commercial borrowings.

The Company recognizes these derivatives in its Financial Statements at their Fair Values. Further, in view of the fact that these derivatives are Over the Counter (OTC) contracts customized to match the residual tenor and value of the underlying liability, the Company relies on the valuations done by the counter parties to the derivative transactions using the theoretical valuation models.

Since the total impairment allowances under Ind AS 109 is equal to the total provisioning required under IRACP (including standard asset provisioning) as at 31 March 2021, no amount is required to be transferred to 'Impairment Reserve'. The gross carrying amount of asset as per Ind AS 109 and Loss allowances (Provisions) thereon includes interest accrual on net carrying value of stage - 3 assets as permitted under Ind AS 109. While, the provisions required as per IRACP norms does not include any such interest as interest accrual on NPAs is not permitted under IRACP norms.

The balance in the 'Impairment Reserve' (as and when created) shall not be reckoned for regulatory capital. Further, no withdrawals shall be permitted from this reserve without prior permission from the Department of Supervision, RBI.

Independent Auditor's Report

To

**The Board of Directors,
Indian Railways Finance Corporation Limited,**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Indian Railway Finance Corporation Limited ("the Company"), which comprise the balance sheet as at 31st March, 2021 and the statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity, and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the company as at 31st March, 2021, and the profit and total comprehensive income, changes in equity, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of

the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there-under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matters

We draw attention towards Amount payable to or receivable from Ministry of Railways in respect of Liabilities and Assets against transactions of Financial Statement are subject to reconciliation and confirmation by the Ministry of Railways (MoR). Please refer to Note 46(d).

We have determined the matters described below to be the Key Audit Matters to be communicated:-

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of financial statements of the audit period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Sr. No.	Key Audit Matters	Auditor's Response
1	The government has introduced new section 115BAA by the Taxation Law (Amendment) Ordinance, 2019 w.e.f F.Y. 2019-20, which provides an option to opt for a income tax rate of 22%, Surcharge 10% & Health and Education Cess at 4% by any domestic company. By opting this total effective tax rate will be at 25.17% (under normal provision of income tax) as against earlier effective tax rate of 34.95% (under normal provision of income tax). However, the earlier effective tax rate under MAT was 21.55% which was applicable on the company.	After adoption of Section 115BAA, the taxable income under the normal provision income tax may become NIL. Further after adoption of section 115BAA, the company will be outside the scope and applicability of MAT Provision under section 115JB of Income Tax Act, 1961. Hence, no tax liability may be there for the F.Y 2020-21 on the company. Hence, no tax provision has been created for the year ended 31.03.2021.

2	<p>In terms of the revised arrangement with the Ministry of Railways, the contractors appointed for undertaking Railway Infrastructure Projects funded by the Company to be leased to Indian Railways, have started raising the invoices in the name of the Company for the expenditures incurred / payments made to Suppliers and Vendors by Ministry of Railway (MoR) for the aforesaid projects with effect from May 1, 2020. Accordingly, the Company is entitled to claim Goods and Service Tax (GST) Input Tax Credit (ITC) from 1st May, 2020. Earlier ITC credit was not claimed and availed by IRFC Ltd on Railway Projects.</p>	<ul style="list-style-type: none"> A total sum of Rs. 5,05,509.51 million has been incurred towards expenditure made / payments made to suppliers and vendors in respect of Railway Infrastructure Projects as per the details received from the Ministry of Railways during the period from 1st May, 2020 to 31st March, 2021. The Company is entitled to claim GST Input Tax Credit (ITC) of Rs 53,770.59 million on the aforesaid expenditures incurred on the Railway Infrastructure Projects. Please refer Note 13.
3	<p>Prior period adjustments have been done during the Financial period ended Sept 2020 to the extent of Rs. 7071.18 million on account of previous years transactions.</p>	<p>The prior period adjustments of Rs. 7071.18 million arising during the year ended 31st March, 2021 has been duly adjusted in the years to which it pertains. Out of the total sum of Rs.7071.18 million, the sum of Rs. 605.49 million, Rs. 1462.42 million, Rs.844.02 Million and Rs. 5003.27 million pertains to the years ending 31st March, 2018, 31st March, 2019, 31st March, 2020 and 31st March, 2021 respectively.</p> <p>As a result of the aforesaid adjustment, there is reduction in "Retained Earnings" by Rs.6,626.82 million. Correspondingly, there is a decrease in 'Amount Recoverable from Ministry of Railways on account of Exchange Rate Variation' by Rs. 6,242.29 Million, increase 'Tax Refund Receivable' by Rs. 444.36 million, increase in Interest Accrued but not due on Borrowings by Rs.828.95 million and decrease in Other Payables by Rs. 0.06 million.</p>
4	<p>Compliance in respect of Companies Act for Appointment of Independent Director</p>	<p>Appointment of Independent Director: As per sub section 4 of Section 149 of Companies Act 2013, every listed company is mandatorily required to have at least one-third of the total number of directors as independent directors which comes to two independent directors. But presently, only one independent director is available in Board of directors.</p>

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies;

making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained

up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonable knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit except mentioned under the head of Basis for Opinion above.

Annexure “B” to the independent auditor’s report

Referred to in Para 2(g) under the heading ‘Report on other Legal and Regulatory Requirements’ of our report of even date to The Members of Indian Railway Finance Corporation Limited on the standalone financial statements for the year ended 31st March, 2021)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Indian Railway Finance Corporation Limited (“the company”) as of 31 March, 2021 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note, to the extent applicable to an Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and

evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedure selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company’s internal financial control over financial reporting includes those policies and procedures that :

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in

the Guidance Note issued by the Institute of Chartered Accountants of India except the following area where the internal control system required to be improved:

Amount payable to or receivable from Ministry of Railways in respect of Liabilities and Assets against transactions of Financial Statement are subject to reconciliation and confirmation by the Ministry of Railways (MoR). Please refer to Note 46(d).

Revised Independent Auditor's Report

To

**The Board of Directors,
Indian Railways Finance Corporation Limited,**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Indian Railway Finance Corporation Limited ("the Company"), which comprise the balance sheet as at 31st March, 2021 and the statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity, and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the company as at 31st March, 2021, and the profit and total comprehensive income, changes in equity, and its cash flows for the year ended on that date.

This report has been revised consequent upon observations of Comptroller of Auditor General of India during the course of audit u/s 139(5) of the Companies Act, 2013 as amended, for the year ended on 31st March, 2021, and this report supersedes our earlier report dated 29th June, 2021 under section 143 of the Companies Act, 2013.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there-under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matters

We draw attention towards Amount payable to or receivable from Ministry of Railways in respect of Liabilities and Assets against transactions of Financial Statement are subject to reconciliation and confirmation by the Ministry of Railways (MoR). Please refer to Note 46(d).

We have determined the matters described below to be the Key Audit Matters to be communicated:-

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of financial statements of the audit period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Sr. No.	Key Audit Matters	Auditor's Response
1	The government has introduced new section 115BAA by the Taxation Law (Amendment) Ordinance, 2019 w.e.f F.Y. 2019-20, which provides an option to opt for a income tax rate of 22%, Surcharge 10% & Health and Education Cess at 4% by any domestic company. By opting this total effective tax rate will be at 25.17% (under normal provision of income tax) as against earlier effective tax rate of 34.95% (under normal provision of income tax). However, the earlier effective tax rate under MAT was 21.55% which was applicable on the company.	After adoption of Section 115BAA, the taxable income under the normal provision income tax may become NIL. Further after adoption of section 115BAA, the company will be outside the scope and applicability of MAT Provision under section 115JB of Income Tax Act, 1961. Hence, no tax liability may be there for the F.Y 2020-21 on the company. Hence, no tax provision has been created for the year ended 31.03.2021.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and

prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonable knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work: and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit except mentioned under the head of Basis for Opinion above.

Annxure “B” to the independent auditor’s report

Referred to in Para 2(g) under the heading ‘Report on other Legal and Regulatory Requirements’ of our report of even date to The Members of Indian Railway Finance Corporation Limited on the standalone financial statements for the year ended 31st March , 2021)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Indian Railway Finance Corporation Limited** (“the company”) as of 31st March, 2021 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note, to the extent applicable to an Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of

internal control based on the assessed risk. The procedure selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company’s internal financial control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in

the Guidance Note issued by the Institute of Chartered Accountants of India except the following area where the internal control system required to be improved :

Amount payable to or receivable from Ministry of Railways in respect of Liabilities and Assets against transactions of Financial Statement are subject to reconciliation and confirmation by the Ministry of Railways (MoR). Please refer to Note 46(d).

INDIAN RAILWAY FINANCE CORPORATION LIMITED

Chairman's Statement

Dear Shareholders,

It gives me great pleasure to welcome you all to the Thirty Third Annual General meeting of your company, Indian Railway Finance Corporation Limited (IRFC). We, as IRFC, have come a long way, in the service of the nation by supporting developmental needs of the Indian Railways. The audited accounts of your company for the year ended 31st March, 2020, along with the Director's Report and its accompaniments are with you. I trust I have your consent to take them as read.

I am delighted to share that the financial year 2019-20 has been a landmark and an eventful year, wherein the cumulative funding to the railway sector crossed a monumental figure of INR 3.39 lakh crore. The Company has met the highest ever annual borrowing target of Rs.70,471.96 crore mandated by the Ministry of Railways (MoR) during the FY 2019-20, registering a year-to-year growth of more than 34%, that is further complemented with the reduced cost of financing (from 8.20% in 2018-19 to 7.37% in 2019-20) to MoR. Our company unwaveringly has been true to its *vision* of establishing itself as a pivotal & premier financial services company for meeting, in the most competitive manner, the gamut of developmental requirements of Ministry of Railways for its Rolling Stocks Assets, Project Assets, as well as Projects of National Importance. Over the past three decades, we have evolved as a key player for investment in the Railways' Infrastructure.

There has been an impressive increase of 67% in the net worth of the company as compared to the previous year, that now stands at INR 30,962.43 crore. This is primarily attributed to the reversal of Deferred Tax Liability pursuant to the recent clarification issued by the Ministry of Corporate Affairs after consistent follow-ups and efforts. Further, highlighting the accolades, our performance vis-à-vis the targets set out in the MoU for the year 2019-20, the Company is expected to be accorded '*Excellent*' grading from the Department of Public Enterprises (DPE). I am immensely proud of what we have accomplished together, this past year and I am even more zestful about the opportunities ahead.

Before, I share further light on our Company's accomplishments and an account of our Company's financial performance during the year, I would like to recapitulate briefly, some of the important developments and trends, both globally and nationally, that have a bearing on the performance and prospects of our Company.

Economic Overview:

The year 2019 was a difficult year for the global economy with world output growing at its slowest pace of 2.9%, since the global financial crisis in 2009, declining from a subdued 3.6 per cent in 2018 and 3.8 per cent in 2017. Amidst the weak global environment of

manufacturing, trade and demand, the Indian economy too experienced a slowdown in growth.

The GDP growth rate in 2019-20 was 4.2%, as compared to 6.1% in 2018-19. In 2020-21, India's GDP growth rate was expected to be in the range of 6.0%-6.5%. However, due to the ongoing pandemic and its adverse impact on the national as well as global economy, the GDP is now anticipated to contract to unprecedented levels.

Nevertheless, India aspires to become a \$5 trillion-dollar economy by 2025, that has invited planning for targeted interventions aimed at strengthening the trust in the market with pro-business policies, raising capital expenditure (and reducing revenue expenditure), that leads to asset creation. India has also jumped from 142 in 2014 to 63 in 2019, in 'ease of doing business' rankings.

The Monetary policy remained accommodative in 2019-20. The Reserve Bank of India changed its monetary policy stance to *accommodative* in order to give a boost to growth and the repo rate was cut by 110 basis points in four consecutive Monetary Policy Committee meetings in the financial year. Liquidity conditions were tight for initial two months of 2019-20; but subsequently, it has remained comfortable. The financial flows to the economy however, remained constrained as credit growth declined for both banks and Non-Banking Financial Corporations, on account of lower investment growth and rising NPAs. The interest rate has turned more benign and there is huge liquidity in the system due to monetary stimulus announced by RBI with Repo Rate cut by 115 bps during the current fiscal and infusion of additional liquidity through announcement of Targeted Long Term Repo Operations (TLTRO).

During the first half of 2019-20, the 10- year benchmark G-Sec yield mostly softened, tracking subdued crude oil prices, surplus liquidity, and four consecutive policy rate cuts. Thereafter, it largely followed a downward trend, attributed to change in monetary policy stance of the U.S. Fed (on global growth concerns and ongoing trade tensions), easing of liquidity condition of the banking system, consecutive policy rate cuts by the RBI, along with change of stance from neutral to accommodative. The 'Special Open Market Operation' by RBI, which means purchase of long-term securities and simultaneous sale of short-term securities helped bring down the yield slightly on 10-year G-Secs. This is expected to bring down the term premium by reducing the differential between the long and short-term bond yields. Reflecting the market sentiment, the 10-year benchmark Government yield averaged at 6.64% in the year 2019-20, as against 7.72% in the year 2018-19.

Railway Sector:

The Indian Railway system has played a pivotal role in our country's economic progress by transporting a high level of passenger and freight in an energy efficient & cost-effective manner, throughout its vast territory and thereby integrating markets, connecting communities, enabling productive investments and job creation.

Rising incomes and populations in developing & emerging economies, like ours, where cities are growing exponentially, are set to lead to a strong demand for more efficient, faster & cleaner transport. Growing economies also drive demand growth in freight, wherein higher incomes sharply increase the demand for rapid delivery of higher value and lighter goods. The strategic importance and advantage of railways aided by additional investments in rail infrastructure & technological innovations, makes Indian Railways a propeller for such necessitated growth.

Consequently, there has been a consistent increase in Government's resolve for increased developmental expenditure for railways and the Annual Plan outlay of 2019-20 was pegged at INR 1,60,176 crore. In 2020-21, the Railways' Operating Ratio is estimated to be 96.2%. This is marginally better than the revised estimates of 2019-20 at 97.4%.

Furthermore, the positive externalities and the multiplier effect of investment in Infrastructure for economic growth is a well acknowledged and established fact. India, in its vision to achieve a GDP of \$5 trillion by 2024-25, needs to spend about 100 lakh crore, over these years on infrastructure. And it plans to do so, under its ambitious National Investment Plan (NIP), of which Railways has a sizeable share of around 13%. NIP will enable well-prepared infrastructure projects that in turn will create jobs, improve ease of living, and provide equitable access to infrastructure for all, thereby making growth more inclusive. NIP also intends to facilitate supply side interventions in infrastructure development to boost short-term as well as the potential GDP growth. Improved infrastructure capacities are also expected to drive competitiveness of the Indian economy.

Contribution to Railway Capital Outlay:

Over the last three decades of our Company's existence, it has played a significant role in supporting the capacity enhancement of the Indian Railways, by financing a notable proportion of its annual plan outlay.

The Company has met the highest ever annual borrowing target of Rs.70,471.96 Crore mandated by the MoR during the FY 2019-20. The single year annual borrowing target during the period from 2014-15 to 2019-20 has gone up by around 5.4 times from Rs.11,044 Crore in 2014-15 to Rs.70,471.96 crore in 2019-20, achieving a CAGR of around

45% in the last five years ending March 2020, as against a CAGR of 12.08%, since inception (1987-88) till 2013-14.

The borrowing target of Rs.70,471.96 Crore comprised Rs.32,624 Crore for funding Rolling Stock Assets, Rs.33,940 Crore for financing Railway Projects under EBR-IF, Rs.2500 Crore for funding National Railway Projects and Rs.1407.96 crore for meeting the debt financing needs of RVNL. The share of IRFC in the Annual Plan Outlay of Indian railways has increased to 44% in 2019-20, and has seen an increase of 13%, as compared to the share of the preceding year.

Our company owns more than 80% of Indian Railways' Rolling Stock fleet, comprising 11,332 locomotives, 64,642 passenger coaches, 2,41,082 freight wagons and 85 cranes & track machines, valued at INR 2.28 lakh crore, of which rolling stock assets worth INR 33,544.11 crore were acquired in 2019-20.

Additionally, the cumulative funding made by IRFC to the Rail Sector since its inception to the end of 31 Mar, 2020, is of the order of Rs.3.39 lakh crore, out of which Rs.2.33 lakh crore has been funded during the period from 2014-15 to 2019-20, constituting about 69% of its overall contribution. Further, your Company cumulatively has funded a sum of Rs. 93,655.49 Crore for Railway Projects under EBR-IF to the end of March, 2020.

Operational and Financial Performance during 2019-20:

I would now like to share with you some of the highlights of your Company's performance since the last Annual General Meeting held in September, 2019. Your Company was mandated highest ever single year borrowing target of Rs. 70,471.96 Crore, including financing of Rolling stock to the extent of Rs 32,624 Crore, financing of Railway Projects under EBR-IF to the tune of Rs. 33,940 Crore, meeting the debt financing requirements of RVNL amounting to Rs. 1407.96 crore and financing of National Projects amounting to Rs. 2500 crore by MoR. Your Company successfully met the aforesaid targets by transferring the required amount of funds before the closure of the fiscal.

The entire requirement of funds was met out of a mix of borrowings both from the domestic and international financial markets. The borrowings made during the year include Taxable Bonds worth Rs.30,095.73 crore (LIC Bonds Rs.4300 crore), External Commercial Borrowings (ECB) of Rs.13,783.85 Crore at exchange rate prevailing on the draw down date, Rupee Term Loans of Rs.25,745.13 Crore and 54EC bonds of Rs.847.25 crore. The weighted average cost and tenor of the pool of borrowings made by the Company during the year 2019-20 remained at 7.37% (semi-annual) as against 8.20% (semi Annual) during the previous year 2018-19, thus registering a decline of 83 bps over previous year, which in turn, has reduced the cost to MoR.

The interest rate remained benign during the major part of the year, due to change in monetary policy stance from calibrated tightening to neutral, in Feb, 2019 and then to

accommodative from June, 2019. During the period up to Dec, 2019, policy repo rate was cumulatively cut by 135 bps. However, during the latter part of the year, the market remained highly volatile due to the pandemic COVID-19, which led to unprecedented liquidity crunch, temporary spike in the interest rate and widening of corporate spreads. In spite of the fact that your Company was mandated a mammoth final borrowing target in excess of Rs.70,000 Crore and upward revision in the mandate from the original target of Rs.55,471 Crore was communicated to the Company only towards the end of the financial year, the Company had to manoeuvre its borrowing programme meticulously in an adverse macroeconomic environment, which helped maintain its unflinching commitment to making funds available to the Railways, at the most competitive possible pricing.

Your Company constantly diversifies its borrowing portfolio to meet the target of borrowings mandated by MoR, which helps it to raise higher volume of funds at competitive rates and terms. It was able to do so, due to constant monitoring of the markets, proper timing of borrowing, appropriate selection of instruments and strong confidence reposed by domestic and overseas investors in your Company. This has led to minimisation of the cost of borrowings and in turn has reduced the cost to MoR.

In its endeavour towards further diversification of its borrowing portfolio, your Company upgraded its Euro Medium Term Note (EMTN) programme to Global Medium Term Note (GMTN) Programme which facilitated its maiden issuance of bonds under Rule 144A / Reg S route. The bonds under the GMTN Programme were issued in two tranches of USD 700 Million and USD 300 Million with tenor of 10 years and 30 years, carrying coupon of 3.249% (Benchmark US Treasury plus 160 bps) and 3.95% (Benchmark US Treasury plus 184 bps), respectively. These were considered as benchmark deals from India. The coupons obtained by your Company were one of the lowest amongst the issuances, during 2019-20. Besides, the 30-year tenor issuance was the maiden issue by an Indian CPSE. Further, IRFC had raised a sum of USD 300 Million through 10-year USD Dollar denominated loan from SBI at an All-in-cost of 150 bps over 6 M USD LIBOR. IRFC is the first CPSE in recent years to tap the domestic capital market with 15-year bond issuance and raised an aggregate sum of Rs. 6682.60 Crore. Further, after constant effort, Multilateral Investment Guarantee Agency (MIGA), a subsidiary of the World Bank, accorded their in-principle approval for extending guarantee to the extent of USD 1 Billion to your Company for its foreign currency borrowing up to 15-year tenor. This would help your Company in the credit enhancement and enable it to raise foreign currency loans with longer tenors of up to 15 years. Your Company was the first entity in India to be accorded this guarantee under the Non-Sovereign window by MIGA.

I am happy to report that your Company continues to enjoy the highest credit rating from the three leading domestic credit rating agencies. During the financial year 2019-20, the Company's long-term domestic borrowing programme was awarded the highest credit rating of "CRISIL AAA/Stable", "[ICRA] AAA (Stable)" and "CARE AAA [Triple A]" by

CRISIL, ICRA and CARE respectively. The Company also got its short-term borrowing programme rated, obtaining the highest rating of “CRISIL A1+”, “[ICRA] A1+”, and “CARE A1+ [A One Plus]” by CRISIL, ICRA and CARE. Further, During the financial year 2019-20, three international credit rating agencies – Standard & Poor’s, Fitch and Moody’s – have awarded “BBB- with Stable Outlook”, “BBB- with Negative Outlook” and “Baa3 with Negative Outlook” ratings respectively, to your Company. Besides, the Company obtained an issuer specific credit rating of “BBB+ with Stable Outlook” from Japanese Credit Rating Agency. Each of the four credit ratings is equivalent to India’s sovereign rating, and is of investment grade.

I now turn to the financial performance of your Company. Even if the entities operating in the financial sector have remained under tremendous stress, IRFC continued to exhibit healthy financial performance for FY 2019-20. Revenue of your Company has increased by Rs. 2,704.86 crore from Rs. 11,133.60 crore in 2018-19 to Rs.13,838.46 crore in 2019-20 showing a growth of 24.29%., Profit before Tax (PBT) of your Company for the year ending 31st March 2020, was Rs. 3,692.42 crore as compared to Rs. 2,901.58 crore for the previous year, registering a growth of 27.26%. and Profit after Tax (PAT) for the year ending 31st March, 2020 was Rs 3,692.42 crore, which is the same as Profit Before Tax (PBT), as the Company has not made any provision for tax in its books, pursuant to its decision to exercise the option of lower tax rate permitted u/s 115BAA of the Income Tax Act, 1961, as introduced by the Taxation Laws (Amendment) Ordinance, 2019, dated 20th September, 2019. The Company’s taxable income was nil and it did not have to pay Minimum Alternate Tax (MAT) with reference to its Book Profit. MAT payable u/s 115 JB was outside the ambit of the newly introduced 115 BAA. Thus, on adoption of Section 115 BAA of the Income Tax Act, 1961, the Company was outside the scope and applicability of MAT provisions and there was a zero-tax liability in the financial year 2019-20. Thus, the Profit After Tax for the year ending 31st March, 2020 was Rs.3,692.42 Crore, as compared to Rs. 2,254.75 crore for the previous year, up by an impressive 63.76%. This has enabled the Company to augment its net worth and improve the D/E ratio.

Memorandum of Understanding:

The Members are aware that your Company enters into a Memorandum of Understanding (MOU) with the Ministry of Railways each year, which sets out the financial performance and efficiency parameters. Based on the actual achievements vis-à-vis the parameters set out in the MOU, the performance of your Company is evaluated. Your Company’s performance has since been rated ‘Excellent’ with a score of 91.82 (Excellent) for the year 2018-19. Your Company is likely to secure Excellent rating for the year 2019-20 also.

CSR Activities:

As a responsible corporate citizen, your Company attaches high importance to activities related to Corporate Social Responsibility (CSR) and has strictly adhered to the relevant provisions of the Companies Act, 2013, in this regard. During the year 2019-20, the Company was required to spend Rs. 50.52 crore, being 2% of its average net profits of the

last three years, on CSR activities, against which the Company has disbursed a sum of Rs. 34.10 crore and the balance amount of Rs 16.42 crore would be disbursed on receipt of claims from the implementing agencies in future. The Company was committed to Education and Health care, as the theme for focused intervention, as mandated by Department of Public Enterprises.

Corporate Governance:

Your Company strives to maintain the highest standards of corporate governance and has adhered to the guidelines laid down by the law and various regulatory bodies. Your Company is adhering to the 'Guidelines on Corporate Governance for Central Public Sector Enterprises. Your Company's Non-Convertible Debt Securities are listed on the stock exchanges and Company has complied with Chapter V of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Human Resources:

Performance level of your Company has been consistently high, despite the fact that it consciously maintains a very lean workforce reflected in its low overhead to turnover ratio of around 0.10%.

In order to further strengthen the Organization Structure for coping with the additional workload due to manifold increase in the annual borrowing target mandated by MOR and significant increase in the compliance requirements in the aftermath of implementation of the Companies Act, 2013, SEBI (LODR) Guidelines, migration to IND-AS and introduction of GST, the Company got a study conducted by the Management Development Institute (MDI), Gurugram. Besides, the IPO and listing of its equity shares are slated to take place shortly, which in turn, is expected to make the compliance process more stringent. Based on the report submitted by MDI, the Company is planning to increase the employee strength suitably in a phased manner to meet the new challenges.

High levels of efficiency exhibited by the Company's dedicated workforce would not have been possible, but for the Company laying deep emphasis on upgrading skills of its employees and keeping them abreast of latest developments and industry practices. The Company is committed to enhancing the professional expertise of all its employees. As a matter of general practice, the Company relies on training programmes, involving assessment of training needs and providing necessary inputs to Company personnel, including through customised training programmes.

Way Ahead:

GoI, in its Vision to achieve the GDP of \$5 trillion by 2024-25, needs to spend about 100 lakh crore, over this period, on infrastructure and it plans to do so under its ambitious National Investment Plan (NIP), of which Railways has a sizeable share of around 13%. NIP will enable well-prepared infrastructure projects, that in turn, will create jobs, improve ease of living, and provide equitable access to infrastructure for all, thereby

making growth more inclusive. NIP also intends to facilitate supply side interventions in infrastructure development, to boost short-term as well as the potential GDP growth. Improved infrastructure capacities are also expected to drive competitiveness of the Indian economy.

For the current fiscal, your Company has been assigned the annual borrowing target at Rs. 58,000 crore, which includes Rs. 29,300 crore for funding of Rolling Stock assets and funding of Railway projects through Institutional Finance to the extent of Rs.28,000 crore. A target of Rs. 700 crore for meeting the debt funding requirements of RVNL has also been given.

As reported in the last meeting, Government of India (GoI) in the Union Budget for the year 2017-18, had proposed listing of IRFC's shares. Accordingly, GoI had proposed offer for sale of 5% of its present holdings and your Company has also planned additional issuance of equity through Initial Public Offerings (IPO). Your Company filed DRHP with SEBI, NSE and BSE on 17th January 2020 and UDRHP was filed on 6th of March 2020. At the High-Level Committee Meeting, held on 9th March 2020, it was decided to put on hold the ongoing IPO, due to unfavourable market condition, because of COVID 19 pandemic and other global and domestic market issues.

I am confident that the intellectual and managerial capabilities, the available skill sets and the ingenuity of the team shall prove equal to the task and ensure all round excellence in the coming years.

Acknowledgements:

Excellent performance of your Company on sustained basis would not have been possible without unqualified and constructive support and cooperation of numerous individuals and organizations including my colleagues on the Board of Directors, officers and staff of Ministry of Railways, Ministry of Finance, Ministry of Corporate Affairs, Department of Public Enterprises, C&AG of India, Statutory Auditors, Internal Auditors, Secretarial Auditors, Banks, Financial Institutions, Securities and Exchange Board of India, Reserve Bank of India, BSE, NSE, National Securities Depository Limited, Central Depository Services (India) Limited, Registrar & Share Transfer Agent, Investors and other Stakeholders. I wish to place on record my sincere gratitude to all of them. I also wish to place on record the highest appreciation for the hard work and sincere efforts put in by the small but highly effective team at IRFC. Their untiring commitment and application enabled your Company to deliver excellent results.

Item No. 6

Company in its 32nd AGM held on 26th September, 2019 had approved the IPO for divesting upto 25% by Government of India over a period of 3 (three) years and raising of additional equity of 10% by the Company. High Level Committee of Government of India (HLC) has allowed IRFC to raise additional equity to issue up to 10% of existing capital, which can be leveraged to raise more funds through borrowing and also approved the divestment of 5% of the existing capital by the GOI. Accordingly, the Ministry of Railways vide their Order No.2017/F(FEX)22/10 dated 1st November, 2017 has informed that the IRFC is to raise 10% (on pre-issue basis) of additional capital and simultaneously Government of India is to divest its shareholding of 5% (on pre-issue basis) for listing of IRFC. The Company has filed the Draft Rehearing Prospectus (DRHP) with Securities and Exchange Board of India (SEBI) on 17th January, 2020 and awaiting its approval.

Keeping in view the launching of shares of IRFC in the market, OM issued by DPE and Company has been conferred with the Mini-Ratna Status, there is requirement to align the certain Articles of the Articles of Association with the approval of the Shareholders through holding an Extra Ordinary General Meeting (EGM).

Board of Directors recommend the Resolution for your approval. The Shareholders are requested to consider the above proposal and approve the same.

None of the Directors and / or Key Managerial Personnel of the Company or their respective relatives are concerned or interested in the Resolution.

Item No. 7

The present Authorised Capital of the Company is Rs. 15,000 crore and the paid-up Equity share capital of the Company as on date is Rs. 11880.46 crore.

The GoI in its Union Budget 2019 has announced an estimated investment of Rs. 50 lakh crores between 2018-2030 in Railway infrastructure and to use Public Private Partnership to unleash faster development and completion of various railway projects. This would lead to heavy borrowing targets in the next few years and Company would require frequent equity infusions from MOR or through fresh equity from public, if public gets listed, in order to maintain its Debt to Equity ratio below 10 : 1. This would also enable the Company to increase its headroom for future borrowings.

It has, therefore, become necessary for the Company to increase the Authorised Share Capital of the Company to Rs. 25,000 crore. It may be mentioned that there is no cost associated with increase in Authorised Capital except filing fees & stamp duty on increased capital.

As per the provisions of the Section 61(1) of the Companies Act, 2013, any increase in the Authorised Share Capital requires approval of the Shareholders in the General Meeting. Hence, this Resolution is put up for approval.

None of the Directors and / or Key Managerial Personnel of the Company or their respective relatives are concerned or interested in the Resolution.

Item No. 8

Government of India (GOI) in the Union Budget for the year 2017-18 had proposed listing of IRFC's shares. As a prerequisite to the listing norms, the Company is required to maintain 25% public shareholding on the total number of issued shares. However, compliance with the aforesaid norm is required to be adhered to in a

staggered manner over a period of 3 years with the target of 10% of minimum public shareholding in the year of listing itself.

Railway Board, vide its letter No. 2017/F(F.EX)/22/10 dated 6th August, 2019, has communicated its decision to go ahead with the process of disinvestment. Accordingly, the Company in consultation with BRLMs has filed its Draft Red Herring Prospectus (DRHP) with SEBI on 17th January, 2020 and received approval of SEBI on 25th February, 2020. Company has also filed updated DRHP with SEBI on 6th March, 2020 and received approval of SEBI on 9th March, 2020. High Level committee (HLC) met on 9th March 2020 at DIPAM's office for the purpose of IRFC IPO and decided that the IPO process stands deferred as on date due to volatility in stock market due to novel coronavirus outbreak a pandemic, Yes Bank crisis and further slide in global crude oil prices.

As the Member(s) are aware, the Government of India has to list the Equity Shares of the Company on the stock exchanges by divesting its holding upto 25% of the paid up share capital, over a period of three years. Further, the Company also intends to raise equity capital to enable to meet its capital requirements arising out of growth in the business.

The exact volume of equity to be divested by the Government of India has been finalized by the High Level Committee (HLC) constituted by the Government of India in their Meeting held on 24th October, 2017. Subsequent to the HLC Meeting, Ministry of Railways (MoR) vide its Order No. 2017/F(FEX)22/10 dated 1st November, 2017, has informed that the Company can raise 10% (on pre-issue basis) of additional capital and simultaneously Government of India would divest its shareholding of 5% (on pre-issue basis) for listing of IRFC.

Company in its 32nd Annual General Meeting held on 26th September, 2019 had approved the Initial Public Offerings (IPO) to raise additional capital up to 1,407,069,000 equity shares of the Company of face value of ₹10 (Rupees ten) each, by way of a fresh issuance of up to 938,046,000 Equity Shares (the "Fresh Issue") and an offer for sale of up to 469,023,000 Equity Shares ("Offer for Sale"). Company in order to maintain its debt equity ratio of 10:1 has made additional infusion of equity capital of Rs. 2500 crore on 30th March, 2020. Due to this, previous resolution in relation to the IPO was passed, fresh resolutions are required for approval of IPO by the shareholders.

In view of the above and in terms of Section 62(1)(c), and other applicable provisions of the Companies Act, 2013 and the rules and regulations made thereunder, each as amended, the approval of the shareholders of the Company is required through a

Special Resolution.

None of the Directors and / or Key Managerial Personnel of the Company or their respective relatives are concerned or interested in the Resolution.

VII.	Profit (Loss) for the current year from continuing operations (V-VI)	36,924.24	22,547.49
VIII.	Other Comprehensive Income	(5.52)	1.66

Revenue from operations of your Company has increased by Rs. 2,704.87 crores from Rs. 11,133.60 crores in 2018-19 to Rs.13,838.46 crores in 2019-20, showing a growth of 24.29%.

Profit before Tax (PBT) of your Company for the year ending 31st March 2020 was Rs. 3,692.42 crore as compared to Rs. 2,901.58 crore for the previous year, registering a growth of 27.26%.

Profit after Tax (PAT) for the year ending 31st March, 2020 was Rs 3,692.42 crore which is the same as that of Profit Before Tax (PBT), as the Company has not made any provision for tax in its books pursuant to its decision to exercise the option of lower tax rate permitted u/s 115BAA of the Income Tax Act, 1961, as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated 20th September, 2019. The Company's taxable income was nil and it did not have to pay Minimum Alternate Tax (MAT) with reference to its Book Profit. MAT payable u/s 115 JB was outside the ambit of the newly introduced 115 BAA. Thus, on adoption of Section 115 BAA of the Income Tax Act, 1961, the Company was outside the scope and applicability of MAT provisions and there was a zero-tax liability in the financial year 2019-20. Thus, the Profit After Tax for the year ending 31st March, 2020 was Rs.3,692.42 Crore as compared to Rs. 2,254.75 crore for the previous year, up by an impressive 63.76%. This has enabled the Company to augment its net worth and improve the D/Eratio.

2. Dividend

Your Company seeks to strike a judicious balance between the return to the shareholders and retaining a reasonable portion of the profit to maintain a healthy financial leverage with a view to supporting and sustaining future borrowings and growth. The overriding consideration for maintaining Debt to Equity ratio of the Company within the acceptable limits acts as a deterrent to declaration of higher amount of dividend.

It is proposed to declare a Final Dividend of Rs. 500 crore (Previous year Rs. 400 crore comprising interim and final dividend), which works out to 13.54% of the PAT (Previous year 17.74%) of the Company.

3. Reserves

As per Section 45 – IC of the RBI Act, 1934, all NBFCs are required to create a Reserve equivalent to 20% of the net profit before payment of dividend. RBI granted exemption to Government NBFCs from compliance of provisions of Section 45 – IC of the RBI Act, 1934. However, the exemption has been withdrawn by RBI w.e.f. 31st May, 2018. Accordingly, 20% of the net profit of the Company amounting to Rs. 738.48 crore has been transferred to Reserve Fund u/s Section 45 – IC of RBI Act, 1934.

A sum of Rs.241.11 Crore has been appropriated towards final dividend including dividend tax of the previous year.

Out of the remaining amount of profit, the sum of Rs.2,212.80 Crore has been transferred to General Reserve leaving a sum of Rs.500 Crore for meeting the final dividend payment for the year under review.

The Ministry of Corporate Affairs has notified the Companies (Share Capital and Debentures) Amendments Rules, 2019 on 16th August 2019 which exempts NBFC listed companies registered with Reserve Bank of India u/s 45-IA of the RBI Act, 1934 from creation of Debenture Redemption reserve. Hitherto, your Company was required to create Debenture Redemption Reserve equivalent to 25% of the outstanding non-convertible debentures raised through public issue during the maturity period of such debentures. Accordingly, the balance outstanding against Bond Redemption Reserve as on 31st March, 2019 amounting to Rs. 5,714.56 crores has been transferred to General Reserve.

Pursuant to the clarification issued by the Ministry of Corporate Affairs (MCA), the sum of Rs.6443.14 Crore outstanding against the accumulated deferred tax liability up to 31st March, 2017, has been reversed and transferred to General Reserve with retrospective effect on 1st April, 2018.

An amount of Rs.16.98 Crore has been set aside towards provision for share issue expenses, including stamp duty on enhancement of paid up equity capital and SEBI Registration fees for Initial Public Offerings of equity.

Huge accretion to Reserves on account of increase in profit after tax and reversal of Deferred Tax Liability have improved the financial gearing which will create significant headroom for debt raising.

4. Share Capital

The entire paid up capital of the Company amounting to Rs. 11,880.46 crore continues to be held by the President of India and his nominees.

Company has Issued 250,00,00,000 Equity Shares of face value of Rs.10/- each to the existing Shareholder of entire Share Capital President of India, acting through Ministry of Railways. Accordingly, the number of equity shares issued by the Company stands changed from 938,04,60,000 shares of Rs.10/- each to 1188,04,60,000 shares of Rs.10/- each.

5. Independent Evaluators' Assessment

5.1. Credit Ratings

The Company also got its short-term borrowing programme rated, obtaining the highest rating of "CRISIL A1+", "[ICRA] A1+", and "CARE A1+ [A One Plus]" by CRISIL, ICRA and CARE.

International: During the financial year 2019-20, three international credit rating agencies – Standard & Poor’s, Fitch and Moody’s – have awarded “BBB- with Stable Outlook”, “BBB- with Stable Outlook” and “Baa2 with Negative Outlook” ratings respectively to your Company. Besides, the Company obtained an issuer specific credit rating of “BBB+ with Stable Outlook” from Japanese Credit Rating Agency. Each of the four credit ratings is equivalent to India’s sovereign rating, and is of investment grade.

5.2.1. Memorandum of Understanding (MOU) with Ministry of Railways, Government of India

In terms of the MOU entered into with the Ministry of Railways (MoR) for the year 2019-20, it has been stated therein that with a view to ensuring measurability and reliability of achievements against the parameters set out in the MOU, the figures be either reflected in the Annual Report for the year 2019-20 or related information be furnished by means of providing resolution passed by the Board and / or by providing physical document. Accordingly, some of the related information is given here under: -

- (i) Report on Corporate Governance for the year 2019-20 was submitted to Department of Public Enterprises (DPE) through MoR on 12th May, 2020.
- (ii) Completed Data Sheet, containing PE Survey for the year 2018-19, was submitted to DPE on 22nd October, 2019.
- (iii) The Company has submitted a certificate to DPE through MoR that it has complied with all the guidelines issued by DPE from time to time on various subjects.

MOU Rating: Based on its performance, the Company has been rated ‘Excellent’ by the Department of Public Enterprises (DPE) with a score of 91.82 (Excellent) for the year 2018-19.

Other details are mentioned in the Annual Report in relevant paras.

6. Market Borrowings during 2019-20

The Company was initially assigned a borrowing target of Rs.55,471 Crore including funding of Rolling stock to the extent of 28,400 Crore, financing of Railway Projects under EBR-IF to the tune of Rs.26,440 Crore and meeting the debt financing requirements of RVNL amounting to Rs.631 crore. During the last quarter of the financial year 2019-20, the target was revised to Rs.65,471.96 crore including Rs.32,624 crore towards Rolling Stock, Rs. 33,940 crore towards EBR-IF and Rs.1407.96 crore towards debt financing requirement of RVNL and was further increased by Rs. 2500 crore towards National Project totaling Rs.70,471.96 crore for the year 2019-20. This was the highest ever borrowing target for any financial year in the history of the Company and was an increase of 34.28% over the previous year's target of Rs.52,480.10 crore. The cumulative funding to Railway Sector has crossed Rs.3.39 lakh crore mark.

The total Capital Outlay (Capital EXPENDITURE) of MoR for the year 2019-20 was Rs.1,60,000 crore out of which IRFC's disbursement against the same was significant at Rs. 70,471.96 crore which constitutes 44.04% of total capital outlay for the year 2019-20.

Borrowings made during the year include Taxable Bonds worth Rs.30,095.73 crore (LIC Bonds Rs.4300 crore), External Commercial Borrowings (ECB) of Rs.13,783.85 Crore at exchange rate prevailing on the draw down date, Rupee Term Loans of Rs.25,745.13 Crore and 54EC bonds of Rs.847.25 crore. The weighted average cost and tenor of the pool of borrowings made by the Company during the year 2019-20 remained at 7.37%(semi-annual) as against 8.20% (semi Annual) during the previous year 2018-19, thus registering a decline of 83 bps over previous year, which in turn, has reduced the cost to MoR

The Company was able to achieve this feat through constant monitoring of the markets, proper timing of its borrowings and appropriate selection of instruments.

During the year, the Company constantly diversified its borrowing portfolio to meet the target of borrowings mandated by MoR at the most competitive rates and terms. In its endeavor towards further diversification of its borrowing portfolio, the Company upgraded its Euro Medium Term Note (EMTN) programme to Global Medium-Term Note (GMTN) Programme which facilitated its maiden issuance of bonds through Rule 144A / Reg S route. The bonds under the GMTN Programme were issued in two tranches of USD 700 Million and USD 300 Million with tenor of 10 years and 30 years carrying coupon of 3.249% (Benchmark US Treasury plus 160 bps) and 3.95% (Benchmark US Treasury plus 184 bps) respectively. These are considered as benchmark deals from India. The coupons obtained by IRFC is one of the lowest amongst the issuances, during 2019-20. Besides, the 30-year tenor issuance is the maiden issue by an Indian CPSE. Further, Your Company had raised a sum of USD 300 Million through 10-year USD Dollar denominated loan from SBI at an All-in-cost of 150 bps over 6 M USD LIBOR. IRFC is the first CPSE in recent years to tap the domestic capital market with 15-year bond issuance and raised an aggregate sum of Rs.6682.60 Crore. Further, after constant effort, Multilateral Investment Guarantee Agency (MIGA), a subsidiary of the World Bank, had accorded their in-principle approval for extending guarantee to the extent of USD 1 Billion to your Company for its foreign currency borrowing up to 15 years tenor. This would help your Company in the credit enhancement and enable it to raise foreign currency loans with longer tenors up to 15 years. Your Company was the first entity in India to be accorded this guarantee under the Non-Sovereign window by MIGA.

The Company received approval of Ministry of Finance for issue of 54EC Capital Gain Bonds in October 2017. Since then, Company is making all endeavors to increase its market share in 54EC Bond market. In 2019-20, Company mobilized around Rs.852.28 crore through 54EC Bond which was a significant jump over the mobilization of Rs.187.70 crore from 54EC Bonds in the year 2018-19.

7. Redemption of Bonds / Repayment of Loans

The Directors are pleased to report that during the year under review, your Company successfully redeemed bonds and discharged its other debt obligations amounting to 57,751.83 crore in an efficient manner, without a single instance of delay or default in debt servicing. These included Bonds valued at Rs.8415.21 crore, Term Loans worth Rs. 46,315.50 crore , External Commercial Borrowings (ECB) of Rs.21.12 crore and Commercial Papers of value Rs. 3000 Crore. Your Company is set to honour obligations towards redemption of Bonds, repayment of Loans and ECBs amounting to around Rs. 16,173.32 crore during the next fiscal.

Your Company's internal generations are adequate to meet the repayment / redemption obligations. Surplus funds, if any, after meeting the repayment obligations are invested prudently in the form of Fixed Deposits with Banks.

The Company continues to maintain its impeccable track record of servicing its debt in time and there has not been a single instance of default during the year.

8. Internal Financial Control Systems & their adequacy

The Company has in place, adequate internal control systems commensurate with the nature and volume of its business. Efficient maintenance of accounts is facilitated by the executives and employees of the Company. Thereafter, the same is audited periodically by the Internal Auditors. The function of Internal Audit has been assigned to a reputed firm of Chartered Accountants. The scope of internal audit is well defined and is very exhaustive to take care of all crucial functions and business of the Company. Based on their report, steps are taken at regular intervals to further strengthen the existing systems and procedures. Their significant observations are discussed in the Audit Committee Meetings regularly. The Statutory Auditors of the Company are appointed by Comptroller and Auditor General (C&AG) of India, and the appointment is rotated periodically. Besides, the accounts of the Company are subject

to supplementary audit by the office of C&AG, as required under the Companies Act. The C&AG also conducts propriety audit of the Company. The Company has implemented Accounts Manual and Internal Audit Manual from financial year 2016-17. The Company has also implemented Manual for Procurement of Goods, Services and Works and HR Manual. The Company has also implemented a policy for temporary placement of surplus funds with the Banks in order to strengthen its cash management system. The track record of your Company with regard to handling its operational risks has been excellent.

Besides, as mandated under Companies Act, 2013, the Statutory Auditors have certified as part of their Audit Report, the effectiveness of Internal Financial Control over financial reporting.

9. RBI Prudential Norms

Your Company is registered as a Systematically Important Non-Deposit Taking Non-Banking Finance Company with the Reserve Bank of India. Being a Government NBFC, your Company was exempted from the prudential norms prescribed by Reserve Bank of India for NBFC-ND-SI, as contained in the Master Directions issued vide Notification No. DNBR.008/CGM(CDS)-2015, dated 27th March, 2015. However, the exemption was withdrawn by Reserve Bank of India from 31st May, 2018. As such, the Company has complied with the applicable prudential norms.

The Company has obtained exemption from Reserve Bank of India from the asset classification, income recognition, credit concentration and provisioning norms on the direct exposure to Ministry of Railways, Govt. of India. The Company has also obtained relaxation in respect of lending limit applicable to Railway CPSEs from 20% of its owned funds to 100% of its owned funds.

10. Lease Arrangement with the Ministry of Railways 2019-20

As you are aware, the financial relationship of the Company with the Ministry of Railways is based on a Finance Lease arrangement which is regulated by a standard lease agreement. In respect of the incremental rolling stock assets acquired during

2019-20 through IRFC funding, lease rentals have been fixed at Rs. 54.8928 per thousand per half year (PTPH) over a primary lease tenor of 15 years. The cost (IRR) to Ministry of Railways is 7.77% p.a. payable semiannually as compared to 8.49% last year, down by 72 bps. Viewed in the context of significant increase in the annual borrowing target clocking a year-to-year growth of more than 34% and huge uncertainty prevailing in the market caused by COVID-19 pandemic during the latter part of the FY 2019-20, the pricing is considered very attractive for the Ministry.

11. Resource Mobilisation for 2020-21

In the Budget for 2020-21, the annual borrowing target for IRFC has been fixed at Rs. 58,000 crore which includes Rs. 29,300 crore for funding of Rolling Stock assets and funding of Railway projects through Institutional Finance to the extent of Rs.28,000 crore. A target of Rs. 700 crore for meeting the debt funding requirements of RVNL has also been given.

The Company is confident of meeting the challenge and hopeful to raise the required amount during the year through a judicious mix of Bonds, Loans and External Commercial Borrowings, etc., at the most competitive rates and terms.

12. Management Discussion and Analysis and Company's Outlook for the future

Your Directors take pleasure in sharing with you their perception that business of the Company stands on a sound platform and is running well. The robust business model involving strong and mutually beneficial relationship with MoR has become its unique forte. The business of the Company with the Ministry has grown considerably during the last ten years. From an annual target of Rs. 2,957 crore in 2004-05, the final borrowing target assigned for the year 2019-20 was at Rs. 70,471.96 crore. The trend characterized by around twenty-four-fold increase in annual borrowing target with a CAGR of 13.52% over the last twenty-five years is likely to continue.

Being the dedicated market borrowing arm of the Ministry of Railways, your Company constantly strives to raise funds from the financial market at the most competitive rates and terms. The interest rate remained benign during the major part of the year due to change in monetary policy stance from calibrated tightening to neutral in Feb, 2019 and then to accommodative from June, 2019. During the period up to Dec, 2019, policy repo rate was cumulatively cut by 135 bps. However, during the later part of the year, the market remained highly volatile due to the pandemic COVID-19 which led to unprecedented liquidity crunch, temporary spike in the interest rate and widening of corporate spreads. In spite of the fact that your Company was mandated a mammoth final borrowing target in excess of Rs.70,000 Crore and upward revision in the mandate from the original target of Rs.54,471 Crore was communicated to the Company only towards the end of the financial year, the Company had to manoeuvre its borrowing programme meticulously in an adverse macroeconomic environment which helped in maintain its unflinching commitment to making funds available to the Railways at the most competitive possible pricing.

In the Annual Report of Financial Year 2015-16, it was reported that MoR had tied up a loan of Rs.1,50,000 crore with Life Insurance Corporation of India (LIC), to be drawn in tranches over a period of five years for their project funding requirement. It was also reported that IRFC had been entrusted with the job of borrowing the funds from LIC on MoR's behalf.

Under the arrangement, amount totaling to only Rs. 20,500 crore, could be drawn from LIC from 2015-16 to 2019-20 due to its exposure limit constraint as per IRDAI Guidelines.

In the Union Budget for the year 2017-18, the Government had announced listing of shares of your Company on bourses. As a pre-requisite for listing, the public shareholding of such companies has to be not less than 25%, which is to be achieved within a period of three years. The Company had filed the DRHP with the Securities and Exchange Board of India and had completed the roadshows in the prominent

domestic and international financial centers. However, the IPO was postponed at the last moment, due to the unprecedented crash of the stock market in the aftermath of the COVID-19 pandemic. However, post corrections in the stock market and renewed interest of Foreign Portfolio Investors (FPIs) for investment in India, the Company has restarted the process of IPO.

13. Impact of Global Health Pandemic COVID-19

The outbreak of Coronavirus (COVID-19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. The Company has adopted measures to curb the spread of infection in order to protect the health of our employees and ensure business continuity with minimal disruption.

The Company has evaluated impact of this pandemic on its business operations and based on its review and current indicators of future economic conditions, there is no significant impact on its financial results. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration and accordingly, the impact may be different from that estimated as at the date of approval of these financial statements. The Company will continue monitoring any material change to future economic conditions.

14. Report on Corporate Governance

The Government considers good corporate governance practices a *sine qua non* for sustainable business that aims at generating long term value for its shareholders and all other stakeholders. Accordingly, it has been laying increasing emphasis upon development of best corporate governance practices amongst Central Public Sector Enterprises (CPSEs). In pursuance of this philosophy, your Company continues to comply with the 'Guidelines on Corporate Governance for Central Public Sector Enterprises' issued by Government of India, Ministry of Heavy Industries and Public Enterprises, Department of Public Enterprises (DPE) in May, 2010. A few items in those Guidelines, which your Company is not in a position to adopt mainly because they do not apply to it, have been outlined' together with reasons for non-compliance

thereof, in the Report on Corporate Governance. Your Company's Non-Convertible Debt Securities are listed on the stock exchanges and Company has complied with Chapter V of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. Report on Corporate Governance is enclosed as Annexure- I forming part of this report.

15. Corporate Social Responsibility

Activities relating to Corporate Social Responsibility (CSR) have now become an integral part of Company's operations.

In terms of Section 135 of the Companies Act, 2013 (the Act), read with Schedule VII thereof and also the CSR Rules, the Company has constituted a CSR Committee (the Committee) comprising Independent Directors, the Chairman & Managing Director and Director Finance, with an Independent Director as the Chairman of the Committee. Under the Act, the Company is required to spend at least two percent of the average of its net profits of the three immediately preceding financial years on CSR activities. The Department of Public Enterprises (DPE) has also issued guidelines in this regard which, inter alia, require the Central Public Sector Enterprises (CPSEs) to frame a 'CSR and Sustainability Policy'.

The 'CSR and Sustainability Policy' of the Company is in place and the same has also been hosted on its website. The Company, like in the past, has undertaken activities for Sustainable Development and CSR, details of which are given hereunder: -

During the year 2019-20, the Company was required to spend Rs. 50.52 crore, being 2% of its average net profits of the last three years, on CSR activities, against which the Company has disbursed a sum of Rs. 34.10 crore and the balance amount of Rs 16.42 crore would be disbursed on receipt of claims from the implementing agencies in future. The Company was committed to Education and Health care as the theme for focused intervention as mandated by Department of Public Enterprises.

Following are the details of Rs. 34.10 Crore disbursed by the Company: -

Rs 34.06 crore was contributed to PM Cares Fund and Rs. 0.04 crore was disbursed for 100 corrective cleft surgeries.

CSR Activities proposed during 2020-21

During the year 2020-21, the Company is required to spend about Rs. 61.23 crore. Preliminary study on projects is being undertaken. The details of all the projects / activities would be provided in the next Annual Report.

The details of CSR activities as required under the Companies Act are given in the Annexure – II.

16. Directors' Responsibility Statement

As required under Section 134(3)(c) of the Companies Act, 2013, it is confirmed that:

- a) In the preparation of the annual accounts, the applicable Indian Accounting Standards have been followed and there are no material departures;
- b) Accounting policies have been re-drafted taking into account the Ind-AS, judgments and estimates made are reasonable and prudent, so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit or loss of the Company for that period;
- c) Proper and sufficient care has been taken for maintenance of adequate accounting records, in accordance with the provisions of the Companies Act, 2013, for safeguarding the assets of the Company and for preventing and detecting fraud or other irregularities; and
- d) Annual accounts have been prepared on 'going concern' basis.
- e) The laid down internal financial controls to be followed by the Company and such internal financial controls are adequate and operating effectively.
- f) Proper systems have been devised to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

17. Human Resource Management

Performance level of your Company has been consistently high despite the fact that it consciously maintains a very lean workforce reflected in its low overhead to turnover ratio of around 0.10%.

In order to further strengthen the Organization Structure for coping with the additional workload due to manifold increase in the annual borrowing target mandated by MoR and significant increase in compliance requirements in the aftermath of implementation of the Companies Act, 2013, SEBI (LODR) Guidelines, migration to IND-AS and introduction of GST, the Company got a study conducted by the Management Development Institute (MDI). Besides, the IPO and listing of its equity shares are to take place shortly which is expected to make the compliance process more stringent. Based on the report submitted by MDI, the Company is planning to increase the employee strength suitably in a phased manner to meet the new challenges.

High levels of efficiency exhibited by the Company's dedicated workforce would not have been possible but for the Company laying deep emphasis on upgrading skills of its employees and keeping them abreast of latest developments and industry practices. The Company is committed to enhancing the professional expertise of all its employees. As a matter of general practice, the Company relies on training programmes involving assessment of training needs and providing necessary inputs to Company personnel, including through customised training programmes.

The Directors are also imparted training on a need-based manner. Shri Kishore J. Devani, Independent Director, attended workshop on 'NBFCs on 13th December, 2019, at Mumbai. The main focus of the training was to make the Directors aware of the best corporate governance practices.

While selecting the training programme, the Company lays emphasis on development of skill and knowledge of its executives in the new vistas of Finance and Information Technology, besides developing the leadership and managerial skills for the future.

18. Statutory Auditors & Secretarial Auditors

M/s KBDS & Company, Chartered Accountants, have been appointed as Statutory Auditors by Comptroller & Auditor General of India to audit the accounts of the Company for the year 2020-21.

Secretarial Audit under Section 204 of the Act has been conducted by M/s Navneet K Arora & Co LLP, Company Secretaries, the existing Secretarial Auditors.

Reports of the Secretarial and Statutory Auditors in this regard are enclosed as Annexure- III & Annexure- IV which form part of this Report.

Your Company complies with all applicable mandatory secretarial standards issued by the Institute of Company Secretaries of India.

19.7. Risk Management

Effective risk management is central to ensuring a robust and healthy finance for the Company. While in risk management, credit risk is accorded high priority amongst various risk mitigation efforts of a business, this is virtually non-existent in the case of your Company, in as much as, an overwhelming segment of its assets is in the form of lease receivables from the Ministry of Railways, carrying zero risk. The Company's selective forays into other areas in the form of loans to Rail Vikas Nigam Limited and IRCON International Limited are suitably ringfenced, as the same has either the cash flows originating from the Ministry of Railways or there is a repayment assurance by Ministry of Railways.

Ordinarily, a company carrying out its business with predominantly single client, might be viewed as being faced with a potential threat. However, in the case of your Company, the single client is the owner, who also happens to be the sovereign itself. By virtue of consistently funding about 25% to 30% of plan outlay of the Ministry of Railways, IRFC commands a position of strategic importance for the Ministry. In the year 2019-20, your Company funded about 44% of plan outlay of Ministry of Railways. Funding provided by IRFC has been at a competitive cost which is considered attractive by the Ministry. Your Company has logged an annual growth rate of over 28% over a sustained period of time. With strong indications of an even larger role being expected by the Ministry from IRFC in its efforts at augmenting rail infrastructure in the country, your Directors consider the Company is comfortably placed in the matter of Business Risk it is exposed to.

Given the carefully drafted provisions in the Lease Agreement signed by IRFC with MoR every year, there is a very good matching of the interest rate sensitivity profile of its assets and liabilities. In the circumstances, exposure of the Company to Interest Rate Risk is negligible. Further, for the Railway Projects financed through Institutional

Finance, it is proposed to adopt the lease structure akin to the structure of borrowing which will minimise the liquidity and interest rate risk.

The cash flows of your Company are highly predictable, shielding it largely against liquidity related issues even in a volatile market. Besides, with the quality of credit, Company commanding a high level of respect amongst investors, both domestic and international, the Liquidity Risk in the case of IRFC is perceived at a very low level.

Although the foreign exchange fluctuation risk is pass through to MoR, still your Company has consistently been adopting prudent, efficient and cost-effective risk management strategies to safeguard its operations against Exchange Rate Variation risk on its overseas borrowings. The Company strives to eliminate at opportune time the exchange rate variation risk in respect of principal repayments. Timing is important in such hedging transactions. The Company recognises the fact that contracting a hedge at a time subsequent to the drawdown does not expose it to any undue risk because of longer maturities. The Risk Management Committee regularly monitors the Foreign Exchange Exposure. In accordance with the policy, the Company has hedged part of its foreign currency exposure thereby mitigating the exchange rate fluctuation risk to that extent.

Some of the outstanding foreign currency borrowings of the Company with tenor longer than five years are either having bullet repayment or amortised repayment in half-yearly instalments. As a result of amortized repayments, the risk gets significantly mitigated by virtue of repayments taking place progressively at different points of time. Keeping in view the volatility in the foreign exchange markets, the Company has been taking recourse to selective hedging of the ECBs outstanding both on principal and interest amount. With a view to effectively supplementing its in-house expertise on the matter, your Company usually resorts to external expert advice from reputed professional consultants, while taking hedging decisions.

Reserve Bank of India (RBI) has made it mandatory for all the Banks offering derivative products to ensure that all their clients who have business dealings must obtain certification regarding adoption of Risk Management Policy duly approved by their Board of Directors. In compliance with the RBI Guidelines, Board-approved Risk Management Policy is in place. The Company also has constituted Risk Management Committee which comprises Chairman & Managing Director and Director Finance.

The proceedings of meetings of the Risk Management Committee were regularly placed in the meetings the Board of Directors. Terms of reference of the Risk Management Committee: -

- a. Carry out responsibilities as assigned by the Board.
- b. Monitor and Review Risk Management Plan as approved by the Board.
- c. Review and Recommend Risk Assessment Report and Risk Management Report for approval of the Board.
- d. Ensure that appropriate system of risk management is in place.
- e. Oversee recent developments in the Company and periodic updating of Company's Enterprise Risk Management Program for assessing, monitoring and mitigating the risks.
- f. Periodically, but not less than annually, review the adequacy of the Company's resources to perform its risk management responsibilities and achieve objectives.

The Company has constituted sub-committee of Risk Management Committee to assess and mitigate the foreign exchange fluctuation risk and interest rate risk in External Commercial Borrowings. Minutes of the meetings of the Sub-committee along with the action taken are placed before the Risk Management Committee.

For effective monitoring, control and mitigation of financial risk arising due to mismatch in the Asset Liability position, the Company has formed an Asset Liability Management Committee (ALCO) comprising chairman & Managing Director, Director Finance and Senior Level Officers. The ALCO generates various reports as prescribed

by RBI for monitoring the liquidity and interest rate risks and place the same before the Risk Management Committee from time to time. The terms of reference of ALCO Committee: -

- a. Balance sheet planning from risk return perspective including the strategic management of interest rate and liquidity risks.
- b. Whether the limits/parameters set by Board have been breached.
- c. Desired maturity profile and mix of the incremental assets and liabilities, prevailing interest rates offered by other peer NBFCs for the similar services/product, etc
- d. The results of and progress in implementation of the decisions made in the previous meetings.
- e. View on the current interest rate and base its decisions for future business strategy on this view
- f. A view on future direction of interest rate movements and decide on funding mixes between fixed vs. floating rate funds, wholesale vs retail deposits, money market vs. capital market funding, domestic vs. foreign currency funding, etc

ANNEXURE – I

Report on Corporate Governance

Indian Railway Finance Corporation Limited (IRFC) is a Central Public Sector Enterprise (CPSE). Its entire paid up share capital is held by the President of India and his nominees. It is also a listed Company in the sense that its Bonds are listed on the Wholesale Debt Market (WDM) segment of the National Stock Exchange of India Limited and Bombay Stock Exchange Limited, Mumbai.

IRFC is in compliance with relevant provisions contained in the Guidelines on Corporate Governance for Central Public Sector Enterprises (hereinafter referred to as Government Guidelines), issued by Department of Public Enterprises, Ministry of Heavy Industries and Public Enterprises, Government of India. The Company is also complying with the Circular, to the extent applicable, dated 1st July, 2015 issued by Reserve Bank of India under their Master Circular – “Non-Banking Financial Companies – Corporate Governance (Reserve Bank) Directions, 2015”. In this connection, relevant details are furnished below: -

Company’s Philosophy on the Code of Governance

The Company looks upon Corporate Governance as an enterprise-wide endeavour targeted at value creation in the form of striking optimum balance between the profit it earns for its Shareholders and the spread it charges from Ministry of Railways on the cost of funds transferred to them. This is sought to be achieved by conducting the business in a professional manner, using a combination of delegation and accountability amongst key executives in the Company; focussed attention and transparency in operations of the Company; skill upgrades through need-based training, etc.; and high level of investor / lender satisfaction through timely debt servicing and grievance settlement.

To foster best Corporate Governance practices, the Company has formulated a “Code of Business Conduct and Ethics for its Board Members and Senior Management” in

June, 2008, which seeks to bring high level of ethics and transparency in managing its business affairs. The same has also been posted on the website of the Company (www.irfc.nic.in).

Affirmation by all Directors and senior Officers of the Company to the effect that they have complied with and not violated the Code is required to be obtained at the end of each year. The requirement stands fulfilled for 2019-20. A declaration to this effect, duly signed by the Managing Director (CEO), is at Annexure-VI and forms part of Directors Report.

Board of Directors

As at the end of financial year, there are 7 (Seven) Directors on the Board of the Company. Besides Managing Director and Director Finance, Four Independent Director(s), one Government Director, are also in position. Secretarial Audit

In terms of the Corporate Governance Voluntary Guidelines, Secretarial Audit of the Company was got conducted by an independent practicing firm of Company Secretaries, M/s Navneet K Arora & Co LLP, New Delhi, which is also required as per Section 204 of the Companies Act, 2013.

The Report was taken on record by the Board of Directors in their Meeting held on 24th August, 2020.

Corporate Governance Voluntary Guidelines issued by Ministry of Corporate Affairs – Items not adopted

The Company has not adopted the following Voluntary Guidelines as the same are not relevant to its functioning for the reasons explained against each item: -

Guideline Nos.1.A.3(i),(iii), (iv) and B.1.(i) regarding constitution of Nomination & Remuneration Committee for search and selection of Non-executive and Independent Directors.

Rationale: The Nomination & Remuneration Committee has since been constituted. Scope of work of the Committee is as envisaged under applicable provisions of the Section 178 of the Companies Act, 2013 (the Act) read with the exemptions granted by the Government of India vide their Notification dated 5th June, 2015. The scope of work of the Nomination & Remuneration Committee is, inter alia, to formulate the criteria for determining qualifications, positive attributes and independence and recommend to Board a policy, relating to the remuneration for senior management (one level below Board level) and other employees (not being Directors). Since the Directors on the Board of IRFC are appointed by the Government, the Committee will have no role in search and selection of Non-executive and Independent Directors.

Guideline No. 1.C.1 containing Guiding Principles related to Linking of Corporate and Individual Performance while determining level and composition of remuneration payable to the Executive Directors and Key Executives.

Rationale: This clause is not applicable to IRFC as Executive Directors and Key Executives are on pay scale(s) prescribed by the Government. Similarly, performance related incentives are also granted in line with orders of the Government. Also, the Government Companies are exempt from applicability of Section 197 of the Act provisions of which, after exemption, inter alia, are similar to above Guidelines.

Guideline No.1.C.1.2. and 1.C.1.3 about remuneration of Non- executive Directors (NEDs) and structure of compensation to NEDs.

Rationale: These clauses are also not applicable to IRFC as NEDs are not paid any remuneration, sitting fee, etc. in line with the Government Orders.

Guideline Nos. C.2. (ii), (iii), (iv) and (v) in regard to determination of remuneration of Executive Directors and executive Chairman, etc. and informing the principles, criteria and the basis of remuneration policy of the Company to the Shareholders.

Rationale: These clauses are not applicable to IRFC as payment of remuneration to the Executive Directors and employees of the Company is governed under the Government Rules and Guidelines.

Guideline No. II. D related to Evaluation of performance of Board of Directors, Committees thereof and of individual Directors.

Rationale: This clause is not applicable to IRFC as vide notification no. G.S.R. 463(E) dated 5th June, 2015 Section 178 (2) in respect of Evaluation of performance of Board of Directors, Committees thereof and of individual Directors shall not apply to Government Company.

Guideline No. II. E (iii) related to attachment of 'Impact Analysis on Minority Shareholders' along with every agenda item at the Board Meeting.

Rationale: This is not applicable to IRFC as its entire Paid-up Share Capital is held by the Government of India.

Guideline No. III. C. i (third sub-clause) regarding recommendations by the Audit Committee in relation to the appointment, reappointment, removal and terms of engagement of the external auditor.

Rationale: This clause is not applicable in so far as appointment of the external auditor is made by the Office of the Comptroller and Auditor General of India. However, the Audit Committee gives its recommendation on fixation of external auditor's remuneration and out of pocket expenses.

Guideline No. IV.A & C related to role of Audit Committee in Appointment of the Auditors and Rotation of Audit Partners & Firms.

Rationale: This clause is not applicable as being a Government owned Company appointment of the Auditors is made by the Office of the Comptroller and Auditor General of India.

The Annual Report on CSR activities to be included in the Board's Report

1. A brief outline of the Company's CSR Policy, including overview of projects or programs proposed to be undertaken and a reference to the web link to the CSR Policy and project or programs.

Vision of the Company's CSR & Sustainability Policy is to address social, economic and environmental concerns of the society in a sustainable manner. This would enable the Company to achieve its mission of clean, green, educated and capable India.

Since the Company operates with nominal staff strength of 24 employees only, its endeavour would be to take up short term activities, which can be completed within one year. However, long term projects, if any, would be divided into annual plans and targets. Further, the projects would be taken on pan India basis as the Company does not have any local area of operation. For large projects having greater social, economic and environmental impact, the Company would share pool of resources with other Railway / Central Public Sector Enterprises. Due importance would be given to such activities, which are peripheral to the activities of Indian Railways.

The projects would be implemented through the entity(s) having an established track record of three years in undertaking similar programs or project but the endeavor would be to appoint Central or State Government / Agency / Department of Public Sector Undertaking for implementation. Impact Assessment shall be done where value of project is Rs. 5 crore or more.

If any amount remains unspent or surplus arises out of the CSR projects in a particular year, the same shall be carried forward to next year and shall not form part of the business profits of the Company.

Auditors' Certificate on Compliance of Conditions of Corporate Governance

To,
The Members of Indian Railway Finance Corporation Limited

We have examined the compliance of the conditions of Corporate Governance by Indian Railway Finance Corporation Limited (the "Company") for the year ended March 31, 2020.

The compliance of the conditions of Corporate Governance is the responsibility of the Management. Our examination has been limited to a review of the procedures and implementation thereof adopted by the Company for ensuring compliance with the conditions of Corporate Governance as stipulated in the said Clause. It is neither an audit nor an expression of opinion of the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given us and the representations made by the Directors and the Management, as required in terms of Simplified Debt Listing Agreement and Guidelines on Corporate Governance for Central Public Sector Enterprises, 2010, issued by Government of India, we certify that the Company had complied, in all material respects, with the conditions of Corporate Governance as stipulated herein.

We further state that such compliance is neither an assurance as to the future viability of the Company nor of the efficiency of effectiveness with which the Management has conducted the state of affairs of the Company.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Indian Railway Finance Corporation Limited

CIN U65910DL1986GOI026363

Statement of significant accounting policies

1. Background

Indian Railway Finance Corporation Ltd., referred to as "the Company" or "IRFC" was incorporated by the Government of India, Ministry of Railways, as a financing arm of Indian Railways, for the purpose of raising the necessary resources for meeting the developmental needs of Indian Railways. The Company's principal business is to borrow funds from the financial markets to finance the acquisition / creation of assets which are then leased out to the Indian Railways as finance lease. IRFC is a Schedule 'A' Public Sector Enterprise under the administrative control of the Ministry of Railways, Govt. of India. It is also registered as Systemically Important Non-Deposit taking Non Banking Financial Company (NBFC – ND-SI) and Infrastructure Finance Company (NBFC- IFC) with Reserve Bank of India (RBI). The President of India along with his nominees holds 100% of the equity share capital.

The registered address and principal place of business of the Company is Upper Ground Floor, East Tower, NBCC Place, Pragati Vihar, Lodhi Road, New Delhi - 110003.

2. Significant Accounting Policies

A summary of the significant accounting policies adopted in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

2.1 Statement of Compliance

The financial statements have been prepared on going concern basis following accrual system of accounting in accordance with the Indian Accounting Standards ('Ind AS') notified under the Companies (Indian Accounting Standards) Rules 2015 and subsequent amendments thereto, read with Section 133 of the Companies Act, 2013 and other Accounting principles generally accepted in India.

2.2 Basis for preparation of financial statements

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Unless otherwise stated, all amounts are stated in Millions of Rupees.

Historical cost is the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire assets at the time of their acquisition or the amount of proceeds received in exchange for the obligation, or at the amounts of cash or cash equivalents expected to be paid to satisfy the liability in the normal course of business.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. Fair value for measurement and/or disclosure purpose in these financial statements is determined on such basis except for, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value.

In addition, for financial reporting purposes fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs for the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

- Level 1 -Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 -Inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3- inputs are unobservable inputs for the asset or liability.

2.3 Use of estimates

The preparation of financial statements requires management to make judgments, estimates and assumptions that may impact the application of accounting policies and the reported value of assets, liabilities, income, expenses and related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date. The estimates and management's judgments are based on previous experience & other factors considered reasonable and prudent in the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In order to enhance understanding of the financial statements, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is as under:

a) Formulation of accounting policies

The accounting policies are formulated in a manner that results in financial statements containing relevant and reliable information about the transactions, other events and conditions to which they apply. Those policies need not be applied when the effect of applying them is immaterial.

b) Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

IRFC SIGNIFICANT ACCOUNTING POLICIES

c) Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37 'Provisions, contingent liabilities and contingent assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

d) Income taxes

Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/ recovered for uncertain tax positions.

2.4 Revenue

Company's revenues arise from lease income, interest on lease advance, loans, deposits and investments. Revenue from other income comprise dividend from investment in equity shares and other miscellaneous income etc.

Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Finance lease income in respect of finance leases is allocated to the accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease. (Also see accounting policy on leases at 2.14).

Interest income from financial assets is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Pre-commencement lease-interest income is determined based on the MOU entered with Ministry of Railways and when it is probable that the economic benefits will flow to the Company and the amount can be determined reliably.

Dividend income is recognized in profit or loss only when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

2.5 Foreign Currency Transaction

Functional and presentation currency

Items included in the financial statements of entity are measured using currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is entity's functional and presentation currency.

Transactions and Balances

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item.

2.6 Employee Benefits

Defined contribution plan

A defined contribution plan is a plan under which the Company pays fixed contributions into an independent fund administered by the government/Company administrated Trust. The Company has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution.

Defined benefit plan

The defined benefit plans sponsored by the Company define the amount of the benefit that an employee will receive on completion of services by reference to length of service and last drawn salary. Gratuity is in the nature of a defined benefit plan. The liability recognised in the financial statements in respect of the plan is the present value of the defined benefit obligation net of fair value of plan assets at the reporting date, together with adjustments for unrecognised actuarial gains or losses and past service costs. The defined benefit obligation is calculated at the reporting date by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are credited or charged to the statement of Other Comprehensive Income in the period in which such gains or losses are determined.

Other long-term employee benefits

Liability in respect of compensated absences becoming due or expected to be availed more than one-year after the balance sheet date is estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

2.7 Taxation

Tax expense comprises Current Tax and Deferred Tax.

Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax is recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current tax is also recognised in other comprehensive income or directly in equity respectively.

The Company is exercising the irrevocable option as permitted by section 115BAA of the Income – tax Act, 1961 whereby by foregoing certain exemptions, deductions and allowances, the tax rate applicable to the Company is lower than the normal tax rate that would have been otherwise applicable to the Company. Henceforth, minimum alternate tax provisions of section 115JB of the Income – tax Act, 1961 are not applicable to the Company.

Deferred Tax

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Till 31.3.2017

Deferred tax is recognized in profit or loss except to the extent that it relates to items recognized directly in Other Comprehensive Income or equity, in which case it is recognized in Other Comprehensive Income or equity.

IRFC SIGNIFICANT ACCOUNTING POLICIES

After 31.3.2017

The Company does not recognize deferred tax asset or deferred tax liability because as per Gazette Notification no. S.O. 529(E) dated 5th February 2018 as amended by notification no. S.O. 1465 dated 2 April 2018 issued by Ministry of Corporate Affairs, Government of India, the provision of Indian Accounting Standards 12 relating to Deferred Tax Assets (DTA) or Deferred Tax Liability (DTL) does not apply to the Company w.e.f. 1 April 2017.

Change in accounting policy / retrospective application

As stated above, the Company has not recognized any deferred tax asset or liability for the accounting period commencing on or after 1st April 2017 as per Gazette Notification no. S.O. 529(E) dated 5th February 2018 as amended by notification no. S.O. 1465 dated 2 April 2018 issued by Ministry of Corporate Affairs, Government of India. However, deferred tax liability of Rs. 64,431.40 Million recognized till 31st March 2017 was not reversed and was presented under Non – Financial Liabilities in the Balance Sheet as advised by Ministry of Corporate Affairs, Government of India vide their communication no. Eoffice F.No.17/32/2017 – CL – V dated 26th November 2018. However, based on Company's request, the Ministry of Corporate Affairs, Government of India again examined the matter in consultation with Accounting Standards Board of the Institute of Chartered Accountants of India & National Financial Reporting Authority and vide their communication no. Eoffice F.No.17/32/2017 – CL – V dated 20th March 2020 advised the Company to apply paragraph 11 of Ind AS 01, First Time adoption of Ind AS read with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors. Accordingly, the Company has during the current financial year reversed the deferred tax liability of Rs. 64,431.40 million by crediting the retained earnings as at 1st April 2017 being the date of transition to Ind AS treating this as a change in accounting policy that results in the financial statements providing reliable and more relevant information about the effects of the transactions, other events or conditions on the entity's financial position, financial performance or cash flows.

This being retrospective application, therefore in accordance with paragraph 40A of Ind AS 1, Presentation of Financial Statements, the Company has presented a third balance sheet at the beginning of the preceding period.

Due to this retrospective application, in the Balance Sheet, the line item 'Deferred Tax Liability' under 'Non – Financial Liabilities' is now stated at Rs. Nil as against Rs. 64,431.40 million with a corresponding increase in 'Retained Earnings' under 'Other Equity' as at the end of the current period, comparative period & beginning of the comparative period, this retrospective applied being applied since 1st April 2017, the date of transition. There is no impact on earnings per share either of the current period or the comparative period.

The retrospective application has no impact in future periods.

IRFC SIGNIFICANT ACCOUNTING POLICIES

2.8 Property, Plant and Equipment (PPE)

An item of property, plant and equipment is recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Items of property, plant and equipment are initially recognized at cost. Subsequent measurement is done at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipment have different useful lives, they are recognized separately.

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

De-recognition

Property, plant and equipment is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on de-recognition of an item of property, plant and equipment are determined by comparing the proceeds from disposal, if any, with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

Depreciation

Depreciation on property, plant and equipment has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

2.9 Intangible assets

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets that are acquired by the Company, which have finite useful lives, are recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

IRFC SIGNIFICANT ACCOUNTING POLICIES

De-recognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains & losses on de-recognition of an item of intangible assets are determined by comparing the proceeds from disposal, if any, with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

Amortization

Software is amortized over 5 years on straight-line method.

2.10 Borrowing costs

Borrowing costs consist of interest expense calculated using the effective interest method as described in Ind AS 109 'Financial Instruments' and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs that are directly attributable to the acquisition, construction/development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which necessarily take substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of all borrowing that are outstanding during the period and used for the acquisition, construction/exploration or erection of the qualifying asset.

Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete.

All other borrowing costs are recognized as an expense in the year in which they are incurred.

2.11 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.12 Provisions, contingent liabilities and contingent assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material,

IRFC SIGNIFICANT ACCOUNTING POLICIES

provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance costs.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

2.13 Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

IRFC SIGNIFICANT ACCOUNTING POLICIES

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.14 Leases

Till 31st March 2019, the Company had adopted Ind AS 17, Leases. In March 2019, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) Amendment Rules, 2019 notifying Ind AS 116, Leases and withdrawing Ind AS 17, Leases. Ind AS 116 is effective from accounting periods beginning from 1st April 2019.

Ind AS 116 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognizes a right of use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the erstwhile standard – i.e. lessors continue to classify leases as finance or operating leases. The Company has applied the transition provisions as mentioned in Appendix C to Ind AS 116. There is no financial impact on the Company on adoption of Ind AS 116.

At inception of a contract, the Company assesses whether the contract is, or contains a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessor

The Company classifies each of its leases as either an operating lease or a finance lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. The depreciation policy for depreciable underlying assets subject to operating leases is consistent with the Company's normal depreciation policy for similar assets.

Contingent rents are recognised as revenue in the period in which they are earned.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Company as a lessee

At the contract commencement date, the Company recognizes right – of – use asset and a lease liability. A right – of – use asset is an asset that represents a lessee's right to use an underlying asset for the lease term. The Company has elected not to apply the aforesaid requirements to short term leases (leases which at the commencement date has a lease term of 12 months or less) and leases for which the underlying asset is of low value as described in paragraphs B3 – B9 of Ind AS 116.

A right of use asset is initially measured at cost and subsequently applies the cost mode ie less any accumulated depreciation and any accumulated impairment losses and adjusted for any remeasurement of lease liability. Ind AS 16, Property, Plant and Equipment is applied in depreciating the right – of – use asset.

A lease liability is initially measured at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the Company's incremental borrowing rate is used. Subsequently, the carrying amount of the lease liability is increased to reflect interest on lease liability; reduced to reflect the lease payments; and remeasured to reflect any reassessment or lease modifications or to reflect revised in – substance fixed lease payments.

2.15 Securitisation of Finance Lease Receivable

Lease Receivables securitised out to Special Purpose Vehicle in a securitisation transactions are de-recognised in the balance sheet when they are transferred and consideration has been received by the Company.

The resultant gain/loss arising on securitization is recognised in the Statement of Profit & Loss in the year in which transaction takes place.

Lease Receivables assigned through direct assignment route are de-recognised in the balance sheet when they are transferred and consideration has been received by the Company. Profit or loss resulting from such assignment is accounted for in the year of transaction.

2.16 Leasing of Railway Infrastructure Assets

In terms of Indian Accounting Standard 116, the inception of lease takes place at the earlier of the date of the lease agreement and the date of a commitment by the parties to the principal provisions of the lease.

IRFC SIGNIFICANT ACCOUNTING POLICIES

The commencement of the lease term is the date from which the lessee is entitled to exercise its right to use the leased asset. It is the date of initial recognition of the lease.

As such, in respect of Railway Infrastructure Assets, which are under construction and where the Memorandum of Understanding / terms containing the principal provisions of the lease are in effect with the Lessee, pending execution of the lease agreement, the transactions relating to the lease are presented as 'Advances against Lease of Rly. Infrastructure Assets'

2.17 Dividends

Dividends and interim dividends payable to the Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

2.18 Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

2.19 Earnings per share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

2.20 Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of cash flows'.

2.21 Operating Segments

The Managing Director (MD) of the Company has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108, "Operating Segments".

The Company has identified 'Leasing and Finance' as its sole reporting segment.

IRFC SIGNIFICANT ACCOUNTING POLICIES

2.22 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.22.1. Financial Assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset.

Subsequent measurement

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at Fair value through Other Comprehensive Income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange

IRFC SIGNIFICANT ACCOUNTING POLICIES

gain or loss in the profit and loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to profit and loss.

Debt instrument at Fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to classify a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in entities other than subsidiaries and joint venture companies are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable. The Company has decided to classify its investments into equity shares of IRCON International Limited through FVTOCI.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- (a) Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, debt securities, deposits and bank balance.
- (b) Financial assets that are debt instruments and are measured as at FVTOCI.
- (c) Lease receivables under Ind AS 116.
- (d) Loan commitments which are not measured as at FVTPL.
- (e) Financial guarantee contracts which are not measured as at FVTPL.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

2.22.2. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to borrowings, trade payables and other contractual liabilities.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risks are recognized in OCI. These gains/losses are not subsequently transferred to profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit and loss.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Derivative financial instruments

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts, cross currency swaps and interest rate swaps to hedge its foreign currency risks and interest rate risks of foreign currency loans. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken to statement of profit and loss. Where the derivative is designated as a hedging instrument, the accounting for subsequent changes in fair value depends on the nature of item being hedged and the type of hedge relationship designated. Where the difference is a pass through the lessee, the amount is received/reimbursed to the lessee.

IRFC SIGNIFICANT ACCOUNTING POLICIES

2.23 New amended standards:

In March 2019, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, 2019, notifying Ind AS 116, Leases and consequential amendments to various Ind AS standards. The amendments are effective from accounting periods beginning from 1st April 2019.

Ind AS 116 Leases

The Company is required to adopt Ind AS 116, Leases from 1 April 2019. Ind AS 116 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognizes a right of use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard – i.e. lessors continue to classify leases as finance or operating leases. It replaces existing leases guidance, Ind AS 17, Leases.

The Company is a lessor wherein it has given assets on finance lease to Ministry of Railways. The lessor accounting under Ind AS 116 is similar to Ind AS 17. The Company has not taken any asset on operating lease. Introduction of Ind AS 116 has no impact on the Company with respect to recognition & measurement of finance lease except some additional disclosure requirements.

The Ministry of Corporate Affairs, Government of India in July 2020 vide Companies (Indian Accounting Standards) Rules 2020 inserted a practical expedient which permits lessees not to account for Covid – 19 related rent concessions as a lease modification. As the Company has not availed any Covid 19 related rent concessions, the practical expedient has no applicability on the Company's financial statements.

Key Amendments to other Ind AS:

Ind AS 12, Income Taxes

Recognition of income tax consequences of dividends:

Clarifies that the income tax consequences of distribution of profits (i.e. dividends), should be recognized when a liability to pay dividend is recognized. The income tax consequences should be recognized in the statement of profit and loss, other comprehensive income or equity according to where the past transactions or events that generated distributable profits were originally recognized. The Company has no impact on application of this amendment on the Company's financial statements.

Ind AS 19, Employee Benefits

Clarifies that when a plan amendment, curtailment or settlement occurs:

The updated actuarial assumptions used in remeasuring the plan are applied to determine the current service cost and net interest for the remainder of the annual reporting period and the effect of the asset ceiling is disregarded when calculating the gain or loss on any settlement of the

IRFC SIGNIFICANT ACCOUNTING POLICIES

plan and is dealt with separately in Other Comprehensive Income. The Company has no impact on application of this amendment on the Company's financial statements.

Ind AS 109, Financial Instruments

Prepayment Features with Negative Compensation:

It allows particular financial assets with prepayment features that may result in negative compensation - e.g. the lender receives less than the par-amount and accrued interest and effectively compensates the borrower for the borrower's early termination of the contract - to be measured at amortized cost or at Fair Value through Other Comprehensive Income (FVOCI) (subject to the business model assessment). Before the amendments, these instruments were measured at Fair Value through Profit and Loss (FVTPL) because the solely payment of principal and interest (SPPI) criterion would not be met when the party that chooses to terminate the contract early may receive compensation for doing so. The amendments clarify that irrespective of the event or circumstance that causes the early termination of the contract, either party may pay or receive reasonable compensation for that early termination. The amendments remove the requirement for the compensation to be 'additional'. Accordingly, a prepayment amount that is less than the unpaid amounts of principal and interest (or less than the contractual par amount plus accrued interest) may meet the SPPI criterion if it is determined to include reasonable compensation for early termination. The Company has no impact on application of this amendment on the Company's financial statements.

Ind AS 12, Income Tax

Uncertainty over Income Tax treatments:

Appendix C in Ind AS 12 is effective from 1st April 2019 and it set out the principles on recognition and measurement principle when there is uncertainty over income tax treatments. An entity shall evaluate whether it is probable that the tax authority shall accept an uncertain tax treatment. If it is probable, the tax base shall be consistent with that of the items used in its income tax filings. If not probable, the Company shall reflect the effect of uncertainty by using either the most likely amount method or expected value method. If the uncertain tax treatment affects current and deferred tax, the entity shall make consistent judgement and estimates for current and deferred tax. The interpretation is effective for annual reporting periods beginning on or after 1st April 2019, but certain transition reliefs are available. The Company will apply the interpretation from its effective date. The Company has no impact on application of this amendment on the Company's financial statements.

Ind AS 23, Borrowing Costs

Computation of capitalization cost:

The amendment clarifies that in computing the capitalization rate for funds borrowed generally, an entity should exclude borrowing costs applicable to borrowings made specifically for obtaining a qualifying asset, only until the asset is ready for its intended use or sale. Borrowing costs related to specific borrowings that remain outstanding after the related qualifying asset is ready for intended use or for sale would subsequently be considered as part of the general borrowing costs of the entity. The amendment is applicable to borrowing costs incurred on or after the beginning of the annual reporting period beginning on or after 1 April 2019. The Company has no impact on application of this amendment on the Company's financial statements.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Ind AS 103, Business Combinations

Ind AS 111, Joint Arrangements

Remeasurement of previously held interests:

A new paragraph 42A to Ind AS 103 has been added to clarify that when an entity obtains control of a business that is a joint operation, then the acquirer would remeasure its previously held interest in that business. Such a transaction would be considered as a business combination achieved in stages and accounted for on that basis. Further, paragraph B33CA has been added to Ind AS 111 to clarify that if a party that participates in a joint operation, but does not have joint control, obtains joint control over the joint operation (which constitutes a business as defined in Ind AS 103), it would not be required to remeasure its previously held interests in the joint operation. The amendment points out that although such a transaction changed the nature of the entity's interest in the joint operation, it did not result in a change in the group boundaries. Consequently, no remeasurement of previously held interests would be required. These amendments are applicable prospectively for business acquisitions (in case of Ind AS 103) or transactions where joint control is obtained (in case of Ind AS 111) where the date of the transaction is on or after the beginning of the first annual reporting period beginning on or after 1 April 2019. Presently the provisions of Ind AS 103 and Ind AS 111 are not applicable to the Company.

Ind AS 28, Investment in Associates and Joint Ventures

Long-term interests in associates and joint ventures :

An entity's net investment in its associate or joint venture includes investment in ordinary shares, other interests that are accounted using the equity method, and other long-term interests, such as preference shares and long term receivables or loans, the settlement of which is neither planned, nor likely to occur in the foreseeable future. These long-term interests are not accounted for in accordance with Ind AS 28, instead, they are governed by the principles of Ind AS 109. As per para 10 of Ind AS 28, the carrying amount of an entity's investment in its associate and joint venture increases or decreases (as per equity method) to recognize the entity's share of profit or loss of its investee associate and joint venture. Paragraph 38 of Ind AS 28 further states that the losses that exceed the entity's investment in ordinary shares are applied to other components of the entity's interest in the associate or joint venture in the reverse order of their superiority. In this context, the amendments to Ind AS 28 clarify that the accounting for losses allocated to long-term interests would involve the dual application of Ind AS 28 and Ind AS 109. The annual sequence in which both standards are to be applied can be explained in a three step process:

Step 1 : Apply Ind AS 109 independently:

Apply Ind AS 109 (such as impairment, fair value adjustments, etc.) ignoring any adjustments to carrying amount of long-term interests under Ind AS 28 (such as allocation of losses, impairment

Step 2 : True-up past allocations:

If necessary, prior years' Ind AS 28 loss allocation is trued up in the current year, because Ind AS 109 carrying value may have changed. This may involve recognizing more prior year's losses, reversing these losses or re-allocating them between different long-term interests.

IRFC SIGNIFICANT ACCOUNTING POLICIES

Step 3 : Book current year equity share:

Any current year Ind AS 28 losses are allocated to the extent that the remaining long-term interest years' losses and then allocations are made against long-term interests.

These amendments are applicable from 1 April 2019. Ministry of Corporate Affairs has provided certain transitional provision for Ind AS 28. Presently the provisions of Ind AS 28 are not applicable to the Company.

2.24 Standards issued but not yet effective :

In July 2020, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) Amendment Rules, 2020 and Companies (Indian Accounting Standards) Second Amendment Rules, 2019, notifying certain amendments, as summarized below, to various Ind AS standards. The amendments are effective from accounting periods beginning from 1st April 2020 except for insertion of a Covid 19 related practical expedient to Ind AS 116, Leases (refer 2.23 above).

Amendments to Ind AS 1, Presentation of Financial Statements and Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors

Currently Ind AS 1 defines the term 'material, as under:

'Omissions or misstatements of items are material if they could, individually or collectively, influence the economic decisions that users make on the basis of financial statements'.

The amendment refines the definition of 'material' which is now as follows:

'Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general – purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity'.

Consequential amendments have been made to the following standards due to revised definition of material:

Ind AS	Title	Description
10	Events after the Reporting Period	Modification in paragraph 21 relating to disclosures of non – adjusting events after the reporting period.
34	Interim Financial Reporting	Modification of paragraph 24 whereby reference of definition of material as given in Ind AS 1 & Ind AS 8 has been removed.
37	Provisions, Contingent Liabilities and Contingent Assets	Modification in paragraph 75 relating to restructuring plan after the reporting period.

Amendments to Ind AS 103, Business Combinations

Currently Ind AS 103 defines business as 'an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing a return in the form of dividends, lower costs or other economic benefits directly to investors or other owners, members or participants'.

IRFC SIGNIFICANT ACCOUNTING POLICIES

The amendment revises the definition as under:

‘Business is an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing goods or services to customers, generating investment income (such as dividends or interest) or generating other income from ordinary activities’.

The amendments also:

- Introduces an optional concentration test to permit a simplified assessment of whether an acquired set of activities and assets is a business or asset acquisition;
- Provides additional guidance on how to assess whether an acquired process is substantive, if the acquired set of activities and assets does not have outputs and if it does have outputs.

Amendments to Ind AS 107, Financial Instruments : Disclosures

Amendments to Ind AS 109, Financial Instruments

The amendment modifies Ind AS 109 with respect to some specific hedge accounting requirements to provide relief to the potential effects of uncertainty caused by the interest rate benchmark (IBOR) reform with additional disclosure requirements under Ind AS 107.

The aforesaid amendments are effective from accounting periods beginning from 1st April 2020. The Company is currently assessing the impact of application of this amendment on the Company's financial statements.

K) Sensitivity analysis of the defined benefit obligation

Below is the sensitivity analysis determined for significant actuarial assumptions for the determination of defined benefit obligations and based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period while holding all other assumptions constant.

Particulars	As at 31 March 2020	As at 31 March 2019	As at 1 April 2018
a) Impact of the change in discount rate			
-Impact due to increase of 0.50 %	9.86	9.23	7.36
-Impact due to decrease of 0.50 %	10.67	9.94	7.95
b) Impact of the change in salary increase			
-Impact due to increase of 0.50 %	10.51	9.73	7.88
-Impact due to decrease of 0.50 %	10.07	9.27	7.42

Sensitivities due to mortality and withdrawals are not material and hence impact of change not calculated.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.

L) The employer's best estimate of contribution expected to be paid during the next year:

Particulars	As at 31 March 2020	As at 31 March 2019	As at 1 April 2018
Expected contribution of the next year	0.79	0.83	0.41

M) These plans typically expose the Company to Actuarial Risks such as Investment Risk, Liquidity Risk, Market Risk and Legislative Risk.

Actuarial Risk	It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons: Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected. Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate. Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.
Investment Risk	For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.
Liquidity Risk	Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cashflows.
Market Risk	Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.
Legislative Risk	Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

37.3 Actuarial Assumptions for unfunded Post Retirement Medical Benefits:

Particulars	As at 31 March 2020	As at 31 March 2019	As at 1 April 2018
Compensated absences			
Discount rate	6.55% p.a	7.50% p.a	7.60% p.a
Future salary increase	N/A	N/A	N/A
Medical inflation Rate	8.90%p.a	8.90%p.a	8.90%p.a
Retirement age	60 years	60 years	60 years
Mortality table	100% of IALM (2012-14)	100% of IALM (2006-08)	100% of IALM (2006-08)

These plans typically expose the Company to Actuarial risks such as Investment Risk, Liquidity Risk and Market Risk.

Actuarial Risk	It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons: Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected. Variability in morbidity rates: If actual morbidity rates are higher than assumed morbidity rate assumption than the Post Retirement Medical Benefits will be paid earlier than expected. Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Post Retirement Medical Benefits will not be paid earlier than expected. This will lead to an actuarial gain in the year of such experience.
Investment Risk	For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.
Liquidity Risk	Employees with high treatment costs and long durations of treatments, accumulate significant level of benefits. Such benefits can lead to strain on the cashflows.
Market Risk	Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

U) These plans typically expose the Company to actuarial risks such as Investment Risk, Liquidity Risk and Market Risk.

Actuarial Risk	It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons: Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an Increase in Obligation at a rate that is higher than expected. Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption then the leave benefit will be paid earlier than expected. The acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate. Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption then the leave benefit will be paid earlier than expected. The impact of this will depend on the relative values of the assumed salary growth and discount rate. Variability in avallment rates: If actual avallment rates are higher than assumed avallment rate assumption then leave balances will be utilised earlier than expected. This will result in reduction in leave balances and Obligation.
Investment Risk	For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

Note 38: Financial Instruments

38.1: Capital management

The Company manages its capital to ensure that the Company will be able to continue as going concern while maximizing the return to shareholders and also complying with the ratios stipulated in the loan agreements through the optimization of the debt and equity balance.

The capital structure of the Company consists of net debt (Debt Securities & Borrowings as detailed in Note 15 & 16 offset by cash and bank balances as detailed in Note 3) and total equity of the Company.

The Company is not subject to any externally imposed capital requirements.

38.2.2: Fair value measurements

Fair value hierarchy

The fair value hierarchy reflects the significance of the inputs used in making the measurements and has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices in markets that are not active) or indirectly (i.e. quoted prices for similar assets or liabilities);

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of 31 March 2020:

Valuation technique used to determine fair value

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used to estimate the fair values:

The Company holds nominal Equity (less than 0.26%) in IRCON International Limited. The equity shares of IRCON International Limited were listed on National Stock Exchange (NSE) with effect from 28 September 2018. The Company had elected to classify its investment in IRCON International Limited as fair value through other comprehensive income (OCI). The fair value as on 31 March 2020 & 31 March 2019 has been measured as per the quoted on National Stock Exchange (Level 1 input). The fair market value as at 1 April 2018 has been determined on the basis of book value computed as per the preceding year's annual financial statement of IRCON International Limited as available with the Company (Level 3 input).

Fair value of financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

The directors consider that the carrying amounts of financial assets and financial liabilities recognised in the financial statements approximate their fair values.

38.3 Financial risk management

The Company's activities expose it to a variety of financial risks which includes market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Company's focus is to ensure liquidity which is sufficient to meet the Company's operational requirements. The Company monitors and manages key financial risks to as to minimise potential adverse effects on its financial Performance. The Company has a risk management policy which covers the risks associated with the financial assets and liabilities. The details for managing each of these risks are summarised ahead.

38.4: Market risk

Market risk is the risk that the expected cash flows or fair value of a financial instrument could change owing to changes in market prices. The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

Company use derivative instruments to manage market risk against the volatility in foreign exchange rates and interest rates in order to minimize their impact on its results and financial position. Company policy is not to utilize any derivative financial instruments for trading or speculative purposes.

38.5: Foreign currency risk management

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

Particulars	Liabilities as at		Assets as at	
	As at 31 March 2020	As at 31 March 2019	As at 1 April 2018	As at 31 March 2020

Unsecured bonds from overseas capital market	1,51,671.11	69,571.19	62,579.67	-
Unsecured foreign currency term loans	96,539.07	25,618.35	49,136.46	-
Total	2,48,664.76	95,814.98	1,12,500.49	-

Foreign currency sensitivity analysis

The following table details the company's sensitivity to a 10% increase and decrease in the INR against the relevant outstanding foreign currency denominated monetary items. 10% sensitivity indicates management's assessment of the reasonable possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. A positive number below indicates an increase in profit or equity where Rupee appreciates 10% against the relevant currency. A negative number below indicates a decrease in profit or equity where the Rupee depreciates 10% against the relevant currency.

Particulars	As at 31 March 2020		As at 31 March 2019		As at 1 April 2018	
	INR strengthens by 10%	INR weakening by 10%	INR strengthens by 10%	INR weakening by 10%	INR strengthens by 10%	INR weakening by 10%
Profit or (loss)	24,866.48	(24,866.48)	9,581.50	(9,581.50)	11,250.05	(11,250.05)

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

38.6: Interest rate risk management

The Company is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings. Company use financial instruments to manage its exposure to changing interest rates and to adjust its mix of fixed and floating interest rate debt on long-term debt.

The Company's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/ lower and all other variables were held constant, the Company's:

- Profit for the year ended 31 March 2020 would decrease/increase by Rs.6,972.21 millions (31 March 2019: decrease/increase Rs. 5,861.05 millions, 1 April 2018: decrease/increase Rs. 5,144.72 millions). This is mainly attributable to the Company's exposure to interest rates on its variable rate debt securities;
- Profit for the year ended 31 March 2020 would decrease/increase by Rs. 3,235.53 million (31 March 2019: decrease/increase Rs. 1,837.40 millions, 1 April 2018: decrease/increase Rs. 845.15 millions). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

38.7: Other price risks

The Company has a small amount of investment in equity instruments, price risk of which is not considered material.

38.8: Credit risk management

Credit risk arises from the possibility that the counterparty will default on its contractual obligations resulting in financial loss to the company. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, and analysis of historical bad debts and ageing of accounts receivable.

The Company consider the probability of default upon initial recognition of assets and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is significant increase in credit risk, it considers reasonable and supportive forward looking information such as:

- Actual or expected significant adverse change in business.
- Actual or expected significant changes in the operating results of the counterparty.
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligation.
- Significant increase in credit risk and other financial instruments of the same counterparty.
- Significant changes in the value of collateral supporting the obligation or in the quality of third party guarantees or credit enhancements.

Credit risk is managed through approvals, establishing credit limits, continuous monitoring of creditworthiness of customers to which the company grants credit terms in the normal course of business. The company also assesses the financial reliability of customers taking into account the financial condition, current economic trends and historical bad debts and ageing of accounts receivables.

The Company's major exposure is from lease receivables from Ministry of Railways, Government of India and loans to Rail Vikas Nigam Limited and IRCON International Limited which are under the control of Ministry of Railways. There is no credit risk on lease receivables being due from sovereign. With respect to loan given to Rail Vikas Nigam Limited and IRCON International Limited, the company consider the Reserve Bank of India directions in terms of its circular no. RB/2017-18/181_DNBR (PD) CC. No. 092/03.10.001/2017-18 dated 31-May-2018 read with letter no. DNBR (PD), CO.No.1271/03.10.001/2018-19 dated 21-December-2018, to be adequate compliance with the impairment norms as per Ind AS 109, Financial Instruments, as IRCON International Limited and Rail Vikas Nigam Limited, both, are under Ministry of Railways, Government of India and the Company do not expect any concern in the repayment of aforesaid loans.

38.9: Liquidity risk management

Liquidity risk is defined as the potential risk that the Company cannot meet the cash obligations as they become due.

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the company's short, medium, and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves and banking facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. Besides, there is a provision in the lease agreements with the Ministry of Railways (MOR) whereby MOR undertakes to provide lease rentals in advance (to be adjusted from future payments) in case the Company doesn't have adequate liquidity to meet its debt service obligations.

Liquidity and interest risk tables

The following tables detail the company's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the company may be required to pay.

38.10: Derivative financial instruments

The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The objective of hedges is to minimize the volatility of INR cash flows of highly probable forecast transaction.

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

Note 41: Other Disclosures

- (a) Lease rental is charged on the assets leased from the first day of the month in which the Rolling Stock assets have been identified and placed on line as per the Standard Lease Agreements executed between the Company and MOR from year to year.
- (b) Ministry of Railways (MOR) charges interest on the value of the assets identified prior to the payments made by the Company, from the first day of the month in which the assets have been identified and placed on line to the first day of the month in which the money is paid to the MOR. However, no interest is charged from the MOR on the amount paid by the company prior to identification of Rolling stock by them.
- (c) (i) Interest rate variation on the floating rate linked rupee borrowings and interest rate and exchange rate variations on interest payments in the case of foreign currency borrowings are adjusted against the lease income in terms of the variation clauses in the lease agreements executed with the Ministry of Railways. During the year ended 31 March 2020, such differential has resulted in an amount of Rs. 583.35 millions accruing to the Company (31 March 2019: Rs. 707.98 millions, 1 April 2018: Rs. 477.42 millions (accruing to MOR)) which has been accounted for in the lease income.
- (ii) In respect of foreign currency borrowings, which have not been hedged, variation clause have been incorporated in the lease agreements specifying notional hedging cost adopted for working out the cost of funds on the leases executed with MOR. Hedging cost in respect of these foreign currency borrowings is compared with the amount recovered by the company on such account on notional cost basis and accordingly, the same is adjusted against the lease income. During the year ended 31st March 2020 in respect of these foreign currency borrowings, the Company has recovered a sum of Rs. 170.37 millions (31 March 2019: Rs. 699.39 millions, 1 April 2018 : Rs.1423.21 millions) on this account from MOR against a sum of Rs. NIL millions (31 March 2019:Rs. 1,732.43 millions, 1 April 2018 : Rs. 2097.67 millions) incurred towards hedging cost and the balance amount of Rs.170.37 millions (31 March 2019: Rs. 1,033.05 millions, 1 April 2018: Rs.674.46 millions) is recoverable from MOR.
- (d) The Leases executed for Rolling Stock in the year 1989-90, 1988-89 & 1987-88 for Rs. 10,725.60 millions, Rs. 8607.27 millions & Rs.7,703.27 millions have expired on 31 March 2020, 31 March 2019 & 31 March 2018 respectively. During the primary and secondary lease periods full value of assets (including interest) has been recovered from the lessee (MOR). These assets have outlived their useful economic life. Formalities for the transfer of these assets to MOR are under progress and necessary adjustments in the accounts if required, will be carried out on transfer of Rolling Stock to MOR.

Note 42:

- (a) (i) The Reserve Bank of India has issued Master Direction – Non- Banking Financial Company- Systemically Important Non Deposit Taking Company and Deposit Taking Company (Reserve Bank) Directions, 2016 vide notification DNBR.PD.008/03.10.119/2016-17 dated 1st September 2016 as amended from time to time have become mandatory with effect from 31 May, 2018. The Reserve Bank of India has granted exemption to the Company in respect of classification of asset, provisioning norms and credit concentration norms to the extent of direct exposure to sovereign.
- (a) (ii) Till the financial year 2017-18, the Company, being a government NBFC, was exempt from creation and maintenance of Reserve Fund as specified u/s 45-IC of Reserve Bank of India Act, 1934. However, the said exemption has been withdrawn by the Reserve Bank of India (RBI) vide Notification No. DNBR (PD) CC.NO.092/0310.001/2017-18 dated 31st May 2018. Accordingly, the Company is now creating the Reserve Fund as required u/s 45IC of RBI Act, 1934, wherein at least 20% of net profit every year will be transferred before the declaration of dividend. No appropriation is allowed to be made from the reserve fund except for the purpose as may be specified by the Bank from time to time and further, any such appropriation is also required to be reported to the Bank within 21days from the date of such withdrawal. The Company created a reserve of Rs. 4,509.50 millions as on 31st March 2019 u/s 45IC. The reserve for the year 2019-20 will be Rs. 7,384.85 millions.
- (b) In terms of the Ministry of Corporate Affairs circular dated 18th April 2002, the Company, being a Non-Banking Finance Company registered with RBI, is required to create Bond Redemption Reserve equivalent to 50% of the value of the bonds raised through Public issue by the redemption date of such Bonds. Subsequently, the requirement for creation of Bond Redemption Reserve in case of Public Issue of bonds by Non-Banking Finance Company registered with RBI was brought down to 25% by MCA vide their circular dated 11th February 2013. Further, the Companies (Share Capital and Debentures) Rules, 2014 dated 3rd April 2014 also mandates the Non- Banking Finance Companies registered with RBI to create Bond Redemption Reserve equivalent to 25% of the value of the Bonds raised through public issue by the redemption dates of such bonds. Accordingly, the Company was required to transfer 50% of the value of the bonds raised through public issue during FY 2011-12 and 25% of the value of Bonds raised through Public Issue during 2012-13, FY 2013-14 and FY 2015-16 to Bond Redemption Reserve by the redemption dates of such Bonds. The Company has raised Rs. 2,48,816.74 millions through public issue of bonds in FY 2011-12, FY 2012-13, FY 2013-14 and FY 2015-16. The average residual maturity of the above mentioned bonds is more than 7 years as on 31st March 2019. The Company had transferred an amount of Rs. 57,145.59 millions to the Bond Redemption Reserve till the end of F.Y. 2018-19.

The Ministry of Corporate Affairs has notified the Companies (Share Capital and Debentures) Amendments Rules, 2019 on 16th August, 2019 which exempts NBFC listed companies registered with Reserve Bank of India u/s45-IA of the RBI Act, 1934 from creation of Debenture Redemption reserve. Accordingly, the balance outstanding against Bond Redemption Reserve as on 31st March 2019 amounting to Rs. 57,145.59 million has been transferred to retained earnings.

- (c) The Comptroller & Auditor General of India (C&AG) during the course of their supplementary review of accounts for the Financial year 2018-19 had made an observation that the 'Advance against the Railway infrastructure Assets to be leased.' should have been classified under other non financial assets. Based on the reply furnished by the Company, the C&AG had decided to drop the observation. However, as agreed, during the course of discussion with the C&AG, the matter has been referred to the Expert Advisory Committee of the Institute of Chartered Accountants of India for an expert opinion. Pending reply from the Institute, Company has classified the aforesaid advances as 'other financial assets.'

Note 43:

- i. The Finance Act, 2001 provides for levy of service tax on the finance and interest charges recovered through lease rental installments on the Financial Leases entered on or after 16-07-2001. The Central Government vide Order No.1/1/2003-ST dated 30 April 2003 and subsequent clarification dated 15-12-2006 issued by Ministry of Finance has exempted the Lease Agreements entered between the Company and Ministry of Railways from levy of Service Tax thereon u/s 93(2) of Finance Act, 1994.
- ii. The GST Council in their meeting held on 19 May, 2017 has exempted the services of leasing of assets (rolling stock assets including wagons, coaches, locos) by Indian Railways Finance Corporation to Indian Railways from the levy of Goods & Service Tax (GST), Notification No. 12/2017 (Heading 9973) which has been made applicable with effect from 1 July, 2017.
- iii. Company had deposited a sum of Rs 14,664.47 millions under reverse charge mechanism on transfer of funds to MoR for making payments on behalf of Company to contractors for construction of projects. The amount so deposited had been shown as an amount recoverable from MoR. As the above did not involve any supply from MoR to the Company, a refund application has been filed with the GST Deptt. and the amount recoverable from MoR has been transferred to GST Refund Account. The refund application is yet to be disposed of by the GST Department. In the event of non admissibility of refund claim the by the GST Department, the amount would be adjusted against the GST liability on lease rentals from infrastructure assets or other GST liability in future.

Note 44:

Increase/Decrease in liability due to exchange rate variation on foreign currency loans for purchase of leased assets amounting to Rs. 16,784.85 millions (31 March, 2019: Increase Rs. 2,670.04 millions, 1 April 2018: Increase Rs. 492.30 millions) has not been charged to the Statement of Profit and Loss as the same is recoverable from the Ministry of Railways (lessee) separately as per lease agreements. The crystallized exchange rate variation loss on foreign currency loans repaid during the year amounting to Rs. 92.86 millions (31 March 2019: Rs. 5,779.74 millions, 1 April 2018: Rs. 4,017.60 millions) has been recovered from the Lessee, leaving a balance of Rs. 21,803.80 millions recoverable from MoR as on 31 March 2020 (31 March, 2019: Rs. 5,111.80 millions, 1 April 2018: Rs. 8221.51 millions).

(e) Estimation of uncertainty relating to the Global Health Pandemic COVID-19

The outbreak of Coronavirus (COVID -19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. The Company has adopted measures to curb the spread of infection in order to protect the health of our employees and ensure business continuity with minimal disruption.

The Company has evaluated impact of this pandemic on its business operations and based on its review and current indicators of future economic conditions, there is no significant impact on its financial results. However, the impact assessment of COVID 19 is a continuing process given the uncertainties associated with its nature and duration and accordingly the impact may be different from that estimated as at the date of approval of these financial statements. The Company will continue monitoring any material changes to future economic conditions.

Note 47:

- (a) The Company discharges its obligation towards payment of interest and redemption of bonds, for which warrants are issued, by depositing the respective amounts in the designated bank accounts. Reconciliation of such accounts is an ongoing process and has been completed upto 31 March 2020. The Company does not foresee any additional liability on this account. The total balance held in such specified bank accounts as on 31st March 2020 is Rs. 95.29 millions (31 March, 2019: Rs. 80.91 millions, 1 April 2018: Rs.58.16 millions).
- (b) The Company is required to transfer any amount remaining unclaimed and unpaid in such interest and redemption accounts after completion of 7 years to Investor Education Protection Fund (IEPF) administered by the Ministry of Corporate Affairs, Government of India. During the year ended 31 March 2020, a sum of Rs. NIL millions was deposited in IEPF (31 March, 2019: Rs.0.07 millions, 1 April 2018: Rs. 0.07 millions).

Note 48:

The Company, in the earlier years, had executed Asset Securitisation Transactions by securitising an identified portion of future lease rentals originating on its assets leased to Ministry of Railways. As part of the securitisation transaction, future lease rentals were transferred to a bankruptcy remote Special Purpose Vehicle (SPV) which, in turn, issued Pass Through Certificates (PTCs) to the investors. The lease receivables, accordingly, were derecognised in the books of account of the company.

In terms of the Reserve Bank of India (RBI) Guidelines on Minimum Retention Requirement issued by the Reserve Bank of India as applicable to the Non-Banking Finance Companies, the company being the originator, had opted to retain a minimum of 5% of the book value of the receivables being securitised. Accordingly, the Company had invested Rs. 169.77 millions in the Pass Through Certificates (PTCs) issued by the 'Special Purpose Vehicle' towards Minimum Retention Requirement. Out of the amount invested in Pass Through Certificates (PTCs), Rs. 147.54 millions have matured till 31st March 2020, leaving a balance of Rs.22.23 millions. Details of the amount invested in Pass Through Certificates (PTCs) and outstanding as on 31st March 2020 is as follows:

54.2.3. Derivative Instruments

The Company judiciously contracts financial derivative instruments in order to hedge currency and / or interest rate risk. All derivative transactions contracted by the Company are in the nature of hedging instruments with a defined underlying liability. The Company does not deploy any financial derivative for speculative or trading purposes.

(a) The Company uses foreign currency forward contracts to hedge its risk associated with foreign currency fluctuations in respect its External Commercial Borrowings.

Outstanding foreign exchange forward contracts entered into by the Company which have been used for hedging the foreign currency risk on repayment of external commercial borrowings (principal portion):

As at 31 March 2020			As at 31 March 2019			As at 1 April 2018

(d) Other than currency forward contracts, the Company also resorts to interest rate derivatives like Cross Currency Interest Rate Swap and Interest Rate Swap for hedging the interest rate risk associated with its external commercial borrowings.

The Company recognizes these derivatives in its Financial Statements at their Fair Values. Further, in view of the fact that these derivatives are Over the Counter (OTC) contracts customized to match the residual tenor and value of the underlying liability, the Company relies on the valuations done by the counter parties to the derivative transactions using the theoretical valuation models.

For the purpose of this note:-

i) The Company classify an assets as current when,

- It expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- It holds the asset primarily for the purpose of trading;
- It expects to realise the asset within twelve months after the reporting period or;
- The asset is cash or a cash equivalents (as defined in Ind AS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non current.

ii) The Company classify a liability as current when,

- It expects to settle the liability in its normal operating cycle;
- It holds the liability primarily for the purpose of trading;
- The liability is due to be settled within twelve months after the reporting period or;
- It does not have an unconditional right to defer settlements of the liability for at least twelve months after the reporting period (see paragraph 73). Terms of a liability that could at the option of the counterparty, result in its settlement by the issue of equity instruments do not affects its classification.

All other liabilities are classified as non current.

Notes to financial statements

(All amounts in million of INR, unless stated otherwise)

Since the total impairment allowances under Ind AS 109 is equal to the total provisioning required under IRACP (including standard asset provisioning) as at 31 March 2020, no amount is required to be transferred to 'Impairment Reserve'. The gross carrying amount of asset as per Ind AS 109 and Loss allowances (Provisions) thereon includes interest accrual on net carrying value of stage - 3 assets as permitted under Ind AS 109. While, the provisions required as per IRACP norms does not include any such interest as interest accrual on NPAs is not permitted under IRACP norms.

The balance in the 'Impairment Reserve' (as and when created) shall not be reckoned for regulatory capital. Further, no withdrawals shall be permitted from this reserve without prior permission from the Department of Supervision, RBI.

- (ii) In terms of recommendations as per above referred notification, the Company has adopted the same definition of default for accounting purposes as guided by the definition used for regulatory purposes.

As at 31 March 2020, there are no loan accounts that are past due beyond 90 days but not treated as impaired.

Independent Auditor's Report

To the Members of

Indian Railways Finance Corporation Limited

Report on the Financial Statements

OPINION

We have audited the standalone financial statements of **Indian Railway Finance Corporation Limited** ("the Company"), which comprise the standalone balance sheet as at 31st March, 2020 and the standalone statement of Profit and Loss (including Other Comprehensive Income), standalone Statement of Changes in Equity, and the standalone Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the company as at 31st March, 2020, and the profit and other comprehensive income, changes in equity, and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules there-under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

EMPHASIS OF MATTERS

We draw attention to the Comptroller & Audit General (C&AG) of India Auditor's observations regarding the presentation/classification of the "Advance given against railway infrastructure assets to be Leased" on to the railways and advance funding against National projects into "Non financial Assets-Capital Advances" instead of "Other Financial Assets" as treated by the company. The total amount under observation is Rs. 6,99,916.58 Millions as at March 31, 2019. As agreed with C & AG, the company has referred the matter to the Expert Advisory Committee of the Institute of Chartered Accountants of India for an expert opinion. The reply from ICAI is awaited.

As informed to us by the management of the company, the company is still waiting for the Expert opinion from The Institute of Chartered Accountants of India, the same accounting treatment has been followed while preparing the financials as on March 31, 2020. The total amount under the head "Other Financial Assets" is Rs. 11,11,080.22 Millions as on March 31, 2020. Our opinion is not modified in respect of this matter.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the Key Audit Matters to be communicated:-

S.No.	Key Audit Matters	Auditor's Response
1.	<p>The government has introduced new section 115BAA by the Taxation Law (Amendment) Ordinance, 2019 w.e.f F.Y 2019-20, which provides an option to opt for a income tax rate of 22%, Surcharge 10% & Health and Education Cess at 4% by any domestic company.</p> <p>By opting this total effective tax rate will be at 25.168% (under normal provision of income tax) as against earlier effective tax rate of 34.944% (under normal provision of income tax).</p> <p>However, the earlier effective tax rate under MAT was 21.549% which was applicable on the company.</p>	<ul style="list-style-type: none"> After adoption of irrevocable option of section 115BAA of Income Tax Act, 1961, the taxable income under the normal provision income tax may become NIL. Further after adoption of section 115BAA, the company will be outside the scope and applicability of MAT Provision under section 115JB of Income Tax Act, 1961. Hence, no tax liability may be there w.e.f F.Y 2019-20 on the company. However, the accumulated MAT Credit of Rs. 36,836.86 Millions as on 31.03.2019 by adoption of section 115BAA is not going to be claimable by the company against their future tax liability under normal provisions of Income Tax Act, 1961. As per the past records, the company was not able to adjust/claim MAT Credit against the normal tax liability and the same has not been provided in the books of accounts accordingly. In view of above, the company is not likely to loose any amount against the accumulated MAT credit of Rs. 36,836.86 Millions. Hence no tax provision has been created for the year ended March 31, 2020.
2.	<p>The Ministry of Corporate Affairs has notified the Companies (Share Capital and Debentures) Amendments Rules, 2019 on 16th August, 2019 which exempts NBFC listed companies registered with Reserve Bank of India under section 45-IA of the RBI Act, 1934 from creation of Debenture Redemption Reserve. However the Company is required to invest or deposit a sum of not less than fifteen percent of the amount of debentures maturing during the year ending on the 31st day of March of the</p>	<p>The Bond Redemption Reserve as on 31.03.2019 amounting to Rs. 57,145.59 Millions has been transferred to General Reserve.</p>

	next year as prescribed under these rules	
3.	<p>The Ministry of Corporate Affairs, Government of India vide its letter no. 17/16/2017-CL-V dated 20th March 2020, has granted reversal of its accumulated deferred tax balance and consider the same as a part of net worth of the company.</p>	<ul style="list-style-type: none"> The Ministry of Corporate Affairs, Government of India advised the company to apply paragraph 11 of Ind AS 01, First Time adoption of Ind AS read with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors. Accordingly, the Company has during the current financial year reversed the deferred tax liability of Rs. 64,431.40 million by crediting the retained earnings as at 1st April 2017 being the date of transition to Ind AS treating this as a change in accounting policy that results in the financial statements providing reliable and more relevant information about the effects of the transactions, other events or conditions on the entity's financial position, financial performance or cash flows This being retrospective application, therefore in accordance with paragraph 40A of Ind AS 1, Presentation of Financial Statements, the Company has presented a third balance sheet at the beginning of the preceding period.
4	<p><u>IT systems and controls</u> Financial accounting and reporting processes, especially in the financial services sector, are fundamentally reliant on IT systems and IT controls to process significant transaction volumes, hence we identified IT systems and controls over financial reporting as a key audit matter for the Company. Automated accounting procedures and IT environment controls, which include IT governance, general IT controls and IT operations, are required to be designed and to operate effectively to ensure reliable financial reporting.</p>	<ul style="list-style-type: none"> We tested the design and operating effectiveness of the Company's IT access controls over the information systems that are important to financial reporting and various interfaces, configuration and other identified application controls. We tested IT general controls. This included testing requests for access to systems were reviewed and authorized. We tested the Company's periodic review of access rights. We also tested requests of changes to systems for approval and authorization. In addition to the above, we tested the design and operating effectiveness of certain automated controls that were considered as key internal controls over financial reporting. The accounting software used by the company is not Ind AS complied as on date. However, the management is working upon the same to make it Ind AS complied.
5	<p><u>Adoption of Ind AS 116 Leases</u> As described in Note 2.14 to the standalone</p>	<p>Our Audit Procedure on adoption of Ind AS 116 include:-</p>

OTHER INFORMATION

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

MANAGEMENT RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error

In preparing the Standalone Financial Statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonable knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work: and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant

ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-sec on 3 of Sec on 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Indian Railway Finance Corporation Limited** ("the Company") as of 31st March, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

OPINION

We have audited the internal financial controls with reference to financial statements of Indian Railway Finance Corporation Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note")

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting, issued by the Institute of Chartered Accountants of India ('ICAI') (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material

misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

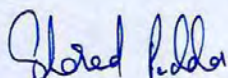

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that:-

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA
UNDER SECTION 143(6) (b) OF THE COMPANIES ACT, 2013 ON THE
FINANCIAL STATEMENTS OF INDIAN RAILWAY FINANCE CORPORATION
LIMITED FOR THE YEAR ENDED 31 MARCH 2020.**

The preparation of financial statements of **INDIAN RAILWAY FINANCE CORPORATION LIMITED** for the period ended 31 March 2020 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 is the responsibility of the management of the company. The Statutory Auditors appointed by the Comptroller and Auditor General of India under Section 139 (5) of the Act are responsible for expressing opinion on the financial statements under Section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 28.08.2020

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the financial statements of **INDIAN RAILWAY FINANCE CORPORATION LIMITED** for the period ended 31 March 2020 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report under section 143 (6) (b) of the Act.

For and on the behalf of the
Comptroller & Auditor General of India
